The Irony! Africa Is Testing Ground for “Trust Stamp” Vaccine Passport Slavery System

In July 2020 a public-private partnership program between the Bill Gates, Mastercard, and the Artificial Intelligence company Trust Stamp introduced a “biometric identity platform” in remote communities in West Africa.

The “Wellness Pass” is a digital vaccination record and identity system that ties an individual’s health record into a financial system. Critics

say that the program is more aimed at promoting the health of markets for vaccines and Mastercard’s “World Beyond Cash” program rather than the health of individuals. They note that “Trust Stamp” is offering the same technology to COVID-19 response that it offers to law enforcement and prison systems for the purposes of surveillance and predictive policing.

The COVID Cult & the Stockholm Syndrome

Why would anyone continue to follow the failed and damaging “pandemic” policies of an enemy who is openly trying to kill the human race, long after the enemy has retreated? The Stockholm Syndrome is a condition in which hostages develop a psychological and emotional bond with their captors during captivity.

Stockholm syndrome victims dutifully embrace the stay-at-home orders; they wear 3 masks when their captor calls for just one; they happily shut down their small family business; they slather on loads of disinfectant chemicals on their bodies; and they otherwise over-comply with the depopulators’ every wish and desire. They are the hall monitors, the tattletales, and the shamers of those who question the “authorities,” whose histories are awash in murder and deception. The Messenger calls uu.

The term Stockholm Syndrome was first used by the media in 1973 when four hostages were taken during a bank robbery in Stockholm, Sweden. The hostages defended their captors after being released and would not agree to testify in court against them.

Actions and attitudes similar to those suffering from Stockholm Syndrome have also been found in victims of sexual abuse, domestic violence, human trafficking, extremism, terrorism, economic oppression, political repression, and religious persecution.

Study: “Lockdowns” Do Nothing to ‘Virus’ But ‘Devastate’ Society

A literature review and meta-analysis of the effects of lockdowns on COVID-19 mortality released in January 2022 by **Johns Hopkins Institute for Applied Economics and Global Health** has now concluded:

“...lockdowns during the initial phase of the COVID-19 pandemic have had devastating effects. They have contributed to reducing economic activity, raising unemployment, reducing schooling, causing political unrest, contributing to domestic violence, and undermining liberal democracy. These costs to society must be compared to the benefits of lockdowns, which our meta-analysis has shown are marginal at best. Such a standard benefit-cost calculation leads to a strong conclusion: lockdowns should be rejected out of hand as a pandemic policy instrument.”

Bill Gates Complains: ‘I’m cited as some mastermind in some evil plot’

Billionaire land owner, eugenicist, and pandemic profiteer Bill Gates has been treated as the vaccine oracle of the world even though he has no medical degree. He was interviewed at the Bloomberg New Economy Forum, where he admitted that COVID has been “an interesting test in people’s trust in their politicians or their health system.”

“And, statistically we didn’t do as well as I would have expected. In fact, I’m cited as some mastermind in some evil plot in many, many cases. I didn’t expect any of that. In some ways the politicization of taking vaccines and helping protect other people, you can almost say that [we’ve taken] a step backwards. You know, I hope vaccine acceptance for other diseases like measles is not reduced by this. A lot of people jumped in and took the vaccines but a meaningful minority in most countries were led down a path of believing that not only were there rare side effects, but the vaccine wasn’t properly tested, or was part of some evil conspiracy.”

“Social Distancing” Has NO BASIS in Science

One of the most damaging “pandemic” measures forced on the world by the depopulators is “social distancing,” in which the “authorities” require that individuals maintain a six foot distance from each other to “slow the spread” of the alleged virus. This practice has forced thousands of businesses to shut their doors forever and has done more to disrupt the normal human interaction than any other “pandemic” dictate. But “social distancing” has absolutely NO BASIS in science at all.

In fact, it is based on a computer model created by a 15-year-old Albuquerque, New Mexico high school student named Laura Glass. Along with her father Robert (a government scientist then working at Sandia National Laboratories) the child worked up a computer model for a science and engineering fair in 2006. Her “model” suggested high school students could infect huge swaths of a population, so putting a stop to those contacts would hypothetically “save lives.”

Her efforts earned her third place in the science fair but through her father’s government connections the youth’s contagion computer model ended up on the desks of the US Department of Homeland Security of the George Bush administration. Glass received a call from Homeland Security Secretary Michael Chertoff requesting a briefing. Ultimately the Centers for Disease Control (CDC) made “social distancing” official policy in February 2007.
