

“The fact that fasting is the cure to 90 per cent of our ills is known by the medical scientists. But, they do not teach you that.” —**The Most Honorable Elijah Muhammad**

Monkey Pox: Truth versus Fearporn

Dr. Robert W. Malone invented the mRNA vaccine platform technology, but then watched it being weaponized against the people. He discusses the latest “monkey pox outbreak” in a recent article titled “**Monkey Pox: Truth versus Fearporn**”:

“So, is the biothreat real? Is it imminent? Does it justify the global media hype? As I was waiting in an airport lounge to travel from USA to the UK two days ago, I saw a newsreel from CNN which was breathlessly reporting on this “threat” while displaying historic images of patients suffering from Smallpox disease. This provides a classical example of public health fearporn, in my opinion, and CNN should be reprimanded for broadcasting irresponsible propaganda—misinformation and disinformation—under the guise of journalism.

“In my opinion, based on currently available information, Monkeypox is a virus and disease which is endemic in Africa, emerges sporadically after transmission into humans from animal hosts, and is typically spread by close human contact. It is readily controlled by classical public health measures. It does not have a high mortality rate. Unless there has been some genetic alteration, either through evolution or intentional genetic manipulation, it is not a significant biothreat, and has never been considered a high threat pathogen in the past. So stop the fear mongering, misinformation and disinformation.”

American History of Medical Racism & Savagery

Dr. Jonas Salk introduced his polio vaccine in 1953. But **The Most Honorable Elijah Muhammad** forbade

Nation of Islam members from taking it. Within days of receiving Salk’s vaccine, reports of “vaccine-associated polio paralysis” began surfacing. One report describes that event:

“Within a month, the mass vaccination program against polio had to be suspended. Salk’s vaccine had caused seventy thousand cases of muscle weakness, one hundred and sixty-four cases of severe paralysis and ten deaths. Three fourths (75 percent) of the victims remained paralyzed for the rest of their lives.”

The COVID-19 VACCINE: “We Have No RIGHT to Trust Them.”

Newly released Pfizer documents reveal Fraud and Corruption

On May 2nd, Pfizer released another 80,000 pages of clinical trial data related to its COVID shot, which the depopulation leaders have tried to force into virtually every global citizen over the age of 5. Pfizer and the FDA went to court to conceal the data for 75 years but the judge rejected their request. And now it is becoming clear why they wanted 75 years to hide. Researchers have found that:

While Pfizer and the U.S. government claimed the “vaccine” was shown to be “95% effective against COVID-19,” the documents that Pfizer was court-ordered to release prove otherwise. Researcher **Emerald Robinson** offers an extensive review of the Pfizer docs: “*The data seems to indicate that the efficacy rate was as low as 12 percent within the first week post-jab and then continues to plummet to less than 1 percent.*”

The documents further reveal that pregnant women were not included in the safety trials yet were immediately encouraged to take the shots. Pfizer and government officials used data from 44 rats to determine the shots were “safe” for women and their unborn children.

A reported 25,706 patients are missing from Pfizer data. And as of May 2, data from only 9 out of 158 clinical trial sites are accounted for.

Despite claims that the Pfizer poison does not migrate through the body, the documents show that lipid nanoparticles contained within the Pfizer shots were found throughout the body 48 hours post-injection, integrating into other tissues and organs, including ovaries and liver.

NY Mandatory Statewide Adult Vaccination Database is Proposed

Health freedom advocates have warned that New York state depopulators, having successfully stripped the rights of its students when it comes to vaccination choice, are now coming for the adults. Senate Bill S75A, introduced by **State Sen. Brad Hoylman**, would require physicians and healthcare providers to register every shot provided to people 19 and over in the state database. Hoylman has publicly demanded that the NYPD wear masks even though there is absolutely no science supporting any medical benefit to masks, other than to generate fear and distress.

A vaccine database would further enable vaccine passports and systems of segregation based on vaccination status. Such a system would allow easy tracking and targeting of noncompliant adults.

Veteran Doctor Sees Damage to Child Patients from COVID Jab

Dr. Michelle Perro is a pediatrician with four decades of experience in major hospitals and ERs. Once the U.S. Food and Drug Administration authorized the COVID jab for children, aged 12 to 17, it didn’t take long before Dr. Perro started seeing injuries in her practice:

“I was amazed at how many kids were injured ... The types of reactions I started seeing were initially neurologic. Some of them in the beginning were simple but concerning, like tinnitus, which is ringing in the ear, and that could be horrific for a kid ...

“I saw cardiac [problems], myocarditis for sure, and abnormal heart rate responses like tachycardia and increased heart rate ...

“I saw POTS — postural orthostatic tachycardia syndrome — something very common in Lyme disease that is very difficult to treat. Another weird thing I saw was this one child with rhabdomyolysis, where he had massive breakdown of his muscle tissue, which is a very rare event in childhood.

“Then, I started seeing people develop symptoms who were unvaccinated, including myself. I got ‘spiked.’ That’s what I call it, ‘getting spiked.’

“[I saw] teenage girls with heavy menstrual bleeding, prolonged bleeding, and other menstrual irregularities. There was a smattering of rashes, urticaria, hives — a bizarre host of rashes.

“So, this is the kind of stuff we started seeing, and this began happening last June [2021]...*There is a bigger agenda here, because clearly these vaccines are dangerous for kids. There’s no doubt. The data is irrefutable, and yet we’ve proceeded. So, we’re dealing with other agendas here ...* I think parents need to rise up and protect their children, because this is not going away. If anything, it’s ramping up.”

Merriam Webster

gaslighting noun

Definition of gaslighting

: psychological manipulation of a person usually over an extended period of time that causes the victim to question the validity of their own thoughts, perception of reality, or memories and typically leads to confusion, loss of confidence and self-esteem, uncertainty of one’s emotional or mental stability, and a dependency on the perpetrator

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

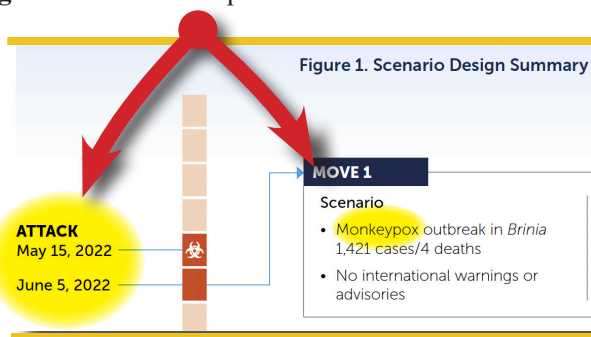

—The Most Honorable Elijah Muhammad

Monkeypox Looks Like Monkey Business

“Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine.”

—The Honorable Minister Louis Farrakhan

Can we fathom the depths of Satan? A strange set of “coincidences” has accompanied the appearance of “monkeypox” in the now 2+-year global depopulation operation. With stunning accuracy a 36-page document published by the **Nuclear Threat Initiative (NTI)** just six months ago planned for a “**monkeypox attack**” that would occur in the fictional nation of Brinia between May 15th and June 5th of 2022! Page 10 of this “planning document” titled “**Strengthening Global Systems to Prevent and Respond to High-Consequence Biological Threats**” is reproduced below:

The “outbreak” comes in the very same week that the member nations of the Bill Gates-funded **World Health Organization** are gathering to vote to secure a “global pandemic agreement,” which would give WHO the power to impose a worldwide vaccine passport system (Mark of the Beast) and override the laws of every nation should Gates declare a “pandemic.” Monkeypox is exactly the kind of scary world “crisis” necessary to force compliance with the WHO’s unprecedented power grab.

Incredibly, **THE NEXT PANDEMIC** comes just a couple of weeks after Gates’s new book, *How to Prevent the Next Pandemic*, hit store shelves. In one interview promoting his book, the intrepid vaccine depopulator actually predicts what “the next pandemic” may be: “**What if a bioterrorist brought smallpox to ten airports...**” Well, according to the NTI’s twisted scenario the lab-altered monkeypox was released “by agents of a terrorist group *operating in neighboring Arnica*.” **ARNICA!**? Notice how close their fictional name is to **AFRICA**. And news reports say that “scientists are baffled” about how monkeypox appeared in just about **10 nations** at once.

Yet, there is more. Just so happens that in September 2019, the **U.S. Food and Drug Administration** announced the approval of a **Monkeypox Vaccine**, for a disease that would become the depopulators’ choice for “the next pandemic” just a couple of years later.

“We have 21,000 cases of myocarditis and climbing... that the CDC has verified. 1 was too many. Under no circumstances, should a young person ever receive one of these vaccines, let alone ever be mandated to receive a vaccine.”

-Peter McCullough, MD
COVID 19 - A Second Opinion
Roundtable • Jan. 24th, 2022

A study analyzing data collected between 2019 and 2021 show that there was an **over 25% increase in emergency calls about cardiac arrest** and heart-related problems for young adults, compared to the same time period in both 2019 and 2020. The researchers explain:

“[T]he weekly emergency call counts were significantly associated with the rates of 1st and 2nd vaccine doses administered to this age group [16 to 39] but were not with COVID-19 infection rates.”

RF Kennedy Jr.: Bill Gates Vaccine Killed More African Children Than the Diseases it Targeted

Bill Gates’s global vaccine program has never provided proof that the Diphtheria, Tetanus and Pertussis (DTP) vaccine actually yields beneficial health outcomes. The DTP vaccine was discontinued in the US and western nations in the 1990s following thousands of reports of death and brain damage.

A Danish study in 2017 showed that African girls injected with the DTP vaccine died at **10 times the rate of unvaccinated children**. But Bill Gates and the World Health Organization he controls, made DTP a priority for African babies.

The Danish researchers were shocked when they found that in Guinea Bissau the vaccinated children were protected from Diphtheria, Tetanus and Pertussis, but they were far more susceptible to other deadly diseases than unvaccinated peers. The vaccine apparently compromised their immune systems. Thanks to Gates, DTP is the world’s most popular vaccine.

The researchers suggested that the DTP vaccine is killing more children than the diseases it targets. Kennedy asks, “Shouldn’t we be scrutinizing Bill Gates’ record in Africa before we let him dictate which medicines we need to take?”

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 7

As a **PUBLIC SERVICE**, we in the Nation of Islam want to prepare ALL Americans for the “**Vaccine Passports**” that are now being readied for full operation in the U.S. and around the world. Just as with slavery’s plantation passes, the Digital ID system is designed for a privately run corporation to control every aspect of your life, including your ability to travel, buy food, obtain medical care, attend school, secure a job, start a business, and all else you now take for granted—your every activity will be based on the digital permission slip that verifies your medical status and vaccination history. Here is how the plantation passport system operated in America:

Clayborn Gantling was born in Dawson, Terrell County, Georgia, January 20, 1848, on the plantation of Judge Williams.

“They had whut you call “pattyrollers” who would catch you from home and ‘wear you out’ and send you back to your master. If a master had a slave he jes’ could not rule (some of ‘em wuz hard and jes’ would not mind de boss), he would ask him if he wanted to go to another plantation and if he said he did, then, he would give him a pass and that pass would read: “Give this nigger hell.” Of course when the “pattyroller” or other plantation boss would read the pass he would beat him nearly to death and send him back. Of course the nigger could not read and did not know what the pass said. You see, dey di not ‘low no nigger to have a book or piece of paper of any kind and you know dey wuz not go teach any of ‘em to read.

“Slave Interviews,” by Federal Writers Project (published 1936)
