

Triple Jabbed up to 5 times more likely to be infected with Covid-19 than the Unvaccinated

Official data published by the UK Health Security Agency confirm Covid-19 “vaccine” effectiveness against infection has fallen to minus-391% among triple jabbed 60- to 69-year-olds, and between minus-298% and minus-324% among those aged 30 to 59.

All other age groups have also suffered a significant drop in vaccine effectiveness, with figures showing all triple-vaccinated adults now between 3 and 5 times more likely to be infected with Covid-19 than unvaccinated adults.

According to the U.K.’s *Daily Expose*, “The figures show that the case-rates are highest among the triple vaccinated in all age groups. But not just by a little bit, instead by a million miles. And the gap between the unvaccinated and triple vaccinated has been getting worse by the month. Therefore, these figures indicate the COVID-19 injections make recipients more likely to be infected with COVID-19 than the unvaccinated population.

“These figures show that 60-69-year-olds are nearly 5 times more likely to be infected with Covid-19 than unvaccinated 60-69-year-olds, and show that 40-59 and 70-79-year-olds are over 4 times more likely to be infected with Covid-19 than their unvaccinated counterparts.

Is there any wonder the UK Health Security Agency decided to stop publishing weekly figures as of 1st April 2022?”

American History of Medical Racism & Savagery

Dr. Jonas Salk is considered a “hero” in the medical world; he received multiple honors including the Presidential Medal of Freedom in 1977. But it has now come to light that Dr. Salk conducted Nazi-like experiments on disabled Americans before developing his famous polio vaccine.

Salk vaccinated 8,000 patients at two mental institutions in Michigan. He infected them with wild influenza virus made from dried, infected mouse tissue. Salk conducted other experiments on some of the 3,400 “mentally disabled” children at the Watson Home for Crippled Children and the Polk School near Pittsburgh.

Teenager Deaths Increased ‘Significantly’ in Summer of 2021

Attorney Robert F. Kennedy, Jr. reports in his book *The Real Anthony Fauci*:

Troubling statistics from Britain’s Office for National Statistics (ONS) verify the expected: deaths among teenagers during the summer of 2021 increased significantly over the previous year, coinciding with the vaccine rollout. According to an analysis by The Exposé’s Will Jones, between weeks 23 and 37 in 2021—simultaneous with the

vaccine rollout—there were 252 deaths among 15- to 19-year-olds in England and Wales, compared to 162 in the same period in 2020, an increase of ninety, or 56 percent—a very high number that deserves some kind of explanation. Importantly, there is no similar rise among younger children aged one to fourteen, a cohort that was not vaccinated. Instead, 2020 was a low-mortality year for this age group. COVID cannot be

blamed for the sudden rise in deaths among 15- to 19-year-olds in summer 2021, as the Office of National Statistics (ONS) data shows that over the period, there were only nine deaths with COVID in that age group. This real-world evidence suggests that over the summer, the vaccines killed nine times as many 15- to 19-year-olds as COVID did—eighty-one versus nine.

Study Shows People Have Mask Microplastics In Their Lungs

Surgical masks forced onto the public by depopulation officials could have a far healthier effect than previously thought. Billions of people strapped polypropylene masks to their faces every day for two years and sucked their air through plastic fibers for eight hours or more. According to a new study published in the *Science of the Total Environment*, microplastics commonly used in surgical masks have been discovered deep in the lungs of most people, suggesting inhalation as the probable cause.

According to the study, this is the first time microplastics have been found in human lung tissue samples significantly above what is considered “normal” in this polluted world. In 2020, the amount of disposable face masks littered into the environment increased by a staggering 9000 percent. The longterm implications for microplastics in the lungs are unknown, but depopulation officials continue to require children to wear masks for school attendance.

Studies Show Surgical Masks Don’t Even Work for Surgeons

Dr. Manal Mohammed is a Senior Lecturer of Microbiology at University of Westminster focusing on infectious diseases, prevention and treatment. She studied the effectiveness of surgical masks in stopping flu viruses. Dr. Mohammed writes that “The logic of wearing a surgical mask must surely be: if it works for surgeons, it must work for me. The problem is, the mask isn’t intended to protect the surgeon. It’s intended to stop droplets from the surgeon’s mouth or nose getting into the patient’s wound and causing sepsis. But despite their use for more than a century, their prophylactic effectiveness is in doubt. Indeed, a recent study showed that surgical masks can be a source of bacterial contamination in the operating theatre. Although they are designed to trap bacteria shed by the surgeon’s nose and mouth,

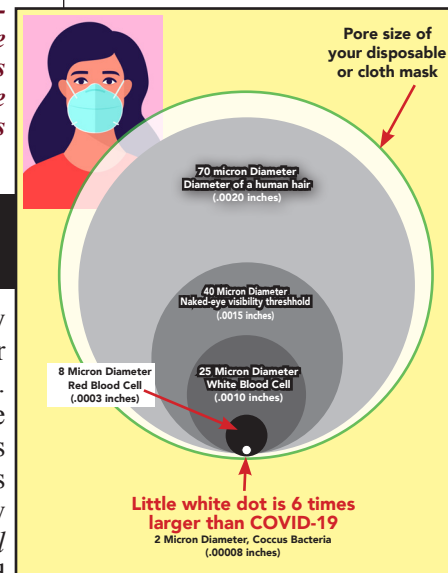

Dr. Manal Mohammed

the study found bacteria on the exterior of used masks.”

Dr. Mohammed writes that there is a 2009 study that is often cited as evidence that surgical masks work that compared surgical masks with a specialist mask called an N95 respirator—a mask that fits snugly and filters at least 95% of very small (0.3 micron) particles. The study, published in JAMA,

found that both surgical masks and N95 respirators were about equally effective at preventing the flu, “which is to say, not all that effective,” writes Dr. Mohammed:

“because, of the 446 nurses who took part in this study, nearly one in four (24%) in the surgical mask group still got the flu as did 23% of those who wore the N95. And, because both groups wore masks, it’s impossible to say how they would have fared compared with not wearing a mask at all. Basically, there is no strong evidence to support well people wearing surgical masks in public.”

Dr. Christina Parks: “Make Vaccine Manufacturers Liable Again!”

Molecular Biologist Dr. Christina Parks spoke at the recent Los Angeles Defeat the Mandates Rally about the fact that vaccine manufacturers are allowed by law to avoid responsibility for the injuries and deaths they cause. Here are Dr. Parks’ remarks:

Thank you. So where did it all begin? You know, the mandates, the lying, the corruption, the complete global takeover by Big Pharma—where did it all begin? Some of you will say it began with the mask mandate, which I hear was horrific in California. But some of you who have been around a little while longer will say it began with SB 277, in which they eliminated the personal belief exemption for vaccines for children to enter school.

They said, ‘Don’t worry, your medical exemptions will never be at risk.’

And then they followed it—this was the beginning of the mandates—they followed it with SB 276. Who remembers SB 276, which sought a crackdown on ‘unethical’ medical exemptions, as if it’s somehow unethical for a doctor to say, ‘Your child has MTHFR [methylene tetrahydrofolate reductase—a gene mutation associated with autism, ADHD, allergies, asthma, cardiovascular disease and other medical conditions]. Your child had a seizure the last time we gave them a vaccine. Maybe we shouldn’t do that again.’ That’s unethical to give more than five waivers in a year because that sixth child is somehow different? Their needs are different?

So, SB 276 was and is a horrific infringement on your rights, but it is not where it all started. It started in 1986, when Congress removed liability protections for any vaccine on the CDC-recommended childhood schedule. In 1986, Congress decided that Big Pharma could inject your child with anything they wanted, with absolutely no accountability. Big Pharma now had a perfect business plan: a liability-free product that they could now lobby to be made mandatory for school attendance. This truly was the beginning of the corrupt system that led to mandates and has become the gateway to a living hell. You see, these mandates ignore the reality of you or your child’s medical condition, and they ignore the fact that all medical procedures are built on the foundation of informed consent.

Dr. Parks with Bro. Rizza Islam

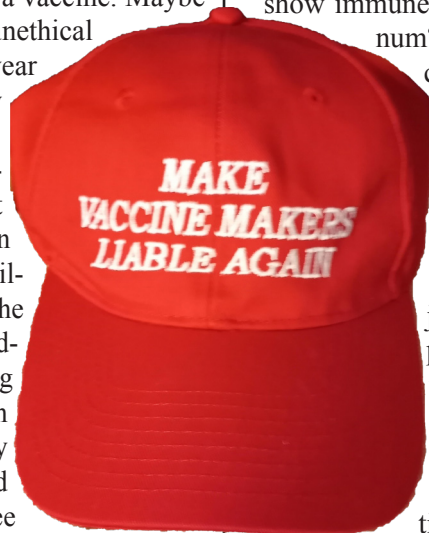

How many of you felt fully informed about vaccines before giving your child 72 doses of 16 different vaccines before the age of 18? Anybody? Were you informed that your child would receive a vaccine for a sexually transmitted disease on the first day of birth, that contained 250 micrograms of neurotoxic aluminum? Do you realize that that exceeds the amount that is considered safe by 10 times? *And they are giving it to a newborn.* Were you informed that different versions of the same vaccine such as DTaP have enormously different amounts of aluminum? Some contain nearly twice the amount of aluminum. So maybe your kid gets 1200 micrograms of aluminum while your neighbor’s only gets 600, and you never knew the difference. Were you informed that your

precious two-month-old baby would receive over 1200 micrograms of aluminum at their two-month wellness visit? And depending on which versions they get, they would spend between 25% to 75% of their first seven months of life in aluminum toxicity. This is peer-reviewed research.

Were you informed that we now have peer-reviewed scientific studies by Romain Gherardi that show immune cells eat this nanoparticulate aluminum? They take it to the brain, where it causes a cytokine storm and causes encephalitis and encephalopathy. And when you took your baby in because their brain was on fire, and they were screaming day and night because they were in a cytokine storm, you were told that they were just colicky. It’s time to stop the (expletive) gaslighting! [Applause] It’s time to stop the (expletive) gaslighting, and it’s time to stop the mandates! And there’s only one way to do that. As we ramp up for this election season, I think that there’s a political slogan that we can all get behind:

“Make vaccine manufacturers liable again.”

You want to end the mandates? Make vaccine manufacturers liable! You want safe vaccines? Make vaccine manufacturers liable! You want an effective vaccine? Make them liable! If you want to end all of this now, we need to make vaccine man-

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 6

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the U.S. and around the world. Just as with slavery’s plantation passes, the Digital ID system is designed for a privately run corporation to control every aspect of your life, including your ability to travel, buy food, obtain medical care, attend school, secure a job, start a business, and all else you now take for granted—your every activity will be based on the digital permission slip that verifies your medical status and vaccination history. Here is how the plantation passport system operated in America:

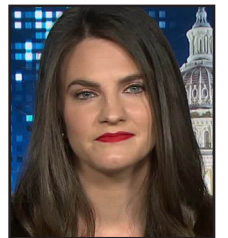

“Slaves on different plantations are not allowed without a written permission, to visit their fellow bondsmen, under penalty of severe chastisement. I witnessed the chastisement of a young male slave, who was found lurking about the plantation, and could give no other account of himself, than that he wanted to visit some of his acquaintance. Fifty lashes was the penalty for this offence. I could not endure the dreadful shrieks of the tortured slave, and rushed away from the scene.”

“A slave whom I loved for his kindness and the amiableness of his disposition, and who belonged to the family where I resided, happened to stay out fifteen minutes longer than he had permission to stay. It was a mistake—it was unintentional. But what was the penalty? He was sent to the house of correction with the order that he should have thirty lashes upon his naked body with a knotted rope!!! He was brought home and laid down in the stoop, in the back of the house, in the sun, upon the floor. And there he lay, with more the appearance of a rotten carcass than a living man, for four days before he could do more than move.”

Biden’s New ‘Disinformation’ Police Targets Truth Tellers

The Biden administration is creating a new board at the Department of Homeland Security focused on countering alleged misinformation and disinformation. The announcement comes on the heels of the takeover of Twitter by Elon Musk, who has publicly voiced his intention to loosen the grip of social media censors that have criminally restricted free speech to promote their Depopulation by Vaccine agenda.

The new “Disinformation Governance Board” is headed by Nina Jankowicz, who will determine—apparently by herself—how the 1st Amendment of the U.S. Constitution will be applied. By its own categorizations the new board proves that ANYTHING written or uttered, *no matter how factual*, can be officially disallowed by a Jankowicz decree. They will flag “misinformation,” “disinformation,” and the catchall that criminalizes EVERY truth teller, “malinformation,” which it says is “malicious” truth.
