

FEDERAL LAWSUIT: 50,000 PEOPLE DEAD WITHIN 14 DAYS OF COVID SHOT

Attorney submits Medicare and Medicaid Tracking Systems Data

“...if you bring the vaccine and say you’re going to bring your army to force us to take it, once you try to force us, that’s a declaration of war on all of us. You only have this one life. Fight like hell to keep it and fight like hell to destroy those whose heart and mind is to destroy you and take your life from you.”

Approximately 50,000 people died in America within 14 days of receiving the COVID-19 experimental “vaccine,” indicates hard data revealed in the Centers for Medicare and Medicaid Services (CMS) Medicare Tracking System, according to Orange County, California-based Attorney Thomas Renz.

During his speech at Clay Clark’s Reawaken America Tour, held in Colorado between September 24-25, Attorney Renz presented more data obtained from anonymous whistleblowers for a federal lawsuit he filed as co-counsel on July 19. The lawsuit on behalf of plaintiffs, America’s Frontline Doctors, against the Department of Health and Human Services, contains allegations made in a sworn affidavit from a worker with access to government websites and data collection on vaccine injuries and deaths.

The CMS Medicare Tracking System is the largest database available in the U.S. to study the COVID-19 impact, including deaths and injuries, said Attorney Renz. Hard data from that system reveals that 19,400 people less than 80-years-old have died within 14 days of receiving the COVID-19 Vaccine, according to the never-before-seen data, stated Attorney Renz.

“This is raw data, raw! There’s no analysis, 14 days. You want to know why 14 days is important, ladies and gentlemen. Because if you die within 14 days, you’re not considered vaccinated,” stated Attorney Renz, bearing witness to the gift of guidance and instruction from the Honorable Minister Louis Farrakhan, during his July 4, 2020 Message, “The Criterion.”

“It’s government policy to reduce the population of the Earth by two to three billion people. You know that, right? If you don’t know it, I’ve been telling you about it. And they are using methods that Zbigniew Brzezinski mentioned. ‘It’s easier to kill a million people than it is to control a million people.’ Zbigniew was not playing. It is easier to kill a million because they are killing millions as we speak,” stated Minister Farrakhan.

‘The nurses revealed to me that patients that are vaccinated are getting Ivermectin, which is proven to heal people. But if you are unvaccinated, they put you on Remdesivir in the hopes that you will die.’

-Attorney Thomas Renz.

Attorney Renz presented the stunning data just days before Pfizer, Inc. submitted findings from its Phase 2/3 vaccine clinical studies to the Food and Drug Administration (FDA). Pfizer plans to make a formal request in coming weeks, according to a company press release, dated September 28.

However, evidence on the severe side effects leading to injuries and deaths after vaccination belies claims by Pfizer and other big drug makers, and federal health and political officials that the experimental COVID-1 “vaccine” is safe and effective.

In addition to the 48,465 people that died within 14 days of receiving the COVID-19 vaccine, the Medicare Tracking System revealed that 28,065 (more than half) the people who died in the same time frame after being vaccinated are over the age of 80, stated Attorney Renz.

“Fact check that! And I want to know, are you going to fact check DHHS (Department of Health and Human Services) now?” he challenged.

Presenting data indicating the number of people he alleged are being killed in American hospitals by National Institutes of Health Director Dr. Anthony Fauci’s instituted protocol of the drug Remdesivir, Attorney Renz noted he has the algorithm used to analyze the raw data from the Medicare servers and more.

According to Attorney Renz, the Remdesivir data reveals that:

- 2,058 of the 7,960 (25.9%) who were prescribed Remdesivir for Covid-19 died;
- **46% of the deaths were within 14 days of the Remdesivir Treatment;**
- Serious adverse events were reported in 131 of the 532 (24.6%) patients who received Remdesivir.

“Safe and effective right? ... Doesn’t look like it to me,” argued Attorney Renz. He went on to state that there is a two-tier system of care depending on patients’ “vaccination status,” according to nurse whistleblowers, participating in the lawsuit.

“The nurses revealed to me that patients that are vaccinated are getting Ivermectin, which is proven to heal people. But if you are unvaccinated, they put you on Remdesivir in the hopes that you will die,” said Attorney Renz.

In addition, he continued, the FDA is actively working with the CMS Medicare database to gather weekly reports on COVID-19 adverse events, despite the fact that the U.S. population is told repeatedly that this “vaccine” is “safe and effective.”

“This information has never been given to the public, and you will see why they have kept it hidden and never published. It’s very damning, and this data reveals that the FDA knew what was coming, let it happen, and thousands and thousands have died or been injured,” said Attorney Renz.

A copy of his entire speech, along with data from the hidden vaccine tracking system, is accessible at www.Renz-Law.com. “Everything here is verifiable,” stated Attorney Renz.

“I just don’t know what to say to us to convey the sense of urgency we should all feel. At a minimum, we should be... angry, really enraged, over the blatant efforts of the corporate-controlled U.S. government to force [this vaccine] on us,” stated Student Minister Ava Muhammad, National Spokesperson for the Honorable Minister Louis Farrakhan.

She spoke during her prominent, highly anticipated weekly talk show, “Elevated Places,” on September 23. It airs Thursday’s, 7 p.m. CST on blogtalkradio.com/elevated-places.

“They’ve used everything but the (U.S.) Army, thus far, because they are concerned with what Minister Farrakhan said July 4, 2020 in “The Criterion”. [He told them] it will be a declaration of war on all of us when you bring your army to physically force it. Well, they’ve done just about everything else,” she stated.

IMPORTANT INFORMATION ON IVERMECTIN

—There was an overwhelming response to the July 20th article on Ivermectin, a safe, inexpensive medicine which has proven extremely effective in treating Covid-19. It can only be given by prescription. In response to numerous requests for information on how to obtain Ivermectin, we are providing the website which gives a nationwide list of physicians who will prescribe it. Death by Decision: From No Care to 'Crisis Standards of Care'

"You have been poisoned, so poisoned by the bite of the enemy that you don't think he's poisonous, because you have become absolutely senseless to his bite."

—The Honorable Elijah Muhammad, The Theology of Time(1972)

In a September 17, 2021 AP article entitled, "EXPLAIN-ER: What are 'Crisis Standards of Care?'" we are told that because of the rapid spread of the delta variant "...amid a spike in the number of unvaccinated COVID-19 patients requiring hospitalization..." certain states have implemented or are planning to implement, what is basically a *triage* protocol (*Triage*, in medical use is "the assignment of degrees of urgency to wounds or illnesses to decide the order of treatment of a large number of patients or casualties."): "Crisis standards of care give legal and ethical guidelines to health care providers when they have too many patients and not enough resources to care for them all. Essentially, they spell out exactly how health care should be rationed in order to save the most lives possible during a disaster...At the extreme end of the spectrum, crisis standards of care generally use scoring systems to determine which patients get ventilators or other life-saving medical interventions and which ones are treated with pain medicine and other palliative care until they recover or die."

First of all, let's deal with the lies embedded in the rationale for these new drastic measures. In previous articles published in the Final Call Newspaper, it has been

established that there is no test for this so-called "delta variant"; therefore, no way to accurately count who has been infected by this "delta variant." Second, we definitely don't want to be pushed to the front of the line to be put on a ventilator—data has shown that 80% of those placed on a ventilator die on a ventilator.

Add to these facts the increasing shortage of nurses to take care of patients in those hospital beds, as they continue to quit or be fired in protest against the forced "death shots" masquerading as the solution to the virus. According to the testimonials published in *The Final Call* newspaper, front-line nurses are not willing to take a shot that they know is deadly. They know it firsthand because they have seen the adverse effects of these shots up close

and personal. They say that they are treating more patients from the side effects of taking the so-called vaccines than from COVID-19 or any "variant" of COVID-19. This country, acting out its long-term Depopulation agenda, is moving further into action on its most diabolical genocidal plot yet: a "vaccine" to kill off Black and indigenous people in America and around the globe, while pretending to try to save us.

Let us bring up a little history to give context to what we are now experiencing. The Civil War was not fought to

free Black people. It was an economic battle wherein the North fought to deprive the South of her most valuable asset: her slave population. The Union army, under General Sherman, allocated refugee slaves in Georgia and South Carolina "forty acres and a mule." For a while the Union placed federal troops in the defeated southern states to protect emancipated slaves from outright slaughter. However, that protection was lifted in 1877 in exchange for the southern states to agree on the "Compromise" that settled the intensely disputed 1876 presidential election between Republican Rutherford B. Hayes and Democrat Samuel J. Tilden. With the troops removed there was a lot of killing and persecution of Black folk, but we did not and never will "die out". Then a mathematical genius came to America, one Frederick L. Hoffman. In 1896, after looking at the death rates of Blacks versus Whites, Hoffman discovered that Blacks were dying at a much faster rate than Whites. He convinced American politicians that if the government would deprive Black people of healthcare, it would solve the "race problem". Just let us die in the Wilderness of North America. He predicted that although there were 7.5 million Black people in the U.S. in 1890, in two generations they would die off.

That plan did not work out too well, because by 1910 there were 9.8 million Black people who had found a way to feed, clothe, house, and provide healthcare for themselves. In fact, by 1910, our ancestors had bought 16 million acres of land, established over 60 towns and set up seven medical schools. By 1920 we had 200 hospitals. All of this was accomplished in spite of vehement racism, lack of resources and constant lynching. We were left to die, but would not die, so they intensified their undeclared war against us.

The same year that Hoffman presented his plan for death by neglect, 1896, the United States Supreme Court upheld racial segregation and made it the law of the land in the infamous case of Plessy vs Ferguson. However, over the next 60 years, under the oppressive system of segregation, Black folk carved out a modicum of economic development in segregated colonies. In the South we couldn't ride on white buses, so we set up our own bus and cab companies. We couldn't go to white hospitals, so we set up and patronized our own hospitals. We couldn't shop in the white owned department stores, so we made clothes for ourselves. We could not attend their schools, so we controlled our children's education and development.

The Most Honorable Elijah Muhammad offered our people the "Best and only Solution to the Race Problem": Separation. Separation meant Independence. Separation meant living in a state or territory of our own where we controlled all aspects of life, unhindered and without the intrusive, dangerous presence of the slave masters' children policing us. Those scattered segregated Black communities across America could be united under the umbrella of the Nation of Islam and become an economic force to be reckoned with. Of course, this was not the "final solution" that Frederick Hoffman had envisioned. What did happen

was that the self-proclaimed "friends," of Black people, the so-called Jews who set up and ran the NAACP, tricked us into "integration." Black people ignored the warning of the Honorable Elijah Muhammad that the offer of integration was hypocritical and deceptive, "intended to prevent Black people from realizing that the time in history has arrived for the separation from the Whites of this nation." Instead of heeding his divinely guided call, we left behind our schools, businesses, farmland, communities and hospitals to run after that white acceptance that we would never find.

For those who argue that if the government is giving these shots to white people, then it should be safe for us, let them observe how this government has treated their white citizens in its attempt to deprive Blacks of healthcare for over 100 years. Author Thom Hartman in his new book "The hidden history of American healthcare," contends that every time the idea of a government-funded healthcare system for all of America's citizens was brought to Congress, "People said no, because Black people would get it." It happened in 1912 when President Theodore Roosevelt proposed a national healthcare system. The Congress said no again when his cousin, President Franklin Roosevelt proposed it in the 1930s. President Harry Truman tried it again in 1947 and the same thing happened: lawmakers complained that "Black people would get it." And we all know what happened to the "Affordable Care Act" that President Barack Obama attempted to establish. By the time it passed it was just a shell of the original plan.

In the meantime, according to Thom Hartman's book, the rest of the nations in the world consider healthcare a right of each citizen, so they set up some type of government funded healthcare system. America is the only country in which over one half million of her citizens go bankrupt each year, due to exorbitant hospital bills, while private insurance companies suck their blood. They have a history of biting their own white people, just to bite black people.

Right up to 1965, the southern Democrats were quoting Frederick Hoffman to justify depriving Black people of Medicare as they were passing the Medicare Bill. Under the "1965 Civil Rights Bill", white hospitals were forced to integrate. But under this so-called integrated healthcare system, they developed "standards of care", where different drugs and procedures are authorized based on the level of insurance of the patients, not what is best for the patients. Now we find ourselves as the prey to a corrupt, predatory healthcare system in the middle of a "pandemic". Along with their "death shots," they seek to finish out their evil plot with their *triage* plan called "crisis standards of care."

We thank Allah, who came in the person of Master Fard Muhammad, for blessing us with the Honorable Minister Louis Farrakhan, the Messiah, who delivered to us the wake-up call and "The Criterion" on July 4, 2020. "Don't let them vaccinate you!" And don't forget that now more than ever we need our own hospitals and our own courageous doctors and health care professionals to take care of ourselves.

“We have no right to trust white people on this vaccine.”

New Florida Surgeon General Is a Harvard-trained Ph.D; Says Vaccines have become “a religion”

At a press conference announcing his new role Dr. Joseph Ladapo said that “The state should be promoting good health, and vaccination isn’t

the only path to that. It’s been treated almost like a religion and it’s senseless,” he said. Dr. Ladapo said he opposes mandates and lockdowns, and calls COVID-19 vaccines “nothing special.”

As the state’s top health official, Ladapo said he will “completely reject fear as a way of making policies.” “We are going to have a positive approach,” he said.

Dr. Ladapo has also published several op-eds in the Wall Street Journal, including one in June questioning the safety of vaccines, and another just days ago entitled, “Vaccine mandates can’t stop COVID’s spread.”

[Ladapo is both a surname and a given name of Yoruba origin.]

LA Firefighters Refusing Mandated “Vaccine”

According to RT, Hundreds of Los Angeles firefighters are defying mandatory Covid-19 jabs and taking legal action against the city. The leader of **Firefighters 4 Freedom**, 21-year veteran John Knox speaking to RT.com, warns it could lead to hundreds of firefighters being fired: “It’s a huge concern to the public and they should be outraged this is going on. We’re not walking away from our jobs, we’re here to stay and do our jobs. If the city is going to push the issue, then they will have to terminate those individuals... that’s on them.”

Hospital administrators caught on camera scheming to fabricate COVID numbers

In a shocking video obtained by *InfoWars.com* hospital administrators at New Hanover Regional Medical Center in Wilmington, North Carolina admit they plan to deceptively count all pa-

tients in the hospital as “COVID” patients. They openly discuss finding a way to make COVID more “scary to the public” as a tactic to terrorize the public into taking more vaccines.

Dr. Mary Rudyk (in photo) is seen telling Director of Marketing Carolyn Fisher that she wants hospitals to inflate the number of COVID patients so they can falsely tell individuals, “If you don’t get vaccinated, you know you’re going to die. Let’s just be really blunt to these people.”

COVID Survival Rates: Why is there a vaccine?

New calculations posted by attorney Robert Kennedy, Jr. and Children’s Health Defense Network show that even with the refusal of the governments to use life-saving drugs—a policy that has killed hundreds of thousands—the survival rate for COVID-19 is nearly 100%:

Age Group	Survival Rate
0-19	99.9973%
20-29	99.986%
30-39	99.969%
40-49	99.918%
50-59	99.73%
60-69	99.41%
70+	97.6%
70+	94.5%

(non-institutionalized)
(institutionalized & non-institutionalized)

In the U.S., meanwhile, regulators, hospitals and pharmacies have implemented equally disturbing policies that require withholding inexpensive drugs, such as ivermectin and hydroxychloroquine — shown elsewhere to be effective and safe — while essentially forcing hospitalized COVID patients onto protocols that are not only unhelpful but murderous.

Mexico City achieved up to a 76% reduction in COVID hospitalizations by making ivermectin-based home treatment kits widely available. With evidence like this, why are U.S. hospitals stubbornly adhering to life-threatening protocols involving remdesivir (known to produce fluid in the lungs and longer hospital stays) and intubation?

One rather dark answer is that hospitals are not only immune from liability for any fatal outcomes resulting from this approach but receive hefty federal payments — including a 20% Medicare “add-on” that may sum up to as much as \$40,000 for patients who spend four or more days on a ventilator.

Although hospitals may hasten to refute that these factors are at play, the growing number of hospital whistleblowers is becoming hard to ignore.

Major Doctors Say Thousands of Lives Lost to COVID Malpractice

In March, Baylor University’s Dr. Peter McCullough claimed that as many as 85% of COVID deaths could have been prevented with

early treatment using ivermectin and other formerly commonplace drugs that have been disallowed by regulators and for which U.S. pharmacies will no longer fill prescriptions.

However, instead of applauding these advocates of early intervention for their efforts to save lives, they have become, according to mRNA vaccine inventor Dr. Robert Malone, the focus of intense “coordinated strategies” to subject them to “derision and attacks and character assassination.”

Why Have Flu Cases Plummeted?

Incredibly, the flu has virtually disappeared from America, but many believe that this astounding drop of 38 million cases from the previous year is due to deceptive culling agents pushing those flu cases into the COVID category. How else might one explain the CDC’s own statistics?

Flu season cases in the USA

- 2012-2013 - 34,000,000
- 2013-2014 - 30,000,000
- 2014-2015 - 30,000,000
- 2015-2016 - 24,000,000
- 2016-2017 - 29,000,000
- 2017-2018 - 45,000,000
- 2018-2019 - 36,000,000
- 2019-2020 - 38,000,000
- 2020-2021 - 1,822

My Dad is now in assisted living, uses a wheel chair, lost 30 lbs (now 145 lbs) in 6 weeks. Hospitalized for 10 days (fluid in lungs...entire body also), 10 days in rehab... awful!!!

Tami Mitchell Spears

My co-worker **lost her husband** after the second vaccine... She got up and thought he had fallen asleep in his recliner, after a few minutes went back in and check on him again, he had passed. It was a few days after the second vaccine, she told me **she is positive that it was what killed him.**

AnnMarie Jones

My dad didn't have covid, got the vax, **passed 10 days later.**

Kim Chandler Wolf

I lost a friend w/in 36 hours of her vax.

Brenna Louise

our nana got the shot and **within 10 days she passed away** while grocery shopping at Walmart. Dropped to her death that fast. Nothing was investigated because she was 69 years old.

Diane Marie Rix

I know of two men in their 70s who had pneumonia after the jab. My brother had **blood clots in his lungs.** It's really disgusting how the media and so one sided and controlled! I am in New Zealand.

Maureen Farrell

My husband developed **blood clots** in his lungs as well.

Jenny Meyer

I know 7 with **pneumonia** so far

Kelli Edwards Yoquelet

my great aunt developed **double pneumonia** after her first dose, while still recovering they gave her the 2nd. A month later they told her she had **interstitial lung failure** and had about 3 months to live and they were right

Cheryl Chupa

my Brother in law is 67 and was fully vaccinated months back. Now has Covid **Pneumonia.**

Vanessa Smith

The only loved ones I've lost to COVID were fully vaccinated. All their **organs shut down** when they got COVID post vaccine.

Amy Fulton

that's what happened to my 34 year old brother. **cardiac arrest 8 days after his vaccine then organs shut down** one by one until he passed away 10 days after his vaccine..

Madeleine Wyke Silva

My husband lost his grandfather 1 week after the 1st vaccine. I've had 3 family members with **sever heart disease** after the V and all have had 3-4 stints put into their heart.

Tracey Renee

my friends dad has had the same happen. After 2nd vax **many heart attacks and cardiac arrest**, even after they put the first stent in. Drs were baffled...

Kayla Hogg Thompson

my sister has had both vaccines and is now looking at **heart failure** and they are talking about a stint also!
