

Media Moguls Use “VACCINE” Lies To Create Fear and Panic

by the

The following “Pandemic” headlines incited fear and terror with their predictions:

“Society would shut down...Life as we know it would change drastically!”

“Life Unraveled”

“Hospitals Overwhelmed by Ill Patients; E.R.s Will Overflow”

“Quarantines detain the infected; Travel Halted!”

“Security Guards Aim to Stem Chaos in Cities”

“Food Water Spread Thin”

“Schools Close; People Forced to Stay in Homes”

“Economy Collapses, Shuts Down Globally!”

“1.9 Million May Die; Morgues Will Overflow”

Recycling Disaster

The recent fear-stoking narrative involves the alleged overcrowding of hospitals by the COVID-stricken “unvaccinated.” Story after story promoting this false claim has been endlessly blasted the fearful who watch and follow their outlets. They relentlessly drive the people to roll up their sleeve for the KMS (Kill • Maim • Sterilize) death shot. What the public forgets, with its short-attention span, is that the very same headlines are run annually to herd them to their doctor or grocery store to get the “flu shot.” Very few people even realize the “flu shot” is a vaccine.

Here are just a few headlines from BEFORE the COVID “global pandemic” that look and sound EXACTLY like what we see today:

Some of Ontario's biggest hospitals are filled beyond capacity nearly every day, new data reveals

“Overcrowding has become so common in Ontario hospitals that patient beds are now placed in hallways and conference rooms not only at times of peak demand, but routinely day after day...”

Hospitals Overwhelmed by Flu Patients Are Treating Them in Tents

“The 2017-2018 influenza epidemic is sending people to hospitals and urgent-care centers in every state, and medical centers are responding with extraordinary measures: asking staff to work overtime, setting up triage tents, restricting friends and family visits and canceling elective surgeries, to name a few.”

Rapid increase in seasonal flu cases taxes area hospitals

“UAB Hospital Emergency, Critical Care, Ambulatory and Prime Care services have experienced a 50 percent increase in seasonal influenza cases in the past 72 hours alone. These events led Alabama Gov. Kay Ivey to issue a State of Emergency this evening.

One may think these headlines are from today’s *New York Times* or *Washington Post*, but they’d be about 16 years wrong. They are from the *Lansing State Journal* of November 6, 2005. The frenzied page one fearmongering proved to be 100% fraudulent at the time. But those headlines were 100% accurate in predicting how the media would handle today’s equally devious Covid-19 “pandemic.”

A major part of the plan to exterminate 2-3 billion human beings from this Planet includes inducement of fear and panic in the target population. Once people are afraid they become desperate for solutions; they grasp for any lifeline offered. And if a “vaccine” is the only thing offered; in fact, the only thing available—even though it’s an unknown substance which has now claimed ten times more victims this year than all of America’s serial killers combined—then the fearful masses will accept it. Yet and still, an estimated 93 million people who are eligible for shots have chosen not to get them.

Stoking this mass panic are the coordinated efforts of the major news media. We may have naively believed that the networks are “in competition” with each other but their nightly newscasts prove that they are ALL working from the same “COVID-mania” scripts. And if one simply views the extraordinary number of paid advertisements for medications, lotions, and potions on these newscasts, it is obvious that Big Pharma—which provides broadcast network news with a whopping 77% of its revenue—is manipulating our primary source of information.

In fact, pumping up terror in the minds of the masses is being expertly coordinated by a small group of propagandists in key positions in corporate media. They are the presidents of the news divisions, and absolutely NOTHING emerges from the lips of any news anchor or reporter without being 100% authorized by them. They are:

ABC News president James Goldston, CNN News president Jeff Zucker, NBC News president Noah Oppenheim, CBS News president Susan Zirinsky, *New York Times* publisher Arthur Sulzberger, *Washington Post* editor-in-chief Sally Buzbee, Public Broadcasting Service (PBS) president and CEO Paula A. Kerger, FOX News CEO Suzanne Scott, NPR president and CEO John Lansing.

Add to this elite list of professional players in the game of deception the social media giants: Twitter’s Paul Elliott Singer/Jack Dorsey, Facebook-Instagram’s Mark Zuckerberg, YouTube’s Susan Wojcicki

It is this tiny clique that defines and decides what “news” is; what “spin” to apply to any issue; whose perspective will be emphasized and, most important, how viewers should behave once their message is broadcast. Dr. Anthony Fauci, Bill Gates, Rochelle Walensky, even President Biden are powerless to promote any statement or policy without authorization from these mafia-like media power brokers. It is these propaganda agents with no scientific or medical training who have made VACCINES, VACCINES and more VACCINES the world’s 24-7 obsession. It turns out they have had much practice.

Research and Study Can Help Save Us From the U.S. Policy of Depopulation and Latest Genocidal Plot

As of September 19, 2021, America has given 62.7% of her people at least one Covid-19 “vaccination”; yet she is near the top of the list across the world in Covid-19 deaths, with 205.18 people reportedly dying from Covid-19 per 100,000 people. On the other hand, 45 African countries have administered the shots to only 6.39% of her population but only suffers from an average of 15.25 people dying per 100,000 population. America has “vaccinated” 10 times more of her people than Africa; yet is suffering 13 times the Covid-19 deaths than Africa. It seems that Africa listened to Minister Farrakhan when he told her not to take the shots.

by Dr. Ridgely Abdul Mu'min Muhammad
NEWS ANALYSIS

Since deploying the death shots in late December 2020, this country has jabbed her people with 229,600,691 doses of the Pfizer mRNA product, 149,772,779 doses of the Moderna mRNA product and 14,837,004 doses of the Johnson & Johnson so-called “traditional vaccine.” The U.S. government acknowledges that over 15,000 of its citizens are dead and hundreds of thousands more have been harmed as a direct result of these “vaccines.”

It seems that our sister, Nicki Minaj, has enough sense to do her own research on the so-called vaccines before taking one of these “death shots.” On September 13, 2021, the world-famous rapper started a firestorm with a single tweet: “They want you to get vaccinated for the Met. If I get vaccinated it won't for the Met. It'll be once I feel I've done enough research. I'm working on that now...”

Ms. Minaj's use of one word—“research”—brought the self-appointed “Ministry of Truth” hounds out barking—the likes of Dr. Arturo Casadevall, chair of molecular microbiology and immunology at the Johns Hopkins Bloomberg School of Public Health, who told CNBC, “I don't think doing research on the internet, or reading Twitter posts or something like that, is research ... Research means that you have a systematic way to look at the problem.” That is an absurd charge, because it's Casadevall's “trusted sources” who monopolize the vaccine debate with their internet presence: CNBC, the CDC, Johns Hopkins, the White House, J&J, Moderna, and Pfizer—all are also “on the internet.” It is the wide array of world-renowned scientists and experts who can't be found on the internet because they have been censored for taking issue with the reckless approach of mass injections with a deadly, ineffective and unnecessary product.

CDC scientist and “misinformation expert” Dr. Neetu Abad gave her unsolicited view that “fans” shouldn't take medical advice from celebrities, and they should rely on their doctor's recommendations. She added that celebrities like Nicki Minaj, who has more than 22 million followers on social media, have a responsibility to the public:

“Throughout this pandemic we have urged platforms small and big to take care what they are conveying around COVID-19 vaccines, because we know that can be impactful around people's behavior.”

Wait a minute! Such blatant hypocrisy! Just a few months ago, the corporate-controlled mass media rounded up all the “celebrities” and “prominent” persons they could find to publicly announce they had gotten one of these so-called vaccines: Kamala Harris, D.L. Hughley, Kareem Abdul-Jabbar, Samuel L. Jackson, Al Roker, Tyler Perry, Michelle Obama, Barack Obama, Gayle King, Ben Vereen, Dwayne “The Rock” Johnson, John Legend, Kerry Washington, Mariah Carey, Morgan Freeman, Oprah Winfrey, Arsenio Hall, Magic Johnson, Whoopi Goldberg, Mavis Staples, Al Sharpton, Chris Rock, Cedric

the Entertainer and Patrick Mahomes. Baseball legend Hank Aaron died shortly after he publicly took the shot. Steve Harvey is openly attacking the “unvaccinated.” Though media hounds badgered LeBron James, they could not get him to say whether he got the shot or not. He let them know it was none of their business.

This was not a spontaneous propaganda campaign. The media and the government were just following a script laid out two years ago during a planning session on the proper handling of a supposedly imaginary pandemic called “Event 201.” On October 18, 2019, the Johns Hopkins Center for Health Security in partnership with the World Economic Forum (an international think tank of bankers) and the Bill and

Melinda Gates Foundation hosted “Event 201, which “modeled a fictional coronavirus pandemic...” Among the seven major recommendations coming out of Event 201 was that governments would take control of social media to “combat mis- and disinformation,” and to “flood media with fast, accurate, and consistent information.” They advised health authorities to employ “trusted community leaders such as faith leaders” to herd the masses to the proposed vaccines. Five months later, WHO (World Health Organization) declared Sars-CoV-2 (aka COVID-19) a “global pandemic.”

In 2021, the multinational corporations that control the U.S. government and most governments on the Earth have indeed censored, de-platformed and otherwise hidden life-saving information, therapies and treatments from the masses while herding them to their so-called vaccines. They have literally changed the official meaning of “vaccines”—once defined as that which provides “immunity,” they are now defined as that which provides “protection.” They had to adjust to the manifestation of the ineffectiveness of their product as new “breakthrough” covid cases rendered the covid shots useless. Facebook announced, on February 8, 2021, that it was widening the list of banned claims to include ‘posts’ falsely claiming the virus is man-made or manufactured. They cannot afford for people to study true “research” of doctors and scientists who dared present data and information that did not fit Big Pharma's sales pitch. Some of them are still accessible through websites: Dr. Bryan Ardis (thedrardisshow.com), Del Bigtree (thehighwire.com), Dr. Sherri Tenpenny (drtenpenny.com), Dr. Joseph Mercola (mercola.com), Mike Adams (Naturalnews.com), Sayer Ji (GreenMedInfo.com), Robert F. Kennedy, Jr. (childrenshealthdefense.org), National Vaccine Information Center (nvic.org), Front Line COVID-19 Critical Care Alliance (covid19criticalcare.com); alternative video platforms like Rumble.com and Bitchute.com; and the heavily-researched, special section, “DON'T LET THEM VACCINATE YOU” in The Final Call Newspaper, both the print and digital (finalcall.com) versions.

Now, let's look at one of the latest bombshells dropped from an alternative media platform: “Funeral Director John O'Looney Blows the Whistle on Covid” (Sep 16, 2021). This British funeral director was serving his clients since the outbreak of this so-called pandemic in early 2020 until now. He described what he observed in March and April of 2020:

“I got called every night for three weeks to care[nursing] homes. And this was at a time when Matt Hancock, who's since been dismissed from government, kind of had transferred all of the elderly in hospitals into care homes. He'd been very careful to label them all as Covid. And he put them into care homes ... And I've since found out that at the exact same time there was a thousand percent (1000%) increase in the amount of Midazolam sedative purchased at that time. And there's an extensive paper trail that documents that very clearly ... And the real death rate was in care homes as a result of Midazolam. And then the deliberate re-labeling of every normal death as a Covid death. And then we've seen the extreme death rate once they actually began vaccinating. And it is definitely, a hundred percent—that, I can tell you as a funeral director.”

His testimony is very interesting in light of the fact that at the same time that England was loading its elderly into care homes, New York Governor Andrew Cuomo was doing the exact same thing in America.

The *New York Times* reported on July 8, 2020, that “The death toll inside New York's nursing homes is perhaps one of the most tragic facets of the coronavirus pandemic: More than 6,400 residents have died in the state's nursing homes and long-term care facilities, representing more than one-tenth of the reported deaths in such facilities across the country... At issue is a directive that Mr. Cuomo's administration delivered in late March, effectively ordering nursing homes to accept coronavirus patients from hospitals.”

Add to this “coincidence” the fact that www.raps.com reported on April 2, 2020, that “FDA reports shortage of sedation drug used for putting Covid-19 patients on ventilators.” A spokesperson for Pfizer, which produces Midazolam, stated: “We currently have ample supply of several presentations of Midazolam but are experiencing high demand for the product...”

Pfizer probably has an “ample supply” of Midazolam because several states have banned it from being used for its other application—sedation during executions! Pfizer's Midazolam was involved in several botched lethal injections that induced torturous convulsions with gasping, choking, and sensations of drowning, described as being waterboarded. Autopsies showed the executed men had a “mix of blood and frothy fluid,” and felt “panic and terror of asphyxiation before they died.” These descriptions are similar to what Covid victims are said to experience before death. Pfizer's repurposed drug Midazolam appears to be the common factor.

But inflating the death toll for Covid-19 does not stop with the nursing homes. Dr. Ryan Ardis asserts “Hospital Protocols Are Murdering Americans by Prescribing Remdesivir Which Causes Renal Failure.” Add to this the fact that African Americans are almost 4 times more likely to have kidney failure compared to White Americans. The stage is set for Blacks to enter the hospital for “Covid-19” and never come out. We later discovered that “People of color have been hit hard by the novel coronavirus, and Black Americans have died of Covid-19 at a rate roughly three times higher than whites.”

Heed the Divine Guidance given through the Honorable Minister Farrakhan:

“DON'T LET THEM VACCINATE YOU!”
