

Satan's House Divided: Battle Between Moderna And NIH Exposes Evil And Madness Of Both

"I always shall rise to your defense against such an artful, wicked race of people, who have nothing in mind but death for the Black man – their scheme covered with a semi-bait of good. Once you have swallowed it, it is death." –The Most Honorable Elijah Muhammad

NEWS ANALYSIS

America, the Great Serpent, has her own people and the world ensnared in a sinister grip of lies; lies produced by a carefully planned script to enrich a few and take or ruin the lives of the masses.

However, the Honorable Minister Louis Farrakhan warned us at Saviours' Day 2020 in Detroit, Michigan, that we would see *"The Unravelling of a Great Nation."* The current bout between two heavyweight snakes, Moderna and the National Institute of Health (NIH), over who will get credit, patent rights and billions of dollars for the "N.I.H.-Moderna Covid-19 vaccine" is a prime example of this unravelling.

According to a November 11, 2021 www.Reuters.com article, *"Moderna COVID-19 vaccine patent dispute headed to court, U.S. NIH head says,"* NIH Director Dr. Francis Collins told Reuters, *"I think Moderna has made a serious mistake here in not providing the kind of co-inventorship credit to people who played a major role in the development of the vaccine that they're now making a fair amount of money off of... It's not a good idea to file a patent when you leave out important inventors, and so this is going to get sorted as people look harder at this."*

NIH asserts that three of its scientists—Dr. John Mascola, Dr. Barney Graham and Dr. Kizzmekia Corbett—helped design the genetic sequence used in Moderna's "vaccine" and should be named on the patent application. You may remember that Dr. Anthony S. Fauci, who oversaw the research as Director of the Allergy and Infectious Diseases Institute (NI-AID), said the *"vaccine was actually developed in my institute's vaccine research center by a team of scientists led by Dr. Barney Graham and his close colleague, Dr. Kizzmekia Corbett."* Dr. Fauci specifically pointed to the contribution of Dr. Corbett. During his 2020 tour promoting the mRNA product to Black audiences, he characterized her as a role model for young Black women in science and someone that we should trust. In the end, she might get thrown under the bus for her complicity in developing what appears to be a bioweapon that destroys the target's immune system.

Since Moderna and the NIH are co-conspirators in a global depopulation scheme, it would have been wiser for them to have worked this out in the darkness where they reside. Instead, fighting in the light of a federal court case can bring out all types of information hidden from the public. It is going to be exposed and **"sorted"** out. Do they really want people to **"look harder"** at this?

It must be noted that the Dr. Graham given accolades by Dr. Fauci, was Deputy Director of the NIH Vaccine Research Center before his retirement. He began his work on corona-

viruses long before the "pandemic." In 2017, Dr. Graham led a team of researchers, including Dr. Corbett, that figured out how to employ protein engineering to stabilize the spike proteins on the coronavirus before they fuse with other cells. (<https://www.nytimes.com/2021/11/09/us/moderna-vaccine-patent.html>)

What is **"protein engineering?"** *"Protein engineering is the conception and production of unnatural polypeptides, often through modification of amino acid sequences that are found in nature. Synthetic protein structures and functions can now be designed entirely on a computer or produced through directed evolution in the laboratory."* (<https://treehozz.com/how-does-protein-engineering-work>)

Before March of 2020, most of us had no knowledge of "coronaviruses." We learned that they have been around forever—this family of viruses includes the "common cold." However, the media kept pumping COVID-19 as a deadly **"novel coronavirus."** They assured the frightened public that a vaccine was being developed at "warp speed." NIH scientists were actually using protein engineering to "stabilize the spike proteins on the coronavirus." In other words, they were engineering a synthetic protein to stabilize the most destructive component of a coronavirus which is the spike protein. NIH and Moderna are fighting over who should get the credit for

fabricating a gene sequence that is shot into you in the form of these mRNA "vaccines." Once injected, it instructs your cells to produce these same synthetic spike proteins by the trillions. Your own body actually manufactures the dreaded disease.

But it gets deeper. According to Dr. Lee Merritt, both the spike proteins in the SARS-CoV-2 "virus" and the sequence in the so-called vaccines are synthetic; not found in nature. Now Dr. David Martin steps in to show us Patent No. 7279327, issued to the University of North Carolina at Chapel Hill on April 19, 2002 for "Methods for producing **recombinant coronavirus.**" **Recombinant** DNA is DNA that has been formed **artificially** by combining constituents from different organisms. These people are interfering with the very fabric of life on our planet. They have discovered how to manipulate and artificially create organisms that have never been here before. But for what purpose?

Even though we were warned by the Most Honorable Elijah Muhammad that our open enemy works day and night to find ways to reduce the population of the indigenous people of our planet, it takes the words from the mouth of White people to show that he was right all along. For instance, in the British Medical Association's 1999 book, *"Biotechnology, Weapons and Humanity,"* it states, *"Genetic engineering of biological agents, to make them more potent, has been carried out covertly for years ..."* (p. xviii). Former Defense Secretary under President Bill Clinton, William Cohen, quoted other reports about what he called **"certain types of pathogens that would be ethnic specific so that they could just eliminate certain ethnic groups and races."**

Of course they have Black scientists working for them as they produce these ethnic-specific bioweapons that may not be what these scientists "think" they are working on. These scientists say—and probably believe—they are manipulating these coronaviruses to produce a "vector" for delivering synthetic proteins into our bodies ostensibly for "gene therapy" activities that would correct genetic defects in us that they say cause diseases. By "vector" we mean *"an organism, typically a biting insect or tick, that transmits a disease or parasite from one animal or plant to another."*

Here are a few definitions of key words: gene therapy, gene, virus,

1. **Gene therapy:** any of several therapies involving the **insertion** of genes into a patient's cells in order to **replace** defective ones.

2. **Gene:** a unit of heredity; a segment of **DNA** or **RNA** that is transmitted from one generation to the next, and that carries genetic information such as the sequence of amino acids for a protein.

3. **Virus:** any of various submicroscopic agents that infect living organisms, often causing disease, and that consist of a single or double strand of RNA or DNA surrounded by a protein coat. **Unable to replicate** without a host cell, viruses are typically **not considered living organisms.**

Thus, viruses are not considered living organisms because they do not manifest the functions such as "metabolism, growth, **reproduction**, and response to stimuli or adaptation to the environment originating from **within** the organism."

So, these mRNA "operating systems" are telling your cells to produce a **man-made** spike protein which is nothing but a **poison**, a **"substance that causes injury, illness, or death, especially by chemical means."**

From the beginning of the rollout of these experimental mRNA "vaccines," we were told that the **spike proteins** they force your body to produce **"cannot enter the cell nucleus"** where the DNA is housed and operates from. However, Swedish scientists recently discovered that the spike protein **does** enter the nucleus of our cells. In fact, they *"found an abundance of the spike protein in the nucleus."* Further, these spike proteins can inhibit our DNA from repairing itself if it is damaged. *"Our findings reveal a potential molecular mechanism by which the spike protein might impede **adaptive immunity** and underscore the potential side effects of full-length spike-based vaccines."* (<https://washingtonlatest.com/new-research-from-two-swedish-universities-found-that-covid-spike-protein-impacts-the-dna-and-also-impairs-dna-repair-proteins/>). In other words, the spike protein can destroy your God-given immune system. These shots are aimed at making you defenseless against future microscopic poisons, which they will continue to synthesize in their laboratories of death. Heed the call of the Honorable Minister Louis Farrakhan and make your choice: **"Separation or Death."**

As America continues to fall deeper into an abyss of internal conflict, political chaos and social upheaval, Min. Farrakhan warns the President of the ultimate fate of his country and warns Black America against holding out hope in a fading reality. Coverage begins page 2

IMPORTANT INFORMATION ON IVERMECTIN

—There was an overwhelming response to the July 20th article on Ivermectin, a safe, inexpensive medicine which has proven extremely effective in treating Covid-19. It can only be given by prescription. In response to numerous requests for information on how to obtain Ivermectin, we are providing the website which gives a nationwide list of physicians who will prescribe it. 'THERE IS NO RATIONALE' FOR VACCINE MANDATES

U.S. Senator Conducts Hearing on Injuries, Deaths and Deception From Government's Push of Covid-19 Shots

A panel of highly respected, scientists, researchers and medical professionals participated in a roundtable discussion on federal vaccine mandates on November 2. The event, which included men, women and children who had been injured or lost family members to the Covid vaccines, was hosted by Senator Ron Johnson, R-Wisconsin.

The victims said that beyond the trauma of injury to themselves or family members during clinical trials or after the deployment of the vaccines (under the FDA Emergency Use Authorization), they have been ignored, mocked, ridiculed and left in the lurch by the same government responsible for ensuring their safety.

"Telling the truth in today's cancel culture is not necessarily easy. You can pay a pretty heavy price," said Senator Johnson, as he thanked participants of the three-hour, tearful discussion. The hearing, "What is the Rationale for the Mandates? There is No Rationale," is accessible at ronjohnson.senate.gov.

"It is a real shame that we are having to hold this round table. Had government officials, the heads of our health care agencies, had they been doing their job, had they been honest and transparent with the American public, we wouldn't be here today," he said.

Ernest Ramirez of Edinburg, Texas, cried profusely as he talked about his son, who contracted myocarditis (inflammation of the heart muscle) after getting Pfizer's "vaccine." "It was like playing Russian Roulette. My government lied to me. They said it was safe," stated Mr. Ramirez. "What they did to my son, they knew what was happening. I consider that murder," he said.

He considers the suffering of children who are vaccine injured child abuse and questioned why something isn't being done?

Critics of the U.S. Government's COVID-19 vaccine campaign say the short answer is the federal government, Big Pharma and corporate-controlled media, are all joined together by greed and a depopulation agenda. They have conspired together to get the total population of this country and the earth injected with the vaccine and boosters.

Remember, as the Food and Drug Administration gave Moderna's "vaccine" its second Emergency Use Authorization, the federal government kept escalating its campaign to pressure Black people into taking the experimental mRNA gene therapy. The Biden Administration's \$115 million strategy has included carting out Black doctors, nurses, politicians and celebrities to allow themselves to be filmed taking the shot or do commercials for it.

Any voice or information proving the

dangers of the so-called vaccines and contradicting the dominant narrative is censored and outright blocked from the public in print, TV, online, and social media. Expert opinions of medical doctors, scientific experts, researchers, activists and health freedom advocates are slandered as "anti-vaxx" or purveyors of "disinformation." The aggressive, oppressive tactics have left many who want to speak out whipped into submission, afraid of being eliminated, noted several of the panelists.

Nonetheless, day-by-day, more and more people are rejecting the "vaccines" and federal mandates, and coming to see that what the Honorable Minister Louis Farrakhan warned of in his July 4, 2020 Message, "The Criterion": the "vaccine" is death itself.

"It's government policy to reduce the population of the Earth by two to three billion people. You

know that, right? If you don't know it, I've been telling you about it. And they are using methods that Zbigniew Brzezinski mentioned," stated Minister Farrakhan.

"It's easier to kill a million people than it is to control a million people." Zbigniew was not playing. It is easier to kill a million because they are killing millions as we speak," Minister Farrakhan continued.

Brianne Dressen, an Astra Zeneca clinical trial participant from Utah, is among the tens of thousands injured who have found each other and now fight against federal vaccine mandates.

On November 4, 2020, Ms. Dressen suffered a life altering reaction and a cascade of neurological systems that persisted for months. While her life has improved, she said she still feels like she's being electrocuted 24/7. "We had it happen with all of the brands. Over 70 percent of us had had no previous existing health condition. Over 94 percent of us have not had any problem with any previous vaccine. Ninety-eight percent of us have had all of our previous vaccines, the vast majority of us even having our flu vaccines. We are not anti-Vax."

America is not in a "pandemic of the unvaccinated," said Dr. Peter Doshi, a senior editor at The BMJ and associate professor of pharmaceutical health services research at the University of Maryland School of Pharmacy, who urged critical thinking.

"But if hospitalizations and deaths were almost exclusively occurring in the unvaccinated, why would booster shots be necessary? Or why would the statistics be so different in the UK, where most COVID hospitalizations and deaths are among the fully vaccinated ... I'm saddened that we are super-saturated as a society right now in the attitude of 'everybody knows,' that has shut down intellectual curiosity and led to self-censorship," he added.

Meanwhile, because the CDC and FDA continued to ignore their pleas, the vaccine injured advocates quickened their pace, when they saw the same injuries were happening to children like Maddie de Garay, according to Ms. Dressen.

Maddie became injured after participating in the Pfizer clinical trials when she was 12. She is 13 now and it has been over nine months since she got her second dose, "She can't walk. She's in a wheelchair. She has an NG (nasogastric - reaching or supplying the stomach via the nose) feeding tube for all of her nutrition. She has constant pain in her stomach, back and neck ... She can't feel her legs. And that's just the tip of the iceberg," said her mom, Stephanie de Garay.

After her first dose, she experienced a typical reaction with fever, body aches and fatigue that subsided in a couple of days. She had immediate pain after her second dose, according to her mom. In less than 12 hours, Maddie developed severe abdominal pain, horrible nausea, painful electric shocks on her spine and neck, ice cold hands and feet, full body pain, numbness in her vaccine arm, and chest pain. "The way she described it, it felt like her heart was being pulled out of her neck," said her mother.

According to Ms. de Garay, although her daughter experienced over 35 adverse events, a New England Journal of Medicine early release article dated July 30, 2021, about the Pfizer COVID Vaccine in Adolescents mentioned none of them. Not the blood in Maddie's urine, her decreased vision, paralysis from her waist down, dizziness, fainting, tremors, muscle weakness, nor the nine emergency room visits for a total of 63 days by June 1, before the article came out. That was also around the same time that the FDA approved the vaccine for children 12 to 15 years old.

"They did everything in their power

to hide everything that happened to her and that is why this is happening to all these other people and kids," said Ms. de Garay.

The advocates reached out from their sick beds to all political representatives on health and education committees, but to no avail, said Ms. Dressen. They went to the National Institutes of Health and have participated in studies with well-accomplished academics from reputable research institutions across the country, she said, but none can get their research published.

"We then reached out to the media, being repeatedly told that 'we can't make the vaccines look bad,'" she stated.

Dr. Bob Kaplan, distinguished Professor Emeritus at the UCLA School of Public Health and Medicine, and a NIH associate director and a former Chief Science Officer at the Agency for Healthcare Research and Quality said that he supports vaccines and has been vaccinated himself, but he does have concerns about research integrity and the process used to authorize, approve and mandate vaccines during the COVID emergency.

People are being told to trust the science when in fact scientists rarely agree, and advancement in science depends on colleagues challenging the prevailing wisdom, he stated.

Part of Dr. Kaplan's concerns is that serious scholars have not been able to examine the raw data that justify the FDA and the CDC decisions. The evidence comes primarily from highly curated, industry-controlled press releases, and press releases lack the detail scientists need to offer objective evaluations, he said. "More disturbing is that the vaccine manufacturers are not honoring requests to provide raw data. Pfizer, for example, will not make data public, publicly available till 2025. This is really an unacceptable delay for a product that would be used by billions of people worldwide." More transparency is crucial and people need to insist on independent data analysis by investigators who are not employed by the vaccine manufacturers. "We must engage patients in the decision process."

Still believe that the COVID-19 "vaccine" is safe and effective?

**“We have no right to trust white people on this vaccine.”
—The Honorable Minister Louis Farrakhan**

Moderna: Dr. Kizzy DID NOT Invent Vaccine

Anthony Fauci, the mad scientist leading the COVID-19 depopulation campaign, tried to push the poison into the arms of “my African-American brother and sisters” with these words: **“The vaccine you are going to be taking was developed by an African American woman. And that is just a fact.”** He was referring to his “colleague” at the National Institutes of Health **Dr. Kizzmekia Corbett**, who is now at Harvard.

But according to the *NY Times*, Moderna and the NIH “are in a bitter dispute over who deserves credit” (and the billions of dollars of profits) for inventing the coronavirus “vaccine.”

The NIH claims that three scientists including Corbett should be named on the “principal patent application.” But Moderna said it had determined that “these individuals did not co-invent” the vaccine at all. It names several of its own employees as the sole inventors.

LA Sheriff Warns Of “Mass Exodus” Of Employees Because Of Vaccination Mandate

Los Angeles County Sheriff Alex Villanueva warned that more than a thousand key employees would leave his department unless the state’s ill-conceived

vaccine mandates are revoked. “We are experiencing an increase in unscheduled retirements, worker compensation claims, employees quitting, and a reduction in qualified applicants... I think we need to start a slowing down [of] this whole business about the mandates and I’ll give you a prime example. **Israel has the highest vaccination rate in the world and is one of the highest infection rates in the world.** And so let’s slow down on the mandates to start working

with our employees to get them to voluntarily comply.” More than 3,000 deputies and other department employees have yet to register their vaccination status with the county and would be terminated under the draconian policy.

Rabbinical Court “Forbids” Youth, Pregnant Women, Others From Taking “Vaccine”

A New York Rabbinical Court officially decreed that the mRNA COVID shot is “absolutely forbidden” for children, adolescents, young men and women. The decision stated:

“We heard from doctors who invented and manufactured the mRNA [and] they illustrated to us the **profound danger and harm inherent in this new technology.** They showed us how the governmental agencies and the pharmaceutical companies deny this fact, and how they conceal the data, making it so difficult for the public to realize the **severe adverse reactions and mortalities** that have befallen so many people who received the injection. We were also made privy to how they withhold the said information through various means, preventing the injuries and deaths from being publicized by the media or on the internet, as known.

“We also heard testimonies from our fellow Jews who suffered injuries, and even worse Heaven forbid, and also how **this injection is harmful to procreation and fertility.** And most importantly—we heard how there are tested and simple medications that have been successful in treating this disease, yet the governmental agencies have denied this, and even outlawed the said medications, **doing everything they can to promote fear, not health**—despite the fact that they themselves were aware that these medications work.

“And now they have approved the mRNA for children as well—for whom it is universally known and is accepted fact that **the disease presents no risk of danger**—and their intention is to mandate the injection for children as a requisite for attending yeshivas and religious girls’ schools, Heaven forbid.”

RABBINICAL RULING: *“It is absolutely forbidden to administer or even to promote this injection to children, adolescents, young men or women; even if it means that they will not be permitted by the government to attend yeshiva or seminary or to study abroad, etc. It is an explicit obligation to protest against this mandate, and anyone who can prevent the injection from being forced upon our youth must do so, forthrightly and emphatically.”*

Pandemic of Heart Attacks: At Least 75 Athletes Collapse from Cardiac Arrest

The Highwire COVID news center released a video containing news reports of more than 75 athletes from around the world who collapsed from heart failure in the last year. The sheer number of cases is shocking, and this heart attack pandemic has occurred as COVID “vaccine” mandates have been imposed on many athletic programs and professional leagues. The dangerous “vaccine” serum is known to cause blood clots and severe heart damage. Many of the athletes suffered heart attacks during games, several of them on film.

“Now a message to Satan: We know you’re angry. We know you’re vexed with us and we know in your hearts you desire to kill us all. But I’m telling you, Satan and your hosts, you can’t do it. And the moment you are insane enough because you have been rejected of God, because you are driven away from the face of God, the accursed one, and because He’s caused you to remain disappointed and He has judged you as being errant, the moment you try to destroy what God has come to save, He will bring down the full weight of his wrath on you.”

—The Honorable Louis Farrakhan
