The Power of Natural Immunity

Min. Louis Farrakhan

"You are already on death row and don't even know it. You're a host for the COVID virus. And that's why it's killing us. But it's not that we don't have the means … we don't really need a vaccine. We need more Vitamin D. Do you know why the virus is not hitting the Caribbean like it's hitting America and Europe? Because we live in the Sun. The Honorable Elijah Muhammad told me that in the Sun, there are billions of vitamins that you can't get in anything that is created except through the Sun."

–The Honorable Minister Louis Farrakhan
The Nubian Leadership Summit, December 12, 2020

Original people living in Africa, melaninated and immersed in Sunlight, are essentially immune from serious illness or death from coronavirus. Yet, scientists are scratching their heads about how Africa is one of the least affected regions in the world.

The African continent accounts for only 2.5 percent of global cases and 3.0 percent of global deaths, according to the World Health Organization (WHO). Less than six percent (5.4% of 74 million) of the African population has been fully vaccinated.

"Africa doesn't have the vaccines and the resources to fight COVID-19 that they have in Europe and the U.S., but somehow they seem to be doing better," stated Wafaa El-Sadr, Chair of Global Health at Columbia University, in an article published in the *Associated Press* (*AP*) on November 19.

Weekly COVID-19 deaths in Africa, already low, decreased in the week ending 25 October. 701 deaths were recorded in 31 countries, a 26 percent decline compared with the previous week. In comparison, 67 percent of people in the United Kingdom have been fully vaccinated; 56 percent in the United States; and 64 percent in the European Union. Yet these countries are experiencing record-breaking case rates. And the United States, which has the highest number of cases in the world, spiked even more as it reached a 200 million vaccine milestone.

Some so-called scientists have called Africa's success in resisting the virus naturally a "*conundrum*": *confusing or difficult problem or question.*

The reality is that there is anger and frustration over the failed plans to kill billions of Original people with the vaccine. African nations have rejected U.S. and European poison-laced vials. South Africa asked Johnson and Johnson and Pfizer to stop sending vaccines because it has enough in stockpile (November 24 *Bloomberg* Report).

Could it be that the *conundrum* for Satan (U.S. Government) and his scientists of evil is that the people and their leaders are listening to the Honorable Minister Louis Farrakhan?

"I say to my brothers and sisters in Africa, if they come up with a vaccine, be careful. Don't let them vaccinate you, with their history of treachery through vaccines, through medication. Are you listening? I say to the African presidents, do not take their medications!" The Criterion, July 4, 2020.

Natural immunity is from Allah(God), a part of our very being. President Joe Biden's November 26 ban on travel from South Africa due to the Omicron variant is punitive, critics argue. Africa's natural immunity stems from the Vitamin D3 manufactured when sunlight is absorbed through the skin. Many people have achieved natural immunity from a previous infection with the virus. Though natural immunity has proven to be better at fighting any and all infections, Anthony Fauci and Big Pharma have redefined it to mean "vaccinated".

The Informed Consent Action Network (ICANN), a non-profit scientific integrity organization, plans to take the CDC to federal court and the court of public opinion if it does not lift restrictions on the naturally immune.

Dr. Paul Alexander's ***"141 Research Studies Affirm Naturally Acquired Immunity to Covid-19: Documented, Linked, and Quoted,"*** (October 17, 2021), highlighted 141 robust studies, including:

"Necessity of Covid-19 vaccination in previously infected individuals/mexRxiv.com/June 5)", which found in part that out of 52,238 employees in the Cleveland Clinic Health System working in Ohio on Dec 16, 2020, the day COVID-19 vaccinations started, almost zero infections remained among the previously infected who were unvaccinated and previously infected subjects who were vaccinated.

The study released by the Washington University School of Medicine in St. Louis ***("Good news: Mild COVID-19 induces lasting antibody protection")*** found that months after recovering from mild cases of COVID-19, people still have immune cells in their body pumping out antibodies against the virus that causes COVID-19 and that such cells could persist for a lifetime.

When confronted with this, top U.S. health officials play dumb or are uninformed.

Republican Senator Rand Paul rebuked U.S. Attorney Xavier Becerra for insulting over 100 million Americans, including Senator Paul himself and NBA player Jonathan Isaac. Both had COVID-19 and recovered, and personally decided their resulting immunity removed any need for a vaccine:

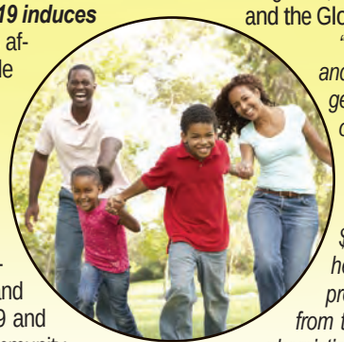
"***Quit lying to people about naturally acquired immunity … Try persuasion instead of government cudgels (sticks/weapons). Try humility instead of arrogance. Try freedom instead of coercion. Most of all, try understanding that there is no more basic medical right than deciding what we inject into our bodies***," stated Sen. Paul, as he challenged Pres. Biden's vaccine mandates during a September 30 Senate hearing on school reopening.

"The CDC says if you've had measles and have immunity, you don't have to be vaccinated. The same was true of smallpox. You're selectively doing this, because you want us to submit to your will," Sen. Rand continued.

One has to ask, with all of that information, why are the depopulation conspirators so bent on ignoring the power of natural immunity? With needles into every arm, they stand to make billions every year, in addition to their diabolical mission to cull the planet by 2 billion-3 billion people.

Anthony Fauci, who has said repeatedly that to criticize him is to criticize science, claims ignorance of these studies and their results, continues to deride people who rely on natural immunity and refuse the "vaccines". He also discredits researchers, scientists and others who challenge his lies.

If the science that Dr. Fauci is peddling is so trustworthy, why has the Food and Drug Administration (FDA), the very agency responsible to protect public health, asked a federal judge to allow a delayed release of Pfizer's COVID-19 vaccine trial results for 55 years then increased it to 75 years (until 2096)?



Pfizer CEO Albert Bourla is publicly declaring that people will need a fourth dose and annual shots.

"... Pfizer knows what this true clinical safety data are. They're just not sharing it with the rest of us. ... This guy (Bourla) knows that his firm is responsible for killing with this product, probably tens if not hundreds of thousands of people worldwide. He knows it …," said Dr. Robert Malone, who invented the mRNA technology at the core of the Pfizer and Moderna products. (Interview with Kristi Leigh, posted November 11, Freeworld News TV).

Noting that Mr. Bourla has gone so far as to say anyone criticizing his company's death shots should be jailed, Dr. Malone said, *"And he said this with a straight face, given that Pfizer, they have had more criminal penalties levied against them than just about any other country in the world. If there is a case to be made for a criminal organization, I think the case says that it's Pfizer, and the question is, (who) is this guy projecting? Is he under so much stress over all the misdeeds that they've done, that he's starting to come off the rails?"*

Pfizer's revenue is predicted to reach $101.3 billion in 2022, from its "vaccine", along with an investigational oral drug it claims reduces the risk of hospitalization or death by 89 percent.

Attorney Robert F. Kennedy, Jr., Children's Health Defense Chairman, detailed the "*pervasive web of deep financial entanglements between Pharma and the government health agencies"* in his bestselling book, **"The Real Anthony Fauci: Bill Gates, Big Pharma, and the Global War on Democracy and Public Health.":**

"The CDC, for example, owns 57 vaccine patents and spends $4.9 of its $12.0 billion-dollar annual budget (as of 2019) buying and distributing vaccines. NIH owns hundreds of vaccine patents and often profits from the sale of products it supposedly regulates. High level officials, including Dr. Fauci, receive yearly emoluments (salary, fee or profits) of up to $150,000 in royalty payments on products that they help develop and then usher through the approval process. The FDA receives 45 percent of its budget from the pharmaceutical industry, through what are euphemistically called 'user fees'."

Several Republican lawmakers have proposed legislation requiring federal agencies to consider naturally acquired immunity from previous COVID-19 infection when issuing any policies aimed at protecting from it. What then is the motive for denying the Power of Natural Immunity?

IFLScience.com reports that the world population will decline in the next century, and the primary driver is decreasing fertility, according to a new study published in the *Lancet* journal. The world's population currently stands at around 7.8 billion people, a number is estimated to grow over the next few decades and peak in 2064 at around 9.7 billion people, before falling to 8.8 billion by 2100.

"*The last time that global population declined was in the mid 14th century, due to the Black Plague.*" Stein Emil Vollset, Professor of Global Health at the Institute for Health Metrics and Evaluation.

Black African continent is to see an ***increase*** in population. North Africa, the Middle East, and Sub-Saharan Africa are estimated to triple in population from 1.03 billion in 2017 to 3.07 billion in 2100. "***Africa and the Arab World will shape our future, while Europe and Asia will recede in their influence,"*** said Dr. Vollset. Clearly, this alarming reality, along with greed, is driving the insane posture that a deadly, ineffective vaccine is preferable to our God-given immunity.

"… They are making money now, plotting to give seven billion five hundred million people a vaccination …"

IMPORTANT INFORMATION ON IVERMECTIN

—There was an overwhelming response to the July 20th article on Ivermectin, a safe, inexpensive medicine which has proven extremely effective in treating Covid-19. It can only be given by prescription. In response to numerous requests for information on how to obtain Ivermectin, we are providing the website which gives a nationwide list of physicians who will prescribe it. Why is America Pushing Her Failed Healthcare System on Africa?

by Dr. Ridgely Muhammad
NOI Research Group

"As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing, it is a profession of drugs."
–The Honorable Elijah Muhammad

The West seems quite upset that many African countries are soundly rejecting their deadly COVID-19 "vaccines". It is now widely-known that the Honorable Minister Louis Farrakhan warned African countries not to take these so-called vaccines (*The Criterion*). The author of a December 1, 2021 article in the New York Times,"*The Next Challenge to Vaccinating Africa: Overcoming Skepticism*", complained that,"*Just days before the Omicron variant was first detected, health officials in South Africa turned away shipments of doses from Pfizer-BioNTech and Johnson & Johnson, worried that their stockpile of 16 million shots might spoil amid insufficient demand.*"

However, the data explains why African nations don't want or need western so-called vaccines. They have been successful combating the virus while countries with the highest rates of inoculations, such as the United States, have the highest number of cases and outbreaks. Madagascar, with a per capita income of only $450 per year, uses a tonic developed by the Madagascar Institute of Applied Research (IMRA). It is made from artemisia—a local plant with proven efficacy in treating malaria. To date, Madagascar, with only a 0.72% vaccination rate has experienced 3.6 COVID-19 related deaths per 100,000. Meanwhile, the U.S. has a 62.7% vaccination rate, but has suffered 242.74 COVID-19 related deaths per 100,000. But America persists in hiding knowledge and access to treatments such as the artemisia tonic.

Instead of accolades, there was an assassination attempt on President Andry Rajoelina of Madagascar. Not only was he attacked, but earlier President Pierre Nkurunziza of Burundi died at age 55 "of a heart attack" in June of 2020. President John Magufuli of Tanzania died at age 61 of "an unknown illness" in April of 2021. Similar to Madagascar, Burundi had a 0.00% vaccination rate with only 0.3 COVID deaths per 100,000. Tanzania had a 0.4% vaccination rate with only 1.27 COVID deaths per 100,000. Effects of the coronavirus are virtually non-existent.

A typical ICU unit in a hospital

A closer look at what has transpired in South Africa from the beginning of this so-called pandemic will shed light on why the West is so "hell bent" on pushing its "vaccines" and its medical drug culture on Africa. We must look at the historical development of the White man's medicine in America as opposed to more natural health practices in Africa, like what was also practiced by Black people in America immediately after slavery.

When chattel slavery ended, Black people continued to resort to what they found in nature to produce their own remedies for their ailments. By 1910 the Black population had grown to 9.8 million. In fact, by 1910 we had established 7 medical schools and by 1923 had 200 hospitals—we now have one hospital. Those Black doctors used herbal medicines which were extracted from plants to treat disease. These practices went back to Black people's ancient healing roots in Africa. In fact, the Ebers Papyrus (2900 B.C.) is an Egyptian pharmaceutical record, which documents over 700 plant-based drugs.

The ability of their former slaves to heal themselves was seen as a threat by the White elite, such as the Rockefellers and Carnegies. They funded a 1910 study called *"The Flexner Report"*, which recommended to the American Medical Association (AMA) a set of practices defined as "good medicine", meaning synthetic drugs made from petroleum and surgery performed in hospitals.

Most synthetic drugs are organic molecules made using petrochemicals. Petrochemicals are made from oil, petroleum. Once scientists discover a particular set of hydrocarbons that produce the healing qualities of a particular plant, they can then mimic nature and patent their synthetic drugs made from petroleum and sell them to make exorbitant profits. The most well-known examples of the transformation of natural products into synthetic drugs include: 1. *Aspirin* from willow tree bark, 2. *Morphine* from opium poppy and 3. *Penicillium* from a type of fungus.

Of course, they need to keep the people away from the drugs found in nature so they can sell imitations. We can see this played out today in the vilification of *Ivermectin* by Merck who had patented it in 1987. However, when the patent ran out, they said that Ivermectin was not safe and effective, while they were making a synthetic product similar to Ivermectin that they could get newly patented, FDA approved and sell it for billions of dollars. The pharmaceutical companies enlisted hospitals to prohibit Ivermectin's use in treating COVID-19; on the other hand they were mandated to give their patients the very dangerous and expensive drug, *Remdesivir*. The final nail in the coffin is putting them on ventilators.

Fortunately, a doctor in rural South Africa lived 22 miles from the nearest hospital with no access in his community to Remdesivir, oxygen, IV's or ventilators. All he had was his medical training, love for his patients and a high level of observation and recordkeeping on his patients. To date, this doctor, Dr. Shankara Chetty, has successfully treated 5,000+ Covid-19 patients without a single hospitalization or death. His experience is similar to a host of independent-minded clinical practitioners who treated their patients based on "best practices" from training and experience, rather than government agencies and global medical dictators like the WHO.

Dr. Chetty made a clinic in his driveway using tents. He divided his patients up according to symptoms, not laboratory tests, and treated their symptoms the way he would treat any respiratory illness. However, he noticed that some of his patients developed more serious symptoms that were not flu-like on the 8th day from them first feeling sick. Through this methodology he was able to discover that the greatest danger to his patients was not the pathogen that caused the flu-like symptoms, but the part of that pathogen that kicked in 8 days after initial exposure. He discovered that the spike protein caused a hypersensitive allergic reaction to it as though it was a poison, like a bee sting. He discovered that the patients that were dying in the hospitals were dying because they were misdiagnosed with pneumonia, when in reality it was an acute allergic reaction to a poison, spike protein. The treatment was more dangerous than the misdiagnosed illness, which could have been handled with readily available and inexpensive drugs that would have stopped the patients' own immune system from overreacting and damaging multiple organs in the body. He also discovered that the worst thing the medical system did was to recommend that when patients first showed up in the emergency rooms with flu-like symptoms, they were not to be treated, but sent home to get sicker, only to come back in a worsened condition and then mistreated with remdesivir, oxygen and ventilation, which in many cases killed them.

Dr. Chetty said that he had a colleague who was experiencing 2 deaths for every 10 of his COVID-19 patients. He asked Dr. Chetty to teach him his 8th day protocol. According to Dr. Chetty, this doctor went from seeing 2 patients die out of every 10, to having zero deaths after using Dr. Chetty's protocol on 1,000 COVID-19 patients.

So, it seems that African countries were somehow blessed not to have all the modern testing equipment, expensive synthetic drugs and high-powered mechanical devices. Instead, they had local doctors familiar with more traditional healing practices. Which should tell us that a good doctor in a tent is better than a doctor in a $200 million hospital following dictates from hospital administrators, pharmaceutical and insurance companies and corrupt government agencies. Let us follow The Most Honorable Elijah Muhammad and discard the White man's drugs and fake food. Let us build a healthcare system based on Divine Guidance given to us in "How to Eat to Live". Obedience to Allah (God) will prevent sickness and provide natural remedies to put our bodies back in balance so that we can heal ourselves.

"We have no right to trust white people on this vaccine."

"Vaccine Segregation" Hits USA

Water hoses, police dogs, lunch counter discrimination, and "Whites Only" signs are back in America as a new reality. It is now sinking in that "Vaxxed Only" is becoming "the new normal." Many reports have circulated reporting **vaccination segregation**:

- ***One airline is charging unvaccinated employees $200/month extra on their health insurance.***
- ***One company put porto-potties in the back of the building for the unvaccinated.***
- ***One company put unvaccinated employees on a separate floor and they were not allowed to leave during the work day.***
- ***One company required the unvaccinated to wear an N95 mask with a face shield and it could not be removed at any time during the work day.***

In spite of proof that the forced "vaccine" has failed miserably at what it claimed it would do; and the fact that 20,000 healthy people have perished by the needle, Anthony Fauci and the depopulators he represents have succeeded in making "vaccination" a true doomsday cult.

Fauci on Forcing 'Jabs'

Dr. Anthony Fauci told the "Fox News Sunday" show: "When you are in a public health crisis, sometimes unusual situations require unusual actions. ***In this case, it's things like mandating, be they masks or vaccinations***."

"They're very important. We're not living in a vacuum as individuals. We're living in a society and society needs to be protected. And you do that by not only protecting yourself, but by protecting the people around you by getting vaccinated."

HR-550: Law Leading to Vaccine Passports

The holy grail of Big Pharma is to have the governments of the world force their toxic swill into every living being. Weak-minded leaders are deceived, threatened, and blackmailed into passing laws that require proof of vaccination to work, to eat, to buy, to attend school, to vote (Revelation 13:16-17).

HR-550 is now making its way through Congress, introduced by **Rep. Ann Kuster**, a former lobbyist for Merck Vaccines and the Pharmaceutical Research and Manufacturers of America (PhRMA). Her bill is called the "Immunization Infrastructure Modernization Act," and it is designed to create **a centralized database of every individual's vaccine status**. It would give government access to your health records and the ability to punish private citizens for their own health choices.

Such a program is already being tested on Africans in Ghana. In 2020 **Bill Gates** and **Mastercard** rolled out their "Trust Stamp" —a "digital vaccination record and identity system," which diabolically integrates vaccines and Mastercard's credit buying platform. Critics already see it as having nothing to do with health and everything to do with increased surveillance and predictive policing.

As if on cue, Ghana has just announced that the failed COVID-19 "vaccine" will be mandatory.

COVID "Vaccine" Jabs Dangerous and Ineffective

Dr. Peter McCullough, a world reknowned cardiologist, internist and epidemiologist, and editor of two peer-reviewed medical journals, says that harmful, fraudulent scare tactics are being used to keep COVID sufferers away from more effective treatment options and push them to the "vaccine." Dr. McCullough warns that the shots are causing severe heart damage in younger people, whose risk of dying from COVID-19 disease is inconsequential.

Dr. McCullough says that "While you only get at most six months' worth of protection from any given shot, each injection will cause damage for 15 months. If we continue with boosters, eventually, it's going to be impossible to ever clear out the spike protein. If your body is still producing the spike protein—which is what's causing the blood clots and cardiovascular damage—and you take an additional shot every six months, there will come a time when your body simply cannot withstand the damage being caused by all the spike protein being produced."

noun

1 - mental illness, mental disorder, derangement, madness, dementedness, lunacy, unsoundness of mind, loss of reason; delirium, hysteria, mania, psychosis, craziness.

2 – folly, foolishness, idiocy, stupidity, imbecility, senselessness, brainlessness, thoughtlessness, irrationality, illogicality, absurdity, ludicrousness, ridiculousness.

Won't Stop the Killing Biden Death Toll — 370,000

In his debate with Trump in October 2020 Biden said this:

"220,000 Americans dead. If you hear nothing else I say tonight, hear this….Anyone who is responsible for that many deaths should not remain as president of the United States of America."

When **Joe Biden** took over the presidency on January 20, 2021, there were 424,396 deaths attributed to COVID-19. As of December 12, 2021, the CDC records 794,558 COVID deaths. Under the Biden presidency, there have been 370,162 deaths—150,162 MORE than Biden's maximum for removal from office.

COVID Case Numbers Inflated by Faulty "PCR Test"

The DePopulators have relied on the PCR test to generate the fear and panic necessary to push their deadly "vaccines."

But that test, in which 8-inch Q-Tips are inserted deep into the nose, is being "Discontinued" by the CDC on December 31st. 22 top experts of the **International Consortium of Science** determined ten serious flaws with the test and deemed it useless for detection of COVID-19; and independent studies have determined that the test may give erroneous "positive" results in up to 90% of tests.

In fact, the Nobel Prize-winning inventor of the PCR test, **Dr. Kary Mullis**, says it should NEVER have been used for diagnosing disease. Dr. Mullis died in 2019 but he had said this of his former colleague **Dr. Anthony Fauci**, the prime advocate of the PCR test: *"Guys like Fauci get up there and start talking, and he doesn't know anything really about anything, and I'd say that to his face. Nothing....He doesn't understand electron microscopy and he doesn't understand medicine. He should not be in a position like he's in."*

Early on, **Tanzania**'s former president **John Magufuli** (now deceased), who had a Ph.D. in chemistry, suspected the PCR test was being fraudulently used to inflate COVID case numbers. He surreptiously sent in PCR test swabs from a goat, a papaya, a sheep, and motor oil, giving each sample a human name, gender, and age, and they all tested positive for COVID-19! With the scam exposed—and by a certified chemist, no less—Africa became more vaccine-resistant than it ever had been.

Pres. Magufuli reportedly said, *"You should stand firm. Vaccinations are dangerous. If the white man was able to come up with vaccinations, he should have found a vaccination for AIDS by now; he would have found a vaccination [for] tuberculosis by now; he would have found a vaccination for malaria by now; he would have found a vaccination for cancer by now."*

Further, the PCR test can not and does not test for "variants." According to scientists, identifying "variants" requires "a more complex genomic sequencing from labs at state, federal, and private levels," which are expensive and RARELY done. And so the claims that "COVID variants" are sweeping through this or that state, country, or region are almost entirely based on fear mongering—not science.

Under the guise of racial philanthropy horrifying MEDICAL EXPERIMENTS were conducted on Blacks

"From the 40s through the early 70s, American doctors regularly injected and infected inmates with malaria, typhoid fever, herpes, cancer cells, tuberculosis, ringworm, hepatitis, syphilis and cholera in repeatedly failed attempts to cure such diseases. Doctors in prisons pulled out prisoners' fingernails and inflicted flash burns to approximate the results of atomic bomb attacks and even conducted various mind-control experiments using isolation techniques and high doses of LSD, courtesy of the CIA."
