Scientist Confirms Systematic ATTACK ON US WITH VACCINATIONS

by Charlene Muhammad | National Correspondent | @sischarlene

“These gene therapy vaccines are completely immoral and unethical.

The reason why is that a vaccine has the potential to alter your immune system in ways we don’t understand. And for a length of time that we don’t know. So why would you want to do that? Once you alter the way your immune system works you are done.”

Lessons Learned From Africa Continent’s Defeat Of Virus

Africa tends to be very young, and young people are not as susceptible; RNA viruses don’t do well in the Sun. They are degraded. So, they probably have lower viral loads. I wouldn’t be surprised if you look up and they’re spraying stuff in the sky. Eighty percent of deer had antibodies to it. Most of us not are going out kissing deer. So how did the deer get it? This is some sort of concerted effort to affect the First World predominantly, because that’s where the power structure is. Now, I don’t know who’s doing it and why. But that’s pretty clear. But there are also some things that people may not think about. *We have been systemically attacked in regards to our health with the continued vaccinations.*

Florida Surgeon General’s Successful Vitamin D Approach To COVID-19

I’m just thrilled to see Dr. Ladapo address these issues and talks about Vitamin D, because *there’s a paper out that shows if you are Vitamin D sufficient, your chances of getting this are almost null.* As we know, African Americans in areas that don’t have a lot of sun aren’t really converting enough Vitamin D, generally speaking. And so, there are ways to supplement that. But that has not even been mentioned. We’re two years into this, and no one’s talking about Vitamin D. Vitamin D is a hormone. And it’s almost like a miracle hormone. I’ve been following it for about 20 years. And it’s really key in your antiviral defenses. We know that. We have all the data showing how important it is, and yet it hasn’t been addressed. So, I’m so grateful that in Florida, you can go out, you can sunbathe, you can get the Vitamin D you need, and they’re also

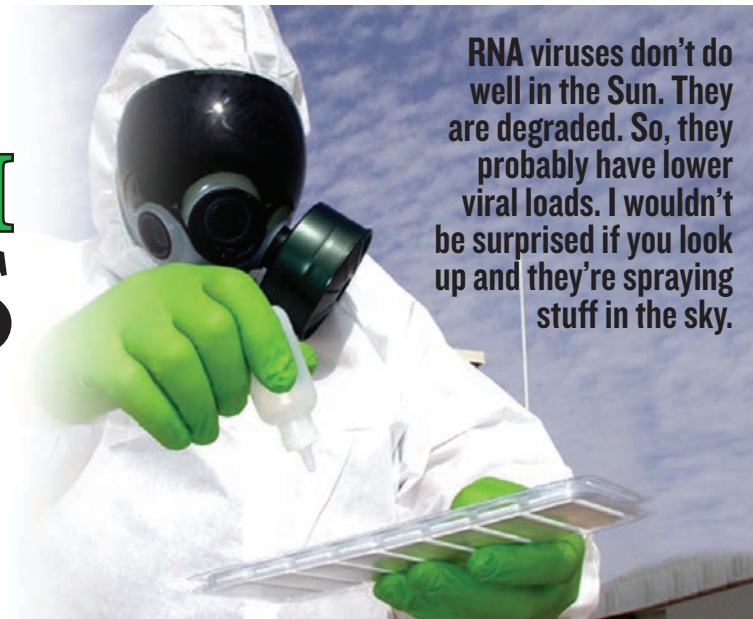

talking about supplementation. And because, as you said, one, reduce your fear, go outside, be healthy, all of those things are going to build immunity. And I have to think that there are things that are happening in some states that aren’t in others. Are they spraying it in some states, but they’re not in others, depending on what the political system is? And I know this seems like conspiracy theory, but there’s just so much evidence that something is going on.

The Right To Informed Consent

It’s always important to have informed consent, and we’ve shut down that conversation, so it’s really hard to have it. But there are vaccines out there that are not gene based and aren’t gene therapy. These gene therapy vaccines are completely immoral and unethical. I believe that bolstering your natural immunity is always the safer way to go. And then, even medications such as ivermectin, hydroxychloroquine, even monoclonal antibodies, all of those are safer than a vaccine. And the reason why is that a vaccine has the potential to alter your immune system in ways we don’t understand. And for a length of time that we don’t know. So, why would you want to do that? Whereas those other things may have transient effects. Maybe there’s some negative effects, but it’s usually very transient. Once you alter the way your immune system works, you’re done.

The Issue of Self-Determination

We’re really being forced to make a choice. And unfortunately, it’s putting all of us, including me in a very uncomfortable position, in terms of moving forward, will we choose self-determination, whether it’s White, Black, green, or yellow? Or, or will we capitulate to the Deep State because of the intense, intense pressure, and I’m not here to minimize that pressure, or to judge those who capitulate, who may have had their job, or their family, or whatever their circumstance is, because *this is a war, and there are going to be casualties. And so that is, unfortunately, where the rubber meets the road, this issue of self-determination. Whether it’s with my Vaccine Injury Coalition, or even whether my voice is allowed to be heard. Rizza, who spoke at the event, has already been censored by some groups, and then me by association, and so I come with a choice. Do I stand with*

RNA viruses don’t do well in the Sun. They are degraded. So, they probably have lower viral loads. I wouldn’t be surprised if you look up and they’re spraying stuff in the sky.

those who are for self-determination, who, regardless of whether I really agree with every belief, but who are clearly uplifting the Black community, and clearly building something, a structure that Black people can depend on? Or do I capitulate to the Deep State? I mean, it’s a pretty easy answer, but not necessarily easy to do, to step forward and face that opposition. And so that’s where this also becomes a spiritual battle, because having the spiritual strength not to negotiate with terrorists, who I believe anyone who is telling you what you have to do, and they’re the determinant. I talked with someone who basically said, it is this way, what the Nation of Islam believes is hateful, because I say it is. It’s not a difference in understanding. It’s not a difference in viewpoint. It’s hateful, because I say it is. So for this person to believe that they were the determinant of truth, and they have the right to impose that on the rest of us, that’s not acceptable to me. And again, we’re supposed to be in a country where we have freedom of speech, freedom of ideas, freedom to hash this out and say, I respectfully disagree both ways, and not to have one person be the arbiter of truth that they impose on the rest of us. And then you’re cancelled if you don’t sign on to that.

Truth Based In Science Must Be Told in Plain Language

I think that’s my heart and why I stepped up—I’m actually a teacher—to be able to communicate on a level that the lay person can understand. And during the hearing, I did that. Dr. David Wiseman was talking about the untranslated regions, and some other aspects of the technology, and no one had a clue what he was saying. And so, to bring that into layman’s terms, even if it’s a little bit of an oversimplification, so that the common person can understand what is the core concern here? Because he clearly was very passionate about these concerns, but no one had any idea of what it meant in the real world.

So, to be able to say that in layman’s terms and explain this technology, that’s what I’m trying to do. You can make your own decision. I’m here to tell you what the science actually says. This is our current model, whether it’s the science behind the mechanisms of hydroxychloroquine or ivermectin. That’s been my goal, to get that information out to the layperson, so that they can understand and know what’s real, and what’s not. What’s based on science and what’s just rhetoric. And it’s the same with the masks. I’m not here to judge somebody’s decision one way or another, but to provide you the information that I know.

Thank you for listening, because I think that disseminating true information is so important. And that’s what we have to do. And we can have discussions, and we can even disagree, but we can do it respectfully. And we can have different reasons why we make different choices, but I think that having respectful conversations where we address this, that’s what was supposed to happen from the beginning, and hasn’t happened in the mainstream media. So, I applaud the Nation of Islam for bringing in this information, and having that respectful conversation.

IMPORTANT INFORMATION ON IVERMECTIN

—There was an overwhelming response to the July 20th article on Ivermectin, a safe, inexpensive medicine which has proven extremely effective in treating Covid-19. It can only be given by prescription. In response to numerous requests for information on how to obtain Ivermectin, we are providing the website which gives a nationwide list of physicians who will prescribe it. Bill Gates' Confession: Natural Immunity is Ending Covid-19 Pandemic, Not The Vaccine! Meanwhile We Must Prepare For The Next Bioweapon Assault

by Dr. Ridgely Abdul Mu'min Muhammad

"When the White man was made his father was a liar, his father was a murderer, so they're born with lie and murder in their nature. How do they lie so easily?"
—The Criterion July 4, 2020

You just can't make this up. On February 18, 2022, during Germany's annual Munich Security Conference, Bill Gates (Co-Chair Bill & Melinda Gates Foundation) declared a new pandemic would likely stem from a different pathogen to that of the coronavirus family. Two years into the waning COVID-19 "pandemic," he observed that the worst effects have faded as huge swaths of the global population have gained some level of immunity. *"Sadly, the virus itself particularly the variant called Omicron is a type of vaccine that produces both T-cell and B-cell immunity...and it has done a better job of getting out to the world population than we have with vaccines."* Surveys indicate over 80% of the African people have been exposed "either to the vaccines or to various variants."

Gates overlooks the significance of what he just exposed. *Eighty percent* of the African people have some form of immunity, even though only 4% have been vaccinated. For instance, only 1% of the Ethiopia's 120 million people have been

vaccinated compared to Israel where 73% of her 9 million people have been vaccinated. However, the death rate in Ethiopia is 3 per day compared to Israel's 54 per day. Ethiopia's natural immunity is 240 times better than Israel's "vaccinated" population. These facts are ignored by Gates as he continues to push the vaccine agenda: *"Next time we should try and make it, instead of two years, we should make it more like six months."* He added that standardized platforms, including mRNA technology, would make that possible.

Gates is "expecting" a new virus to cause a new pandemic that Big Pharma can use as an excuse to synthesize some new profit-making poisons. Gates and the wealthy see these pandemics as an investment strategy. The shift of wealth to the rich is in the trillions as billionaires got 54% richer during the pandemic.

Gates and his band of murderous thieves purposely overlook other more important lessons learned from courageous doctors who saved the lives of thousands of COVID-19 patients. From the beginning of the pandemic these doctors were using protocols of safe, inexpensive, FDA-approved generic drugs that were viciously attacked by the FDA, Big Pharma and mass media.

While still suppressing the preventive and early treatment approach (safe, effective, inexpensive

meds, vitamins), Gates continues to push death shots. He has partnered with the U.K.'s Wellcome Trust to donate \$300 million to the Coalition for Epidemic Preparedness Innovations. CEPI helped form the Covax program to deliver "vaccines" to low- and middle-income countries. It aims to raise \$3.5 billion to cut the time required to develop a new "vaccine" down to 100 days.

A "new vaccine" for what? History has proven that Big Pharma, Big Media, Big Government (CDC, WHO, FDA) all lied when they declared the "vaccines" "safe and effective." In fact, Dr. Vladimir Zelenko pointed out that two months before the FDA gave *Emergency Use Authorization* for the COVID-19 "vaccines," it was fully aware the product would have serious side effects: *"death, heart attack, stroke, blood clots, horrific neurological diseases, myocarditis and many, many more."* The CDC's own VAERS data, published weekly in *The Final Call Newspaper*, has the death count at nearly 25,000 and 1,000,000 injuries. They admit this is only a small fraction of the total because many outcomes are not reported.

The people have learned they can reduce the co-morbidities rampant in the Black community such as heart disease, diabetes, and obesity. It only takes a change in diet. Make *How to Eat to Live*, by The Most Honorable Elijah Muhammad, the central part of our survival kit helps protect us against new attacks. "Vaccines" are depopulation chemicals in disguise.

Why is Gates so anxious to push more gene altering "vaccines" that do not stop transmission or protect you from catching the disease? What's in these things for us and what is in it for him?

We can thank Deputy Prime Minister of Canada, Chrystia Freeland, also a director of the *World Economic Forum*, for giving us a peek at the long-term plans of those who intend to control everyone on our planet. She announced, on Feb. 17, 2022, that she will use her emergency powers to cut off funding for the ongoing trucker anti-vaccine mandate protesters by freezing the bank accounts of individual supporters—including *Bitcoin* and *cryptocurrency* funds—of Freedom Convoy organizers. She plans to make her emergency powers permanent.

This reminds me of Catherine Austin Fitts' warning about the "Great Reset" plan of *World Economic Forum's* founder Klaus Schwab. In an interview on *TheHighWire.com*, Ms. Fitts explains what this new economic reality will look like on a personal basis: *"You will no longer have a currency. You will have a credit at the company store. If they don't want you traveling for more than 5 miles from your home, your credit card, your bank account won't work more than 5 miles from your home...If they have decided that they don't want you to buy a pizza, then you can't buy pizza. You are talking about complete control at a very intimate level of*

surveillance. And remember, there's no privacy. They will be able to track every transaction you make. We are talking about a credit at the company store and literally a slavery system."

The *World Economic Forum's* goal is to use the global economic destruction caused by COVID-19 policies as an "opportunity" to "build back better," where future humanity will "own nothing; and you'll be happy." Sounds like communism to me.

Attorney Robert F. Kennedy, Jr., in his best-selling book *"The Real Anthony Fauci,"* writes that just before the virus outbreak in October of 2019, Gates personally organized a simulated disaster study of a coronavirus pandemic. It was called *"Event 201."* Participants included high-ranking power brokers from the World Bank, World Economic Forum, Bloomberg/Johns Hopkins University Populations Center, the CDC, Corporate Media, the Chinese government and more.

This 21st Century Slavery System will operate on the "social credit system" used by the Chinese Communist Party to control their 1.4 billion people. Instead of cameras everywhere, advanced intrusive nanotechnological devices will be administered through the mRNA "vaccines" relay this personal information to a digital "cloud." The 2020 Bill Gates / Microsoft Patent is "WO2020060606 - CRYPTOCURRENCY SYSTEM USING BODY ACTIVITY DATA"

In common language, Microsoft will use your 5g smartphone to relay everything about your activities in real time to the digital "cloud." If your "body activity data is verified," i.e., if you behave the way the modern slave is expected to, you will be paid in the new virtual money known as *cryptocurrency*, which is already replacing hard cash. If you misbehave, the owner will take it away.

Your body activity, even your emotions, will be tracked with a tiny biosensor implant you received via a shot, possibly disguised as a vaccine. In 2016 a company named *Profusa* was contracted by the United States Army to develop *implantable biosensors* that continuously monitor multiple body chemistries. The COVID-19 "pandemic" has provided the opportunity for these self-appointed "masters of the universe" to experiment on the global population enabling them to determine how the body will react to these "Trojan Horses" disguised as "vaccines."

Now that the people have been acclimated to the "need for boosters," internal "operating systems," can be upgraded the same way your phone and other devices update themselves without need for your permission on a regular basis. Ironically it is supposedly to protect your computer from "viruses."

So, People get ready for the next bioweapons attack. At least now you know WHO is attacking and WHY. The Nation of Islam has warned you for decades. Now the Time has arrived.

Scientists analyzing the data collected in the CDC's Vaccine Adverse Effects Reporting System (VAERS) have detected a pattern showing that certain batches of the Pfizer, Moderna, and Johnson & Johnson "vaccine" are far more deadly than others—even by thousands of times. These specific batches are linked to the most deaths and illnesses and the pattern of these poison needle deployments suggests that these companies are deliberately testing the strength of their serum through this wicked process. Below listed are just some of the more deadly lot numbers and the deaths reportedly linked to these batches in the CDC database:

Embalmers Find Veins & Arteries Filled with "Never Before Seen" Rubbery Clots

DePopulation Successfully Targets Black Women

They Say 'TRUST the Doctors'

Board-certified funeral director and embalmer, **Richard Hirschman** (right) has made a startling discovery in the bodies of deceased people. He revealed that he is seeing arteries and veins filled with unnatural blood clots with strange fibrous materials that are completely filling the vascular system. Photographs he took show unusually long "white, stringy, fibrous tissue" that he pulled from the veins and arteries in "fifty percent" of the bodies he and other embalmers are preparing for burial. The worm-like clots in the photos are 2-3 feet in length.

According to Hirschman, this is unlike anything he had ever seen before in his over 20 years of experience in the embalming industry. He revealed to **Dr. Jane Ruby** in an online interview, that he had conferred with other embalmers who are also finding these worm-like structures. He confirmed that some of those deceased with these blood clots had indeed received the COVID-19 "vaccines." Mr. Hirschman thought it was "amazing" how many people are dying with heart attacks and strokes lately and said, "If one of these small fibrous tissues, gets up into your heart, you're going to have a stroke. If it gets into your heart, it's going to lead you to a heart attack." Of the 35 people that he had personally embalmed in February, 20 to 24 had had these strange clots.

Meanwhile, it is reported by Mercola.com that stocks in funeral homes have soared, "as death rates creep up, particularly among young, working-age individuals." Ex-**Blackrock** fund manager **Ed Dowd** pointed out "a spike in mortality among younger, working-age individuals coincided with vaccine mandates." Dowd tweeted about the booming funeral home industry:

"Business has been quite good since the introduction of the vaccines & the stock was up 106% in 2021. Curious no? Guys this is shocking as 89% of Funeral homes are private in US. We are seeing the tip of the iceberg."

Let's look at how racism affects reproductive health-care.

- For women over age 30, pregnancy-related mortality rates for black women are 4 to 5 times higher than it is for white women.
- Black women are three times more likely to have fibroids that increase risk for postpartum haemorrhage.
- Of women experiencing unintended pregnancy, opting for abortion was higher among black women (50%) compared to other racial and ethnic groups (36-40%).
- Black women are 2 times more likely to lose their lives to cervical cancer compared to white women.
- An estimated 11% of black women receive infertility treatment compared to 16% of white women.

Trust the "Doctors"? History of Medical Racism & Savagery

Statue of Sims in New York's Central Park, removed in 2018 after protests.

The alleged "father of gynecology" **James Marion Sims** practiced his surgical technique on enslaved Black women without anesthesia. Between 1845 and 1849, three Black women—**Anarcha**, **Lucy**, and **Betsey**—each underwent up to thirty operations that were so horrifically painful that Sims's assistants "could not stomach their bone-chilling shrieks." The women themselves were forced to take turns restraining each other as Sims cut into their bodies.

The "COVID-19 VACCINES": "We Have NO RIGHT to Trust Them."

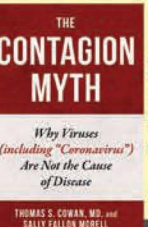

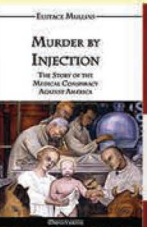

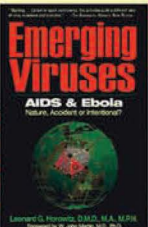

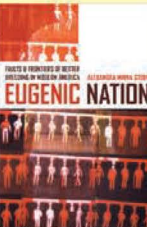

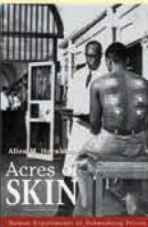

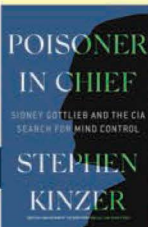

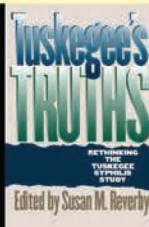

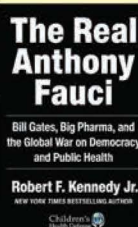

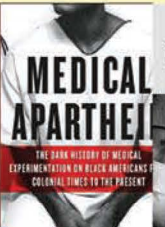

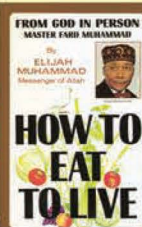

According to a recent Nationwide survey:
MORE DOCTORS SMOKE CAMELS THAN ANY OTHER CIGARETTE

DOCTORS in every branch of medicine—113,397 in all—were queried in this nationwide study of cigarette preference. Those leading research organizations made the survey. The gist of the query was—What cigarette do you smoke, Doctor?
The brand named most was Camel!
The rich, full flavor and cool mildness of Camel's superb blend of choice tobaccos seem to have the same appeal to the smoking tastes of doctors as to millions of other smokers. If you are a Camel smoker, this preference among doctors will hardly surprise you. If you're not—well, try Camels now.

Google: Searching for Medical CENSORSHIP

Google has led the way in censoring legitimate medical information if it does not align with the wishes of the pharmaceutical industry, and here's why. According to Robert F. Kennedy, Jr.'s book **The Real Anthony Fauci**:

"Google's parent company Alphabet owns several vaccine companies, including Verily, as well as Vaccitech, a company banking on flu, prostate cancer, and COVID vaccines. Google has lucrative partnerships with all the large vaccine manufacturers, including a \$715 million partnership with GlaxoSmith-Kline. Verily also owns a business that tests for COVID infection."

Two healthy high school basketball players died suddenly on the same day

Seventeen-year-old **Cameran Wheatley** of Chicago and fifteen-year-old **Devonte Mumphrey** of Texas both collapsed on February 8, 2022, and died from a sudden cardiac arrest.

Both families said that they were healthy and active young men before the tragedy. Their names are added to a growing list of athletes who have suffered heart-related medical emergencies since the "COVID vaccines" have been made a requirement for athletes to participate in sports worldwide.

It is well known now that the mRNA "vaccines" are associated with heart inflammation (myocarditis)—a known risk factor for sudden death. The odds of such an event occurring naturally would be, statistically speaking, virtually impossible. The chances of an otherwise healthy adolescent dying of sudden cardiac death are scarce and have been estimated at roughly 1 in 200,000. Your lifetime risk of being struck by lightning is 1 in 14,000.

The website goodsciencing.com documents the collapses and sudden deaths among athletes, and they have now recorded some 707 Athlete Cardiac Arrests, and 446 sudden deaths since the "vaccine" roll-out.

'Conspiracy Theories' That Are Now FACTS

When wise and intelligent people and medical professionals expressed their opinions and observations on the "pandemic," they were labeled "conspiracy theorists" and attacked, censored, and thrown off social media, and some were even physically threatened. Here are some of the alleged "conspiracy theories" that proved to be ACCURATE predictions:

CONSPIRACY: The "vaccine" will not reduce transmission or end the pandemic.

TRUTH: The "vaccine" DOES NOT reduce transmission or end the pandemic.

CONSPIRACY: The "vaccine" will not reduce infection and is therefore not even a vaccine.

TRUTH: The vaccine DOES NOT reduce infection and so by definition IS NOT a vaccine.

CONSPIRACY: The vaccine is not safe.

TRUTH: The CDC has now received one million reports of adverse reactions to the "vaccine," including 24,000 deaths, 125,000 injuries that required hospitalization, and 40,000 jab-ees who have suffered permanent disabilities. These "casualties" are linked to the "jabs"—NOT to COVID-19 or a war, but to the unsafe, ineffective, experimental "vaccines." In the past, between 5 to 10 deaths would have halted the vaccine program instantly. This is the most dangerous "vaccine" in history.

CONSPIRACY: The government will resort to vaccine mandates to force the injections on "hesitant" Americans.

TRUTH: Joseph Biden forced government employees and contractors to take the injections or lose their jobs. Many states, cities, and private businesses have done the same, forcing hundreds of thousands out of work and into poverty. Some countries, such as Austria, have made vaccine mandates national policy, not just for workers but for all adult citizens, threatening hefty fines and jail time for anyone who doesn't succumb.

CONSPIRACY: Vaccine passports that make vaccination a requirement to gain access to restaurants, entertainment venues, transportation (air, train, bus, etc.), schools, hospitals, and other necessities are the aim of the powers that be.

TRUTH: Vaccine passports are fully operational in many places and must be carried and updated with "boosters" at all times.

CONSPIRACY: The "virus" was created by scientists in a Wuhan lab.

TRUTH: Government itself admits that **Fauci-funded gain-of-function experiments likely produced the "pandemic."**

CONSPIRACY: Bill Gates and his crew are intending to use skin patches to vaccinate people.

TRUTH: Gates on Feb. 19, 2022: "In the future, we don't want to use a needle. It may turn out that you take your first dose as a micro-patch and your second dose as an inhalation..."

Kenyan Doctors Say Tetanus Vaccines Were Laced With Sterilization Drug

In 2014, the **World Health Organization (WHO)** and the **United Nations** were charged with running a tetanus vaccination program in Kenya that was really a mass sterilization plot. According to reports, the tetanus shots were laced with the Beta-HCG hormone that causes infertility and miscarriages. Authorities became suspicious of the vaccines and asked why it was necessary to give a series of five vaccinations against tetanus, rather than the usual two or three, and why only young women of child-bearing age were vaccinated.

They observed that women who had been vaccinated miscarried in large numbers or were unable to conceive at all. The plot came to light in a statement signed by the 27 bishops of the **Kenya Conference of Catholic Bishops**, in which they said they "acquired several vials of the vaccine, which we sent to four unrelated government and private laboratories in Kenya and abroad." The labs found that all the vaccines were "indeed laced with the Beta-HCG hormone."

Dr. Wahome Ngare

The Catholic bishops presented the findings to the government agencies involved, who denied the charge. **Dr. Wahome Ngare**, writing on behalf of the Kenya Catholic Doctors Association, stated that

"It was only after antibodies against HCG were demonstrated in the women who were immunized with the laced tetanus vaccine that the matter was sealed. The immunized women have suffered multiple abortions and some have remained sterile."

This was not the first time such claims have been made. The World Health Organization conducted massive vaccination campaigns using the HCG-laced tetanus vaccine in Mexico in 1993, in Nicaragua and the Philippines in 1994, and in Peru in 1995. The campaigns targeted women of child-bearing age and each received a total of 5 injections. Finally, tests carried out by Catholic doctors in Peru and the Philippines showed that the World Health Organization vaccines were tainted with beta-HCG, results that the WHO brushed off as "accidental contamination."

The Kenyan bishops were not speaking as outsiders. Catholic-run health institutions formed Kenya's largest private health network and had been providing medical services to Kenyans for over 100 years. They concluded, **"That we shall not waver in calling upon all Kenyans to avoid the tetanus vaccination campaign laced with Beta-HCG, because we are convinced that it is indeed a disguised population control program."**
