A CALL TO ACTION: DEMAND THAT THE U.S. GOVERNMENT HALT THE USE OF THE COVID-19 VACCINES

by Ava Muhammad, Student National Spokesperson for The Honorable Minister Louis Farrakhan

It has been eleven (11) months since the Honorable Minister Louis Farrakhan, in his Message, *The Criterion* (July 4, 2020), issued the divine warning to Black and indigenous people in America, Africa and all over the globe to stay away from *any* COVID-19 vaccine that comes on the market. Remember, when he spoke the vaccines were still in development. Yet he spoke with conviction and certainty because the Warning was not from him, it was through him from Allah (God). Before six months passed, the deployment of three vaccines started in the United States. Two of them are not even vaccines, they are gene therapy; the result of biotechnology. Now the whole world knows there is a direct causal connection between these products and the deaths of over 5,000 people, along with 200,000 adverse events (injuries) in this country alone. These numbers, reported to U.S. Health and Human Services and updated each Friday, are astonishing, yet HHS estimates that less than 1% of the total number of adverse events are ever reported through its system (VAERS). Even more shocking is that these numbers are being dismissed as inconsequential or coincidental.

Let's put things in their proper perspective. The government takes the position that nearly 5,000 deaths and thousands of injuries are meaningless, because close to 300 million Americans have received a first dose. That is like saying that the 3,000 dead after 9/11/2001 was nothing because there are over 300 million Americans. These are what we call "senseless deaths." Who would tell the families of 2,312 U.S. military personnel who died in Afghanistan since 2001 (a period of 20 years) that this is a small number? The nearly 5,000 vaccine deaths have occurred in less than 6 months and are climbing. In addition, they are people who were simply living their lives until they were coerced and cajoled by the government into subjecting themselves to fatal injury.

The 1976 swine flu pandemic mass vaccination campaign was abruptly cancelled after 53 deaths. In less than 6 months the COVID vaccines have killed more people than all available vaccines combined over a 15-year period (1997-2013).

Among the multitude of wicked deceptive practices taking place is the pretense that everyone's risk for contracting and/or being hospitalized or dying from COVID is the same when nothing could be further from the truth. More than 98% of the population are either sufficiently young (under 50), healthy and/or "COVID Recovered"

PETITION FOR ADMINISTRATIVE
ACTION REGARDING COVID-19
VACCINES

Docket No. _____

CITIZEN PETITION

On behalf of Children's Health Defense, the undersigned submit this petition under 21 C.F.R. § 10.20, § 10.30, § 50.23, § 600 - 680, § 601.2; 10 U.S.C. § 1107(f), § 1107a; 21 U.S.C. § 355(i)(4), § 360bbb-3; 42 U.S. Code § 247d; § 564 of the Federal Food, Drug, and Cosmetic Act (FDCA); the Public Readiness and Emergency Preparedness Act; the Public Health Service Act, and § 553(e) of the Administrative Procedures Act.

We request the Acting Commissioner of the Food and Drugs Administration (FDA) to issue, amend, revoke, or refrain from taking the administrative actions listed below regarding emergency use authorizations (EUAs), current and future new drug applications (NDAs), and biologics license applications (BLAs) for all COVID vaccines.

I. ACTIONS REQUESTED

1. FDA should revoke all EUAs and refrain from approving any future EUA, NDA or BLA for any COVID vaccine for all demographic groups because the current risks of serious adverse events or deaths outweigh the benefits, and because existing, approved drugs provide highly effective prophylaxis and treatment against COVID, mooting the EUAs.
2. Given the extremely low risk of severe COVID illness in children, FDA should immediately refrain from allowing minors to participate in COVID vaccine trials, refrain from amending EUAs to include children, and immediately revoke all EUAs that permit vaccination of children under 16 for the Pfizer vaccine and under 18 for other COVID vaccines.
3. FDA should immediately revoke tacit approval that pregnant women may receive any EUA or licensed COVID vaccines and immediately issue public guidance to that effect.

(According to the Centers for Disease Control nearly 35 million Americans have had it and gotten over it). Children are virtually untouched. It is sinful that despite the harm

being done to human beings, the government continues to heavily promote the uptake of these vaccines. They are using celebrities, professional athletes, preachers, politicians, educators and everyday people to pressure us to "just get the shot."

It is time for all of us to become more proactive in fighting this diabolical scheme. The Honorable Minister Louis Farrakhan has relentlessly stood up for Truth and for us for over 65 years. Can we just get behind him for once and for our own sake? These vaccines are being resisted by millions of people from every race, class and religion. We can defeat the Synagogue of Satan with the Help of Allah (God). You can take part in the campaign against the U.S. government's depraved indifference toward the lives of the people who live here.

On May 16, Attorney Robert F. Kennedy, Jr. and Meryl Nass, MD (Scientific Advisory Board), filed a Citizen Petition on behalf of Children's Health Defense, calling on the U.S. Food and Drug Administration (FDA) to withdraw COVID-19 vaccines from the market. The 19-page cover letter and petition, which can be found on childrenshealthdefense.org (click on box that says "Children's Health Defense Demands Immediate Suspension of Plans to Give COVID Vaccines to Children") and calls upon the agency to take a number of actions, including but not limited to the following:

Call to Action

Continued from page 8

Revoke the Emergency Use Authorizations (EUAs) for the COVID vaccines.

Refrain from licensing the COVID vaccines.

Prohibit the participation of minors in the COVID vaccine trials and immediately revoke all EUAs permitting vaccination of minors.

Immediately amend its existing guidance for the use of Ivermectin, chloroquine drugs and any other safe and effective drugs against COVID.

All of the COVID vaccines currently being administered were rushed, under a government program known as Operation Warp Speed, through the Emergency Use Authorization process while health and medical professionals around the world have been citing and using viable treatment options that are inexpensive and readily available. EUA status was originally intended for situations where there is a lethal disease for which effective treatment options cannot be found.

The petition references Dr. Peter McCullough's testimony to the Texas Senate on March 10, 2021, that an 85% lower mortality rate from COVID would have been possible if government agencies had publicly recommended early treatment. Dr. McCullough is an internist, cardiologist, epidemiologist and Professor of Medicine at Texas A&M College of Medicine in Dallas. He has been the world's most prominent and vocal advocate for early outpatient treatment of COVID-19 in order to prevent hospitalization and death.

The petition continues, "Now that COVID cases and deaths are decreasing because many if not most Americans are immune, the relative benefit of COVID vaccines has diminished." "FDA was aware at least 13 months ago that Americans were using Ivermectin to treat and prevent COVID. How could FDA not have reviewed data on Ivermectin during an entire year after it was informed about this use? ...Furthermore, Ivermectin has been used OTC (over the counter) for COVID in many countries and regions with excellent reported treatment success. The drug's safety has been established with at least a billion doses used and the drug is on the World Health Organization's list of essential drugs... (There were) many clinical trials of both drugs (Ivermectin and hydroxychloroquine) for COVID prevention. Yet, FDA has remained silent about these benefits, even though the efficacy of these preventative treatments probably supersedes that of COVID vaccines."

The petition also includes the following:

Pending revocation of the COVID vaccines' EUAs, the FDA should issue guidance that all marketing and promotion of the vaccines **MUST REFRAIN** from labeling them "**safe and effective**" (emphasis added), as such statements violate federal law.

Major media outlets have been used to saturate the airwaves with misbranding the vaccines. Not only are they repeatedly called "safe and effective" in commercials and news programs, they are characterized as "approved" when neither is true. The FDA's precise technical language in

Photo: Envato

their communications to the manufacturers does not match the unequivocal "safe and effective" claims on official government websites.

The petition also addresses the illegal and unethical coercion and compulsion surrounding the administration of the vaccines. First of all, because they are EAU products, they are optional according to federal law. "Yet throughout the United States, schools, businesses, government and industry are using coercive tactics to encourage, incentivize and compel COVID vaccination as a condition of employment, education and daily living. It is unlikely that most Americans would support such coercion if they were fully informed that COVID vaccines are for emergency use only, investigational, unapproved and that individuals have the explicit right to refuse by law."

The FDA is just an administrative agency in the Executive Branch of the federal government. It does not make law. However, its action and inaction concerning COVID-19 is having a global impact on health policy. It is imperative that we use every avenue available to fight this assault on us. We have to stop these mandates before they gain anymore traction, especially the ones targeting the children.

They have already started vaccinating 12-15 year olds and are conducting trials for young children. They will not stop until they can administer COVID the first day of life. In fact, this is the only experimental vaccine known to be administered to pregnant women.

In order for this legal action to be successful, the petitioners need as many people as possible to make comments on the petition. People from anywhere in the world are able to speak directly to the U.S. Government by commenting on the petition. It can be read in Spanish, French, Italian and German, as well as English. Your comment on this petition is vital in the fight to prevent further injuries and deaths from these experimental medical products. **Let your voice be heard.**

"So, Mr. Dershowitz, if you bring the vaccine and say you're going to bring your army to force us to take it, once you try to force us, that's a declaration of war on all of us. You only have this one life. Fight like hell to keep it and fight like hell to destroy those whose heart and mind is to destroy you and take your life from you...So, don't take the vaccines. There are 14 therapies that are in the world today that we can use to fight against the Covid virus. America, you won't solve it. The scientists of the world, you won't solve it. I want to tell you what will solve it. You ready? This virus Is a pestilence from heaven so scholarship from hell can't deal with pestilence that came from heaven."

Covid-19: A 'For Profit' Pandemic

by Sultan Muhammad
NOI Research Team

"They are making money now, plotting to give seven billion five hundred million people a vaccination. Dr. [Anthony] Fauci, Bill Gates and Melinda [Gates], you want to depopulate the Earth. What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die? That's why your world is coming to an end quickly because you have sentenced billions to death. But God is now sentencing you to the death that you are sentencing to others. Yes, Allah is Great."

The Honorable Minister Louis Farrakhan, "The Criterion," July 4th, 2020

The Honorable Minister Louis Farrakhan's revelatory words, July 4th, are being made manifest daily as confusion, lies, disinformation and propaganda flood the major media outlets, which then censor, condemn or cover any facts or analysis which contradict the state of induced panic.

The major deception of this fear-driven pandemic is the idea that the only solution to COVID-19 is the deadly, experimental vaccinations now offered by Big Pharma.

When you tally up the great scare, deaths, tests, the vaccine push and confusion, it has produced an instant reward for Big Pharma in the form of big Paychecks.

These paychecks came with the collateral damage of now, more than 600, 000 deaths with no alternative approach to stem the carnage in the United States until submission. Vaccination or else!

In a lengthy expose' on the billions awarded by the government to Big Pharma, Forbes' magazine writer, Nina Burleigh notes that before COVID-19 the major "vax" purveyors, **Pfizer, Merck, Sanofi** and **Johnson and Johnson** had been easing away from the vaccine business, because of dwindling profits. These three Big Pharma companies, Burleigh stated, "...are experiencing a complete astronomical profit overhaul resulting from the governments Operation Warp Speed (OWS) COVID 19 relief program" which would dole out \$22 billion to Big Pharma.

"The amounts of money", she continues, "were the kinds of sums normally seen in the smaller defense budget line items but were massive for a public health project."

In a March 6, 2021 article in **The Guardian** by Julia Kollewe, entitled **From Pfizer to**

Moderna: who's making billions from Covid-19 vaccines?, the author gives the following figures as the projected sales of the following Pharma companies for 2021:

Pfizer/BioNTech **mRNA vaccine---** Expected sales in 2021: \$15bn-\$30bn

Moderna **mRNA vaccine---** Expected sales in 2021: \$18bn-\$20bn

Johnson & Johnson **Adenovirus vaccine---** Expected sales in 2021: up to \$10bn

AstraZeneca **Adenovirus vector vaccine---** Expected sales in 2021: \$2bn-\$3bn

Is this why so many have died, and the living are being cajoled into taking untested experimental vaccines?

China's Success Compared to the U.S. in Fighting COVID-19

According to the John Hopkins University Coronavirus Center, which monitors the pandemic worldwide, the United States, as of June 1, 2021, had recorded some 33,264,399 confirmed cases of COVID and 594, 568 deaths¹ with an estimated population in the U.S., as of April 1, 2020 of about 332 million.²

China, however, as of June 1, 2021, with a population of about 1.4 billion people recorded only 103,014 confirmed COVID-19 cases with 4,846 deaths.

While China is being battered, daily, as the cause of the COVID-19 virus, there is no mention, that China has suffered less than 5,000 deaths as of June 1, 2021.

The reason for China's success has been reported for months, but overwhelmingly ignored by the U.S. and western press.

Helen Yaffe, in an article she wrote for the London School of Economics and Political Science (LSE), March 20, 2020 reported that:

"Cuban Interferon Alfa-2B has proven

effective for viruses with characteristics similar to those of Covid-19. Cuban biotech specialist Dr Luis Herrera Martínez explains that "its use prevents aggravation and complications in patients, reaching that stage that can ultimately result in death...The Chinese state rolled into action to combat its spread and care for those infected. Amongst the 30 medicines chosen by the Chinese National Health Commission to fight the virus was a Cuban antiviral drug called Interferon Alfa-2B, which has been produced in China by the Cuban-Chinese joint venture ChangHeber since 2003."

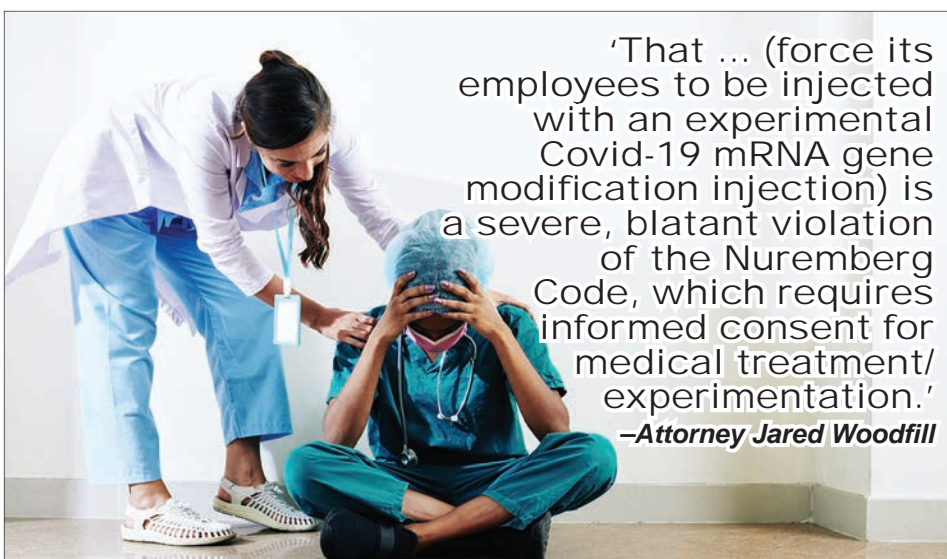

Why hasn't the United States sought and used whatever methods China has used, since China has been so successful in containing the virus as compared to the so-called developed nations?

The Honorable Minister Farrakhan, July 4th, 2020, pointed out the success that Cuba and China were having in treatment of the Covid-19 Virus.

"Our Cuban family, when the plague broke out in Wuhan, they went to Hubei Province in Wuhan, and with the Chinese, they corrected it and drove it out of Wuhan. Don't we need something that Cuba has? See, but you've got an embargo on Cuba... Remember the syphilis experiment? Remember what they did to the Native Americans with smallpox? Remember the vaccine that they gave us for polio that was cancer itself? So, how in the hell could you trust them with a vaccine after you know what they have done and that they are capable of doing it again on a bigger and broader level? ... It's government policy to reduce the population of the Earth by two to three billion people. **You know that, right?"**

DON'T TAKE THE VACCINE!

Medical professionals in Houston file lawsuit against hospital's demand to take experimental vaccine

'That ... (force its employees to be injected with an experimental Covid-19 mRNA gene modification injection) is a severe, blatant violation of the Nuremberg Code, which requires informed consent for medical treatment/experimentation.'

—Attorney Jared Woodfill

By the time you read this, 117 hospital workers in Houston have been suspended and could soon be out of a job. Methodist Hospital became the first major healthcare system in the country to force its employees to be injected with an experimental Covid-19 mRNA gene modification injection or be fired. This hospital's decision is forcing them to be human 'guinea pigs' as condition for continued employment, argued Attorney Jared Woodfill who is representing the workers in a federal law-suit.

That is a severe, blatant violation of the Nuremberg Code, which requires informed consent for medical treatment/experimentation, he charged in the suit.
