

# COVID-19 Vaccines: The Drug Pushers' Dream of Profit and Depopulation

by Dr. Ridgely Abdul  
Mu'min Muhammad  
NOI Research Team

**W**hy are Dr. Anthony Fauci and Bill Gates pushing vaccines so hard and completely dismissing known therapies or treatments for COVID-19? Minister Farrakhan directly addressed them both in *"The Criterion"*:

*"They're making money now plotting to give seven billion five hundred million people a vaccination. Dr.*

*Anthony Fauci, Bill Gates and Melinda, you want to depopulate the earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die?"*

Let's go back a bit to understand the background leading up to the "Warp Speed" production of "vaccines", when there are dietary regimens, therapies and treatments to prevent and/or dramatically reduce the impact of COVID-19 and viruses like it.

- In December of 2017 America dropped the ban on genetic modifications of viruses, which allowed non-military labs to genetically modify viruses, like in China's Wuhan province laboratory.
- On January 11, 2017, at a Georgetown University forum on pandemic preparedness, Dr. Anthony Fauci predicted the Trump Administration would face a surprise disease outbreak, noting that "risks have never been higher."
- Also, in January 2017 the Pentagon (US Dept. of Defense) predicted a coronavirus epidemic while America would be unprepared.
- On August 12, 2019, the world was warned to be ready for ethnic specific bioweapons.
- In October of 2019, China surpassed America and became the greatest economy in the world.
- On October 18, 2019, the Johns Hopkins Center for Health Security in partnership with the **World Economic Forum (an international think tank of bankers)** and the **Bill and Melinda Gates Foundation** hosted *Event 201* which "modeled a fictional coronavirus pandemic..."

They said that this strangely prophetic event was "not a prediction," but a lot of people dropped their stock portfolios, including the head of the Senate intelligence committee, Richard Burr. The "scenario" predicted that the pandemic would produce a worldwide recession. And though it was claimed to be a fantasy, CEOs of major corporations started quitting their jobs like never before; they appeared to be anticipating the stock market crash in February of 2020.

Among the seven major recommendations coming

out of Event 201 was that governments would take control of social media to "combat mis- and disinformation," and to "flood media with fast, accurate, and consistent information." And that is exactly what happened. There has been a TOTAL CENSORING from broadcast, print and social media of anyone speaking or writing against the reckless and unlawful imposition of the experimental vaccines. The people are constantly bombarded about the "severity" of the "pandemic", new variants of the virus and "the need" to take the so-called vaccines. They advised health authorities to employ "trusted community leaders such as faith leaders" to herd the masses to the vaccines.

As far back as 2015 Bill Gates suggested that in an epidemic governments should indemnify drug companies against lawsuits, if officials expect them to test new treatments very quickly.

(<https://www.gatesnotes.com/Health/The-Next-Epidemic-Berlin-and-DC-Trip>)

He got his wish in February of 2020. Health and Human Services Secretary Alex Azar invoked a 2005 law that empowers him to provide legal protection to companies making or distributing critical medical supplies, such as vaccines. That protection lasts until 2024. For the next four years, these vaccine manufacturers have no liability for injuries stemming from their product.

In January 2016, Moderna "...entered a global health project framework agreement with the Bill & Melinda Gates Foundation to advance mRNA-based development projects for various infectious diseases. The Bill & Melinda Gates Foundation has committed up to \$20.0 million in grant funding to support our initial project related to the evaluation of antibody combinations in a preclinical setting as well as the conduct of a first-in-human Phase 1 clinical trial of a potential mRNA medicine to help prevent ... HIV infections. Follow-on projects which could bring total potential funding under the framework agreement up to \$100 million (including the HIV antibody project) to support the development of additional mRNA-based projects for various infectious diseases."

(<https://www.modernatx.com/ecosystem/strategic-collaborators/foundations-advancing-mrna-science-and-research>)

Moderna's company shares began trading on Nasdaq in December of 2018, though it never produced an HIV vaccine or any other product that had been approved by the FDA or offered on the open market. The value of Moderna's stock was stagnant throughout 2019. After the government provided protection against lawsuits, their stock value skyrocketed by 400% by the end of 2020.

## Moderna Historical Annual Stock Price Data

Year	Year Close	Annual % Change
2020	104.47	434.10%
2019	19.56	28.09%
2018	15.27	0.00%

Dr. Anthony Fauci

Bill Gates

Notice they call their product an "operating system," not a vaccine. They call it "investigational medicine", meaning experimental. They can give more than one command to your cells at one time. What else will they be telling your body to do? We know that some of their ingredients are proprietary so we will never find out what they do.

# 'Vaccine' Deaths & Serious Injuries

The Vaccine Adverse Events Reporting System (VAERS) contains 358,379 reports of suffering and deaths caused by the COVID-19 vaccine. Even with this extraordinary number, a Harvard study concluded that only ONE IN ONE HUNDRED negative medical reactions are ever reported.

In this column, and as a public service, The Final Call will present some of the data from the reports for all of those who are still considering taking this killer "vaccine."

Through June 11, 2021

## 5,993 Deaths

### 20,737

# Drug Pushers

Continued from page 8

Another company that produced an early "vaccine", Pfizer, also took advantage of indemnity. They needed it because they had been sued a number of times for faulty drugs. Pfizer, the largest pharmaceutical company in the world, recently reported revenue of \$52 billion, operates in over 180 countries with over one-hundred thousand employees. However, in past years, Pfizer has paid huge settlements in lawsuits filed by patients and accusations of illegal marketing. The most expensive was a fine in excess of \$2.3 billion to resolve civil and criminal penalties for illegal marketing of four medications. Now Pfizer can recoup the losses with their shielded COVID-19 product.

Both Moderna and Pfizer used the mRNA technologies to develop their gene therapy under the label "vaccines." Let's look at Moderna's mRNA-based project, which was given Emergency Use Authorization in December of 2020. Read Moderna's description of their product, which they call "The 'Software of Life'":

(<https://www.modernatx.com/mrna-technology/mrna-platform-enabling-drug-discovery-development?fbclid=IwAR1jyVXKwgkInP7PzyEqd-e0wibXY038Z0mJhK5qPpgj-6MYyxGTPXmctBA0>)

*"Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like an operating system on a computer... We need to get the mRNA into the targeted tissue and cells while evading the immune system. If the immune system is triggered, the resultant response may limit protein production and, thus, limit the therapeutic benefit of mRNA medicines. We also need ribosomes to think the mRNA was produced naturally, so they can accurately read the instructions to produce the right protein... Utilizing these instructions gives our investigational [experimental] mRNA medicines a software-like quality. We also have the ability to combine different mRNA sequences encoding for different proteins in a single mRNA investigational medicine."*

Notice they call their product an "operating system," not a vaccine. They call it "investigational medicine", meaning experimental. They can give more than one command to your cells at one time. What else will they be telling your body to do? We know that some of their ingredients are proprietary so we will never find out what they do.

The COVID-19 "pandemic profiteers"—Moderna, Pfizer, AstraZeneca, Johnson & Johnson and other companies—have manipulated the induced COVID fear to produce massive wealth for themselves. They have had these nanotechnologies waiting on the shelf but needed the right

Photos: MGN Online

The position of the U.S. government is accept the vaccines and a bar-code in your blood stream and be monitored and controlled by "them" like their slave, or don't take the vaccines and be "segregated" out of their system: no shopping, no school, no travel, no restaurants, no jobs, no cash, no sports events or concerts. ... There is another choice: Minister Farrakhan has warned us: "Don't take that shot." "Separation or Death." We can obey Allah's Command to separate from the slave master's children and establish a land of our own. Which will you choose?

legal protections and public acquiescence to push them on a mass scale. These nanotechnologies have the potential to monitor you, deliver "medicines," alter your DNA and your behavior, then eliminate you when they deem it necessary—all controlled remotely by somebody you will never know or see. COVID-19 was their ticket to get inside you with their "operating systems," and many of us have been deceived and tricked into their human guinea pig plot.

So the position of the U.S. government is that you have two choices: accept the vaccines and a bar-code in your blood stream and be monitored and controlled by "them" like their slave, or don't take the vaccines and be "segregated" out of their system: no shopping, no school, no travel, no restaurants, no jobs, no cash, no sports events or concerts. However, there is another choice: Minister Farrakhan has warned us: "Don't take that shot." "Separation or Death." We can obey Allah's Command to separate from the slave master's children and establish a land of our own. Which will you choose?

AN ANNOUNCEMENT TO THE WORLD

THE HONORABLE MINISTER LOUIS FARRAKHAN

THE CRITERION

SATURDAY  
JULY 4

8 AM PACIFIC 10 AM CENTRAL 11 AM EASTERN 16:00 GMT (UK)

Blessed is He Who sent down the Discrimination upon His servant that he might be a warner to the nations

# Houston hospital workers to appeal lawsuit dismissal

by **Charlene Muhammad**  
National Correspondent  
[@sischarlene](#)

Hospital workers in Houston are appealing the dismissal of their lawsuit against Methodist Hospital, which ordered their employees to take the experimental Covid-19 vaccine or face being fired.

“Of course, everybody’s a little disappointed but we pretty much expected this at this level because this is just too big of a case for one judge to make a final decision ... We are going to appeal it within the Fifth Circuit District, which is going to lead our way up to the Supreme Court,” said Jennifer Bridges, a registered nurse and lead plaintiff in the case.

Judge Lynn Hughes in ruling against Ms. Bridges’ and the other plaintiffs’ lawsuit said that the Emergency Use Authorization statute granting the right to exercise the option not to take the vaccine does not apply to private employers.

## NEWS ANALYSIS

Judge Hughes said in his ruling that he did not consider vaccine safety and efficacy in adjudicating the issue.

That’s the judge’s opinion based on improper research, Ms. Bridges argued. “Pretty much all the claims he made are definitely false, and we have all the proof to back all of that up, so it’ll all come out in the light down the road as this lawsuit continues,” she told *The Final Call*.

“He’s basically telling us we don’t have our rights, saying this has nothing to do with the Nuremberg Code, which I highly disagree with, because that’s exactly what the Nuremberg Code was set up for—for individuals to not be allowed to be experimented against, and basically that’s what they’re doing right now,” Ms. Bridges continued.

The lawsuit was filed on behalf of 117 workers, who said they did not want to be human guinea pigs. But 174 workers were suspended without pay on June 7th for refusing the vaccine shots. Their official termination date is June 21st.

Some feel the Methodist Hospital lawsuit dismissal will encourage similar mandates across the country.

At least four other hospital groups as of June 3rd announced they are making vaccinations mandatory for employees. The groups include Benefis Health System of Montana, RWJBarnabas Health in New Jersey and University of Louisville Health in Kentucky. The University of Pennsylvania announced

In this June 7, file photo, people march past Houston Methodist Baytown Hospital in Baytown, Texas, to protest against a policy that says hospital employees must get vaccinated against COVID-19 or lose their jobs. A federal judge dismissed their lawsuit, saying if workers don't like the rule, they can go find another job.

Photo: Yi-Chin Lee/Houston Chronicle via AP

May 20 all employees and clinical staff be vaccinated by Sept. 1, according to an article in the *USA Today*, entitled, “First in line, still no shot: Surprising number of hospital workers refuse vaccines,” dated June 3rd.

How did her co-workers react?

“Basically, every single one I’ve talked to is okay with it. They’ve accepted it. They’re ready to move on, and a lot of them have already started other jobs or they’re interviewing,” stated Ms. Bridges.

At least 70 other workers are joining their lawsuit, she continued. “Quite a few of them are actually even taking a break right now. They said they have been so emotionally distraught after everything Methodist did to us that they just need to take a break for themselves and just kind of relax and get back to normal. And then some of them are going to seek employment in a couple of months,” added Ms. Bridges, who said she has been blessed with several job offers.

Meanwhile, workers were planning a June 26th protest in front of Methodist Hospital’s main campus in downtown Houston to show president and CEO Marc Bloom they are not backing down, according to Ms. Bridges. “... I wanted to show him that this is not behind us whatsoever,” she said.

Some called Judge Hughes’ statements in the June 12th order outrageous.

“My immediate reaction to the decision was somewhat shocking, in that,

it did not appear to be rational to say, that a private employer has the ability to mandate you to take an experimental vaccine, for which the federal statutory law granting the emergency use authorization, clearly says that anyone has the right to exercise the option not to take the vaccine,” stated Nation of Islam General Counsel Abdul Arif Muhammad.

“And to simply say because I happen to work for a private employer, that the private employer has that right to mandate that you take a vaccine. This is the deception of the government and irrational decision of the judge to say such,” said Attorney Arif Muhammad.

In his judgment, the federal government is being deceptive, for a couple of reasons. The government knows full well under the law that it can’t mandate that you take the vaccine because it’s an unapproved, experimental vaccine. Secondly, although the government is saying, on one hand, it is not going to make the vaccines mandatory, it gives a nod to private businesses to say that it’s alright for companies to impose that which the government cannot, he argued.

In its weekly reporting, *The Final Call* has published information on the substantial number of deaths and other serious injuries that have occurred from this experimental vaccine according to the Vaccine Adverse Reaction Event Reporting System (VAERS). There have been 5,888 deaths through June 4th, ac-

ording to VAERS which is the national vaccine safety monitoring system that accepts reports of adverse events after vaccinations. VAERS accepts reports from anyone, including patients, family members, healthcare providers and vaccine manufacturers, but is not designed to determine if a vaccine caused or contributed to an adverse event, notes the CDC.

“That’s what I mean when I talk about wickedness and the deceptiveness of it,” stated Atty. Arif Muhammad. “For the judge to engage in a deceptive interpretation that carves out the right for a private business, and by extrapolation, public or private universities, to mandate vaccinations is in fact, incredibly dishonest and not following the law, in my judgment,” he argued.

Atty. Arif Muhammad added, no one can predict a case outcome, especially on appeal, since the basis of an appeal is usually limited to the issue of errors of law made by the judge.

“The message from the Honorable Minister Louis Farrakhan, on July 4, 2020, especially to the Black and Hispanic community and other oppressed people, that this vaccine is death itself, has been established by the numbers of deaths and serious injuries that continue to mount, even though those numbers may represent only one percent of that which has been reported,” stated Atty. Arif Muhammad.

“Second, we have a right to our religious belief that we should not take this vaccine, because it’s death, and we were commanded by Allah (God) on July 4th through the Honorable Minister Louis Farrakhan not to take this vaccine. Therefore, we, as Muslims and Believers in the Teachings of the Most Honorable Elijah Muhammad, under the leadership of the Honorable Minister Louis Farrakhan, stand on our religious conviction and belief that we are to obey Allah and His Messenger, and that obedience to the Messenger is obedience to Allah. People have to be willing to make a decision now for their own life,” concluded Atty. Arif Muhammad.

He further emphasized Minister Farrakhan’s divine declaration to us to protect our lives.

As Minister Farrakhan stated on July 4th: “So, Mr. Dershowitz, if you bring the vaccine and say you’re going to bring your army to force us to take it, once you try to force us, that’s a declaration of war on all of us. You only have this one life. Fight like hell to keep it, and fight like hell to destroy those whose heart and mind is to destroy you and take your life from you,” the Minister warned.
