

# NATIONAL COVID CRISIS TOWN HALL: Experts warn against dangers of the Covid-19 Vaccines

by **Charlene Muhammad** | National  
Correspondent @sischarlene

A panel of highly respected, scientific and medical experts, researchers, attorneys and community activists participated in a live streamed virtual forum, on May 24, entitled “The Covid Crisis” to expose the dangers of the experimental mRNA Covid-19 vaccines manufactured by big drug companies Pfizer and Moderna.

The town hall was facilitated and spearheaded by Curtis Cost, author of *Vaccines Are Dangerous*, and a researcher with Children’s Health Defense (CHD), founded by Attorney Robert F. Kennedy, Jr.

“We need to heighten the awareness of more and more people because the truth is on our side. They cannot win with the facts. That’s why they’re making these emotional appeals by using sports figures and politicians, ministers, especially Christian ministers, who are telling people to go get vaccinated, without warning them about the risks,” Mr. Cost told The Final Call.

The panelists represented some of the voices that Big Pharma, the U.S. government, mainstream media and others are trying to suppress and censor.

The presentations exposed many problems that have come to light, since a pandemic was declared in March 2020, showing the dangers of the experimental mRNA Covid-19 vaccine, since the FDA granted Emergency Use Authorization (EUA), in December of 2020.

Some of the topics included: Why the Pfizer and Moderna mRNA based injections are not actually vaccines, but are instead gene therapy. The potential health risks of wearing face mask coverings for extended periods of time. The substantial “false positive” and use of unreliable PCR tests used to detect Covid 19. The underlying theme was how this is all rooted in the U.S. policy of depopulation.

Kristina Kristen, author and advocate with Children’s Health Defense (CHD) California, pointed out that wearing face masks, does not protect the wearer against the Covid 19 virus. She also discussed the issue of carbon dioxide toxicity caused by extended wearing of the masks. Breathing in oxygen through clean air is obstructed by face masks which are not FDA approved.

She recommended, “Is a Mask That Covers the Mouth and Nose Free from Undesirable Side Effects in Everyday Use and Free of Potential Hazards?” published by the International Journal of Environmental Research and Public Health (April 20, 2021).

Panelist Dr. Raquel Martinez, a pediatric occupational therapist in New York, who works primarily with children 0 to 10-year-olds in underserved communities, expressed concern about the damaging effects of face masks on children with learning challenges and autism.

She gave passionate testimony about some of her young clients and her efforts to help them cope with Covid-related lockdowns and vaccine mandates to attend school.

Rita Palma, parent activist and a founder of CHD

# The Final Call

## 'Vaccine' Deaths & Serious Injuries

### VAERS COVID REPORTS

(Vaccine Adverse Events Reporting System, VAERS)

262,521 Reports

Through May 23, 2021

(Reports include high-dose reports)

## 4,406 Dead

The **Vaccine Adverse Events Reporting System (VAERS)** contains 262,521 reports of suffering and deaths caused by the COVID-19 vaccine. Even with this extraordinary number, a Harvard study concluded that only **ONE IN ONE HUNDRED** negative medical reactions are ever reported.

In this column, and as a public service, the *Final Call* will present some of the 262,521 reports for all of those who are still considering taking this killer "vaccine."

**1054694** Patient received vaccine on 1/29/2021 and died on 2/13/2021. Wife called agency and noted the patient received his 1st dose of vaccine and was having "side effects and began declining." It is unknown what side effects he was having.

**#1052816** Patient became dizzy, passed out and hit head on wall, Ambulance called, taken to nearest Hospital.

**1052818** The vaccine was not injected into the muscle as prescribed. The nurse pinched up the fat on my arm with a short needle. My upper arm swelled almost to the size of a baseball and was red and painful for over one week...

**1054699** Patient was found at 6 AM on 01/21/2021 - he passed away during his sleep

**1054697** Symptoms developed a few hours after injection of abdominal pain/spasms, nausea, and loose stool. Symptoms are still persisting now [and] are worse at night ...

**945282** One week after I was vaccinated, my partially breast fed infant daughter (DOB 10/02/2020) died in her sleep on 11/28/2020. The cause of death is not known. I am reporting her death here because of the relative proximity of my vaccination and her death.

**1190983** (Pfizer); 31-year-old female "My period had ended four days before the vaccine. I always have very regular periods. The night of the vaccine, I started bleeding heavily with large blood clots and continue to do so."

**1055663** I was 8-weeks pregnant when I received my first dose of the Pfizer COVID-19 vaccine....Three days later on Monday February 1, 2021, I was told my baby did not have a heartbeat on the ultrasound in the clinic (confirmed by radiology that day as well) and that I was having a miscarriage. I had no other signs or symptoms of miscarriage or illness...

**1049640** (Pfizer); experienced bright red blood coming from her anal area... with diarrhea

**TO BE CONTINUED...**

**IMPORTANT: If you or a loved one has suffered an adverse reaction to the COVID-19 "vaccine," contact your doctor immediately and then report it to the CDC's Vaccine Adverse Events Reporting System (VAERS):**

# Vaccines

Continued from page 8

Dr. Abdul Alim Muhammad, founder of Abundant Life Health Attainment Clinic in Washington, D.C., presented an alternative therapy for the Covid 19 virus. He discussed the alpha interferon therapy Paximune. He invited anyone interested in participating in clinical trials to visit [yourimmunityproject.org](http://yourimmunityproject.org).

Dr. Muhammad pointed out that a major problem with the Covid-19 mRNA injections is rooted in the deceptive use of language. The government and media are calling them vaccines, when the manufacturer, Moderna admits they are really an operating system, he said.

Dr. Carrie Madej, a specialist in internal medicine, detailed how Pfizer and Moderna are using this operation system in their so-called vaccines.

Her topic focused on a world-wide scheme to control humanity through the technology, and how Microsoft owner Bill Gates is not only profiting from it financially, but how he is using the vaccines to experiment on the people of West Africa.

Alix Mayer, MBA, a researcher and president of Children's Health Defense, offered a statistical analysis of covid deaths and vaccine-related deaths reported to VAERS reports.

It is her point of view that, the number of deaths in the U.S. adult population show that the benefits of the Covid vaccine do not outweigh the risks.

Dr. David Rasnik, PhD., discussed the unreliable PCR test, used to determine the presence of Covid 19. The biochemist's position is that the PCR test is incapable of detecting Covid 19 as opposed to other types of coronavirus, nor can it diagnose infections. The test was invented for research purposes only, not for medical diagnosis, according to its inventor, the late biochemist and Nobel Prize winner Kary Mullis.

He harshly criticized the flood of government and media propaganda and lies concerning Covid-19. "Public discussion, criticism and debate are not permitted, and in some places considered criminal," said Attorney Mary Holland, CHD president and General Counsel, who announced on May 16 Children's Health Defense and Millions Against Medical Mandates filed a citizen petition with the FDA seeking the immediate removal of Covid vaccines from the market.

The petition cites a powerful precedent for removal of the Covid vaccines. In the 1970s, the FDA

brought a halt to the swine flu vaccine in the wake of 30 deaths out of 40-45 million vaccinations and the adverse effects of approximately 400 cases of Guillain-Barré syndrome (a condition in which the immune system attacks the nerves).

"Right now, we're already over 4,000 (deaths)," said the attorney.

John Gilmore, founder of the Autism Action Network, offered a national view on the systemic failures and successes during the pandemic.

He cited problems that resulted from New York Gov. Andrew Cuomo's response to Covid-19, such as his decision to keep subway lines open while imposing a drastic reduction in the number of trains, causing overcrowding, which increased the spread of the Covid-19 infection.

A key problem arose when National Institutes of Health Director Dr. Anthony Fauci blatantly announced that the general public didn't need to wear masks, because he did not want ordinary people competing with medical professionals for scarce supplies. Then Dr. Fauci reversed himself, urging the mandating of wearing masks.

According to Mr. Gilmore, this created a climate of fear and confusion, which continues, around many aspects of the Covid-19 crisis.

The Honorable Minister Louis Farrakhan in his message, "The Criterion," July 4, 2020, recited the history of U.S. genocidal acts against Native Americans with smallpox in blankets, and how a 1960s polio vaccine was later found to be contaminated with SV-40 and caused cancer.

Minister Farrakhan's Western Region Representative Abdul Malik Sayyid Muhammad, highlighted additional historical medical atrocities against Black and Indigenous Peoples.

They included gynecologist Dr. J. Marion Sims' experimentation on Black women enslaved in 1763, and the infamous 40-year Tuskegee syphilis experiment on Black men, conducted by the U.S. Public Health Service, which includes the CDC.

Minister Sayyid Muhammad pointed out that we cannot forget this evil history of medical experimentation, as the government is now wickedly and deceptively asking Black people to be first in line to get the vaccine.

It is best to heed the divine guidance delivered by Minister Farrakhan in *The Criterion*: "Don't let them vaccinate you with their history of treachery through vaccines, through medication. ... I say to the African presidents: Do not take their medications. I say to those of us in America we need to call a meeting of our skilled virologists, epidemiologists, students of biology and chemistry and we need to look at not only what they give us, we need

to give ourselves something better."

# The Polio Vaccine and Cancer in the Black Community

by Dr. Ridgely Abdul  
Mu'min Muhammad

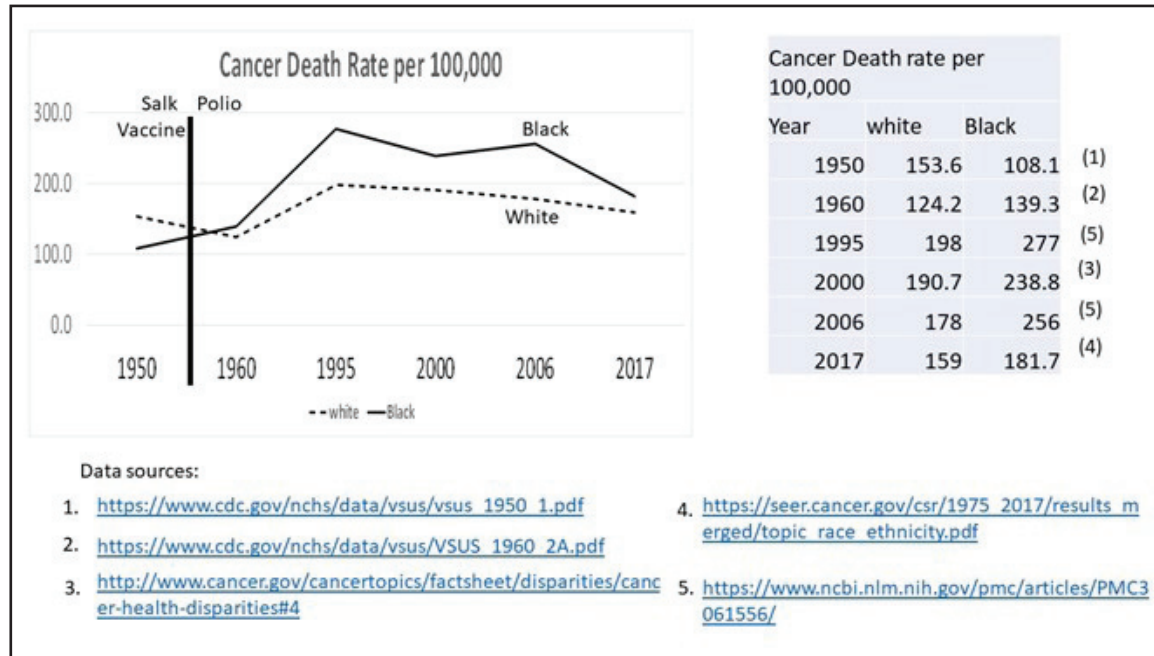

On July 4, 2020 the Honorable Minister Louis Farrakhan in his monumental speech, "The Criterion" exposed to the world how the Polio Vaccine spread cancer in the Black community: "Remember the syphilis experiment? Remember what they did to the Native Americans with smallpox? Remember the vaccine that they gave us for polio that was cancer itself? So how in the hell could you trust them with a vaccine when you know what they have done? It is government policy to reduce the population by 2 to 3 billion people!"

In this article we will deal with the Salk polio vaccine's major role in the increase of cancer in the Black population in the United States over the last 6 decades. Below is a section on the history of concerns on the safety of vaccines taken from the CDC website:

"Simian Virus 40 (SV40) - 1955-1963

From 1955 to 1963, an estimated 10-30% of polio vaccines administered in the US were contaminated with simian virus 40 (SV40). The virus came from monkey kidney cell cultures used to make polio vaccines at that time. Most of the contamination was in the inactivated polio vaccine (IPV), but it was also found in oral polio vaccine (OPV). After the contamination was discovered, the U.S. government established testing requirements to verify that all new lots of polio vaccines were free of SV40.

Because of research done with SV40 in animal models, there has been some concern that the virus could cause cancer in humans. However, most studies looking at the relationship between SV40 and cancers are reassuring, finding no causal association between receipt of SV40-contaminated polio vaccine and development of cancer.

No vaccines used today contain SV40 virus."

<https://www.cdc.gov/vaccine-safety/concerns/concerns-history.html>

Let's deal first with the last sentence from this CDC statement. Supposedly, pharmaceutical companies are required to provide data proving the safety of their vaccines. However, Attorney Robert Kennedy, Jr. found out otherwise, as is pointed out on page 201 of Dr. Judy Mikovitz's book, "Plague of Corruption." She wrote: "Kennedy recently got an admission from the federal government that despite the requirements of the 1986 National Childhood Vaccine Injury Act, that a report must be provided to Congress every two years certifying that the vaccines schedule is safe, no such studies have EVER been done."

So how can the CDC claim "No vaccines used today contain SV40"? In fact, there are laboratories equipped to determine what ingredients are in the new vaccines. Dr. Mikovitz pointed us to CORVELVA Experts, who in 2018 investigated the new Priorix Tetra vaccine. It was produced by GlaxoSmithKline to prevent measles, rubella, mumps and varicella. Investigators found in it "immunodeficiency virus of monkeys." So, the CDC is lying on this point.

Now let's explore the real deal behind the relationship between the SV40 monkey virus and cancer as described by Attorney Kennedy in the Foreword to Dr. Mikovitz's book:

'Remember the vaccine that they gave us for polio that was cancer itself? So how in the hell could you trust them with a vaccine when you know what they have done?'

—The Honorable Minister Louis Farrakhan, "The Criterion," a world address delivered July 4, 2020

"In 1961, [Dr. Bernice] Eddy discovered that a cancer-causing monkey virus, SV40, had contaminated ninety-eight million Salk polio vaccines. When she injected the SV40 virus into newborn hamsters, the rodents sprouted tumors. Eddy's discovery proved an embarrassment to many scientists working on the vaccine... On July 26, 1961, the New York Times reported that Merck and Parke-Davis were withdrawing the Salk vaccines. The article said nothing about cancer..."

Even though Merck and Parke-Davis recalled their polio vaccines in 1961, NIH officials refused to pursue a total recall of the rest of the supply, fearing reputational injury to

the vaccine program if Americans learned that PHS [Public Health Service] had infected them with a cancer-producing virus. As a result, millions of unsuspecting Americans received carcinogenic vaccines between 1961 and 1963. The Public Health Service then concealed that "secret" for forty years.

In total, ninety-eight million Americans received shots potentially containing the cancer-producing virus, which in now part of the human genome. In 1996, government researchers identified SV-40 in 23 percent of the blood specimens and 45 percent of the sperm specimens collected from healthy adults. Six percent of the children born between 1980 and 1995 are infected...

Today, SV-40 is used in research laboratories throughout the world, because it is so reliably carcinogenic. Researchers use it to produce a wide variety of bone and soft-tissue cancers including mesothelioma and brain tumors in animals. These cancers have exploded in the baby boom generation, which received the Salk and Sabin polio vaccines between 1955 and 1963. Skin cancers are up by 70 percent, lymphoma and prostate by 66 percent, and brain cancer by 34 percent. Prior to 1950, mesothelioma was rare in humans. Today, doctors diagnose nearly 3,000 Americans with mesothelioma every year: 60 percent of the tumors that were tested contained SV-40. Today, scientists find SV-40 in a wide range of deadly tumors, including between 33 percent and 90 percent of brain tumors, eight of eight ependymomas,

and nearly half of the bone tumors tested." (p. XV, XVI of Kennedy's Foreword in "Plague of Corruption")

Here again, the CDC is outright lying on the connection between SV40 monkey virus and cancer. To drive this nail in deeper, we must highlight what Kennedy said, "Today, SV-40 is used in research laboratories throughout the world, because it is so reliably carcinogenic. Researchers use it to produce a wide variety of bone and soft-tissue cancers including mesothelioma and brain tumors in animals." In fact, if you put in a Google search of "SV40 immortalization protocol," you will get articles talking about how the SV40 virus can make any cell turn into a cancer cell and you can order it over the internet for your laboratory. So why would "laboratories" pay for a SV40 kit to make cancer, but the CDC can get away with "...finding no causal association between receipt of SV40-contaminated polio vaccine and development of cancer...?"

Before 1955, cancer was considered a "white man's disease." However, we used CDC's own data to prove that cancer has become a "Black man's disease" caused by contaminated Polio Vaccines that the Most Honorable Elijah warned his followers not to take.

In 1950 the cancer death rate for whites was 153.6 per 100,000, but only 108.1 for Blacks. Over this 65-year period the death rate for whites went up to 198 in 1995, but up to 277 for Blacks. By 2017 the death rates for whites had gone back down to 1950s levels of 159, but the Black death rate was almost twice what it was in the 1950s. Almost every Black family has been touched by the cold hand of cancer.

Of course, one could argue that white people got the Polio vaccines also. But what batch did they get? Supposedly, "On July 26, 1961, the New York Times reported that Merck and Parke-Davis were withdrawing the Salk vaccines." However, those tainted vaccines were never taken out of circulation, so there is reason to believe they were dumped on the Black population where they always dump their defective products. Minister Farrakhan's warning should be enough, because we just can't trust them.

Dr. Ridgely Abdul Mu'min Muhammad is a member of the Nation of Islam Research Group.
