

## SPECIAL SERIES PART 3: HOW TO PREVENT, TREAT AND DEFEAT COVID-19 WITHOUT BEING VACCINATED

# WITH ALLAH'S (GOD'S) HELP, WE CAN REMOVE THE 'PRE-CONDITIONS' THAT DRIVE THE DEATHS FROM COVID-19

by Ava Muhammad | Student National Spokesperson for the Honorable Minister Louis Farrakhan

The Honorable Minister Louis Farrakhan

*“America, you won’t solve it! The scientists of the world, you won’t solve it! I want to tell you what **will** solve it. This virus is a pestilence from heaven, so scholarship from hell can’t deal with a pestilence from heaven; but **if you want to stop it, you’ll have to go to heaven...there has to be a natural connection between heaven and earth. And once that connection is broken, heaven does not suffer, it is the earth that suffers.**”* —*The Honorable Minister Louis Farrakhan, “The Criterion”*

Look carefully at the words in the above excerpt. The Minister told America she “won’t” solve it, he did not say she “can’t” solve it, nor did he say there is no solution for it. He said, “if you want to stop it, you’ll have to go to heaven.” America is not only unwilling to do that, she is so steeped in evil that by now she is most likely unable to do that. If we rely on America’s “scholarship from hell” we won’t solve it either. However, we have been offered a solution from heaven, from the Mind and Mouth of Allah (God), in the Teachings of the Honorable Elijah Muhammad. And we need to recognize that were it not for the Honorable Minister Louis Farrakhan, the Teachings of the Honorable Elijah Muhammad would be lost to us. We would be left with nothing but a scholarship from hell.

In biology, “immunity” is the body’s ability to protect itself from the invasion of pathogens (infectious diseases). The Honorable Minister Louis Farrakhan writes, in *Self-Improvement: The Basis for Community Development [Study Guide 18]*,

*“Every biological act of the physical body is directed to one predominant goal: to stay alive. To do this, every organism must preserve itself in the face of external forces which threaten its existence; and when it ceases to work energetically on its own behalf, something finally will destroy it.”*

In the fight against Covid-19, the natural law Minister Farrakhan sets forth above must govern our approach: we each have the capability and the responsibility to work on our own behalf. The one thing universally agreed upon by both sides of the debate over this virus is this: underlying chronic conditions such as obesity, heart disease, high blood pressure, certain prescription drugs, etc., not only contribute to Covid-19 severe illnesses and fatalities, they are the primary drivers. For this reason, they are called co-morbidities or pre-conditions. The U.S. Government deceptively puts all the emphasis on the infection rate and offers no guidance or help to its citizens in addressing pre-conditions, beyond saying they exist. We are made to live in fear of “catching Covid.” This blinds us to the critical importance of strengthening our natural defense mechanism, which will determine whether or not the virus can afflict us to the degree that it causes serious illness or death. The so-called vaccines being pushed down the throats of the American people are not only deadly, they don’t work. Hundreds of thousands of “fully vaccinated” people are contracting the virus, getting sick and dying (see VAERS chart on next page). Who says they don’t work? The U.S. Government now says their “vaccines” are ineffective, especially for us (Black people).

Friday, July 16, 2021 (CNN)

*“The U.S. Centers for Disease Control and Prevention on Friday warned people who are immunocompromised that the Covid-19 vaccine may not have been effective for them and encouraged them to take precautions as if they were not vaccinated.”* WHAT?!!

“People who are immunocompromised should be counseled

about the potential for reduced immune responses to Covid-19 vaccines and to follow current prevention measures (including wearing a mask, staying six feet apart from others they don’t live with, and avoiding crowds and poorly ventilated indoor spaces) to protect themselves against Covid-19 until advised otherwise by their healthcare provider.” The CDC did not go so far as to tell the *millions of immunocompromised people in the U.S.* to get an additional shot, noting that “the safety, efficacy and benefit of additional doses for Covid-19 vaccines in immunocompromised persons continues to be evaluated”.....”

What we have, in that announcement, is the profile of a pathological liar.

Let’s begin with this six-syllable word, “immunocompromised.” This is a word that has not been in the media until now. What does it mean? It just means a weak immune system. It means **people with pre-conditions**. So why not just say that?

Why use a long word that is unfamiliar to the general public? It is so we won’t realize that they are referring to the same people who were told by the government, “You people need the vaccine more than anyone.” To this day, Black celebrities, artists, politicians, preachers, educators are saying to us, “Get your shot.” In the wake of this announcement, do they have the reasoning power to look again at Minister Farrakhan’s words to Black people in *The Criterion*: “Remember the vaccine they gave us for polio, that was cancer itself? So how in the hell can you trust them with a vaccine when you know what they have done?”

What we need to realize is the fact that if the immune system is functioning properly, it will prevent or defeat this pathogen. Those countries which have kept the virus in check are the ones who address the pre-conditions.

Age is a major factor in hospitalization and death from Covid-19. According to the Centers for Disease Control (CDC), 80 percent of hospitalizations and deaths are among those 65 and over. It is not the number of years on Earth killing the person, it’s the number of years eating fake food, breathing poisoned air, drinking poisoned water, taking prescription medications, being vaccinated (to name a few). This is the environment the giant multi-national corporations have created to produce an endless epidemic of chronic ill health. Over the past century, we have come to accept being chronically ill. This is in direct opposition to the Will of Allah (God) Who created the magnificent human body to function at an optimal level up to 1,000 years on this planet.

*The Pandemic Before The Pandemic*

Diabetes is a huge driver of death among Covid-19 patients.

Again, from the CDC, a government study in 2020 showed that nearly 40 percent of the deaths were patients who suffered from diabetes. Like all of the pre-conditions, this disease is and has been, long before THE COVID-19 pandemic, dominant in the Black community. Diabetics are, in the new language being used by the CDC, “immunocompromised.” They have weakened immune systems.

*“America’s mortality rates from diabetes have been climbing since 2009. Diabetes was already a slow-moving pandemic. Now COVID-19 has crashed through like a fast-moving wave.”*

—Albert Huang, Professor of Medicine and Director of University of Chicago Center for Chronic Disease.

The World Health Organization (WHO) projects that diabetes, a global epidemic (pandemic) affecting 382-422 million people worldwide (over eight percent of the world’s entire population), will be the 7th leading cause of death in the world by 2030. An estimated four million people die annually from diabetes complications.

The primary cause of diabetes is diet. It is what some medical professionals call a “food-borne” disease. It damages the heart, blood vessels, eyes, and nerves and is a leading cause of kidney failure. The first thing most sufferers are told after a diagnosis is to achieve and maintain a healthy body weight and avoid sugar, saturated fats and tobacco.

Researchers have learned that Covid-19 thrives in a high-sugar environment.

Long before it became a leading cause of death in the world, the Honorable Elijah Muhammad, in his monumental two-volume book, “How To Eat To Live,” repeatedly warned us about diabetes and provided divine guidance on how to prevent it and how to eliminate it through diet.

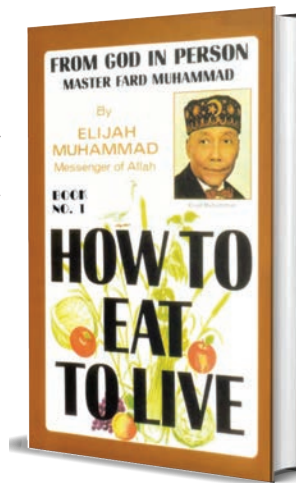

If we follow the guidance in this two-volume book, given by Allah (God) to the Honorable Elijah Muhammad for us, it will minimize and even prevent the uncontrolled inflammation that helps Covid-19 kill us.

Inflammation is primarily responsible for nearly every disease there is. These deadly so-called vaccines being administered for the virus are actually

genetic manipulation that stimulate inflammatory responses and disabling the immune system Allah (God) gave us to defend ourselves.

Study any of the “pre-conditions” that may affect you or your loved ones and go to work to do that which will dramatically reduce or even eliminate them, beginning with the powerful system of protection set forth in “How To Eat To Live.”

Health care is not drugs, which nearly always have side effects and only reduce symptoms. They don’t address the underlying root cause of our health problems. A government that cared about us would give us guidance and strategies to achieve and maintain a robust immune function so we can not only effectively combat Covid-19, but live the long, healthy life Allah (God) intended for us to live.

# 'Vaccine' Deaths & Serious Injuries

The Vaccine Adverse Events Reporting System (VAERS) contains 491,217 reports of suffering and deaths caused by the COVID-19 vaccine. Even with this extraordinary number, a Harvard study concluded that only ONE IN ONE HUNDRED negative medical reactions are ever reported.

In this column, and as a public service, The Final Call will present some of the data from the reports for all of those who are still considering taking this killer "vaccine."

Through July 16, 2021

## 11,405 Deaths

### 36,117

HOSPITALIZATIONS

### 62,339

URGENT CARE

### 10,224

LIFE THREATENING

### 2,487

ANAPHYLAXIS

# We Must Do It For Ourselves!

U.S. gov't persists in suppressing alternative treatments, therapies to prevent, defeat Covid-19

by Dr. Ridgely Abdul Mu'min Muhammad  
NEWS ANALYSIS

On July 4, 2020, in his Message to the world, "The Criterion," Minister Farrakhan told us that there were at least 14 known therapies for Covid-19, among which were Ivermectin and convalescent antibodies. On July 22, 2021, the Black Leadership Coalition of Utica, NY (BLCU), with the help of Nation of Islam Student Minister Courtney Muhammad, presented a public health forum entitled, "Your Body: Your Choice." Panelists were Dr. Cynthia L. Jones, Dr. James Thompson and Dr. Velva Boles. Of course to have a "choice" you must know about alternatives and for over a year and a half the government and media have been pushing so-called vaccines (gene therapies), while ignoring or castigating other known therapies for Covid-19. At least this night Dr. Velva Boles was able to describe two very promising alternative or complementary therapies: Convalescent Antibody Infusion and Ivermectin.

Dr. Boles started out by informing the audience, "There should be complementary treatments available by way of the governments ... a vaccine does have its place, but so do the alternative treatments which have been demonstrated to provide not only protection when you needed protection, but immediate protection. What I reference when I say that are convalescent antibodies as well as monoclonal antibodies against the viral component of Covid-19. The infusion of an antibody is not new. It really doesn't require any emergency justification. It has been known since 1901 that passive immunity is effective and in fact the physician that proved it got a Nobel Prize. There is also worldwide evidence that ivermectin, which is used in many of the poorer countries both in the continent of Africa, in Latin America, Brazil and so forth, as an anti-inflammatory.

"There are those who propose that it [ivermectin] has other mechanistic actions against Covid. I haven't vetted that, but I can personally tell you I am familiar with the ability of ivermectin to reverse inflammatory conditions that you see in Dengue fever, as in Malaria, in River Fever and other invasive types of infections all over the world. There is an international group of physicians who have shown that 0.3 milligrams per kilogram weight is the effective dose for the anti-inflammatory processes observed that ivermectin so clearly demonstrated ... Ivermectin has been proposed as a prophylactic or a preventative ... The focus should be preventing death, preventing hospitalization and as much as possible preventing the infection itself. If this is the game plan or objective, then I would expect that all the powers that be who are funding the vaccination program should fund a complementary treatment program for those who cannot respond to a vaccine."

Interestingly, Dr. James Thompson, who is a proponent of the so-called vaccines, had to agree with Dr. Boles on the most crucial points of her argument for alternatives to the vaccines. He stated, "I have to say that I probably agree with about 95 percent of what Dr. Boles said. There is nothing that I greatly or moderately disagree with. I think there should be more complementary medicines out there. They do exist. I have been following ivermectin closely. There are about five different ways that ivermectin helps as: antiviral, something that can block the attachment of the corona virus to the cell. So I wish that this country, the NIH, the CDC would pay more attention to these medicines that are inexpensive and are readily available. I have to agree with much of what she said."

After listening to this discussion, I became intrigued with finding out how we can get these alternative therapies like convalescent antibody infusions and ivermectin to the masses of our people. The next day I had a very enlightening conversation with Dr. Boles over the phone.

I asked her how can people get convalescent antibody infusions? She said, "They are not helpless. We are not helpless. If I have a loved one in the hospital, I can donate blood in their name. They do this all the time ... If you have had Covid-19, we have this service. Go and donate your convalescent antibodies to someone who is unvaccinated. That's altruism ... If you talk about herd immunity, vaccinations are not the only way. If you get mass antibody infusions, you can still get herd immunity."

Dr. Boles goes on to explain her idea of community clinics—something that the Black community had under segregation. They used to have health fairs, two to three times per year in a local park, where they check Black people's blood pressure and test Black children's eyes and teeth or any other abnormalities that were visible. "Such community based activities don't cost much money. If we set up what I call 'Covid-19 Kits' with the support of a school that has a pharmacy, they could include in that kit a finite amount of medication, prophylactic medications, and ivermectin has been identified as prophylactic. They could sign up people to come and donate convalescent antibodies.

Any of the schools that have a pharmacy or public health can do this. Tuskegee just got a half million dollar grant for their public health department for Covid-19. They are in an ideal position to use some of that money for that."

I reminded her that under segregation we had our Black doctors and hospitals but lost them after integration. So, I asked why don't our professionals and doctors do more to help our people? She indicated that their hands are tied by the institutions that they work for and when they try to set up an independent practice there are games that the system plays to ensure that they don't get access to the same funds that their White counterparts get. She said, "Our Black doctors back in the day were smart.

Integration is a dilution to me. Integration wasn't a plus. It took our best and bastardized them. They put them in the White institutions where they got diluted. Their pitch got diluted. Their expertise got diluted. Their ability to be Black mentors to our children got diluted. We didn't gain anything by integration in my opinion and if you look at the professional Black person, we lost. Your pediatrician had power and authority in his small bubble, but like Cornel West at Harvard, his hands are tied until he gets mad and leaves ... I had a friend who was a J.D. and she said, 'Velva, You know we integrated out of our race and we will never be integrated into theirs.' We are in some kind of purgatory. We have so little power in the White establishment and now we have lost respect in the Black one."

This Covid-19 pandemic and subsequent push for vaccinations in the Black community has exposed the abysmal lack of medical services available to the majority of the Black population. As we weave through the lies associated with the so-called vaccines and the agencies that are supposed to look out for the health and safety of American citizens, the Teachings of the Most Honorable Elijah Muhammad and His Reminder, Minister Farrakhan, rings true. We must provide food, clothing, shelter and health services to our own. We need our own hospitals. Maybe we can use this wake up call to get our health professionals organized to provide health services to our people through community clinics or virtual hospitals. Minister Farrakhan has warned us and now we can plainly see that our choice is "Separation or Death."

"... Community-based activities don't cost much. If we set up 'Covid-19 Kits' with the support of a school that has a pharmacy, they could include in that kit a finite amount of prophylactic medications [ivermectin]. They could sign up people to come and donate convalescent antibodies ... Our Black doctors back in the day were smart. Integration is a dilution ... They put them in white institutions ... Their expertise got diluted."

-Dr. Velva Boles

**IMPORTANT INFORMATION ON IVERMECTIN - THERE WAS AN OVERWHELMING RESPONSE TO THE JULY 20th ARTICLE ON IVERMECTIN, A SAFE, INEXPENSIVE MEDICINE WHICH HAS PROVEN EXTREMELY EFFECTIVE IN TREATING COVID-19. IT CAN ONLY BE GIVEN BY PRESCRIPTION. IN RESPONSE TO NUMEROUS REQUESTS FOR INFORMATION ON HOW TO OBTAIN IVERMECTIN, WE ARE PROVIDING THE WEBSITE WHICH GIVES A NATIONWIDE LIST OF PHYSICIANS WHO WILL PRESCRIBE IT. GO TO: [covid19criticalcare.com](https://covid19criticalcare.com) FOR EXTENSIVE INFORMATION AND A DIRECTORY OF DOCTORS.**

# U.S. gov't uses blatant censorship in desperate attempt to impose national Covid-19 vaccine mandate

by **Charlene Muhammad**  
National Correspondent  
@sischarlene

In a wave of Satanic rumors on a relentless wave of 24-hour mainstream and local cable TV, print and radio broadcast messaging, people who have refused for various reasons to get the deadly "vaccines" being drug-pushed by the federal government and Big Pharma as the only solution to survive COVID-19 are being blamed for related deaths and cases.

But where is the proof?

Satan's (U.S. government) diabolical depopulation policy plays out like two trains running on one track, bound for collision. The federal government has increased censorship of alternative voices speaking out about the dangers of the two mRNA technology based injections by Pfizer and Moderna being passed off as vaccines. Johnson & Johnson uses the actual virus but their product was briefly put on pause due to adverse side effects earlier in the year. The FDA recently issued a new warning linking it to Guillian-Barre' syndrome, an autoimmune reaction.

Then there's the U.S.'s increased effort to create an unconstitutional, national vaccination mandate through the private sector.

Thus far, Satan has been working through the private entities to do his dirty work, while he presents himself as an angel of light. He pretends to be concerned about the deaths and illnesses of the suffering masses, particularly Black and Indigenous People, targeted heavily with these "vaccines." But he is actively working with his media and other minions to prevent the American public from even knowing about some of the 14 treatments and therapies in the world that the Honorable Minister Louis Farrakhan revealed during the July 4, 2020, Message "The Criterion".

Can anyone believe the U.S. government is really trying to save lives? If so, why the massive campaign to shut out voices of truth who are informing people of affordable, safe, viable, life-saving treatments?

On July 4, 2021, during the one-year anniversary of "The Criterion," Twitter locked up the Nation of Islam's account as soon as The Farrakhan Twitter Army posted his words regarding the vaccine, according to Abdul Qiyam Muhammad, who manages Minister Farrakhan's social media accounts.

On July 19, without any explanation, Twitter suspended the official account of the Nation of Islam, which he has managed for many years, he said.

He had just tweeted out the "Treating Covid-19 patients with Ivermectin: An interview with Safiyya S. Shabazz, M.D.," The Final

Call Newspaper's interview with the owner and Medical Director of Fountain Medical Associates. Twitter immediately suspended the account.

"This censorship is life and death situation, and it's not to be played with. It's not to be taken lightly, and this is why the people (reacted), when they saw that they suspended the Nation of Islam's account, with over 61,000 followers. That Twitter account was a source of truth for people," said Mr. Muhammad.

That is part of the social media standard targeting of Minister Farrakhan and the Nation of Islam, he pointed out.

"What are they afraid of that the Nation of Islam, the Honorable Minister Louis Farrakhan, The Final Call, the students of the Nation of Islam and supporters, what are we delivering of truth that Satan is so afraid that he has to block us on social media? And when you ask yourself that question, it should let you know who you're dealing with."

Mr. Muhammad emphasized that Minister Farrakhan and those who have been following him have used Twitter with respect, and no filth or degradation. They have utilized it to spread truth for freedom, justice and equality for their people and the whole of humanity:

"When we look at the Honorable Minister Louis Farrakhan, and how he has been mistreated, on all of these social media platforms over the last 10 years in particular, then we should not be surprised by what they are continuing to do, and what they're speeding up, because they are definitely afraid of the truth that is in his mouth, that is upsetting all of their plans of death for our people and the whole of humanity."

Brother Rizza Islam said the only main social media platform he has left is his fourth one, an Instagram page, which reached nearly 100,000 followers in less than 8-1/2 weeks. The independent researcher, who is a member of the Nation of Islam, is among those being censored and attacked. His original page had over 500,000 followers, he stated. He remains on the Black-owned Fan Base and Melanated People social media apps.

"All Praise is Due to Allah for the example of the Honorable Minister Louis Farrakhan, for without that, I truly don't know how I would get through this in the way that I am. I would get through; I don't have a doubt in that. However, I don't think I would be able to gracefully go through this trial without his example."

On July 16, White House press secretary Jen Psaki, the U.S. Surgeon General, and President Biden announced the names of those voices being singled out for spreading truth about the dangers of the vaccine and the availability of successful treatments. Congress, in February

2021, had pressured Facebook, Twitter, and Google heads to remove the platforms of 12 private citizens. They were accused of creating 65 to 70 percent of "anti-vaccine" content on the internet. They have been labeled "problematic."

"In studying the example of the Honorable Minister Louis Farrakhan in how Congress labeled, categorized and characterized him, along with the Messenger, I studied how they manipulate words to create an atmosphere, to call the people to try to come against him," stated Mr. Islam.

"So by using such inflammatory language as 'killing' the people, although that is not true at all, for us, it is true for them. That's actually what they are doing ... Satan is using the platform he created, using tricks and lies and a fork-tongued language, just as the Honorable Elijah Muhammad taught of them," said Mr. Islam. He alleged that he and the other prominent, alternative voices are being targeted by an entity backed by Big Pharma.

Dr. Joseph Mercola, an author and pioneer in natural health, writes in his July 22 online article, "The Latest Google Censorship Due to Their Vaccine Investment": "YouTube's parent company, Google, is directly invested in the AstraZeneca/Oxford COVID 'vaccine.' This is why YouTube censors anything that threatens the rollout and future profits of COVID-19 gene modification therapies."

A lawsuit filed by Orange County, California-based Attorney Thomas Renz on July 19, contains a sworn affidavit from a whistleblower with access to government websites and data collection on vaccine injuries and deaths. The plaintiffs allege that the 11,000 deaths from the Covid vaccines reported through VAERS is actually only 25 percent of the actual number: Approximately 45,000 people have died as a result of the Covid-19 "vaccines." The complaint references the fact that the swine flu vaccine, after 53 deaths, was taken off the market.

On July 20, eight Indiana University Students, represented by America's Frontline Doctors and The Bopp Law Firm, appealed a federal judge's ruling which refused to put Indiana University's COVID Vaccination Mandate on hold until the end of the lawsuit.

In *Ryan Klaassen et al., v. The Trustees of Indiana University*, filed in June, students challenged the school's COVID vaccination mandates, announced on May 21.

During a July 21 CNN town hall U.S. President Joe Biden stated that 10,000 people recently died, and that 9,950 of them, thereabouts, are people who hadn't been vaccinated. "This is a simple, basic proposition. If you're vaccinated, you're not going to be hospitalized, you're not going to be in an ICU unit, and you are not going to die." He was immediately fact-checked and

found in error by various outlets such as the Associated Press. This was not his first false and reckless remark. Will Mr. Biden be censored and put on the list of private citizens he calls "disinformation dozen"?

With a straight face, Mr. Biden further claimed Covid is now a "pandemic of the unvaccinated." Meanwhile, in what may be a gross undercount, VAERS data released July 23 by the CDC showed a total of 491,218 reports of adverse events from all age groups following Covid vaccines, including 11,405 deaths and 48,385 serious injuries between Dec. 14, 2020, and July 16, 2021. The report is in an analysis by Megan Redshaw, writer for Children's Health Defense. The organization was founded by Robert F. Kennedy, Jr., its chairman and a prominent vaccine injury attorney.

So who and what is really killing people? Remember that the Honorable Minister Louis Farrakhan has made known that the Covid-19 vaccine is part of an overarching policy of depopulation of the indigenous people of the Earth.

While frequently cited by many media outlets as the leading cause of death, Covid-19 ranked 7th on the list of leading causes of death in the U.S., according to an article by Peterson Center on Healthcare and Kaiser Family Foundation.

The average daily deaths in the U.S. since June 2021 were as follows, according to the article:

Heart disease, 2101; Cancer, 1614; Accidents, 474, Stroke, 451, Chronic lower respiratory disease 377, Alzheimer disease, 351, Covid-19, 342; Diabetes 285, other diseases of the respiratory system, 183; renal failure, 148; influenza and pneumonia, 115.

It is important to note that CDC has reported 5,914 cases where fully vaccinated people have been hospitalized or died, as of July 19. In addition, the agency has announced that the "vaccine" doesn't work for those with a weak immune system. Yet, it still recommends those same people get a third booster shot.

Before spewing lies about the "vaccines" safety and efficacy, Satan tried to flip the script by saying "no vaccine is 100 percent," or "nothing in this world is 100 percent."

**Correction!** The Word of God is infinitely TRUE, and can be proven in no limit of time.

"So, you want this to end, but you don't know how. You want it to end, Mr. Trump, so you can go back to what was. But, I'm here to tell you, sir, you'll never see what was again. That is over. Why do you say this, Farrakhan? Because we are under the judgment of God."

The Honorable Minister Louis Farrakhan  
"The Criterion"
