

TOP DOCTOR SUCCESSFUL TREATING COVID-19 PATIENTS: VACCINE ‘DEATH SHOT’ IS ‘A CRIME AGAINST HUMANITY’

by NOI Research Group

Early on in the pandemic, as the death toll mounted, Dr. Vladimir Zelenko, an observant orthodox Jewish family physician in New York, developed a successful treatment protocol for his patients suffering from COVID-19. By March of 2020 he and his team of doctors had administered his treatment to over 2,000 patients and all of them recovered except for two fatalities of high-risk patients. At the same time, the American media was filled with images of hospitals loading up refrigerator trucks with COVID-19 bodies after the hospital “treatments” failed. Dr. Zelenko’s out-patient protocol cost \$20 per patient, while the hospitals were pushing the \$3,000-a-dose drug Remdesivir, or charging \$40,000 for anyone they could hook up to a ventilator. Today, one has a far greater chance of surviving COVID-19 in Afghanistan than in America.

Dr. Zelenko’s approach was simple—early treatment with safe and effective drugs kept patients out of hospitals and cemeteries. He found that the well-known drug hydroxychloroquine (HCQ) and the mineral Zinc when taken orally could short-circuit COVID-19 and return the patient to full health with minimal side effects. Word of his success reached the White House and leaders around the world but he was brutally silenced by the Big Pharma-controlled American media, Big Pharma mouthpiece Anthony Fauci and the profit-drunk “medical” establishment—all of them insisting, then and now, that the COVID-19 “vaccines” are the one and only option.

In a February, 2021 interview, Dr. Zelenko said, “There are papers with [Dr. Anthony] Fauci’s name on it, calling [HCQ] a miracle drug. Fauci called HCQ a vaccine. There’s a paper in which he called it an absolute dream treatment and vaccine ...” He continued, “I think this was a genocide against the elderly and a crime against humanity ... There are plenty of people who have blood on their hands, including the media.”

In early August 2021, Dr. Zelenko testified before the Ma’aleh Adumim Rabbinic Court in Israel regarding what he now refers to as the COVID-19 “death shot.” It is a powerful testimony, which we excerpt below:

Dr. Zelenko: “... My team has directly treated successfully 6,000 patients. I have trained hundreds

#ZelenkoProtocol

1. Identify patients with a high risk of dying.
2. Treat them within 5 days of first symptoms.
3. Use a triple drug therapy:

Hydroxychloroquine 200mg twice a day for 5 days
Zinc sulfate 220mg once a day for 5 days
Azithromycin 500mg once a day for 5 days

of physicians who are now training their students. And as a cumulative group, we’ve treated millions of patients successfully. President Trump was my patient. Rudy Giuliani was my patient....”

On Children & ‘Vaccine’

“Look at the CDC, the statistics for children under the age of 18 that are healthy, the survival rate is 99.998 percent survival rate with no treatment ... So, if you have a demographic that has no risk of dying from an illness, why would you inject them with a poison death shot? ... [T]he only reason you would want to treat a child is if you believe in child sacrifice ...

There is no need for this vaccine. There’s actually no need for anyone [to get it]. Children, I already told you, they have a 99.998 percent chance of getting better. Young adults from 18 to 45 have a 99.95 percent of getting better. ... Someone who has already COVID and has antibodies, naturally induced immunity, is a billion times more effective than artificially induced immunity through vaccine. So why? Why would I vaccinate someone with a poison death shot that makes inferior or dangerous antibodies when I already have healthy antibodies?”

“WAKE UP! This is World War Three! This is a level of malfeasance and malevolence that we have not seen, probably in the history of humanity.”

- Dr. Vladimir Zelenko

Is Vaccine ‘Safe & Effective’?

“Now, let’s see if this thing works. The two countries in the world that have the most vaccinated citizens are Israel—[which has] an 85% rate of vaccination—and an island nation in the Indian Ocean called Seychelles, also over 80% [rate of vaccination]. Both countries are experiencing a Delta variant outbreak.

So let me ask you a question. If you vaccinated ... the majority of your population, why are you still having an outbreak? Number two, why would you even give a third shot of the same stuff that didn’t work the first two times? That’s whether or not it works.

And let’s talk about safety. Now, this is the real issue. ... According to the Salk Institute, when a person gets an injection of these “things,” the body becomes a spike-producing factory, making trillions of spikes which migrate to the endothelium, which is the inner lining of your blood vessels, and it’s basically little thorns on the inside of your vasculature. As the blood cells flow through it, they get damaged, they cause blood clots. If that happens in the heart, it’s a heart attack; if that happens in the brain, that’s a stroke. So, we’re seeing the number one cause of death in the short term is from blood clots. And most of it is happening within the first three or four days—40% [of blood clot cases] is happening within the first three days of injection of this poison death shot.

Now, the other problem is that it’s causing myocarditis or inflammation in the hearts of young adults.

And the third problem, which is the most disturbing is, according to the *New England Journal of*

Medicine article, their preliminary data, the miscarriage rate in the first trimester: A woman gets vaccinated in the first trimester goes from 10% to 80% [miscarriage rate]. *I want you to understand what I just said. The miscarriage rate in the first trimester of pregnant women when they get vaccinated goes up by a factor of eight. [...]*

[Another] problem is ... that the animal studies that were done with these vaccines show that all the animals responded well in generating antibodies. When they were challenged, however, with the virus that they were immunized against, a large percentage of them died. And when that was investigated, it was found that their immune system had killed them. It's called antibody-dependent enhancement or pathogenic priming or paradoxical immune enhancement. But the point is that a lot of those animals died.

So, you can make an argument maybe human beings are different. My answer to you: maybe; however, [human studies] were not done. *You* are the study right now. The Pfizer CEO said, "Israel is the biggest laboratory in the world." ... Dr. Luc Montagnier, who won the Nobel Prize in medicine for the discovery of HIV, said that this is the biggest risk to humanity and the biggest risk of genocide in the history of humanity. And so, the risk of an ADE (antibody-dependent enhancement) reaction in human beings, which happens later, has not been ruled out. So my question is, why would I vaccinate someone with a potentially destructive lethal substance without ruling that out first?"

Long-Term Consequences

"Number one. There is *definite* evidence that [the "vaccine"] affects fertility, damages ovarian function, that it reduces sperm counts. Number two: it definitely increases the amount of auto-immune diseases. Who knows over time how that is going

to reduce life span? And just last week, a paper came out showing that it increases the risk of cancer."

Government Responsibility

"In my opinion, the current Israeli government is a *gilgul* [reincarnation] of Josef Mengele. They have permitted human experimentation of their own people If you see trouble in the Jewish people, you should look at the rabbinic leadership, because if the head is diseased, what do you expect of the body. So, I beg of this [court] to put the interests of [the people of Israel] above politics and anything else that may alter your opinions. I have received death threats, daily death threats. I have risked my life, my career, my financial life, my reputation, almost my family—everything—just to sit here and tell you what I'm telling you.

Dr. Luc Montagnier

And, yes, your Ministry of Health is lying to you; your statistics are absolutely skewed. If you want to see something real, there's the website called Worldometers.Info [<https://www.worldometers.info>]. Go to "Israel" and you can see at December 20, 2020, there's a huge spike in the curve of death in Israel. You know what happened in Israel, December 20th? National Immunization started. And these are numbers being reported by the Israeli government—they're just too stupid to hide it. There is zero justification, zero justification for using this poison death trap unless you want to sacrifice human beings. I think I'm done."

Benjamin Netanyahu

On Genocide

"So out of 600,000 Americans [who died], we could have prevented 510,000 from going to the hospital and dying. And by the way, I presented this information to [Prime Minister Benjamin] Netanyahu directly into his hands ... in April of 2020, and I informed every single member of your Ministry of Health as well.

So, my question to you is, if I can reduce the death

rate from 7.5 % to less than a half a percent, why would I use a poison death shot that doesn't work and has tremendous and horrific side effects?"

If we follow the advice of some of the quote-unquote, global leaders, let's say, like Bill Gates, who said last year, 'Seven billion people need to be vaccinated,' the death rate will be over two billion people. So, WAKE UP! This is World War Three! This is a level of malfeasance and malevolence that we have not seen, probably in the history of humanity.

... [I]f you look at Dr. [Robert] Malone, who invented the mRNA technology as the original patents for the vaccine, he is saying, 'Do not use this. The government is lying to you. The side effects are horrific.' Dr. [Dolores] Cahill from Ireland said that she believes that within two years, 90 percent of the people that got vaccinated will be dead Maybe it's not two years. Maybe it's three years. And Dr. Luc Montagnier, who is the Nobel Prize-winner for the discovery of HIV, [is] saying, 'This is the biggest risk of genocide in the history of man.'"

God is Testing Us

"I'm against child sacrifice. I'm against *avoda zara* [idolatry]. And I really believe that God is testing every human being. And here's the test: Are you going to bow down to Me [God]? Are you going to ask for your protection, from Me? Are you going to take your fears and ask Me to help, or are you going to run to the idol of the vaccine of your governments, of despots and tyrants like sociopaths who want to be deities?"

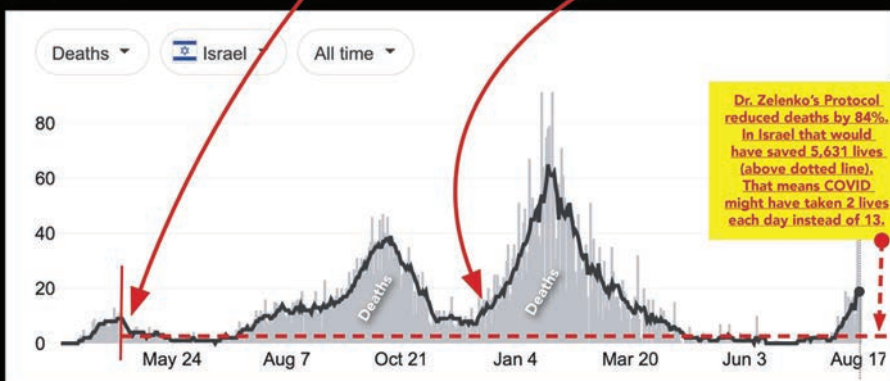

There is nothing new under the sun. These people are no different than Pharaoh. They think they're God. And you're going to bow down to them? If you're going to bow down to them, let them protect you. Let's see how that's going to work out for you!

I'm seeing fear drive people to do things that are completely irrational, do not make sense, and they sacrifice their own children.

IMPORTANT INFORMATION ON IVERMECTIN

—There was an overwhelming response to the July 20th article on Ivermectin, a safe, inexpensive medicine which has proven extremely effective in treating Covid-19. It can only be given by prescription. In response to numerous requests for information on how to obtain Ivermectin, we are providing the website which gives a nationwide list of physicians who will prescribe it. ... It's so hard for Jewish people to believe that there could be a group of people willing to destroy? It's a war against God.

There are two ways of looking at life. Either you look at a human being as made in the image of God. If you are made in the image of God, that means your life has sanctity. If your life has sanctity, then you have human rights. And if you have human rights, then it is not your business or my business to decide how many people should be on the planet and who should live or die. Right?"

On Medical Deception and Media Manipulation

Panel Member: "Dr. Zelenko, you mentioned studies that definitely — the studies that came out — that there is definitely a cause of fertility problems, sperm count, and now recently a cancer research study that says that it causes cancer. Will the government show these? Why are they holding back these things? We see all the time coming out studies? 'There's no problems of fertility—bluff. There's no problems of sperm count—bluff. Cancer—bluff.' Everything that you say we're being countered back not only by the governments but by most of the medical industry [which] is telling us that all these studies that say the vaccination is dangerous is all baloney and promoted by anti-vax crazies."

Dr. Zelenko: "I can answer that Every single person you just mentioned, if you sum total the number of patients they've treated for COVID, it will equal zero. And I've treated over 6,000 patients. So, you have to know who you're talking to ..."

Now, what I'm going to tell you is the following: that, yes, there's been a very coordinated effort to suppress lifesaving information. Drugs like Hydroxychloroquine and Ivermectin, which are the safest medications in the history of medicine, have been suppressed. And you can't even get them in Israel.

Doctors who dare to say something that is against the narrative are being de-platformed, including world experts. Dr. Malone, for example, who developed the mRNA vaccine, said something

against the narrative was de-platformed from every media platform. Can you tell me why?

And then can you tell me why there is suppression of knowledge of side effects about this poison death shot? And then tell me why there's this incredible coercion, psychological pressure, and now using force to compel people to take the shot. You should be answering that question, not me. There is a coordinated effort here. And Israel is leading the way."

Vaccine Deaths & the VAERS System

Panel member: "Excuse me, the VAERS [Vaccine Adverse Events Reporting System] data in the United States is also not really showing the numbers that you're saying either."

Dr. Zelenko: "Now you started. VAERS data shows as of today eleven thousand dead people and fifty thousand adverse events [in the United States]. First of all, that's not enough? What's your threshold of death?"

Panel member: "No, one [death]."

Dr. Zelenko: "Okay, VAERS is already admitting to that. There's a CDC whistleblower that just said it's not 11,000, but it's 45,000. That's not enough? And then there's a 2009 Harvard study that said that only one percent of actual events [vaccination injuries] are reported."

And then there are two other problems with VAERS. I have colleagues that lost patients from the vaccine. They try to file reports. The [VAERS] system rejects their reports for no reason [and] reports that were filed are now being scrubbed off the system and you can't even find them."

Total Corruption: Biden, the NIH, and the CDC

"Let me tell you about the CDC. President Trump made an executive order that every single American should have access to Hydroxychloroquine [but there was no] legislation that would have made access to this medication to every American and every human being around the world ... [T]he biggest complaint I got from Israel was, 'Well, your CDC, your FDA, is not approving it.' So, because the Americans weren't willing to do it, Israel wasn't willing to do it. And so what did they do? They created an emergency use authorization that restricted and limited access to only hospitalized patients, effectively cutting it off from patients in an outpatient setting at home."

... And furthermore, then they took away the emergency use authorization for hydroxychloroquine, and they used the Lancet Study that showed that hydroxychloroquine kills people. The problem with that study was that it was [a] fraud and the Lancet had to retract that study because it was based on data that didn't exist."

But the FDA and the CDC used that study after it was retracted to revoke the emergency use authorization [of hydroxychloroquine]. And the reason why is that if that drug has an emergency authorization, other drugs can't. And three weeks later Remdesivir, made by Gilead Pharmaceuticals, received an emergency use authorization, a three-billion-dollar

contract. And Remdesivir showed no benefit. It reduced hospital stay by five days but with no survival benefit. It cost \$3,200 a patient and IV. The drugs that I was using just cost 20 cents a pill at home and reduced death and hospitalization by 84 percent. That means they reduce the market share for Remdesivir by 84 percent."

So, the CDC is not an authority to me. You know, according to the NIH right now, you're not supposed to treat COVID unless you're in the hospital and your oxygen is less than 92 percent. Now, this is the advice and recommendations of a government that wants you to die. After 18 months and dozens of studies that have shown an 85 percent on-average benefit of healing, avoiding hospitalization and death, and you have a government agency still making that recommendation—they have completely lost all credibility. Yes, our governments are corrupt. Yes, our governments have conspired."

By the way, if you look at the [biblical Exodus] ... only one out of 10 Jews left Egypt and made it to Israel. What that means is, only 10 percent of our people are capable of making the psychological transition from slavery to redemptive thinking. That's what the problem is here. It's a collision of two systems that cannot coexist, a God-centered consciousness versus *avoda zara* [idolatry]. Nothing new is under the sun. It's all the same thing. It's just that the battlefield now is COVID-19."
