

# THE RISE OF BLACK AFRICA AND THE END OF SATAN'S WORLD

## The Tribe of Shabazz Unravels America's Genocidal Plans

*“There is a burden that the Earth is carrying, that the Earth must be relieved of. And what is that burden? Everything that is on the Earth came out from the Earth, so the Earth is not burdened by what comes out of it, but the Earth is burdened by the Wicked—living on a planet that was made for the Righteous. And so the burden is now being shaken. The burden feels something coming because they are being overthrown. You cannot live in a world made by God on the basis of Truth, living your life on the basis of a Lie.”*

—The Honorable Minister Louis Farrakhan, *The Criterion*, July 4, 2020

**A**s we documented in two previous articles of The Final Call Newspaper, 47 leaders of African nations have stepped forward to point out the fallacies in the World Health Organization's orchestrated response to the so-called COVID-19 “pandemic”, after the Honorable Minister Farrakhan warned them, July 4, 2020, not to allow the West to bring their experimental, so-called “vaccines” into their countries. This was a full six months before their deadly product was completely developed and deployed. Tanzania's President, Dr. John Magufuli, a PhD in chemistry, proved that the PCR test for the SARs-CoV-2 virus gave false positive results when used to test a papaya, goat and motor oil. Another African president, Andry Rajoelina of Madagascar through his Madagascar Institute of Applied Research (IMRA) made an effective tonic for COVID-19 from a local plant called *artemisia*, which had a proven efficacy in treating malaria.

The scourge of malaria in Africa prompted the discovery of hydroxychloroquine (HCQ) as an inexpensive, effective remedy for malaria. The people of Sudan were producing it for themselves until America bombed their plant in 1998. Dr. Stella Immanuel

calls HCQ the “Sunday pill,” because in her native country of Cameroon, they religiously took that pill every Sunday. However, she was ridiculed as a quack for prescribing this medicine to block the SARS-Cov-2 virus in spite of the fact that “*HCQ is effective against infections with SARS coronaviruses was already established in 2005 in the course of the SARS 1 epidemic. That zinc blocks the RNA replication of coronaviruses was discovered in 2010 by Ralph Baric, one of the world's leading SARS virologists.*”

by Dr. Ridgely Abdul Mu'min Muhammad  
NEWS ANALYSIS

Well, to force everybody to take their gene-altering mRNA shots, Big Pharma used media and governmental agencies to block doctors from prescribing these safe, effective, and inexpensive medicines to the American people. This is major, ongoing criminal action. Along with malaria, many African countries suffered from River Blindness. Pharmaceutical giant Merck donated **billions of doses of Ivermectin** to tropical Africa over the years, which almost completely eradicated River Blindness. In March of 2020 Ivermectin was tested against the SARS-Cov-2 virus and was shown to eradicate it in **48 hours**. But instead of allowing doctors to prescribe this FDA-approved drug to be repurposed for COVID-19, the FDA tried to get states to take away the medical licenses of those doctors who were

saving the lives of their patients using Ivermectin.

Now after 2.5 years of lies and deceit, the villains and their plans are unraveling because the Family of Shabazz (members of the Original Owners of the Planet Earth) heeded the call of Minister Farrakhan and did not take the shots. Only about 6% of Africans took the shots, yet the continent had far fewer deaths than did Israel (the first country to jump out front to jab all of its citizens and even offer millions of free doses of these shots to the Africans.) But the Africans listened to Minister Farrakhan and not the Israelis.

**H**ow ironic: that today's descendants of the Tribe of Shabazz, who developed incredible strength and endurance conquering the jungles of East Asia (known today as Africa), are the very ones to expose and overcome the latest attempt at genocide by the 6,000-year-old Enemy of the Original people?

The Tribe of Shabazz faced many diseases, viruses, bacteria and parasites in the jungles, resulting in the development of a powerful immune system. The scientists among our people living in this harsh environment also developed treatments to protect and heal themselves of these dangers.

# Rise of Africa

Continued from page 8

For our readers that may not know the history of these powerful ancestors of Black man and woman, not only in Africa but in America, here are the words of The Most Honorable Elijah Muhammad:

*“We, the tribe of Shabazz, says Allah (God), were the first to discover the best part of our planet to live on. The rich Nile Valley of Egypt and the present seat of the Holy City, Mecca, Arabia. The origin of our kinky hair, says Allah, came from one of our dissatisfied scientists, 50,000 years ago, who wanted to make all of us tough and hard in order to endure the life of the jungles of East Asia (Africa) and to overcome the beasts there. But he failed to get the others to agree with him. He took his family and moved into the jungle to prove to us that we could live there and conquer the wild beasts, and we have.” (Message To The Blackman pp. 31–32)*

Satan would like the world to believe that there is no Living God in command of the Universe and human affairs. Satan would like us to believe that the Universe is not guided but is just floating aimlessly in space. If humans do not keep a record of events and do some analysis, they might believe Satan and accept that everything just happens by coincidence. Fortunately, some of us are vigilant. Let’s go back a minute. A member of Minister Farrakhan’s research team, Brother Sultan Muhammad, recently reminded us that after the Million Man March of October 16, 1995, Minister Farrakhan went on three World Friendship Tours (1996, 1997, 1998), where he was invited by the leaders of 19 African coun-

*‘Satan planned for everything except the Son of Man casting Truth to a people prepared to hear and obey. Satan could not shoot up the Africans, even though he is still trying. Instead, the kill shots are repeatedly going into his own white people. Now they are reportedly dying at a much faster rate than the Africans who did not take these shots.’*

tries to come and speak to their citizens. Clearly, Black African leaders and their people recognized Minister Farrakhan as the Leader of Black people in America after he summoned 1 million Black men to the Capitol of the United States and 2 million actually showed up for a day of “Atonement and Reconciliation.” The world witnessed 2 million peace-loving Black men gather on the D.C. Mall—a reality at variance with the media image of the Black man as a “menace

to society.” Our people in Africa have continued to keep up with Minister Farrakhan by reading the digital edition of The Final Call Newspaper.

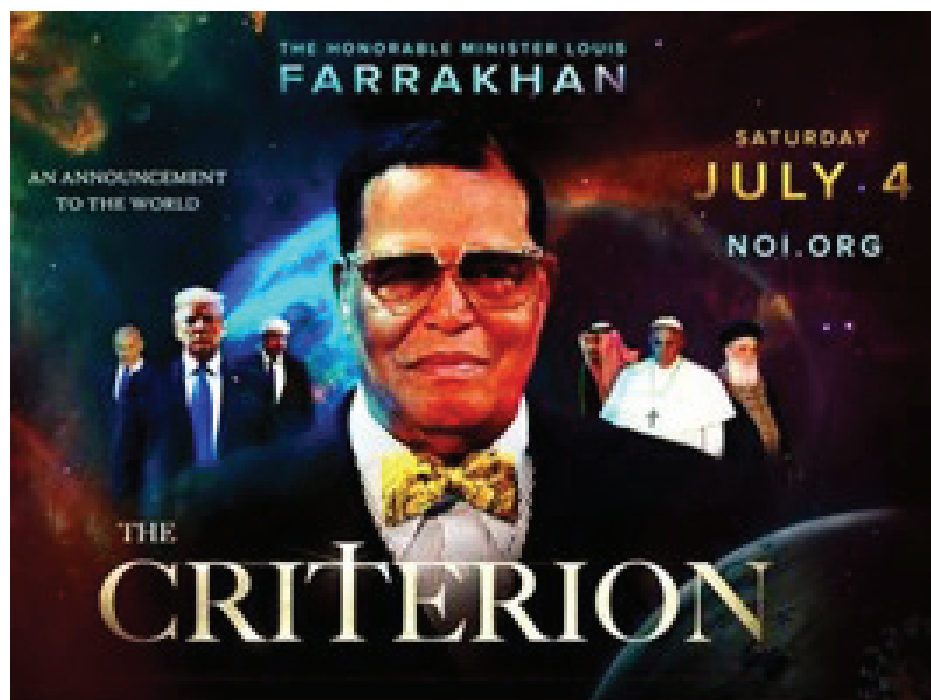

In the *Book of Daniel* (2:31-35) a “great image” and its fate are described. This “great image” with the head of gold, chest of silver, thighs of bronze, legs of iron and feet of iron and clay was destroyed by a stone (truth) striking the feet of iron and clay.

The U.S. government, with its

Policy of Depopulation, led by hidden billionaire sociopaths, paid Big Pharma to produce bio-weapons disguised as vaccines and protected the manufacturers from liability for the destruction that they would cause. Then the mass media created a climate that induced panic and a suffocating fear of an invisible enemy (a virus). This fear campaign succeeded in scaring millions to the point that they took and still are taking these poison shots. However, by Minister Farrakhan warning Black Africa and Black America about the deadliness of these shots, the very people who were the intended targets to did not take them. And because the African members of the Tribe of Shabazz had developed, over 50,000 thousand years in the jungle, an immune system that allowed them to survive an 80% infection rate with minimal deaths, they overcame the attack while avoiding these so-called vaccines.

Satan planned for everything except the Son of Man casting Truth to a people prepared to hear and obey. Satan could not shoot up the Africans, even though he is still trying. Instead, the kill shots are repeatedly going into his own white people. Now they are reportedly dying at a much faster rate than the Africans who did not take these shots. Soon these white people will be tracking down their assailants who are members of their own family. Thank you, Allah (God) for the Honorable Minister Louis Farrakhan and for our great ancestral roots in the Tribe of Shabazz.

*Holy Qur’an 41:29: And those who disbelieve will say: Our Lord, show us those who led us astray from among the jinn and the men that we may trample them under our feet, so that they may be of the lowest.*

# DePopulation Briefs

"I say to those of us in America, we need to call a meeting of our skilled virologists, epidemiologists, students of biology and chemistry and we need to look at not only what they give us, we need to give ourselves something better."

—The Honorable Minister Louis Farrakhan, *The Criterion*

Forbes: COVID Cash Made Big Pharma Very Rich While Legally Cleared of Vax Deaths & Injuries

There are currently only a handful of large vaccine manufacturers—Merck, Sanofi, Pfizer, and Johnson & Johnson. *Forbes* reported that "the White House needed a whopping amount of money to coax companies to research and test and then produce hundreds of millions of doses. ...Ultimately, **Operation Warp Speed** (OWS)—the U.S. government's COVID-19 relief program—would dole out \$22 billion to Big Pharma."

The amounts of money were massive for a public health project—\$2.5 billion to **Moderna**, \$1.2 billion to **AstraZeneca**, half a billion dollars to **Johnson & Johnson**, and \$1.6 billion to a small company called **Novavax**.

**Pfizer** signed a \$1.95 billion deal to sell one hundred million doses of its two-shot vaccine to the US, enough for fifty million people at a price of about \$40 per double shot. The government had ordered 300 million doses from Moderna, with its first shipment of one hundred million priced at \$30 per double-shot dose—cheaper than Pfizer partly because the United States had forked over nearly a billion dollars to Moderna "research."

According to *Forbes*, "The Trump administration's best and brightest Covid solution—throw public money at private industry with almost no oversight of the contracting procedure—will stand as one of the most audacious efforts in the administration's free market ideological playbook. The full roster of this pharmaceutical windfall club will probably never be revealed."

Israel sees 70% spike in number of seriously ill COVID patients within a week

Israel is central to the international depopulation operation. Its leaders plotted with Pfizer to force the entire population of the apartheid state to become lab rats. American officials say they base their own policy decisions on data from the Israeli COVID program. And now disaster looms for the Israelis who took the poison shots. The *Times of Israel* reports that the number of coronavirus patients in serious condition in Israel has risen by 70% in one week.

They note that "a rise in seriously ill patients marks a real concern as the country deals with the spread of the new variant BA.5, with experts warning that hospitals may need to reopen COVID wards."

Prof. **Cyrille Cohen of Bar Ilan University** said: "It's an unpredictable and unstable situation regarding COVID. It will take months and even years before there is a significant decrease and we reach a more predictable scenario. But one must also be careful with making estimations."

Fake Stat Check: Covid as "Leading Cause of Death" in Children

**Phony data was used at two critical FDA and CDC meetings to approve the deadly "jab" for American children.** A table was presented in a slide show asserting that "COVID" was the leading cause of death in US children.

The slide was shared on Twitter by Dr. Katelyn Jetelina ("Your Local Epidemiologist"), and retweeted by many influential people, including Jerome Adams, Julia Raifman (tweet now deleted), Gregg Gonsalves, and Leana Wen. Only problem is, the claim is utterly false.

A researcher closely monitoring the process spotted the tricky manipulation of official statistics to make that false claim. NONE of the highly funded professional "fact-checkers" was able to detect the flawed data. The disturbing reality is: **in the pandemic dash to generate fear, all deaths were considered "COVID deaths" NO MATTER WHAT THEY ACTUALLY DIED FROM.** Many victims were not even tested for "the virus" before a doctor or coroner—often financially rewarded for high "covid infection" rate numbers—added "COVID" to death certificates.

The fact is that COVID is about the 8th or 9th leading cause of deaths in children ages 1 to 4. And in 2021, swimming pool deaths were 4 times that of the COVID deaths for this age group.

Boris Johnson Says #1 Issue is "GLOBAL POPULATION CONTROL"

The sane world watched in horror as the now disgraced prime minister of England **Boris Johnson** made himself a world leader in promoting the deadly and ineffective COVID-19 "vaccine." Untold numbers of Brits were forced into the jab by his government's murderous mandates and economy-wrecking shut-downs. And now we know his motive—DEPOPULATION.

In 2007 Johnson expressed his true world view and titled it "**Global over-population is the real issue.**" Here are excerpts from his forgotten depop manifesto:

*"As for motherhood—the fertility of the human race—we are getting to the point where you simply can't discuss it, and we are thereby refusing to say anything sensible about the biggest single challenge facing the Earth; and no, whatever it may now be conventional to say, that single biggest challenge is not global warming. That is a secondary challenge. The primary challenge facing our species is the reproduction of our species itself.*

*Depending on how fast you read, the population of the planet is growing with every word that skitters beneath your eyeball. There are more than 211,000 people being added every day, and a population the size of Germany every year...*

*The world's population is now 6.7 billion, roughly double what it was when I was born. If I live to be in my mid-eighties, then it will have trebled in my lifetime.*

*The UN last year revised its forecasts upwards, predicting that there will be 9.2 billion people by 2050, and I simply cannot understand why no one discusses this impending calamity, and why no world statesmen have the guts to treat the issue with the seriousness it deserves.*

*How the hell can we witter on about tackling global warming, and reducing consumption, when we are continuing to add so relentlessly to the number of consumers? The answer is politics, and political cowardice...*

*All the evidence shows that we can help reduce population growth, and world poverty, by promoting literacy and female emancipation and access to birth control. Isn't it time politicians stopped being so timid, and started talking about the real number one issue?*

“How could we let the former colonial and slave master bring in vaccines for our people and we don’t have scientists or laboratories to look at this and test it to see if it is what’s on the label?”

—The Honorable Minister Louis Farrakhan

## Queen of Depopulation **Margaret Sanger**: America’s Hitler BEFORE Hitler

Depopulating the world has been American policy at least since the end of chattel slavery. Black women were once prized for their ability to procreate and produce more and more slave laborers. But after slavery her womb became the target of depopulators.

**Margaret Sanger**  
Decried “human weeds”

**Margaret Sanger** was a leader in this genocidal American policy. Sanger is considered the “mother of the eugenics movement,” and she was its most ardent supporter. Eugenics is the race-purifying population control philosophy posing as science that some say drove Hitler to genocide of the non-Aryan white man in Germany. But it was

Margaret Sanger who pioneered the pseudo-science in America long before Hitler took power in 1933. Sanger opened the first birth control clinic in Brownsville, Brooklyn, in 1916, claiming to be in that Black community to offer family-planning services. She opened another in Harlem in 1930.

She was explicit about her aims and objectives in a 1923 *New York Times* article:

*“Birth Control is not contraception indiscriminately and thoughtlessly practiced. It means the release and cultivation of the better racial elements in our society, and the gradual suppression, elimination and eventual extirpation of defective stocks — those human weeds which threaten the blooming of the finest flowers of American civilization.”*

Yes, she said “human weeds.” She was not alone in this desire to cull the “undesirables.” Notable American giants **Henry Ford, John D. Rockefeller, Theodore Roosevelt,** and James Gamble (Proctor’s partner), and breakfast cereal king **Will Kellogg** all advocated racial engineering policies decades before the Nazis got into the genocide game.

Maybe shocking to most is that many American eugenicists were Jewish. The founder of the venerable **American Jewish Committee, Louis Marshall,** believed America should be rid of its *“hopelessly confirmed criminals, degenerates, or defectives.”* A supporter of the Ku Klux Klan, Marshall fought against anti-lynching laws. He was legal advisor to the **American Breeders Association** and helped them to frame *“a model law permitting the sterilization of persons known to*

**Louis Marshall**

*have defective germ-plasms, establishing criterion therefor, and providing for effective execution.”*

A major financier in the Eugenics Movement was the world’s top advertising magnate **Albert Lasker.** It was Lasker who made household names of products like Lucky Strike cigarettes, Chanel perfume, Pepsodent toothpaste, Quaker Oats, Kleenex tissue, Sunkist oranges, Goodyear Tires, and Budweiser Beer. He and his wife Mary were passionate believers in white racial superiority, and they financed eugenics projects targeting racial “undesirables.” In fact, it was Albert Lasker who convinced Margaret Sanger that “birth control” was too abrasive a marketing term and that she ought to change the name—to **Planned Parenthood.**

**Albert Lasker**

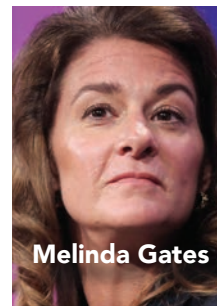

**Hillary Clinton**

Today, the Sanger/Lasker/Marshall tradition lives on. In 2009, Secretary of State **Hillary Clinton** showed her love of Sangerism: *“I admire Margaret Sanger enormously, her courage, her tenacity, her vision.... And there are a lot of lessons that we can learn from her life and from the cause she launched and fought for and sacrificed so*

*bravely.”* The father of the world’s leading depopulator **Bill Gates** was a top **Planned Parenthood** official. A recent study found that 86 percent of **Planned Parenthood’s** abortion factories are located in or near Black and Latino neighborhoods.

All this should confirm that the spirit of satanic Sangerism lives on—in the form of a “vaccine” claimed to save us. When asked who should get this deadly depop poison, **Melinda Gates** channeled Sanger: *“In the U.S., that would be black people next, quite honestly, and many other people of color...”*

**Melinda Gates**

## Variant Roulette: You Have NO IDEA What You Have

Everyone has heard of the COVID variants: Delta, Omicron, BA-5, etc., and we are told of “waves” of variant infections. But the fact is if you’ve “tested positive” for COVID-19, the standard tests (which are SERIOUSLY flawed to begin with) can not tell you which one of the hundreds of variants you may have. Unless you have undergone a rare and expensive laboratory process known as “genomic sequencing,” the medical “authorities” are simply guessing as they add to the many layers of COVID lies.

## COVID Masks Are a Ticking Plastic Bomb: 3 Million Thrown Away Every Minute

Studies estimate that an astounding 129 billion face masks are used globally every month—that is 3 million a minute. Most of them are disposable face masks made from plastic microfibers.

Disposable masks are plastic products, which cannot be readily biodegraded but may fragment into smaller plastic particles, namely micro- and nanoplastics that are now widespread in ecosystems.

The enormous production of disposable masks is on a similar scale as plastic bottles, which is estimated to be 43 billion per month.

However, different from plastic bottles (of which about 25% are recycled), there is no official guidance on mask recycle, making it more likely to be disposed of as solid waste, researchers write.

The diabolical irony is that masks proved to have no value in stopping the spread of any virus. At best they are simply splatter guards, and at worst they serve a PSYCHOLOGICAL goal of generating the constant fear and anxiety necessary for any depopulation program to achieve success.

## Fauci Gets COVID Again After Taking Pfizer’s Paxlovid — the Drug Cost Taxpayers \$10.5 Billion

Dr. Anthony Fauci said Tuesday he is experiencing a rebound of COVID-19 symptoms after taking Paxlovid, Pfizer’s COVID-19 antiviral pill. Taxpayers are on the hook for \$10.5 billion worth of the experimental treatment, under a deal the White House cut with Pfizer.

Fauci tested positive for COVID-19 on June 15, despite being quadruple-vaccinated, initially experiencing “mild symptoms,” according to the NIAID. He was prescribed Paxlovid, but after the fourth day “I tested myself again. I reverted back to positive,” Fauci told an interviewer.

There is possibly no bigger American health disaster since the Tuskegee experiment than the depopulation team of Fauci and Pfizer. Almost everything they have touched has spelled ruin for the American people, but massive riches for the vaccine industry and pharmaceutical-funded government officials.

Political commentator Kim Iversen pointed out that “Pfizer says its real-world data indicates the relapses occur in fewer than 1 in 3,000 patients, but again, we’ve heard this phrase throughout the pandemic—that something is ‘extremely rare,’ like getting the virus after being vaccinated or having a case of myocarditis...it turns out these events are more common than they first appear.”
