

# Truth Exposed! A Final Call Exclusive Interview

## COVID Intensive Care Unit Nurse Provides A Look Inside America's Hospitals And the Importance of Following Divine Guidance to Stay Healthy

by Charlene Muhammad  
National Correspondent  
[@sischarlene](#)

Sister Tamara Muhammad is a fourth-generation member of the Nation of Islam. She holds a Bachelor of Science in Nursing (BSN) and is an RN. She currently works as a COVID Intensive Care Unit (ICU) Nurse based in Memphis, Tennessee. For more than seven years, she thoroughly enjoyed her unique work as a travel nurse until the arrival of COVID-19 changed everything about her experience.

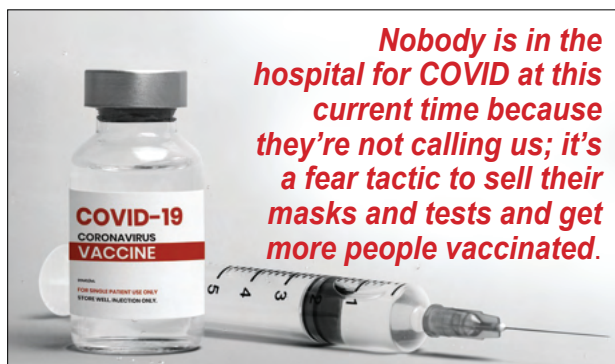

Below are excerpts from an exclusive interview with Final Call National Correspondent Charlene Muhammad, wherein Sister Tamara discusses her position that COVID-19 cases are not on the rise. She analyzes treatments, therapies and trends as an eyewitness and a health professional. She bears witness to the Honorable Minister Louis Farrakhan's Divine Guidance and Warning about the vaccine and solutions he offered to a pestilence from heaven.

**CHARLENE MUHAMMAD (CM):** You mentioned trends that COVID-19 seems to follow during the flu season. Please explain.

**TAMARA MUHAMMAD (TM):** As health care professionals working at-the bedside with COVID, we are less busy after the flu season: the end of March, the beginning of April, and tapering off entirely in May; and active during the fall and winter months. Hence, so many people tested positive for COVID-19 during this time, and the flu season seemed to disappear.

**CM: What other trends do you see with COVID-19 and reports of a rise in cases?**

**TM:** The news will report a rise in COVID. The only way we as ICU nurses could scope if COVID-19 were truly on the rise is by following the money trail. Agencies would call us nonstop and pay us anywhere from \$6,000 to \$10,000 weekly. That is not happening. The numbers are low. We're back to regular pay,

**Nobody is in the hospital for COVID at this current time because they're not calling us; it's a fear tactic to sell their masks and tests and get more people vaccinated.**

**'I've been telling everyone about that PCR test from day one. It raised many suspicions because COVID nurses were never required to take the test. Patients were required to get tested for simple examinations or procedures (unrelated to COVID) and none of the healthcare professionals working in the hospital is required to take a test? I have never been tested, never!'**

\$2,900 to \$3,200 weekly. We look at the patterns. **The vaccines were declining, and the COVID test and masks sales dropped. It's just propaganda. Nobody is in the hospital for COVID at this current time because they're not calling us; it's a fear tactic to sell their masks and tests and get more people vaccinated.**

**CM: Please share your knowledge about the constant, unprecedented volume of testing.**

**TM:** I felt vindicated when Minister Ava reported about that PCR test in her Final Call article: "The Covid-19 PCR Test: Companion Weapon to the Vaccine in the Era of Biological Warfare Against the Original People." I've been telling everyone about that PCR test from day one. It raised many suspicions because **COVID nurses were never required to take the test. Patients were required to get tested for simple examinations or procedures (un-**

Tamara Muhahammad, RN

**related to COVID) and none of the healthcare professionals working in the hospital is required to take a test? I have never been tested, never! I have never been asked to take a test, and I am working with COVID-19 patients and have never tested. We could work sick with COVID-19 patients, go home ill, return to work the following day, and never be tested. The rationale is that we know the test is faulty and not diagnostic; it's only a screening test. After all, the test doesn't guide treatment, and it is too far inaccurate to trust the test to tell your current status.**

I cared for many patients that tested negative for COVID-19 repeatedly but still had all the signs and symptoms of it and were treated for it in the ICU. And we had patients with no signs and symptoms of COVID-19 in different units who would test positive for it repeatedly and not be treated for it because they didn't have COVID-19. The patient was there for hip replacement or something unrelated to COVID-19. Remember, every patient gets tested for COVID-19 coming into the hospital. This is evidence that the test doesn't guide treatment and is hugely inaccurate.

# Truth Exposed!

Continued from page 8

**CM:** With such a patient load, how have you and your colleagues stayed well, or have you?

**TM:** You would think we will be the largest death population since we come in contact with COVID. You haven't heard any reports about ICU nurses dropping dead from COVID-19. *I can't even name one colleague who died from COVID-19, but I can call many colleagues who have been injured from the COVID vaccine.*

It was pretty refreshing to hear the Honorable Minister Louis Farrakhan talk about monoclonal antibodies during the “*Swan Song*” as the therapy he and Mother Khadijah Farrakhan took for COVID-19. In early 2021, I saw monoclonal antibodies used at the patient bedsides with tremendous results, not just in the patients but with my colleagues, who still take monoclonal antibodies as a prophylactic.

**CM:** What are monoclonal antibodies and what makes them effective?

**TM:** Monoclonal antibodies increase the body's ability to fight infections; these antibodies are cloned white blood cells that mimic the natural immune system. It is administered either through injection or infusion via an IV.

However, the new treatment at the bedside is convalescent plasma, also called survivor plasma; this blood is from people who recovered/survived COVID-19 and have antibodies to fight the virus. I have seen incredible results with this treatment, too. *Nurses have tested positive for antibodies and donated their plasma to patients,*

Patient getting tested for COVID-19. Photo: MGN Online

*bearing witness to what Minister Farrakhan said in the “Swan Song” of a herd/natural immunity that the Amish community has obtained, and we can do the same. We do not need their so-called vaccine.*

I was sick in December 2019, and All Praise Is Due to Allah, I haven't been ill since. I am not denouncing anything that will help us survive. We should have it all in our survival kit or storehouses. However, in my testimony of my walk in the shadow of death, I took no drugs, including supplements, because the one thing I know now as a nurse practitioner is that no regulatory agency body tests supplements for their efficacy. Anyone can make supplements, advertise their products on the market, and sell them to the public. It doesn't mean it does what it states.

I noticed an entire movement at the bedside with nurses focusing on nutrition, sleeping, stress, and exercise, which helped us sur-

vive. Because one thing we know for sure was that all our COVID patients had underlying illnesses such as obesity, diabetes, and hypertension, they were already ill or in a sick state, which left them susceptible to COVID-19. *Those trailers that you saw in New York, being loaded up with bodies—in hindsight, we plainly will say that many deaths were ventilator-related, not necessarily from COVID. I know the healthier we got and maintained, we had super powers against COVID-19.*

**CM:** Please share your views on Ivermectin, the number one medication publicly endorsed by the Honorable Minister Louis Farrakhan and the Nation of Islam.

**TM:** Ivermectin is one of the safest drugs to give. Ivermectin is

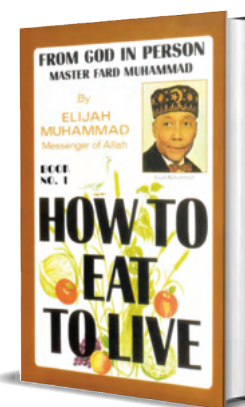

known to have a ‘wide therapeutic index,’ which in pharmacology means it has been proven safe in high doses and is well tolerated. Ivermectin should be given way before you get to an ICU; way before you get to hospital status—that's really frontline type of medicine. *COVID still has a survival rate greater than 98 percent.* The hospital survival rates changed the moment they stopped putting people on ventilators.

**CM:** What is your personal regimen to maintain your immune system and overall health?

**TM:** My own therapies have been: prayer, faithfulness with the bean soup, striving with “*How To Eat to Live*” (by the Honorable Elijah Muhammad), the Holy Qur'an, exercise, being kinder and patient to my loved ones and others (righteous conduct), charity, growing my food, making whole wheat bread, proper rest, less stress, gratefulness, and “*Our Saviour Has Arrived*” (by the Honorable Elijah Muhammad). I remind myself all the time what the Messenger

was instructed to tell us from Master Fard Muhammad: “*Tell them I love them.*” Also included are Final Call Radio, The Final Call newspaper, and having a Muslim household. Let's get a healthy family, and we can teach the world about our God, Who Came in the Person of Master Fard Muhammad, who gave us the “*How to Eat to Live.*” And we can save ourselves from COVID-19, obesity, diabetes, hypertension, stroke, heart attack, heart disease, high cholesterol, and cancer.

**CM:** Thank you.

# DePopulation Briefs

**"I say to those of us in America, we need to call a meeting of our skilled virologists, epidemiologists, students of biology and chemistry and we need to look at not only what they give us, we need to give ourselves something better."**

**—The Honorable Minister Louis Farrakhan, The Criterion**

## Who Would Do This to Their Own Children?!

### Depop Bernie Sanders:

**"I think especially in poor countries around the world, where women do not necessarily want to have large numbers of babies, and where they can have the opportunity, through birth control, to control the number of kids they have, is something I very, very strongly support."**

### American History of Medical Racism & Savagery

Dr. John Charles Cutler, one of the Tuskegee syphilis doctors, conducted a similar experiment on 241 inmates in the Terre Haute Federal Prison in 1941-1943, injecting various strains of gonorrhea into their penises.

In 1943-1946, American doctors under Cutler conducted experiments on 1,308 Guatemalans; they infected soldiers, prostitutes, prisoners, infants, and mental patients with syphilis and other sexually transmitted diseases, without their knowledge or consent. They were then encouraged to unknowingly spread the disease. Dr. Cutler's widow said that one of her husband's "passions" was population control. **Cutler became assistant surgeon general in 1958.**

**The COVID-19 VACCINES: "We Have No RIGHT to Trust Them."**

**"You are under assault, Black brothers and sisters. Why is the sperm count in Black men falling? Because of the food you eat, and the water you drink. The lead in the water in Flint is not an accident. It's in Cleveland that way; and if you're not careful, it's [t]here in Chicago. You can divert the water into the Black community, and then drop some stuff in the water. You're drinking the water, you're bathing with the water, and all of a sudden you are acting strange..."**

## Report: Severe COVID-19 is Rare in the Unvaccinated.

A research paper found that people who did not receive a COVID-19 "vaccine" had a lower rate of suffering a severe case of the virus amidst the pandemic.

The study relied on data from over 18,500 respondents across 175 countries. **Analysis revealed that individuals unvaccinated against COVID-19 reported fewer instances of hospitalization in comparison to their vaccinated counterparts.**

Data collected for the survey was analyzed by an international team of scientists. Many of the unvaccinated individuals included in the analysis opted for natural treatments such as **vitamin D, zinc, quercetin**, and drugs such as **ivermectin** and **hydroxychloroquine**.

The study also found that people unvaccinated against COVID-19 faced discrimination for their decision to keep their blood pure, with between 20 to 60 percent of people per country reporting being personal targets of "hate or victimization."

Similarly, a Koch Institute report assessing data from the German government found that 80 percent of cases of the "Omicron variant" occurred in fully vaccinated people in the country.

The study is so damning to the depopulation managers that MSN—a news website launched by vaccine promoter Bill Gates in 1995—initially covered the study, titling its article "**Severe COVID-19 'Rare' In Unvaccinated People,**" but then took it down since its publication.

## The Latest 'Vaccine' Tragedy: SADS—Sudden Adult Death Syndrome

Media outlets around the world have started highlighting a medical phenomenon called 'sudden adult death syndrome'—people dying with no sign of illness or underlying health condition. They simply collapse during the day or don't wake up in the morning.

## Malaysian Leader Exposes America's Depopulation Agenda

Former Prime Minister of Malaysia **Dr. Matabir Mohamad** whistle-blows the Global Depopulation plan called the "Trans-Pacific Partnership Agreement," which he says is a strategy led by the US to dominate the world economy:

**"Basically, it is about having a world government. We should abolish all states, all nations, all bodies but instead have only one-world government. And that world government is to be by certain people—elites. People**

**who are very rich, very intelligent, very powerful in many ways. They are the ones who will govern the world. There was not much talk about democracy or choice of leaders; instead, there was to be a government by these elites, who will impose their rules on everyone in this world. And for those who are unwilling to submit to them, there will be punishment.**

**"And the peace that we will get from this is the peace of the graveyard, because the intention also is to reduce the number of people in this world. At the time when the New World Order was enunciated, the population of this world was only 3 billion. The intention was to reduce it to 1 billion. Now the population of the world is 7 billion. There will be a need to kill many billions of people or to starve them to death or to prevent them from giving birth in order to reduce the population of this world."**

## Bill Gates: African Population is "The Problem"

**"The problem** is that the population is growing the fastest where people are less able to deal with it. So it's in the very poorest places that you're going to have a tripling in population by 2050.

And so their ability to feed, educate, provide jobs, stability, protect the environment in those locations means, they're faced with an almost impossible problem, **Northern Nigeria, Yemen, Chad.** And so what we need to do is take this aid generosity and this innovation and go into those places—offer the women better tools, where they want to space birthing or have a smaller family size, and improve health, because it's amazingly as children survive, parents feel like they'll have enough kids to support them in their old age. And so they choose to have less children.

2

**“How could we let the former colonial and slave master bring in vaccines for our people and we don't have scientists or laboratories to look at this and test it to see if it is what's on the label?”**

**—The Honorable Minister Louis Farrakhan**

## “Vaccine” Targets Reproductive Organs

There is mounting evidence indicating that the **Pfizer** COVID-19 “vaccination” has a devastating effect on fertility in women, causing pregnancy loss, and harming newborn babies. And now men are also experiencing fertility problems.

An Israeli study in the journal *Andrology* found that there was a **reduction in sperm count** equating to an average of 22% among samples from donors three months after participants had received a second dose of the Pfizer mRNA Covid-19 injection.

With official figures estimating over 500 million men may have been given the injection, it's easy to see how this study alone proves COVID-19 vaccination is going to lead to mass depopulation through infertility.

Further, the confidential Pfizer documents reveal that government and Pfizer officials knew that the contents of the Pfizer “vaccine” accumulate in the ovaries. They based this on their study of 42 male and female rats which measured how much of the “vaccine” spreads to other parts of the body such as the skin, liver, spleen, heart, etc. The rat study found that the **Pfizer injection accumulates in the ovaries** over time.

Official UK figures published by Public Health Scotland show that the number of women suffering ovarian cancer in 2021 was significantly higher than in 2020 and the 2017-2019 average.

## “Vaccine” Corner

The following passages are from *Fear of the Invisible: An Investigation of Viruses and Vaccines, HIV and AIDS*, by Janine Roberts:

**“The word ‘virus’ comes from the Latin for a poisonous liquid, and before that from the Sanskrit for the same. The hunt for them started when, towards the end of the 19th century, it was suggested that invisible living particles much smaller than bacteria might cause the epidemic illnesses for which no bacterial cause could be found. When the electron microscope found tiny particles in the blood serum of patients entering and leaving human cells, this was a Eureka Moment. The prediction was surely about to be proved true. These particles were assumed to be invading and hijacking our cells in order to reproduce. They were thus all condemned as poisons, as ‘viruses.’**

**“As more of these were searched for and found in sick people, many illnesses became blamed on them. They became the invisible enemy, the nano-terrorist we must fear. We were instructed that one of our first duties for our newborn children is to vaccinate them**

**against this dreaded foe. Thus was an ever-growing multibillion-dollar pharmaceutical industry created.**

**“But, as I have travelled through the science that underlies this industry, I have gradually learnt to ask questions....I have learnt from biologists that our cells naturally produce viral-like particles without being invaded or infected, both when healthy and sick.”**

**Wuhan Lab is the Source**

Those who dared to challenge the “fact-checkers” on the official narrative of the COVID-19 pandemic have had their posts censored, social media accounts closed, and they have been maligned as conspiracy theorists for daring to suggest that the unusual “virus” may have been the product of a laboratory in Wuhan, China.

It has now become evident that **Anthony Fauci's National Institutes of Health funded dangerous “gain-of-function” research in Wuhan**, a fact he initially tried to deny. This kind of mad scientist genetic manipulation of pathogens and diseases to cause them to be more deadly and contagious has been banned by many governments—including America.

This gain-of-function research was conducted at the **Wuhan Institute of Virology** by a man named **Peter Daszak** (right), who runs **EcoHealth Alliance**. Daszak received millions of dollars from **Anthony Fauci** for his Wuhan operation. Most scientists studying the “virus” now agree that the lab—and not a bat—is the likely source.

It also appears that the “leaking” of the “virus” was not a mistake, but a deliberate release into the population in order to advance a long-planned depopulation plot. Strangely, all governments acted in the exact same way—mandating a medically questionable set of measures, including lockdowns, masking, social distancing—all pumping up the fear necessary to push the kill shot “vaccines.” As Minister Jabril Muhammad wrote, “Members of a large orchestra do not accidentally play the same tune.”

## Masking Studies Continue to Show Absolutely No Medical Benefit

Scott Morefield of **Brownstone.org** reports that **“Belief in the power and efficacy of face masks has become a de facto religion....Indeed, the unabashed insistence that masks ‘work’ has become one of the most insane and evil lies in all of human history. Not only did it create a false sense of security that doubtless led to more infections than would otherwise had occurred, it also led to years of speech and developmental delays in children, untold disruptions of societal cohesion, millions of tons of useless and pointless medical waste in our oceans and landfills, massive psychological issues in countless people who still mask-up in the absurdest of places and situations to this day, and even actual medical harms that are just being uncovered.”**

Key research and data gathering are being conducted and released that continue to put a stake in the heart of forced masking. A University of Louisville study released in May 2022 found that mask mandates and greater compliance resulting from them “did not predict lower growth rates when community spread was low (minima) or high (maxima).” The study, which used CDC data across several seasons, found that **mask usage and mandates “are not associated with lower SARS-CoV-2 spread among US states.”**

## COVID early treatment pioneer Dr. Vladimir Zelenko has died of cancer at age 48

**Dr. Vladimir Zelenko** was an Orthodox Jew who successfully treated 6,000 COVID patients with ivermectin and hydroxychloroquine, losing just one elderly patient. Through his early treatments he **PROVED** that COVID-19 was easily treatable and that the vaccine-pushers had a Satanic agenda. He was open and very public about the evil we are facing, and thoroughly backed up **The Honorable Minister Louis Farrakhan** on this issue. We highlighted his work in the Depopulation Section of the August 31, 2021, edition of the *Final Call* in which he said this on children and the vaccine:

**“Look at the CDC, the statistics for children under the age of 18 that are healthy, the survival rate is 99.998 percent survival rate with no treatment .... So, if you have a demographic that has no risk of dying from an illness, why would you inject them with a poison death shot? ... [T]he only reason you would want to treat a child is if you believe in child sacrifice ... There is no need for this vaccine. There's actually no need for anyone [to get it].”**

As an observant Jew Dr. Zelenko saw COVID as a dedicated attack on humanity by a satanic force:

**“I really believe that God is testing every human being. And here's the test: Are you going to bow down to Me [God]? Are you going to ask for your protection, from Me? Are you going to take your fears and ask Me to help, or are you going to run to the idol of the vaccine of your governments, of despots and tyrants like sociopaths who want to be deities? There is nothing new under the sun. These people are no different than Pharaoh. They think they're God. And you're going to bow down to them? If you're going to bow down to them, let them protect you. Let's see how that's going to work out for you!”**
