

Depopulation Effort Intensifies:

Biontech Building New mRNA Vaccine Factory in Rwanda!

Despite the overwhelming rejection of their deadly COVID injections, vaccine maker BioNTech announced on June 22 that it had launched construction of the first manufacturing site for mRNA vaccines in Africa. The location is Rwanda's capital of Kigali. This is in spite of the fact that the first factory to produce COVID-19 vaccines in Africa, South Africa's Aspen Pharmacare, just announced in May that it has not received enough orders for its vaccines and is planning to stop production. We published an article in this newspaper where the president of Moderna publicly lamented the fact that 30 million doses of its vaccines went to waste because nobody wanted them. So why is the West still trying to force these shots on Africa?

This persistence on the part of the enemies of our liberation should concern all Black people. We cannot ignore the shocking efforts of U.S. Food and Drug Administration (FDA) when it recently begged a court to hide the results of the Pfizer-BioNTech vaccine trials from the public for the next 75 years! A judge refused their request. Now God is showing us that the so-called vaccine is not only dangerous and deadly as the Honorable Minister Louis Farrakhan told us it was—its makers were consciously and deliberately licensed to kill. The FDA approved this death, seeking to deceive the whole world think, especially Africa. They declared it safe when they knew otherwise. Pfizer-BioNTech and the government agencies it controls did not even properly conduct the “safety trials.” Two groups are chosen to participate in these trials—one gets the real drug, while the other gets a placebo. Then both groups are monitored for the health effects. But Pfizer cheated—they gave the placebo group the vaccines, effectively destroying any possibility to scientifically test their long-term safety or effectiveness. We are dealing here with wickedness and corruption at the highest level.

Despite their chicanery there is still hope that we can scientifically test these “vaccines.” Big Pharma, the West, and Bill Gates already know that even though the African people had an 80% infection rate of SARS-CoV-2 while only 6% had taken any vaccine, Africa had one of the world's lowest rates of hospitalizations and deaths from COVID-19. Big Pharma, the West, and Bill Gates already know that hydroxychloroquine (HCQ) and Ivermectin have been widely used in Africa for years to effectively fight malaria and river blindness. Ivermectin is overwhelmingly successful in defeating COVID-19. This is a widely-accepted fact in the world of science and medicine.

by Dr. Ridgely Abdul Mu'min Muhammad
NEWS ANALYSIS

Our fight is to keep these “vaccines” out of Africa, so that we can compare the countries that forced the vaccines on their citizens to the countries that did not take them. However, Big Pharma and the West do not want a true investigation of these experimental DNA-altering shots, because they already know that they are neither safe nor effective. In fact, studies now show these jabs actually enhance the infection of new variants to the SARS-CoV-2 virus.

America's history of treachery in Black Africa is well known, especially with respect to health. In 1998, the U.S. destroyed a pharmaceutical factory in the Sudan that was producing life-saving drugs like HCQ. Why don't America, Germany, and Israel help Sudan or some other African country build factories to produce HCQ and Ivermectin? Maybe President Muammar Gadhafi got it right when he told the United Nations in 2009: “Today there is swine flu. Perhaps tomorrow there will be fish flu, because sometimes we produce viruses by controlling them. It is a commercial business. Capitalist companies produce viruses so that they can generate and sell vaccinations. That is very shameful and poor ethics.”

Two years later he was savagely murdered by mercenary forces hired by the United States and NATO. On top of destroying Libya's pharmaceutical industry, the West bombed its huge irrigation systems designed to turn the Sahara Desert into one big oasis that could feed Africa. We know that the West has no interest in the African people, other than their elimination from the Earth. Europe, Israel, and America want Africa's valuable resources, including her oil and strategic minerals.

The Honorable Minister Farrakhan has warned us over and over for years that the notorious Henry Kissinger's Depopulation Agenda, revealed in 1974, is still U.S. policy. Therefore, whatever happens on the globe must be looked at

with this agenda in mind, so we will not be fooled by slinking devils with smiles offering a “helping hand.” Kissinger's National Security Study Memorandum 200, titled “Implications of Worldwide Population Growth for U.S. Security and Overseas Interests (NSSM200),” outlined the motive for the U.S. to get involved with population control in less developed countries:

“The U.S. economy will require large and increasing amounts of minerals from abroad, especially from less developed countries ... Whether through government action, labor conflicts, sabotage, or civil disturbance, the smooth flow of needed materials will

be jeopardized. Although population pressure is obviously not the only factor involved, these types of frustrations are much less likely under conditions of slow or zero population growth.”

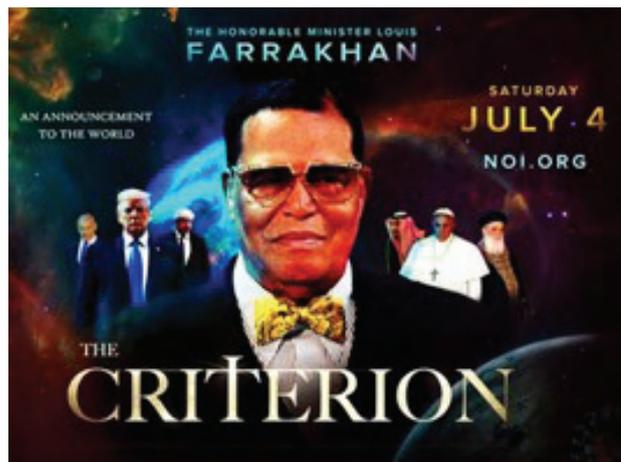

Kissinger also cautioned that they should hide their hand: “We must take care that our activities should not give the appearance to the less developed countries [that our] policy [is] directed against them ... Third World leaders should be in the forefront and obtain the credit for successful programs.”

This is exactly what we see in Rwanda today. Pfizer-BioNTech chose Rwanda as its first place to set up an African vaccine manufacturing plant. Israel's president Benjamin Netanyahu offered up the people of Israel to Pfizer BioNTech to experiment on with their new technology, but after a year and a half of data and booster after booster, Israel is finding out that these shots are neither safe nor effective. *The Times of Israel* recently reported that the number of COVID patients in serious condition in Israel has risen by 70% in one week—in spite of all their Pfizer jabs. Nevertheless, Israel has now got its best ally in Africa, Rwanda, to let BioNTech in to set up a base for producing and distributing these same kill shots disguised as vaccines to the rest of the continent.

We need to look carefully at Rwandan President Paul Kagame's long friendly relationship with Israel. In fact, on March 26, 2017, he became the first African president to address the annual conference of the American Israel Public Affairs Committee (AIPAC), showing his strong allegiance to Israel. This is the same man who was received with honors by then Israeli President Benjamin Netanyahu in 1996

after the 1994 genocide of the Tutsis. Satan thinks he has found a backdoor into Africa through the sellout leadership of Rwanda. Hopefully, the African people will not be fooled by this backdoor move and will continue to follow the instructions of Minister Louis Farrakhan given in “*The Criterion*”. His instructions were clear and concise: “**Don't let them vaccinate you.**”

If Africa can continue to stand up against this depopulation needle, she will provide a monumental service to humanity. In a previous article, we pointed to the history of the mighty African Tribe of Shabazz, and how it developed a very strong, robust immune system, which enhanced their ability to fight off this virus. So why not use this opportunity to do a real-world test between natural immunity as demonstrated by the Tribe of Shabazz in Africa and the “vaccine-induced immunity” claimed by the West's so-called vaccines? Leave the Africans alone so that the world can make a scientific comparison over time to assess the real value or danger of these so-called vaccines. Are these invaders from the West and their vaccines the saviors of humanity as advertised, or are they using bioweapons designed to cull the population by 2 to 3 billion people, as Minister Farrakhan has warned us? Think over it.

COVID Recovery: Reconstructing the Immune System and the Truth About Abortions

by **Charlene Muhammad**
National Correspondent
[@sischarlene](#)

Due to all of the lies being pushed by the United States Government regarding COVID, the so-called vaccines, new viruses, lockdowns, mandates, their policies and more, Dr. Rizza Islam, an independent researcher for over two decades, also a member of the Nation of Islam, affectionately known worldwide as “Brother Rizza,” has set out to conduct a digital class with Dr. Christina Parks, educator, researcher and cellular and molecular biologist with over 30 years’ experience. She gained widespread recognition following her appearance before the Michigan State Legislature on August 10, 2021.

The purpose of their class, entitled, “COVID Recovery: Reconstructing the Immune System and the Truth About Abortions,” is to not only expose the above wicked machinations, but to arm people with the facts they need to never fall for those lies again, Dr. Islam told The Final Call.

In addition, this fearless, dynamic duo said they even plan to delve into the area of abortions and how they not only relate to vaccines, but exactly how they are being used by the pharmaceutical industry. “This system is beyond wicked, and the people need to know!” insisted Dr. Islam.

Outlined below is what participants stand to gain from the highly-anticipated event, which is scheduled for July 27, 5-9 p.m. PST.

Dr. Parks noted the idea stems from Dr. Islam’s desire to help people understand that God designed the immune system to fight viruses, and that no vaccine or drug will ever mimic its complexity and amazing efficacy.

“It’s just a matter of making sure that you’re healthy, and that your immune system is healthy,” she stated.

“It was really on both ends, because we noticed exactly how heavy the censorship is, and also we know that it’s not going to die down anytime soon,” he said.

The highly sought-after influencer is among those that have been consistently censored and attacked by Satan, who has been actively working with his media and other minions, to prevent the American public from even knowing about some of the 14 treatments and therapies in the world that the Honorable Minister Louis Farrakhan revealed during the July 4, 2020, Message “The Criterion.”

According to Brother Rizza Islam, Instagram deleted his seventh page, several posts after he announced the COVID class on July 8. Collectively, all of his seven pages had over 1 million followers in total, and his first page had roughly 542,000 followers, as a point of reference, he said. Instagram has taken down his pages roughly every two months, he calculated.

As The Final Call has previously reported, on July 16, 2021, White House press secretary Jen Psaki, the U.S. Surgeon General, and President Biden announced the names of those voices being singled out for spreading truth about the dangers of the vaccine and the availability of successful treatments. Congress, in February 2021, had pressured Facebook, Twitter, and Google heads to remove the platforms of 12 private citizens. They were accused of creating 65 percent to 70 percent of “anti-vaccine” content on the internet. They have been labeled “problematic.”

“I’m definitely sure it was linked to the COVID class, because I wasn’t heavily posting about vaccines this time,” said Brother Rizza Islam. “It was mostly me posting about the depopulation agenda, and how the government is targeting our children, using the LGBTQ movement as a cover to help children go into genital mutilation, calling it gender transitioning,” he alleged.

Thus, he wanted it to be the “COVID Recovery Class,” dealing with how to resurrect, reorganize and possibly repair the immune system, specifically for the over 200 million people in America who took the shot, and the over one billion people who took at least one dose, he said.

Possibly, he elaborated, because people “don’t know what Satan has done with these shots entirely, and if there’s a way to repair the immune system, we want to delve into that scientifically.”

They will also discuss how the immune system works and how people can activate it, including some methods people may already be doing, said Dr. Parks. It is amazing how much science there is actually behind some natural, normal things that people do, but they might put off, such as fasting, she said.

“Hmmm. Where have we heard that before?” she questioned, rhetorically. “Fasting is really powerful, and scientifically, we know this now,” said Dr. Parks.

“That’s something that I’m going to talk about that might make you go back to some of those disciplines that you had laid by the wayside, and realize that they’re not just spiritual practices, but that God laid them on our hearts for a reason,” she added.

The greatest of Allah (God’s) remedy to treat illnesses and disease is detailed in the Honorable Elijah Muhammad’s life-saving text, “How to Eat to Live: From God In Person” (Books 1 and 2).

“He (Allah) has told me there is no cure in drugs and medicine. And this, the world is now learning. We can take medicine all of our lives until it kills us, but we are still ailing with same old diseases,” stated the Honorable Elijah Muhammad, in Book 2.

In addition, said Brother Rizza Islam, the four-hour class will include a Q&A segment, and also delve into how the vaccinations have targeted and attacked the immune system on cellular, molecular, and biological levels.

“There are so many layers to this that people need to know, and they have to be armed with proper information from those who are qualified and who have the integrity to stand on truth,” stated Brother Rizza Islam.

“I say to those of us in America, we need to call a meeting of our skilled virologists, epidemiologists, students of biology and chemistry and we need to look at

not only what they give us, we need to give ourselves something better,” said Minister Farrakhan during, “The Criterion.”

Dr. Parks has been working on an answer to His Divine Call.

She has started the Vaccine Injury Treatment Alliance, to gather the world’s best researchers in the area of COVID, to work on reversing the effects of some of the “most heinous injections ever known to man,” as she labels them.

During the class, she plans to discuss how she came to the knowledge that this issue was much bigger than a virus whether it was intentionally released or released by accident, she stated. She will also present scientific proof to reveal that there is a lot more going on with Covid than just a viral outbreak, she said.

“You really need to know what’s going on in order to be prepared for what’s coming. And part of that is learning not to just trust what they’re saying in the media, and to understand where the science is coming from, so that you can make the proper decisions for you and your family, what kind of treatments, how to boost your immune system ... and not be functioning out of a state of fear, or out of just reactivity, when whatever happens next comes next,” said Dr. Parks.

(Text the word IMMUNITY to 310-634-0790 to purchase tickets, \$100, to join this critical class; special discount for Registered members of the Nation of Islam.)

DePopulation Briefs

“Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine.”

—The Honorable Minister Louis Farrakhan, Swan Song

U.S. Government Policy: DEPOPULATION!

“There is a single theme behind all our work—we must reduce population levels. Either governments do it our way, through nice clean methods, or they will get the kinds of mess that we have in El Salvador, or in Iran or in Beirut.

Population is a political problem. Once population is out of control, it requires authoritarian government, even fascism, to reduce it....

“Our program in El Salvador didn’t work. The infrastructure was not there to support it. There were just too goddamned many people....

“To really reduce population, quickly, you have to pull all the males into the fighting and you have to kill significant numbers of fertile age females... ”

“The quickest way to reduce population is through famine, like in Africa, or through disease like the Black Death... ”

—Thomas Ferguson, State Department Office of Population Affairs. From interview published in the March 10, 1981, issue of the *Executive Intelligence Review*.

DEPOPULATION Round 2: WHO Preps World For Global Lockdown In Fall

The Bill Gates-funded World Health Organization is preparing to push the next round of lockdowns and is recommending governments re-implement the disastrous policies that destroyed world economies and killed millions.

Head WHO propagandist Tedros Adhanom said, “The emergency committee on COVID-19 met...and concluded the virus remains a public health emergency of international concern.”

American History of Medical Racism & Savagery

In the 1980s-90s, National Institutes of Health-funded researchers tested AIDS drugs on hundreds of “mostly poor or minority” foster children in 7 states, exposing them to drugs that were known to have serious side effects in adults and for which the safety for children was unknown. At least 48 studies were conducted under the program on foster children, from infants to late teens, many of whom suffered serious side effects, including a “disturbing” higher death rate “among children who took higher doses of a drug.”

Dr. CYNTHIA MCKINNEY Issues a Report Exposing Real Aim of “Vaccines”

There have been several high-profile vaccine scandals that have undermined public faith in vaccines. In 1955, more than 200,000 children were given a defective polio vaccine with live virus. Within a month of the first vaccination, paralysis was reported. After investigation, it was learned that ten children died, two hundred were paralyzed, and that there were 40,000 cases of polio.

It is known as the Cutter Incident, named after the laboratory in California to which the tragedy and scandal were attributed. It was later learned that the polio vaccine, itself, was contaminated with a monkey virus known as simian virus SV40.

...A generation later, in 1976, Guillain-Barré Syndrome (GBS) was associated with the vaccines for swine flu. In 2003, it was concluded that those who had taken the swine flu vaccine had an increased risk of developing GBS. Fifty-three deaths followed and now there are many more vaccinated individuals who suffer with GBS.

About a generation later, in the late 1990s, a Hepatitis B vaccine was linked to the development of Multiple Sclerosis, a neurologic disease. Still more tragedy followed subsequent vaccination drives for influenza type B, H1N1, and narcolepsy (which all led to more cases of GBS).

The 2013 recall of Gardasil, supposed to treat human papilloma virus did not alleviate concerns, but instead, enhanced them. And while the vaccine business rolls on, surviving suffering individuals are left to their families for care.

In 2005, President Bush asked Congress to pass liability protection for vaccine makers so that they could not be sued as punishment or accountability for their sloppy production lines or mistaken science that resulted in human suffering. The idea proffered

by some doctors that these were mistakes of science that must be tolerated for science to advance is roundly rejected by the kernel of families directly negatively affected by those medical/pharmaceutical mistakes and their growing global audience.

Robert Kennedy, Jr. and his Children’s Health Defense; Del Bigtree and his regular internet TV show, The Highwire; Louis Farrakhan and his organization, The Nation of Islam; and the millions of parents of vaccine-injured children who were misled by all of the relevant governmental authorities, (the CDC, FDA, HHS, and others) to take a vaccine that harmed rather than helped. Every one of these parents and their children has an ever-growing network of family, friends, coworkers, and more.

Their numbers and their united voices were finally heard when the documentary VAXXED and its sequel VAXXED II were released. No longer could the government blame the parents of vaccine-injured children. Ultimately, it became very clear that the health authorities in the U.S. had failed to protect the health of a huge number of U.S. families. This community formed the nucleus of a sub-culture in the U.S. who would work diligently to defy and expose any politician issuing any vaccination mandate and any health professional administering COVID-19 vaccines. Thus, the “pump” was primed, as it were, for the creation of a community of refuseniks who have exposed the U.S. government as a profiteer center for health care professionals who seem to have, long ago, forgotten their Hippocratic Oath. Even worse, they have done harm to others for personal profit...

The Question Nobody Will Ask:

If the person down the street is diagnosed with cancer, WHY SHOULD THE WHOLE NEIGHBORHOOD HAVE TO TAKE CHEMOTHERAPY?!

If the person down the street contracts COVID-19, WHY SHOULD THE WHOLE NATION GET “VACCINATED”? Let that infected person be treated with the many safe & effective treatments that have saved millions of lives (like IVERMECTIN)—and keep your deadly “vaccine” to yourself.

The Wilmington [NC] Messenger, 1898

ATTENTION WHITE MEN.

There will be a meeting of the White Men of Wilmington this morning at 11 o'clock at the Court House. A full attendance is desired, as business in the furtherance of White Supremacy will be transacted.

The COVID-19 VACCINES: “We Have No RIGHT to Trust Them.”

2

“Dr. Anthony Fauci, Bill and Melinda Gates, you want to depopulate the Earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die?”

—The Honorable Minister Louis Farrakhan

US Gives Pfizer \$3.2 Billion for Dangerous & Ineffective COVID Vax

The multiply-boosted-yet-twice-COVID-infected Anthony Fauci just admitted that the jabs “don’t protect overly well, as it were, against infection...” Yet the U.S. Department of Health and Human Services, in partnership with the Department of Defense, agreed to purchase another 105 million doses of Pfizer’s COVID-19 shot—for \$3.2 billion of your tax money. The contract is intended to supply shots for a coming injection campaign this fall and includes options to purchase up to 300 million doses.

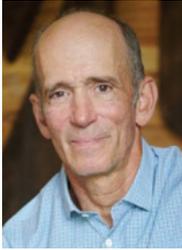

Fauci in mask he admits is useless

Mass Vaccination Triggers Spike in Cases, Deaths

Dr. JOSEPH MERCOLA (in photo) reports that researchers have confirmed that COVID cases have risen sharply in nearly every country that has launched a mass vaccination campaign:

- Cambodia began its vaccination campaign in early February 2021 after having compiled zero fatalities; after it started its vaccination program, the deaths started piling up.
- Salk researchers confirmed that the main damage from COVID is caused by the spike protein, *not the virus*; if that’s the case, then why are we injecting people with vaccines that teach their cells to make spike proteins?
- 118 million Americans have now been injected with a clot-generating spike protein; no one knows how long these potentially lethal proteins remain trapped in the lining of the blood vessels or what damage they might eventually do.

Mass vaccination was supposed to reduce the threat of COVID but—in the short term—it appears to make it much worse. Why have eight “fully vaccinated” members of the New York Yankees tested positive for COVID?

According to Dr. Mercola: “It’s all a big shell game. They’re gaming the system to make it look like the vaccines are stopping infection when the evidence proves the opposite...[T]he FDA KNEW that vaccinated people were more likely to contract COVID... but they approved the vaccines anyway?!? Is that criminal negligence or just plain old stupidity?”

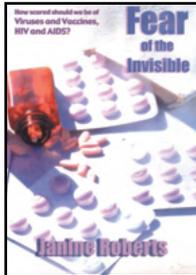

Vaccine Corner

The following passages are from Fear of the Invisible: An Investigation of Viruses and Vaccines, HIV and AIDS, by Janine Roberts:

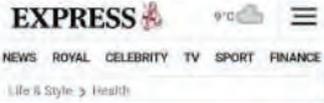

“Scientists like Barbara McClintock, who won a Nobel Prize for finding that cells operate with intelligence and seek to repair themselves, have given us a very different understanding of the particles they make. We now know that our cells create multitudes of tiny transport particles (vesicles) to carry the proteins and genetic codes needed within and between cells. The ones that travel between cells—those our cells use to communicate with each other—are puzzlingly just like those that we have long blamed for illnesses.

“It now seems that we may have misconceived the virus; that most of them could well be simply inert messages in envelopes carried from cell to cell. In the last ten years scientists have begun to call them ‘exosomes,’ ‘particles that leave the body’ of the cell, removing the inference that the word ‘virus’ carries, of them being dangerous by nature.”
