

# Illegal Collusion Between Government and Big Tech Exposed

by Dr. Joseph Mercola  
Mercola.com

In a September 1, 2022, article, the *Post Millennial* reveals how federal officials in the Biden administration have held secret censorship meetings with social media companies to suppress Americans' First Amendment rights to free speech, and to ban or deplatform those who share unauthorized views about COVID and vaccines.

The evidence for this comes out of a lawsuit brought by the New Civil Liberties Alliance and the attorneys general of Missouri and Louisiana (Eric Schmitt and Jeff Landry) against President Biden, filed in May 2022.

During the discovery process, the plaintiffs sought to identify "all meetings with any social media platform relating to content modulation and/or misinformation," which is how we now know that such illegal meetings did, in fact, take place.

Monthly, a Unified Strategies Group (USG) meeting took place—and may still be taking place—between a wide variety of government agencies and Big Tech companies, during which topics to be censored and suppressed were/are discussed.

Censored topics included stories involving COVID job refusal, especially those involving military refusals and consequences thereof, criticism against COVID restrictions and their effects on mental health, posts talking about testing positive for COVID after getting the jab, personal stories of COVID job side effects, including menstrual irregularities, and worries about vaccine passports becoming mandatory. According to the New Civil Liberties Alli-

Dr. Joseph Mercola

ance:  
"... scores of federal officials ... have secretly communicated with social-media platforms to censor and suppress private speech federal officials' disfavor. This unlawful enterprise has been wildly successful.

Under the First Amendment, the federal government may not police private speech nor pick winners and losers in the marketplace of ideas. But that is precisely what the government has done—and is still doing—on a massive scale not previously divulged.

Multiple agencies' communications demonstrate that the federal government has exerted tremendous pressure on social-media companies—pressure to which companies have repeatedly bowed ...

Communications show these federal officials are fully aware that the pressure they exert is an effective and necessary way to induce social-media platforms to increase censorship. The head of the Cybersecurity and Infrastructure Security Agency even griped about the need to overcome social-media companies' 'hesitation' to work with the government ...

This unlawful government interference violates the fundamental right of free speech for all Americans, whether or not they are on social media. More discovery is needed to uncover the full extent of this

regime—i.e., the identities of other White House and agency officials involved and the nature and content of their communications with social-media companies."

Jenin Younes, litigation counsel for the New Civil Liberties Alliance added:

"If there was ever any doubt the federal government was behind censorship of Americans who dared to dissent from official COVID messaging, that doubt has been erased. The shocking extent of the government's involvement in silencing Americans, through coercing social-media companies, has now been revealed ..."

## Federal Agencies Involved in Free Speech Suppression

Documents obtained so far have identified more than 50 federal employees across 15 federal agencies, who participated in these censorship meetings or otherwise engaged in illegal censorship activities. This includes officials from:

The Cybersecurity and Infrastructure Security Agency's (CISA) Election Security and Resilience team

Department of Homeland Security's (DHS) Office of Intelligence and Analysis

The FBI's foreign influence taskforce

The Justice Department's (DOJ) national security division

The Office of the Director of National Intelligence

The Office of the Surgeon General

The Census Bureau

The Food and Drug Administration (FDA)

## Big Tech Companies Involved in Government Censorship

On the private industry side, notable tech participants in the censorship meetings include:

Google, Facebook, Twitter, YouTube, Reddit, Microsoft, Verizon Media, Pinterest, LinkedIn and Wikimedia Foundation

While some social media companies may have “hesitated” to censor on the government’s behalf at times, Facebook was certainly an eager beaver from the get-go. As early as February 2020, Facebook CEO Mark Zuckerberg was in contact with the State Department, offering its services to help “control information and misinformation related to coronavirus.”

## Biden Administration’s ‘Executive Privilege’ Denied

As you might expect, the White House has not cooperated with discovery and have fought to keep communications secret—especially with regard to Dr. Anthony Fauci’s correspondence—claiming all White House communications as “privileged.”

However, executive privilege does NOT apply to external communications, so the plaintiffs called on the U.S. District Court for the Western District of Louisiana to “overrule the government defendants’ objections and order them to supply this highly relevant, responsive and probative information immediately.”

September 7, 2022, Judge Terry Doughty did just that. The Biden administration’s claim of executive privilege was rejected and Doughty ordered the White House to hand over any and all relevant records. That includes correspondence to and from Fauci, White House press secretary Karine Jean-Pierre and many others. According to the judge’s

order, they have three weeks to comply.

## Examples of Illegal Government Censorship

On Twitter, Missouri AG Schmitt has shared a long list of examples of government censorship, including one document in which Clarke Humphrey, COVID-19 response digital director at the White House, asked Facebook to take down the Instagram account “anthonyfauciofficial,” a parody account dedicated to making fun of Fauci. Facebook complied.

Schmitt also shared emails between a senior Facebook official and the surgeon general, stating, “I know our teams met today to better understand the scope of what the White House expects from us on misinformation going forward.” This email came on the heels of the surgeon general’s July 2021 “misinformation health advisory.”

The CDC also coordinated with Facebook, providing them with talking points to debunk various claims, including the claim that spike protein in the COVID shots is dangerous and cytotoxic. In a July 28, 2021, email, a CDC official provided Facebook with the following counter-narrative, taken straight from the “How mRNA Vaccines Work” section on the CDC website:

*“Messenger mRNA [sic] vaccines work by teaching our cells to create a **harmless spike protein** ...”* (Emphasis in the original.)

Fast-forward to mid-June 2022, and the CDC was suddenly less sure about the harmlessness of the spike protein.

Up until then, the words “harmless spike protein” had always been bolded, but in this June revision, they removed the bolding, along with an entire section in which they’d previously claimed that mRNA was rapidly broken down and spike protein did not last more than a few weeks in the body. Clearly, the truth was catching up to them and certain lies were getting too risky to hold on to.

CISA also reached out to Google, Meta (Facebook’s parent company), Microsoft and Twitter for help, shortly after the DHS’s Disinformation Governance Board was announced. Fortunately, public out-

cry put an end to this Orwellian Ministry of Truth before it got started.

## When Censorship Becomes Election Interference

According to The Washington Times:

*“Details about the Biden administration’s conduct raised the hackles of Republican lawmakers. ‘Confirming that this is the most dangerously anti-free speech administration in American history AND that Facebook ... is nothing but an appendage of the deep state,’ Sen. Josh Hawley, Missouri Republican, said on Twitter as he shared news of the court filing.”*

Other lawmakers are also getting involved. In an August 29, 2022, letter to Attorney General Merrick Garland and FBI Director Christopher A. Wray, Republican Sens. Charles E. Grassley of Iowa and Ron Johnson of Wisconsin requested records of the government’s contacts with social media companies to ascertain whether the FBI and/or DOJ did, in fact, instruct them to censor information about the Hunter Biden laptop scandal by falsely referring to it as “Russian disinformation.”

Zuckerberg has also been asked to provide any correspondence involving the censorship of the Hunter Biden laptop story, especially as it pertains to the FBI’s instructions to censor this political hot potato—something he openly admitted in a recent Joe Rogan interview.

## Lawmakers Pursue Legislation to Penalize Gov’t Censorship

Three Republican House Representatives on the House Oversight and Reform, Judiciary, and Commerce committees—Reps. James Comer of Kentucky, Jim Jordan of Ohio, and Cathy McMorris Rodgers of Washington—have also introduced the Protecting Speech from Government Interference Act (HR.8752), aimed at preventing federal employees from using their positions to influence censorship decisions by tech platforms.

The bill would create restrictions to prevent federal employees from asking or encouraging private entities to censor private speech or otherwise discourage free speech, and impose penalties, including civil fines and disciplinary actions for government employees who facilitate social media censorship.

While the U.S. Constitution clearly forbids government censoring and restricting free speech, HR. 8752 could be a helpful enforcement tool, as people might tend to think twice when they know there’s a real and personal price to pay.

## Social Distancing? They Just 'Made It Up'!

**Dr. Paul Alexander (left),** a former official at the Department of Health and Human Services (HHS), is speaking out about what he witnessed in the top echelon of the U.S. government "health" system.

Here he recounts a conversation he had at the beginning of the *plandemic* with the then head of the CDC, **Dr. Robert Redfield**:

"So I asked him, I said, 'So, Dr. Redfield, can you tell me, can I get an example of the science and the studies that the CDC used to make that social distancing six feet rule?' He had come to our office to have a discussion with a couple of my bosses. And I was there in part of the meetings. So I was walking with him after the meeting, and he looked at me—and we got along well—and he chuckled and he said, 'Paul, science'—this is paraphrasing what he said— '*Science; there's no science; we made it up.*'

"And I was stunned. I stood there and I looked at him and said, 'Dr. Redfield, what do you mean *made it up*?' And, like, I was laughing. And he said, '*Well, some people talked 12 feet, some said 9, some said 1; some countries talked about 3 feet; it looked like 6 feet would have worked, so we went with 6 feet.*'

"I was so stunned and I couldn't understand how the United States, we made this 6-foot policy. *Businesses closed forever because of this 6-foot policy. People couldn't hold on in their businesses to have 6 feet between the 12 chairs that they had in their restaurant—they had to close. And some of those business owners self-harmed. We knew, because the data was coming from the states up to our office at the HHS first before we [sent] it up to the White House. And I can tell you they have business owners that committed suicide, because of that 6-foot rule.* It eventually destroyed their lives and their livelihood.

"Even [Pfizer board member] **Scott Gottlieb**...I heard him say that once in a press release recently, more recently, that the 6-foot rule was arbitrary and just made up. So I was vindicated because that was the fact. And it's really shocking that the CDC made policy like that that affected lives—it was not based on science."

EDITOR'S NOTE: During an appearance on CBS's "Face The Nation," Dr. Scott Gottlieb, who was also the former commissioner of the Food and Drug Administration (FDA), said of the six foot rule that destroyed so many lives and businesses: "Nobody knows where it came from." Confirming Dr. Alexander, Gottlieb said the "6-foot rule" was "arbitrary" and "a perfect example of sort of the lack of rigor around how CDC made recommendations..."

"America's scientists of war conduct dreadful experiments on how best to kill human beings by the millions and wipe out the life of whole continents.

"These are the days of fulfillment of prophecy of not one, but of many calamities. But in all of these preparations of the destruction of human life by the devil...Allah (God) too has plans to save His people."

## Vaccine Corner

The following excerpt is from *How to Raise a Healthy Child... In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

### WHY PEDIATRICIANS ARE DANGEROUS....

Despite all this evidence of negative effects from pediatric care, the myth persists that American children enjoy better health care because of our abundance of pediatricians. That belief is wrong on two counts. First, infant mortality statistics reveal that American children are less healthy than those in many other developed nations that have few pediatricians. They're even less healthy than children in some of the underdeveloped countries. Second, the reason our children are less healthy may well be *because* of our abundance of pediatricians.

Despite evidence to the contrary, public health policy in the United States is based on the premise that access to care determines the health of a population. Doctors have succeeded in convincing politicians of this, even though they can't prove it. I believe that as long as emergency medical services are available, access to *routine* medical care probably has a negative effect on health. We've seen it happen in California, Saskatchewan, Israel, and elsewhere: *call a doctor's strike and the death rate goes down!*

### KEY TO HEALTH: STAY AWAY FROM DOCTORS!

The best way to raise a healthy child is to keep him away from doctors, except for emergency care in the case of an accident or an obviously serious illness.... [T]he "well-baby visit" [is] a cherished ritual of pediatricians that enhances their income but does nothing constructive for your child.

## 'Booster' Tested on 8 Mice. Now YOUR TURN

U.S. "health" authorities approved Pfizer's latest "booster," potentially rolled out to hundreds of millions of people with the associated coercion and mandates. Yet this "emergency" approval was based on a study of 8 MICE—no human trials at all! Moderna also used mice but has not disclosed the number of mice used. 8 MICE, 330 MILLION GUINEA PIGS.

## Letter From A Well-Educated Nurse

### To whom this may concern:

Among all the vaccines I have known in my life (diphtheria, tetanus, measles, rubella, chickenpox, hepatitis, meningitis and tuberculosis as well as flu and pneumonia vaccines), I have never seen a vaccine that forced me to wear a mask and maintain my social distance, even when fully vaccinated. I had never heard of a vaccine that spreads the virus even after vaccination. I had never heard of rewards, discounts, and incentives to get vaccinated. I never saw discrimination for those who didn't accept vaccination; no one would try to make you feel like a bad person. I have never seen a vaccine that threatens the relationship between family, colleagues and friends.

I have never seen a vaccine used to threaten livelihoods, work or school, one that would allow a 12-year-old to override parental consent. Including all the vaccines I listed above, I have never seen a vaccine like this one, which discriminates, divides and judges society. *It's a powerful vaccine. It does all these things except IMMUNIZE!* If, fully vaccinated, we still need a booster dose, still need to get a negative test, still need to wear a mask and still wind up in the hospital, it is time for us to admit that we've been completely deceived.

Thank you for your time, Christine, RN

## King of Depopulation

Long ago, Prince Charles, now Britain's new monarch, warned the world what he would do if he were king. Speaking at Climate Week 2020 Prince Charles said: **"We've so degraded natural systems, ecosystems, biodiversity, that it's becoming increasingly impossible for nature to sustain us.... At the moment it's all take, take. Now we've reached the situation where we really need four planets like earth to survive or provide enough for everybody."**

He said that he sees many environmental disasters and that **"we can no longer go on like this, as if there was no tomorrow and no ultimate reckoning for our abuse of nature.... So what do we do? Without doubt we must now put ourselves on a war-like footing, approaching our action from the perspective of a military-style campaign. That way, working together, we can combat this most grave and urgent challenge."**

In this 1992 photo, Prince Charles stands with President of Czechoslovakia Vaclav Havel (l), and the current driver of the world plandemic, Klaus Schwab (c) of the World Economic Forum.

**Prince Philip** (left), the recently deceased father of the new "king," offered his thoughts on the world's "most pressing problem" and what needed to be done:

**"Human population growth is probably the single most serious long-term threat to survival."**

**"We're in for a major disaster if it isn't curbed—not just for the natural world, but for the human world. The more people there are, the more resources they'll consume, the more pollution they'll create, the more fighting they'll do. We have no option. If it isn't controlled voluntarily, it will be controlled involuntarily by an increase in disease, starvation and war."**

More directly, Prince Philip is quoted as saying something that sounds very much like a royal gain-of-function lab-leak:

**"In the event that I am reincarnated, I would like to return as a deadly virus, to contribute something to solving overpopulation..."**

It is likely that "King Charles" will use the power of the British throne to pursue and promote the longterm objectives of depopulation—by any means necessary.

## DePopulation—All Systems GO! U.S. Life Expectancy Drops To Lowest Levels Since 1996

The National Center for Health Statistics reports that the average life expectancy for a child born in 2021 is 76.1 years old, **a decline of 2.7 years** from 2019 data.

## Biden's DEPOPULATION Trick Bag

The Government has a real dilemma: It needs to convince the unjabbed that the jab works in order for them to get their first two doses, whilst at the same time convince the jabbed that they don't work in order to get their boosters! Let that sink in for a minute.

## VACCINE PASSPORTS: The New 'Slavery System'

Banker **Catherine Austin Fitts** discusses the hidden danger of the system that is quietly being put into place—the **VACCINE PASSPORT**:

Catherine Austin Fitts

**"Vaccine passports or Digital I.D. Wallets or whatever name they call it—If it snaps into place with an all-digital financial system including CBDCs (central bank digital currency), that will convert our home, our car, and our communities into digital concentration camps. And I don't use that term lightly."**

**"At that moment there will be no hope of building anything. We will have entered into a slavery system in which a handful of the most powerful people in the world can strip you and I of our assets, of our children, and control literally every aspect of our life—where we go, what we read, what we say, and what we eat. And of course as you know, they are planning insects [as food] and synthetic food."**

**"We have one—maybe two—years to stop it. If we don't, most of what we are discussing today will be moot. So, we need to be designing local currencies. But not for digital concentration camps—we need to make sure that doesn't happen."**

America **APPEARS** to be relaxing its depopulation restrictions in the face of the people's massive distrust of the government and its repressive "pandemic" actions (and upcoming elections), but many states have put in place the technology necessary to implement a Proof-of-Vaccination system, described by Ms. Fitts.

## American History of Medical Racism & Savagery

Between 1992 and 1997 **Dr. Gail Wasserman of Columbia University**, a Jewish psychiatrist, conducted several studies using the now-banned drug fenfluramine on at least 126 Black boys between the ages of 6 and 10. She was attempting to establish a genetic link between Black males and violence. She targeted the younger brothers of non-white boys who had previously been arrested. Wasserman said, **"It is proper to focus on blacks and other minorities as they are over-represented in the courts and not well studied."**

See Harriet A. Washington, *Medical Apartheid: The Dark History of Medical Experimentation on Black Americans from Colonial Times to the Present*

## Video: Israeli Health Officials Covered Up Serious Problems With Pfizer "Vaccine"

**By way of deception**, the Israeli government concealed damning data about serious damage caused by the Pfizer "vaccine." A leaked video shows how Israeli health officials privately planned to falsely sell the public a "safe and effective" vaccine they knew was ineffective and dangerous.

This matters to Americans because U.S. health officials have openly and publicly stated that they "follow the science" from Israel and its COVID-19 policies. **Dr. Anthony Fauci**, for instance, said to the *Times of Israel*, "I use Israel as an example of what can happen when you effectively vaccinate a substantial proportion of the people." When it comes to coronavirus vaccines, he said, "Israel is where you wanted to be."

Pfizer CEO Albert Bourla made an exclusive "deal" with Israel's Prime Minister Benjamin Netanyahu to distribute the Pfizer DePop poison to Israeli citizens.

The *Washington Post* quoted a top CDC official who asked, "Why are we dependent on Israeli public health data?" And the *New York Times* reported that U.S. regulators recommended "booster shots" for elderly Americans "based heavily on data from Israel..."

But the leaked video shows that the data they presented publicly directly contradicted what the Israeli scientists and health officials discussed privately. The researchers warned that "they should think carefully about how to present the researchers' findings to the public because they posed a **potential legal risk**, as the findings contradicted [their] claims that serious side effects are rare and short-term."

In the video researchers noted **"the recurrence or worsening of a side effect following repeated doses of the vaccine..."** and "that their findings indicate that—contrary to what we were told so far—in many cases, **serious adverse events are long-term**, that last weeks, months, a year, or even more, and in some cases—ongoing, so that the side effect still lasted when the study was over."

Vaccine researcher **Steve Kirsch** wrote: **"This is a level of corruption that is unprecedented. The atrocities here are clear-cut.... Everyone should be speaking out and calling for a full investigation and fully evaluating the safety data collected by the Israel government."** [<https://stevkirsch.substack.com/>]
