

# EXPOSED! The Scientific Assault on the Black Community: Part 2

## The Final Call's Exclusive Interview with Dr. Paul Alexander, Scientist, Epidemiologist and Former White House Advisor

by Charlene Muhammad  
National Correspondent  
@sischarlene

Dr. Paul Alexander Photo: Youtube

We showed the government agencies and White House officials. They didn't care.

### Dr. Alexander: 'Masks Are Junk'

Then they started to shut the society down and mandate masks. You tell them that Dr. Paul Alexander said every single blue mask is junk. Every time you wore it from day one, they knew who you were. They knew when you walked around in the mask, you were just being a fool. It doesn't work. They know it. It's just theater, never worked. And it all culminated in the vaccine. They did all of this, and they dangled the vaccine and your freedom in front of you and said,

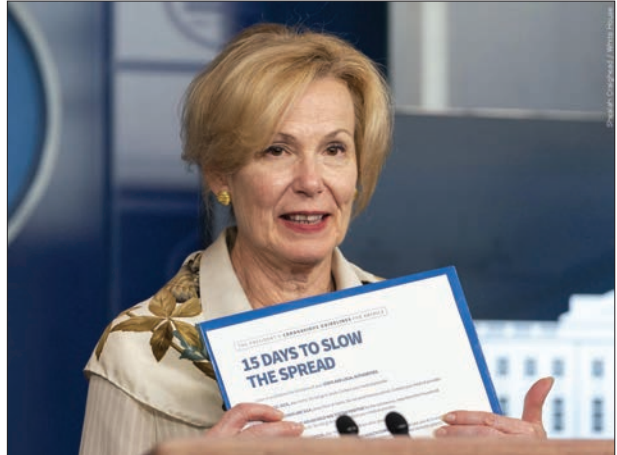

"Well, you know what, you take this vaccine—Pfizer and Moderna, AstraZeneca and Johnson & Johnson—you get your freedom."

*Around June/July 2021, people who were "vaccinated" in January/February 2021 were told, 'Sorry. Put back on your mask,' because the shots didn't work, recounted Dr. Alexander.*

You were right to question things. But they made us suffer for two-and-a-half years ... I've published in the American Institute of Economic Research, the Brownstone Institute; I've published prolifically there on failures of the lockdowns, failures of the school closures, failures of the masks, all of the mandates. We showed that everywhere that you implemented a mask mandate in the United States—every state, any city—infections spiked ... Mask mandates are just junk, junk science. And the reality is we realized very early on that the push by Fauci and Birx on that podium when Trump would bring them out—they would just speak their scientific junk. Look, I worked in that administration, and I am part of the early treatment and part of all of the vaccine research groups globally... But I'm also a very blunt matter-of-fact person.

Dr. Anthony S. Fauci, Director of the National Institute of Allergy and Infectious Diseases and former member of the White House Coronavirus Task Force, addresses a briefing on the latest information about the Coronavirus, Jan. 31, 2020. Photo: MGN Online

Ambassador Dr. Deborah Birx, former White House Coronavirus Task Force Response Coordinator, Mar. 23, 2020. Photo: MGN Online

Dr. Paul Alexander is a Trinidadian academic scientist, with extensive experience working with the CDC (Centers for Disease Control and Prevention), HHS (U.S. Department of Health & Human Services), FDA (U.S. Food and Drug Administration), the White House COVID-19 Response Team, and other agencies and organizations.

Dr. Alexander spoke about the many lies propagated by government officials, vaccine companies, and the mainstream media; the COVID PCR test fraud; the failures of masks, lockdowns, school and business closures; and more. [Interview edited for clarity and length.]

### Dr. Alexander on the Myth of Asymptomatic Transmission [this refers to an infection that has not manifested in the body in the form of symptoms such as sniffles, coughing, fever, etc.]

We found out very early on that this was about vaccines. We knew the "asymptomatic transmission" was a lie. We said so. I wrote about it. Dr. Anthony Fauci and other government officials were lying. There's no such thing. It's garbage ... We couldn't find one case ...

### Dr. Alexander on the PCR COVID Test

We showed that the PCR test was oversensitive ... We were even showing that about 95% of all of these "positive cases"—spooking Trump, spooking the world—all of these infections were a lie! Ninety-five percent to 97% of the so-called infectious cases were false-positives. We closed universities and schools and businesses down, knowing—Fauci and Dr. Deborah Birx knew—the PCR test was not a proper diagnostic test. ... You are not picking up COVID virus. You're picking up old coronavirus, common cold coronaviruses, even flu. You're picking up viral dust, fragments, not SARS-CoV-2.

### The Pandemic Response: 'A Complete Failure'

We showed government officials the science—that vaccinated people were becoming infected and spreading back in July of 2021. Why? Because, we told them, first of all, all of the mRNA platforms failed. Every single time they studied this platform, the mRNA gene platform in the animal model, the animals died. The animals died! Liver failure, kidney failure—the animals died! The pharmaceutical industry couldn't even get approval to move forward.

My family didn't take the vaccine. I ensured that. But they brought it to you. Those of you

Continued from page 8

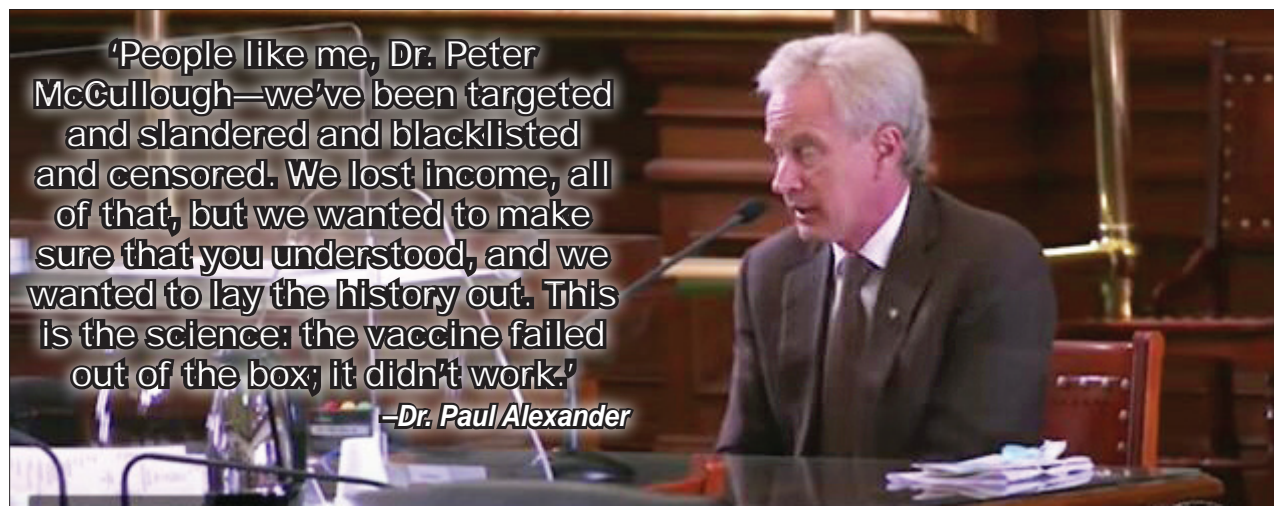

who fell for it, the problem is we kept telling you ‘No.’ But we were blocked out from the legacy media ... And people like me, Dr. Peter McCullough—we’ve been targeted and slandered and blacklisted and censored. We lost income, all of that, but we wanted to make sure that you understood, and we wanted to lay the history out. This is the science: the vaccine failed out of the box; it didn’t work.

They knew that it didn’t work. Pfizer, Moderna knew that. Had they said what the real effectiveness was, you would have said, “Well, wait. Why would I take a vaccine which would give me less than 1% absolute risk benefit, that skews towards harm? I might have toxic side effects from the vaccine: I’m hearing about myocarditis and pericarditis, etc.” So, they have all of these burdens to take this vaccine with just a very modest, almost zero, benefit. “I don’t want this vaccine.” But they lied to you ... And that’s what the pharmaceuticals do to you all the time ... All of it is a lie!

We all will come to understand one day, that the pandemic response was a complete failure, everything about it. Everything! Every time you kept your child out of school, every time you masked them, every time you listened to the garbage that the schoolteachers and the administrators said, it was a failure—junk. And people like me—actual scientists—were slandered and smeared and attacked and pilloried and fired because we said NO! I’m not going to go along with it. I’m going to tell the people the truth. And yes, we took hits! But the truth is still the truth, and now you’re beginning to see the effect.

## Truth about the Centers for Disease Control (CDC)

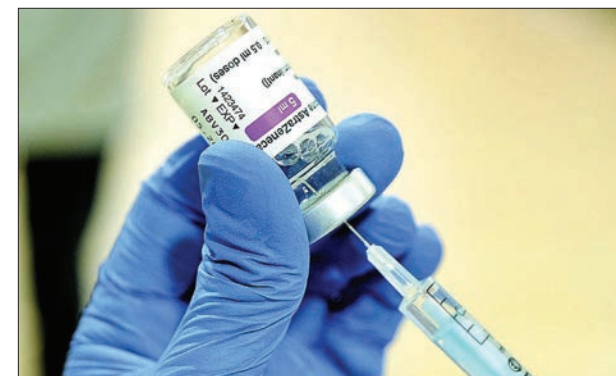

The CDC is not a public health agency. It has become a political agency. It works for the government. It bends the science and twists science and omits the science and lies in the science in their reports and in their guidance, depending on who they support, and who’s giving them funding and funds and more funds. And when the CDC issues some statement, that’s not a law. That’s not a binding policy or a legal thing to do. Since it’s a “guidance,” generally what I say is guidance is guidance. Do I have to follow it? I don’t have to follow it. The public thinks that all of these agencies are right, and they see the doctors following the CDC, but nobody stops to read and to see the garbage that they produce.

## Childhood Suicide linked to U.S. Government’s “Flat Wrong” Pandemic Response

There is data by the thousands across America that came from all different states. The media in Washington made an arrangement across the board, that none of the media—ABC, NBC, CNN—none of them would report it. Why? Be-

cause when that data was coming in, it startled them: because of the lockdowns and the school quotas, children across America were hanging themselves. Parents found their children across ethnicities—Black, White, whomever—took their lives, in their bedrooms. That’s what Fauci and Birx and the CDC did to America! And it didn’t want the public to know, so the media locked it down and covered it up.

...I’m just telling you what was taking place. Pres. Trump was on that podium, fighting the unions and the teachers and cities to open schools. That was my job, too. I was behind the scenes, pounding away, devastating them with the science... The problem is that they covered it up, because had they released the news that people’s children were hanging themselves, Trump would have looked good ... So, they decided nobody will know, but I’m telling you, I’m telling you. Parents beat their children senseless, physically abused their children, sexually abused children, people in their homes. That’s the true legacy of this. It wasn’t captured or recorded or reported, because normally those things get flagged first in school. But we did catch it, tens of thousands suffered. That was their legacy.

# DePopulation Briefs

"Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine."

—The Honorable Minister Louis Farrakhan, Swan Song

## Florida Surgeon General Talks Big Pharma, Gov't Corruption

Florida surgeon general **Dr. Joseph Ladapo** was recently interviewed by **Del Bigtree** for the weekly *The Highwire* program (thehighwire.com).

**Dr. Ladapo:** The pharmaceutical companies—I had no idea how corrupt these companies were before the pandemic....[T]his whole pandemic has prompted me to just look more closely. But basically there's a string of history of these pharmaceutical companies clearly—it's so clear to me now—that they have one god [and] that god is money and profit, and it is not health, absolutely it's not health. And they make their decisions from the most base

Florida Surgeon General Dr. Joseph Ladapo and The Highwire's Del Bigtree.

and disgusting place that any entity could make its decisions. So how can you trust organizations like that? You can't trust them. You've got to regulate them. You need to double-check, triple-check, quadruple-check what they're doing. And you need to have boundaries around them. So I have less confidence in really everything that they're involved in now.

**Del Bigtree:** What would need to be changed at the CDC, the NIH, the HHS...?

**Dr. Ladapo:** I do think you need a purge of some of the, maybe a lot of, the individuals, particularly in leadership positions who think that it's more important to have a specific message than to be aligned with [the scientific] data. And even at lower levels, I think we could pitch it as "We can leave on friendly terms. This is a new mission. If you're not on board with this new mission, then we'll find a way to—you ought not be part of our organization. We've got nothing against you. This is what we're doing now." And I think that's important and I hope that that happens soon...

Dr. Fauci—people don't even realize that guy, to the best of my knowledge, he's got no training in epidemiology—he's got no training at all....He's got no training in health policy. Dr. [Deborah] Birx—I'm not sure how much training she has in any of these topics—public policy, health policy, epidemiology....They weren't even keeping up with the scientific literature....These are the "trusted individuals"—I mean, that's a shame.

## White House: God Made Two Arms for Two Jobs

In the strangest Revival Meeting ever recorded, the White House's COVID-19 coordinator **Dr. Ashish Jha** sermonized that, "*I really believe this is why God gave us two arms—one for the flu shot and the other one for the COVID shot.*" Jha (in photo) made the comment at an actual White House virtual press briefing, with the straight-faced participation of **Dr. Anthony Fauci** (NIAID), **Dr. Rochelle Walensky** (CDC), and **Sec. Xavier Becerra** (HHS).

This comes just hours after Fauci warned America that COVID Depopulation boosters may become an annual ritual: "We likely are moving towards a path with a vaccination cadence similar to that of the annual influenza vaccine, with annual, updated COVID-19 shots matched to the currently circulating strains for most of the population," he said.

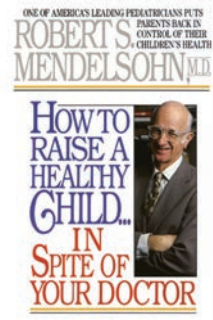

## Vaccine Corner

The following excerpt is from *How to Raise a Healthy Child... In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

### WHY PEDIATRICIANS ARE DANGEROUS....

7. Pediatricians are the most likely of all specialists to enhance their income by promoting and defending laws that force patients to use their services. It is pediatricians, not politicians, who are responsible for mandatory use of silver nitrate or antibiotic drops in a newborn's eyes, mandatory school physical examinations that provide opportunities for "creative diagnosis" of nonailments, mandatory hospital births, and court-ordered use of controversial and unproven methods of treatment to which the parents object. Increasingly, one of the dangers inherent in taking your child to the doctor is the possibility that he may be taken from you and placed in state custody if you reject the treatment that his doctor demands. I have testified in behalf of the parents in many such legal actions in recent years.

8. Pediatricians are the principal foes of breastfeeding, despite incontrovertible evidence that it is one of the most effective ways to assure the future health of your child. Although the LaLeche League is beginning to counter the influence that the formula makers have long had on pediatricians, many doctors either fail to encourage or actively discourage breastfeeding. I won't go into all of the reasons for this, but it is worth noting that the growth of the pediatric specialty in the United States can be attributed in large measure to the financial support of the manufacturers of infant formula, who have long used pediatricians as unpaid salesmen.

## WATCH THE WEATHER!

Look up at what the mad scientists are doing to the atmosphere! Depopulation is in the sky as well as the needle. Watch *The Dimming*, an excellent Climate Engineering documentary produced in 2021 by Dane Wigington of GeoengineeringWatch.org.

What is in the lingering, spreading jet aircraft trails, so commonly visible in our skies? Is it just condensation as we have officially been told, or is it part of a massive geoengineering / solar radiation management operation? Watch THE DIMMING to find out more.

## Did Lockdowns Increase Mortality Rates?

**Dr. Joseph Mercola** reports that "Emerging statistics paint an alarming picture—far more have died after the rollout of this 'super potion' than during the height of the COVID pandemic in 2020. Yet the mainstream media are desperately trying to divert your attention from this elephant in the room."

Many didn't have access to routine medical care during lockdowns, and are now dying from chronic diseases that went untreated. Just released data from United Kingdom show excess deaths in England and Wales were 14.4% higher than the five-year average—that's 1,350 more deaths per week than normal. A majority of these excess deaths were cardiovascular in nature—a primary adverse effect of the COVID jabs.

Dr. Mercola points out that "In the U.S., we lost 349,000 younger Americans to something besides COVID and non-natural death" in the last 18 months, "not counting the tens of thousands of death records that the CDC has inexplicably deleted. As much as 15% to 25% of the death reports that could indicate a COVID jab death are missing. Other data show that during the fall of 2021, Millennials, aged 25 to 44, had an 84% increase in excess deaths."

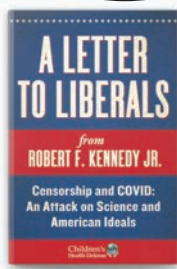

2

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

—The Most Honorable Elijah Muhammad

“COVID countermeasures seemed to disproportionately injure minorities. [...] The death rate from COVID-19 in Nigeria—which had a vaccination rate of 1.3%, was 15 deaths per million population—about 1/200 the death rate among Americans of 3,800 per million population. Haiti, with a vaccination rate of 1.4%, had a COVID death rate of less than 14 per million population. Why is it that COVID-19 barely touched scantily vaccinated African and Haitian populations while American Blacks died at 3.6x and Latinos died at 2.5x the rates of Whites in all age categories? Life expectancy among American Blacks dropped by 3.25 years. Shouldn't this be a subject of intense curiosity and energetic inquiry? Yet, Dr. Fauci has never acknowledged, much less attempted to explain these troubling discrepancies.” —Robert F. Kennedy, Jr., *A Letter To Liberals* (ebook ed.)

Many in Biden Administration, 12 US Agencies Involved in Social Media Censorship

More than 50 officials in President Joe Biden’s administration across a dozen agencies have been in communication with one or more major social media companies to try to get the companies to censor COVID-19 information that challenged the pro-vaccine narrative.

Documents show that a Facebook executive contacted Surgeon General Vivek Murthy, a Biden appointee, to say that they had taken steps “with respect to misinformation, as well as steps taken to further address the ‘disinfo dozen,’” including removing posts and pages of a group of effective influencers—a group that includes Dr. Joseph Mercola, Robert F. Kennedy Jr., and Dr. Christiane Northrup.

The documents that exposed this blatant assault on the First Amendment were part of a lawsuit levied against the federal government by the attorneys general of Missouri and Louisiana and other medical experts maligned by federal officials.

“If there was ever any doubt the federal government was behind censorship of Americans who dared to dissent from official Covid messaging, that doubt has been erased,” Jenin Younes, a lawyer with the New Civil Liberties Alliance who is representing some of the plaintiffs in the case, said in a statement. “The shocking extent of the government’s involvement in silencing Americans, through coercing social-media companies, has now been revealed.”

Attorneys presented documents showing the following U.S. government agencies conspired to deprive American citizens of Constitutionally guaranteed Free Speech:

- Department of Homeland Security
- Centers for Disease Control and Prevention (CDC)
- National Institute of Allergy and Infectious Diseases
- Office of the Surgeon General
- Census Bureau
- Treasury Department
- State Department
- Food and Drug Administration
- White House

Fibrous Clots Found in ‘VACCINATED’ Corpses

Funeral director Richard Hirschman reports that embalmers have been finding numerous long, fibrous clots in the bodies they are preparing for burial. These unidentifiable growths were unknown to them before the forced injections.

“Numerous embalmers from different states confirmed...that they have been seeing these strange clots, starting from either

photo: courtesy Richard Hirschman

2020 or 2021....The string-like structures differ in size, but the longest can be as long as a human leg and the thickest can be as thick as a pinky finger.”

According to Hirschman, “Prior to 2020, 2021, we probably would see somewhere between 5 to 10 percent of the bodies that we would embalm [having] blood clots. We are familiar with what blood clots are, and we’ve had to deal with them over time,” he told the *Epoch Times*.

He says that now, 50 percent to 70 percent of the bodies he sees have clots. “For me to embalm a body without any clots, kind of like how it was in the day, prior to all of this stuff ... It’s rare. The exception is to embalm a body without clots,” he noted.

American History of Medical Racism & Savagery

Wouter Basson was director of Project Coast, the White South African biological and chemical warfare agency that developed various poisons, viruses, biological agents, and drugs to use against Blacks, including a vaccine that caused sterility.

Basson was called the “Mengele of South Africa” and was suspected of at least 229 poisoning murders. When asked about his racist operation, Basson did not mention Hitler, Mengele, or the Nazis: “I must confirm that the structure of the project was based on the U.S. system. That’s where we learnt the most.”

Ivermectin reduces COVID death risk by 92%, peer-reviewed study finds

A new peer-reviewed study found that regular use of ivermectin reduced the risk of dying from COVID-19 by 92%.

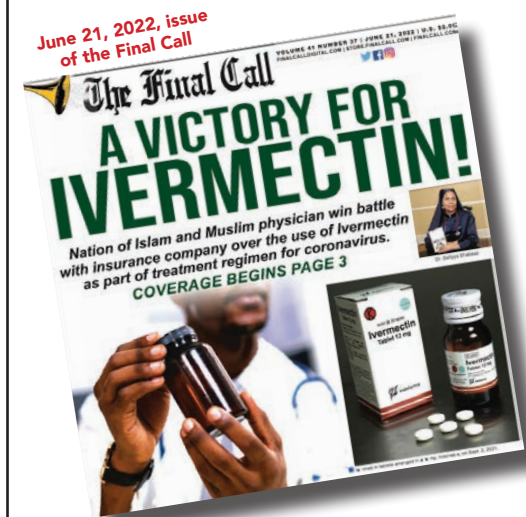

The study was conducted on a strictly controlled population of 88,012 people from the city of Itajaí in Brazil.

Individuals who used ivermectin as prophylaxis or took the medication before being infected by COVID experienced significant reductions in death and hospitalization.

According to the study, those who took ivermectin regularly had a 92% reduction in their COVID death risk compared to non-users and 84% less than irregular users.

“The hospitalization rate was reduced by 100% in regular users compared to both irregular users and non-users,” the study stated.

The impressive reduction for regular ivermectin users was evident despite the regular

users being at a higher risk for COVID deaths. The regular users were older and had a higher prevalence of type 2 diabetes and hypertension than irregular and non-users.

Irregular users of ivermectin had a 37% lower mortality rate reduction than non-users. The study defined regular users as those who used more than 30 tablets of ivermectin over five months. The dosage of ivermectin was determined by body weight, but “most of the population used between two and three tablets daily for two days, every 15 days.”

“Non-use of ivermectin was associated with a 12.5-fold increase in mortality rate and a seven-fold increased risk of dying from COVID-19 compared to the regular use of ivermectin,” the study read.
