

Censorship and COVID: An Attack on Science and American Ideals

by Robert F. Kennedy, Jr.

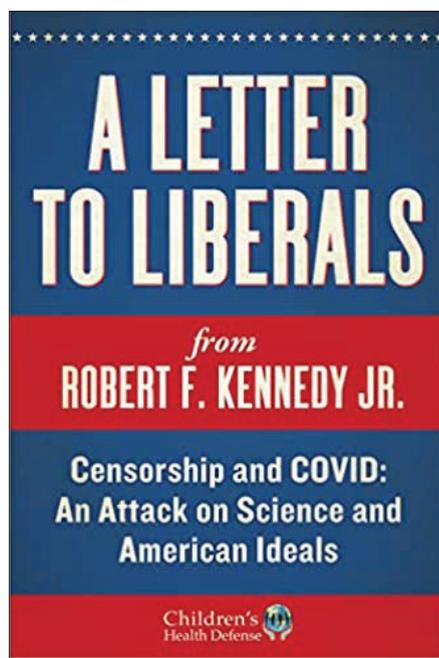

In his new book, *A Letter to Liberals from Robert Kennedy Jr.: Censorship and COVID: An Attack on Science and American Ideals*, Mr. Robert F. Kennedy explains how “Dr. Fauci’s Militarized and Monetized COVID Policies Proved to Be a Devastating War on the Poor, Children, and the Working Classes.” Here is an excerpt:

Anthony Fauci’s quarantine was a prolonged pajama party for upper-crust Americans who could afford DoorDash food deliveries and Amazon shopping. Lockdowns provided a novel adventure in telecommuting for the laptop elites, and a cushy year of remote education for their children. But even mainstream critics are increasingly recognizing that COVID policies have devastated workers, the poor, minorities, and children. The lockdowns created nearly five hundred new billionaires—who are now gorging on the bleached cadavers of America’s massacred middle-class—and

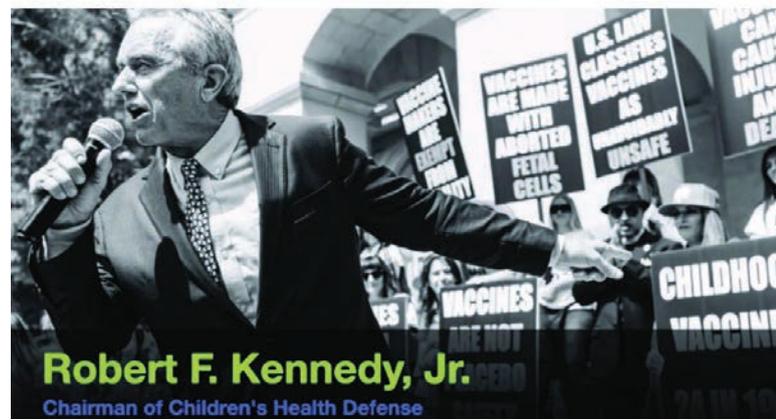

engineered a \$3.98 trillion shift in wealth from the poor and working Americans to a new oligarchy of Pharma billionaires, social and main-stream media titans, surveil-

lance state robber barons, and military contractors. Shouldn’t liberals be particularly skeptical that media and social media billionaires raked in fortunes from the lockdowns while actively collaborating with government officials to censor and deplatform critics of these controversial and failed policies? ... The number of active business owners in the United States plummeted by 3.3 million from February to April 2020, crushing the backbone of democratic capitalism. The lockdown’s leading corporate promoters, Amazon, Facebook, Microsoft, Google, and Walmart, flourished while their Main Street competitors withered and died.

As I touched on above, multiple studies show that lockdowns, school closures, masking, and childhood COVID vaccines had catastrophic impacts on children and the poor with casualties and costs far exceeding the deaths and injuries from COVID-19. Globally, lockdowns pushed over 130 million people into food insecurity and caused millions of deaths from starvation. A UNICEF report estimates that 60 million ADDITIONAL children will grow up in poverty and malnutrition. Millions of girls have been forced into child marriage. Reduced case-finding and treatment access for tuberculosis and HIV/AIDS has left more infected people untreated, to transmit to others and die. The World Health Organization reports that over 52,000 additional children under five died from malaria in the WHO African Region in 2020 alone.

Another UNICEF report estimates that lockdowns are responsible for the deaths of hundreds of thousands of children—228,000 in South Asia alone. In July 2020, the Associated Press reported that US and European lockdowns were starving to death 10,000 African kids each month.

The International Finance Facility (IFF) considers that twice as many children died from lockdowns as died from COVID-19. Lockdown-related mortalities and morbidities are likely to outlast COVID countermeasures. The Bank of International Settlements, key to international finance, recognizes that gross domestic product is a major determinant of long-term health, and the economic carnage—including ruinous national debt, mass bankruptcies, and inflation—from global lockdowns are likely to hobble the worldwide economy—and therefore, public health—for decades.

COVID countermeasures seemed to disproportionately injure minorities. [T]he death rate from COVID-19 in Nigeria—which had a vaccination rate of 1.3%, was 15 deaths per million population—about 1/200 the death rate among Americans of 3800 per million population. Haiti, with a vaccination rate of 1.4%, had a COVID death rate of less than 14 per million population. Why is it that COVID-19 barely touched scantily vaccinated African and Haitian populations while American Blacks

died at 3.6x and Latinos died at 2.5x the rates of Whites in all age categories? Life expectancy among American Blacks dropped by 3.25 years. Shouldn't this be a subject of intense curiosity and energetic inquiry? Yet, Dr. Fauci has never acknowledged, much less attempted to explain these troubling discrepancies.

Lockdowns also disproportionately harmed children, increasing child labor, teenage pregnancy rates, and child marriages. US maternal mortality reached record highs during the pandemic, with the highest deaths in Black women. While health authorities closed public schools, police padlocked playgrounds and basketball courts in minority neighborhoods. Children skipped school lunches that, for many, were their sole nutritious meal. A heartbreaking 24% of American teens report experiencing hunger. The lockdowns diminished eye health due to increased screen time and aggravated the obesity epidemic. Even children became more obese during the pandemic. Worsening an existing obesity crisis—Americans gained 29 pounds on average in 2020 to 2021—may have contributed to high death counts since obesity was and is a leading COVID comorbidity. The lockdowns, themselves, were counterproductive since regulators knew early in the pandemic that COVID spread indoors and not outdoors. Lockdowns aggravated not just obesity, but stress and vitamin D deficiencies, all of which proved deadly COVID comorbidities.

The only indicator of poverty and social deterioration that seemingly improved during the quarantine was child abuse. Sadly, this was an artifact of less reporting. Most child abuse reports emanate from schools, and the reported incidents naturally diminished when schools closed. While schools officially stopped reporting suspected child abuse, our government health panjandrums locked abused children indoors with their abusers. A recent CDC summary disclosed a shocking 55.1% of teens regularly experienced emotional abuse during lockdowns, and 11.3%, physical abuse—up from 13.9% and 5.5%, respectively, in 2013.

Dr. Fauci acknowledges that he never considered the amplifying impacts of lockdowns on collateral damage including aggravating existing epidemics of isolation, mental health, and obesity. UNESCO reports that child and youth mental

health has become a crisis within a crisis. Children globally experienced social isolation, disruption to daily routines, stress associated with parental unemployment, and feelings of uncertainty about their future. The CDC reports that between January and June of 2021, almost 20% of US teenagers contemplated suicide, 9% attempted to kill themselves, and 44.2% reported feeling persistently sad and hopeless. Suicide is now the second-leading cause of death for Black children, and it's rising still. The poor disproportionately shouldered terrible increases in alcoholism, drug addiction, overdoses, retarded development, and mental illness. Gun sales and carjacking have hit record highs. CDC reports dramatic upticks in shootings and other violent crime including a 30% rise in homicides, pedestrian deaths, reckless driving (despite dramatic reductions in miles driven), disorderly and disruptive unhinged behavior, anger, and fits of anger in schools and society at large.

The lockdowns didn't just worsen mental health and obesity. They lowered IQ and impacted early childhood developmental milestones in infants and toddlers. Masks, for example, impaired emerging speech and language skills in children during critical developmental stages, while lockdowns deprived children of important growth stimuli. Infants born during the pandemic are missing speech development milestones normal for babies their age. Researchers warn that due to lockdowns and other disruptions, nearly one-third of elementary students will need "intensive support to become proficient readers." Children born during the pandemic are at a greater risk for academic failure because parents haven't been able to engage their babies and toddlers in the types of conversations that are "crucial for language development." On average, American toddlers lost an astonishing 22 IQ points during the lockdowns according to a Brown University study. That longitudinal observational study also found that the poor and minority children shouldered the heaviest burden of lost functionality. The evidence

from the US is particularly clear:

"We find that children born during the pandemic have significantly reduced verbal, motor, and overall cognitive performance compared to children born pre-pandemic. Moreover, we find that males and children in lower socioeconomic families have been most affected."

... An intractably corrupt CDC's response has been to normalize the injuries by readjusting childhood milestones. Under CDC's revised milestones, adopted last [February], a "normal" child will now be expected to walk at 18 months rather than 12 and is expected to have learned 50 words at 30 months rather than 24 months. I know that reading all this is a massive dose of new truth and reality for most people. Rather than resisting the information, readers might ask why they haven't been told all this by their trusted news sources.

Today, the last people in America still required to cover their faces are children, minimum wage earners, waiters, waitresses, servers, staff, and front-line "essential workers," who risk their lives to deliver meals and Amazon packages to the more privileged classes. For many of them, the masks have become potent symbols of orchestrated fear, obedience, subservience, and the dehumanizing anonymity of being poor and powerless.

Contemporary liberalism has endeavored to veil its abdication of its traditional role as a defender of minorities and the poor with a symbolic embrace of BLM iconography, and by deploying the new liberal weapon of censorship to cancel racist speech. Such symbolic gestures—such as posting a black square—are anemic substitutes for genuine empowerment for minorities and the downtrodden. Lip service has replaced action, and the strategies liberals have embraced badly undermine their expressed intentions.

Finally, a Harvard study by David Cutler and Lawrence Summers estimates the cost of the pandemic to the US government at \$16 trillion. This ruinous debt is yet another devastating attack on our children. That cataclysmic expenditure—intended to benefit fragile elderly in the last years of their lives (and there is little evidence that it did)—did so by begging the young from the coming generations. American children of the future will have less access to health care, food, education, security, and opportunity for home ownership. They will suffer diminished lives, in a weakened, impoverished country. They will also suffer the loss of democracy, civil rights, and power over their lives.

"Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine."

—The Honorable Minister Louis Farrakhan, *Swan Song*

The UN-Masking of Black America

Though mask mandates have been lifted, some individuals still gripped by fear and anxiety continue to wear them. And despite the lack of medical benefit and the slew of evidence showing demonstrable harm, the mindless public health authorities threaten to reinstate mask requirements and/or travel mask mandates. The fact is many studies show masks cause harmful side effects. In a country-wide study in Germany, people reported the following regarding mask-wearing:

- 60% reported irritability
- 53% reported headaches
- 50% reported difficulty concentrating
- 29% reported less happiness
- 44% reported reluctance to go to school
- 42% reported malaise
- 38% reported impaired learning
- 37% reported drowsiness or fatigue

Masks present difficulties to many who experience myriad discomforts when wearing them, especially for long periods of time. Some are unable to wear them at all due to skin irritations, allergies, and the understandable instinct to remove a barrier to normal, natural breathing.

Gov. Newsom Signs Bill Forcing California Doctors to Toe the Government's Line

California Gov. Gavin Newsom signed a bill into law on Sept. 30 that allows the state medical board to censor and discipline physicians for what it calls "misinformation" or "disinformation" related to COVID-19.

But the law is clear proof that Big Pharma rules in California, and that the doctor-patient relationship in which a doctor's prescribed treatment is tailored to the specific needs of the patient is now an ancient rite. Whatever the most profitable drug-of-the-day is that is preferred by the pharmaceutical giants is what California doctors must now prescribe.

Two California doctors, Dr. Jeff Barke and Dr. Mark McDonald, promptly filed a federal lawsuit to stop the bill, which they call a "gag order." Dr. Barke said that "I think it is unconstitutional and it is dangerous for patients to prevent physicians from exercising their 1st Amendment [right] to give their opinion, their insight, their wisdom, their experience, on what a patient should be doing." He points out that the state medical board that decides what is good or bad medical advice are lawyers—not physicians—and are appointed by the governor. "It's bad law, it's bad for patients and it certainly is bad for physicians."

Dr. Michael Yeadon: The Most Important Single Message I've Ever Written

Dr. Mike Yeadon is the former vice president and chief scientist at Pfizer. He is a high-level whistleblower with a stunning message about the true aims of the world leaders and their evil intentions with the "vaccine" they have created.

Dear everyone, who is nervously looking around and is asking "What the hell is going on?"

I hope this isn't too controversial. It's certainly frightening, but I believe we are still on the right side of disaster & if enough of us become aware of what is happening here & everywhere in the democratic world, we can recover the situation. We really don't have long. I believe it's likely things will change irretrievably over this coming winter. Hence this urgent and unusual request.

Everything that's happened and is happening becomes much simpler and it all makes sense, only when you force yourself to think the impossible.

If you experimentally adopt the position that OUR GOVERNMENT IS ACTIVELY WORKING TO HARM US, TO DISMANTLE MODERN SOCIETY & ENSLAVE ALL PEOPLE IN A DIGITALLY CONTROLLED TOTALITARIAN WORLD, it all fits. Nothing is surplus.

Even if your immediate response is that this is absurd, please try it for a day or so.

I ask you further to adopt the experimental position that the media, controlled by just six global corporations, all allied to a single global organization you've all heard of, is relentlessly lying to you and has been doing so for over 2.5 years. Same for the internet, controlled by fewer global corporations, also all allied to that same global organization.

Because I am certain it's true. I am certain because

this all started with a scientific fraud relating to a virus, augmented it with a relentless campaign of fear, imposed measures known to be useless, which wrecked the economy and smashed civil society, then coerced most to accept useless, unnecessary, ineffective and deliberately dangerous injections. Obviously, this is an odious crime. Nothing like it has ever happened.

I've been 41 years in life sciences from training to successful biotech CEO and was worldwide research head and Vice President of Pfizer's respiratory unit (1995-2011).

I have absolutely no incentive to say any of this if I wasn't certain. I am certain. This all took place "in my wheelchair", my domain of expertise. Please consider what I've said.

I've given over 70 interviews, all censored. I've been foully smeared. It's propaganda. It tells you what they're capable of...

Many have asked why people didn't resist tyrants in the past. Partly it is

fear. But it's more than that. It's that normal people, like you and me, simply cannot imagine being so evil. We trust in humanity. And so we should. Most people are good. Few are truly terrifyingly horrible. But some are. It's the inability to believe it's happening that really stopped people objecting when they should, when the evidence was unmistakable but had not yet quite reached their door, their family.

They are coming for you and your children. It is happening again. There's ample evidence emerging of long-term, patient planning. I'm so sorry. It's now up to you. I genuinely don't see what else I can do.

Best wishes & sincere thanks,
Dr. Michael Yeadon

This impassioned declaration of this Mom went viral on social media

We are Moms and if you try to come for our children...

Do you realize what you've done? You've taken ordinary women from across the country and turned them into warriors. The moment you tried to tell us what is best for our children. And you can try to censor us but we'll outsmart you. And you can kick us out of school board meetings but we won't be silenced. You can turn public schools into indoctrination camps and we'll just homeschool. You can mandate things for travel—we'll just stay home. You can pledge your support to woke agendas and we'll just shop elsewhere. You can turn a theme park into a grooming den—we don't need Mickey Mouse. You can try to scare us with fake science but we've done our research. You can try to turn our children into medical experiments but you're going to have to kill us first. We are Moms and if you try to come for our children, we will fight like #\$\$@&%*!

“Dr. Anthony Fauci, Bill and Melinda Gates, you want to depopulate the Earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die?”

—**The Honorable Minister Louis Farrakhan, *The Criterion***

The Twitter Bots that Tell You What To Think

When Elon Musk announced he intended to buy Twitter, he exposed an ugly truth about ALL the social media platforms: a LARGE percentage of accounts are run by robots—not humans. These fake accounts have human identities but they are being operated by sophisticated software that posts messages and interacts with real humans based on pre-programmed computer algorithms. They are called “BOTS” and they became an important tool for the depopulators as they pushed their “COVID-19” agenda on the world.

When the “COVID-19” crisis emerged in the spring of 2020, it was amazing how ALL the world’s governments and ALL the world’s media (and social media) sang the *exact same tune* as though they had rehearsed their responses for many years. LOCKDOWN! SOCIAL DISTANCING! MASKS! And, above all, VACCINES!

None of these “mandates” had any medical basis, yet no one diverted from these lockstep mantras that flooded society. Turns out, we have seen all this before.

In order for their mass self-destruction policy to work, the depopulators had to engineer consent—make it appear that the public as a whole has bought into their operation. And this is where “bots” are used.

Attorney **Michael P. Senger** reports that in 2014 and 2015, in an apparent dry run for “COVID-19,” bots were deployed on Twitter to support lockdown orders in Sierra Leone and Liberia during an alleged Ebola outbreak, with millions of tweets specifically using the word “lockdown.”

Senger writes that “*During this time period, millions of bot tweets suddenly appear, ceaselessly and relentlessly tweeting about ‘Ebola lockdown’ in virtually identical language.*” One can compare them to the sheer number of tweets early in the COVID plandemic

promoting—even demanding—public compliance with the economy-destroying and medically useless lockdown policies.

The engineering of public support for a wicked policy is EXACTLY how the COVID compliance was achieved—censoring dissenting voices that questioned the bizarre set of events, and then flooding the public airwaves and internet with a pre-fabricated policy message from thousands of fake accounts, is how the 1st Amendment now operates in the Depopulation Era.

“The enemies of Allah (God) are working to reduce the population of the Planet Earth by means of poisoning the human beings and by setting up birth control laws under very wicked devices in order to rid the earth of people according to their idea of controlling the increase of the races and nations of the earth. This is a wicked thing.”

Florida Says NO to COVID “Vaccine”

Florida Surgeon General **Dr. Joseph A. Ladapo** conducted an analysis of the safety of the mRNA “vaccines” in his state and found that there is **“an 84% increase in the relative incidence of cardiac-related death among males 18-39 years old within 28 days following mRNA vaccination.”** In effect he has found that the benefit of “vaccination” is outweighed by this abnormally high risk of cardiac-related death among men in this age group. Significantly, he found that non-mRNA vaccines do not have these increased risks.

“As such,” reads the press release, **“the State Surgeon General recommends against males aged 18 to 39 from receiving mRNA COVID-19 vaccines. Those with preexisting cardiac conditions, such as myocarditis and pericarditis, should take particular caution when making this decision.”**

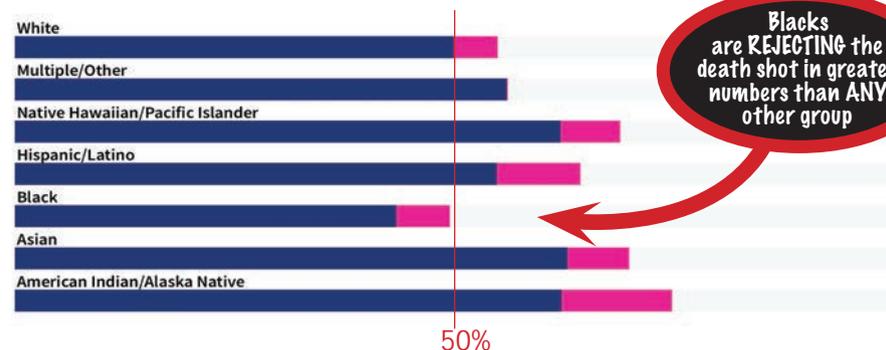

Dr. Ladapo observes: “Far less attention has been paid to safety and the concerns of many individuals have been dismissed—these are important findings that should be communicated to Floridians.”

Scientist, epidemiologist and former White House advisor **Dr. Paul Alexander** comments: “Once again, Dr. Ladapo shows the type of balance, finesse, study of the relevant data to make an informed decision, driven by both the benefits and risks of the intervention; huge praise!”

What percentage of people in each race or ethnic group received the COVID-19 “vaccine”?

Blacks following the advice and leadership of **The Honorable Minister Louis Farrakhan** have rejected the deadly depopulation “vaccine.”

New Study: Unvaxxed Kids Healthier Than Vaxxed

A new study by **James Lyons-Weiler, Ph.D.**, and **Dr. Russell Blaylock** supports the conclusions of a “controversial” study by **Dr. Paul Thomas** (in photo), published in November 2020 and covered in the *Final Call* DEPOPULATION SECTION.

Dr. Thomas analyzed 10 years of data from his pediatric practice in Oregon, comparing his vaccinated and unvaccinated patients. The results revealed **an alarming rise in sickness among VACCINATED children.**

“Remarkably, zero of the 561 unvaccinated patients in the study had attention deficit hyperactivity disorder (ADHD) compared to 5.3% of the vaccinated”; the

overall rate of autism among the unvaccinated children “is one-fifth that of the US national rate.” The data may indicate that the unvaccinated children “are healthier overall than the vaccinated.”

The implications of the 2020 study alarmed vaccine advocates and Big Pharma, which promptly moved to revoke Dr. Thomas’ medical license. The **Children’s Health Defense** quotes the author of the 2022 study: “That [the data] translates into far more chronic illness in vaccinating children than in those not vaccinating...”
