

# Florida's Black Surgeon General Warns America: 'The Fix Is In,' Calls U.S. Government's Health Officials 'Indescribably Corrupt'

by Tingba Muhammad and Charlene Muhammad

Screenshot from thehighwire.com of medical journalist Del Bigtree interviewing Dr. Joseph Ladapo.

*"As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs."*

—The Most Honorable Elijah Muhammad

About 14 months ago when Dr. Joseph Ladapo accepted the job as Surgeon General of the State of Florida, he probably did not expect to become America's strongest voice of medical sanity and scientific reality. The Nigeria-born physician with an M.D. and Ph.D. in Health Policy from Harvard is particularly qualified to repel the world's medical establishment, which has entered into a satanic pact to rid the world of 2-3 billion of its useless eaters.

At 44 years old Ladapo occupies a unique position in this greatest of all battles. He was appointed to his position in the third most populous state by Gov. Ron DeSantis, who has distinguished himself as a fierce critic of those

federal "health" agencies that have forced a dubious "pandemic" and a dangerous "vaccine" onto the American citizenry. These are the formerly sacrosanct agencies—like the Centers for Disease Control (CDC), the U.S. Food and Drug Administration (FDA), the Department of Health and Human Services (HHS), the National Institutes of Health (NIH)—and untouchable officials, like NIAID's Dr. Anthony Fauci, whom DeSantis said if given the chance he would "chuck across the Potomac."

Those government agencies and their leaders are now under the command of Big Pharma—the pharmaceutical giants that have bought their way into control of the American government under the guise of an "emergency pandemic." Gov. DeSantis's disdain for the medical establishment should not be seen as some idle posturing of a grand-standing politician. DeSantis

is the frontrunner in polling for the 2024 presidential race. So, the health policies of Florida, and Dr. Joseph Ladapo's particular approach to the "pandemic," have come under intense scrutiny, as his approach to public health policy may very well represent the future of health policy for all of America.

And this is also why it is so fascinating to watch Dr. Ladapo, the Black African son of a microbiologist, fearlessly confront the falsehoods and scheming of the forces of medical mayhem. His official tweet of October 21 made known his position: "Americans should be able to trust their public health officials. The lies of Dr. Fauci and others have squandered that trust. Floridians and all Americans can trust that in Florida, we will always lead with data and honesty."

Continued on page 9

# Black Surgeon General Warns America

Continued from page 8

Last March, Dr. Ladapo recommended against “COVID-19 vaccination” for healthy children 5 years old to 17 years old. And he most recently repudiated the CDC recommendation that males aged 18 to 39 receive the mRNA “vaccines.” The CDC rulings were bizarre in medical terms because they had no scientific basis. It appeared to many to be designed for one purpose—to advance a “dark agenda” of depopulation and to generate even more billions for Big Pharma, whose toxic “mRNA vaccines” are now considered the most dangerous and deadly ever made.

And while the feds had no actual data on which to base their actions, Dr. Ladapo based his decision on data from a study he directed by the state’s biostatisticians and epidemiologists showing that following the “mRNA vaccines” males have an 84 percent increased risk of cardiac-related death. He presented additional studies backing his position:

- A Scandinavian study found an increased risk of coronary artery disease after Moderna’s mRNA vaccine, along with an increased risk of cerebrovascular disease (relating to the brain and its blood vessels) after both Pfizer and Moderna mRNA vaccines.

- The FDA’s Center for Biologics Evaluation and Research found that the mRNA vaccination may be associated with an increased risk of heart attacks among Medicare enrollees.

- A study in the *Journal of the American Medical Association* reported that the mRNA-based COVID-19 injections increased the incidence of diagnosed myocarditis (swelling of the heart) in males 16 to 24 by as much as a factor of 18 after the second dose.

- An Israeli study published in *Scientific Reports* found that the “COVID-19 vaccine” rollout was associated with an increase in acute cardiac events among young people.

Dr. Ladapo warned: “How do you dismiss this type of finding? You only do that if you’re not really interested in the truth, if you’re really more interested in an agenda. And more and more Americans are waking up to that fact ... There’ve been other signals for other adverse events that have been detected, and just pretending that everything’s okay doesn’t serve the public interest, very obviously; it certainly doesn’t serve public health.”

Anthony Fauci Photo: MGN Online

In a recent interview on The Highwire with Del Bigtree, Ladapo discussed why he rejected the CDC “ruling” that added the COVID-19 shot to the childhood vaccination schedule. “[T]here’s literally this unending propaganda campaign pushing these vaccines on every living being on this planet and ignoring any message or any signal that says otherwise. It is just such an indescribably corrupt environment in terms of morality, in terms of benevolence, and actually in terms of public health and actually caring about the outcomes that people experience in improving their health. And that’s why we did the study: because in that kind of environment there’s so much suspicion that it creates because of the fact that there’s so much dishonesty that being able to ask questions that should have already been asked is something that is the least of what we could do and what we should be doing. And it really is a shame that no one else has done it, but you can count on the Florida Dept. of Health to continue making honest assessments.”

Rochelle Walensky

Dr. Ladapo told The Highwire: “The good thing is that parents are voting with their feet. They know something is up; they do not trust these people; they have not gotten their little children vaccinated despite these ridiculous calls from [CDC director] Dr. Walensky and Dr. Fauci to do it. ... Every day more and more people recognize that the fix is in and these individuals who are leading our federal response [to COVID] do not have your best interest in mind ...”

Dr. Ladapo’s meticulous attention to medical detail and an unshakable moral grounding have put him in Satan’s line of fire, where he is pilloried constantly and predictably by the pharma-controlled mainstream media. But a growing number of physicians and scientists have publicly reinforced Ladapo’s policies and the science that supports them.

Dr. Judy Mikovits, a Ph.D. in biochemistry and molecular biology, told The Final Call about the significance of someone with Dr. Ladapo’s background, training, and expertise in public health, taking such a bold position: “It’s really the first time that anybody with that level of expertise in public health has done anything to inform the rest of the country and the rest of the world,” she said. “I’m thankful to him, grateful to [him] and just pray for him every day, just so grateful that he stepped out that way,” she added.

Dr. Christina Parks, a Cellular and Molecular Biologist and founder of the Vaccine Injury Treatment Alliance, also commended Dr. Ladapo, saying that every other surgeon general in the country should be walking back any recommendation of these vaccines in general, and specifically for younger males.

“Now, let’s be clear: myocarditis is the death [of the middle layer of the heart wall]; it’s inflammation of the heart that results in deaths of the heart cells, and scarring of the heart. And in some cases of myocarditis, the mortality rate can be up to 50 percent, 11 years out after the initial injury. So, this is not minor. This is major. Myocarditis is an emergency situation,” Dr. Parks told The Final Call.

Dr. Safiyya Shabazz, owner and Medical Director of Fountain Medical Associates in Philadelphia, said: “This is not a physician who has no pedigree... He’s not stupid. But I think the rest of us are also not blind and I think we’ve all known people who had significant side effects, even if they were short-lived, that no one had ever really experienced with other vaccinations,” she said.

Dr. Ladapo addressed the lies and attacks against him in his recent opinion article in the October 20 Wall Street Journal, “Covid Boosters Aren’t for Everyone”: “Scientists have been attacked for questioning the efficacy of lockdowns, for urging schools to reopen, for challenging the effectiveness of mask mandates, and for opposing vaccine mandates and passports. The scientists asking these questions had the data on their side, but critics bowed to fear and political ideology.”

When asked by The Highwire’s Del Bigtree whether Florida will be pressured by the CDC ruling to change its decision to not recommend the mRNA vaccinations, Dr. Ladapo smiled and said: “A snowflake has a better chance in hell than Gov. Ron DeSantis or myself somehow changing our position on these vaccines. It is such a simple and clear moral issue where you either prioritize humans or you don’t ...”

# DePopulation Briefs

"Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine."

—The Honorable Minister Louis Farrakhan, *Swan Song*

## Dr. Meryl Nass: "A cabal trying to take over the world"

**Dr. Meryl Nass** has been under fire for her truthful comments about COVID-19 and the dangers of the gene-altering, heart-stopping "vaccines." On October 15, NOI Research Group member **Dr. Ridgely Mu'min Muhammad** and *Final Call* reporter **Sister Charlene Muhammad** attended a conference of medical experts addressing how to reverse the damage done by the "covid vaccine" pushers. Dr. Nass responded to a question about the source of the disastrous vaccine mandates:

*Let me tell you what I think happened. I think there's a cabal trying to take over the world. And they're doing it using emergency laws that require a pandemic or biological warfare emergency to be declared. And in order to create all the changes they want, they need this pandemic to be ongoing.*

*And had we been able to treat with Hydroxychloroquine and Ivermectin and other things—the NIAID showed that over 60 already licensed com-*

*pounds killed SARS-1 or MERS in tissue culture. They showed that in 2014, and then, they suppressed it.*

*So in order to maintain this public health emergency and allow for ALL these societal changes, they had to control doctors. And in order to maintain the emergency, they had to suppress those drugs. And they wanted to vaccinate us, perhaps to injure us, perhaps only so they could have a vaccine passport, as the excuse to get us all on digital IDs.*

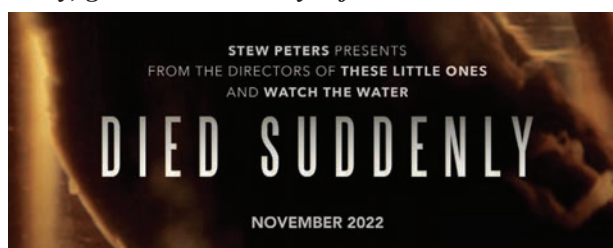

*Anyway, making sure that the doctors didn't push back was central to this plan. And because it relied on medical emergencies, they could not have the doctors speaking up. So, they had censorship, and they created these organizations to suppress us. But, we need to ... shine the light on them, and we have the ability to turn this around. So, thank you.*

## "Died Suddenly": Now a Movie

In the trailer for the new documentary *Died Suddenly*, one of the interviewees calls the COVID plandemic "The greatest orchestrated die-off in the history of the world"—and that is the very definition of DEPOPULATION.

Anyone who has spent anytime on the non-mainstream media has seen the phenomenon of healthy adults dropping dead all across the globe. In the last 18 months, the term "Died Suddenly" has risen to the very top of "most searched" Google terms. Now, an award-winning documentary team travels around the world to find answers from scientists, embalmers, journalists, medical professionals, and the families of those who Died Suddenly.

The media and health agencies have tried to conceal and suppress the hundreds of filmed collapses and sudden deaths of athletes and other young healthy people, but now journalist **Stew Peters** shines light on the phenomenon. *For more information on this new and important film, Died Suddenly, go to [diedsuddenly.info](https://diedsuddenly.info).*

## Facebook Has Ex-CIA Agents Censoring You

According to Alan Macleod of MintPress News, **many of the people in charge of moderating content at Facebook have been recruited from the government, including the Central Intelligence Agency, Federal Bureau of Investigation, and Department of Defense.**

"So many ex-government workers are now employed by Facebook that's it's difficult to view Meta as a private company instead of a government partner, intent on silencing anyone who speaks out against the official narrative."

This is reminiscent of the secret program exposed in 1977 known as Operation Mockingbird, which involved the CIA paying hundreds of journalists to write fake stories and spread propaganda instead of real news.

Macleod explains that many of the people in charge of moderating content at Facebook have been recruited from the government, including the CIA, FBI and DOD, to the extent that, he says, "some might feel it becomes difficult to see where the U.S. national security state ends and Facebook begins." Macleod then lists several high-level Facebook staffers by name who have direct connections to those government spy agencies. Read the informative report at <https://www.mintpressnews.com/meet-ex-cia-agents-deciding-facebook-content-policy/281307/>.

## Mathematician: Fertility & birth rate decline due to COVID mRNA "vaccines"

Depopulation works best when it can work silently and stealthily on its victims. The best indicator that a population is being mass murdered is when a forced "health measure" designed to address an upper respiratory disease instead targets reproductive organs and destroys fertility. According to an analysis of records of several governments, mathematician **Igor Chudov** has found alarming drops in births and pregnancies and rises in stillbirths since the COVID-19 "vaccines" have been pushed on the women of the UK (among other nations).

Chudov writes that the most recent "Vaccine Effectiveness Report" issued by England "has very bad news. Live births dropped in England by 14% as of May 2022, and the decline seems to be worsening and not recovering...It shows that the number of women giving birth declined from 43,723 in Jun 2021, to 37,037 in Jun 2022. This is a 15.3% decline."

Chudov says that these devastating drops in birthrates are consistent with other nations. He says one should expect a 1% annual fluctuation from year to year, but a sudden and unexpected 15% drop in a single year in a single country is catastrophic—unless it is NOT really unexpected. In fact, it seems that it was predicted. Here is the world's top depopulator and global health czar with no medical degree— **Bill Gates**—in 2010:

*"First, we've got population. The world today has 6.8 billion people. That's headed up to about nine billion. Now, if we do a really great job on new vaccines, health care, reproductive health services, we could lower that by, perhaps 10 or 15 percent."*

## American History of Medical Racism & Savagery

### Advertisements for "Sick Negroes" for Medical Experimentation

**SICK NEGROES WANTED.**  
HAYES...  
Wanted to purchase, SICK NEGROES, particularly such as have been pronounced incurable by their physicians.

**Dr. GLEIZE**  
RESPECTFULLY informs his friends and the public that he has opened an INFIRMARY, for the care of sick Negroes, afflicted with the following Diseases, Scars, Eruptions, Leprosy, Sores of all kinds, Cutaneous and Syphilitic Disorders.

**PROPOSITION.**  
We will purchase negroes who are afflicted with scrofula, administer to them for their owners, or sell the institution at \$5000.00 per year.

**RAYMOND & PATTEN, 74 Fourth St.**

**INFIRMARY, OR HOSPITAL FOR SICK NEGROES.**

**TO PLANTERS AND OTHERS—Wanted fifty Negroes.** Any person having sick Negroes, considered incurable by their attending Physicians, and wishing to dispose of them, will pay cash and Negroes received will be kept until a king's evil, confirmed hydrocephalus, apoplexy, disease of the liver, hydrocephalus, spleen, stomach and intestines, blood r and its appendages, diarrhoea, dysentery, &c., the highest cash price will be paid on application as above.

The COVID-19 VACCINES: "We Have No RIGHT to Trust Them."

2

“Dr. Anthony Fauci, Bill and Melinda Gates, you want to depopulate the Earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die?”

—The Honorable Minister Louis Farrakhan, *The Criterion*

## Hospitals That Feed You DEATH

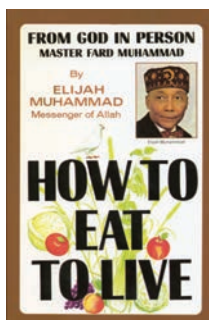

These trays of hospital “meals” served to patients were posted on various social media websites.

It is claimed that hospitals are a place where people go to get healthy, but studies that analyze food served to patients, staff, and visitors at U.S. hospitals in all 50 states and the District of Columbia consistently find that hospital food is often no better than fast food and featured in menus dominated by foods high in fat, cholesterol, sugar, and sodium. Some hospitals actually have fast-food joints right on the premises, including Chick-fil-A, McDonald’s, and Wendy’s. The bizarre fact is that most hospital food can promote the very diseases that medical professionals seek to treat. Hospital menus are awash with donuts, cakes, cookies, fried foods, processed meats, and ice cream.

The Most Honorable Elijah Muhammad wrote in *HOW TO EAT TO LIVE*, Book 2:

*“Eat the best food you can obtain. Never deprive yourself of good health, at the price of cheap food. Just remember, when you are feeding your stomach with cheap, poison foods trying to keep a dollar in your pocket, you are not saving a dollar in your pocket. IT WILL only go to the hospital, the undertaker, and for the ever increasing drain on the families’ savings in purchasing drug pacifications for the ill body from eating the wrong food.”*

## A Cash Plandemic

Pfizer is expecting record-high revenue in 2022, courtesy of COVID-19. It’s predicting \$32 billion in profits from its COVID-19 shots and another \$22 billion from Paxlovid, for a total of \$54 billion. Overall, Pfizer forecasted 2022 sales of \$98 billion to \$102 billion.

In 2020, Pfizer’s biggest money makers were Ibrance, a cancer drug, a pneumonia vaccine, and Lyrica, a fibromyalgia treatment. By 2021, it had just about doubled its 2020 revenue, bringing in \$81.3 billion, largely due to its COVID-19 shot.

## Funeral Director: 95 Percent of Corpses Had Received COVID “Vaccination” Within 2 Weeks of Death

Brenton Faithfull, a funeral director from New Zealand, says that 95 percent of the corpses he has been seeing had received a COVID-19 vaccine within two weeks of their passing away.

The *Epoch Times* reports that Faithfull has been working as a funeral director for the last 41 years and has been running his own mortuary business for the last 26 years: “They die the same day, the following day after receiving the COVID-19 vaccination. This isn’t a one-off case, this is the majority of cases that have come through our facility,” Faithfull said in an interview.

A UK Funeral Director went public several months ago after seeing the same phenomenon with the bodies he was preparing for burial. John O’Looney said that “From the very moment these injections went into arms, the death rate soared beyond belief. They labeled them all as COVID deaths, but the reality is they were almost exclusively the people who were vaccinated,” O’Looney told *The Epoch Times*. “We now see record numbers of deaths in the vaccinated and in record numbers of young people. They die from a mixture of sudden very aggressive cancers or blood clots, which cause heart attack and stroke,” he added.

## New York Bill Wants to End Parental Rights Over Child Vaccination

Bill A9963, sponsored by NY State Assemblyman Richard Gottfried (D-Manhattan, in photo), would extinguish parental rights over a child’s medical, mental, dental health care. The proposed law says: “Any person, including a minor, who comprehends the need for, the nature of, and the reasonably foreseeable risks and benefits involved in any contemplated medical, dental, health, or hospital service, as well as any alternatives thereto, may give effective consent thereto for themselves, and the consent of no other person shall be necessary.”

According to attorney Bobbie Anne Cox, “The language is so broad, it can encompass anything, and there is in fact an entire section that speaks to offering ‘reproductive and sexual health care services.’” On vaccines, the proposed law says: “[A] child who may give effective consent under this section may give effective consent to their own immunization, and the consent of no other person shall be necessary.”

## Vaccine Corner

The following excerpt is from the book *Make an Informed Vaccine Decision For the Health of Your Child: A Parent’s Guide to Childhood Shots*, by Dr. Mayer Eisenstein:

“The current schedule of recommended vaccines is so crowded that doctors give babies several shots during a single office visit—up to eight or nine vaccines *all at one time*....Parents, and doctors, often forget that vaccines are drugs. How often do we, as adults, take that many drugs at the same time? Would we be more surprised if we *did* or *did not* have an adverse reaction?”

[...]

“Authorities claim that vaccines reduced the incidence of disease. However, several diseases—tuberculosis, scarlet fever, plague—infected thousands of people every year but virtually disappeared without any vaccines. How do we explain this?...In the past few years we have seen outbreaks of measles, mumps and pertussis in mostly vaccinated children. ...In Africa, the oral polio vaccine is *causing* polio....Is the industry mantra—that vaccine benefits outweigh risks—an established fact or merely an effective marketing tool?”

MAKE an INFORMED  
VACCINE DECISION  
For the Health of Your Child

A Parent’s Guide to  
Childhood Shots

Mayer Eisenstein, MD, JD, MPH  
with Neil Z. Miller

“A MUST READ! Parents will be prepared to make truly informed decisions that can affect their children for generations to come.”
