

The safety of your life is more important than sport and play

“My people, stop thinking of sport and play and think over your life and the safety of your life.” –The Most Honorable Elijah Muhammad, *Our Saviour Has Arrived*, p. 106

The Hon. Min. Louis Farrakhan delivers “The Criterion” Photo: Final Call file

by NOI Research Group

On July 4, 2020, the **Honorable Minister Louis Farrakhan** warned the world:

“I say to my brothers and sisters in Africa: If they come up with a vaccine, be careful. Don’t let them vaccinate you with their history of treachery through vaccines, through medication. Are you listening? I say to the African presidents, do not take their medications. I say to those of us in America, we need to call a meeting of our skilled virologists, epidemiologists, students of biology and chemistry and we need to look at not only what they give us, we need to give ourselves something better.” —“The Criterion”

Did we hear that call and respond accordingly, or did we turn away and go back to sport and play? We find now that many African leaders and their people indeed did heed that call. Now America and other western countries are upset over the fact that the African people have been the most “vaccine-hesitant.” The Western countries even offered millions of free doses of these unnecessary so-called vaccines and are upset that they were tossed in the waste basket by some African countries. The World Economic Forum is the international organization of the wealthy leaders behind the “COVID CRISIS” and the major focus of their 2023 conference is to develop plans to make sure that in the next

“pandemic” the African people will be less resistant to the “vaccines” that the richer countries develop and manufacture.

The present set of COVID vaccines, produced at “warp speed,” were given Emergency Use Authorization in late December of 2020 and were deployed worldwide starting in January of 2021. We now have had a full two years to discover more about the dangers of these so-called vaccines. One of the major concerns with the mRNA gene-altering shots is that they appear to cause damage to the heart muscle and lining which could lead to heart attacks. World-renowned cardiologist Dr. Peter McCullough, along with structural biologist Dr. Panagis Polykretis, penned a letter to the editor of the Scandinavian Journal of Immunology last November which stated: “From January 2021 to the time of writing, 1598 athletes suffered cardiac arrest, 1101 of which had deadly outcome.” This is compared to 29 athletes dying per year over a 38-year period from 1966 to 2004. And, the authors add, “Since the end of 2021 and throughout 2022, young age excess mortality has substantially increased in many European countries, in concert with the vaccine program.”

This type of data has caused many doctors to demand that their governments halt the vaccination of our young people, but the governments continue to push these COVID “vaccines” claiming that all those deaths are simply a coincidence. Even though many scenes of young people dropping dead on the playing fields all over the world have been documented in videos like “Died Suddenly,” the major TV networks

ignored or tried to naysay this visual evidence exposed on the internet.

However, on the “Monday Night Football,” broadcast of January 2nd, while the world was watching, the Buffalo Bills defensive back Damar Hamlin collapsed on the field from a cardiac arrest. Fortunately, the paramedics were in place to resuscitate him, and as of this writing he has been released from the hospital and is recovering. This frightening incident, and the many other recent episodes of healthy, fit, and young people experiencing heart-related health emergencies, has led to heightened conversation about the possible role of the “vaccines.” The NFL itself reported that by January 2022, “nearly 95% of NFL players are vaccinated; nearly 100% of NFL personnel are vaccinated.”

Dr. Joseph Mercola points out that the high number of professional and amateur athletes that have collapsed due to cardiac events may be because “During exercise, adrenaline is pumping, and when the heart is [vaccine] damaged this adrenaline rush is what triggers the cardiac arrest. This helps explain not only the death of athletes on the field, or people dying while jogging, but also why so many are dying in their sleep, because adrenaline is released between 3 a.m. and 6 a.m., as your body readies to wake up.”

This helps explain not only the death of athletes on the field, or people dying while jogging, but also why so many are dying in their sleep, because adrenaline is released between 3 a.m. and 6 a.m., as your body readies to wake up.”

Safety of your life

Continued from page 8

The British cardiologist Aseem Malhotra has called for an end to the vaccine program citing a worrying increase in heart deaths. According to the British Heart Foundation there have been around 30,000 more deaths than expected involving heart disease since the “pandemic” began – more than 230 additional deaths over expected rates each week. In some weeks last year, there were more than 1,000 excess deaths with cardiovascular disease mentioned on the death certificate.

Some blame the rise in stress due “pandemic” related policies that led to job loss, lockdowns, rise in alcohol intake, more sedentary lifestyles, depression and obesity.

While Dr. Malhotra acknowledges that other causes are a factor, he remains convinced that vaccines are the likely culprit. He cites the vaccine manufacturer Pfizer’s own trial data, which showed there were four cardiac arrests in those who took the vaccine compared with just one in the placebo group. He also points to a study published in the journal *Circulation* by the US cardiologist Dr Stephen Gundry, who claimed that inflammatory markers in his patients soared after they received vaccines – taking their five-year heart attack risk from 11 percent to 25 percent.

“That is a massive jump,” Dr. Malhotra said. “If I decided to smoke 40 cigarettes a day, ate junk food, drank and didn’t exercise I couldn’t get anywhere near that.”

Former Blackrock financial analyst Edward Dowd first garnered attention last year when he uncovered insurance industry data that showed alarming death rates that pointed to “vaccines” as the cause. His highly acclaimed new book *Cause Unknown: The Epidemic of Sudden Deaths in 2021 and 2022*, elaborates on that point. In a recent interview, he explained, “Insurance companies are taking on losses, and some people are starting to monitor ambulance calls for heart attacks and they’re off the hook. Also, people are looking at blood-thinning medicines

and sales are shooting through the roof, so there’s anecdotes, signals, hard data ... I’m just amazed by the amount of people who don’t want to look at this ... They couldn’t even fathom that this could happen.”

Those who heard and heeded the words of **The Honorable Minister Louis Farrakhan** on July 4th 2020—months before the “vaccine” assault on the world— could definitely fathom that this could happen.

He encouraged us to “STAND UP” like men and women. And to the government, he warned, “if you bring the ‘vaccine’ and say you’re gonna bring your army to force us to take it: Once you try to force us, that’s a

declaration of war on all of us. You only have this one life: Fight like hell to keep it, and fight like hell to destroy those whose heart and mind is to destroy you, and take your life from you!”

“The fact that fasting is the cure to 90 per cent of our ills is known by the medical scientists. But, they do not teach you that.” —The Most Honorable Elijah Muhammad

Moderna CEO Announces New mRNA Shot to Treat Heart Failure

Moderna CEO, Stéphane Bancel (in photo), the maker of the failed injection he calls a “vaccine,” complained last year at the **World Economic Forum** meeting that his company is having to “throw away” millions of doses because “nobody wants them.” He said, “*We have a big demand problem...*” But now Bancel seems to have solved that problem, as he told an interviewer:

“We are now in a super exciting program where we inject mRNA in people’s heart after a heart attack to grow back new blood vessels and re-vascularize the heart.”

This is the same mRNA technology that its inventor **Dr. Robert Malone** said should never be used as a vaccine or as medicine.

Vaccine safety advocate and attorney **Robert F. Kennedy, Jr.**, pointed out:

“The vaccine companies are making \$60 billion a year selling mandatory vaccines. They’re also making \$500 billion a year selling EpiPens, inhalers, anti-seizure medications, diabetes and arthritis meds, etc. Virtually all of the medications they sell are targeted to treat diseases that are listed as SIDE EFFECTS of the vaccines on their own manufacturer inserts. It’s the perfect business model. They make us all sick and create lifetime customers.”

CDC data show 1/3 of vaccine recipients suffering from significant adverse event

After fighting against two federal lawsuits that sought transparency on **vaccine injury**, the **Centers for Disease Control (CDC)** were forced to release their V-safe data, which includes information on vaccine injury in a pool of about 10 million vaccinated Americans.

The V-safe data show that 33.1% of the people who got a Covid-19 vaccine suffered from a significant adverse event and 7.7% had to seek professional medical care.

Vaccine Safety Advocates Are Now Labeled 'Anti-Science Aggressors'

The World Health Organization (WHO) has taken charge to coordinate the worldwide COVID-19 depopulation program. So it is significant that WHO tweeted a video featuring an American doctor named **Peter Hotez (in photo)** referring to vaccine safety advocates as “anti-science aggressors,” and claiming “anti-vaccine activism” has become “a major killing force globally.”

Offering no proof whatsoever, Hotez claims that “anti-science now kills more people than gun violence, global terrorism, nuclear proliferation or cyber attacks.”

Note that at last CDC tally the COVID-19 “vaccines” have killed 33,469.

WHO’s promotion of a doctor who speaks more like a war lord than a scientist is an indication of a more aggressive depopulation agenda. Dr. Anthony Fauci has retired in disgrace, leaving the government far, far short of their vaccination goals, and having severely damaged the credibility of the “health care system.” Clearly, Dr. Hotez is being advanced as Fauci’s replacement spokesman. And whereas Fauci claimed that he was not politically motivated, Hotez charged that questioning vaccines is a “far-right” political movement. “This is the new face of anti-science aggression,” he says, “so we need political solutions to address this.”

Of course, this forecasts a militaristic push to legislate forced vaccinations—enforced by a digital banking system. Satan intends to get that 2-3 billion off the planet and “vaccines” are still the best opportunity to accomplish that diabolical goal.

W•A•R•N•I•N•G

“It’s my duty as a cardiologist to urgently inform every doctor, patient & member of the public that the mRNA product is a likely contributory factor in all unexpected cardiac arrests, heart attacks, strokes, cardiac arrhythmia & heart failure since 2021 until proven otherwise.”

—Dr. Aseem Malhotra, former COVID-19 “vaccine” advocate)

Vaccine Corner

Excerpt from *Profiles of the Vaccine-Injured: “A Lifetime Price to Pay,”* by Children’s Health Defense; foreword by Robert F. Kennedy Jr.

CHILDHOOD VACCINATION AND CHRONIC ILLNESS

American children are beleaguered by a long list of chronic afflictions—sometimes nearly from birth. Publication in 2011 of a widely cited 2007 children’s health survey showed that at that time, more than half (54%) of American children had at least one of the following chronic health challenges:

- **Atopy:** asthma, food/digestive allergies, environmental allergies
- **Autoimmune:** diabetes
- **Brain-related:** brain injury or concussion, epilepsy or seizure disorder, migraine headaches
- **Developmental:** autism spectrum disorder (ASD), developmental delays affecting ability to learn (or risk of developmental delay), learning disabilities, speech problems, Tourette syndrome
- **Eyes and ears:** chronic ear infections, hearing problems, vision problems
- **Mental health:** anxiety problems, attention-deficit/hyperactivity disorder (ADHD), behavior/conduct problems, depression
- **Musculoskeletal:** bone, joint, or muscle problems
- **Weight:** overweight/obesity

Research spanning several decades strongly suggests that childhood vaccines have played a major role in constructing this picture of ill health. In fact, studies show that vaccinated children’s health status is dramatically worse than that of similar groups of children not receiving the same vaccine(s), and that vaccinated children face anywhere from a two-fold to thirty-fold increased risk of developing various acute and chronic conditions (see Table 1, which compiles studies on selected health outcomes).

Children’s Health Defense (CHD) has been unable to find any studies showing that vaccinated children have superior health outcomes compared to their unvaccinated peers.

WHAT'S IN A VACCINE?

NONE OF THESE SHOULD BE INJECTED INTO YOUR BODY.

ALUMINUM

Known to cause **CANCER** in all doses, linked to **ALZHEIMER’S DISEASE**, dementia, seizures, autoimmune issues, SIDs and cancer. This toxin accumulates in the brain and causes more damage with each dose.

GENETICALLY MODIFIED YEAST, ANIMAL, BACTERIAL AND VIRAL DNA
Can be incorporated into the recipient’s DNA and cause **GENETIC MUTATIONS**.

FORMALDEHYDE (formalin)

Formaldehyde (formalin) Known to cause **CANCER** in humans. Banned in Europe. Probable gastrointestinal, liver, respiratory, immune, nerve and reproductive system **POISON**.

HUMAN AND ANIMAL CELLS

Human DNA from aborted **BABIES**, pig blood, rabbit brains, dog kidneys, cow hearts, & more. Linked to childhood leukemia and diabetes.

MERCURY (thimerosal)

Known to cause **CANCER** in animals and linked to numerous autoimmune issues and infertility.

One of the most toxic substances known. Tiny doses will damage the brain, gut, liver, bone marrow, nervous system and/or kidneys. Linked to autoimmune and neurological disorders.

Polysorbate 80 & 20

MONOSODIUM GLUTAMATE (MSG)
A toxic chemical that is linked to birth defects, developmental delays and infertility.

“Read the fine print in this book. When you are done weeping and tearing out your hair from fury, frustration, and indignation, join Children’s Health Defense in doing something about it.”

—ROBERT F. KENNEDY, JR.

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

—The Most Honorable Elijah Muhammad

Wall St. Journal Stuns with Question: “Are Vaccines Fueling New Covid Variants?”

Editorial board member Allysia Finley, asked this “anti-vax” question in the January 1, 2023, edition of the **WSJ**, signaling a break in the mainstream media’s lockstep promotion of the government’s vaccines-at-all-cost “pandemic” policy.

Ms. Finley wrote: “Growing evidence also suggests that repeated vaccinations may make people more susceptible to [COVID variants] and could be fueling the virus’s rapid evolution.”

“Prior to Omicron’s emergence in November 2021, there were only four variants of concern: Alpha, Beta, Delta and Gamma. Only Alpha and Delta caused surges of infections globally. But Omicron has begotten numerous descendents, many of which have popped up in different regions of the world curiously bearing some of the same mutations.

“...Under selective evolutionary pressures, the virus appears to have developed mutations that enable it to transmit more easily and escape antibodies elicited by vaccines and prior infection.”

Finley highlighted the **Cleveland Clinic** study that tracked its healthcare workers and found that “workers who had received more [vaccine] doses were at higher risk of getting sick. Those who received three more doses were 3.4 times as likely to get infected as the unvaccinated, while those who received two were only 2.6 times as likely.”

The authors of the study noted that “This is not the only study to find a possible association with more prior vaccine doses and higher risk of COVID-19.”

Finley points out that the Northeast is “the most vaccinated and boosted region in the country,” yet it is by far the most infected and hospitalized by the latest COVID-19 variants.

Ms. Finley concludes: “The Biden administration’s monomaniacal focus on vaccines over new treatments has left the highest-risk Americans more vulnerable to new variants. Why doesn’t that seem to worry the experts?”

“They have used a series of methods to effect global depopulation, depleted uranium bombs, genetically engineered and modified foods, chemical additives in foods, poison in vaccines, famine, AIDS, Chemtrails, illegal wars.”

—The Honorable Minister Louis Farrakhan

They Say ‘TRUST the Doctors’

20,679* Physicians say “LUCKIES are less irritating”
“It’s toasted”
 Your Throat Protection against irritation against cough

Pres. Lyndon Johnson on the POPULATION “problem” — 1965

“I will seek new ways to use our knowledge to help deal with the explosion in world population and the growing scarcity in world resources.”

“Let us in all our lands—including this land—face forthrightly the multiplying problems of our multiplying populations, and seek answers to this most profound challenge to the future of the world. Let us act on the fact that less than \$5 invested in population control is worth \$100 invested in economic growth.”

TOOLS OF THE INDOCTRINATION TRADE

Neurosurgeon Dr. Russell L. Blaylock (in photo) wrote that “The designers of this pandemic anticipated a pushback by the public and that major embarrassing questions would be asked. To prevent this, the controllers fed the media a number of tactics; one of the most commonly used was and is the ‘fact check’ scam....Never were we told who the fact checkers were or the source of their ‘debunking’ information—we were just to believe the ‘fact checkers.’ A recent court case established under oath that Facebook ‘fact checkers’ used their own staff opinion and not real experts to check ‘facts.’ ...Here is a list of things that were labeled as “myths” and “misinformation” that we now know to be true:

- There is no difference between the vaccinated and unvaccinated in spreading the “virus”;
- The vaccines cannot protect adequately against new variants;
- Natural immunity is far superior to vaccine immunity and is most likely lifelong;
- COVID “vaccines” can cause a significant incidence of blood clots and other serious side effects;
- The vaccine proponents will demand numerous boosters as each variant appears on the scene;
- The government health agencies will insist on the COVID “vaccine” for small children and even babies;
- Vaccine passports will be required to enter a business, fly in a plane, and use public transportation;
- There will be internment camps for the unvaccinated (as in Australia, Austria and Canada);
- The unvaccinated will be denied employment;
- Many hospitals were either empty or had low occupancy during the pandemic;
- Tens of thousands have been killed by the vaccines and many times more have been permanently damaged;
- Early treatment could have saved the lives of most who died;
- Vaccine-induced myocarditis (which was denied initially) is a significant problem.

Dr. Blaylock concludes that “Today, extensive evidence has confirmed that each of these so-called ‘myths’ was in fact true....The vaccinated are now known to be the main superspreaders of the virus and hospitals are filled with the sick vaccinated and people suffering from serious vaccine complications.”

“We are feeding ourselves chemical death because we are so lazy. We like TV dinners with all of the chemical preservatives in them. I tell you, some of us eat more peas and carrots that have more embalming fluid in it than the dead body that we just sent to the cemetery. And you wonder why you don’t look good, you don’t feel good, you don’t act good. This world is filled with disease because we are not in harmony with the divine law of God.”

**—The Honorable Minister Louis Farrakhan
 Wellesley College, February 16, 1983**
