

Is Pfizer Experimenting to Mutate the COVID Virus?

The Pfizer name is displayed at the company's headquarters, Feb. 5, 2021, in New York. Photo: Mark Lennihan/AP

Pfizer CEO Albert Bourla speaks during a ceremony in Thessaloniki, Greece, on Oct. 12, 2021. Photo: Giannis Papanikos/AP File

In an undercover video released by Project Veritas on January 25, 2023, Dr. Jordan Trishton Walker, Director of Research and Development at Pfizer, makes explosive statements about the work he says is being performed by Pfizer scientists:

by Dr. Ridgely Abdul Mu'min Muhammad

the Honorable Minister Louis Farrakhan warned about.

In 2001, he said that Satan *“is so pleased to create disease, and then the drug manufacturers discover a pill for the disease, oftentimes that they create.”*

In response to Dr. Walker's revelation U.S. Senator Marco Rubio (R-Fla.) sent a letter to Albert Bourla, the Chairman and CEO of Pfizer, in which he warned: “Whether it's gain of

function research, or selected structure mutations through directed evolution, as Mr. Walker claimed would occur, any effort to make a vi-

rus more transmittable and deadlier is careless and dangerous. Further, Mr. Walker stated that Pfizer is willing to engage in this dangerous research because COVID and its variants are ‘a cash cow’ for the company and regulators will go easy on their efforts because a significant percentage of government officials aim to work for Pfizer and other biopharmaceutical companies and do not want to compromise their future job prospects.”

In his letter Senator Rubio asks Mr. Bourla a

number of questions, including:

“1. What efforts is Pfizer currently, or planning to, engage in to mutate the SARS-CoV-2 virus?

“2. Does Pfizer intend to continue mutating the SARS-CoV-2 virus through gain-of-function, or directed evolution research, with the purpose of creating new vaccines before the variant is present in the greater population?

“3. Has Pfizer engaged with federal officials engaged regarding their plans to oversee this research? Please provide the names and agencies for these individuals.”

These are strong questions, but do they go far enough? For instance, why would the American government pay billions of dollars to a lawbreaking company to produce so-called COVID-19 vaccines and at the same time provide them with immunity from prosecution (1986 Vaccine Law)?

According to the Children's Health Defense, “Pfizer Has a Long History of Fraud, Corruption and Using Children as Human Guinea Pigs.” The U.S. De-

Pfizer

Continued from page 8

partment of Justice under the False Claims Act forced Pfizer to pay out settlements of \$2.3 billion (\$3.5 billion in 2022), including “a record-breaking” \$1.3 billion fine. (See Wikipedia’s “List of largest pharmaceutical settlements.”) And Pfizer was not a first-time offender—they were slapped with a \$430 million fine in 2004.

It is interesting that other countries like India did not sign such foolish contracts with Pfizer, as America did. The Indian government would not grant Pfizer immunity from prosecution for injuries caused by its product, and India demanded that Pfizer conduct clinical trials of its “vaccine” in India before they would allow it to be used in their country. On the other hand, America offered Pfizer (and other big pharma companies) complete immunity from prosecution, while the U.S. Food and Drug Administration (FDA) actually tried to hide Pfizer’s clinical trial data from the American public for 75 years.

Time has proven that the Indian government was acting in the best interests of its citizens. As of January 27, 2023, India has counted just 38 COVID-19 deaths per 100,000 of its population compared to 336 deaths per 100,000 in the U.S. In other words, India’s health agencies were **10 times** better at handling the “pandemic” than the combined efforts of Mr. Trump, Mr. Biden, Anthony Fauci, the CDC, the FDA, the DOD, the NIH and all the other “alphabet soup” government agencies. As the former National Security Advisor Zbigniew Brzezinski said, “Today, it is infinitely easier to kill a million people than to control a million people. It is easier to kill than to control”

Clearly, the U.S. government promotes and protects these known lawbreakers, but Congress should demand a much wider investigation of possible unlawful activity by Pfizer, or bring in the Indian officials to handle it. Certainly, Pfizer made wildly fraudulent claims about the “safety” and “effectiveness” of its gene-altering injections, because they are neither safe nor effective. And at \$20/per dose for a shot that the CDC estimates has now killed at least 33,000 American people, Pfiz-

Syringe and vaccine vial Photo: MGN Online

er’s 2022 revenue is estimated to be \$100 billion.

Furthermore, Congress must investigate the implications of President Biden’s **September 12, 2022**, Executive Order on “Advancing Biotechnology and Innovation for a Sustainable, Safe, and Secure American Bioeconomy,” in which he states: “We need to develop **genetic engineering technologies** and techniques to be able to write **circuitry for cells and predictably program biology** in the same way in which we **write software and program computers**”

The President’s language mirrors that of Moderna, one of the companies hired in 2015 to produce these so-called messenger RNA “vaccines.” They described their mRNA “Software of Life” technology like this: “Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like an **operating system** on a computer.” Both Moderna and Pfizer use this mRNA technology to transform the human cell into a factory for producing a toxic substance—the spike protein.

And this human “operating system” theme is being promoted by Klaus Schwab, leader of the World Economic Forum (WEF), at his annual meeting of the world’s “elites” in Davos, Switzerland. Schwab’s top advisor is Israeli historian and philosopher Dr. Yuval Noah Harari, who says: “Humans are now hackable animals ... By **hacking organisms**, elites may gain the power to re-engineer the future of life itself. ... In the past many tyrants and governments wanted to do it ... but soon at least some corporations and governments will be able to **systematically hack all the people.**”

So, their “transhumanist” agenda is hardly being concealed. And with Dr. Walker’s inconvenient truths, it now appears that these pharmaceutical companies are using the general populace to conduct experiments using dangerous gene-altering

Photo: MGN Online

‘It is time that the American government acts to protect its citizens from the dangerous experimentation and profiteering of Big Pharma.’

technologies to produce what they call the “next human,” while enjoying legal protection from their actions by the U.S. government. No wonder that Pfizer chairman Albert Bourla could brag in a January 24, 2023, CNBC interview that his company would be producing 19 new products in 18 months, including 5 new vaccines—and he expressed confidence that the FDA would approve all of them. Evidently, he knows that his company does not have to worry about the FDA regulators rejecting his “warp speed”-produced injections.

But things may not go so smoothly for the human hackers. India wisely rejected these international felons and saved its 1.4 billion citizens from much higher death rates. And now Thailand, a country of 70 million, may be waking up to the dangers of partnering with Satan. In December of 2022 the eldest daughter of Thailand’s king collapsed and is currently in a coma. The following week the king’s sister experienced heart arrhythmia. And they are now being advised by the top Thai microbiologist and immunologist, Dr. Sucharit Bhakdi, who stated in a taped interview that he laid out information to the highest authorities of Thailand that “this whole COVID-19 agenda is a fake.” After he told the Thai officials that Pfizer had never tested for the safety of these shots, they said they will make all previous contracts with Pfizer “null.” Which means that Pfizer/BioNTech will have to pay back billions of dollars that it received from the Thai government, which Thailand would then use to “recompensate those people who have lost their existence.”

The Indian government and many African governments have wisely refused to allow Pfizer and Moderna to experiment on their populations, and now the Thai government has recognized that it may also have been the victim of a massive pharmaceutical fraud. It is time that the American government acts to protect its citizens from the dangerous experimentation and profiteering of Big Pharma. Otherwise, it appears that we are witnessing the U.S. government actually carrying out the depopulation agenda that the Honorable Minister Louis Farrakhan has warned us about.

"The fact that fasting is the cure to 90 per cent of our ills is known by the medical scientists. But, they do not teach you that." —The Most Honorable Elijah Muhammad

"Doctors" That Pushed Masking & Lockdowns on Twitter Don't Exist

The **San Francisco Standard** revealed yet another COVID scam being propagated by mysterious online actors intent on falsely inflating fear and dread of a disease that has a 99.8% survival rate. Using fake accounts people posing as "doctors" spread false stories of deaths and sufferings from COVID. These posted sob-stories garnered thousands of "likes" and retweets by unsuspecting people taken in by the scam, and further promoted the fear. The messages were calculated to tug on the reader's emotions. A "Dr. Honeyman," who described himself as "transgender," wrote: "Sad to announce that my husband has entered a coma after being in hospital with Covid. The doctor is unsure if he will come out...This year has been the toughest of my life losing my sister to this virus. This is the first time in my life I don't see light at the end of the tunnel."

The Standard said that this was "part of a network of at least four fake accounts that touted their ties to the LGBTQ+ community, vocally advocated for mask-wearing and social distancing, and dished out criticism to those they felt were not taking the pandemic seriously."

Presumably, to make themselves more appealing, the fake doctors displayed the trans, Ukrainian and rainbow flags in their Twitter bios and pushed hashtags like #WearAMask," or catch phrases like "Proud Mask Wearer," and they retweeted each other's messages.

Children face mask study in Spain found no value—only danger

A key study in Spain on masking has found that masks in school "were not associated with lower SARS-CoV-2 incidence or transmission" and that "masks are ineffective for school kids."

The study was among 599,314 children aged 3 to 11 years attending school during the first trimester of the 2021–2022 academic year.

Overall, face mask mandates in schools were not associated with lower COVID-19 incidence or transmission, suggesting that this intervention was not effective.

Dr. Paul Alexander comments: "Let me say it another way, use of face masks in children, young children is illogical, irrational, absurd, nonsensical, specious, baseless, unscientific, unsound, and even harmful."

Pres. Muammar Gadhafi Explains Vaccine Business at the United Nations, 2009

"Today there is swine flu. Perhaps tomorrow there will be fish flu, because sometimes we produce viruses by controlling them. It is a commercial business. Capitalist companies produce viruses so that they can generate and sell vaccinations. That is very shameful and poor ethics. Vaccinations and medicine should not be sold."

"In The Green Book, I maintain that medicines should not be sold or subject to commercialization. Medicines should be free of charge and vaccinations given free to children, but capitalist companies produce the viruses and vaccinations and want to make a profit. Why are they not free of charge? We should give them free of charge, and not sell them."

"The entire world should strive to protect our people, create and manufacture vaccinations and give them free to children and women, and not profit by them. All those items are on the agenda of the General Assembly, which has only to exercise that duty."

This was not just talk: as president of Libya, Muammar Gadhafi built one of the finest health care systems in the "Third World." All citizens had access to doctors, hospitals, clinics and medicines—*free of charge*. If a Libyan needed surgery that is unavailable in Libya, his government provided funding for the surgery to be performed overseas. He raised the life expectancy from 44 to 75 years of age. Bro. Gadhafi was assassinated in 2011.

Scientist Charges Fraud

"We declare that Pfizer, Moderna, BioNTech, Janssen, AstraZeneca, and their enablers, withheld and willfully omitted safety and effectiveness information from patients and physicians, and should be immediately indicted for fraud."

Dr. Michael Yeadon, former Vice President at Pfizer

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

—The Most Honorable Elijah Muhammad

Federal Judge Blocks California Law Punishing Doctors for ‘COVID Misinformation’

A new California law that would have allowed the state’s medical boards to punish doctors for spreading “COVID-19 misinformation” has been blocked after a lawsuit by **Robert F. Kennedy, Jr.’s Children’s Health Defense** challenged the law in court.

In his 30-page opinion, **Senior U.S. District Judge William Shubb** determined the defendants in the case — California Gov. **Gavin Newsom**, Attorney General **Rob Bonta** and California Medical and Osteopathic Boards — provided “no evidence that ‘scientific consensus’ has any established technical meaning,” and that the law provides “no clarity” on the meaning of the word “misinformation.”

Judge Shubb also found the “plaintiffs have established a likelihood of success on the grounds of their Fourteenth Amendment vagueness challenges.”

The lawsuit was filed after Newsom, on Sept. 30, 2022, signed **California Assembly Bill 2098 (AB 2098)**, which was set to take effect Jan. 1.

AB 2098 bars doctors “from providing ‘treatment or advice’ ‘to a patient’ ‘related to COVID-19’ when that treatment or advice includes (1) ‘false information’ (2) ‘that is contradicted by contemporary scientific consensus’ (3) ‘contrary to the standard of care.’ If a doctor goes against this ill-defined ‘consensus,’ the doctor is guilty of ‘unprofessional conduct’ and can face disciplinary action.”

Judge Shubb’s ruling prevents enforcement of AB 2098 pending resolution of the lawsuit.

CHD Chairman and Chief Litigation Counsel **Robert F. Kennedy, Jr.**, who also litigated the case, said:

“CHD and the California chapter are excited and proud to be a part of this groundbreaking litigation, especially since there are other states also trying to censor physicians for speaking out against the mainstream medical’s position of the safety and efficacy while downplaying if not ignoring the harm caused to many who have taken the COVID shots and every booster.”

Kennedy said CHD’s efforts are not limited to the California law. “We are looking into challenging other state laws on the same grounds as we asserted in this case,” he said.

Satan & What Must Be Done

It is sinful that despite the harm being done to human beings, the government continues to heavily promote the uptake of these vaccines. They are using celebrities, professional athletes, preachers, politicians, educators and everyday

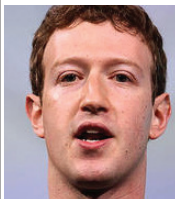

people to pressure us to ‘just get the shot.’ It is time for all of us to become more proactive in fighting this diabolical scheme. The Honorable Minister Louis Farrakhan has relentlessly stood up for

Truth and for us for over 65 years. Can we just get behind him for once and for our own sake? These vaccines are being resisted by millions of people from every race, class and religion. We can defeat the Synagogue of Satan with the Help of Allah (God).

—Sister Minister Ava Muhammad, 2021

Facebook Owner Zuckerberg Tells Staff Not to Take DNA-Altering Vaccine

Mark Zuckerberg has relentlessly censored and banned anyone who would raise any question about the COVID-19 “vaccine.” And yet he was recorded saying the following to Facebook staff on a livestream meeting July 16, 2020—12 days after **Minister Farrakhan’s Criterion** message warning the world of the dangers of the soon-to-be-rolled-out Depopulation serum:

“I do just want to make sure that I share some caution on this because we just don’t know the long-term side effects of basically modifying people’s DNA and RNA to directly code in a person’s DNA and RNA.

“Basically the ability to produce those antibodies and whether that causes other mutations or other risks downstream. So there’s work on both paths of vaccine development.”

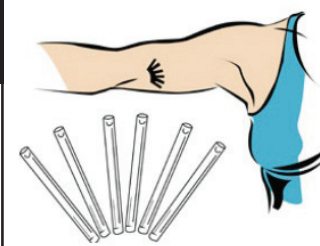

Norplant: Chemical DePopulation Through Black Girls

Norplant is a chemical suppository developed at the Rockefeller-funded Population Council by scientists **Sheldon J. Segal** (in photo) and **Dr. Horacio Croxatto**, beginning in 1966, with the first clinical trial in Chile in 1974. The Population Council had previously developed the problematic Inter-Uterine Device (IUD), a mechanical device implanted in the uterus that both prevents pregnancy and causes spontaneous abortion. The **Population Council** had distributed an astounding 50 million of their IUDs in over 70 countries. 1.1 million women suffered serious side effects from the device before it was banned.

Norplant consisted of six match-stick-sized capsules inserted under the skin in the upper arm of a female that slowly release a contraceptive hormone over a five-year period. The drug was shown to produce adverse side effects in 95% of its users. Once implanted, and even if they caused serious side effects, the capsules were difficult (and expensive, at \$500) to remove.

Norplant became news when in 1991 a white California judge, **Howard Broadman**, sentenced a 27-year-old Black woman to 7 years in prison for spanking her child and then gave her the “choice” of serving just one year

if she would have Norplant implanted in her skin. By this incredible ruling, **Broadman** made himself arbiter of Black procreation and set a chilling “legal” precedent that enables a judge to prescribe a medical procedure. According

to author and medical ethicist **Harriet A. Washington**, “Black women who abuse drugs are 10 times more likely than white women to be subjected to court-ordered long-term contraceptives or sterilization.”

In 1993, the Baltimore health commissioner, **Dr. Peter Beilenson**, advanced a plan to make Norplant available to young girls at the overwhelmingly Black public schools. The drug had never been used in such young children, so the “program” amounted to human experimentation. Even amid public outcry it was given without parental consent to teen girls at the Paquin Middle School, where 350 of its 355 female students were Black. **Dr. Beilenson** pushed the mayor to expand the program to five high schools. Other urban high schools in Los Angeles and Chicago adopted the program of providing Norplant to their students.

By 1996, more than 50,000 women had filed lawsuits against **Wyeth**, the drug company that distributed the Norplant, and the doctors who prescribed it. It was ultimately taken off the US market in 2002, but is still available to millions of women in other countries.

Joseph A. Ladapo, MD, P... @FLSurgeonG... · Jan 19 ...
They are knowingly misleading the American people, just like they did when they denied myocarditis risk for months in 2021, even though millions of young Americans had already received mRNA shots.

Daniel Kotzin @danielkotzin · Jan 27 ...
Did the people calling for lockdowns while covering at home in the spring of 2020 just take it for granted that the so-called essential workers had to “expose” themselves to a “deadly” virus every day on their behalf? They didn’t notice that this arrangement is morally abhorrent?

NOI Research Group @NOIResearch · Dec 26, 2020 ...
WARNING: Do Not Take the Experimental COVID-19 Vaccine
The Honorable Minister Louis Farrakhan warns the Black community against taking the Covid-19 Vaccine with the America’s treacherous history of experimentation, medications and vaccines.

Joseph A. Ladapo, MD, P... @FLSurgeonG... · Jan 19 ...
Here in Florida, we put data and facts over dogma. At this point in the pandemic, it’s likely that these mRNA COVID shots cause more harm than good in most Americans.
