

Gender Transition Surgery: Dreams Turned to Nightmares

Dr. Joseph Mercola Photo: youtube

Part 2 by Dr. Joseph Mercola

[Section Editor's Note: Satan accomplishes depopulation by many means. He expected that his COVID-19 "vaccines" would have a greater impact before their fraud was exposed and his trickery was unraveled. Transgenderism is the latest assault on human existence, with its genital mutilation—and the resulting infertility—being relentlessly pushed on children. As *The Messenger of Allah* told Minister Farrakhan, "You can't fathom the Depths of Satan." In part 2 of the article below (originally published with complete references at Mercola.com), Dr. Joseph Mercola expertly presents some of the satanic realities of transgenderism. See part 1 in *The Final Call*, Vol. 42 No. 35.

Disclaimer: The article below is the commentary of Dr. Joseph Mercola and is not personal health advice.]

Rapid-Onset Gender Dysphoria: A Social Contagion

According to the World Professional Association for Transgender Health, data from Western countries suggest gender dysphoria is now at 8% among children, compared to just a fraction of a percent among older adults.

Children who question their gender but aren't good candidates for permanent transitioning may be as high as 1 in 5! In the U.S., research suggests 5% of 18- to 29-year-olds identify as trans, compared to 1.6% of 30- to 49-year-olds and only 0.3% of those 50 and older.

How is this even possible? How is it that so many young people are suddenly gender confused? Social pressure appears to have a lot to do with it, and that includes pressure from adults, such as school teachers. But widespread trauma may also play a role.

DEFINITION: Gender dysphoria (formerly known as gender identity disorder) is defined by strong, persistent feelings of identification with another gender and discomfort with one's own natal gender and sex.

According to a 2018 transgender identity study described in *Psychology Today*, "rapid-onset gender dysphoria" (ROGD) "appears to be a novel condition that emerges from cohort and contagion effects and novel social pressures."

As such, its etiology and epidemiology is distinct from conventional gender dysphoria described in the Diagnostic and Statistical Manual of Mental Disorders (DSM). Remarkably, 80% of the teens identifying as transgender were girls identifying as boys.

Not surprisingly for those of us who understand how the internet is being used to manipulate impressionable minds, 63.5% of parents reported that shortly before their child announced they were trans, they'd noticed a marked increase in social media consumption. In particular, parents had noticed their child was following popular YouTubers who discussed their transition.

Dr. Lisa Littman
Photo: littmanresearch.com

Signs of Indoctrination

Among the many surprises discovered in that study, the investigator, Dr. Lisa Littman, a behavioral scientist at Brown University, found that one of the many beliefs espoused by these trans teens was that anyone who isn't specifically transgendered is "evil," including gays and lesbians. As reported by *Psychology Today*:

Psychology Today:

"Parents further reported being derogatorily called 'breeders' by their children, or being routinely harassed by children who played 'pronoun-police.' The observation that they no longer recognized their child's voice came up time and again in parental reports.

In turn, the eerie similarity between the youth's discourse and trans-positive online content was repeatedly emphasized. Youth were described as 'sounding scripted,' 'reading from a script,' 'wooden,' 'like a form letter,' 'verbatim,' 'word for word,' or 'practically copy and paste.'"

To me, the fact that trans teens sound like carbon-copies of each other is a sign of indoctrination. A script has been unleashed, and trans activists are repeating that script with the aim

Continued on page 9

Gender Transition Part 2

Continued from page 8

of indoctrinating its audience. We saw the same thing happen during COVID. Mainstream media repeated the script of the official COVID narrative, word for word, day in and day out. Repetition — that’s how you indoctrinate people.

Now, we also have the added pressures of corporations that view the trans agenda as a cash cow (although most who have gone that route are finding out the hard way that trans is still a tiny minority of their customer base, and the rest are not willing to encourage the fomentation of a mental health problem).

Even if corporate CEOs aren’t gung-ho about the trans agenda, many are lured in that direction because they want to optimize their corporate equality index (CEI).

Is Transgenderism a Maladapted Collective Stress Response?

That said, Littman hypothesized that ROGD may be a maladaptive coping mechanism for other underlying mental health issues or trauma. In essence, it may be a form of maladapted collective stress response. *Psychology Today* wrote:

“It is clear from Littman’s study that the rise of rapid-onset gender dysphoria, which seems to predominantly involve natal females, points to a complex web of social pressures, changing cultural norms, and new modes of distress and coping that warrant further investigation. For parents, educators, and clinicians alike, caution is warranted in dealing with this growing phenomenon.”

Cui Bono? (Who Benefits?)

So, who benefits from this maladaptive groupthink? Primarily, that would be hospitals, doctors and surgeons conducting gender reassignment surgeries, and, of course, Big Pharma. The cost for a complete sex change costs, on average, \$132,000, but can run as high as \$200,000 to \$300,000 by the time everything is said and done.

Dr. Robert Malone recently calculated it would cost \$102 billion to transition the current cohort of young adults (a total of 2.58 million kids, teens, and young adults between the ages of 10 and 24) who believe they’re trans. Right now, that’s an untapped market, and it’s quite

clear the health care industry is chomping at the bit to get it going.

At present, insurance companies do not have to cover the cost of sex reassignment surgery, but that could soon change, as the Affordable Care Act website is actively encouraging trans people to sue for unlawful sex discrimination.

What’s Behind the Trans Agenda?

In closing, it’s worth noting that many of the same people who attacked circumcision and fought against body shaming are now promoting transgenderism, which seems to be dehumanizing to the point of self-mutilation.

In the [documentary “Who is Behind the TRANS AGENDA?” [youtube.com/watch?v=tLXdoqXbC6k](https://www.youtube.com/watch?v=tLXdoqXbC6k)], self-proclaimed feminist and investigative journalist Jennifer Bilek discusses the forces behind the trans movement and “gender-affirming medical care” for children.

Dr. Robert Malone Photo: YouTube

Turning humanity into misgendered people incapable of natural reproduction is merely a first step in that direction. Next comes the melding of man with machine and artificial intelligence. Over time, the flesh and blood part of humans will be reduced while the synthetic parts will increase.

Image: Pexels

As explained by Bilek, the trans ideology promotes the idea that you can choose your gender, even though that is a biological impossibility because that’s a stepping-stone to the grander ideology that you can exist without a body altogether, in cyberspace, where you can be whomever you want.

They want the younger generations to get comfortable with the idea that gender is fluid and based on how you feel, rather than what you are, as well as the idea that you shouldn’t want to reproduce because human reproduction will be outsourced to the tech industry.

Over the past decade, Bilek notes, the trans argument has gone from “some people are born in the wrong body,” to simply advocating for the right to augment yourself in whatever way you see fit, to add or strip yourself of whatever appendages you don’t want. According to Bilek, it’s a fetish-based cult, and seemingly rational people are buying into it, not understanding what it’s all about.

I believe the transgender movement poses a severe threat to mental, emotional and physical health, and must be counteracted by level-headed discourse. How can anyone say they’re concerned about children’s health and welfare while simultaneously promoting irreversible surgeries that will pose lifelong risks to their health and render many of them sterile?

It’s one thing to change a child’s pronouns. It’s another to cut off their breasts and penises just because they say they feel at odds with their—for now—elected gender. The very idea that a child should be allowed to decide with such lifelong implications as mutilating their sex organs is incomprehensibly negligent.

And when you consider the hidden motive behind this movement, it reinforces the anti-human, anti-humane nature of it, because children, who are our future, are being physically and psychologically sacrificed to further an ideology that seeks to destroy the human species and turn it into something it’s not.

DePopulation Briefs

"Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine."

—The Honorable Minister Louis Farrakhan, *Swan Song*

Florida's Top Health Official Slams CDC/FDA "Pandemic" Actions

Florida state Surgeon General **Dr. Joseph A. Ladapo** penned a devastating rebuke of the government's leadership for its misguided and deadly "pandemic" policies. Dr. Ladapo's 3-page May 10th beat-down is addressed to U.S. Food and Drug Administration Commissioner **Dr. Robert M. Califf** and the fleeing director of the Centers for Disease Control, **Dr. Rochelle P. Walensky**:

"Your ongoing decision to ignore many of the risks associated with mRNA COVID-19 vaccines, alongside your efforts to manipulate the public into thinking they are harmless, have resulted in deep distrust in the American health care system. Beginning with Operation Warp Speed, and possibly to be continued with an additional \$5 billion investment in Project NextGen, the federal government has relentlessly forced a premature vaccine into the arms of the American people with little to no concern for the serious adverse ramifications.

"It is critical to acknowledge and address the negative global impact caused by the emergence of COVID-19. Nonetheless, after two years, your collective decisions to deny that natural immunity confers comparable or superior protection to COVID-19 vaccination, push mRNA COVID-19 boosters for the young and healthy, and delay acknowledging the risks of vaccine-induced myocarditis have only sowed doubt between the American people and the public health community.

"Data are unequivocal: After the COVID-19 vaccine rollout, the Vaccine Adverse Events Reporting System (VAERS) reporting increased by 1,700%, including a 4,400% increase in life-threatening conditions. We are not the first to observe such a trend. Dismissing this pronounced increase as being solely due to reporting trends is a callous denial of corroborating scientific evidence also pointing to increased risk and a poor safety profile. It also fails to explain the disproportionate increase in life-threatening adverse events for the mRNA vaccines compared to all adverse events."

Shaming of the Unvaccinated: Celebrities Who Pushed the Poison

Holy Qur'an 14:22: "And I [Satan] had no authority over you, except that I called you and you obeyed me; so blame me not but blame yourselves."

Each day brings a new data set amplifying the damage caused by the COVID-19 "vaccines," which have now killed more than 35,000 in America and hospitalized 200,000. It is now abundantly clear that these poisonous chemical concoctions are the weapons deployed to kill off 2-3 billion of the world's population. A major part of the plot was to recruit weak-minded celebrities to relentlessly push the poison through fear-mongering, threats, and public shaming. The ease at which they accepted and performed their role in mass murder is truly breathtaking. Hospitals are now filled with VACCINATED people with every sort of jab-related malady. Here are the poison pushers shaming the unvaccinated, in their own words:

Mika Brzezinski, MSNBC:

"You are the unvaccinated. You are the problem. It is the unvaccinated who are the problem. Period. End of story."

Don Lemon, CNN:

"The only people that you can blame, the only people you can blame—this isn't shaming, this is the truth, maybe they should be shamed—are the unvaccinated." "We have to start doing things for the greater good of society and not for idiots who think that they can do their own research." "Oh, you can't shame them, you can't call them stupid, you can't call them silly—yes, they are."

Michael Steele, MSNBC:

"The unvaccinated are basically beating their breasts, running around the country, saying 'Huh, huh, huh—we don't care; we're living free and so forth.'"

Stephen Colbert, CBS:

"The unvaccinated, a group that includes children and people acting like children. And the rest of us are starting to get pissed off."

Pres. Joe Biden: "We've been patient, but our patience is wearing thin. ...This is not about freedom or personal choice." "The bottom line: We're going to protect vaccinated workers from unvaccinated co-workers."

Arnold Schwarzenegger:

"Well, my freedom is kinda being disturbed here.' No! Screw your freedom."

Jonathan Capehart, MSNBC:

"Anyone you came into contact with will blame you, as will the rest of us, who've done the right thing by getting vaccinated....And don't get me started on the lunatics who won't take any of the COVID vaccines."

Joy Reid, MSNBC:

"The anti-vaxxers, they seem to have a thing for death and home remedies."

Whoopi Goldberg, ABC:

"At some point, people are going to have to grow up. You're either going to have to make a decision. Five gazillion of us are vaccinated, and we're okay. Yeah, people have died. People have died having been vaccinated.... The point is you see us all walking around. You see people who have been vaccinated walking around. We're not walking around with two heads or five tails. We're walking around like everybody else."

Howard Stern:

"It's time for you to get it. Now, if you don't get it, in my America, all hospitals would be closed to you. You're going to go home and die. That is what you should get. Absolutely." "When are we gonna stop putting up with the idiots in this country and just say it's mandatory to get vaccinated? F\$%^ 'em. F\$%^ their freedom. I want my freedom to live..."

Jimmy Kimmel, ABC:

"Dr. Fauci said that if hospitals get any more overcrowded they're gonna have to make some very tough choices about who gets an ICU bed. That choice doesn't seem so tough to me. Vaccinated person having a heart attack, yes, come right on in, we'll take care of ya. Unvaccinated guy who gobbled horse goo? Rest in peace, wheezy."

Dr. Leana Wen:

"Because, frankly, we know that we can't trust the unvaccinated." "We need to start looking at the choice to remain unvaccinated the same as we look at driving while intoxicated."

"Your campaign is about fear. It's about inciting fear in people. You all attack people with fear. That's what this pandemic is. It's fear. It's fear, this pandemic. That's all it is."

“Dr. Anthony Fauci, Bill and Melinda Gates, you want to depopulate the Earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die?”

—The Honorable Minister Louis Farrakhan

‘Absolutely Terrifying’: Candace Owens Starts Series About Vaccine Dangers

Political commentator **Candace Owens** shared her own story of getting two doses of the Gardasil vaccine. “It was absolutely terrifying because I was alone and had bad reactions to both doses,” she said.

Immediately after receiving her first dose of Merck’s Gardasil human papillomavirus (HPV) vaccine at age 19, Candace Owens “hit the ground” and “passed out.”

Owens said her doctor told her she fainted because she hadn’t eaten breakfast. Months later—on a day when she made sure to eat breakfast—Owens received her second dose of the Gardasil three-dose series, and again she passed out, falling off the table. “I remember this moment especially horrifically... When I came to, I began having what can only be described as a mini seizure. I began shaking and I began vomiting profusely.”

Afterward, she sat in her car crying and asked herself what she had just put into her body and why she put it into her body. “Why would I just blanket trust a doctor?” she asked.

Owens told viewers: “I didn’t feel like myself for years after getting that second installment of the Gardasil shot. I had a fatigue that I can’t even describe to you that lasted for years. I felt like my brain didn’t work the same since getting that vaccine.”

As she researched Gardasil she found that even though it is marketed as a preventative against cervical cancer, the numbers did not add up. In 2005, the year before its rollout, there were approximately 149.9 million females in the U.S. and “just 10,370 cases of cervical cancer,” according to the American Cancer Society.

“That means that if you were a female living in the United States in 2005, you had just a .0069 chance of being diagnosed with cervical cancer,” Owens said.

Owens said she is now grateful for her Gardasil injury experience because it is what set her on the path of creating an educational video series that aims to provide information to parents so they can “truly have informed consent.”

Owens is now a mother of two who does not vaccinate her children. Her series—“A Shot in the Dark”—has 11 episodes and covers “the history of every single childhood vaccination on the [Child and Adolescent Immunization] schedule.”

Owens shares her Gardasil injury story in the first episode of “A Shot in the Dark,” which aired May 11 on *The Daily Wire* (dailywire.com/show/a-shot-in-the-dark).

Suspicion Surrounds Death of Dr. Rashid Buttar, a Major Big Pharma Critic

Truth-tellers are mourning the death at 53 of **Dr. Rashid Buttar**, one of the strongest voices opposing the deadly “vaccine” depopulation campaign.

Dr. Buttar had been the target of a smear attack by Big Pharma and its media shells but he steadfastly continued to warn his many listeners against taking the poisonous substance that has now killed more than 35,000 in just America.

Just before his death, a very gaunt-looking Dr. Buttar told an interviewer: **“I had been poisoned with 200 times the amount of what was in the vaccinations. I’ve said publicly that you would have to shoot me in the head with lead—i.e. a bullet—because I’m never going to take the vaccine. So, I was actually intentionally poisoned...right after that CNN interview.”** The CNN interview he refers to took place a year ago, in which he likened U.S. “medical expert” Anthony Fauci to Adolf Hitler.

DEPOPULATION in HISTORY

The current killing off of 2-3 billion of the world’s population via a bio-weapon disguised as medicine may be the most audacious genocide ever recorded, but it is by no means the first. Every European colonizing scheme since Columbus had the genocide of the indigenous people at its core. Columbus himself encountered the Taíno people in 1492 numbering over one million, but by 1514 it had dropped to a mere 35,000, and by 1530, there were 1,148 Taíno left alive. King Leopold murdered 13 million in the Congo, and the Nakbah—the ethnic cleansing of 750,000 Palestinian people—is another depopulation atrocity.

In America after slavery, wholesale killings of Blacks occurred across the South with alarming frequency and shocking depravity. Most of these open racial slaughters were the result of whites coveting land and resources Blacks were settled on.

As one scholar wrote of post-Civil War whites: **“They loathed the Negro and...were ready to hunt him like an animal.”** So many Blacks were slaughtered in one incident in a Texas county that “vultures became a nuisance.”

Depopulation massacres occurred in Memphis and Pulaski, Tennessee; Opelousas, New Orleans, Shady Grove, Colfax, and Coushatta, Louisiana; Eutaw, Alabama; Laurens, South Carolina; Camilla, Georgia; Winston County and Meridian, Mississippi.

Doctor Declares The Pandemic of the Vaccinated

At a recent televised lecture, Canadian physician **Dr. Charles Hoffe** presented alarming evidence about the mRNA “vaccine.”

“Do you remember that we were told that the way out of this pandemic was to get everyone vaccinated? That it was what was going to keep us safe? But what I want to show you next was that literally what has happened to Canada is exactly what happened to those laboratory animals that were tested with the vaccine against the very first SARS virus....That so-called vaccine ended up working as an anti-vaccine and made them more vulnerable to the disease than if they had not been vaccinated. **So what we now have is a pandemic of the vaccinated.** I’m going to show you the evidence that this so-called vaccine is actually **an anti-vaccine**—and that it has increased people’s risk. It increases your chance of getting COVID; it increases your chance of spreading COVID. And it damages your immune system to such a degree that you have a higher risk of hospitalization and death. And of course that’s what the narrative that the public health keep telling us—that even though they now admit it doesn’t stop you getting COVID; it doesn’t stop you spreading COVID; they say it’ll keep you out of hospital; at least you won’t die. And I’m going to show you the evidence for why that is absolutely false.”

Dr. Hoffe was speaking at a conference of Canadian doctors presenting their findings about the “vaccine.” Dr. Hoffe pointed to the Cleveland Clinic study that followed 51,000 healthcare workers for three months to see who was getting COVID: the people that got more of the jabs and the boosters were getting COVID more than anyone else.

He presented the graph (below) with five colored lines showing COVID-19 infections over 3 months:

“The black line at the bottom is the people that were unvaccinated—zero doses of this vaccine. They were getting less COVID than anyone else. The next line up, the red line, is those that had had one dose of the vaccine. The green line: two doses. The blue line: three doses. And the top line, the brown one, were the people that had had the bivalent booster, the one that was supposed to keep you the safest: they were getting COVID more than anyone else. There was an absolute direct linear correlation that the more shots you got, the more likely you would get COVID ...”
