

Five Lies the CDC Told You About COVID-19

Shi Zhengli Photo: YouTube

Ralph Baric, Ph.D. Photo: YouTube

Dr. Anthony Fauci Photo: MGN Online

CDC building Photo: CDC.gov

Lie No. 1: The virus was not engineered—it jumped naturally from bats to humans.

Early on in the “pandemic,” scientists pretty much knew—as almost any microbiologist would—that this virus could not have come naturally from bats to humans. You could actually look up the papers from Dr. Shi Zhengli of the Wuhan Institute of Virology and Dr. Ralph Baric at the University of North Carolina Chapel Hill and see that they were developing coronaviruses, bat coronaviruses, and developing them to infect human lung cells.

There’s one paper where basically it said, “we have developed a bat coronavirus and we have engineered it to preferentially infect human lung cells.” But that paper isn’t considered scientific literature? Instead, government offi-

by Dr. Christina Parks, Ph.D., Cellular and Molecular Biology COMMENTARY

cialists told us that it is this “spontaneous mutation” that made a virus leap from bats to humans in one fell swoop. It doesn’t happen!

And then, of course, when we countered that unscientific narrative, they and the media gaslit us and told us we were all crazy, as scientists.

Lie No. 2: Masks will prevent the spread of viruses and they’re safe to wear long-term.

This one was jaw-dropping for me because as a molecular biologist, I know that viruses are too small to be stopped by masks. And that, if anything, the mask-wearing would increase the viral load in people because the mask causes you to constantly re-breathe it if they get it. And the viral load accumulates on the outside of the mask, which they’re touching. They’re compromising their cardiovascular health and their re-

spiratory health, so that mask wearing in the general public would make things worse, not better.

And, remember, it was March 13, 2020, that we started a lockdown. They didn’t start pushing masks until the end of May or early June. So, when everything was starting, people asked if should they be wearing masks. “No! No! No! No! No!” government officials, including Dr. Anthony Fauci, said. And then, all of a sudden, just wrap a sock around your face and you’re good to go.

That was just such a lie, and now you see people wearing masks, even today when they have a cold, thinking—because government and media have brainwashed some of us—that “I need to protect people from getting ill, so I’ll wear a mask.” Not true.

Continued on page 9

The CDC

Continued from page 8

And of course, as part of that lie was the idea that mask-wearing was not dangerous. And we know from numerous studies that it's probably caused some level of brain damage in our children, who have been wearing them for 6-8 hours a day for a couple of years. Long-term mask usage is a cardio-respiratory nightmare. And it passively facilitates the growth of cancer because it results in acidosis of your body because you keep rebreathing that CO₂ (carbon dioxide).

Lie No. 3: The “vaccines” will prevent transmission.

The pharmaceutical companies and government public health officials knew from the very beginning that these “vaccines” created for “Operation Warp Speed” were never designed to prevent transmission of this virus. This is, of course, criminal because they mandated these pharma products for people to retain their jobs. And they lied to employers, telling them that it was necessary to reach herd immunity or to prevent transmission, and you can't really reach immunity with a vaccine. There are scientific studies that show it did not even reduce the viral load and, in fact, the vaccinated would have a higher viral load in their nose and throat. So, they were more likely to spread it.

I have to say that they may have either created the COVID-19 “vaccine” as a population reduction technique, which I don't know. Secondly, as pharmaceutical agencies, government officials wanted to introduce this idea of a “gene therapy” vaccine. And they wanted to do it in the context of fear so that it would be readily accepted. Research companies spent 30 years and billions of dollars trying unsuccessfully to develop this gene therapy, but it actually increased disease and they couldn't make it work.

Well, if you use it for vaccine technology, you can use a lesser amount—still extremely problematic—and you're telling the body to make a toxic viral spike protein that the body is then going to attack, creating more health problems than it could ever solve. So, it's astonishingly stupid at any level.

And this is where I just don't know if so many people involved in the development of

Photo: MGN Online

this vaccine technology are actually doctors or maybe they're business people and they're not really tuned in to these issues, or if it's just evil. I don't know, because I can't believe that people would go forward with this, because it's so obvious to me what the dangers are—which is, of course, why I'm speaking out. But, I think that they wanted to introduce this new technology, because they thought it would make them money, and they wanted to do it in the context where there was enough fear to overcome any reticence in the population.

Lie No. 4: The COVID-19 “vaccines” are “safe and effective.”

As far as their effectiveness, we know that the protection, even in the lungs, wanes after a matter of months and that the vaccines *mis-train* the immune system so that you become more susceptible to new variants in a way that makes you *more likely to get ill*—not from the variant that you were “vaccinated” against, but from *all* new variants that come up over time. Most of the people are getting “vaccinated” and boosted for a variant that was already out of the population by the time they got “vaccinated.”

And then, of course, they're not safe. The myocarditis (inflammation of the heart muscle) rates, right now, are somewhere estimated to be between 1 in 43 and 1 in 100 for young men. That's an astronomical rate of a complication. And the damage may be progressive, because the heart tissue may be making the viral toxic spike protein that is then causing the body to attack its own cells that are making the spike protein. This damage may be progressive, so we may not have even seen the beginning of this because an 18-year-old heart or a 25-year-old heart can take a lot of damage. And so, a lot of these people may be living with heart damage that's not going to manifest until their system is very stressed, such as we see athletes suddenly falling out on the field, or until the damage gets so bad

that they do pass out or die.

And of course, we're seeing a massive rate of menstrual problems and a massive rate of infertility. Fertility rates are down 25 percent in some countries, at a time when people are locked down in their homes and working from home, and you'd think there'd be more babies. And we're seeing a fetal demise rate that's absolutely astronomical! Typically, the fetal demise rate would be, according to my understanding, around 6 children per 10,000 babies that don't make it. But in Canada where they had vaccine mandates, it went as high as 160 fetal deaths per 10,000 live births. So you're talking about an astronomical increase that's never been seen before. And that's just the beginning: because the lipid nanoparticles in the COVID-19 “vaccines” are fat, they're going right to the ovaries, and so I expect that we will see much higher rates yet of infertility and the onset also of fetal problems.

These “vaccines” are not effective, and they are dangerous. They're not just unsafe—they're downright dangerous. We're seeing increasing rates of cancer, stroke, and heart attacks from these vaccine-induced clots. If the COVID “vaccines” were designed to push some sort of depopulation agenda, they're effective.

Lie No. 5: Children need to be vaccinated.

I believe that the promotion of these “vaccines” to children was to get them on the CDC's Childhood Vaccination Schedule so that the pharmaceutical companies could still maintain immunity from liability once the EUA (Emergency Use Authorization) was gone. But it was a complete lie that kids needed to be vaccinated. Basically, the COVID death rate in children is specifically zero, and yet some places are mandating it for school even though it poses no threat to children. And we have huge signals that both infertility and cancer are huge problems and we're giving this to children that have the rest of their lives ahead of them. We're giving this dangerous “vaccine” to children—and if they get cancer or myocarditis or infertility, it's going to destroy their lives.

Dr. Christina Park is a Ph.D. in Cellular and Molecular Biology. She is an educator, and researcher and scientist who gained widespread recognition following her appearance before the Michigan State Legislature on August 10, 2021, where she forcefully challenged the COVID-19 policies.

"The fact that fasting is the cure to 90 per cent of our ills is known by the medical scientists. But, they do not teach you that." —**The Most Honorable Elijah Muhammad**

U.S. Workers Dying at Highest Rate Ever: AFL-CIO Calls it "The Bad News"

A new report issued by the labor union AFL-CIO titled "Death on the Job: The Toll of Neglect, 2023" notes that "5,190 workers were killed on the job in the United States last year, in addition to an estimated 120,000 workers died from occupational diseases." The Black workers died on the job at the highest rate in more than a decade and Latino workers continue to be at greater risk of dying on the job than all workers.

The report complains that "Employers, elected leaders and the public were led to believe (falsely) that vaccination alone was sufficient to protect people from COVID-19 infection and spread."

"The CDC has issued hundreds of various guideline documents based on topic and industry that change frequently with no public notification. Instead of providing clear, evidence-based recommendations, the guidelines have been plagued with political interference and business demands. Throughout the pandemic, CDC guidelines have been vague and do not create requirements to ensure employers are maintaining safe workplaces."

The report is consistent with alarming insurance industry reports that directly link rising deaths of working-age Americans to the "vaccine" program. And as more and more vaccine deaths and injuries come to light, the report finds that the toll is enormous—estimated at \$174 billion to \$348 billion a year.

Fauci to NYTimes: "Something clearly went wrong."

In a recent *New York Times* interview **Dr. Anthony Fauci** tried to explain away his role in achieving one of the highest COVID death rates on the planet, despite having at his disposal the world's "most advanced" medical infrastructure:

"Something clearly went wrong. And I don't know exactly what it was. But the reason we know it went wrong is that we are the richest country in the world, and on a per-capita basis we've done worse than virtually all other countries. And there's no reason that a rich country like ours has to have 1.1 million deaths. Unacceptable."

Back to SLAVERY with Digital Currency

Deadly "vaccines" formed the basis of the chemical culling of 2-3 billion people from earth, and next is the enslavement of the survivors. That will occur with the introduction of "Central Bank Digital Currency" (CBDC) and the elimination of paper cash. International Monetary Fund (IMF) chief Kristalina Georgieva announced last week that over 110 countries are developing CBDCs.

This will allow anonymous bankers to decide where, when, and how you can spend your own money—or to simply take your money away at any time! Donating to your favorite church, mosque, or charity? Not if the bankers object. If they want to restrict your movements, they simply turn off your money outside of a 5-mile radius of your home, or bar you from buying a plane, train, or bus ticket, or from buying gasoline—all with a few clicks on some banker's computer. They can put your family on the street and shut off your money at the local supermarket. And there will be no challenge or appeal. All bankers' decisions are final.

Want to buy a *Final Call* newspaper? Forget about it.

The ushering in of CBDCs is being sold as a "convenience" but when the Canadian truckers protested President Trudeau's wicked and illegal COVID-19 restrictions that put them out of work, Trudeau simply had their bank accounts frozen and curtailed the people's right to donate to the truckers' cause—just like that. That's the CBDC system in action.

And here is banker **Agustín Carstens** (in photo), the general manager of the Bank for International Settlements, at a 2020 IMF event making it clear that digital currency will allow banks to "enforce" your spending choices:

"[I]n cash, we don't know for example who is using a hundred dollar bill today; we don't know who is using a one thousand peso bill today. A key difference with a CBDC is that the central bank will have absolute control on the rules and regulations that determine the use of that expression of central bank liability. And also, we will have the technology to enforce that. Those two issues are extremely important, and that makes a huge difference with respect to what cash is."

Ultimately, Satan's aim is to implant a microchip under your skin that only the banker can program and access. It will carry your vaccine status, your police record, your credit score, your race, religion, political affiliation, your account balance, and other data that will put your very life in Satan's hands. Through the CBDC slavery will make its long-awaited comeback.

Top Cardiologist on Joe Rogan Says END VACCINES

@DrAseemMalhotra on Big Pharma: "Dr. Robert Hare is a forensic psychologist behind the original criteria for psychopathy, and he says as these legal entities [corporations] conduct their business [they] actually fulfill the criteria for a **psychopath**:

- Callous unconcern for the feelings of others.
- Incapacity to experience guilt.
- Deceitfulness.
- Conning others for profit.

Between 2003 and 2016, most of the top ten drug companies paid fines totaling about \$33 billion for illegal marketing of drugs, hiding data on harms, and manipulation of results, and when those crimes are committed, in most cases, they make more profit from sales of the drugs than the fines."

Dr Aseem Malhotra @DrAseemMalhotra · May 7

The overall net effect of the drug industry on society in the last few decades is a negative one & there are too many people with conflicts of interest making decisions on health policy

Vaccine Corner

The following excerpt is from *How to Raise a Healthy Child... In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

Immunization against Disease: A Medical Time Bomb? Here is the core of my concern:

- There is no convincing scientific evidence that mass inoculations can be credited with eliminating any childhood disease... If immunizations were responsible for the disappearance of these diseases in the United States, one must ask why they disappeared simultaneously in Europe, where mass immunizations did not take place.

- It is commonly believed that the Salk vaccine was responsible for halting the polio epidemics that plagued American children in the 1940s and 1950s. If so, why did the epidemics also end in Europe, where polio vaccine was not so extensively used?

- While the myriad short-term hazards of most immunizations are known (but rarely explained), no one knows the long-term consequences of injecting foreign proteins into the body of your child. Even more shocking is the fact that no one is making any structured effort to find out.

- There is a growing suspicion that immunization against relatively harmless childhood diseases may be responsible for the dramatic increase in autoimmune diseases since mass inoculations were introduced. These are fearful diseases such as cancer, leukemia, rheumatoid arthritis, multiple sclerosis, Lou Gehrig's disease, lupus erythematosus, and the Guillain-Barre syndrome.... Have we traded mumps and measles for cancer and leukemia?

I have emphasized these concerns because it is probable that your pediatrician will not advise you about them. Meanwhile, because routine immunizations that bring patients back for repeated office calls are the bread and butter of their specialty, pediatricians continue to defend them to the death.

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

—The Most Honorable Elijah Muhammad

Presidential Candidate Robert F. Kennedy, Jr. promises punishment of government's COVID Criminals

Health system critic **Robert F. Kennedy Jr.** recently announced his candidacy for president (kenedy24.com), promising Americans that if he wins the White House, he will immediately go after everyone in a position of power “who engaged in criminal wrongdoing during the pandemic.”

Kennedy is the author of the bestselling exposé of the “pandemic” operation titled *The Real Anthony Fauci*. Kennedy said: “It is dawning on mainstream figures like Anthony Fauci that their COVID policies were a public health disaster. Lots of us are angry about the mandates, the lockdowns, the censorship, the insanity. But we need to avoid the toxic quagmire of retribution and blame and focus on ensuring this never happens again. Clean up the regulatory agencies, get corporate money out of public health, and guarantee free, open, uncensored public and scientific discourse.”

“Of course,” he continued, “officials who betrayed the public trust must not be allowed to hold power. I will remove them from their positions and, if laws were broken, my attorney general will prosecute....Just to be clear, I will prosecute any official who engaged in criminal wrongdoing during the pandemic. Corrupt individuals are a small part of the problem. Our agencies have been captured by corporate power, but the vast majority of their staff are decent people. We need to get corporate influence out of all regulatory agencies so that they can serve the people honestly.”

Robert F. Kennedy Jr.
NEW YORK TIMES BESTSELLING AUTHOR
Children's Health Defense

“The so-called American Negroes—the lost and found members of the nation (the Black nation) the first and the last—have been used for experimental purposes. They have suffered every evil thing or idea that entered the heart of the slavemaster and his children. This is going on today, as never before in a wise and scientific way.”

—The Most Honorable Elijah Muhammad
How To Eat To Live, Book 2, “Live Long”

More Women Bearing the Brunt of COVID Vaccine Reactions and Injury

An analysis of CDC data by Carolyn Hendler, JD, of the **National Vaccine Information Center** found that women were reported to have experienced more severe allergic reactions to the COVID-19 shots than men.

According to a February 2021 **American Medical Association** study, during the first month that the shots were made available, women experienced 94 percent of the 66 reported cases of anaphylaxis severe allergic reactions to the experimental mRNA shots. Women also accounted for the first six cases of severe blood clots with low platelet counts after the roll-out of Johnson & Johnson/Janssen “vaccine,” which prompted officials at the U.S. Centers for Disease Control and Prevention (CDC) to temporarily pause use of the “vaccine” in mid-April 2021.

A recent report showed that women between 12-29 years of age who received AstraZeneca “vaccine” were three and a half more times likely to suffer heart disease and/or death in the first 12 weeks after receiving the first dose compared to longer term risk.

More Young Children Ingested Drugs and Illicit Substances During COVID Pandemic

A new study published in the *Journal of the American Medical Association* (JAMA) shows “an increase in ingestion of illicit substances such as cannabis, opioids and ethanol among children under six years old in the COVID-19 pandemic period compared with the pre-pandemic period.”

The **National Vaccine Information Center** reports that “COVID public health policies created many challenges for families and their children. Within the first year of the pandemic, over two-thirds of childcare facilities closed; more than 90 percent of schools switched to virtual learning; more than one-third of adults began working from home, and 18 million adults became unemployed.

“During this period of time, the highest level of adult drug overdose deaths from synthetic opioids was reported in U.S. history. At the same time, children younger than six years old accounted for the majority of illicit substance ingestions with more than 99 percent being unintentional. ...Families were left without adequate child supervision with most childcare centers and schools closed or virtual (during the early part of the pandemic). As overall stress and parental substance use increased, substance use treatment centers and mental health care were disrupted.”

Dr. Paul Marik Interviewed on IVERMECTIN

[Dr. Paul Marik co-founded the Frontline COVID Critical Care (FLCCC) group and subsequently published one of the most comprehensive and effective protocols for treating COVID-19. He was interviewed by the *Epoch Times* in December of 2022.]

“Ivermectin is a remarkable drug. People pooh-pooh it, talk about it as horse dewormer, which is completely absurd. So, if you had to design a drug for COVID, it would look exactly like Ivermectin. It has all the properties that any drug would want: It's antiviral, so it works against a whole host of RNA viruses—this is indisputable. It is anti-inflammatory. We know this. There are multiple studies showing that Ivermectin is a very powerful anti-inflammatory drug. We

know that what it does is, it stimulates the process called autophagy, which is very important in the process of healing and it's one of the main mechanisms that we use to help patients get rid of spike protein. And Ivermectin, believe it or not, stimulates autophagy.

The other thing it does which is important is, it changes, improves the microbiome. So we have all of these bacteria in our gut, and what happens is COVID, and the vaccine, changes your microbiome in a very unfavorable manner, very unfavorable. It causes profound changes in the microbiome, and this in itself has serious consequences. Ivermectin helps restore the microbiome. So it truly is a multifunctional drug, which is safe. And it

works both for early COVID and it also is very effective for the vaccine-injured. We are not making money selling Ivermectin—no one is going to make money. People ask, ‘Well, do you have a conflict of interest,’ ‘Are you selling Ivermectin?’ No, this is a cheap generic drug. The WHO actually had access to Ivermectin at two cents a tablet—2¢. How can you possibly make money off such a cheap drug?”

Hmmm? No "vax" for HIV after 40 years of research. No vax for cancer after more than 100 years of research. No vax for the Common Cold. And yet a virus mysteriously appears and within 12 months a "vax" is found by FOUR Pharma companies all within one week and we are all mandated to take it.

Dr Ahmad Malik @DocAhmadMalik · 5h
Daily health tip - fear
Our government & news promote fear. Fear produces stress response, which produces adrenaline & cortisol. Stress leads to anxiety, impaired immune system, difficulty with concentration & inc pain. Fear impairs critical thinking. Don't live in fear.

Jefferey Jaxen @JeffereyJaxen
Despite findings of increased suicide risks and homicidal ideation linked to antidepressants, the widely used drugs have been spared from the discussions around mass shootings. Is it time we reevaluate the national conversation along with the real history surrounding this class of drugs?

Dr Shankara Chetty @ShankaraChetty
Millions have needlessly died from a simply treatable illness, and now millions have been permanently injured by an ill-conceived, unnecessary vaccine. Time to build an Army out of faith, truth, and self preservation. as what happened thus far was no natural coincidence@elonmusk

FLCCC—Front Line COVID-19 Critical Care Alliance @Covid19Critical
“The more shots you get, the greater your risk of getting COVID... so it has negative efficacy.”
