“Devastating” AMNESTY INTERNATIONAL REPORT on COVID-19 IN U.K. ELDERLY CARE HOMES

Titled “As If Expendable,” the report says that “COVID-19 has had a devastating impact on older persons living in care homes in England. 28,186 ‘excess deaths’ were recorded in care homes in England in 2020, with over 18,500 care home residents confirmed to have died with COVID-19 during this period. UK government decisions and failures resulted in violations of the human rights of people living in care homes, notably the right to life, to health and to non-discrimination. From discharging 25,000 patients, including those infected, into care homes; to denying care homes residents admission to hospital and imposing “do not attempt resuscitation” orders on them without due process, to failing to provide PPE and testing to care homes – Older persons living in care homes were abandoned to die.”

Study: Delta ‘Variant’ Does Not Make Children sicker

After the media falsely hyped the dangers of COVID-19 in children, a new study from England finds that the so-called Delta variant does not appear to cause more severe disease in children than earlier forms of the virus. Researchers compared two groups of school-age children with COVID-19: 694 infected with the Alpha variant, and 706 infected with Delta and found that children infected with Delta had slightly more symptoms, but in both groups very few children needed to be hospitalized and long periods of illness were uncommon: “Our data suggest that clinical characteristics of COVID-19 due to the Delta variant in children are broadly similar to COVID-19 due to other variants,” the researchers concluded. That appears to jibe with data reported by the CDC. Director Dr. Rochelle Walensky said “Although we are seeing more cases in children ... these studies demonstrated that there was not increased disease severity in children...”

News Agency Exposed Using Mannequins in E.R. Scenes

A news report by the Canadian Broadcasting Company on how a COVID Intensive Care Unit (ICU) operates featured a man on a ventilator that was later found to be a mannequin, and the same footage was later aired in another Canadian report. This was the latest of several exposés of fraudulent news scenes shown on major news stations designed to project panic and fear and to push watchers to take the death job.

REPORT: Ivermectin is Used by Hundreds of Congress Members

Despite the government’s condemnation of one of the most effective drugs in stopping COVID-19—a drug that has PROVED to reduce deaths and hospitalizations by more than 90%—a report has surfaced that claims that between 100-200 United States Congress Members (plus many of their staffers & family members) with COVID were successfully treated over the past 15 months with ivermectin, and none have gone to hospital.

Dr. Pierre Kory, the foremost expert on the use of ivermectin for COVID-19, made the claim in a Tweet on October 7th.

Just as in the infamously racist Tukegee Experiments, the government and the pharmaceutical industry has conspired to suppress treatments in order to push their deadly vaccine.

Family ‘Mistakenly’ Given COVID Vaccines Instead of Flu Shots @ Walgreens

CNN reported that a family of four was “mistakenly” given COVID-19 vaccines instead of flu shots at a Walgreens pharmacy in Indiana, according to the family’s attorney Daniel Tuley of Evansville. The family of two adults and two children, ages 4 and 5, have not been publicly identified. Tuley says the family went to Walgreens wanting the annual flu shot and left thinking that’s the shot they each received. But about 90 minutes later a pharmacy employee called to explain the vaccine “mistake.” The Pfizer-BioNTech COVID-19 “vaccine,” also known as **Comirnaty**, has not been approved for children under 12, according to the U.S. Food and Drug Administration (FDA). There are currently no COVID-19 “vaccines” approved for that age group.

Attorney Tuley said, “*The family’s children are both experiencing a fever, body aches, coughs, headaches and nausea.... The 4-year-old has had a fever for over a week, and they are being treated by a pediatric cardiologist for tachycardia and high blood pressure. Their prognosis is uncertain at this point in time, and their medical treatment providers continue to monitor their conditions,*” Tuley said.

After a follow-up appointment the mother said that one child had improved but the other had worsened. “Her blood pressure is in the 98th percentile and she continues to have no energy.”

"What is this army that the modern Pharaoh has sent out to kill the children of the former slaves, since we are the fulfillment of the prophetic picture of the Children of Israel? What is Pharaoh's army? Is the Food and Drug Administration (FDA) a part of that army? Is the Centers for Disease Control (CDC) a part of that army? Are the pharmaceutical companies a part of that army? Is the American Medical Association (AMA) a part of that army? Are the court system and the prison system a part of that army? Is the closing of hospitals in the Black community—is that part of the plan? Is the placement of Black people near hazardous waste sites, is this a part of the armed forces that have been let loose to kill the modern Moses and Aaron and to kill the modern Children of Israel?" —Hon. Pfizer Scientists Say Natural Immunity Is Better than Their Vaccine, Pfizer is "Evil"

Three Pfizer scientists were secretly recorded saying that natural immunity to the "COVID-19 virus" is superior to the "vaccine," and they had been told not to discuss it publicly. Natural immunity occurs when a person with COVID19 recovers and has built-up anti-bodies to fight further corona virus infections.

Nick Karl, one of the scientists, said that those who recovered "probably have... more antibodies against the virus....

So your antibodies are probably better at that point than the vaccination," he added.

Chris Croce, another scientist at Pfizer, told an undercover reporter that people are "probably more" protected by natural immunity when compared with vaccination.

Croce then commented on his own employer: ***"I work for an evil corporation...Our organization is run on COVID money....There's ears and eyes everywhere [at Pfizer]. You don't talk about anything that can implicate you, or ... Big Pharma."***

A third scientist who allegedly works for Pfizer, Rahul Khandke, said that employees have had to sit through many seminars where they're told that getting the company's vaccine is safer than getting COVID-19 and that they cannot discuss the differences in public.

The scientists were speaking to undercover reporters from *Project Veritas*, a nonprofit reporting group.

Sen. Rand Paul (R-Ky.), a medical doctor, said the undercover videos amounted to a "Truth bomb!"

"Pfizer scientists candidly admit naturally acquired immunity to COVID equal to or better than vaccine," Paul wrote on Twitter.

Colorado Hospital Refuses Kidney Transplant to Woman Over COVID-19 Vaccine Refusal

A hospital in Colorado rejected a woman for a kidney transplant after she refused to get a COVID-19 vaccine, officials have confirmed.

Leilani Lutali received a letter on Sept. 28 informing her that the transplant team at the University of Colorado Hospital decided to designate her inactive on the waiting list for transplants.

"You will be inactivated on the list for non-compliance by not receiving the COVID vaccine," the letter states.

According to the United Network for Organ Sharing, a nonprofit that manages the U.S. organ transplantation system, such policies are not unique, but aren't mandated for transplant facilities.

At least one other hospital reportedly rejected prospective transplant recipients over a refusal to get a COVID-19 vaccine.

Sam Allen was told earlier this year by University of Washington Medicine that his heart transplant surgery couldn't be completed unless he got vaccinated.

World Renowned COVID Doctor Makes Startling Claim in 'Vaccine Death Report'

In a lengthy analysis of deaths and injuries caused by the COVID "vaccines," Dr. Vladimir Zelenko issues a dire warning to the world:

"The data shows that we are currently witnessing the greatest organized mass murder in the history of our world. The severity of this situation compels us to ask this critical question: will we rise up to the defense of billions of innocent people? Or will we permit personal profit over justice, and be complicit?"

Networks of lawyers all over the world are preparing class action lawsuits to prosecute all who are serving this criminal agenda. Hundreds of millions of people worldwide are rising up against this criminal operation. To all who have been complicit so far, we say: There is still time to turn and choose the side of truth. Please make the right choice."

Dr. Zelenko is known widely for the remarkable record of success in treating COVID patients, losing only 2 of 6,000 patients who were put on his protocol. Dr. Zelenko was profiled in the August 31st edition of the *Final Call*.

Dr. Zelenko writes that the public is being deceived and that there are "AT LEAST 5 TIMES MORE DEATHS" as a result of the COVID shots than are being reported. He hopes that his Vaccine Death Report "May it be a wake up call for all of humanity."

NY Governor Claims Killer 'Vaccine' is "from God"

New York Gov. Kathy Hochul spoke at a church about "the vaccine":

"It is from God to us and we must say, thank you, God. Thank you. And I wear my 'vaccinated' necklace all the time to say I'm vaccinated. All of you, yes, I know you're vaccinated, you're the smart ones, but you know there's people out there who aren't listening to God and what God wants. You know who they are. I need you to be my apostles..."

Hochul was lt. gov. in the Cuomo administration when it was charged with complicity in the deaths of thousands of the state's nursing home residents.

Study of 68 countries Shows Vaccination had NO EFFECT on Cases

As of October 2021, 6.54 billion COVID-19 doses of the kill shot have been administered, equating to 47.6% of the world population having received at least one dose.

But a new study in the *European Journal of Epidemiology* shows that vaccination did not decrease the number of new COVID-19 cases, and that the “jab” was associated with a slight increase in new cases.

Iceland and Portugal, both of which have more than 75% of their populations fully vaccinated, have more COVID-19 cases per 1 million people than Vietnam and South Africa, which have only about 10% of their population fully vaccinated. Israel has more than 60% of its population fully vaccinated, but it had the highest number of COVID-19 cases per 1 million people in the last few days. The data from US counties were similar.

Out of the five U.S. counties with the highest vaccination rates—ranging from 84.3% to 99.9% fully vaccinated—four of them were on the U.S. Centers for Disease Control and Prevention’s “high transmission” list. Meanwhile, 26.3% of the 57 counties with “low transmission” have low vaccination rates of under 20%.

The study summed up several reasons why the “sole reliance on vaccination as a primary strategy to mitigate COVID-19” should be re-evaluated, including that Pfizer-BioNTech’s injection was only 39% effective in preventing COVID-19 infection and that natural immunity is superior to “immunity” from COVID-19 jabs.

Wall Street Journal Admits that ‘Vaccine’ Raises Serious ‘Fertility Concerns’

The paper highlights the case of ESPN reporter Allison Williams, who left the network when it attempted to mandate the COVID-19 “vaccine.” Williams explained that the many women who have had miscarriages or altered menstrual cycles after receiving the “vac-

cine” convinced her to refuse to take part in the massive Tuskegee-like experiment.

According to the article, “doctors say they are seeing many women who share Ms. Williams’s concerns,” and that a high percentage of pregnant women have refused to take the needle.

The CDC database that keeps track of “adverse events” after vaccination is filled with reports of irregular menstrual problems. Children’s Health Defense reported that “more than 30,000 reports of menstrual irregularities and vaginal bleeding had been made [to] the UK system for collecting and monitoring adverse reactions following COVID vaccines.”

Amish Communities Achieve “Herd Immunity” Without Higher Death Rate, Shutdown, Masks, Or Vaccines

A reporter covering the handling of the COVID issue by the Amish community in Lancaster, Pennsylvania found that “There’s no evidence of any more deaths among the Amish than in places that shut down tight—some claim there were fewer here. That’s without masking, staying at home, or vaccines,” Sharyl Attkisson reported. One of the Amish spokespersons Calvin Lapp was clear: “No, we’re not getting vaccines. Of course not. We all got the COVID, so why would you get a vaccine?”

Once the sickness swept through the Amish community they all achieved “herd immunity,” which is far safer, more effective, and longer lasting than the “vaccines” that have now (officially) killed nearly 17,000 Americans.

Lapp further expounded that “There’s three things the Amish don’t like: And that’s government—they won’t get involved in the government; they don’t like the public education system—they won’t send their children to education; and they also don’t like the health system. They rip us off. Those are three things that we feel like we’re fighting against all the time. Well, those three things are all part of what COVID is.”

STUDIES: Natural Immunity Proved to be FAR BETTER Than “Vaccine”

Government officials from Biden on down continue to ignore the overwhelming number of scientific studies that have shown the “vaccines” to be ineffective failures and mortally dangerous.

According to Dr. Joseph Mercola, who has tracked this research, an Israeli study of 2.5 million people found the vaccinated group was seven times more likely to get infected with COVID than those with natural immunity from a previous infection.

Another Israeli study that included 700,000 people found those with prior SARS-CoV-2 infections were 27 times less likely to develop symptomatic infection for a second time, compared to those who were vaccinated.

A June 11, 2021, Public Health England report showed that as a hospital patient, you are six times more likely to die of the COVID Delta variant if you are fully vaccinated, than if you are not vaccinated at all.

In addition to having the best protection available, those with natural immunity also face higher stakes when taking the COVID shot, as their preexisting immunity makes them more prone to adverse side effects from the “vaccine.”

A Carnegie Mellon study found that the most educated Americans are also the MOST vaccine hesitant. The highest hesitancy was “among those with a PhD.”

Documents Expose Fauci’s Evil Experiments

Freedom of Information documents obtained by the White Coat Waste project show that Dr. Anthony Fauci approved a \$424,000 grant in 2020 for experiments in which dogs were bitten to death by disease-ridden flies.

First, Fauci’s researchers cut the dogs’ vocal cords, allegedly so the scientists would not have to listen to “incessant barking.” They then strapped capsules containing infected flies to the bare skin of the healthy beagle puppies (photo) and kept them in agonizing suffering for 196 days before killing them. The researchers acknowledged it subjected other animals to similar experiments, including mice, gerbils, and monkeys.

That same year, Dr. Fauci’s agency gave \$400,000 to University of Pittsburgh scientists to graft the scalps of aborted fetuses onto living mice and rats. Fauci’s researchers sought to develop rat and mouse “models” using “full-thickness fetal skin” to “provide a platform for studying human skin infections.” (Source: NaturalNews.com)

Vaccine Proven INEFFECTIVE at Stopping Alleged “Variants”

A recent study concluded that those who are fully “vaccinated” against COVID-19 are in fact more susceptible to COVID variant infections than unvaccinated people.

A scientist explained that “Among vaccinated individuals, a COVID variant virus is not recognized by the specialized antibodies provided by the vaccine, and the natural antibodies have been

programmed to stand down.” And this allows the “variant” to thrive. The fully vaccinated were more likely than unvaccinated persons to be infected by variants carrying mutations.

Floyd Mayweather Backs Kyrie Irving’s Refusal to be Exterminated

Mayweather Tweeted his support for Irving, who is being persecuted by the NBA for choosing not to be injected with the unknown “vaccine” serum. The great athletes Marvin Hagler and Hank Aaron both died after taking the COVID “vaccine”:

“Kyrie, what’s up? I know you’re going through a lot.... You only want to be treated fair.... [Y]ou’re a great person, great father, great athlete. And you believe what you believe.

“America is the land of the free: freedom of speech, freedom of religion and, supposedly, freedom to choose. Never be controlled by money. I respect you for having some integrity and being your own man. A free mind makes his own choices, and a slave mind follows the crowd. Stand for something or fall for anything. One man can lead a revolution to stand up and fight for what’s right. One choice, one word, one action, can change the world. It’s crazy how people hate you for being a leader. I hope your actions encourage many others to stand up and say enough is enough.

“Respect to you, Kyrie, and power to the people.”

@FloydMayweather

Choice is defined as an act of selecting or making a decision when faced with two or more possibilities. America gave us the choice to take the vaccine or not take the vaccine. As time moves on, that choice is gradually being stripped from us.

The REAL Pandemic: Diabetes Accelerated During “Pandemic”

Diabetes deaths surged during the COVID-19 pandemic, rising 17% in 2020, according to a report on Mercola.com. “Even diabetics who didn’t get COVID-19 suffered, often falling victim to isolation, social distancing, lack of medical care and fear.”

Diabetes disproportionately affects Blacks, who are twice as likely as whites to die from the diet-induced disease and 2.3 times more likely to be hospitalized for limb amputations. “Inactivity and poor diet are fueling the diabetes crisis, causing people to develop the condition at younger ages. Diets focused on ultraprocessed foods and fast foods are the root of the problem,” reports Dr. Joseph Mercola.

During the plague of fear and forced vaccinations many diabetics were forced to delay medical care. Among 8- to 20-year-olds, diabetes diagnoses tripled in 2020 at Children’s National Hospital in Washington, D.C.; school closures and reduced physical activity triggered by the pandemic were likely factors in the sudden rise.

While COVID-19 was a problem—40% of COVID-19 deaths occurred among people with diabetes—even diabetics who didn’t get COVID-19 suffered: Younger people have been disproportionately affected, with diabetes deaths among 25- to 44-year-olds, jumping 29% in 2020.

Diabetes treatment costs top \$230 billion a year in the U.S., yet the diabetes mortality rate is 42% higher than it is in 10 other industrialized countries.

Moderna: Dr. Kizzy DID NOT Invent Vaccine

Anthony Fauci, the mad scientist leading the COVID-19 depopulation campaign, tried to push the poison into the arms of “my African-American brother and sisters” with these words: **“The vaccine you are going to be taking was developed by an African American woman. And that is just a fact.”** He was referring to his “colleague” at the National Institutes of Health **Dr. Kizzmekia Corbett**, who is now at Harvard.

But according to the *NY Times*, Moderna and the NIH “are in a bitter dispute over who deserves credit” (and the billions of dollars of profits) for inventing the coronavirus “vaccine.”

The NIH claims that three scientists including Corbett should be named on the “principal patent application.” But Moderna said it had determined that “these individuals did not co-invent” the vaccine at all. It names several of its own employees as the sole inventors.

LA Sheriff Warns Of “Mass Exodus” Of Employees Because Of Vaccination Mandate

Los Angeles County Sheriff Alex Villanueva warned that more than a thousand key employees would leave his department unless the state’s ill-conceived vaccine mandates are revoked. “We are experiencing an increase in unscheduled retirements, worker compensation claims, employees quitting, and a reduction in qualified applicants... I think we need to start a slowing down [of] this whole business about the mandates and I’ll give you a prime example. **Israel has the highest vaccination rate in the world and is one of the highest infection rates in the world.** And so let’s slow down on the mandates to start working with our

employees to get them to voluntarily comply.” More than 3,000 deputies and other department employees have yet to register their vaccination status with the county and would be terminated under the draconian policy.

Rabbinical Court “Forbids” Youth, Pregnant Women, Others From Taking “Vaccine”

A New York Rabbinical Court officially decreed that the mRNA COVID shot is “absolutely forbidden” for children, adolescents, young men and women. The decision stated:

“We heard from doctors who invented and manufactured the mRNA [and] they illustrated to us the **profound danger and harm inherent in this new technology.** They showed us how the governmental agencies and the pharmaceutical companies deny this fact, and how they conceal the data, making it so difficult for the public to realize the **severe adverse reactions and mortalities** that have befallen so many people who received the injection. We were also made privy to how they withhold the said information through various means, preventing the injuries and deaths from being publicized by the media or on the internet, as known.

“We also heard testimonies from our fellow Jews who suffered injuries, and even worse Heaven forbid, and also how **this injection is harmful to procreation and fertility.** And most importantly—we heard how there are tested and simple medications that have been successful in treating this disease, yet the governmental agencies have denied this, and even outlawed the said medications, **doing everything they can to promote fear, not health**—despite the fact that they themselves were aware that these medications work.

“And now they have approved the mRNA for children as well—for whom it is universally known and is accepted fact that the disease presents no risk of danger—and their intention is to mandate the injection for children as a requisite for attending yeshivas and religious girls’ schools, Heaven forbid.”

RABBINICAL RULING: *“It is absolutely forbidden to administer or even to promote this injection to children, adolescents, young men or women; even if it means that they will not be permitted by the government to attend yeshiva or seminary or to study abroad, etc. It is an explicit obligation to protest against this mandate, and anyone who can prevent the injection from being forced upon our youth must do so, forthrightly and emphatically.”*

Pandemic of Heart Attacks: At Least 75 Athletes Collapse from Cardiac Arrest

The Highwire COVID news center released a video containing news reports of more than 75 athletes from around the world who collapsed from heart failure in the last year. The sheer number of cases is shocking, and this heart attack pandemic has occurred as COVID “vaccine” mandates have been imposed on many athletic programs and professional leagues. The dangerous “vaccine” serum is known to cause blood clots and severe heart damage. Many of the athletes suffered heart attacks during games, several of them on film.

“Now a message to Satan: We know you’re angry. We know you’re vexed with us and we know in your hearts you desire to kill us all. But I’m telling you, Satan and your hosts, you can’t do it. And the moment you are insane enough because you have been rejected of God, because you are driven away from the face of God, the accursed one, and because He’s caused you to remain disappointed and He has judged you as being errant, the moment you try to destroy what God has come to save, He will bring down the full weight of his wrath on you.”

Robert Kennedy, Jr. Releases New Book on the Crimes of Dr. Anthony Fauci

“I would say this is Armageddon. It is the apocalyptical forces of ignorance and greed and totalitarianism and this is the final battle. We need to win this one.”

Attorney and consumer and patient rights activist **Robert Kennedy** releases his long-awaited exposé *The Real Anthony Fauci*. Kennedy writes that “Over his 50-year career as a government bureaucrat, Dr. Fauci has consistently served the interests of himself, Big Pharma and the military—while failing the American public.”

The book “unearths facts about Dr. Fauci that should alarm every American who cares about this country. [He] sabotaged safe and effective off-patent therapeutic treatments for AIDS; violated federal laws to allow his pharma partners to use impoverished and dark-skinned children as lab rats in deadly experiments with toxic AIDS and cancer chemotherapies, [and] will personally profit from sales of Moderna’s COVID vaccine.”

ABC News: “Scientists mystified” as to Why Africa COVID Rates Are So Low

Health officials had feared the pandemic would sweep across Africa, killing millions. But death rates among the mostly unmasked and hardly “vaccinated” Black population are among the lowest on earth. In one recent week Zimbabwe recorded just 33 new COVID-19 cases and zero deaths.

Dr. Wafaa El-Sadr, chair of global health at Columbia University said, “Africa doesn’t

have the vaccines and the resources to fight COVID-19 that they have in Europe and the U.S., but somehow they seem to be doing better,” she said.

Fewer than 6% of people in Africa are vaccinated. For months, the WHO has described Africa as “one of the least affected regions in the world” in its weekly pandemic reports.

HO data show that deaths in Africa make up just 3% of the global total. In comparison, deaths in the Americas and Europe account for 46% and 29%.

In Nigeria, Africa’s most populous country, the government has recorded nearly 3,000 deaths so far among its 200 million population. The U.S. records that many deaths every two or three days.

Oyewale Tomori, a Nigerian virologist who sits on several WHO advisory groups, suggested Africa might not even need as many vaccines as the West. It’s an idea that, while controversial, he says is being seriously discussed among African scientists.

Australia building PERMANENT COVID Concentration Camps for Un-“vaccinated”

Australia is constructing “quarantine” camps that the government says will be needed to house people “who have not had access to vaccination.”

Australian officials are funding the construction of massive compounds, one of which reportedly has 1,000 beds and is expected to be completed by the end of March 2022.

Attorney **Alan Dershowitz** (shown here with his friend pedophile **Jeffrey Epstein**) was asked if Americans can be forced to take a vaccination:

“Absolutely. Absolutely. And if you refuse to be vaccinated, the state has the power to literally take you to a doctor’s office and plunge a needle into your arm....[Y]ou have no right to refuse to be vaccinated against a contagious disease. Public health, the police power of the Constitution, gives the state the power to compel that; and there are cases in the United States Supreme Court.”

Sifting through over 30,000 grants in the company’s database, MintPress reported that the **Gates Foundation** has bankrolled hundreds of media outlets and ventures, to the tune of at least \$319 million.

Recipients of this cash include many of America’s mainstream media outlets, including **CNN, NBC, NPR, PBS** and **The Atlantic**. Gates also sponsors a myriad of influential foreign organizations, including the **BBC, The Guardian, The Financial Times** and **The Daily Telegraph** in the UK; prominent European newspapers such as **Le Monde** (France), **Der Spiegel** (Germany) and **El País** (Spain); as well as big global broadcasters like **Al-Jazeera**.

Florida Reports Lowest Daily COVID-19 Cases per Capita in US

Florida is now tied for the lowest daily COVID-19 cases per capita in the United States. State officials had been attacked for implementing a science-based approach to COVID treatment in place of the disastrous **Bill Gates/Anthony Fauci** depopulation method of mask and vaccine mandates, lockdowns, and business closures. That failed regime made America the worst-performing ‘Western’ country in the world, after places like Hungary, Chechia, Slovakia, Lithuania, Slovenia, and Colombia, and actually 3.5 times worse than the global average. Americans fearing COVID would fare much better by moving to China, Afghanistan, Iraq, or ANYWHERE in Africa, than in Biden’s America. Since Florida’s governor appointed **Dr. Joseph Ladapo** as its surgeon general, the state has become a model of pandemic responsibility and effectiveness.

In November, Florida filed a lawsuit against the **Biden** administration over its employer vaccine mandate, which was slated to go into effect on Jan. 4 and would require businesses with 100+ employees have their workers submit to weekly COVID-19 testing and mask-wearing if they don’t receive the “vaccine.” The federal U.S. Fifth Circuit Court of Appeals issued an order days later blocking enforcement of Biden’s OSHA rule.

Kennedy Book Tallies Devastating Result of Fauciism on Middle Class

According to author Robert F. Kennedy, Jr., “Dr. Fauci’s business closures pulverized America’s middle class and engineered the largest upward transfer of wealth in human history. In 2020, workers lost \$3.7 trillion while billionaires gained \$3.9 trillion. Some 493 individuals

became new billionaires, and an additional 8 million Americans dropped below the poverty line. The biggest winners were the robber barons—the very companies that were cheerleading Dr. Fauci’s lockdown and censoring his critics: Big Technology, Big Data, Big Telecom, Big Finance, Big Media behemoths.”

Emmy-Winning Reporter: ‘Fauci represents Nazi Doctor Joseph Mengele’

Former *60 Minutes* correspondent and Emmy-winner **Lara Logan** compared **Anthony Fauci** to a Auschwitz concentration camp doctor on a Fox News broadcast:

“What you see on Dr. Fauci, this is what people say to me, that he doesn’t represent science to them. He represents Josef Mengele ... the Nazi doctor who did experiments on Jews during the Second World War and in the concentration camps. And I am talking about people all across the world are saying this. Because the response from COVID, what it has done to countries everywhere, what it has done to civil liberties, the suicide rates, the poverty, it has obliterated economies. The level of suffering that has been created because of this disease is now being seen in the cold light of day, i.e. the truth, and people see there is no justification for what is being done.”

Fox host Lara Logan says that people tell her that Dr. Fauci doesn’t represent science, but represents Josef Mengele, the Nazi doctor known as the “Angel of Death” for performing medical experiments at Auschwitz: “I am talking about people all across the world are saying this”

Logan was swiftly attacked by Jewish groups for making the comparison, but she “doubled down” on her statement. In a series of Tweets she exposed Fauci’s role in funding Nazi-like AIDS drugs experiments at the Incarnation Children’s Center in New York, where the mostly Black orphans were being used as guinea pigs, and over a period of several years.

Logan cited the work of investigative journalist Liam Scheff, who revealed that experimental drugs were often force-fed through nasal and gastric tubes on some of the 532 children used in the study. Some trials were sponsored by drug companies, including Merck, BristolMyers Squibb, Glaxo Wellcome and Pfizer.

Scheff wrote that “I reported several deaths in children, and although the mainstream denied that any deaths were due to drug toxicity, they admit that over 200 children died.”

To this day, Logan points out, **Dr. Anthony Fauci** has never answered for his and the NIH’s role in funding these medical atrocities.

Suspicious “variant” Appears on Schedule to Push Fear and “Vaccines”

With the public tiring of the government and media COVID lies and deceptions, and with “infections,” deaths, and hospitalizations plummeting, authorities now claim that a “variant” has appeared to revive world panic and fear to “boost” their depopulation-shot campaign.

Even though there is no actual scientific test for “variants,” authorities claim that the “omicron” mutation has appeared in South Africa. And even though doctors say it has “very mild” symptoms, it has served to justify travel restrictions, mask mandates, testing and quarantine requirements, and other civil rights encroachments.

Omicron symptoms reported include fatigue and body aches—not unlike a cold or flu. A S. African doctor interviewed by Reuters said that “Most of them are seeing very, very mild symptoms and... We have been able to treat these patients conservatively at home.” She also said that more than half of the patients she treated were “vaccinated” even though only 6% of Africans in the entire continent have submitted to the death “jab.”

Adding to suspicions is the *New York Times* report that “Just days before the Omicron variant was first detected, health officials in South Africa turned away shipments of doses from Pfizer-BioNTech and Johnson & Johnson, worried that their stockpile of 16 million shots might spoil amid insufficient demand.”

Japan Succeeds in Stopping “COVID” With Safe & Effective Ivermectin

Despite Big Pharma-funded media attacks on Ivermectin, the inexpensive and Nobel Prize-winning drug, health authorities in Japan allowed its use as a COVID treatment in August and immediately experienced a dramatic decline in hospitalizations. Citing impressive results from other nations, Dr. Haruo Ozaki, chairman of the Tokyo Medical Association, recommended the use of Ivermectin as a

treatment for COVID-19 and physicians began prescribing the drug. This comes after Japan suspended use of about 1.63 million doses of Moderna vaccine after contamination was found in unused vials.

The safe and effective Ivermectin treatment is especially significant because the toxic “vaccine” has failed to do what manufacturers claimed it would do: stop infections and stop transmission—it does neither. The only “benefit” they now claim it may have is to decrease hospitalizations, but Japan has proven that Ivermectin is far better at that, for it to work it requires that **ONLY THE PERSON WITH SYMPTOMS NEEDS TO TAKE IT—NOT THE WHOLE POPULATION.**

Of course, there is no money in this for Pfizer, Moderna, or J&J, so Japan’s success is being ignored by mainstream news outlets.

“Angry” LeBron James Calls COVID Test “Fishy” Yet Another High-Profile Vaccine Failure

Megastar LeBron James was criticized a few months ago when he declined to publicly endorse the COVID-19 vaccine, saying the decision is a “private thing.” When James was speaking up on racial justice issues whites demanded that he “shut up and dribble.” Now Big Pharma demanded that he speak-up and openly submit himself to an untested chemical concoction of unknown “secret” ingredients that the CDC says is now responsible for an estimated 19,249 deaths.

Under threats of lost wages from the NBA commissioner Adam Silver, James and a reported 97% of NBA players succumbed and took the shot.

Despite taking the “jab” James “tested positive for COVID-19.” ESPN reports that James has voiced harsh criticism of the NBA’s covid “protocols.”

“I just thought it was just handled very poorly.... There was not a follow-up test after my positive test. It was straight to isolation and you’ve been put into protocol. That’s the part that kind of angered me. I had to figure out a way to get home from Sacramento by myself. They wouldn’t allow anyone to travel with me, no security, no anything, when I traveled back from Sacramento. And then I had to put my kids in isolation for the time being, the people in my household in isolation for the time being, so it was just a big-time inconvenience. That was the anger part.”

COVID-19 in Tokyo Japan

James becomes the latest in a growing list of high profile “vaccine” failures where “fully vaccinated” people still contracted COVID-19: Chris Rock, Khloé Kardashian, Jen Psaki, Ed Sheeran, Jeff Bridges, Wendy Williams, Bill Maher, Melissa Joan Hart, Brett Kavanaugh, Rev. Jesse Jackson and Reba McEntire.

James Tweeted to his 50 million followers that the diagnosis appeared “fishy” (in emojis) to him, and certainly no one is willing to demand answers from Pfizer, Moderna, J&J, Adam Silver, or Joe Biden for the snake oil failures.

Pfizer, Moderna Vaccines ‘Dramatically Increase’ Heart Attack Risk, Renowned Cardiologist Warns

A study by Dr. Steven Gundry of 566 patients who received either the Pfizer or Moderna vaccines shows that the risk of heart attacks or other severe coronary problems more than doubled months after the vaccines were administered. Gundry’s findings were presented at the American Heart Association’s annual conference.”

An explosive GBNews interview on Nov. 25 with British cardiologist Dr. Aseem Malhotra has now been viewed more than 2 million times. “We now have evidence of a plausible biological mechanism of how mRNA vaccine may be contributing to increased cardiac events....What this research has shown is that...*There’s been a significantly increased risk from 11% at five years, the risk of heart attack, to 25%. Now, that’s a huge increase.*”

Dr. Malhotra says, “I have been told by colleagues that they are seeing younger and younger people coming in with heart attacks.” Other cardiologists have contacted him and are aware of this heart attack risk from the vaccines but they are afraid to come forward: “They aren’t going to publish their findings, they are concerned about losing research money from the drug industry.”

Malhotra continued, “*We know since July there’s been almost 10,000 excess non-COVID deaths, and most of those or a significant proportion of those have been driven by circulatory disease, in other words, heart attack and stroke, [and] there’s been a 30 percent increase in people dying at home and often these are because of cardiac arrest.*”

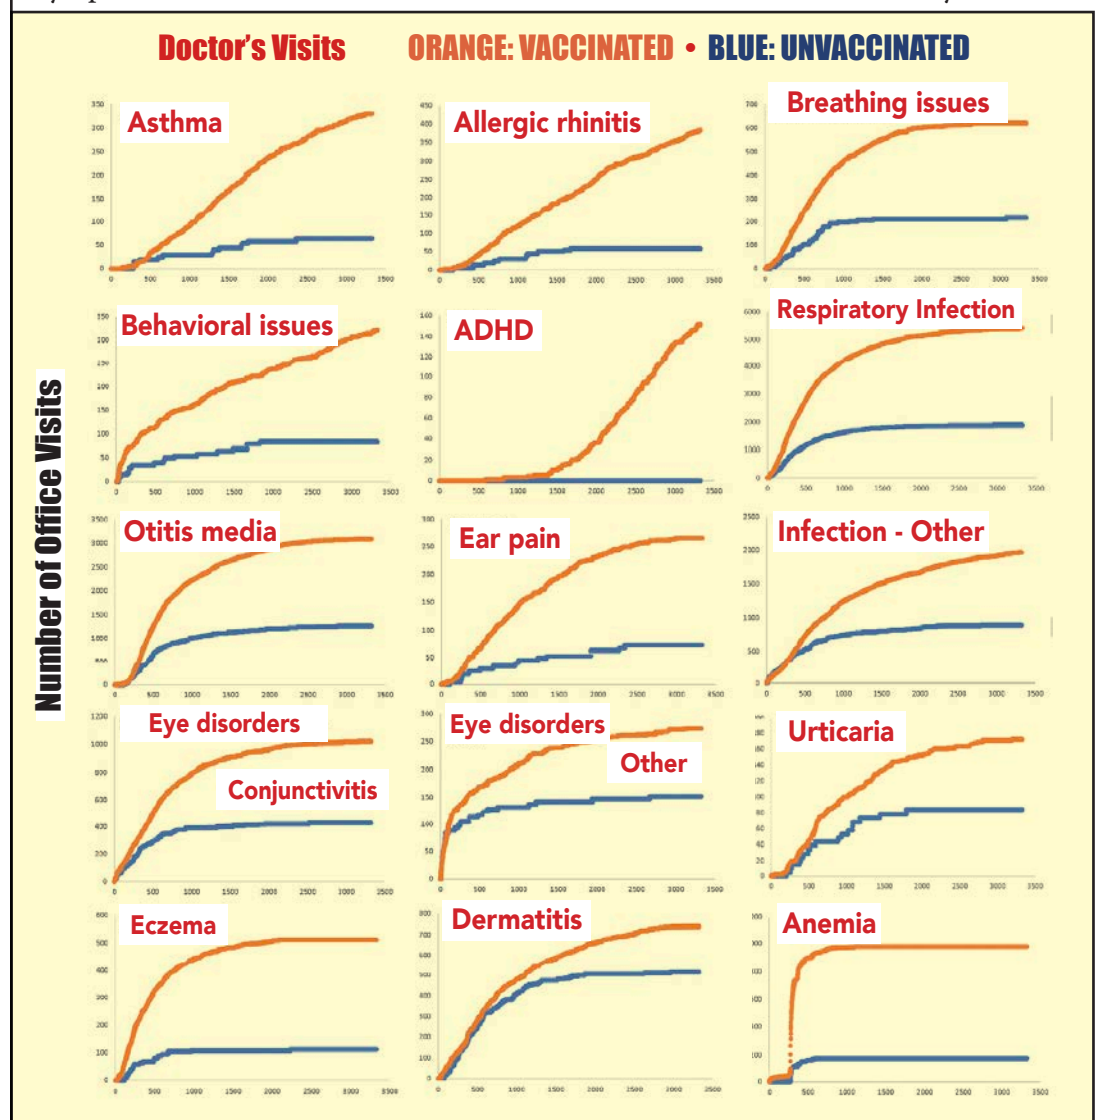

Many believe that the growing number of vaccine deaths and injuries will be blamed on the “variants,” but heart attacks are not symptoms of COVID-19 disease—they are *known side effects of the covid vaccines.*

Study Reveals Alarming Rise in Sickness Among VACCINATED Children

A 10-year study comparing vaccinated and unvaccinated children has shown a rise in office visits for a wide range of symptoms among vaccinated children. The study was conducted by Dr. Paul Thomas (in photo) and Dr. James Lyons-Weiler, who tracked patients over time in their pediatric practice. “Remarkably,” they write, “zero of the 561 unvaccinated patients in the study had attention deficit hyperactivity disorder (ADHD) compared to 5.3% of the vaccinated; the overall rate of autism among the unvaccinated children “is one-fifth that of the US national rate.” The data, they say, may indicate that the unvaccinated children “*are healthier overall than the vaccinated.*”

The implications of the study have alarmed vaccine advocates and Big Pharma, who have made moves to punish the physicians, including the revoking of Dr. Thomas’s medical license. Below is a chart that presents the doctors’ findings comparing symptoms of vaccinated and unvaccinated children over the course of 10 years.

“Vaccine Segregation” Hits USA

Water hoses, police dogs, lunch counter discrimination, and “Whites Only” signs are back in America as a new reality. It is now sinking in that “Vaxxed Only” is becoming “the new normal.” Many reports have circulated reporting **vaccination segregation**:

- **One airline is charging unvaccinated employees \$200/month extra on their health insurance.**
- **One company put porto-potties in the back of the building for the unvaccinated.**
- **One company put unvaccinated employees on a separate floor and they were not allowed to leave during the work day.**
- **One company required the unvaccinated to wear an N95 mask with a face shield and it could not be removed at any time during the work day.**

In spite of proof that the forced “vaccine” has failed miserably at what it claimed it would do; and the fact that 20,000 healthy people have perished by the needle, Anthony Fauci and the depopulators he represents have succeeded in making “vaccination” a true doomsday cult.

Fauci on Forcing ‘Jabs’

Dr. Anthony Fauci told the “Fox News Sunday” show: “When you are in a public health crisis, sometimes unusual situations require unusual actions. **In this case, it’s things like mandating, be they masks or vaccinations.**”

“They’re very important. We’re not living in a vacuum as individuals. We’re living in a society and society needs to be protected. And you do that by not only protecting yourself, but by protecting the people around you by getting vaccinated.”

HR-550: Law Leading to Vaccine Passports

The holy grail of Big Pharma is to have the governments of the world force their toxic swill into every living being. Weak-minded leaders are deceived, threatened, and blackmailed into passing laws that require proof of vaccination to work, to eat, to buy, to attend school, to vote (Revelation 13:16-17).

HR-550 is now making its way through Congress, introduced by **Rep. Ann Kuster**, a former lobbyist for Merck Vaccines and the Pharmaceutical Research and Manufacturers of America (PhRMA). Her bill is called the “Immunization Infrastructure Modernization Act,” and it is designed to create a **centralized database of every individual’s vaccine status**. It would give government access to your health records and the ability to punish private citizens for their own health choices.

Such a program is already being tested on Africans in Ghana. In 2020 **Bill Gates** and **Mastercard** rolled out their “Trust Stamp” — a “digital vaccination record and identity system,” which diabolically integrates vaccines and Mastercard’s credit buying platform. Critics already see it as having nothing to do with health and everything to do with increased surveillance and predictive policing.

As if on cue, Ghana has just announced that the failed COVID-19 “vaccine” will be mandatory.

COVID “Vaccine” Jabs Dangerous and Ineffective

Dr. Peter McCullough, a world renowned cardiologist, internist and epidemiologist, and editor of two peer-reviewed medical journals, says that harmful, fraudulent scare tactics are being used to keep COVID sufferers away from more effective treatment options and push them to the “vaccine.” Dr. McCullough warns that the shots are causing severe heart damage in younger people, whose risk of dying from COVID-19 disease is inconsequential.

Dr. McCullough says that “While you only get at most six months’ worth of protection from any given shot, each injection will cause damage for 15 months. If we

continue with boosters, eventually, it’s going to be impossible to ever clear out the spike protein. If your body is still producing the spike protein— which is what’s causing the blood clots and cardiovascular damage—and you take an additional shot every six months, there will come a time when your body simply cannot withstand the damage being caused by all the spike protein being produced.”

Won't Stop the Killing Biden Death Toll — 370,000

In his debate with Trump in October 2020 Biden said this:

“220,000 Americans dead. If you hear nothing else I say tonight, hear this....Anyone who is responsible for that many deaths should not remain as president of the United States of America.”

When **Joe Biden** took over the presidency on January 20, 2021, there were 424,396 deaths attributed to COVID-19. As of December 12, 2021, the CDC records 794,558 COVID deaths. Under the Biden presidency, there have been 370,162 deaths—150,162 MORE than Biden’s maximum for removal from office.

COVID Case Numbers Inflated by Faulty “PCR Test”

The DePopulators have relied on the PCR test to generate the fear and panic necessary to push their deadly “vaccines.”

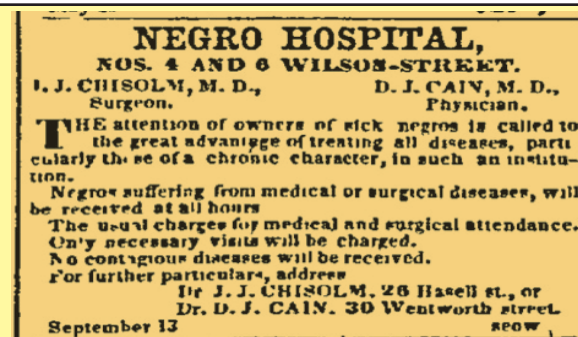

But that test, in which 8-inch Q-Tips are inserted deep into the nose, is being “Discontinued” by the CDC on December 31st. 22 top experts of the **International Consortium of Science** determined ten serious flaws with the test and deemed it useless for detection of COVID-19; and independent studies have determined that the test may give erroneous “positive” results in up to 90% of tests.

In fact, the Nobel Prize-winning inventor of the PCR test, **Dr. Kary Mullis**, says it should NEVER have been used for diagnosing disease. Dr. Mullis died in 2019 but he had said this of his former colleague **Dr. Anthony Fauci**, the prime advocate of the PCR test: ***“Guys like Fauci get up there and start talking, and he doesn’t know anything really about anything, and I’d say that to his face. Nothing....He doesn’t understand electron microscopy and he doesn’t understand medicine. He should not be in a position like he’s in.”***

Early on, **Tanzania’s** former president **John Magufuli** (now deceased), who had a Ph.D. in chemistry, suspected the PCR test was being fraudulently used to inflate COVID case numbers. He surreptitiously sent in PCR test swabs from a goat, a papaya, a sheep, and motor oil, giving each sample a human name, gender, and age, and they all tested positive for COVID-19! With the scam exposed—and by a certified chemist, no less—Africa became more vaccine-resistant than it ever had been.

Pres. Magufuli reportedly said, ***“You should stand firm. Vaccinations are dangerous. If the white man was able to come up with vaccinations, he should have found a vaccination for AIDS by now; he would have found a vaccination [for] tuberculosis by now; he would have found a vaccination for malaria by now; he would have found a vaccination for cancer by now.”***

Further, the PCR test can not and does not test for “variants.” According to scientists, identifying “variants” requires “a more complex genomic sequencing from labs at state, federal, and private levels,” which are expensive and RARELY done. And so the claims that “COVID variants” are sweeping through this or that state, country, or region are almost entirely based on fear mongering—not science.

Reporter Silenced After He Asked Why Travel Ban' Only On Black African Nations

Reporter **Simon Ateba** of *Today News Africa* has been snubbed by the White House after he asked why Biden's COVID travel ban only involved Black African countries:

“The U.S. is among the countries that have imposed sanctions on ... 8 African nations, when...the variant is in 57 countries. Why don't you just lift it or impose sanctions on all the countries that have it? What would you say to those who believe that this is a racist ban that targets only African and Black African nations?”

Biden's spokesperson **Jennifer Psaki** tried to silence the insistent African reporter but she could not ignore the substance of Ateba's question. The African continent is largely unaffected by the coronavirus and to date 94% of Africans have refused to be “jabbed” with the deadly liquid, including 75% of African health workers, who cite “concerns over vaccine safety and adverse side effects.”

The “Omicron variant” has now been allegedly detected in 77 countries, so Biden's Blacks-only travel ban appears to be punishment for the Africans' mass refusal of the “vaccine.” Nigeria—where only 2% of their 206 million people are fully “vaccinated”—just destroyed one million expired donated COVID-19 doses. Faisal Shuaib, head of Nigeria's health care agency, complained that developed countries “hoarded” the “vaccines,” and “At the point they were about to expire, they offered them for donation.”

The “Vaccine Hesitancy” of Joe Biden, Kamala Harris and Andrew Cuomo

In an Aug. 6, 2020, interview **Joe Biden** said:
“If and when the vaccine comes, it's not likely to go through all the tests that need to be done, and the trials that are needed to be done.”

In a July 28, 2020, speech, **Biden** asked:

“How are you going to distribute the vaccine when it arrives...? And the question of whether it's real, when it's there, that requires enormous transparency. You've got to make all of it available to other experts across the nation, so they can look and see, so there's consensus this is a safe vaccine. Because already you have, what percent is American people saying if the vaccine were there tomorrow, they wouldn't take it? And it's not the usual anti-vaccine crowd. It's beyond that because people are losing faith in what the president says. Think about it.”

And on Oct 7, 2020, **Kamala Harris** said *“...if Donald Trump tells us to take it, I'm not taking it.”*

New York Gov. **Andrew Cuomo** said during a Sept 24, 2020, press conference:

“The first question is, is the vaccine safe? Frankly, I'm not going to trust the federal government's opinion, and I wouldn't recommend [a COVID-19 vaccine] to New Yorkers based on the federal government's opinion.”

He was asked on Oct. 19, 2020, “How confident are you in the approval process at the FDA right now?”

“I'm not that confident, but my opinion doesn't matter. I don't believe the American people are that confident. You're going to say to the American people now, ‘Here's a vaccine, it was new, it was done quickly, but trust this federal administration, and their health administration that it's safe, and we're

not 100 percent sure of the consequences.’ I think it's going to be a very skeptical American public about taking the vaccine, and they should be.... You're going to need someone other than this FDA and this CDC saying it's safe.”

All of these comments came AFTER **The Honorable Minister Louis Farrakhan** warned the world on **July 4th, 2020**, that the “vaccine” and its pushers are not trustworthy.

NY Legislation Provides for Indefinite Detention of Unvaccinated at Governor's Whim

In January 2022, New York lawmakers could vote on a bill that would grant permission to detain anyone suspected of presenting a “significant threat to public health” and remove them from public life on an indefinite basis.

Bill A416 gives the governor of New York and his or her surrogates the right to remove and detain any individual or groups of people through issuing a single order. The orders only have to include the individual's name or “reasonably specific descriptions of the individuals or groups.”

Though the bill attempts to state that no one shall be held for more than 60 days, the language allows for court orders to waive this maximum detention time. After 60 days, the court is allowed an additional 90 days to consider the detention of an individual, a cycle that can last indefinitely per the opinion of state officials.

The bill will “require an individual who has been exposed to or infected by a contagious disease to complete an appropriate, prescribed course of treatment, preventive medication or **vaccination**,” essentially giving the government the right to detain anyone it wants and forcibly vaccinate that person.

As the language of the bill refers to individuals or groups who “potentially” pose a threat, the bill is a preemptive strike against anyone the governor believes has the capacity to “pose a threat in the future, such as those refusing to receive the COVID-19 vaccination.”

NY Times Report: 1 of Every 100 Older Americans Has Perished

Under the “guidance” of United States “health” authorities at the CDC and FDA, and their refusal to allow the sick to receive successful treatments, one out of every 100 elderly Americans have died during the “pandemic.”

The *New York Times* reports that seventy-five percent of people who have died of Mr. Fauci’s “virus” have been 65 or older. For people younger than 65, that ratio is closer to 1 in 1,400.

Remarkably, it is reported that “Since vaccines first became available a year ago, older Americans have been vaccinated at a much higher rate than younger age groups (87% of people 65 and older have been fully vaccinated) and yet the brutal toll on them has persisted. [And] in the past two months, the portion of older people has risen once again, according to data from the Centers for Disease Control and Prevention.”

Not only do they die of medical mistreatment but older Americans suffer the stress of loneliness and isolation from family and community and the fear generated by the vaccine-crazed depopulators. Concocted threats of “deadly variants,” “surges,” lock downs, and forced mandates wreak havoc on their physical and mental condition and actually weakens their immune systems.

Simone Mitchell-Peterson, CEO of the Chicago chapter of **Little Brothers — Friends of the Elderly**, said that she could detect a difference in the physical appearance of elderly people. *“You can see the frailty of our elders. Many of them have lost weight. Many of them just look older. Their stoop is a little more pronounced.”*

The Consequences of the “Vaccines”

An analysis titled **“Worse Than the Disease: Reviewing Some Possible Unintended Consequences of mRNA Vaccines Against COVID-19,”** by **Drs. Stephanie Seneff and Greg Nigh**, found that the death and illness caused by the “vaccines” are vastly underreported “by a factor of 41.” That means that in the U.S. alone, the actual death toll may be closer to 374,576. Including international deaths reported to the CDC’s Vaccine Adverse Event Report-

The Unraveling of a Great Nation

“You see the country cascading downward. You see the moral fiber of America getting into the gutter. Who wants a membership in a house of whores? Bought-and-paid-for leaders. Nobody can stand up if the enemy says, ‘you don’t stand up for that.’ Satan is having a field day with America. Evil has been made fair seeming.”

ing System (VAERS) would put the death toll at 815,326. Key side effects that are now being reported in massive numbers include

miscarriages
heart attacks
myopericarditis
thrombocytopenia
(low platelet count)
shingles
Bell’s palsy

...and a variety of permanent disabilities, many of which involve neurological dysfunction. In a May 2021 interview with **Dr. Joseph Mercola**, Dr. Seneff said:

“To have developed this incredibly new technology so quickly, and to skip so many steps in the process of evaluating [its safety], it’s an insanely reckless thing that they’ve done....So, I really dug into the research literature by the people who’ve developed these vaccines, and then more extensive research literature around those topics. And I don’t see how these vaccines can possibly be doing anything good...”

PayPal Attacks Vaccine Truth Organization

Last week PayPal abruptly informed the **National Vaccine Information Center (NVIC)** that it would no longer process donations made by its supporters, effective immediately. In essence, says NVIC, *“PayPal wants to control your choices and tell you which non-profit charities you may and may not support. PayPal’s sudden and unexplained action against our donors comes in the middle of our annual end-of-year fund raising campaign.”*

As with many individuals and organizations that refuse to accept the devious plotting of Big Pharma and its vaccine madness, NVIC has been eliminated from the four biggest social media platforms – Facebook, Instagram, Twitter and YouTube. But the non-profit is undeterred:

National Vaccine Information Center
Your Health. Your Family. Your Choice.

“NVIC is being heavily censored because we have spoken the truth about vaccination, health and autonomy for 40 years. While big tech and the forced vaccination lobby put out a steady supply of authoritarian propaganda promoting fear and hatred of those who engage in rational thinking, NVIC will continue to defend the legal right to make voluntary choices about vaccination without being punished for the choice made as we move forward with our mission to prevent vaccine injuries and deaths through public education and defend the informed consent ethic.”

Stillbirths Exploding Across Canada in Fully Vaccinated Mothers

In a now viral video interview **Dr. Daniel Nagase** exposed the exploding cases of stillbirths in fully vaccinated Canadian women with 86 stillbirths in 6 months in Waterloo, Ontario, which normally sees 5-6 per year. He reports that British Columbia saw 13 stillbirths in 24 hours.

Aaron Rodgers: ‘If Science Can’t Be Questioned...It’s Propaganda’

The Green Bay Packers quarterback may be one of the only persons in the NFL who are safe from testing positive for “COVID-19.” To much controversy and chagrin, Rodgers rejected the dangerous and unproven “vaccine” and chose to boost his natural immunity. He tested positive for the coronavirus but, using natural treatments, he quickly overcame the sickness and led his team to victory in three straight games.

Meanwhile, over 500 NFL players—almost ALL of whom have taken the “vaccine”—have “entered COVID-19 protocols” and are banned from playing or practicing just days before the play-offs begin. Eleven college football bowl games have been cancelled as “vaccinated” players are testing positive in massive numbers.

Now having natural immunity—a far more robust protection than the “vaccinated” have—Aaron Rodgers is speaking out about the failure of the medical system. Rodgers said he “had symptoms” of COVID-19 but “also got better in 48 hours” from the treatments he received. **“If science can’t be questioned, it’s not science anymore; it’s propaganda. When did science become this blind agreement [about] not having any debate over what can actually heal people and work for people. That makes no sense to me.”**

“Throughout this entire time, there hasn’t been real conversations around health...As far as giving people things to think about when it comes to how to be healthier, right? As far as your diet, vitamins, exercise and those kinds of things,” Rodgers stated.

“COVID-19” Sickness IS NOT a PANDEMIC

The World Health Organization’s definition of “pandemic” has been altered to remove the requirement that it be tied to an extraordinary body count. Once an “outbreak” is labeled a “pandemic,” it allows “vaccines” to be distributed under “Emergency Use Authorization,” and it allows experimental vaccines to bypass all of the protective measures. This “pandemic” designation also prevents vaccine makers from being sued for the deaths and injuries vaccines cause.

COVID-19 is a media-driven “crisis” that uses an unknown, microscopic “mystery” “enemy” to generate psychological traumas of fear, grief, anxiety, and panic, broadcasted 24 hours daily. Fox, CNN, CBS, NBC, ABC, NY Times, Washington Post, Facebook, Twitter, Youtube, and many others, are colluding to hype the vaccine narrative and to censor ANY dissenting point of view. It is estimated that Big Pharma provides 70+ percent of their advertising revenue and so these media giants are essentially paid vaccine lobbyists.

Tuskegee IS NOT Ancient History Says Dr. Christina Parks

“They’ve done an aces job, propagan-da-wise, at making ‘Tuskegee’ seem like ancient history; but it’s not, and black people (and a growing number of white people) know it’s not.”

Dr. Christina Parks, a Cellular and Molecular Biologist, said that “African Americans respond differently to vaccines and are more susceptible to vaccine injury.” She recently testified:

“70 percent of African Americans have not taken this vaccine. Why? Because they don’t trust their government. Do they have reason not to trust their government?”

Reports Hospitals Often Sterilize Poor Women Without Consent

WASHINGTON (AP) — A survey released Tuesday shows that teaching hospitals, where many federally funded sterilizations for poor women are performed, may still fail to obtain “voluntary and informed consent” before performing the procedures. Public Citizen Health Research Group, a Ralph Nader consumer organization, questioned the 350 teaching hospitals in the United States which have approved obstetrics-gynecology departments about their practices. Only 83 of them replied, but of that number, 70 percent failed to comply with one or more of the major features of the government’s 1974 sterilization consent regulations, the survey said. Regulations which are even more stringent replaced the 1974 guidelines last year. But both sets of rules bar sterilizations of women under 21, impose a waiting period between consent and performance of sterilization, prohibit obtaining consent during labor and require that patients be informed that their welfare benefits are not jeopardized if they refuse sterilization. The survey found that 18 percent of the responding hospitals still obtain consent during labor, 14 percent do not inform the patient that their Medicaid and welfare payments are not at stake and 12 percent do not require a “cooling-off” period. The Medicaid program pays for about 100,000 sterilizations a year. In a letter to Joseph A. Califano Jr., the secretary of health, education and welfare, the research group recommended that the state Medicaid agencies be required to inform doctors and hospitals of the latest government regulations. They also suggested that teaching programs where sterilizations are performed with government funds be monitored more closely.

The COVID-19 VACCINE: “We Have No RIGHT to Trust Them.”

“Well, between the years of 1930 and 1970 the CDC conducted the Tuskegee experiment, where they took untreated males with syphilis and they refused to treat them. Even after antibiotics became available, they still did not treat them and they did not tell them that they had syphilis. They told those people that they were there to secure their health and they did not secure their health. They abused them. You say, ‘Well, that was in the past,’ although I don’t think 1970 was that long ago.”

Dr. Parks was accompanied by more than 80 doctors and frontline healthcare workers who came to meet with Michigan lawmakers on the state’s collapsing healthcare system.

“The vaccine mandates are going to harm more African Americans than anyone else,” she predicted. “Stand Strong. If they can make you inject something into your body against your will, you are a slave.”

Media Lose Big For Their Vaccine Lies

Mainstream media continue to lose viewers and readers, who have abandoned these fear-mongering vaccine hucksters that are at the forefront of the satanic DePopulation Agenda. The AP reports the “dwindling popularity of news content.”

In 2021, weekday prime-time viewership dropped 38% at CNN, 34% at Fox News Channel and 25% at MSNBC, according to the Nielsen company.

The decline was less steep but still significant for broadcast television evening newscasts: 12% at ABC’s “World News Tonight,” a 14% viewership decline at NBC’s “Nightly News,” and the “CBS Evening News” lost 12% of its viewers.

Readership of the *Washington Post* was down 44% in November compared to November 2020, and down 34% at the *New York Times*. Some 100 to 120 local newspapers shut down in 2021.

MSNBC is now facing viewer blowback from the unsightly vaccine cultist Rachel Maddow, and veteran anchor Brian Williams has quit the anchor chair, signing off with these ominous words:

“But the darkness on the edge of town has spread to the main roads and highways and neighborhoods. It is now at the local bar, and the bowling alley, the school board, and the grocery store. And it must be acknowledged and answered for.”

Grown men and women who swore an oath to our Constitution, elected by their constituents... have decided to join the mob and become something they are not while hoping we somehow forget who they were.

They’ve decided to burn it all down with us inside. That should scare you to no end as much as it scares an aging volunteer fireman.”

Meanwhile, nearly all the truth-based medical websites that the networks have slandered report a meteoric rise in traffic. These include the weekly TheHighwire.com, Childrens Health Defense, National Vaccine Information Center, and Mercola.com.

“He’s poisoned everything that comes to us, and everything he lays his hands on. You’re reading books of how he has destroyed and continues to destroy you. You have lots of books teaching you today. He’s putting them out himself of how he poisoned the Blackman in his food, water, and in his medicine. He’s poisoned it.”

‘Vaccine’ Liars & Deceivers Exposed

The chemical injections forced on the world by the wicked are proving their promoters to be LIARS and DECEIVERS. The poisonous swill has failed to stop infection or transmission; it DOES NOT provide life-long immunity; and the jab fails totally after about 90 days. Here is what the “trusted voices” said to force Americans to roll up their sleeves for a poison that has now killed over 21,000 healthy people:

Pres. Joe Biden:

“You’re not gonna get COVID if you have these vaccinations.”

Dr. Rochelle Walensky (CDC head):

“Vaccinated people do not carry the virus—[they] don’t get sick.”

King Anthony Fauci:

“[Vaccines] are really, really good against variants.... When people are vaccinated, they can feel safe that they are not going to get infected.”

Bill Gates:

“Everyone who takes the vaccine is not just protecting themselves, but reducing their transmission to other people and allowing society to get back to normal.”

Rachel Maddow:

“Now we know that the vaccines work well enough that the virus stops with every vaccinated person.”

Top Doctor: Early Treatment Could Have Saved 85% of COVID Victims

Of the people who died from COVID in the U.S., none received adequate and/or early enough treatment, **Dr. Peter McCullough** told podcast host **Joe Rogan**. If they had, at least 85% of them would have survived.

The cardiologist and epidemiologist asserted that there were clear intentional efforts to prevent use of hydroxychloroquine against COVID-19, likely in an effort to make the COVID jabs appear necessary.

“You cannot get COVID-19 twice—those with natural immunity have robust, long-lasting immunity. The Pfizer shot, meanwhile, has been shown to have undetectable effectiveness 201 days after the second dose and Moderna’s effectiveness reaches zero around day 121,” said Dr. McCullough.

He reiterated that “The only way people end up in the hospital and have a miserable time is when they receive no treatment: they don’t get treatment or they are not offered treatment and they end up railroaded into the hospital after being sick two weeks at home.”

He also insisted that “anybody with common sense should understand that it’s easy to treat the illness when it’s early and the symptoms are mild. It becomes progressively worse as people progress in the disease.”

Over 200 Scientists & Doctors Call For Increased Vitamin D To Combat COVID-19

Scientific evidence shows that people with low vitamin D levels are at a much higher risk for “COVID-19” infections, hospitalizations, and deaths. A study that looked at 216 hospital patients with “COVID-19” found that **80 percent didn’t have adequate levels of vitamin D in their blood**—compared to 47 percent of people in a control group who didn’t have the virus.

Vitamin D promotes healthy bones and supports immune system function. It is produced by the body naturally when it is exposed to sunlight. It can also be obtained from eating foods such as fatty fish, egg yolks, and cheese. It is also available as a supplement from health food stores.

Famous Brain Surgeon Ben Carson: Condemns Federal Vaccine Database

Pediatric neurosurgeon and oncologist Dr. Ben Carson has said that he is “very sad” to see plans advancing for a \$400 million federal vaccine database (“Immunization Infrastructure Modernization Act” (IIMA), or HR 550). “Recognize that governments have a tendency to grow, to infiltrate, and to control,” Carson said.

The bill, currently being considered by the U.S. Congress, will implement a major expansion of data

systems used by public health departments to collect information about Americans’ vaccination history and provide the foundation for “vaccine passports” to give control of every citizen to Bill Gates, Anthony Fauci, and the mad scientists of the pharmaceutical industry.

Carson, who worked for decades at the Johns Hopkins University School of Medicine, said that Americans “have got to be smart enough to recognize these signs when we see them and to stop them, to nip them in the bud before it becomes too late.”

Dr. Carson also slammed the “pandemic policies” of the U.S. government: “One of the things that we should be talking about is other things that can be effective. We should be looking at other vaccines; we shouldn’t be satisfied with what we have now. We should be looking at therapeutics. We should be emphasizing those. We should be looking at areas of the world where COVID is not prevalent, like on the western coast of Africa, and [ask], why is it not prevalent there?... Well, for one thing, they take antimalarials, like hydroxychloroquine. We should be finding out, why is that going on? Is that just a coincidence?” he asked.

“Ivermectin, some of the other things that have been extremely effective,” Carson said. “Let’s not

have tunnel vision and say, just, everybody, get the vaccine, and stomp our feet and say, we’re going to do everything we can to make sure everybody gets a job.”

Carson previously said that children should not be getting COVID shots and called it a “giant experiment.” He then questioned why booster shots are necessary if the vaccine is supposedly so effective.

“And I guess the big question is, why do we keep needing boosters? First, it was going to be the one vaccine,” Dr. Carson said. “Then it was going to be two, and then it’s a vaccine and a booster. And, probably, we’re going to need another booster later.”

The Profits of a “Plandemic”

Larry Ellison’s company, Oracle, which partnered with the CIA to build new cloud services, won the contract to process all CDC vaccination data. Ellison’s wealth increased by \$34 billion in 2020; Mark Zuckerberg’s wealth grew by \$35 billion; Google’s Sergey Brin by \$41 billion; Jeff Bezos by \$86 billion; Bill Gates by \$22 billion and Michael Bloomberg by nearly \$7 billion.

Treat COVID at FIRST Sign of Infection

Dr. Joseph Mercola suggests the following: “Should you develop COVID symptoms, you simply MUST start treatment immediately. We now know early treatment is key for successful resolution of the infection. It could literally be the difference between life and death and I can’t stress that enough. It is far better to overtreat a cold like COVID than ignoring the symptoms and dismissing them.

“There are several early treatment protocols available, most of which focus on similar remedies. The Frontline COVID-19 Critical Care Alliance’s (FLCCCs) protocol is among the most comprehensive. You can find a listing of doctors who can prescribe necessary medicines on the FLCCC website (<https://covid19criticalcare.com/covid-19-protocols/i-mask-plus-protocol/>)”

Blacks Ditching Google and Facebook Once and for All

By censoring the voices that challenge mainstream information on crucial health topics like pharmaceutical drugs, vaccines, GMOs, pesticides, junk foods, artificial sweeteners and fake meat, Google and Facebook have seen a steady exodus of Black users.

They’re fed up with Google’s and Facebook’s manipulation of news and information under the guise of “keeping us safe.” But the vaccine-only madness of owners Mark Zuckerberg and Sergey Brin is for their profit—not our health. Black usage peaked in the months following protests over the killing of George Floyd, but Facebook’s reach with Black 18-to-24-year-olds dropped more than 36% over six months. A Black whistleblower said, “A lot of the downturn in Black usership has been because people are being banned or shadow banned or had their accounts suspended for talking about Black issues...”

Black users also complained that their posts were disproportionately taken down and that they were penalized for defending themselves against racism.

“We have no right to trust white people on this vaccine.”
—The Honorable Minister Louis Farrakhan

Take Us to Your Leader DePop King Bill Gates

Who does Satan call when he wants to eliminate 2-3 billion people from the earth with the least amount of hassle? He called on the experts—**Bill & Melinda Gates**. The two have a long history of pushing deadly, population-reducing “vaccination

programs” all over the non-white world. Multi-billionaire Bill Gates told a TedTalk audience: *“The world today has 6.8 billion people. That’s headed up to about 9 billion. Now, if we do a really great job on new vaccines, health care, reproductive health services, we lower that by, perhaps, 10 or 15 percent.”*

Vaccines, then, are Satan’s weapon of choice, but he deems it better if each of those “useless eaters” could be deceived into **choosing** to take the lethal injection *voluntarily*. So, a “pandemic” of biblical proportions had to be foisted upon the world by a compliant mass media that would work in complete collusion to promote a vaccine-as-savior narrative without any unpunished deviation. They would agree to replace journalism with pharmaceutical propaganda and to ask no relevant questions as the holocaust unfolds—they would collaborate to censor, deplatform, slander, mock, ridicule, and otherwise destroy any dissenters that might challenge their 24-7 campaign for VACCINES, VACCINES, VACCINES.

This incredible criminal conspiracy is now un-

derway, orchestrated by the world’s most prominent news directors at all the major networks, newspapers, and social media outlets. It is THEY who are DIRECTLY responsible for every word out of the mouths of the anchors or every idea promoted on their platforms, yet their role in the promotion of this depopulation holocaust is NEVER discussed:

Washington Post, **Jeff Bezos**
Google president, **Sergey Brin**
YouTube CEO, **Susan Wojcicki**
Twitter, **Paul Elliott Singer/Jack Dorsey**

[...among many others]

But that level of collusion on an international scale costs big bucks. Satan’s helpers must be compensated. Pfizer, Johnson & Johnson, and Moderna and other pharmaceutical giants are paying as much as 80% of the bills at these media outlets through their advertising budgets.

And now it has been revealed that Bill Gates has given \$319 million to key media organizations all over the globe. Alan MacLeod of *MintPress* analyzed the grants given by the **Gates Foundation** and found that it has bankrolled hundreds of media outlets and ventures.

Recipients of this cash include many of America’s most important news outlets, including *CNN* (\$3.6mil), *NBC* (\$4.3mil), *NPR* (\$24.6mil), *PBS* (\$.5mil), *Public Radio International* (\$7.7mil), and *The Atlantic* (\$1.4mil). Among the Gates-funded foreign organizations are *Al-Jazeera* (\$1mil), the *BBC* (\$3.6mil), *The Guardian* (\$13mil), *Financial Times* (\$2.3mil), *Daily Telegraph* (\$3.4mil), *Nation Media Group* (Kenya-\$4mil), and European newspapers such as *Le Monde* (France-\$4.4mil), *Der Spiegel* (Germany-\$5.4mil) and *El País* (Spain-\$4mil).

According to *MintPress*, “The Gates Foundation has also given nearly \$63 million to charities closely aligned with big media outlets....Gates continues to underwrite a wide network of investigative journalism centers as well, totaling just over \$38 million, more than half of which has gone to the D.C.-based International Center for Journalists *to expand and develop African media.*” Gates gave \$382,997 to the **Poynter Institute for Media Studies**, the group that own “PolitiFact,” the “fact-checkers” in charge of attacking any non-vaccine treatment.

NPR Reports Vaccines Affect Menstrual Cycle

When enetrainer **Nicki Minaj** tweeted to her 23 million+ followers her concern that the “vaccines” may affect the reproductive system, and then suggested that people do their own re-search into the matter, the government of America nearly collapsed.

Fearing that her fans may in fact do some research and refuse the poison injection, Depopulation Chief and serial satan **Anthony Fauci** was rushed into the news cycle to make the following pronouncement: “The answer to that is a resounding no....There’s no evidence that it happens, nor is there any mechanistic reason to imagine that it would happen,” he said, calling it “misinformation.”

NPR now reports that **Minaj** was dead right and **Fauci**—again—dead wrong: **“A new scientific study shows that vaccination can cause changes to the timing of menstruation.”**

Following **Minaj’s** advice **Dr. Alison Edelman**, a professor of obstetrics and gynecology, led the study and claimed that scientists “ignore” menstrual cycles when studying vaccine side effects because “It’s considered unimportant in the grand scheme of things...” The study, which analyzed data from 4,000 women, “found numerous reports of unusually heavy flows and even breakthrough bleeding among some people who hadn’t menstruated in years.”

Dr. Diana Bianchi, director of the **Eunice Kennedy Shriver Institute**, which funded the work, said that it “does prove that the vaccines are affecting menstruation independently of other possible factors such as pandemic stress.”

Dr. Edelman, in a direct repudiation of **Fauci’s** quackery says “the immune system and the reproductive system are linked, and some signaling immune cells also can affect the body’s natural clock. Given that relationship, it’s entirely possible that triggering the immune system through vaccination might change a person’s cycles.”

More Children Dying From Vaccines Than From COVID, Nurse Tells Louisiana Lawmakers

The Children’s Health *Defender* reports that a registered nurse testified at a hearing of the Louisiana lawmakers that her hospital is seeing “terrifying” reactions to COVID vaccines, but hospital officials are failing to report them.

Collette Martin, R.N., a practicing nurse for 17 years, said her Louisiana hospital is witnessing blood clots, heart attacks, strokes, encephalopathy (effects brain function) and heart arrhythmia following COVID vaccination, and staff are failing to report anything to the CDC’s Vaccine Adverse Event Reporting System (VAERS).

She said: “We are not just seeing severe acute [short-term] reactions with this vaccine, but we have zero idea what any long-term reactions are. Cancers, autoimmune [disorders], infertility. We just don’t know.”

Martin said her hospital has seen “more children die from the COVID vaccine than COVID itself.”

“It’s maddening, and I don’t understand why more people don’t see it. I think they do, but they fear speaking out and, even worse, being fired,” **Nurse Martin** said.

A Profession of DRUG PUSHERS

Dr. Linda Lagemann, in *The Big Lie: American Addict*:

“From 2008 to 2012 there was a 53% increase in psychiatric drugging of babies....It’s the fastest-growing market of all categories of psychotropic drugs: [it] is babies 0 to 1 year old.

“The second-fastest-growing market is age 2 to 5: [T]hat same four-year period of 2008 to 2012 saw a 43% increase in the drugs given to those children. So right now in America, there are more than a million children under 5 years old on one or more psychotropic drugs.”

FACE THE NATION

CBS Analyst Decries ‘Crushing Impact’ of Biden/Fauci COVID Policies on Children

When asked on CBS’s “Face the Nation” to name the most underreported story of 2021, veteran analyst **Jan Crawford** said:

“Oh, I—just for me, I mean, my kids hear me rant about this every day, so I might as well tell you guys. It’s the crushing impact that our COVID policies have had on young kids and children. By far the least serious risk for serious illness. But I mean, even teenagers, you know, a healthy teenager has a one in a million chance of getting, and dying from, COVID, which is way lower than dying in a car wreck on a road trip. But they have suffered and sacrificed the most, especially kids and underrepresented at-risk communities. And now we have the Surgeon General saying there’s a mental health crisis among our kids.

“The risk of suicide, girl suicide attempts, among girls now up 51% this year; Black kids nearly twice as likely as White kids to die by suicide. I mean, school closures, lockdowns, cancellation of sports. You couldn’t even go on a playground in the D.C. area without cops scurrying, getting, shooing the kids off—tremendous negative impact on kids, and it’s been an afterthought.

“It’s hurt their dreams, their future learning, loss, risk of abuse, their mental health. And now, with our knowledge, our vaccines—if our policies don’t reflect a more measured and reasonable approach for our children, they will be paying for our generation’s decisions, the rest of their lives. And that, to me, is the greatest under-reported story of the past year.”

We Were Warned! Black Author’s 1954 Classic on Vaccination Emerges

Eleanor McBean saw the devastation caused by the pharmaceutical satans and warned the world almost 70 years ago. In the 1960s, **The Most Honorable Elijah Muhammad** warned the Black Man and Woman NOT to take the polio vaccine, which we now know was laced with cancer. Eleanor McBean dove deep into the minds of the drug makers and found Satan himself. Here are her powerful words from the introduction to her 1954 book **THE POISONED NEEDLE**:

Author Eleanor McBean

In our worst epidemics now are epidemics of vaccination in which more people are killed every year by “vaccinial diseases” than by the diseases that the vaccinations were supposed to combat.

Complete freedom from disease can scarcely be found except in remote islands or isolated communities that have not been invaded by

medical mischief and commercialized products. Is our proud civilization to be degraded, corrupted, and destroyed by its own inventions designed for selfish profit and exploitation of the race?

Vaccination, instead of being the promised blessing to the world, has proved to be a curse of such sweeping

devastation that it has caused more death and disease than war, pestilence, and plague combined. There is no scourge (with the possible exception of atomic radiation) that is more destructive to our nation’s health than this monument of human deception — this slayer of the innocent — this crippler of body and brain—
THE POISONED NEEDLE.

Supreme Court Justice Spreads FALSE Vaccine Propaganda to Push Mandates

Supreme Court Justice **Sonia Sotomayor** claimed, *“We have over 100,000 children, which we’ve never had before, in serious condition and many on ventilators.”* She made this preposterous claim during oral arguments on whether Pres. Biden’s vaccine mandate for businesses with over 100 employees is legal.

The charge was so bizarre that CDC director **Rochelle Walensky**—herself a practiced deceiver—admitted that the number of hospitalized children is *fewer than 3,500*. She further pointed out that “up to 40%” of children are actually admitted to hospitals for other ailments and then are found—through testing—to have “COVID-19.” Walensky had no idea how many children are “on ventilators.”

Sotomayor’s incredible ignorance of the basic facts of “COVID-19” child infection rates demonstrates the effectiveness of the Depopulation FEAR campaign. Sotomayor and the eight other justices ultimately ruled against Biden’s mandates by a margin of 6-3, with Sotomayor voting with the minority on the basis of a lie. Data from the CDC clearly show that children have about a **ZERO percent** chance of death from “COVID-19.”

And Now You Want to ‘VACCINATE’ Us!?

DIDN'T OFFER US A MULE
You didn't offer to us the mule which our fathers used to plow. You didn't offer us a acre or two of the land on which he had plowed hundreds of acres for you. You didn't give him the knowledge of himself.
You didn't even teach him after dumbing him, blinding him, turning him a fool for three hundred years, lashing his back morning and evening and put to bed with blood running down his legs. Your men patrolled the plantation, the roads at night to beat or kill any slave they found trying to run away.
That brutal punishment went on for three centuries. We took it with a smile. Our fathers and mothers became use to it. They didn't know any better. You put them on the block and auction them off like you did your own horses and like you did your other herds. You breded our fathers as you did your own cattle and hogs. You didn't marry them for three centuries. They had no husband. There was no one. They had no power or no authority over their newborn babes. You snatched them from their mothers' breast and sold them to your brother, on the next plantation. She didn't rear her children. You, the slave-master, reared them. You make fun of them now for being filthy. You make fun of them for being sexual. Alright who started them, you did that. You are the one.

The Most Honorable Elijah Muhammad, 1961

Top Podcaster Joe Rogan Exposes ‘Mass Psychosis’ of FEAR

Prominent American physician **Dr. Peter McCullough** explained to podcast host **Joe Rogan** how it was possible for the entire world to fall victim to a *“mass formation psychosis,”* a brainwashing process. Dr. McCullough outlined the four key steps that need to be taken to effectively hypnotize the masses into complete compliance:

1 “There must be a period of prolonged isolation, lockdowns,” McCullough told Rogan.

2 “There must be a withdrawal of things taken away from people that they used to enjoy—that has happened.”

3 “There must be constant, incessant, free-floating anxiety. All this news cycle, all the deaths, hospitalizations, more variants, new strains, people becoming scared over and over again.”

4 “The capper is there must be a single solution offered by an entity in authority, and in this case it’s clear, worldwide, the solution was ‘vaccination.’ It’s interesting that it doesn’t even matter what vaccine it is; it’s just ‘take a vaccine, take any vaccine.’ And what mass psychosis says is ‘number four, the solution: there is no limit to the absurdity of the solution.’”

This is the same process that allowed for cults such as Jonestown to convince all its members to commit suicide, and for the Nazi regime to take hold in Germany, Dr. McCullough explained.

Dr. Oz Calls for Debate with “Petty Tyrant” Fauci—Compares Him to J. Edgar Hoover

Dr. Mehmet Oz, popularly known as “Dr. Oz,” addressed America’s depopulation pope Anthony Fauci: “It’s past time Fauci faces the fact that he got COVID wrong. So, doctor to doctor – let’s get the facts straight here. You and me. Let’s have a debate, doctor to doctor, and give the American people the truth about COVID-19.” Dr. Oz, who is now a candidate for U.S. Senate from Pennsylvania, said that he wants to debate Fauci on vaccine mandates, natural immunity from COVID-19 infections, and delays of drugs such as monoclonal antibodies.

Oz’s popularity grew out of *The Oprah Winfrey Show*, on which he regularly appeared as a health expert more than a decade ago. In 2009, he started “The Dr. Oz Show,” which ended this month as he begins his campaign.

“I think Dr. Fauci is basically the J. Edgar Hoover of public health. He’s a petty tyrant. He got COVID wrong. He continues to get it wrong. I keep hearing from people inside the public health space, and outside, regular doctors like me, that he’s not managing this correctly,” Oz said in a recent *Newsmax* interview.

Dr. Oz is now the second doctor to attack the “pandemic” policies of Fauci and the U.S. government who gained worldwide fame on the *Oprah Winfrey Show*. Dr. Christiane Northrup publicly affirmed in 2020 that the aim of the “vaccine” is depopulation: “This vaccine will do several things all at once. First **it will cull the herd and kill millions of people worldwide with the adverse affects including death.** Second it will use nanotechnology to track everything we do

Dr. Christiane Northrup & Oprah Winfrey

from the *INSIDE* of our bodies with these nanobots that are contained within these vaccines. Then...all of your information will be stored in the cloud, accessible by the patented quantum dot tattoo, brought to you by the Gates Foundation. Because they care. Right.”

At press time Dr. Fauci has not responded to either of Oprah’s doctors.

Pfizer CEO Admits “Vaccine” Provides “very limited protection, if any”

When asked about the so-called “Omicron variant,” which the CDC claims now accounts for more than 95% of “COVID-19” cases, Pfizer CEO Albert Bourla said this:

“Clearly the situation has...deteriorated because of the Omicron [variant]...we know that the...two [doses] of the vaccine offer very limited protection, if any...and [they provide] less protection against infection.”

“We have seen with a second dose very clearly that the first thing that we lost was the protection against infections,” Bourla said. “But then two months later, what used to be very strong in hospitalization also went down. And I think this is what everybody’s worried about.”

Bourla did not address the massive failure of the serum to stop transmission; nor did he explain the 22,000 deaths, 118,000 hospitalizations, 113,000 urgent care visits, the 11,000 heart attacks, the 3,700 miscarriages, or the 39,000 permanent disabilities, reported by the CDC as being *vaccine related*.

“Pandemic” Policy Kills Small Business

Government policies forced many small businesses to shut down permanently.

From October 2020 to October 2021, one in five businesses shut down. According to an analysis by Business.org, 1,314,026 small businesses temporarily closed a location (21.7%). Of those only 423,879 reopened after closing down (7%). 1,017,311 small businesses permanently closed (16.8%).

NFL Ends COVID-19 protocols: Players No Longer Subject to Daily Testing

Following numerous complaints from teams about the league’s “COVID” testing protocols NFL’s chief medical officer Dr. Allan Sills rejected the Fauci claim that asymptomatic people can infect others: “We’ve really not seen this phenomenon that people have discussed, which is asymptomatic people in the facility spreading virus to others.” So, the NFL has scrapped the onerous testing policy that has crippled professional sports teams.

It is well known that athletes in all sports are feeling betrayed by the “COVID” policies that forced them to be injected with an unknown and untested serum that they found out later gave them absolutely NO PROTECTION against the “COVID” sickness.

NFL teams were stung by “vaccine” failures that decimated rosters before crucial games, with large numbers of “vaccinated” key players absent; the Cleveland Browns, for example, ultimately lost a crucial game with many of their most important players, including their top two quarterbacks, absent from the roster.

TOP COVID DOG OF ASIA A SIMPLE QUESTION

Would you give Bill Gates or Klaus Schwab the password to your home security system? Why would we give him access to our genetic code? Human 2.0, in the demented, depraved, deranged minds of these people is the next step up in the evolution of human beings. Banned Drug Stops COVID in India

The inexpensive and widely available drug IVERMECTIN has had a near miraculous effect in stopping the spread of COVID-19 in the Indian province of Uttar Pradesh. IVERMECTIN is one of the safest and most effective drugs on the market and it has been prescribed for decades for parasitic ailments. When re-purposed for COVID-19, doctors found that IVERMECTIN stopped both infection and transmission, and even reduced the severity of the illness in infected individuals.

The drug has been suppressed by depopulators Biden and Fauci because, at only 12¢ a pill, unpatented IVERMECTIN is not as profitable to Big Pharma as their vaccines and patented drugs.

In May of last year health officials in Uttar Pradesh broke away from the grip of western vaccine-mania: they went door-to-door in the state of 230 million residents, providing a test-&-treat program, and distributed medicine kits with IVERMECTIN pills.

Within just five weeks COVID cases dropped by a staggering 97 percent. Although Uttar Pradesh was only 5.8 percent vaccinated, it had by the end of August just 22 new COVID cases, while another much smaller Indian state of Kerala (population: 35 million) with over 50%

vaxxed was overwhelmed with 31,445 new cases. According to reports, Kerala reported 215 deaths on Aug. 25, while Uttar Pradesh only reported two deaths.

By Sept. 12, 2021, *Livemint* reported that 34 districts in Uttar Pradesh were declared COVID-free or had no active cases, and only 14 new cases were recorded in the entire state on that day.

As of January 7, 2022, the IVERMECTIN-rich Uttar Pradesh has maintained an incredible 7-day average of ZERO deaths since September, according to Johns Hopkins data, while the vaccine-drenched Kerala reports a 7-day average of 216 deaths per day.

Meanwhile, other Indian states have followed UP's lead and, as expected, they have seen a drop in new daily cases as

well.

Dr. Pierre Kory wrote, “The issue with ivermectin is simply it’s price—it costs less than \$1 and represents the biggest threat to the immense and future profits of the pharmaceutical industry’s novel oral anti-viral drugs...as well as their vaccines.”

Uttar Pradesh’s home kits cost less than \$3 per person, and in comparison one course of the Fauci-approved and Gilead-manufactured drug Remdesivir cost \$3,100 and is the Fauci-recommended “treatment” even though the Bill Gates-financed World Health Organization (WHO) has recommended against its use.

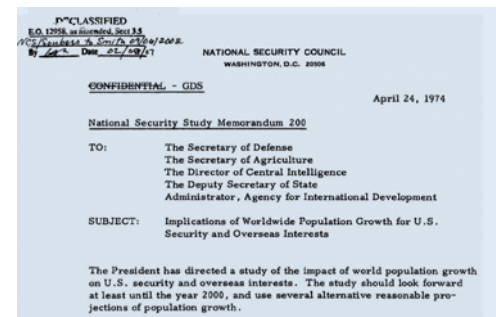

Obesity is the most significant risk factor for severe COVID illness. And so what has the government done in the past two years to mitigate it?

They locked down people in their homes, closed gyms, and offered free donuts, pizza, hotdog & french fries, weed, and beer to those getting “the jab.”

1974 Kissinger Memo NSSM-200 Spilled the Beans on USA DePopulation Aims

In NSSM-200, Kissinger argued that controlling the strategic resources of Third World nations was directly linked to depopulation. He wrote:

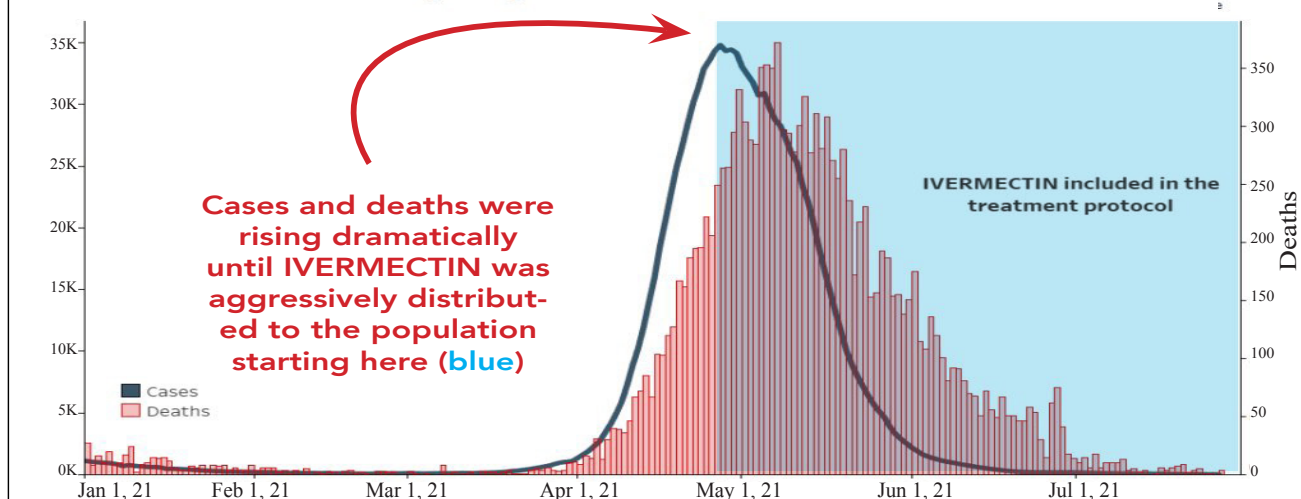

*“Whatever may be done to guard against interruptions of supply and to develop domestic alternatives, the U.S. economy will require large and increasing amounts of minerals from abroad, especially from less developed countries. That fact gives the U.S. enhanced interest in the political, economic, and social stability of the supplying countries. **Wherever a lessening of population pressures through reduced birth rates can increase the prospects for such stability, population policy becomes relevant to resource supplies and to the economic interests of the United States.**”*

How RICH is Depopulation Chief Bill Gates?

If we added the reported wealth of the **TEN RICHEST BLACKS IN AMERICA—Robert F. Smith, David Steward, Oprah Winfrey, Kanye West, Michael Jordan, Jay-Z, Tyler Perry, P. Diddy, Sheila Johnson, and Rihanna**—it would add up to about \$20 billion. One would have to multiply that amount by 7 to approach Bill Gates’s \$140 billion net worth.

Two Decades of Depopulation Planning R.F. Kennedy Exposes ‘Pandemic Simulations’

When the World Health Organization (WHO) declared the “COVID-19 pandemic” on March 11, 2020, it appeared that ALL governments on earth immediately reacted with strikingly similar measures. They instituted lockdowns, quarantines, masking, “social distancing,” temperature checks, travel restrictions, small business closings, media censorship, and widespread testing. And in unison they ALL repeated the mantra through highly scripted news media that remains in place today—that the *only thing* that will save humanity is VACCINES, VACCINES, and more VACCINES!

And now the new book by attorney Robert F. Kennedy, Jr., *The Real Anthony Fauci*, uncovers how these governments were able to act in such a coordinated manner to a “pandemic” that they all claimed had caught them by surprise. **Kennedy outlines 16 specific scenario planning events** that started in 1999 and involved more than 20,000 participants, including the U.S. Justice Department, FBI, CIA, FEMA, hundreds of federal, state, and local agencies, private businesses, and volunteer groups, and several of the richest foreign governments. These pre-COVID organized simulations were financed by the Rockefeller Foundation, World Bank, WHO, the Koch Institute, and the world’s most aggressive depopulators, Bill and Melinda Gates:

- **Kadlec/Johns Hopkins (1999)**
 - **TOPOFF 1 (2000)**
 - **Dark Winter (2001)**
 - **Atlantic Storm (2003)**
 - **TOPOFF 2 (2003)**
 - **Global Mercury (2003)**
 - **Atlantic Storm (2005)**
 - **TOPOFF 3 (2005)**
 - **SCL Simulation (2005)**
 - **TOPOFF 4 (2007)**
 - **Lockstep (2010)**
 - **MARS (2017)**
 - **SPARS (2017)**
 - **Clade X (2018)**
- **Crimson Contagion (2019)**
 - **Event 201 (2019)**

Several of those events predicted that a “novel virus” would infect the world, thus requiring dictatorial repression, including the wholesale elimination of human rights and forced vaccines—all leading to a new system of “vaccine passports,” where all of life’s benefits are restricted only to those who have taken the poisonous injection. They even predicted that resistance should be expected from “African Americans” (page 415). This remarkable series of events, culminating in the “sur-

“They (the white race) are great scientists at tricking the black people. They were created by nature liars and murderers. (As Allah has taught me). They are the first liars and human murderers since the creation of our earth and have sought every evil means to exterminate us from our earth without exterminating themselves. Their entire rule over the Black Nation is a rule of death! They bring suffering and death upon us with a smile! Their show of friendship with you is only false. Both Bible and Holy Qur-an constantly warn us against taking them for friends. History shows that all black people who took them for friends learned later that they had been deceived.”

prise” COVID-19 “pandemic,” is apparently why **Dr. Anthony Fauci** could make this now infamous “prediction” in his “Pandemic Preparedness in the Next Administration” speech on Jan. 10, 2017, shortly before Trump’s inauguration: “The thing we’re extraordinarily confident about is that we’re going to see [a pandemic] in the next few years.”

Dr. Michael Ryan

In May of 2018, Gates, with the WHO and World Bank, created the **Global Preparedness Monitoring Board** to solidify the lessons of the simulations so that the lockdowns, forced masking, stay-at-home orders, disinfection campaigns, and vaccine mandates could be easily deployed on a global scale. Fauci is one of the members. Another one of its members, **Dr. Michael Ryan**, stated in June of 2019—six months before the “surprise pandemic”—that “we are entering a new phase of high impact epidemics” that would constitute “a new normal.”

Vaccine Passports’ Set to Put Humanity Under Satan’s Grip

Investigative journalist Corey Lynn explained that the aim of “vaccine mandates” is to place humanity into digital slavery through a mark-of-the-beast system of Vaccine Passports designed to create a digital trail of our every move. The end-goal is to surveil and collect not only medical information but also financial transactions, political affiliations, religious and philosophical beliefs and more.

In 2019, it may also have seemed far-fetched that you’d have to receive an injection of an unknown experimental drug in order to enter restaurants, gyms,

entertainment venues and workplaces. “Simply put... The passport is to force everyone into the new global social credit system. That system is to bring the global population to full obedience, as the globalists control everyone’s access and spending to anything and everything in life, through the use of the new central bank digital currency system (CBDC) they are building.” These vaccine passports will be used in many ways:

Health care — to access insurance or to get ambulance service or even prescription medicine or transplants.

Telecommunications — to use smart phones and all digital devices.

E-government — to file taxes, vote and collect benefits.

Social media platforms — for social interactions.

E-commerce — to shop, conduct business transactions and secure payments.

Financial services — to open bank accounts and carry out financial transactions on-line.

Food and restaurants — to enter supermarkets and eating places.

Travel and mobility — to fly, board a train or bus, take a taxi or Uber; to go through border control between countries, states, or regions.

Revelation 13:16:

“And the second beast required all people small and great, rich and poor, free and slave, to receive a mark on their right hand or on their forehead.”

The next verse (13:17), however, is often overlooked:

“...so that no one could buy or sell unless he had the mark—the name of the beast or the number of its name...”

Holocaust Survivor Compares Vaccine Mandates to Hitler’s Nazi Germany

Holocaust survivor and activist Vera Sharav draws on her experience during Nazi Germany to form her perspective on what is happening in the world today:

“The stark lesson of the Holocaust is that whenever doctors join forces with government and deviate from their personal, professional, clinical commitment to do no harm to the individual, medicine can then be perverted from a healing, humanitarian profession to a murderous apparatus.

“What sets the Holocaust apart from all other mass genocides is the pivotal role played by the medical establishment, the entire medical establishment. Every step of the murderous process was endorsed by the academic, professional medical establishment. Medical doctors and prestigious medical societies and institutions lent the veneer of legitimacy to infanticide, mass murder of civilians.

“Under the Nazi Regime, moral norms were systematically obliterated. The medical profession and institutions were radically transformed, academic science, the military, industry and clinical medicine were tightly interwoven, as they are NOW. The Nazi system destroyed a social conscience in the name of Public Health. Violations against individuals and classes of human beings were institutionalized. Eugenics-driven public health policies replaced the Physician’s focus on the good of the individual. [The] German medical profession and institutions were perverted. Coercive public health policies violated individual civil and human rights. Criminal methods were used to enforce policy. Nazi Propaganda used fear of infectious epidemics to demonize Jews as spreaders of disease, as a menace to public health.... Fear and propaganda were the psychological weapons the Nazis used to impose a genocidal regime, and today some are beginning to understand why the German people didn’t rise up: fear kept them from doing the right thing. Medical mandates are a major step backwards towards a fascist dictatorship and genocide. Government dictates medical intervention—these undermine our dignity as well as our FREEDOM...”

Noted Doctor Calls Out ‘Bullies’ Says Boost Your Immune System

Dr. Henry Ealy is the founder of the Energetic Health Institute with over 20 years of teaching and clinical experience as a natural healer. In a recent interview he spoke about the depopulation “bullies,” and how to build one’s NATURAL IMMUNITY:

“...Are you trying to take the easy road out because you’re exhausted and you’re tired of this and you think by doing this—complying with evil—you will somehow get them to leave you alone? I’m going to tell you a sad tale right now: These are bullies. And you never stop a bully by doing what the bully wants. You stop a bully by drawing your line in the sand and saying ‘No

more!’ This goes away when we say: Enough! This will never go away when we comply. It will not happen—there’s too much money on the table. You have an obligation to your children and their children and their children’s children to stand your ground, right here, right now. And do what’s right. And that’s to say: ‘I’m not going to trade my freedom, my God-given freedom, for your profits.’”

On Natural Immunity: “[I]mmunity lives from within—it’s not something that is in a syringe and it’s not something in a pill jar; it’s something that was given to you by your Creator. And it’s something that I think we all need to learn a little bit more about and respect. Because all it takes is a few nutrients to maximize the potential of the gift that you’ve been given...”

Get into intermittent fasting. Give your body a chance to heal from what you may have been exposed to every single day. Sixteen hours of intermittent fasting, one day a week intermittent fasting, or do 3 days of water fasting every month—or do them all. I’m going to tell you a little secret: fasting changed my life for the better. It gets things really clear, really quick. If it’s good enough for Jesus, it’s good enough for me.”

American History of Medical Racism & Savagery

A senior scientist and whistle-blower with the CDC, Dr. William Thompson, admitted that he and his co-authors intentionally omitted important information from their 2004 study—data that showed that Black males who received the MMR (mumps, measles, rubella) vaccine before age 36 months were 3.4 times more likely to develop autism when compared to Black boys who receive MMR after 36 months of age. For more than 10 years, the CDC refused to warn the public.

Black Sterilization is U.S. Policy

The sterilization of Black women in America became an almost routine feature of medical treatment. In the South, a Black woman getting surgery for any ailment was almost guaranteed to emerge from the operation sterilized. It was called a “Mississippi appendectomy” and it was a fate suffered by thousands of Black women including the great freedom fighter, Fannie Lou Hamer.

The “procedure” was done while the women were unconscious and very often, as in New York and Boston hospitals, to train student doctors. Whereas in slavery Black women were forced to become baby-making factories, post-slavery Black pregnancy was treated like a disease.

Despite the prescient Holocaust warnings by Vera Sharav, satanic attorney Alan Dershowitz opined on whether American citizens can be forced to take a “vaccination”:

“Absolutely. Absolutely. And if you refuse to be vaccinated, the state has the power to literally take you to a doctor’s office and plunge a needle into your arm....[Y]ou have no right to refuse to be vaccinated against a contagious disease. Public health, the police power of the Constitution, gives the state the power to compel that; and there are cases in the United States Supreme Court.”

‘Run the World’ actress fired from the series over COVID-19 vaccine mandate

Andrea Bordeaux said she was fired from the Starz show over a COVID-19 vaccine mandate on the Lionsgate set. Bordeaux, who played the character Ella McFair on the series, shared her perspective in an Instagram post

“I did not opt to leave the series and Lionsgate made no efforts to find a workable solution. I was fired,” she wrote in the caption. “My heart is with all of the people around the world who feel that they are losing so much due to their choice to stand in their convictions and to honor their deepest core beliefs.”

Lionsgate president Sandra Stern (left) has made no public comment on Bordeaux’s firing or on the policy that employees be forced to take the unsafe serum that has now killed at least 23,000, according to the CDC’s VAERS database.

Shaq Rips COVID Vaccine Mandates

Basketball Hall of Famer Shaquille O’Neal encouraged his listeners on “The Big Podcast with Shaq” to “be safe” and “take care of your family.” “But it’s just, people don’t want to take it [the jab], and you shouldn’t be forced to take something you don’t want,” he said.

The Racist Tuskegee Syphilis Doctors

Just days after the Nazi horrors were exposed to the world, the Tuskegee Syphilis Experiments in Alabama came under the direction of two Jewish doctors: Sidney Olansky and Stanley Schuman. Dr. Olansky published more articles on

Tuskegee than any other participant. When asked about the lies they told to the Black male victims, Dr. Olansky said:

“The fact that they were illiterate was helpful because they couldn’t read the newspapers. [Otherwise] they might have been reading newspapers and seen what was going on....[M]aybe they didn’t have sense enough to understand it, but it was explained to them....The thing that ruined [the experiment] was the racial upheaval.”

Truckers by the Thousands Join Convoy in Protest of Canada’s Brutal COVID Mandates

Turning a “Pandemic” into a “Casedemic” Why Biden’s Testing Plot is a Scamedemic

Truckers in Canada have shut down the busiest border crossing in North America, the Detroit-Windsor border, stopping traffic on both sides of the border. The truckers told Fox News that they are fighting for “all Canadians” as thousands from all over Canada joined a massive convoy that rolled into their capital of Ottawa to the parliament building to end the vaccine and mask mandates imposed by the government of Canadian president Justin Trudeau. The peaceful protest grew in scope as millions of Canadians lined the roads and highways in freezing temperatures to show support for the drivers.

As the protest grew, Trudeau (right), who was double vaccinated and boosted, left town claiming he had contracted “COVID-19” and had to “isolate.” And though the “vaccine” he has made a requirement for Canadian citizenship has utterly failed him, he made a bizarre video claiming that the truckers—*not the vaccine makers*—were a violent, hateful and intolerant “fringe minority.” Several police were filmed reporting that the Ottawa protests were peaceful and no such hate or violence was known to them.

Trudeau’s government appears to be the fringe minority as thousands of Canadians have hit the streets supporting the protests with their tractors, cars and on foot, some bringing food and supplies to the truckers, who have been protesting in the capital for over a week.

“We’re in for the long haul,” said one trucker, “and we’re here until we achieve the goal. And that is to have our voices heard, [and] to have the freedoms restored that the citizens of this nation deserve.”

The truckers GoFundMe page collected donations totaling more than \$9 million. But GoFundMe froze the funds, claiming that the truckers had violated the website’s terms of service, though CFO Jeneen Mintzer would not provide any proof of the charge.

The government’s not-so-subtle shift in focus from COVID “deaths” to “cases” has been accompanied by a massive push for widespread testing of the American people. Biden says they have purchased one billion “home test kits” to distribute “free” to the American people. But WHY testing and not truly effective interventions like vitamin D, ivermectin, hydroxychloroquine, or zinc? According to **Dr. Madhava Setty**, of the **Children’s Health Defense** (right), the point of the testing plot appears to have nothing to do with health and everything to do with inflating the number of cases to bolster public fear and anxiety to keep the “pandemic” alive.

Dr. Setty points out that Biden’s testing program will very likely lead to very large numbers of people testing positive when they actually DO NOT have “COVID.” “When this trend goes too far we find ourselves in a ‘casedemic’ rather than a pandemic.” To get out of a never-ending casedemic scenario he says the US should be tracking hospitalizations, given that studies show that more than 98% of “cases” were overwhelmingly mild and indistinguishable from the common cold. In fact, the government maintains that the only way to tell COVID from a common cold is with a test. Dr. Setty: “To be entirely clear, if only a test can tell a cold and Omicron apart, then Omicron is just a cold.”

“Given our focus on ‘cases,’ we have in recent days reached even higher heights of Orwellian absurdity with respect to tracking and responding to the virus.... Today’s narrative around Omicron continues the pattern of extreme exaggeration of all public COVID-19 stats, followed by the inevitable over-reaction from policymakers, politicians and the public. Two years into this global nightmare it is becoming clear that the pandemic is overwhelmingly a man-made and policy-made event, where it is the policy choices themselves that are causing the vast majority of harm, not the virus.”

Hospitals Paid Big \$\$ To Kill Us

Dr. Peterson Pierre, MD

The “COVID-19” money trail leads from government medical programs to hospitals—all the way to the undertaker. In a viral video Dr. Peterson Pierre outlined the perverse cash incentives amounting to over \$100,000 per “COVID” patient. He concludes that “The Biden Administration is literally paying hospitals to kill you.” The CARES Act, signed into law in 2020 by Pres. Trump, floods the medical industry with a COVID cash tsunami. Dr. Pierre describes it:

The current situation is this: If you have COVID and you end up in the hospital, you’re put on a rigid protocol. There’s a high mortality rate in the hospitals and your family is kept in the dark as to what is happening. What’s going on here?

The current situation is this: If you have COVID and you end up in the hospital, you’re put on a rigid protocol. There’s a high mortality rate in the hospitals and your family is kept in the dark as to what is happening. What’s going on here?

- 1) The CARES Act provides bonuses to hospitals whenever people have a diagnosis of COVID.
- 2) The Center of Medicare and Medicaid Services is waiving patient Bill of Rights. This is a deadly combination. Hospitals get a payment because they give a free COVID test in the emergency room. They get a boosted payment if they get a diagnosis of COVID.
- 3) Hospitals get another bonus payment if the patient is admitted with COVID.
- 4) Hospitals get another bonus payment if the patient is put on Remdesivir.
- 5) Another bonus payment for hospitals if the patients are put on mechanical ventilators.
- 6) Another 20% bonus payment if the [dead] patient diagnosis is marked as “COVID,” even though the patient might not have died from COVID.
- 7) There are also bonus payments to coroners.

Do you understand the gravity of what is happening right now? The Biden Administration is literally paying hospitals to kill you! That’s what’s happening. This is terrible. We need to stop it. These are real human lives we’re talking about. They’re priceless.

It’s estimated that hospitals receive \$100 000 per covid patient. Ladies and Gentlemen, think about it.

What Are They REALLY Testing For?

Early on, Tanzania’s President **John Magufuli**, who had a Ph.D. in chemistry, declared that COVID-19 had been defeated in his country, attributing it to God’s help in the form of natural remedies. Magufuli enraged the Western powers when he suspected that the coronavirus PCR test kits were being fraudulently used to hype the infection rates.

The late president of Tanzania John Magufuli

In May 2020, he sent in swabs from a goat, a papaya, a sheep, and motor oil, giving each sample a human name, gender, and age, and they all tested positive for COVID-19! With the scam exposed—and by a certified chemist, no less—Africa became more vaccine-resistant than it ever had been. Magufuli warned Africa, “*You should stand firm. Vaccinations are dangerous. If the white man was able to come up with vaccinations, he should have found a vaccination for AIDS by now; he would have found a vaccination [for] tuberculosis by now; he would have found a vaccination for malaria by now; he would have found a vaccination for cancer by now.*”

It is suspicious that Pres. Magufuli died in 2021 at age 61 allegedly of “heart failure,” but thanks to him, Africa has the lowest rate of COVID “vaccination” in the world and the lowest rate of infections and deaths.

Army Whistleblower Reports Huge Increase in Deaths & Injuries Since Vaccine Rollout

Department of Defense data show big spikes in miscarriages, neurological disorders, cancer and other illnesses among members of the U.S. military since its rollout of COVID-19 “vaccines.”

Attorney **Thomas Renz** testifying at a Senate hearing said data provided to him by three whistleblowers showed COVID “vaccines” are causing “catastrophic harm” to members of the U.S. military while not preventing them from getting the virus.

Renz said diagnoses for neurological issues increased ten times from a five-year average of 82,000 to 863,000 in 2021. Other medical conditions were also dramatically increased among military personnel:

Atty. Thomas Renz at the Senate hearing

Hypertension: 2,181% increase.

Diseases of the nervous system: 1,048% increase.

Multiple sclerosis: 680% increase.

Guillain-Barré syndrome: 551% increase.

Breast cancer: 487% increase.

Female infertility: 472% increase.

Pulmonary embolism: 468% increase.

Migraines: 452% increase.

Ovarian dysfunction: 437% increase.

Testicular cancer: 369% increase.

Tachycardia: 302% increase.

Attorney Renz also told the Senate panel that some data appeared to have been purposely removed from the database and even “doctored” in order to hide the extent of the “vaccine” damage.

A DOD spokesman claimed “there was a glitch” in the DOD database that “gave the false impression that there was a huge spike in miscarriages, cancer and other medical issues among military members in 2021,” and said the database had “been taken down [only] to identify and correct the problem.”

The U.S. Army began discharging service members who refuse the vaccine, which is mandated across all arms of the military. A lawsuit filed by 18 service members challenging the mandate is pending, as is the plaintiffs’ most recent request for an injunction.

In a letter to **Secretary of Defense Lloyd J. Austin**, Sen. Ron Johnson, who convened the hearing, asked military officials to “explain what actions DOD has taken to investigate the root cause for the increases in these diagnoses,” and to “explain why and when this information was removed and identify who removed it.”

Secretary of Defense Lloyd J. Austin III

“It’s not a bacterial war, but a war of systemic poisoning. They’re using chemical warfare against all of us....I haven’t met these Luciferian people, wherever they may be....The only thing you prove by vaccinating your children is that if they live through, you just poisoned them, and they survived.”

“We have been sold a bill of goods. We have been deceived....Germs are only the expression of the degeneration of change in matter. It is important to understand that disease as a consequence of its environment, of your lifestyle of your diet, where you live, what you think what you believe....You do not get sick, you do sick. All of your physical, mental and emotional sicknesses are born within you. If we blame these things on other, all we’re doing is not taking the personal responsibility for our lifestyle and dietary choices.”

The ‘Science’ of Manipulation: Fear, Guilt, & Shame Used to Push Vaccine Compliance

There’s an entire field of mind-control research dedicated to developing messaging to persuade “vaccine-hesitant” individuals to get the COVID-19 vaccine—and none of it has anything to do with facts.

According to **Children’s Health Defense**, “A National Defense Authorization Act amendment in 2012 that legalized the use of propaganda on the American public makes it easier for governments to create self-serving narratives. And thanks to a multi-billion dollar budget from the U.S. Department of Health and Human Services (HHS) and the Centers for Disease Control and Prevention (CDC), we are under the influence of the best messages money can buy — whether or not those messages are true.”

Yale University researchers examined how different persuasive messages affected (1) intentions to receive a COVID-19 vaccine, (2) willingness to persuade friends and relatives to get the vaccine, (3) fear of those who have not been vaccinated, and (4) social judgment of people who choose not to vaccinate.

Messages they tested incorporated themes of self-interest, community interest, guilt, embarrassment, anger, bravery, trust in science, personal freedom, economic freedom, and community economic benefit.

Overall, writes CHD, “it was a message that appealed to community interest, reciprocity and a sense of embarrassment that proved most persuasive, resulting in a 30% increase in intention to vaccinate, a 24% increase in willingness to advise a friend to get vaccinated and a 38% increase in negative opinions of people who decline the vaccines...”

American History of Medical Racism & Savagery

A 2020 report concluded that Black newborn babies in the U.S. “are more likely to survive childbirth if they are cared for by Black doctors, but three times more likely than White babies to die when looked after by White doctors.” The mortality rate of Black babies born in hospitals shrunk by between 39% and 58% when Black physicians took charge of the birth.

Why is “Vaccine” Data Kept Secret From Public?

The US government spent millions finding pliable negro misleaders to insist that the COVID “vaccines” were “safe and effective” and to shame and bully “vaccine hesitant” Blacks into chemical compliance. But the shameless negro Pharma shills actually had no idea what was in any of the alleged “vaccines” and worse, they apparently felt no need to ask before they dutifully pushed it onto the Black public.

Even today, the actual ingredients of the chemical concoctions are kept secret from the jabbed masses.

Pfizer’s “vaccine” trial was designed, run, analysed, and funded by the company and authored by Pfizer employees. Pfizer will not release the trial results even to the US government until May 2025, a full 2 years after the trial’s completion date.

Moderna says its data “may be available” “upon request and subject to review once the trial is complete.”

AstraZeneca says it may entertain requests for data but “time-lines vary per request and can take up to a year upon full submission of the request.”

Meanwhile, as the ingredients of the secret serum are being inexplicably withheld from the public’s view, the CDC database is showing that **at least** 23,000 healthy citizens have died after the “jab,” 125,000 required hospitalization, and 40,000 have suffered permanent disabilities.

US Measles Mortality Rates (PER 100,000 POPULATION)

Do Vaccines Really Work?

The Drug Industry has convinced the world that its vaccines have saved the world from massive deaths and disease. But as this graph shows, measles had been almost totally eradicated long before the introduction of the “measles vaccine” in 1963. The drop in deaths from measles is a result of better hygiene and advances in public sanitation practices—not the “vaccine.”

Bro. Rizza Islam Speaks to 30,000 at the Defeat The Mandates Rally in DC

Brother Rizza Islam shares his experience at the Defeat The Mandates Rally on January 23, 2022:

The most significant thing, in my view that occurred that day, was witnessing unadulterated, unfiltered, uncensored truth being delivered consistently back-to-back with every speaker, regardless to their color, their creed, their religion, their vaccination status, their political status, etc. Every single speaker, every single person that presented gave the truth that the people have been

looking for. Whether they were a scientist, whether they were a medical professional, whether they were a spiritual leader, whether they were a politician, whether they were an activist, everyone finally received the truth that they had been thirsting for, for so long. And it was truly sincerely beautiful to witness and to be a part of, on behalf of the Honorable Minister Louis Farrakhan...

I opened with declaring the **Honorable Minister Louis Farrakhan** and the name of the **Most Honorable Elijah Muhammad**...I had to make it very clear that the **Honorable Minister Louis Farrakhan** warned us of this, two years before, that he warned us of the outcome. He warned the Pope. He warned President Trump. He warned the leader of China. He warned the African leaders, and he warned all members of the human family. I stated that in front of everyone, and I asked the crowd, which were of a majority White, Did he say it? And they said, Yes! I asked them three times: Did he say it? And they said, yes! So they were bearing witness to the words and the warning of the Honorable Minister Louis Farrakhan, because we knew this already. So I have to make it clear that first of all, before we go anywhere near what scientists said, the Minister already said it. That was the first thing, and then I went into details about other things, about how they've experimented on us far worse than Tuskegee, about how they pimped our artists and pimped the Black community to get the masses of humanity by using our artists, our rappers, our singers, etc...

But he may not be used as a clerk! In all this, the master's absolute right of ownership is restrained! An international coalition of lawyers and judges based in Germany filed a lawsuit at the International Criminal Court in The Hague against 14 people “for numerous violations of the Nuremberg Code, crimes against humanity, war crimes and crimes of aggression” perpetrated by governments who used the COVID-19 pandemic as the pretext.

Attorney **Dr. Reiner Fuellmich** called it a “‘plandemic’ fueled by an elaborate psychological operation designed to create a constant state of panic among the world’s population.”

The lawsuit charged that “This involves population control which, in their view, requires both a massive reduction of the population and manipulating the DNA of the remaining population with the help of mRNA experimental injections [‘vaccines’],” Fuellmich said.

Jabs to Juveniles?! Absolutely NO Justification

After its “vaccine” miserably failed to stop infection or transmission of “COVID-19” in even those who are double jabbed and boosted, Pfizer has greedily set its sights on children ages 6 months to 4 years old. But in a legal challenge to the move, the **Informed Consent Action Network (“ICAN”)** says that “There is No Emergency Regarding COVID-19 in Children.” According to the group’s attorney **Aaron Siri**:

Numerous studies suggest healthy children do not die from COVID-19 disease. A paper from a research team at Johns Hopkins analyzed approximately 48,000 children under 18 years old diagnosed with COVID-19 and found a mortality rate of zero among children who did not have a pre-existing medical condition such as leukemia. Neither the FDA nor the CDC have put forth data disputing this, and the available data is for “deaths involving COVID-19” as opposed to deaths caused by COVID-19.

In the UK, scientists developed the same conclusions after analyzing the incidence of healthy children dying from COVID-19. Of the 25 childhood fatalities determined to be caused by COVID-19, only 6 (24%) of the children were determined to be healthy, corresponding to 0.48 deaths per million children. Scientists also noted that “it is possible, due to the hospital data only being available for the last five years, that some children and young people may have had a comorbidity that was not identified in this linkage.”

...Therefore, given the above data and the extraordinarily low risk of hospitalization and mortality from COVID-19 among healthy children, there is no emergency need to justify authorizing an experimental vaccine...for use in children 6 months to 4 years of age.

“There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it, because they will be distracted from any desire to rebel by propaganda or brainwashing, or brainwashing enhanced by pharmacological methods. And this seems to be the final revolution.”

Embalmers Find Veins & Arteries Filled with “Never Before Seen” Rubbery Clots

Board-certified funeral director and embalmer, **Richard Hirschman** (right) has made a startling discovery in the bodies of deceased people. He revealed that he is seeing arteries and veins filled with unnatural blood clots with strange fibrous materials that are completely filling the vascular system. Photographs he took show unusually long “white, stringy, fibrous tissue” that he pulled from the veins and arteries in “fifty percent” of the bodies he and other embalmers are preparing for burial. The worm-like clots in the photos are 2-3 feet in length.

According to Hirschman, this is unlike anything he had ever seen before in his over 20 years of experience in the embalming industry. He revealed to **Dr. Jane Ruby** in an online interview, that he had conferred with other embalmers who are also finding these worm-like structures. He confirmed that some of those deceased with these blood clots had indeed received the COVID-19 “vaccines.” Mr. Hirschman thought it was “amazing” how many people are dying with heart attacks and strokes lately and said, “If one of these small fibrous tissues, gets up into the brain, you’re going to have a stroke. If it gets into your heart, it’s going to lead you to a heart attack.” Of the 35 people that he had personally embalmed in February, 20 to 24 had had these strange clots.

Meanwhile, it is reported by *Mercola.com* that stocks in funeral homes have soared, “as death rates creep up, particularly among young, working-age individuals.” Ex-**Blackrock** fund manager **Ed Dowd** pointed out “a spike in mortality among younger, working-age individuals coincided with vaccine mandates.” Dowd tweeted about the booming funeral home industry:

“Business has been quite good since the introduction of the vaccines & the stock was up 106% in 2021. Curious no? Guys this is shocking as 89% of Funeral homes are private in US. We are seeing the tip of the iceberg.”

DePopulation Successfully Targets Black Women

Let’s look at how racism affects reproductive health-care.

- For women over age 30, pregnancy-related mortality rates for black women are 4 to 5 times higher than it is for white women.
- Black women are three times more likely to have fibroids that increase risk for post-partum haemorrhage.
- Of women experiencing unintended pregnancy, opting for abortion was higher among black women (50%) compared to other racial and ethnic groups (36-40%).
- Black women are 2 times more likely to lose their lives to cervical cancer compared to white women.
- An estimated 11% of black women receive infertility treatment compared to 16% of white women.

Google: Searching for Medical CENSORSHIP

Google has led the way in censoring legitimate medical information if it does not align with the wishes of the pharmaceutical industry, and here’s why. According to Robert F. Kennedy, Jr.’s book *The Real Anthony Fauci*:

“Google’s parent company Alphabet owns several vaccine companies, including Verily, as well as Vaccitech, a company banking on flu, prostate cancer, and COVID vaccines. Google has lucrative partnerships with all the large vaccine manufacturers, including a \$715 million partnership with GlaxoSmith-Kline. Verily also owns a business that tests for COVID infection.”

Two healthy high school basketball players died suddenly on the same day

Seventeen-year-old **Cameran Wheatley** of Chicago and fifteen-year-old **Devonte Mumphrey** of Texas both collapsed on February 8, 2022, and died from a sudden cardiac arrest.

Both families said that they were healthy and active young men before the tragedy. Their names are added to a growing list of athletes who have suffered heart-related medical emergencies since the “COVID vaccines” have been made a requirement for athletes to participate in sports worldwide.

It is well known now that the mRNA “vaccines” are associated with heart inflammation (myocarditis)—a known risk factor for sudden death. The odds of such an event occurring naturally would be, statistically speaking, virtually impossible. The chances of an otherwise healthy adolescent dying of sudden cardiac death are scarce and have been estimated at roughly 1 in 200,000. Your lifetime risk of being struck by lightning is 1 in 14,000.

The website goodsciencing.com documents the collapses and sudden deaths among athletes, and they have now recorded some 707 Athlete Cardiac Arrests, and 446 sudden deaths since the “vaccine” roll-out.

‘Conspiracy Theories’ That Are Now FACTS

When wise and intelligent people and medical professionals expressed their opinions and observations on the “pandemic,” they were labeled “conspiracy theorists” and attacked, censored, and thrown off social media, and some were even physically threatened. Here are some of the alleged “conspiracy theories” that proved to be ACCURATE predictions:

CONSPIRACY: The “vaccine” will not reduce transmission or end the pandemic.

TRUTH: The “vaccine” DOES NOT reduce transmission or end the pandemic.

CONSPIRACY: The “vaccine” will not reduce infection and is therefore not even a vaccine.

TRUTH: The vaccine DOES NOT reduce infection and so by definition IS NOT a vaccine.

CONSPIRACY: The vaccine is not safe.

TRUTH: The CDC has now received one million reports of adverse reactions to the “vaccine,” including 24,000 deaths, 125,000 injuries that required hospitalization, and 40,000 jab-ees who have suffered permanent disabilities. These “casualties” are linked to the “jabs”—NOT to COVID-19 or a war, but to the unsafe, ineffective, experimental “vaccines.” In the past, between 5 to 10 deaths would have halted the vaccine program instantly. This is the most dangerous “vaccine” in history.

CONSPIRACY: The government will resort to vaccine mandates to force the injections on “hesitant” Americans.

TRUTH: Joseph Biden forced government employees and contractors to take the injections or lose their jobs. Many states, cities, and private businesses have done the same, forcing hundreds of thousands out of work and into poverty. Some countries, such as Austria, have made vaccine mandates national policy, not just for workers but for all adult citizens, threatening hefty fines and jail time for anyone who doesn’t succumb.

CONSPIRACY: Vaccine passports that make vaccination a requirement to gain access to restaurants, entertainment venues, transportation (air, train, bus, etc.), schools, hospitals, and other necessities are the aim of the powers that be.

TRUTH: Vaccine passports are fully operational in many places and must be carried and updated with “boosters” at all times.

CONSPIRACY: The “virus” was created by scientists in a Wuhan lab.

TRUTH: Government itself admits that Fauci-funded gain-of-function experiments likely produced the “pandemic.”

CONSPIRACY: Bill Gates and his crew are intending to use skin patches to vaccinate people.

TRUTH: Gates on Feb. 19, 2022: “In the future, we don’t want to use a needle. It may turn out that you take your first dose as a micro-patch and your second dose as an inhalation...”

“You’re not going to—you’re not going to get COVID if you have these vaccinations.”

Kenyan Doctors Say Tetanus Vaccines Were Laced With Sterilization Drug

In 2014, the **World Health Organization (WHO)** and the **United Nations** were charged with running a tetanus vaccination program in Kenya that was really a mass sterilization plot. According to reports, the tetanus shots were laced with the Beta-HCG hormone that causes infertility and miscarriages. Authorities became suspicious of the vaccines and asked why it was necessary to give a series of five vaccinations against tetanus, rather than the usual two or three, and why only young women of child-bearing age were vaccinated.

They observed that women who had been vaccinated miscarried in large numbers or were unable to conceive at all. The plot came to light in a statement signed by the 27 bishops of the **Kenya Conference of Catholic Bishops**, in which they said they “acquired several vials of the vaccine, which we sent to four unrelated government and private laboratories in Kenya and abroad.” The labs found that all the vaccines were “indeed laced with the Beta-HCG hormone.”

Dr. Wahome Ngare

The Catholic bishops presented the findings to the government agencies involved, who denied the charge. **Dr. Wahome Ngare**, writing on behalf of the Kenya Catholic Doctors Association, stated that

“It was only after antibodies against HCG were demonstrated in the women who were immunized with the laced tetanus vaccine that the matter was sealed. The immunized women have suffered multiple abortions and some have remained sterile.”

This was not the first time such claims have been made. The World Health Organization conducted massive vaccination campaigns using the HCG-laced tetanus vaccine in Mexico in 1993, in Nicaragua and the Philippines in 1994, and in Peru in 1995. The campaigns targeted women of child-bearing age and each received a total of 5 injections. Finally, tests carried out by Catholic doctors in Peru and the Philippines showed that the World Health Organization vaccines were tainted with beta-HCG, results that the WHO brushed off as “accidental contamination.”

The Kenyan bishops were not speaking as outsiders. Catholic-run health institutions formed Kenya’s largest private health network and had been providing medical services to Kenyans for over 100 years. They concluded, *“That we shall not waver in calling upon all Kenyans to avoid the tetanus vaccination campaign laced with Beta-HCG, because we are convinced that it is indeed a disguised population control program.”*

Top Scientist Says

“Mask-wearing is a Biochemical Nightmare.”

Q: Rep. Kara Hope (D) Michigan, House of Representatives:

“So if I have a business, I can require people to wear their hair short or dress a certain way. Why can't I require them to wear a mask?”

A: Molecular Biologist Dr. Christina Parks:

“Because mask-wearing is a biochemical nightmare. It's a metabolic nightmare that increases your risk for cancer. It increases your cardiovascular risk. It basically makes your body breathe [much harder because] it's got too much carbon dioxide (CO2) in it, which actually helps cancer to grow. It's actually extremely inflammatory. It's going to exacerbate every inflammatory disease, including diabetes and hypertension. It causes hypertension because your body is trying to breathe harder to actually maintain homeostasis but it can't because it keeps getting too much carbon dioxide (CO2) and not enough oxygen. And so, you are asking somebody to put their health at risk. Some people can medically tolerate this, but many people can not.”

Dr. Christina Parks

R.F. Kennedy, Jr. on Mask Dangers

During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body-temperature checks at the entries to communal spaces like train stations and supermarkets. Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified...

[Some 26] studies attribute to masking a grim retinue of harms, including respiratory and immune system illnesses, as well as dermatological, dental, gastrointestinal, and psychological injuries. Fourteen of these studies are randomized, peer-reviewed placebo studies. There is no well-constructed study that persuasively suggests masks have convincing efficacy against COVID-19 that would justify accepting the harms associated with masks.

Finally, retrospective studies on Dr. Fauci's mask mandates confirm that they were bootless. “Regional analysis in the United States does not show that [mask] mandates had any effect on case rates, despite 93 percent compliance. Moreover, according to CDC data, 85 percent of people who contracted COVID-19 reported wearing a mask[.]”

Moreover, masking, by amplifying everyone's fear, helped inoculate the public against critical thinking. By serving as persistent reminders that each of our fellow citizens was a potentially dangerous and germ-infected threat to us, masks increased social isolation and fostered divisions and fractionalization—thereby impeding organized political resistance.

The impact of masking on the national psyche reminded me of the subtle contribution of the “duck and cover drills” of my youth, drills that sustained and cemented the militaristic ideology of the Cold War. Those futile exercises reinforced what my uncle John F. Kennedy's Defense Secretary, Robert McNamara, called “National Mass Psychosis.”

What About “N-95” Masks?

Dr. Russell Blaylock (neurosurgeon):

“When a person is infected with a respiratory virus, they will expel some of the virus with each breath. If they are wearing a mask, especially an N95 mask or other tightly fitting mask, they will be constantly rebreathing the viruses, raising the concentration of the virus in the lungs and nasal passages....And this leads to the deadly cytokine storm in a selected number.”

Virologist Dr. Judy Mikovits writes in *The Case Against Masks*, “God designed us to rid ourselves of pathogens as much as possible, but our use of masks is adding an unforeseen obstacle to that design.”

“Cloth masks are not appropriate for this pandemic. It is not appropriate for Omicron, it was not appropriate for Delta, Alpha, or any of the previous variants either, because we are dealing with something that's airborne.”

MINNESOTA WOMAN LOSES BOTH LEGS AND HANDS AFTER 2ND PFIZER COVID-19 SHOT

Jummai Nache, a Nigeria-born Baptist missionary and medical assistant in Minneapolis, Minnesota, was instructed to take the COVID-19 “vaccines.” On February 1, 2021, she took the second Pfizer injection, and soon after, her husband Philip reports, “she started to experience chest pain at work.”

Her condition worsened and her symptoms increased. She developed blood clots in her heart, a devastating side effect of the Pfizer COVID-19 shots. Doctors diagnosed her with arterial blood clots and multiple inflammatory syndrome (MIS), a condition where multiple organs in the body become inflamed. She was placed on a ventilator on February 14, 2021.

As her GoFundMe page set up by the Minnesota-Wisconsin Baptist Convention states, she “has undergone the amputation of her two legs below the knee and will later lose most of her two hands. What lies ahead is an expensive and painful journey of healing that will include costly prosthetics, additional surgery, and necessary modifications to their lifestyle including modifications to their home and a different vehicle.”

Albert Bourla

Philip says he also questions if the vaccine played a role in her condition, and if not, what exactly did the vaccine do within her body. “My experience on this journey has been so difficult but I can’t imagine the excruciating pain mentally, physically and emotionally that my wife is going through,” he wrote. “I can only equate her experience and challenge with Job’s experience and trial in the sense that the challenges have come in degrees, one after another.”

The GoFundMe page is hoping to raise \$500,000 for their medical expenses for prosthetic limbs, therapy and other adjustments the couple will have to make going forward. Based on a 2005 law that protects vaccine manufacturers, Pfizer and its C.E.O. Albert Bourla can avoid any responsibility for ANY of the expenses for the injuries suffered by Sister Jummai and her family.

Vaccine Inventor Condemns COVID “Vaccine”

On October 7, 2021, **Dr. Robert Malone**, the inventor of the mRNA vaccine, complained in a tweet that America’s people were almost utterly blind to the flood of adverse vaccine events that were killing and debilitating their countrymen:

“The real problem here is the damn press and the internet giants. The press and these tech players act to manufacture and reinforce ‘consensus’ around selected and approved narratives. And then this is being weaponized to attack dissenters, including highly qualified physicians.”

Dr. Robert Malone

Are the COVID Test Swabs Vaxxing You?

Johns Hopkins researchers revealed the technology now developed to deliver vaccines and other medications through microscopic machines they call “theragrippers.” Inspired by a sharp-toothed parasitic worm, these tiny, star-shaped microdevices can latch onto intestines and release drugs into the body. The *theragrippers* are made of metal and a thin, shape-changing film, then coated in heat-sensitive paraffin wax.

When the paraffin wax coating on the dust-size grippers reaches the temperature inside the body, the devices close autonomously and clamp onto the colonic wall, where they are retained and release their medicine payloads gradually into the body. Eventually, the theragrippers lose their hold on the tissue and are evacuated.

The dangerous deception of this technology is obvious to anybody who has seen the government’s aggressive push for “COVID testing” after their push for the death jabs faltered. The Johns Hopkins website actually demonstrates the size of the *theragripper* technology with a photograph of a cotton swab. The caption reads: **“A theragripper is about the size of a speck of dust. This swab contains dozens of the tiny devices.”**

In fact, this is the same type of swab that is jammed far up the nose for the “COVID tests”—a test that has been found to be useless in determining the presence of viruses. With this technology it is certainly possible—and even probable—that the aggressively marketed and government-funded “Home Test Kits” may have *theragripper* swabs, like the one pictured, that contain one of the deadly “vaccines.” As The Honorable Minister Louis Farrakhan says, “We have no right to trust them.”

Meanwhile, the *Cincinnati Enquirer* reported that there is a possibly toxic substance called sodium azide in at-home COVID-19 test kits, resulting in “a surge in calls about exposures to the chemical since more people started self-testing for COVID-19 at home.”

Fifty million U.S. households have received some version of the test kits.

“We are feeding ourselves chemical death because we are so lazy. We like TV dinners with all of the chemical preservatives in them. I tell you, some of us eat more peas and carrots that have more embalming fluid in it than the dead body that we just sent to the cemetery. And you wonder why you don’t look good, you don’t feel good, you don’t act good. This world is filled with disease because we are not in harmony with the divine law of God.”

Pfizer Forced to Release Shocking List of Vaccine Side Effects

Your Food and Drug Administration (FDA), led by Dr. Rochelle Walensky, went to federal court to block the release of secret documents from Pfizer’s “vaccine” trial that prove that the poison they have forced upon the world has a horrifying list of dangerous side effects. So damning are these documents that Walensky and Pfizer boss Albert Bourla begged the court to hide them from the public for 75 years! A federal judge rejected that demand and gave the FDA eight months to release ALL the Pfizer documents. The first 55,000 pages were released on March 1, 2022, and it became immediately clear just how dangerous the “COVID vaccines” truly are. The documents list 1,291 side effects that take up a full nine pages; a partial list is presented here in the background. The Pfizer docs also prove that while high officials were openly calling the drug “safe and effective,” they had full knowledge that the “vaccines” were in fact deadly and useless—fit for depopulation and NOT for “virus” treatment. Incredibly, the US has purchased 500 million doses of Pfizer’s toxic “vaccine” as it makes Henry Kissinger’s 1974 depopulation word bond.

Kennedy Book Exposes Sudden Deaths of African ‘COVID Vaccine’ Critics

The African leaders who died suddenly after criticizing the WHO vaccination policy included President John Magufuli of Tanzania (March 17, 2021), Prime Minister Hamed Bakayoko of Ivory Coast (March 10, 2021), President Pierre Nkurunziza of Burundi (January 8, 2020), and Madagascar’s popular, influential, and anti-vax ex-President Didier Ignace Ratsiraka (March 28, 2021). Kenya’s beloved physician Stephen Karanja, the chairman of the Kenya Catholic Doctors Association—who had exposed the WHO sterilization program in 2014 and who criticized the agency’s COVID rollout in 2020—also died, reportedly of “COVID” (April 29, 2021).

Studies of “Social Distancing” Policies Finds Much Damage But NO Effect on COVID

A series of studies on the DePopulation policies of lockdowns and “social distancing” disguised as public health have uniformly concluded that they were far more damaging in many ways:

Study #1: “The effects of social deprivation on adolescent development and mental health: enforced physical distancing and reduced face-to-face social contact with peers, might have a substantial effect on brain and behavioural development during adolescence.”

Children have a 99.995% COVID recovery rate, and the medical literature indicates that almost zero healthy children under five years old have died from COVID.

Study #2: “The isolation that comes from social distancing during the COVID-19 pandemic can be particularly detrimental to the United States’ population of people who use drugs. People with substance use disorders may be at risk for return to use, exacerbation of existing mental health disorders, and risky drug practices.”

Study #3: Showed increases in depression and GAD [generalized anxiety disorder]; and personal distancing behavior was associated with these increases. Findings suggest that there are negative mental health correlates of social distancing...

Study #4: Examined the effects of lockdown measures on anxiety and depression symptomatology, health anxiety, loneliness, the occurrence of fearful spells, psychosocial distress and life-satisfaction. “We found that [they] were associated with higher mental health impairments.”

Study #5: Conclusion: Movement restrictions, business restrictions, and school closures can have substantial negative impacts on economies, education, nutrition, and routine health care.

Study #6: Conclusion: Mental and physical health in older people are negatively affected during the social distancing for COVID-19.

Study #7: Conclusion: COVID-19-related lockdowns were detrimental to children and adolescents’ movement behaviours, with stricter lockdowns tending to have a bigger impact. Children and adolescents under COVID-19 restrictions are likely to be less active, spend more time on screen, and sleep longer hours than before the lockdown.

The Conscious, Intelligent Manipulation of the Masses — 101

The conscious intelligent manipulation of the organized opinions and habits of the masses is an important element in a democratic society. Those who manipulate this unseen mechanism of society constitute an invisible government which is the true ruling power of our country. We are governed, our minds molded, our tastes formed, our ideas suggested largely by men we have never heard of. In almost every act of our lives, whether in the sphere of politics or business, in our social conduct or our ethical thinking, we are dominated by the relatively small number of persons who understand the mental processes and social patterns of the masses. It is they who pull the wires that control the public mind.

Frontline Nurse Says Hospital Drugs Killed More Patients than COVID Ever Did

In her testimony before a Senate hearing, critical care registered nurse Nicole Sirotek exposed deliberately murderous hospital procedures:

“I was one of the original nurses that went to NYC to help with the COVID pandemic...[a]nd when I arrived there, the gross negligence and the medical malfeasance that happened in there, and the complete medical mismanagement of these patients, is what has led us to the situation that we’re in right now.

“The pandemic and the hysteria that was created from poor public health measures and poor execution of appropriate early intervention strategies, and the handicapping of medical professionals doing their job, has led to where we are right now and into the crisis situation that we are in...

“[W]hen I was in New York, and what continues to happen today, is that many of them are not dying from COVID. ...I didn’t see a single patient die of COVID. I’ve seen a substantial number of patients die of negligence and medical malfeasance. [Audience members shaking their heads in agreement]

“...The pharmaceutical companies have gone into those hospitals and decided to ‘practice,’ I guess you can say, on the minorities, on the disadvantaged, on the marginalized populations that we know that we had no advocates for, because the very agencies that should have been protecting them were closed because we were [air quotes] ‘sheltering in place.’

“Now, while I was there...they rolled out Remdesivir [drug] onto a substantial number of patients for which we all saw it was killing the patients. And now it’s the FDA-approved drug that is continuing to kill patients in the United States. ...And all of this data pool shows that as these patients get Remdesivir, they have a less-than-25% chance of survival if they get more than two doses. Now they’re rolling it out on children as well and into the nursing homes or skilled nursing facilities, as [air quotes] ‘early intervention,’ when [it has been] demonstrated that there are cost-effective medications out there. And we’re going to see the amplification of death across our country. And we haven’t even touched on the vaccines...

“Now, even though I founded American Frontline Nurses, I’ve traveled extensively to South America, India, and South Africa working in hot

Nicole Sirotek, R.N., testifies at Senate Hearing

zones, stopping the spread of the virus and working with early intervention. And nowhere in those countries, in developing nations, do I see these issues that we see here in the United States... And our level of healthcare has been deteriorated to substandard, third-world nation, healthcare; whereas I tell people you are better off in South America in a field hospital than you are in level-one trauma designer hospitals in the United States. [Audience members are shaking their heads in the affirmative.]

“As nurses, we’re getting reports across the country from our American Frontline Nurses about patients not getting food, patients not getting water. How come a patient hasn’t been fed in nine days? Why do I need to get a court order to force a hospital to feed a person who isn’t intubated and who’s literally telling you they would like food. ‘Oh, well, you can’t take your BIPAP mask off.’ Well, that’s what us nurses are for: we’re going to help you take that off and we’re going to help you eat—but we’re not allowed to. If they’re on a ventilator, they’re not getting basic standards of care. I’ve had patients that haven’t been bathed, haven’t been fed, haven’t been given water, haven’t been turned. And if you ask me, this isn’t a hospital—this is a concentration camp. [‘That’s right,’ says an audience member; audience members are nodding their heads affirmatively in agreement.] Absolutely it is. [Applause.]

“Nowhere in the United States do we isolate people for hundreds of hours at a time with no human contact. It’s not even allowed in the prisons. You’re not allowed to isolate a prisoner for beyond a certain sensitive amount of time because it is horrible for their mental health and is considered inhumane; however, in these hospitals now, we’re allowed to isolate patients from their families for days and you have to say goodbye to them over an iPhone....And personally I was fired for sneaking a Hispanic family in to say the last rites to their family. And so thank you, Senator [Ron] Johnson, for giving nurses the opportunity to come and represent our patients, because as you can see we’re not often thought of as leading professionals, though we are the missing link between the doctors and the patients. So thank you so much for this time. [Applause.]”

Hospitals decided to ‘practice,’ on the minorities, on the disadvantaged, on the marginalized populations

Jehovah thwarted Pharaoh’s wicked plan to prosper through destroying the future of Israel. Pharaoh was afraid of Israel’s population, who was populating Egypt faster than the Egyptians. However, he did not want the Israelites to leave Israel. He decided to kill off the male children, which would have stopped Israel from increasing her nation. The birth control laws employed by the white race were used by his father, Yacub. It is no new thing today. He does not teach you this, nor does he teach you the sciences of modern warfare or chemistry. Of course, we do not care to learn any more about warfare, for it is the purpose of God to erase war from the human family. He now plans to destroy those who delight in making war against humanity.

“The masks are and always have been about control and everybody wearing them have driven the virus which is fear. Fear is the virus—nothing more immune suppressive than anger and fear. So we’ve crippled everyone and now they’re in two, three, and four masks. And, oh, Tony Fauci sat there last week and said, ‘Oh, yeah, wear an N95 mask. Wear one you can tolerate.’ Oh, you mean wear whatever doesn’t suffocate you?! No! No! No! No! No! This is criminal and the masks need to go off!”

Feds Secretly Paid Media to Promote COVID Shots

The Biden administration made direct payments to nearly all major corporate media outlets to deploy a \$1 billion taxpayer-funded outreach campaign designed to push only positive coverage about COVID-19 vaccines and to censor any negative coverage.

An article by the **Children’s Health Defense** explained that “Media outlets across the nation failed to disclose the federal government as the source of ads in news reports promoting the shots to their audiences.”

According to documents released through the Freedom of Information Act, the **U.S. Department of Health and Human Services (HHS)** purchased advertising from major news outlets including **ABC, CBS, NBC, Fox News, CNN and MSNBC**. HHS also ran media blitzes in major media publications including *The Washington Post, Los Angeles Times, New York Post, BuzzFeed News, Newsmax* and hundreds of local TV stations and newspapers across the nation.

The ad campaigns featured “influencers” and “experts,” like **Dr. Anthony Fauci**, and were timed in conjunction with the release of the COVID “vaccines.” Numerous scientists and public health experts have warned of the **dangers of COVID “vaccines,”** which now have a CDC-documented **death count of 25,158.**

NewsMax

A whistleblower within Newsmax confirmed the news organization’s executives agreed “to push only positive coverage of COVID vaccines.” Its former White House correspondent, **Emerald Robinson**, said she was “warned multiple times...by top Newsmax executives in 2021...to stop any negative coverage of the COVID shots,” and that “medical experts or doctors likely to say negative things about COVID vaccines would not be booked as guests.” Robinson was fired by Newsmax and was later banned from Twitter for “violating the platforms’ rules on COVID-19 misinformation.”

Newsmax’s CEO is conservative republican **Christopher Ruddy** (left), who wrote that “At Newsmax, we have strongly advocated for the public to be vaccinated,” and he imposed a “vaccine” mandate on all Newsmax employees. He departs in this pro-jab stance from most conservatives, who have decried vaccination and the disastrous “pandemic” policies of the U.S. government. But Ruddy is a member of the **Kissinger Council of the Center for Strategic and International Studies (CSIS)**, chaired by **Dr. Henry Kissinger**, whose notorious advocacy of DEPOPULATION has now been realized through COVID-19 “vaccinations.”

depopulation: (dē-pōp’yē-lā’-shūn)

To reduce sharply the population of, as by disease, war, or forcible relocation. A reduction over time in a region’s population can be caused by sudden adverse events such as outbursts of infectious disease, famine, and war or by long-term trends, for example sub-replacement fertility, persistently low birth rates, high mortality rates, and continued emigration.

Billionaires Try to Shrink World’s Population, Report Says

By Robert Frank
May 26, 2009

Last week’s meeting of the Great and the Good (or the Richest and Richer) was bound to draw criticism. The New York meeting of billionaires **Bill Gates, Warren Buffett, David Rockefeller, Eli Broad, George Soros, Ted Turner, Oprah, Michael Bloomberg and others** was described by the *Chronicle of Philanthropy* as an informal gathering aimed at encouraging philanthropy. Just a few billionaires getting together for drinks and dinner and a friendly chat about how to promote charitable giving.

There was no agenda, we were told. And no plan for a follow-up meeting. But in an age of fallen wealth idols, it was inevitable that a meeting of billionaire minds would draw scrutiny. Surely all that money and power in one room had to spell trouble for the rest of us.

An article in the *Times of London*, headlined “Billionaire Club in Bid to Curb World Population,” said the issues discussed in the top-secret meeting included health care, education and—by far the most controversial—slowing the global population growth.

“Taking their cue from Gates they agreed that overpopulation was a priority,” the article said, adding that “this could result in a challenge to some Third World politicians who believe contraception and female education weaken traditional values.”

Such a stand wouldn’t be surprising. Msrs. Gates, Buffett and Turner have been quietly worrying about Malthusian population problems for years. Mr. Gates in February outlined a plan to try to cap the world’s population at 8.3 billion people, rather than the projected 9.3 billion at which the population is expected to peak.

But some right-leaning blogs have started attacking the billionaires as forming a kind of secret sterilization society or giant ATM to fund abortions. It fed into time-honored fears of the rich using their wealth to reshape mankind in its preferred image. Some are raising the specter of eugenics....

How Fauci Fooled America

Two more prominent doctors have now publicly declared that “**Dr. Fauci got major epidemiology and public health questions wrong. Reality and scientific studies have now caught up with him.**”

Dr. Martin Kulldorff is an epidemiologist, biostatistician, and professor at Harvard Medical School, and

Dr. Jay Bhattacharya is a Professor of Health Policy at Stanford School of Medicine.

They wrote in *Newsweek* that “By pushing vaccine mandates **Dr. Fauci** ignores naturally acquired immunity among the COVID-re-

covered, of which there are more than 45 million in the United States. Mounting evidence indicates that natural immunity is stronger and longer lasting than vaccine-induced immunity....In a study from Israel, the vaccinated were 27 times more likely to get symptomatic COVID than the unvaccinated who had recovered from a prior infection.”

“Under Fauci’s mandates, hospitals are firing heroic nurses who recovered from COVID they contracted while caring for patients. With their superior immunity, they can safely care for the oldest and frailest patients with even lower transmission risk than the vaccinated.”

On mask wearing they write, “The gold standard of medical research is randomized trials, and there have now been two on COVID masks for adults. For children, there is no solid scientific evidence that masks work. A Danish study found no statistically significant difference between masking and not masking when it came to coronavirus infection....[M]asks are either of zero or limited benefit.”

“As an immunologist, **Dr. Fauci** failed to properly consider and weigh the disastrous effects lockdowns would have on cancer detection and treatment, cardiovascular disease outcomes, diabetes care, childhood vaccination rates, mental health and opioid overdoses, to name a few. Americans will live with—and die from—this collateral damage for many years to come.”

“The evidence is in. Governors, journalists, scientists, university presidents, hospital administrators and business leaders can continue to follow **Dr. Anthony Fauci** or open their eyes.”

Florida to recommend against COVID vaccines for healthy children

Florida Surgeon General Dr. Joseph Ladapo, and Gov. Ron DeSantis

The newly confirmed Surgeon General in the state of Florida, Dr. Joseph Ladapo, said that the state will formally recommend against COVID-19 vaccinations for healthy children.

“We’re kind of scrapping at the bottom of the barrel, particularly with healthy kids, in terms of actually being able to quantify with any accuracy and any confidence the even potential of benefit,” he added.

Late last month, Dr. Ladapo and Gov. Ron DeSantis announced new virus policy recommendations that discouraged mask-wearing and directed physicians to exercise their own judgment when treating virus patients, including the use of emerging treatments and off-label medications like Ivermectin and Hydroxychloroquine.

“...it was designed to harm you, your ability to reproduce yourself.”

When he made the above statement in his recent lecture titled *Swan Song*, The Honorable Minister Louis Farrakhan targeted the true aims and objectives of the COVID “vaccine”: DePopulation through a toxic “jab” that poisons the reproductive system.

Dr. Joseph Mercola analyzes the relevant scientific data:

“Without doubt, inflammation in the ovaries is not a good thing. Men also report swollen testes, and that could be indicative of inflammation as well. Preliminary data show women who get the jab within the first 20 weeks of pregnancy have a miscarriage rate of 82% to 91%.⁵ There are also VAERS reports describing fetal damage. Of course, it could also impair future fertility.

“As described earlier, some antibodies produced by the jab can react to human proteins. One protein that is similar to the spike protein that the antibodies attack is syncytin, which is essential for the fertilization of the egg. The concern is that the antibodies might attack and destroy syncytin, thereby disrupting and preventing implantation in the placenta.”

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too!

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the nation and around the world. Just as in slavery, these “plantation passes” control every aspect of life: Bill Gates’s dream is that ALL worldly opportunities to participate in society—including your ability to travel, buy food, get medical care, go to school, get a job, start a business, and all else you now take for granted—will be based on the digital permission slip that approves your medical status and vaccination history.

This is no less than a return to the most profitable time in American history—plantation slavery—when total violent control of the workforce (Black slaves) required a pass system and the widespread deployment of slave patrols. Frederick Douglass, making his first attempt to escape slavery, described it this way:

“At every gate through which we were to pass we saw a watchman, at every ferry a guard, on every bridge a sentinel, and in every wood a patrol. We were hemmed in upon every side.”

Accounts of how the plantation passport system operated in America are described in Theodore Weld’s 1839 book titled *American Slavery As It Is: Testimony of a Thousand Witnesses*:

“A patrol is kept upon each estate, and every slave found off the plantation without a pass is whipped on the spot. I knew a slave who started without a pass, one night, for a neighboring plantation, to see his wife: he was caught, tied to a tree, and flogged. He stated his business to the patrol, who was well acquainted with him, but all to no purpose. I spoke to the patrol about it afterwards: he said he knew the negro, that he was a very clever fellow, but he had to whip him; for, if he let him pass, he must another, &c. He stated that he had sometimes caught and flogged four in a night.”

The New Orleans Crescent, Oct 11, 1850

Mr. Lugenbuhl offered an ordinance in regard to slaves hired by the day or month. The ordinance provides that no slave owner shall allow a slave to work by the day or month, without giving such slave a pass, and no person is allowed to hire a slave without such pass is produced by the slave. The pass must describe the slave, state the age, etc, and give the residence of the owner. The ordinance was adopted.

CNN Admits Gov’t Using FEAR Campaign to Push Death Shots

The vaccine-pushing network CNN actually admitted in a headline that “vaccination ads use a new tactic to increase Covid-19 vaccination rates: fear.”

“With vaccination rates only inching forward slowly, the federal government is trying a new marketing tactic: fear...It’s a sharp turn from earlier ads, which used positive messages—protecting the community, getting back to normal activities, reuniting with friends—to convince hesitant Americans to roll up their sleeves...”

“The ads are part of a \$250 million HHS Covid-19 public education campaign...The new batch of ads is much rougher...The ads feel raw, and there’s no peppy music...”

Former Pfizer VP Says Gov’t is ‘going to kill you and your family.’

Dr. Michael Yeadon was Pfizer’s Vice President and Chief Scientist and spent 32 years in the pharmaceutical industry. He has been outspoken about the “COVID-19 pandemic”:

“Stop. Look out the window, and think, ‘why is my government lying to me about something so fundamental?’ Because, I think the answer is, they are going to kill you using this method. They’re going to kill you and your family.

“The eugenicists have got hold of the levers of power and this is a really artful way of getting you to line-up and receive some unspecified thing that will damage you. I have no idea what it will actually be, but it won’t be a vaccine because you don’t need one. And it won’t kill you on the end of the needle because you would spot that.

“It could be something that will produce normal pathology, it will be at various times between vaccination and the event, it will be plausibly deniable because there will be something else going on in the world at that time, in the context of which your demise, or that of your children will look normal. That’s what I would do if I wanted to get rid of 90 or 95% of the world’s population. And I think that’s what they’re doing.

“...But I remind you of what happened in Russia in the 20th Century, what happened in 1933 to 1945, what happened in, you know, Southeast Asia in some of the most awful times in the post-war era. And, what happened in China with Mao and so on.

“We’ve only got to look back two or three generations. All around us there are people who are as bad as the people doing this. They’re all around us. So, I say to folks, the only thing that really marks this one out, is its scale.”

Time to Make a Choice

What is this world coming to? The answer lies in the food we eat, in the drinks we drink, and in the thoughts we think. Food influences thought and Jesus said: “As a man thinketh in his heart, so is he.”

This is why we have to have land. We have to begin farming. We have to take land that is not being used and seek government permission; or even get together in our communities and buy the vacant lot and then learn gardening and how to garden. Then get good seeds and start planting food because it is only when you plant, and know what you’re planting, and eat what you plant, then your health will improve. Your doctor’s bills will subside.

And when we get into *How to Eat to Live* and show you how this is done, we can get away from so much drugs in medical form.

—The Honorable Minister Louis Farrakhan, from “The Time and What Must Be Done, Part 37”: “Wicked Policy and America’s National Interest,” September 18, 2013.

Pfizer CEO Bourla: Our Vax “is not that good landl doesn’t last very long.”

MARGARET BRENNAN: So you’ve seen some of that data on a fourth dose, a second booster shot. You think it will be necessary.

ALBERT BOURLA: Right now, the way that we have seen, it is necessary, a fourth booster right now. The protection that you are getting from the third, it is good enough, actually quite good for hospitalizations and deaths. **It’s not that good against infections, but doesn’t last very long.**

But we are just submitting those data to the FDA and then we will see what the experts also will say outside Pfizer.

American History of Medical Racism & Savagery

The US Army secretly put motorized blowers atop the predominantly Black Pruitt-Igoe housing project in north St. Louis to send **hundreds of pounds of zinc cadmium sulfide into the air**. Higher incidents of cancer and death were reported among the residents. When, caught the government said the tests were part of a biological weapons program and St. Louis was chosen because it bore some resemblance to Russian cities that the U.S. might attack.

Pruitt-Igoe housing project in north St. Louis

The COVID-19 VACCINE: “We Have No RIGHT to Trust Them.”

Gov’t COVID funding helped Black colleges survive the pandemic.

Historically Black colleges and universities (HBCUs) have been vaccine cheerleaders, and to this day many of their campuses have dutifully followed the disastrous lockdown policies and anti-science vaccine and mask mandates. HBCUs were given nearly \$3 billion under the American Rescue Plan, Pres. Joseph Biden’s sweeping COVID-19 relief package.

A survey of 400 college presidents found that nearly two thirds – 63% – agreed that relief funds kept students from dropping out. Over 79% also agreed the funds enabled schools to provide students with electronic devices and internet access necessary for students learning remotely to succeed.

“We have a number of students that have food and housing insecurity,” he said. “So you can be at home with unreliable internet access, with food housing insecurity, or you could be on campus where we could provide everybody for the most part with a single room and you got food access, and you got access to both WiFi and Ethernet. That was a better deal for everybody.”

More than 4 out of 5 college and university presidents (81%) polled agreed on some level that government funds allowed their institutions to keep tuition at pre-pandemic levels.

The HBCU administrators seem oblivious to the well-established dangers of the vaccine and exhibit a naive faith and dependence on a government with a record of medical racial mayhem.

CDC Chief Walensky admits she learned about COVID vaccine through CNN

Who is actually running the depop plot at the CDC? Turns out it is the Pharma-bought pandemic panic pushers at **Jeff Zucker’s CNN**. Center for Disease Control & Prevention director **Dr. Rochelle Walensky** was asked how the agency could have improved over the past two years. Her answer is stunning: “Um...well, you know I think...*I can tell you where I was when the CNN feed came that it*

*was 95 percent effective...*um the vaccine. So many of us wanted to be hopeful. So many of us wanted to say, ‘Okay, this is our ticket out, right, now we’re done.’”

“Um, so I think we have perhaps too little caution and too much optimism, um, for some good things that came our way....I really do,” Walensky continued. “I think all of us wanted this to be done. Nobody said ‘waning’ when when you know this vaccine’s gonna work, oh well, maybe it’ll work, it’ll wear off. Nobody said, ‘Well what if the next variant doesn’t, it doesn’t, it’s not as potent against the next variant.’”

Incredibly, this unscientific gibberish comes from the leader of the agency that the White House and Congress rely on to imposed lockdowns and vaccine and mask mandates, among a long list of harmful and unlawful edicts.

Have COVID Deaths Been Overcounted?

In late August 2020, the CDC published data showing only 6% of the total death count had “COVID-19” listed as the sole cause of death. The remaining 94% had an average of 2.6 comorbidities or preexisting health conditions that contributed to their deaths.

Through a series of COVID funding schemes hospitals were financially incentivized to overcount COVID cases and deaths. And yet there are many examples of people who died from other causes—like motorcycle accidents and gunshot wounds—who were counted as COVID deaths simply because they had a positive COVID test within a month of their death, or tested positive post-mortem.

In one egregious example, Lucais Reilly shot his wife in the head, and then turned the gun on himself, committing suicide on Thanksgiving 2020. The very next day—and before the coroner had even signed the death certificates—these fatalities showed up on the Colorado state website as “COVID” deaths. Nowhere on the death certificates does it say “COVID.”

Study Blames COVID Rules for 23% dive in young children's I.Q.s

A disturbing study at **Brown University** shows scores in three key cognitive tests slumped between 2018 and 2021, with face mask rules among the likely culprits. Scientists collected data from 1,600 children and analyzed the cognitive development of the youngsters through infancy, childhood, and adolescence; they looked at how average development scores in three key areas had been affected during the COVID era—with shocking results. **Researchers found that there was a 23 per cent drop in scores measuring childrens' intelligence quotients since the start of the “pandemic.”**

The study also found similar regression in the same span in regard to developing children's ability to communicate, both verbally and through subtle facial cues.

The study's findings come as parents across the globe grapple with the idea that wearing masks may interfere with the natural learning experiences and communication skills of their young children.

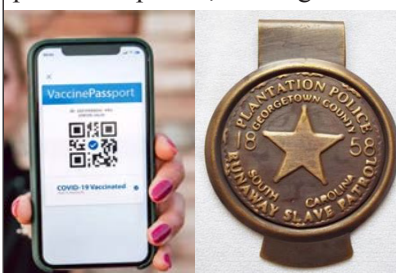

The study concluded that “children born during the pandemic have significantly reduced verbal, motor, and overall cognitive performance compared to children born pre-pandemic....In addition, masks worn in public settings and in school or daycare settings may impact a range of early developing skills, such as attachment, facial processing, and socioemotional processing.”

Further, the study's authors said that boys from poor backgrounds were most at risk of a drop in cognitive testing scores, with richer parents better able to mitigate the effects of the pandemic. They explained: “Comparing yearly mean scores since 2011, controlling for age, gender, demographic, and socioeconomic indicators, we find striking evidence of declining overall cognitive functioning in children beginning in 2020 and continuing through 2021....We find that males appear significantly more impacted than females, and that higher socioeconomic status (SES, as measured by maternal education) helps buffer against this negative impact.”

“There are sensitive periods in early childhood development in which language development and emotional development are really rapidly developing for the first few years of life,” said Dr. Ashley Ruba, a postdoctoral researcher in the University of Wisconsin-Madison's Child Emotion Lab. She added that developing children need to see others' subtle verbal or facial cues to accurately discern how someone is feeling—a skill that

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 2

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the nation and around the world. Just as with slavery's plantation passes, the Digital ID system is designed to

control every aspect of life, including your ability to travel, buy food, get medical care, go to school, get a job, start a business, and all else

you now take for granted—your every activity will be based on the digital permission slip that verifies your medical status and vaccination history.

Accounts of how the plantation passport system operated in America is described in **Theodore Weld's** 1839 book titled *American Slavery As It Is: Testimony of a Thousand Witnesses*:

A slave ran away from his master, and got as far as Newbern. He took provisions that lasted him a week; but having eaten all, he went to a house to get something to satisfy his hunger. A white man suspecting him to be a runaway, demanded his pass: as he had none he was seized and put in Newbern jail. He was there advertised, his description given, &c. His master saw the advertisement and sent for him; when he was brought back, his wrists were tied together and drawn over his knees. A stick was then passed over his arms and under his knees, and he secured in this manner, his trowsers were then stripped down, and he turned over on his side, and severely beaten with the paddle, then turned over and severely beaten on the other side, and then turned back again, and tortured by another bruising and beating. He was afterwards kept in the stocks a week, and whipped every morning.

Dr. Michael Yeadon (former Pfizer VP)

“PLEASE warn every person not to go near [the COVID] vaccines. There is absolutely no need to them....If someone wished to harm or kill a significant proportion of the world's population over the next few years, the systems being put in place right now will enable it. It's my considered view that it is entirely possible that this will be used for massive-scale depopulation.”

Banker Explains Satan's Plan of Death & Control

Catherine Austin Fitts is the president of Solari, Inc., and served on the board of directors of the Wall Street investment bank Dillon, Read & Co. Inc. She was also a high official at the Department of Housing and Urban Development in the first Bush Administration. She has provided investment strategy for \$300 billion of financial assets.

Fitts has been vocal about how the “pandemic” has twisted reality, leaving the public in a mental fog. “You're regularly pledging

obedience to things which are not logical....Censorship and campaigns to discredit those who speak out against the narrative are additional control mechanisms that distort the truth.

“Human beings crave coherence. And so if you can put them in a state of incoherence they will literally do anything they can to get back to coherence. It's a typical torture tactic. ‘If you just do what I want, I will allow you to go back to a state of coherence.’ So, if you just accept the [vaccine] passports, you'll be free. Or if you get the vaccination, you'll just be free.”

“Further, by declaring small businesses as ‘nonessential’ during lockdowns, they get shut down, while Amazon, Walmart and other big box stores can take over their market share. A major transfer of wealth occurred away from small family-owned businesses to very large, publicly owned businesses that benefited from the digital economy. The people on Main St. have to keep paying off their credit cards or their mortgage, so they're in a debt trap and they're desperate to get cash-flow to cover their debts and expenses.

“If a few people want to control many, how can you get the sheep into the slaughterhouse without them realizing and resisting? The perfect thing is invisible enemies, like viruses. This ramps up fear so the public believes they need the government to protect them.

“What COVID-19 is is the institution of controls necessary to convert the planet from the democratic process to technocracy. So what we're watching is a change in control and an engineering of new control systems. So think of this as a coup d'état. It's much more like a coup d'état than a virus.”

CDC: 14,925 DEAD FROM "VACCINE"

TV Station did not expect these vaccine DEATH stories

Despite the fact that the "vaccine" has now killed 14,925 previously healthy Americans, Facebook has heavily censored any information that shows the "vaccine" as anything other than the savior of mankind. But when WXYZ-TV tried to solicit stories of the dangers of being "unvaccinated" they DID NOT expect the flood of stories about the deaths and injuries caused by the "vaccine"! As of Sept 17, 2021, their Facebook post has received 47,000 likes, 196,000 shares and 216,000 comments. Here are some of those comments:

My grandfather died from the vaccine...will you do a story on that?

Erika Ellis

My grandma is currently in the hospital, testing negative for COVID but has been sick as hell since getting the vaccine that she HAD to have for her hip surgery.... It's awful. She's been SO sick and now she's in the ICU on oxygen and will probably get COVID from being in the hospital and the vaccine is what has landed her there!!!!

My dad (49 y/o) died suddenly two weeks to the date of getting his first vaccination (Moderna) and did not have Covid however his death certificate stated otherwise. These are the stories that need to be told.

My friend lost her mother 2 days ago after a month long battle from receiving the covid vaccine...started with inflammation of the heart and then continued from there and ended up shutting down her kidneys ...she died Sept 14th ... from the vaccine itself not covid...And she only got the vaccine because the doctor was pushing it on her husband and she didn't want him to get as they were both refusing and against the vaccine itself...so she got it because he did ...so sad

Day my dad got the shot he got a nosebleed that lasted 9 days. Hospitalized and had 2 surgical procedures to try and stop the bleeding and they finally gave up and sent him home, still bleeding from the nose. Totally safe. No side effects ever. Sure, Jan.

WHAT ABOUT ME?

I DEADLY PATTERN

Each year, three or four flu strains are active in certain locations around the world. There are three virus types: influenza A, B and C. Influenza A has two subtypes that can change into pandemic threats. Influenza B does not change, so we have more resistance. Influenza C causes only mild illness. Vaccines are developed to counter recent strains and distributed nationally October through December.

Facebook becomes source of "Vaccine" Horror stories

Facebook has become place where victims of the Pfizer, Johnson & Johnson, and Moderna unknown serum share their tragic stories of deaths and injuries. Hundreds of thousands have posted messages and the *Final Call* continues to share those comments:

Kippy L. Lewis

My Dad is now in assisted living, uses a wheel chair, lost 30 lbs (now 145 lbs) in 6 weeks. Hospitalized for 10 days (fluid in lungs...entire body also), 10 days in rehab... awful!!!

Tami Mitchell Spears

My co-worker **lost her husband** after the second vaccine... She got up and thought he had fallen asleep in his recliner, after a few minutes went back in and check on him again, he had passed. It was a few days after the second vaccine, she told me **she is positive that it was what killed him.**

AnnMarie Jones

My dad didn't have covid, got the vax, **passed 10 days later.**

Kim Chandler Wolf

I lost a friend w/in 36 hours of her vax.

Brenna Louise

our nana got the shot and **within 10 days she passed away** while grocery shopping at Walmart. Dropped to her death that fast. Nothing was investigated because she was 69 years old.

Diane Marie Rix

I know of two men in their 70s who had pneumonia after the jab. My brother had **blood clots in his lungs.** It's really disgusting how the media and so one sided and controlled! I am in New Zealand.

Maureen Farrell

My husband developed **blood clots** in his lungs as well.

Jenny Meyer

I know 7 with **pneumonia** so far

Kelli Edwards Yoquelet

my great aunt developed **double pneumo-nia** after her first dose, while still recovering they gave her the 2nd. A month later they told her she had **interstitial lung failure** and had about 3 months to live and they were right

Cheryl Chupa

my Brother in law is 67 and was fully vaccinated months back. Now has Covid **Pneumonia.**

Vanessa Smith

The only loved ones I've lost to COVID were fully vaccinated. All their **organs shut down** when they got COVID post vaccine.

Amy Fulton

that's what happened to my 34 year old brother. **cardiac arrest 8 days after his vaccine then organs shut down** one by one until he passed away 10 days after his vaccine..

Madeleine Wyke Silva

My husband lost his grandfather 1 week after the 1st vaccine. I've had 3 family members with **sever heart disease** after the V and all have had 3-4 stints put into their heart.

Tracey Renee

my friends dad has had the same happen. After 2nd vax **many heart attacks and cardiac arrest**, even after they put the first stent in. Drs were baffled...

Kayla Hogg Thompson

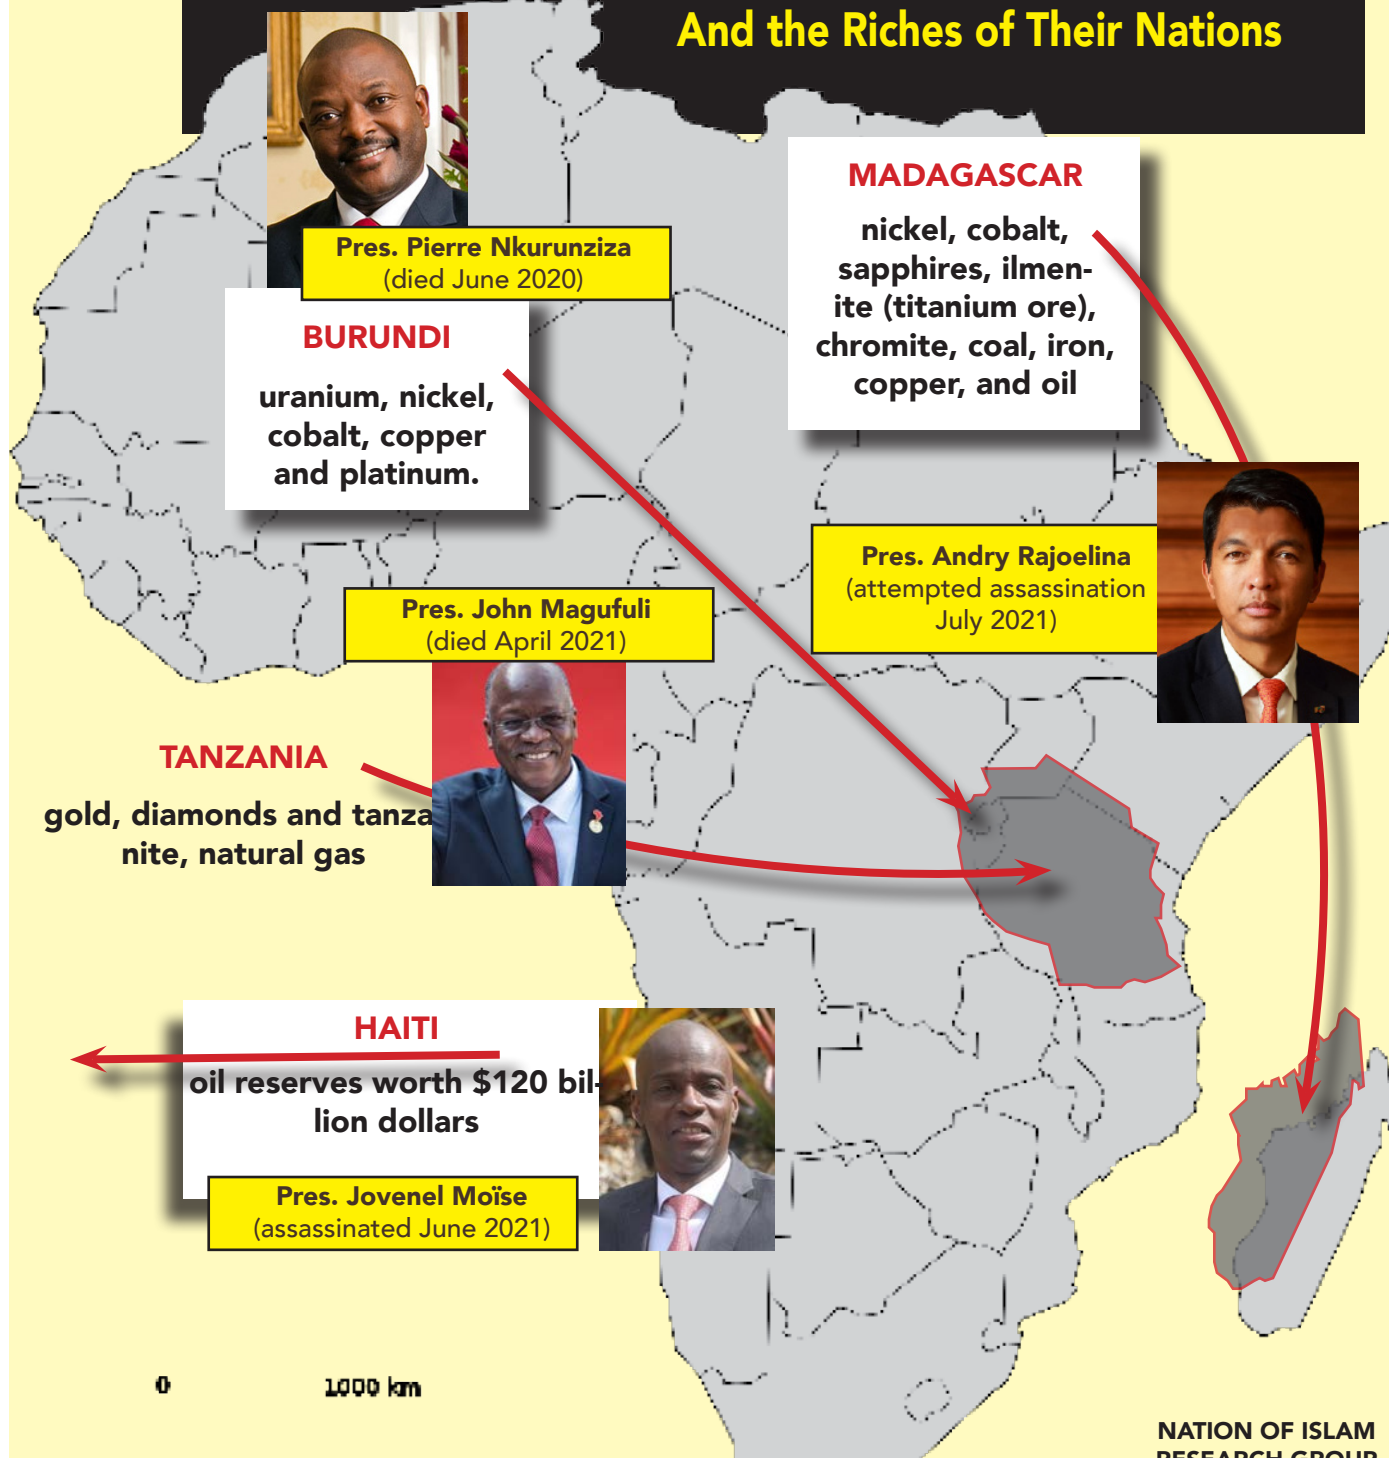

my sister has had both vaccines and is now looking at **heart failure** and they are talking about a stint also!

Ice Cube Says ‘Oh, Hell No’: Refuses COVID Kill Shot and \$9M movie deal

Actor and rapper Ice Cube has departed Sony’s upcoming comedy, *Oh Hell No*, after refusing a request from producers to get vaccinated, according to the *Hollywood Reporter*.

Vaccination among cast and crew in Hollywood has become an issue on multiple projects. An agreement between guilds and studios, unveiled in July, states producers will have the option “to implement mandatory vaccination policies for casts and crew...on a production-by-production basis.”

PFIZER: The Criminals You Trust With Your Life

In 1996, an outbreak of measles, cholera, and bacterial meningitis occurred in Nigeria. Pfizer representatives traveled to Kano to administer an experimental antibiotic, trovafloxacin, to approximately 200 children. Local Kano officials reported that more than fifty children died in the experiment, while many others developed mental and physical deformities.

Lawsuits followed and in December 2010 a United States diplomatic cable leak was released by WikiLeaks indicating that Pfizer hired investigators to find evidence of corruption against Nigerian attorney general Aondoakaa to persuade him to drop legal action.

The lawsuits were eventually settled out of court. Pfizer committed to paying \$35 million “to compensate the families of children in the study,” another \$30 million to “support healthcare initiatives in Kano,” (read *birth control*) and \$10 million to cover legal costs.

45 Million Americans Have Stronger Resistance to COVID Than “Vaccinated”

Writing in *Newsweek*, two major scientists harshly criticized Anthony Fauci: “By pushing vaccine mandates, Dr. Fauci ignores naturally acquired immunity among the COVID-recovered, of which there are more than 45 million in the United States.”

Dr. Martin Kulldorff, a Harvard epidemiologist, and Stanford’s Dr. Jay Bhattacharya, cited an Israeli study that concluded the vaccinated were 27 times more likely to get symptomatic COVID than the unvaccinated who had recovered from a prior infection.

“First, we’ve got population. The world today has 6.8 billion people. That’s headed up to about nine billion. Now, if we do a really great job on new vaccines, health care, reproductive health services, we could lower that by, perhaps 10 or 15 percent [9 million to 1.35 billion].”

The Irony! Africa Is Testing Ground for “Trust Stamp” Vaccine Passport Slavery System

In July 2020 a public-private partnership program between the Bill Gates, Mastercard, and the Artificial Intelligence company Trust Stamp introduced a “biometric identity platform” in remote communities in West Africa. The “Wellness Pass” is a digital vaccination record and identity system that ties an individual’s health record into a financial system. Critics

say that the program is more aimed at promoting the health of markets for vaccines and Mastercard’s “World Beyond Cash” program rather than the health of individuals. They note that “Trust Stamp” is offering the same technology to COVID-19 response that it offers to law enforcement and prison systems for the purposes of surveillance and predictive policing.

The COVID Cult & the Stockholm Syndrome

Why would anyone continue to follow the failed and damaging “pandemic” policies of an enemy who is openly trying to kill the human race, long after the enemy has retreated? The Stockholm Syndrome is a condition in which hostages develop a psychological and emotional bond with their captors during captivity.

Stockholm syndrome victims dutifully embrace the stay-at-home orders; they wear 3 masks when their captor calls for just one; they happily shut down their small family business; they slather on loads of disinfectant chemicals on their bodies; and they otherwise over-comply with the depopulators’ every wish and desire. They are the hall monitors, the tattletales, and the shamers of those who question the “authorities,” whose histories are awash in murder and deception. The Messenger calls uu.

The term Stockholm Syndrome was first used by the media in 1973 when four hostages were taken during a bank robbery in Stockholm, Sweden. The hostages defended their captors after being released and would not agree to testify in court against them.

Actions and attitudes similar to those suffering from Stockholm Syndrome have also been found in victims of sexual abuse, domestic violence, human trafficking, extremism, terrorism, economic oppression, political repression, and religious persecution.

Study: “Lockdowns” Do Nothing to ‘Virus’ But ‘Devastate’ Society

A literature review and meta-analysis of the effects of lockdowns on COVID-19 mortality released in January 2022 by **Johns Hopkins Institute for Applied Economics and Global Health** has now concluded:

“...lockdowns during the initial phase of the COVID-19 pandemic have had devastating effects. They have contributed to reducing economic activity, raising unemployment, reducing schooling, causing political unrest, contributing to domestic violence, and undermining liberal democracy. These costs to society must be compared to the benefits of lockdowns, which our meta-analysis has shown are marginal at best. Such a standard benefit-cost calculation leads to a strong conclusion: lockdowns should be rejected out of hand as a pandemic policy instrument.”

Bill Gates Complains: ‘I’m cited as some mastermind in some evil plot’

Billionaire land owner, eugenicist, and pandemic profiteer Bill Gates has been treated as the vaccine oracle of the world even though he has no medical degree. He was interviewed at the Bloomberg New Economy Forum, where he admitted that COVID has been “an interesting test in people’s trust in their politicians or their health system.”

“And, statistically we didn’t do as well as I would have expected. In fact, I’m cited as some mastermind in some evil plot in many, many cases. I didn’t expect any of that. In some ways the politicization of taking vaccines and helping protect other people, you can almost say that [we’ve taken] a step backwards. You know, I hope vaccine acceptance for other diseases like measles is not reduced by this. A lot of people jumped in and took the vaccines but a meaningful minority in most countries were led down a path of believing that not only were there rare side effects, but the vaccine wasn’t properly tested, or was part of some evil conspiracy.”

“Social Distancing” Has NO BASIS in Science

One of the most damaging “pandemic” measures forced on the world by the depopulators is “social distancing,” in which the “authorities” require that individuals maintain a six foot distance from each other to “slow the spread” of the alleged virus. This practice has forced thousands of businesses to shut their doors forever and has done more to disrupt the normal human interaction than any other “pandemic” dictate. But “social distancing” has absolutely NO BASIS in science at all.

In fact, it is based on a computer model created by a 15-year-old Albuquerque, New Mexico high school student named Laura Glass. Along with her father Robert (a government scientist then working at Sandia National Laboratories) the child worked up a computer model for a science and engineering fair in 2006. Her “model” suggested high school students could infect huge swaths of a population, so putting a stop to those contacts would hypothetically “save lives.”

Her efforts earned her third place in the science fair but through her father’s government connections the youth’s contagion computer model ended up on the desks of the US Department of Homeland Security of the George Bush administration. Glass received a call from Homeland Security Secretary Michael Chertoff requesting a briefing. Ultimately the Centers for Disease Control (CDC) made “social distancing” official policy in February 2007.

Israel's 'Vaccine' Tragedy: '80% of serious COVID cases are fully vaccinated'

In his landmark address titled “The Swan Song” **The Honorable Minister Louis Farrakhan** agreed with Dr. Anthony Fauci that Israel should be viewed as a model to assess the safety and effectiveness of the worldwide “vaccine rollout.” Israel’s former prime minister **Benjamin Netanyahu** gave his country over to Pfizer to be the guinea pig for their “vaccine.” Pfizer’s CEO **Albert Bourla** said Netanyahu called him 17 times and offered to pay top dollar for the vaccines (about \$31 per dose). Netanyahu declared that Israel “will become the first country to get out of the coronavirus....Victory is within our grasp.”

Netanyahu then mandated vaccines, masks, social distancing, shut-downs, and shut-ins more harshly than almost any other country; and he banned safe and effective treatments like Ivermectin and hydroxychloroquine. Despite strong opposition from the Orthodox Jewish community, Israel, as of March 2021, had the highest vaccinated population per capita in the world (73% have at least 1 dose, 56% had booster).

Dr. Anthony Fauci publicly held up Israeli vaccine data as authoritative enough to set US policy. But the data was not what Fauci expected. On Nov. 12, 2021, Fauci said this:

“They [Israel] are seeing a waning of immunity not only against infection but against hospitalization and to some extent death, which is starting to now involve all age groups. It isn't just the elderly.”

In other words, Israel’s data was proving that the vaccines’ purported protective efficacy wanes drastically

Bourla

Netanyahu

not only in the threat of infection but also in regard to severe COVID and death. Speaking about the “effectiveness” of the vaccines in countries with high vaccination rates, Fauci admitted:

“It’s waning to the point that you’re seeing more and more people getting breakthrough infections, and more and more of those people who are getting breakthrough infections are winding up in the hospital.”

It Just Got Worse from There

Despite the appalling failure of and rising deaths from the 1st, 2nd, and 3rd shots, Israel continued on, requiring shots for children and elderly, leading to the largest death spike to date (see chart below). Hospitals were filled with VACCINATED people — NOT the “vaccine” refusers. On August 5, 2021, Dr. Kobi Haviv, director of the Herzog Hospital in Jerusalem, reported on Channel 13 News that *“Most of the elderly are vaccinated, most of the population is vaccinated, and that’s why around 90 percent, 85-90 percent of the patients hospitalized here are patients that were fully vaccinated.”*

Nearly four in five of the most severe COVID cases at Tel Aviv Sourasky Medical Center were people who have had “at least three injections,” said Jacob Giris, the facility’s director. “The vaccine has no significance regarding severe illness, which is why just twenty percent of our patients are unvaccinated,” he said on Feb. 6, 2022.

Meanwhile, a recent survey identified more than 40 different categories of vaccine side effects that included increased hospitalizations, exacerbation of pre-existing diseases, neurological and allergic side effects, and menstrual cycle irregularities, the latter raising fears among women that the “vaccine” may affect their future ability to have children.

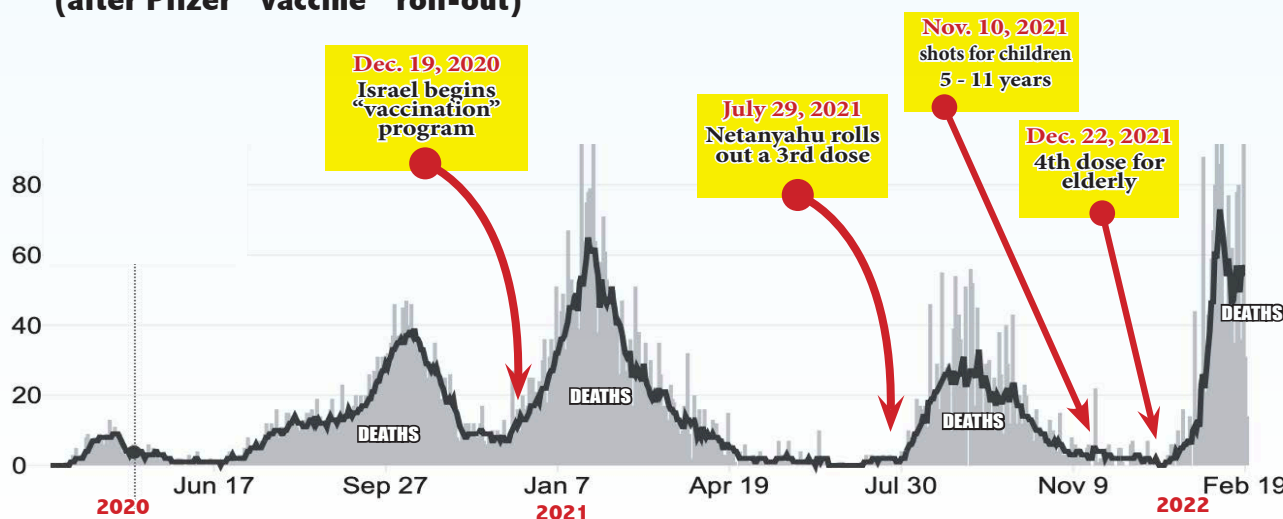

“IF THE MEDICAL DOCTORS and the theologian teachers and scientists of chemicals, are indulging and are not successful in expanding their own lives in what they are offering to us to eat and drink, then why should we follow their way of life? The chemical doctors go to the earth to get chemicals to heal themselves and us. These chemicals soon will destroy both. And, their bodies were not made to be supported by chemicals for health and longevity. The fact is the body of man was not to be drugged. This white man brought all this “stuff” on us, because he was not going to be righteous, and he went to the earth to try to find a ‘god’ for his belly in drugs and chemicals.

“Now the ‘thing’ is catching up with him with what his own hands have produced. And they are willing to confess that these things are not good for us. They are turning down much of their medication, which is absolutely poison and detrimental to us. It is prophesied in the Holy Qur-an that when the God of Truth, Freedom, Justice, and Equality Comes, He Will Force this evil world to confess their evil. And, this, they are doing. And, many of them are shocked over their own doings. And others are trying to teach you that their Brother is wrong.”

Israel COVID-19 DEATHS (after Pfizer “vaccine” roll-out)

Kyrie Irving Stands for Health Freedom

Basketball superstar Kyrie Irving returned to play for the Brooklyn Nets after the mayor of New York submitted to Irving’s principled stand to refuse the deadly COVID-19 “vaccine.” Over 26,000 healthy people have died after taking the death “jab” even though the serum does not stop infection, transmission, or severity of the alleged virus. Kyrie said:

“I’m standing for freedom, so that’s in all facets of my life. There’s nobody that’s enslaving me. I don’t want anyone telling me what to do with my life, and that’s just the way I am....[I]t’s far bigger than just a basketball game...”

Robert Kennedy’s Blistering Rebuke of Dr. Anthony Fauci

Anthony Fauci’s “50-year regime has been calamitous for public health and for democracy. His administration of the COVID pandemic was, likewise, a disaster. As the world watched, Tony Fauci dictated a series of policies that resulted in by far the most deaths, and one of the highest percentage COVID-19 body counts of any nation on the planet. Only relentless propaganda and wall-to-wall censorship could conceal his disastrous mismanagement during COVID-19’s first year. The US, with 4 percent of the world’s population, suffered 14.5 percent of total COVID deaths. By September 30, 2021, mortality rates in the US had climbed to 2,107/1,000,000, compared to 139/1,000,000 in Japan...

“Medicines were available against COVID—inexpensive, safe medicines—that would have prevented hundreds of thousands of hospitalizations and saved as many lives if only we’d used them in this country. But Dr. Fauci and his Pharma collaborators deliberately suppressed those treatments in service to their single-minded objective—making America await salvation from their novel, multi-billion dollar vaccines.”

[Read Kennedy’s THE REAL ANTHONY FAUCI: BILL GATES, BIG PHARMA, AND THE GLOBAL WAR ON DEMOCRACY AND PUBLIC HEALTH]

Meanwhile, for the past two years Fauci has denied that natural immunity—the immunity that a person derives from having been infected with a sickness—gives that person better protection than any vaccine. This has always been a medically sound concept until depopulation became the open objective of the medical establishment. To push everyone to the death needle Fauci feigned ignorance of that science-based concept.

But now an interview has resurfaced that Fauci gave to C-SPAN in 2004 that yet again proves Fauci is America’s chief COVID deceiver. Fauci responded to a caller who wanted to know if she should get a flu vaccine even if she had had a flu infection 35 years earlier. Fauci responded:

“Well no. If she got the flu for fourteen days, she’s as protected as anybody can be, because the best vaccination is to get infected yourself. If she really has the flu, if she really has the flu, she definitely doesn’t need a flu vaccine....[S]he doesn’t need it...[T]he most potent vaccination is getting infected yourself.”

Candace Owens: Claims She Would Not Take COVID Vaccine Even on Her Deathbed

Talk show host and political commentator **Candace Owens** was questioned whether she was truly unvaccinated: **“I am not getting this vaccine, ever. Never going to get it. I don’t care if I’m on my deathbed and they say ‘it can save you,’ I’m not going to get it.”**

To her Twitter followers she wrote: **“If you do not understand that there is something purely evil involved right now in terms of these vaccines you will never understand. It will NEVER enter my arm.”**

In many other social media posts, interviews and broadcasts Owens has been militantly against the “poison” jab.

“I’m principally now opposed to [the ‘vaccine’], and I do not understand why anybody who is healthy, able-bodied, and young, would ever get this vaccine if you’re not at risk of COVID,” she said.

Of the inducements being offered to push vaccine compliance she told Fox News: **“There’s something about this that feels like a child predator,”** comparing it to allowing a stranger to come up and offer candy. **“Adults should not be coming to you and trying to bribe you to do anything, especially when we’re talking about medical decisions that belong to the parents.”**

“Not one person in my family will ever touch the COVID-19 vaccine. That is the decision that we have made, unabashedly, as a family,” she tweeted. “Medical freedom is an individual right that should never be infringed upon and any person who thinks otherwise has no place in our government.”

“I am proud that I committed myself to standing firm against the bribery, media propaganda, coercion, celebrity-peer pressure campaign, plus censorship. I made a personal decision for me and my family,” Owens wrote in a Facebook post.

“We can always look to history to see where these things come from,” saying it reminded her of when she “studied Stalin youth programs, Hitler youth programs. When you are talking about schools and the government issuing these brain-washing doctrines.... It is because they are trying to raise up children to do whatever the state wants unquestioningly,” she added.

“It’s time for parents to take control of their children and realize the government is trying to step in as the parent and it’s quite frankly inappropriate....It is isn’t easy to swim against such a polluted current but here I am. I trust my gut much more than trust Dr. Fauci. May we all do what we feel in our hearts is right, unabashedly.”

Miscarriages Expose Depopulation Agenda

Depopulation is most effective when it targets the womb and renders its victims sterile—unable to produce another generation. As of today, the CDC admits that the COVID-19 “vaccines” have likely caused the deaths of 26,396 people. The injections have caused 1.2 million injuries, and among them are 4,423 miscarriages. The reports speak for themselves:

1057557 Miscarriage 8 days after receiving 2nd [Pfizer] vaccine at 6 weeks pregnant....Patient has no other vaccines in four weeks and no other medications in two weeks. Patient has no COVID prior [to] vaccination and no known allergies....

943837 Approximately 5 days after [vaccine] at 6 weeks pregnant, I began bleeding. The following day (6 days after administration) miscarriage was confirmed via ultrasound.

0922289-1 This was my first pregnancy. I had uterine bleeding and abdominal cramps and underwent evaluation by my obstetrician and was diagnosed with a miscarriage after ultrasound.

1190983 (Pfizer); 31-year-old female: “My period had ended four days before the vaccine. I always have very regular periods. The night of the vaccine, I started bleeding heavily with large blood clots and continue to do so.”

945282 One week after I was vaccinated, my partially breast fed infant daughter died in her sleep....The cause of death is not known. I am reporting her death here because of the relative proximity of my vaccination and her death.

1055663 I was 8-weeks pregnant when I received my first dose of the Pfizer COVID-19 vaccine....Three days later...I was told my baby did not have a heartbeat on the ultrasound in the clinic and that I was having a miscarriage...

1057557 Miscarriage 8 days after receiving 2nd [Pfizer] vaccine at 6 weeks pregnant....

1041297-1 I started bleeding on the 4th, doctor stated threaten miscarriage. I had blood clots and vomiting’. I was taken to emergency room. I was giving a DNC because I had a miscarriage.

1042126-1 Unknowingly pregnant at time of vaccination. Had a miscarriage one week later.

1043944-1 I was 5-week pregnant at the time of second COVID-19 vaccine dose. I had a gush of yellow vaginal discharge on 2/11 and subsequently spotting and bleeding up until pregnancy loss on 2/20.

1044638-1 Golf ball size lump on my arm at injection site that lasted 3 weeks and didn’t reduce in size. Inability to use arm without extreme pain. Rash that felt like a burn on arm 12 weeks pregnant at the time of injection Pregnancy was lost.

NBA's Un-Jabbed Irving Vows to Keep Up Fight Against Mandates

Brooklyn Nets NBA player **Kyrie Irving** is keeping up the fight against vaccine mandates and the damage they have wreaked on those who refused to be guinea pigs.

He told the *New York Daily News*, “I think there are a lot of people dealing with real consequences from being unvaccinated. And I don’t think it’s talked about enough in terms of our essential workers and people on the front lines... But I know everybody still feels it, and there’s a whole community of people that have lost their jobs due to this mandate as well.”

There were 1,400 New York City municipal workers fired because of the vaccine mandates, according to reports.

Japanese Find That Ivermectin Shows Remarkable Results Against “COVID-19”

Japanese researchers knew of Ivermectin as a Nobel Prize-winning miracle drug that treats onchocerciasis, the debilitating parasitic disease known as River Blindness. They were curious about the apparent effectiveness of Ivermectin in stemming COVID-19.

They investigated thirty-one “onchocerciasis endemic” countries that used “community-directed treatment with ivermectin.” The researchers compared their COVID-19 statistics with 22 “non-endemic” countries.

They found that the mortality rate was “significantly less” in the thirty-one countries that used ivermectin for onchocerciasis. In the countries where ivermectin was used frequently, there were 134.4 cases per 100,000 people and the number of deaths was 2.2 per 100,000. In countries that do not use ivermectin, there are 950.6 cases per 100,000 and 29.3 deaths per 100,000. This realization prompted Tokyo’s Medical Association Chairman to hold a live press conference recommending ivermectin to all doctors and for all COVID-19 patients.

American History of Medical Racism & Savagery

In 1962, **Dr. Emanuel Mandel** and **Dr. Chester Southam** of the **Jewish Chronic Disease Hospital** in Brooklyn injected live cancer cells into 22 elderly patients without their consent. When whistleblowers exposed the experiments, hospital administrator **Solomon Seigel** maintained that the cancer cells “are harmless.” The New York State Board of Regents found the doctors guilty of fraud, deceit, and unprofessional conduct, and revoked their licenses for one year. However, two years later, the **American Association for Cancer Research** elected **Dr. Southam** its president.

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 3

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the U.S. and around the world. Just as with slavery’s plantation passes, the Digital ID system is designed for a privately run corporation to control every aspect of your life, including your ability to travel, buy food, get medical care, go to school, get a job, start a business, and all else you now take for granted—your every activity will be based on the digital permission slip that verifies your medical status and vaccination history.

Accounts of how the plantation passport system operated in America are described in **Theodore Weld’s** 1839 book *American Slavery As It Is*:

A negro can hardly walk unmolested at the south.—Every colored stranger that walks the streets is suspected of being a runaway slave, hence he must be interrogated by every negro hater whom he meets, and should he not have a pass, he must be arrested and hurried off to jail. Some masters boast that their slaves would not be free if they could. How little they know of their slaves! They are all sighing and groaning for freedom. May God hasten the time!

...When the slaves have done their day’s work, they must be herded together like sheep in their yards, or on their plantations....The slaves must all be at their homes precisely at eight o’clock, P.M. At this hour the drums beat in the cities, as a signal for every slave to be in his den. In the country, the signal is given by firing guns, or some other way by which they may know the hour when to be at home. After this hour, the guard in the cities, and patrols in the country, being well armed, are on duty until daylight in the morning. If they catch any negroes during the night without a pass, they are immediately seized and hurried away to the guard-house, or if in the country to some place of confinement, where they are kept until nine o’clock, A.M., the next day, if not called for by that time, they are hurried off to jail, and there remain until called for by their master and his jail and guard house fees paid. The guards and patrols receive one dollar extra for every one they can catch, who has not a pass from his master, or overseer, but few masters will give their slaves passes to be out at night unless on some special business: notwithstanding, many venture out, watching every step they take for the guard or patrol, the consequence is, some are caught almost every night, and some nights many are taken; some, fleeing after being hailed by the watch, are shot down in attempting their escape, others are crippled for life.

Mad Israeli Scientist: Humans are now HACKABLE ANIMALS thanks to vaccines

Israeli intellectual **Yuval Noah Harari**, a professor at the Hebrew University of Jerusalem, declared that **“Humans are now hackable animals. The idea that humans have this soul or spirit, they have free will and nobody knows what’s happening inside me—so whatever I choose whether in the election or in the supermarket, that’s my free will? That’s over.”**

“Today, we have the technology to hack human beings on a massive scale. Everything is being digitalized [and] monitored.”

A proud homosexual, Dr. Harari explained that “If you know enough biology and you have enough computing power and data—you can hack my body, my brain and my life. You can understand me better than I understand myself. You can know my personality type, my political views and my deepest fears and hopes. And you can do that not just to me, but to everyone.”

Dr. Harari is no minor figure. **Pres. Barack Obama** considers him to be one of his favorite authors and touted his book *Sapiens* in a nationally televised interview. Harari is a top advisor to Great Reset depopulator **Klaus Schwab** and his **World Economic Forum**, where he spoke and made these nightmarish claims in 2020.

“We humans should get used to the idea that we are no longer mysterious souls. We are now hackable animals. A system that understands us better than we understand ourselves can predict [and] manipulate our feelings and decisions, and can ultimately [decide] for us. By hacking organisms, elites may gain the power to re-engineer the future of life itself. Because once you can hack something, you can usually also engineer it.”

Harari continued: **“In the past, many tyrants and governments wanted to do it. But nobody understood biology well enough, and nobody had enough computing power and data to hack millions of people. Neither the Gestapo nor the KGB could do it. But soon, at least some corporations and governments will be able to systematically hack all the people.”**

Harari said of the COVID-19 “pandemic”: “It’s often said that you should never allow a good crisis to go to waste, because a crisis is an opportunity to also do ‘good’ reforms that in normal times, people will never agree to. But in a crisis, you see, we have no chance – so let’s do it.”

“The vaccine will help us, of course. It will make things more manageable, [such as] surveillance. People could look back in a hundred years and identify the [COVID-19] pandemic as the moment when a regime of surveillance took over—especially sur-

Fauci Emails Show Uselessness of Masks

Private emails of America’s Depopulator in Chief, Anthony Fauci, prove that he knew masks have no benefit in the plandemic even as he was telling the world that masks and “vaccines” are their only hope. Fauci wrote to a colleague:

“The typical mask you buy in the drug store is not really effective in keeping out virus, which is small enough to pass through material. It might, however, provide some slight benefit in keep out gross droplets if someone coughs or sneezes on you. I do not recommend that you wear a mask, particularly since you are going to a very low risk location. Your instincts are correct, money is best spent on medical countermeasures such as diagnostics and vaccines.”

components on the inner and outside layer of the facemask. These toxic components are repeatedly breathed back into the body, causing self-contamination. Breathing through facemasks also increases temperature and humidity in the space between the mouth and the mask, resulting in a release of toxic particles from the mask’s materials. A systematic literature review estimated that aerosol contamination levels of facemasks includ[e] [thousands of] different viruses. Re-breathing contaminated air with high bacterial and toxic particle concentrations along with low O2 and high CO2 levels continuously challenge the body homeostasis, causing self-toxicity and immunosuppression.

A complaint filed at the International Criminal Court in The Hague addressed the strange stance of the world’s governments and their lockstep application of mask mandates:

The World Health Organisation (WHO) has admitted that there is no evidence available on the usefulness of masks to protect non-sick individuals. In addition to hypoxia and hypercapnia, breathing through facemask residues bacterial and germ

They are NOT effective in preventing general public from catching #Coronavirus, but if healthcare providers can’t get them to care for sick patients, it puts them and our communities at risk!

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 4

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the U.S. and around the world. Just as with slavery’s plantation passes, the Digital ID system is designed for a privately run corporation to control every aspect of your life, including your ability to travel, buy food, obtain medical care, attend school, secure a job, start a business, and all else you now take for granted—your every activity will be based on the digital permission slip that verifies your medical status and vaccination history. Here is how the plantation pass-port system operated in America as described in Theodore Weld’s 1839 book *American Slavery As It Is*:

- If more than 7 slaves are found together in any road, without a white person—20 lashes a piece;
- for visiting a plantation without a written pass—10 lashes;
- for letting loose a boat from where it is made fast—39 lashes for the first offence; and for the second, the ear cut off;
- for having any article for sale, without a ticket from his master—10 lashes;
- for traveling in the night without a pass—40 lashes;
- for being found in another person’s negro-quarters—40 lashes;
- for riding or going abroad in the night, or riding horses in the day time, without leave, a slave may be whipped, cropped, or branded in the cheek with the letter R, or otherwise punished, not extending to life, or so as to render him unfit for labor.

Genocides R Us

British economic journalist John A. Hobson wrote in 1902 of the propensity of whites to sow the seeds of discord, deceive their host communities, and crush whole nations:

“When the settlement approaches the condition of genuine colonization, it has commonly implied the extermination of the lower races, either by war or by private slaughter, as in the case of Australian Bushmen, African Bushmen and Hottentots [the Khoi-Khoi and San cultures], Red Indians, and Maoris [Polynesians]—or by forcing upon them the habits of a civilization equally destructive to them.”

Drug experiments increase in prisons

(By Lonnie Kashif)
(M.S. Washington Bureau)

WASHINGTON, D.C.—A prison advertisement reads: “Would you like to be transferred to a minimum security prison where you would have a private room ... television, access to our own stereo, better food ... as well as have an opportunity to make \$30 dollars a month just for getting high on heroin, amphetamine and morphine?”

ACCORDING TO the Federal Prisoners’ Coalition such advertisement has allegedly been distributed at the maximum security facilities in Atlanta and Leavenworth. The “minimum” security facilities for prisoner transfer, the FPC states, are the National Institute of Mental Health Addiction Research Centers around the country. The specific advertisement suggested the NIMH unit at Lexington, Kentucky.

This, according to the Clearinghouse to End Medical Experimentation on Prisoners, reflects the current state of government-backed experimentation at prison

DR. ALEXANDER SCHMIDT, Commissioner of the Food and Drug Administration, admits to inefficiency of the agency before a Senate subcommittee.

institutions. The inducement for the prisoners to transfer from the Federal institution, purportedly protects an institution from charges of

to chemical brain alterations, Dr. Bertram Brown, director of the NIMH recently announced his support of continued “behavior modification” programs. Dr. Brown boasted that the programs have proved a “marked success” in helping many people lead more normal lives.

He acknowledged that as many as 3,000 psychotherapists are conducting ongoing experiments on as many as 60,000 subjects in hospitals, schools and prisons.

Dr. Brown added that the NIMH intended to finance \$2 million worth of research this year, and another \$1 million will be financed by the federal Alcohol and Drug Abuse Agency. His statement was issued following an NIMH “white paper” on behavior modification which by-and-large absolved the agency of any unethical motivation.

PERHAPS THE STRONGEST statement of concern in the paper was an acknowledgment that “behavior modification programs have, in some places

been designed to preserve authoritarian control and discipline, rather than to teach skills that would benefit the prisoners, once they are released.

“It is not clear whether prisoners are ever able to be true volunteers in any experimental program held in prison,” the report said. It noted that the Bureau of Prisons (BP) and the Law Enforcement Assistance Administration (LEAA) last year halted such programs because of legal uncertainties.

Nevertheless, brainwashing, chemical experimentation and other forms of mental seduction is prevalent, and prisoners are still a favorite target. At the Jessup Prison in Maryland, the University of Maryland still maintains a research facility for testing vaccines for infectious diseases such as Cholera, typhoid, influenzas, and malaria — the financial incentive being \$2.00 per day.

“Actually the doctors pay \$10.00 a day per inmate but \$8.00 goes to the prison administration...” clearing-house sources state.

Vax Inventor Says Don’t Take It

Dr. Robert Malone, the scientist that invented the mRNA platform used to create the toxic “jab,” had sobering words for an audience of thousands at a Los Angeles “Defeat the Mandates” rally:

“These genetic vaccines do not prevent Omicron infection, viral replication, or spread to others. In our daily lives, with our friends, with our families, we all know that this is true. Data from all over the world indicates that the triple-vaccinated may be at increased risk for infection, disease and death from Omicron.

“These genetic treatments are leaky, have poor durability, and even if every man, woman, and child in

the United States were vaccinated, these treatments cannot achieve herd immunity and stop COVID. They are not completely safe, and the full nature of the risks remain[s] unknown. In contrast, the natural immunity which healthy immune systems develop after infection and recovery from COVID

is long-lasting, broad, and highly protective from disease and death caused by this virus.

“...Evil has many roots. A willingness to deny human dignity is one of the largest. In our hearts, and in our souls, we all know this is true.

“...If nothing else, we must nurture and protect our children. This is job one. It is your job. It is my job. It is not their job to protect us. And during the last two years, our society and our public health response has failed to protect them. Many things that our public health system has demanded we do to our children has directly harmed them.

“Self-harm, suicide and drug abuse in children have risen all around the world. Anxiety, bullying, intimidation, coercion have become the norm. Measured IQ in the very young has dropped. Fundamental childhood delays are measured. And physical damage to

children from injecting them with genetic vaccines in order to protect the elderly from a virus has happened. Children should never have been masked, and this type of abuse must never happen again.

“...These genetic vaccines can damage your children. They may damage their brain, their heart, their immune system, and their ability to have children in the future. And many of these types of damages cannot be repaired.

“So I beg you, please, get informed about the possible risks that your children may be damaged by these experimental medical products. Don’t let anyone tell you what to do. Think for yourself. Because it is your responsibility to protect and nurture them. If they are damaged, no state governor, no federal public health official, no television doctor will be there to help you. You, your family and your child will have to carry the load yourselves.”

Depopulators Attack Children with Dangerous “Vaccines”

There is no COVID emergency for children under five years old. Children under 18 years old have a 99.995% recovery rate, and a body of medical literature indicates that almost zero healthy children under five years old have died from COVID.

A large study conducted in Germany showed zero deaths for children under 5 and a case fatality rate of three out of a million in children without comorbidities.

A Johns Hopkins study monitoring 48,000 children diagnosed with COVID showed a zero mortality rate in children under 18 without comorbidities.

A study in *Nature* demonstrated that children under the age of 18 with no comorbidities have virtually no risk of death.

Data from England and Wales, published by the UK Office of National Statistics on January 17, 2022, revealed that throughout 2020 and 2021, only one (1) child under the age of 5, without comorbidities, had died from COVID in the two countries, whose total population is 60 million.

Another study suggests children’s bodies clear the virus more easily than adults. This study, published in December in *Nature*, demonstrated how children efficiently mount an effective, robust, and sustained immune response.

Not only is a COVID injection medically unnecessary for this younger age group, but there are clear signals coming from U.S. government sources that the risk to human health is real, and that adverse events to this vaccine are not rare.

Tennis world stunned after 15 “fully vaccinated” players quit Miami Open

The tennis world is shocked after favorites **Paula Badosa** and **Jannik Sinner** both retired from their Miami Open quarter-finals on the same day.

A total of 15 COVID-vaccinated players quit the **Miami Open** after they were unable to finish—including the male and female favorites to win—all complaining of various physical problems. In order to compete in any tournament all players must be “fully vaccinated,” a requirement that has forced the world #1 player **Novak Djokovic** out of competition since his refusal to be injected. Many who scoffed at his stance are having second thoughts after the recent Miami Open carnage.

Pfizer was forced to release a horrifying list of hundreds of side effects from the toxic waste they call a “vaccine.” And since it has been forced on the public, the CDC has recorded extreme increases in heart problems for young people, including myocarditis, pericarditis, and heart attacks.

The website **Goodsciencing.com** keeps a running list of athletes in the world that are reported to have collapsed or died since the worldwide “vaccine” push. Their list of dead or injured athletes has reached a shocking 872, with 572 of those youthful, strong, and healthy athletes losing their lives.

Fake Death Counts Drove the Pandemic For Two Years British Study Shows

The media’s unrelenting 24-7 broadcasting of “COVID” death and case counts is intended to drive the frightened masses into taking the depopulation shots. But British scientists have released a new report showing fundamental flaws in the way COVID deaths were counted in the U.K.

Researchers found cases where COVID negative individuals, and those whose death was clearly not caused by COVID, were still classified as “COVID-19 deaths.” In care homes, they say, deaths were certified as COVID deaths by doctors doing their inspection via a video call. Researchers found that 14 different terms were used to describe a person who had died with COVID: these included “involving COVID,” “underlying COVID,” “died within either 28 or 60 days of a positive test,” and “due to COVID.” Under all those categories, deaths were added to the “COVID death” count.

Dr. Carl Heneghan, epidemiologist and director at the University of Oxford’s Centre for Evidence-Based Medicine, said that “It is incredibly important to understand the logical chain of events that led to death. But if every health body is using a different definition, how do we know whether COVID has directly caused the death or if it was something else that was underlying? Two years into this pandemic, it is clear nobody can really understand or answer that question.”

According to Heneghan, “By the very nature of people who are in care homes, they have lots of comorbidities (the presence of two or more diseases at the same time) that contribute to their death. This usually includes either underlying heart failure, or diabetes, or something else—and then they got COVID.”

In the United States, according to official CDC data, approximately 95 percent of people who “died with COVID” had an average of four other causes of death listed on their death certificate. Even with this staggering number it is still unknown out of this 95 percent of people, how many of these deaths were actually caused by a COVID infection.

Master Fard Muhammad said to the Hon. Elijah Muhammad, “Cast the rotten apple out quick.” And when you see such a personality don’t waste time with it, cast it out from among you, because if it remains it will poison or rot the others as a rotten apple staying among the good apples will rot the whole barrel. For us, the enemy is a sociopath who has acted in a violent way and in an antisocial way; and he does not seem to have the capacity to feel sorry for what he does. These socio-paths don’t have the capacity to offer reparations to repair the damage that they have done. That is why it says in our lessons that the devil was not allowed to settle on the best part of the planet earth, and they were cast out from among us for their troublemaking.

Study: Lockdown States Fared Worst, No Mandate States Among the Best

A new study by the **Committee To Unleash Prosperity** compared state performance on metrics including the economy, education, and mortality from the “virus.” It found that the most aggressive followers of Fauci—New York, California, New Jersey and Illinois—were among the worst states in dealing with the coronavirus, performing “poorly on every measure,” the report said.

Those states “had high age-adjusted death rates; they had high unemployment and significant GDP losses, and they kept their schools shut down much longer than almost all other states,” the report added.

The Fauci-resistant states like Utah, Nebraska, Vermont, Montana, South Dakota and Florida received the best scores. *“The study...found that locking down businesses, stores, churches, schools, and restaurants had almost no impact on health outcomes across states....States with strict lockdowns had virtually no better performance in COVID death rates than states that remained mostly open for business.”*

Over 30% of businesses were affected by the depopulation policies of the U.S. government, with many having to close permanently or having to drastically cut the number of employees.

Federal Judge Declares CDC’S Mask Mandate for Planes, Trains UNLAWFUL

U.S. District Judge Kathryn Kimball Mizelle has ruled that the CDC’s unscientific and ineffective travel mask mandate exceeded their statutory authority. The court order states that “our system does not permit agencies to act unlawfully even in pursuit of desirable ends.” The judge found that the mandate was not even needed: “At the time when the CDC issued the mandate, the COVID-19 pandemic had been ongoing for almost a year and COVID-19 cases were decreasing.”

All the major airlines and rail services were quick to announce they were no longer requiring masks. Uber and Lyft also ditched their mask requirements for riders and drivers.

CDC Admits that Teen suicide attempts spiked during COVID-19 lockdowns

The disastrous effect of the Depopulation policies on the world continues to be made manifest. A new CDC study shows that the rate at which girls ages 12 through 17, in particular, were visiting the emergency rooms for suicide attempts between February and March of 2021 increased nearly 51% compared to the same period in 2019 before schools and businesses were forced to close their doors.

The percentage of teenagers who were hospitalized for suspected suicide attempts spiked in 2020 and 2021 amid COVID-19 lockdowns.

Researchers also noted a nearly 4% increase in ER visits for suspected suicide attempts among boys ages 12 through 17 over the same time period.

Risk factors include a “lack of connectedness to schools, teachers and peers” due to physical distancing measures, “barriers to health treatment,” “increases in substance abuse” and anxiety related to “family health and economic problems.”

ER visits for “mental health concerns and suspected child abuse,” which are also risk factors for suicide, “also increased in 2020 compared with 2019, potentially contributing to increases in suspected suicide attempts,” researchers wrote. General mental-health-related ER visits among teens ages 12 through 17 increased 31% in 2020 compared to 2019.

Rise in Child Vaccinations Linked to Shocking Rise in Autism

In 1962 the maximum number of vaccines a child would receive by age five was three. In 1983 the maximum number of vaccines a child would receive by age five was ten. **Today that number is thirty-eight, which is nearly quadruple what it was in 1983 and more than twelve times what it was in 1962.**

Today by the time a child is five years old, if his parents follow the CDC’s recommended schedule, he will have received the following vaccines, with most being given three to four separate times:

- (1) hepatitis B
- (2) rotavirus
- (3) DTP
- (4) Hib
- (5) pneumococcal
- (6) polio
- (7) flu
- (8) MMR
- (9) varicella
- (10) hepatitis A
- (11) meningococcal (for some)
- (12) HPV (teenagers)

At his two-month-old “well baby” visit, the average infant will receive six separate vaccines in about 15 minutes. Two months later, at four months of age, most American children will again receive the same six vaccines, all administered at the same time. Two months later, they get another seven. By six months of age most American children have received 20 vaccines.

So of the first twenty (of the 72 mandatory) vaccines now given to American babies, how many have been studied for their relationship to autism? None. That’s right, because only one vaccine, the MMR, has ever been studied for its relationship to autism.

In 1996 pharmaceutical companies were given complete blanket immunity from liability if their vaccines caused any harm or even killed someone. It no longer mattered how sloppy or negligent they were or how toxic the ingredients—they were now scot-free and carefree. And with this government permission slip, the diagnosis of autism has skyrocketed from 1 in every 10,000 to 1 in every 44!

British Medical Journal Hammers Big Pharma

Big Pharma—like their operatives at the CDC, the FDA, the WHO, and the NIH—is losing friends fast. The *British Medical Journal* is considered to be one of the world’s most prestigious medical publications. It recently took aim at the pharmaceutical industry’s mad depopulators:

“Medicine is largely dominated by a small number of very large pharmaceutical companies that compete for market share, but are effectively united in their efforts to expanding that market. The short term stimulus to biomedical research because of privatisation has been celebrated by free market champions, but the unintended, long term consequences for medicine have been severe. Scientific progress is thwarted by the ownership of data and knowledge because industry suppresses negative trial results, fails to report adverse events, and does not share raw data with the academic research community. Patients die because of the adverse impact of commercial interests on the research agenda, universities, and regulators.”

“The pharmaceutical industry’s responsibility to its shareholders means that priority must be given to their hierarchical power structures, product loyalty, and public relations propaganda over scientific integrity.”

Memo Reveals U.S. Gov’t Believed in Early 2020 That COVID-19 Was Lab Created

The U.S. State Department memo, dated April 2020, states that out of five possible origins for COVID, a lab leak was by far the most likely. It was during this same period that the director of the National Institute of Allergy and Infectious Diseases, **Dr. Anthony Fauci**, was told by a group of scientists whom he was funding that there was a high probability that the “virus” was engineered.

Fauci, having funded dangerous research at a Chinese lab after it was outlawed in the U.S., began efforts to hide and diminish the “lab leak theory” as “fake news.”

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 5

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the U.S. and around the world. Here is how the plantation passport system operated in America:

Richmond, Virginia, 1853

BAD PAPERS.—Minerva Pearman, a free negress, captured and caged by the watchmen for having in her possession illegible papers, was ordered to have them renewed at once, and then set at liberty. If arrested a second time for the same offence Minerva will find it less easy to slip the law than on this occasion.

TOO YOUNG.—Susan Pearman, a free negro girl, caged for want of papers, was brought before the Mayor and examined upon the charge, when it was ascertained that she was not entitled to a certificate of her freedom, being less than twelve years of age. She was therefore discharged.

BAD RACE.—Henry, slave to James Thomas, Jr., convicted before the Mayor of having no pass, and of running from the watchmen when hailed by them, was ordered a flogging, by way of teaching him obedience to the laws.

NO PASS.—Robert, in the service of Jas. H. Grant, received a chastisement for failing to procure a proper pass from his master before going into the streets in the night time.

ENDORSE YOUR PASSES.—Philip, slave to S. S. Myers, and Warren, in the service of William Smith, were each taken from the cage and punished by order of the Mayor for being at large in the streets with unendorsed passes.

Murder By Injection

*“I have a book here...It’s out of print. It’s called **Murder By Injection**. They just give you vaccinations. Now you can’t even take your children to school without their telling you you have to be vaccinated. Do you know what they’re putting in that damn vaccine?! They tell you it’s this, but it may be that.”*

—Minister Louis Farrakhan, Saviours’ Day 2004

Murder By Injection: The Story of the Medical Conspiracy Against America was written by **Eustace Clarence Mullins** in 1988 and now is back in print. The Minister highlighted the book in 2004 and recommended it to the world. In the excerpt below Mullins forecasts the danger posed by today’s medical madmen and their death-dealing vaccine cult:

“The Church of Modern Medicine claims that we can only be absolved from the peril of infection by the Holy Water of vaccination, injecting into the system a foreign body of infection, which will then perform a Medical Miracle, and will confer life-long immunity, hence the term, ‘immunization.’ The greatest heresy any physician can commit is to voice publicly any doubt of any one of the Four Holy Waters, but the most deeply entrenched in modern medical practice is undoubtedly the numerous vaccination programs. They are also the most consistently profitable operations of the Medical Monopoly. Yet one physician, **Dr. Henry R. Bybee**, of Norfolk, Virginia, has publicly stated, ‘My honest opinion is that vaccine is the cause of more disease and suffering than anything I could name. I believe that such diseases as cancer, syphilis, cold sores and many other disease conditions are the direct results of vaccination. Yet, in the state of Virginia, and in many other states, parents are compelled to submit their children to this procedure while the medical profession not only receives its pay for this service, but also makes splendid and prospective patients for the future.’

“The present writer [Mullins] well remembers the 1920s, as a child in Virginia, going to school for some weeks without having submitted to the compulsory vaccination ordered by the state authorities. Each morning, the teacher would begin the day’s classes by asking, ‘Clarence, did you bring your vaccination certificate today?’ Obviously, this was the most urgent business of the educational system, taking priority over such mat-

ters as lessons and studying. Each morning, I would have to reply, ‘No, I didn’t bring it today.’ The other children would turn and stare at this dangerous classmate, who might infect them all with some terrible disease. My mother had been a registered nurse, and she never urged me to go ahead with my vaccination. I suspect she knew more than the doctors about its possible effects. After postponing the dreaded ordeal for some weeks, I was finally led to the doctor like an animal being led up the plank to be stunned, and I received my injection. Of course it made me extremely ill, as my body fought the infection, but the class was delivered from peril, and I was accepted as a duly branded member of society. In ‘The Curse of Canaan,’ I wrote of the deliverance of our children up for ritual sacrifice, a practice which seemingly ended with the destruction of the Baal cult some five thousand years ago. Unfortunately, the Cult of Baal seems to be firmly entrenched in the present Establishment, which is often known by the sobriquet, the Brotherhood of Death. It is disturbing to see how the educationists eagerly embrace each new offense against children in our schools, railing against any mention of morality or religion, while solemnly indoctrinating six year olds in the advantages of ‘an alternative life style’ in their sexual preferences. The present goal of the National Education Association seems to be that teachers should hand out condoms to the class before beginning each day’s activities...”

“Pandemic Treaty” Makes the W.H.O. the World Ruler

The global government is moving ever closer to eroding every individual’s freedom to make their own health decisions. The unelected and unaccountable World Health Organization (WHO) has created an international “Pandemic Treaty” that will dictate health care policies around the world, which means:

- They’ll order you and your loved ones to get the “jab” (plus never-ending boosters);
- They’ll establish the vaccine passport system that controls what you are allowed to do, and what penalties you will pay for resisting;
- They’ll censor any information that threatens their authority;
- From their headquarters in Switzerland they will deputize your local police departments to carry out their policies.

According to **Shabnam Palesa Mohamed**, of the **World Council for Health**, the “Pandemic Treaty” gives the WHO “an inordinate amount of power to make decisions in sovereign countries as to how people live and how they deal with pandemics, from lockdowns to mandates over treatment.”

Dr. Judy Mikovits on mask wearing:

Dr. Judy Mikovits, a Ph.D in Biochemistry and Molecular Biology, was asked about masks by **The Final Call**:

*“My position hasn’t changed since we wrote our book, **The Case Against Masks**. There are very valid reasons why mask use should be limited. There’s very valid reasons why the most susceptible in our society should never be wearing a mask. And I mean a cancer patient, (those who) suffer with asthma, PD (pulmonary disease), autism, any other inflammatory disease—the science is clear. ...*

“We knew in the beginning only two breaths in essentially any mask can put you into a hypoxic state. So it’s been criminal from the beginning for anybody to wear a mask and we knew the masks drove the 1918 pandemic flu...”

“...We don’t metabolize carbon dioxide. In only two breaths, you have carbon dioxide. Our book said it in the beginning, heavily censored since it came out August of 2020...with the Statue of Liberty on the front cover, suffocating in a mask, our liberty. The masks are and always have been about control and everybody wearing them has driven the virus, which is fear. Fear is the virus—nothing more immune suppressive than anger and fear. So we’ve crippled everyone and now they’re in two, three, and four masks. And, oh, Tony Fauci sat there last week and said, ‘Oh, yeah, wear an N95 mask. Wear one you can tolerate.’ Oh, you mean wear whatever doesn’t suffocate you?! No! No! No! No! No! This is criminal and the masks need to go off!”

Elon Musk’s Buying Twitter Uncovers ADL Censorship Role

Billionaire **Elon Musk** has purchased Twitter and promises to make it a forum that honors the 1st Amendment. **“Free speech is the bedrock of a functioning democracy, and Twitter is the digital town square where matters vital to the future of humanity are debated,”** Musk said. Twitter has been corrupted by “fact checkers” operating to promote the depopulation agenda of Big Pharma and the world’s satanic leaders.

Elon Musk

Tucker Carlson

Jonathan Greenblatt
Anti-Defamation League

At a recent TedTalk before the purchase Musk, a self-described “free speech absolutist,” derided Twitter’s current censoring policies: **“[H]aving tweets mysteriously be promoted and demoted with no insight into what’s going on, having a black box algorithm promote some things and not other things, I think this can be quite dangerous.”**

Within 24 hours of the April 25th sale the previously banned discussion of the COVID therapeutic drug **Ivermectin** was trending with thousands of Tweets. Any mention of the success of any drug other than the “vaccine” has been ruthlessly scrubbed from the platform for the last two years. The significance of this development was discussed by **Tucker Carlson** in a segment of his *Fox News* show:

“Elon Musk...knows how important Twitter is to the people who run our system, who run the global system.

For them, censorship and propaganda are not a feature of their rule—their rule depends on censorship and propaganda. If you are offering policies that really benefit nobody but yourself, you have to lie about them, and you must prevent anyone from complaining about it.

“...Again, you can’t overstate what a threat this is—not simply to the people occupying seats of political power, but to the whole non-profit universe that exists and thrives and becomes rich, supporting them through censorship and propaganda. So, groups like the Anti-Defamation League (ADL) or Media Matters take money in order to censor people. They issue some report calling you a racist and then social media shuts you down. Elon Musk is saying ‘No, people should be able to speak freely.’ That would mean the end of their control over speech—groups like the ADL and Media Matters. So, the media and these nonprofit groups have to stop this before it happens.... If free speech is restored to even one big social media platform, it all comes tumbling down.”

Dr. Ben Carson Says Trust in Public Health System Has Been Destroyed

The *Epoch Times* interviewed brain surgeon **Dr. Ben Carson** after the federal court ruling striking down Joe Biden’s mask mandate in transportation. The former chief of pediatric neurosurgery at Johns Hopkins Hospital explained how the public’s trust in the American health system has been destroyed:

“We’ve gotten into a system where we have the media in cahoots with the executive branch, sort of overlooking all the other safeguards that we have in our system. And as a result of that, what we’ve done has completely destroyed the trust of the people in the CDC, the NIH, the government health system. It’s going to take a very long time to get that trust back....It’s too bad that a federal court system had to come in and bring some common sense into the discussion. But the fact of the matter is, we all know, from multitudinous data, that the masks aren’t doing very much, particularly in things like airplanes that already have HEPA filters.”

Carson targeted the government’s single-minded focus on “vaccinations” and their curious policy of banning successful treatments.

“[Hydroxychloroquine] was roundly criticized by our government officials. So was Ivermectin and some other therapeutics that work perfectly fine in other parts of the world. Why would they work in other parts of the world and not work here? Why is it, in Western Africa, there’s almost no COVID? Because they take hydroxychloroquine as an anti-malarial. Why in southern India is there almost no COVID? Because they take Ivermectin. Maybe they’re not taking it specifically for COVID, but look at the results.”

7,500% Increase in Recorded Cases of Cancer Following COVID-19 Vaccines

Pathologist **Dr. Ryan Cole** (in photo) said that he is hearing from doctors all across the world that cancer rates are “taking off like wild fire” following COVID-19 “vaccinations.” Their patients with stabilized stage 1 cancers advance to stage 4 within a couple of weeks of the shot. He concludes that the cancer-fighting T-cells are being neutralized by the “vaccinations.”

Cancer is not considered a common side effect of vaccines. This may be due to the time it takes for cancer cells to proliferate and be exposed through cancer screening. And by then most people would probably not even associate a diagnosis of cancer with a previous vaccine.

Brian Shilhavy, editor of *Health Impact News*, searched for various forms of cancer in the CDC’s Vaccine Adverse Event Reporting System (VAERS) and found 739 cases resulting in 84 deaths following COVID-19 “vaccinations” for the past 16 months.

Using the exact same search for all FDA-approved vaccines for the previous 30 years before the COVID-19 shots were issued emergency use authorizations, Shilhavy found just 220 cases resulting in 16 deaths over 360 months. That’s an average of .6 cases per month for the previous 30 years compared to an average of 46 cases of cancer per month following COVID-19 vaccines—an increase of 7,567%.

Philadelphia Reverses on Mask Mandate; Ends It Days After Reinstatement

Philadelphia ended its indoor mask mandate, abruptly reversing course just days after people in the city were ordered to resume the ineffective and unscientific measure. The Board of Health cited “decreasing hospitalizations and a leveling of case counts” but did not release data to back up its reversal.

Philadelphia had been the first major U.S. city to reinstate its indoor mask mandate, but faced fierce blowback as well as a legal effort to get the mandate thrown out. Philadelphians, tired and angry at the continual pushing of failed “pandemic policies,” appeared to be largely ignoring the order, and few masks were worn at the Philadelphia 76ers’ home playoff game even though they were required under city rules.

The restaurant industry had pushed back against the city’s reimposed mask mandate, saying workers would bear the brunt of customer anger over the new rules. Several businesses and residents sued the city, seeking to overturn the renewed mandate.

Triple Jabbed up to 5 times more likely to be infected with Covid-19 than the Unvaccinated

Official data published by the UK Health Security Agency confirm Covid-19 “vaccine” effectiveness against infection has fallen to minus-391% among triple jabbed 60- to 69-year-olds, and between minus-298% and minus-324% among those aged 30 to 59.

All other age groups have also suffered a significant drop in vaccine effectiveness, with figures showing all triple-vaccinated adults now between 3 and 5 times more likely to be infected with Covid-19 than unvaccinated adults.

According to the U.K.’s *Daily Expose*, “The figures show that the case-rates are highest among the triple vaccinated in all age groups. But not just by a little bit, instead by a million miles. And the gap between the unvaccinated and triple vaccinated has been getting worse by the month. Therefore, these figures indicate the COVID-19 injections make recipients more likely to be infected with COVID-19 than the unvaccinated population.

“These figures show that 60-69-year-olds are nearly 5 times more likely to be infected with Covid-19 than unvaccinated 60-69-year-olds, and show that 40-59 and 70-79-year-olds are over 4 times more likely to be infected with Covid-19 than their unvaccinated counterparts.

Is there any wonder the UK Health Security Agency decided to stop publishing weekly figures as of 1st April 2022?”

American History of Medical Racism & Savagery

Dr. Jonas Salk is considered a “hero” in the medical world; he received multiple honors including the Presidential Medal of Freedom in 1977. But it has now come to light that Dr. Salk conducted Nazi-like experiments on disabled Americans before developing his famous polio vaccine.

Salk vaccinated 8,000 patients at two mental institutions in Michigan. He infected them with wild influenza virus made from dried, infected mouse tissue. Salk conducted other experiments on some of the 3,400 “mentally disabled” children at the Watson Home for Crippled Children and the Polk School near Pittsburgh.

Teenager Deaths Increased ‘Significantly’ in Summer of 2021

Attorney Robert F. Kennedy, Jr. reports in his book *The Real Anthony Fauci*:

Troubling statistics from Britain’s Office for National Statistics (ONS) verify the expected: deaths among teenagers during the summer of 2021 increased significantly over the previous year, coinciding with the vaccine rollout. According to an analysis by The Exposé’s Will Jones, between weeks 23 and 37 in 2021—simultaneous with the vaccine rollout—there were 252 deaths among 15- to 19-year-olds in England and Wales, compared to 162 in the same period in 2020, an increase of ninety, or 56 percent—a very high number that deserves some kind of explanation. Importantly, there is no similar rise among younger children aged one to fourteen, a cohort that was not vaccinated. Instead, 2020 was a low-mortality year for this age group. COVID cannot be

blamed for the sudden rise in deaths among 15- to 19-year-olds in summer 2021, as the Office of National Statistics (ONS) data shows that over the period, there were only nine deaths with COVID in that age group. This real-world evidence suggests that over the summer, the vaccines killed nine times as many 15- to 19-year-olds as COVID did—eighty-one versus nine.

Study Shows People Have Mask Microplastics In Their Lungs

Surgical masks forced onto the public by depopulation officials could have a far healthier effect than previously thought. Billions of people strapped polypropylene masks to their faces every day for two years and sucked their air through plastic fibers for eight hours or more. According to a new study published in the *Science of the Total Environment*, microplastics commonly used in surgical masks have been discovered deep in the lungs of most people, suggesting inhalation as the probable cause.

According to the study, this is the first time microplastics have been found in human lung tissue samples significantly above what is considered “normal” in this polluted world. In 2020, the amount of disposable face masks littered into the environment increased by a staggering 9000 percent. The longterm implications for microplastics in the lungs are unknown, but depopulation officials continue to require children to wear masks for school attendance.

Studies Show Surgical Masks Don’t Even Work for Surgeons

Dr. Manal Mohammed is a Senior Lecturer of Microbiology at University of Westminster focusing on infectious diseases, prevention and treatment. She studied the effectiveness of surgical masks in stopping flu viruses. Dr. Mohammed writes that “The logic of wearing a surgical mask must surely be: if it works for surgeons, it must work for me. The problem is, the mask isn’t intended to protect the surgeon.

It’s intended to stop droplets from the surgeon’s mouth or nose getting into the patient’s wound and causing sepsis. *But despite their use for more than a century, their prophylactic effectiveness is in doubt.* Indeed, a recent study showed that surgical masks can be a source of bacterial contamination in the operating theatre. Although they are designed to trap bacteria shed by the surgeon’s nose and mouth,

the study found bacteria on the exterior of used masks.”

Dr. Mohammed writes that there is a 2009 study that is often cited as evidence that surgical masks work that compared surgical masks with a specialist mask called an N95 respirator—a mask that fits snugly and filters at least 95% of very small (0.3 micron) particles. The study, published in JAMA,

found that both surgical masks and N95 respirators were about equally effective at preventing the flu, “which is to say, not all that effective,” writes Dr. Mohammed:

“because, of the 446 nurses who took part in this study, nearly one in four (24%) in the surgical mask group still got the flu as did 23% of those who wore the N95. And, because both groups wore masks, it’s impossible to say how they would have fared compared with not wearing a mask at all. Basically, there is no strong evidence to support well people wearing surgical masks in public.”

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

Dr. Christina Parks: “Make Vaccine Manufacturers Liable Again!”

Molecular Biologist Dr. Christina Parks spoke at the recent Los Angeles Defeat the Mandates Rally about the fact that vaccine manufacturers are allowed by law to avoid responsibility for the injuries and deaths they cause. Here are Dr. Parks’ remarks:

Thank you. So where did it all begin? You know, the mandates, the lying, the corruption, the complete global takeover by Big Pharma—where did it all begin? Some of you will say it began with the mask mandate, which I hear was horrific in California. But some of you who have been around a little while longer will say it began with SB 277, in which they eliminated the personal belief exemption for vaccines for children to enter school.

They said, ‘Don’t worry, your medical exemptions will never be at risk.’ And then they followed it—this was the beginning of the mandates—they followed it with SB 276. Who remembers SB 276, which sought a crackdown on ‘unethical’ medical exemptions, as if it’s somehow unethical for a doctor to say, ‘Your child has MTHFR [methylene tetrahydrofolate reductase—a gene mutation associated with autism, ADHD, allergies, asthma, cardiovascular disease and other medical conditions]. Your child had a seizure the last time we gave them a vaccine. Maybe we shouldn’t do that again.’ That’s unethical to give more than five waivers in a year because that sixth child is somehow different? Their needs are different?

So, SB 276 was and is a horrific infringement on your rights, but it is not where it all started. It started in 1986, when Congress removed liability protections for any vaccine on the CDC-recommended childhood schedule. In 1986, Congress decided that Big Pharma could inject your child with anything they wanted, with absolutely no accountability. Big Pharma now had a perfect business plan: a liability-free product that they could now lobby to be made mandatory for school attendance. This truly was the beginning of the corrupt system that led to mandates and has become the gateway to a living hell. You see, these mandates ignore the reality of you or your child’s medical condition, and they ignore the fact that all medical procedures are built on the foundation of informed consent.

Dr. Parks with Bro. Rizza Islam

How many of you felt fully informed about vaccines before giving your child 72 doses of 16 different vaccines before the age of 18? Anybody? Were you informed that your child would receive a vaccine for a sexually transmitted disease on the first day of birth, that contained 250 micrograms of neurotoxic aluminum? Do you realize that that exceeds the amount that is considered safe by 10 times? *And they are giving it to a newborn.* Were you informed that different versions of the same vaccine such as DTaP have enormously different amounts of aluminum? Some contain nearly twice the amount of aluminum. So maybe your kid gets 1200 micrograms of aluminum while your neighbor’s only gets 600, and you never knew the difference. Were you informed that your

precious two-month-old baby would receive over 1200 micrograms of aluminum at their two-month wellness visit? And depending on which versions they get, they would spend between 25% to 75% of their first seven months of life in aluminum toxicity. This is peer-reviewed research.

Were you informed that we now have peer-reviewed scientific studies by Romain Gherardi that show immune cells eat this nanoparticulate aluminum? They take it to the brain, where it causes a cytokine storm and causes encephalitis and encephalopathy. And when you took your baby in because their brain was on fire, and they were screaming day and night because they were in a cytokine storm, you were told that they were just colicky. It’s time to stop the (expletive) gaslighting! [Applause] It’s time to stop the (expletive) gaslighting, and it’s time to stop the mandates! And there’s only one way to do that. As we ramp up for this election season, I think that there’s a political slogan that we can all get behind: *“Make vaccine manufacturers liable again.”*

You want to end the mandates? Make vaccine manufacturers liable! You want safe vaccines? Make vaccine manufacturers liable! You want an effective vaccine? Make them liable! If you want to end all of this now, we need to make vaccine man-

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 6

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the U.S. and around the world. Just as with slavery’s plantation passes, the Digital ID system is designed for a privately run corporation to control every aspect of your life, including your ability to travel, buy food, obtain medical care, attend school, secure a job, start a business, and all else you now take for granted—your every activity will be based on the digital permission slip that verifies your medical status and vaccination history. Here is how the plantation passport system operated in America:

“Slaves on different plantations are not allowed without a written permission, to visit their fellow bondsmen, under penalty of severe chastisement. I witnessed the chastisement of a young male slave, who was found lurking about the plantation, and could give no other account of himself, than that he wanted to visit some of his acquaintance. Fifty lashes was the penalty for this offence. I could not endure the dreadful shrieks of the tortured slave, and rushed away from the scene.”

“A slave whom I loved for his kindness and the amiableness of his disposition, and who belonged to the family where I resided, happened to stay out fifteen minutes longer than he had permission to stay. It was a mistake—it was unintentional. But what was the penalty? He was sent to the house of correction with the order that he should have thirty lashes upon his naked body with a knotted rope!!! He was brought home and laid down in the stoop, in the back of the house, in the sun, upon the floor. And there he lay, with more the appearance of a rotten carcass than a living man, for four days before he could do more than move.”

Biden’s New ‘Disinformation’ Police Targets Truth Tellers

The Biden administration is creating a new board at the Department of Homeland Security focused on countering alleged misinformation and disinformation. The announcement comes on the heels of the takeover of Twitter by Elon Musk, who has publicly voiced his intention to loosen the grip of social media censors that have criminally restricted free speech to promote their **Depopulation by Vaccine** agenda.

The new “Disinformation Governance Board” is headed by **Nina Jankowicz**, who will determine—apparently by herself—how the 1st Amendment of the U.S. Constitution will be applied. By its own categorizations the new board proves that ANYTHING written or uttered, *no matter how factual*, can be officially disallowed by a Jankowicz decree. They will flag “misinformation,” “disinformation,” and the catchall that criminalizes EVERY truth teller, “malinformation,” which it says is “malicious” truth.

CDC Tracked Millions of Phones to See If Americans Followed COVID Lockdown Orders

Newly released documents show the CDC tracked tens of millions of phones in the USA to monitor compliance with curfews, and track patterns of people visiting schools, the Navajo Nation, and counts visits to pharmacies “for vaccine monitoring.”

The documents reveal that the CDC paid \$420,000 to the cellphone data broker **SafeGraph**. The technology news website **Motherboard** obtained the documents through a **Freedom of Information Act (FOIA)** request with the CDC.

The documents contain a long list of how the CDC intends to use the cellphone tracking data. This includes monitoring “visits to parks, gyms, or weight management businesses.”

Evidence also emerged recently that the **CIA** was spying not on suspected terrorists but on ordinary Americans, as the **ACLU** noted: “This surveillance is done without any court approval, and with few, if any, safeguards imposed by Congress to protect our civil liberties.” They concluded: “These reports raise serious questions about what information of ours the CIA is vacuuming up in bulk and how the agency exploits that information to spy on Americans. This invasion of our privacy must stop.” Clearly, the CDC is part of the larger depopulation objective, yet poses as a watchdog of our health.

Pilots Injured by “Vaccines” Speak Out

Pilots injured by “COVID-19 vaccines” are now speaking out against vaccine mandates despite a “culture of fear and intimidation.” The **Children’s Health Defense** reports that a growing number of pilots are coming forward to share stories of injuries they experienced after getting a COVID-19 injection. Some of these accounts are “hair-raising and deeply disturbing,” according to the report.

The **U.S. Freedom Flyers** (www.usff-shop.com) is an organization opposing vaccine and mask mandates for pilots and airline staff, and they have launched a series of legal actions against the **U.S. Federal Aviation Administration (FAA)** and several airlines.

Its co-founder, Josh Yoder, a pilot with a major commercial airline and an Army combat veteran, reported that he “has received hundreds of phone calls from airline employees who are experiencing adverse reactions post COVID-19 vaccination.” He says that their actions have led to an increasing number of pilots “coming forward to expose the truth regarding these toxic injections.”

How COVID Kicked Our Asch: This Scary Experiment Explains Mass Acceptance of Pure Evil

In case you were wondering why all views contrary to the Official “VACCINE” Narrative—promoted by Biden, Fauci, the CDC, Big Pharma, and mainstream media—have been brutally repressed, it’s because of the **Asch Conformity Experiment**.

In the 1950s psychologist **Solomon Asch** recruited 7 white males to do an experiment on the 8th man, the subject of the experiment. The 7 were actors who would give the same wrong answer to a simple question (Which of these 2 lines is longer?). Asch’s aim was to find out how many of the subjects would conform with the group and go along with the obvious wrong answer. The results were remarkable. A high percentage went along and agreed with the lie and stuck to the false story.

Asch showed that people will actually believe things that they know to be false if they think everybody else believes those things. That is the point of the current COVID depopulation operation we are currently suffering. You must believe:

Dr. Solomon Asch

- COVID is hugely riskier than it actually is, so any actions are justified.
- Vaccines are your only hope, even though the technology has never worked.
- Vaccines are “safe and effective,” although they are neither.
- The un-injected are subhuman murderers, to be shunned and even left to die.
- Wearing a mask is “safe and effective,” and not wearing a mask is selfishness.
- Children, who are at almost no risk, must be injected or they will kill Granny.

None of this propaganda makes medical sense; however, **no dissent can be allowed**—hence the blanket censorship. Because what the Asch Conformity Experiment also showed is that if one person stands up to the prevailing narrative, it is easier for the second person to dissent. Then another and another stand up, and then control over the official story is lost.

That is why every dissenting voice must be violently silenced. If one person cries, “The vaccine is a fraud,” people will see the naked truth. And that can’t be allowed.

Subjects in the Asch Conformity Experiments

Robert S. McNamara was president of the World Bank and US Secretary of Defense under Presidents Kennedy and Johnson. He played a major role in escalating the US involvement in the Vietnam War.

“Short of thermonuclear war itself, population growth is the gravest issue the world faces over the decades immediately ahead.

“Indeed, in many ways rampant population growth is an even more dangerous and subtle threat to the world than thermonuclear war, for it is intrinsically less subject to rational safeguards, and less amenable to organized control.

“The population growth of the planet is not in the exclusive control of a few governments, but rather in the hands of literally hundreds of millions of individual parents who will ultimately determine the outcome.

“That is what makes the population threat—even more than the nuclear threat—diffuse and intractable. And that is why it must be faced—like the nuclear threat—for what it inevitably is: both a central determinant of mankind’s future, and one requiring far more attention of the world community than it is presently receiving.

“... Unless governments, through appropriate policy action, can accelerate the reduction in fertility, the global population may not stabilize below 11 billion. That would be a world none of us would want to live in.”

Epidemic: Athletes Dying; Now European Mayors Are Suddenly Dropping Dead

The Children’s Health Defense reports that from March 2021 to March 2022, more than 769 athletes collapsed during a game. The average age of the athletes who suffered cardiac arrest is just 23 years old.

The shocking statistic was revealed by Good Science, a team of investigators, news editors, journalists and “truth seekers,” which has detailed 890 cardiac arrests and other serious issues among athletes, including 579 deaths, following COVID-19 shots.

Adding to the carnage are reports that since December 2020, many sudden and unexpected deaths of at least 15 mayors under 60 years old have occurred in Germany and Austria. However, the number of unreported cases could be higher.

A news report asks, “When did so many young and healthy middle-aged people, described as healthy and sporty, drop dead before 2020?...Furthermore, it is creating even more rumors and ‘conspiracies.’ If there is, in fact, a problem, it should be of concern to the government. After all, it’s government officials who are dropping dead in numbers.”

Lockdown Damage Continues to Mount

Lockdown restrictions, including adults wearing face masks, has left a generation of babies and toddlers struggling with speech and social skills, according to an official report from the UK’s Education department.

Using evidence from almost 300 inspections in nurseries, schools and colleges, the education watchdog has highlighted how almost two years of disruption to learning, social distancing, and lockdown restrictions have negatively impacted young people’s communication and language development.

Some inspectors reported that babies are struggling to respond to basic facial expressions, while others noticed a delay in speech and language in toddlers.

Doctor Warns of COVID “Vaccine” Side Effects on Pregnant Women

Dr. James Thorp is a board-certified obstetrician/gynecologist who has practiced for over 42 years. He told The Epoch Times that he sees 6,000–7,000 high-risk pregnant patients a year and has seen many complications among them because of the COVID injections.

“I’ve seen many, many, many complications in pregnant women, in moms and in fetuses, in children, offspring,” Thorp said, “fetal death, miscarriage, death of the fetus inside the mom.... What I’ve seen in the last two years is unprecedented,” Dr. Thorp asserted.

Dr. Thorp explained attempts to quantify this effect are hampered by the imposition of gag orders on physicians and nurses that were imposed in September 2021. These unprecedented gag orders are outlined in the newly released publication “Patient Betrayal: The Corruption of Healthcare, Informed Consent and the Physician-Patient Relationship.”

Dr. Thorp’s experience with his pregnant patients is consistent with internal Pfizer documents that were released by court order. The documents say that there were 274 pregnancy adverse events—many of them considered “serious”—which occurred in the vaccinated mothers. Among the pregnancy-related side effects were miscarriages, rupture of membranes, and fetal deaths.

Consistent with depopulation policy, the CDC website recommends the “COVID-19 vaccines” during pregnancy in order to “prevent severe illness and death in pregnant women.” And the American College of Obstetricians and Gynecologists (ACOG) also “strongly recommends that pregnant individuals be vaccinated against COVID-19,” adding that pregnant women’s complete vaccination should be a “priority.”

Dr. James Thorp

Dr. Christiane Northrup is the board-certified obstetrician-gynecologist with more than 30 years of experience who became widely known through her multiple guest appearances on the Oprah Winfrey Show and her PBS specials. She told The Epoch Times how women were being affected by the COVID “vaccines”:

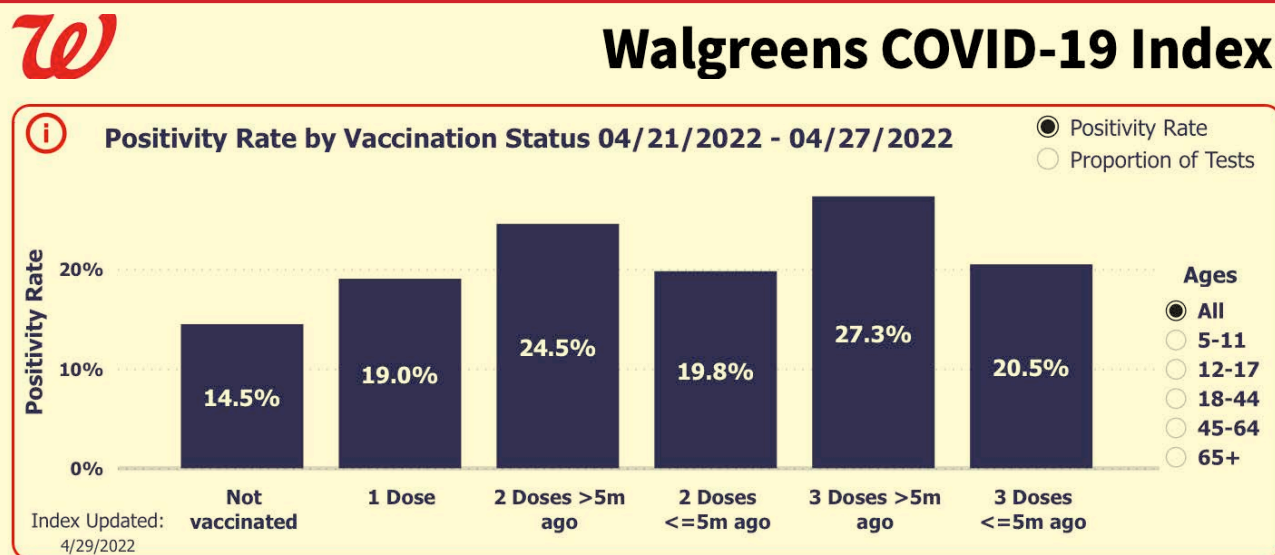

“Women are having bleedings. The doctors in our area are doing hysterectomies in young women, like 30-somethings; they said, ‘Oh, it’s not unusual.’ Let me tell you, as a board-certified gynecologist, that’s very unusual. Women’s periods are messed up all over the place....I’ve had a huge Facebook group of thousands of women talking about this situation that was removed.”

“My profession is famous for embracing treatments that later on turn into disasters: For example the drug thalidomide that results in limb effects in hundreds of babies, the Dalkon Shield IUD that was touted as the birth control method of choice for women who had never had children—and then made hundreds of them sterile from infection. And of course, there is DES that was given to thousands of women for nausea of pregnancy—and results in reproductive abnormalities in both male and female offspring, including sterility,” Dr. Northrup said.

Walgreens: “Vaccinated” Most Likely to Test Positive

The HIGHWIRE investigative journalist Jefferey Jaxen detailed startling statistics from the Walgreens website: “This is Walgreens COVID-19 index. This is their tracker. They looked at the information that they received at their stores, and they created their own tracker, because I guess they didn’t want to wait for the CDC anymore.”

Walgreens has more than 9,000 stores in all 50 states and territories and has been a COVID-19 testing and injection site. Breaking down their most recent data showing positive case rates by vaccination status, shows all vaccinated groups show a higher positivity rate for “the virus” than the unvaccinated.

Vaccination Status	Positivity Rate
Not Vaccinated	14.5%
1 Dose	19.0%
2 Doses (more than 5 months ago)	24.5%
2 Doses (less than 5 months ago)	19.8%
3 Doses (more than 5 months ago)	27.3%
3 Doses (less than 5 months ago)	20.5%

From Walgreens Website

Jaxen concludes, “So we’re seeing the booster shot is actually the highest COVID positivity rate of everybody in this Walgreens accounting for people who have come in for these tests.”

The VACCINES I Have Known

Among all the vaccines I have known in my life (diphtheria, tetanus, measles, rubella, chickenpox, hepatitis, meningitis, tuberculosis, flu and pneumonia), **I have never seen** a vaccine that forced me to wear a mask and maintain my social distance, even when you are fully vaccinated. **I had never heard of** a vaccine that spreads the virus even after vaccination. **I had never heard of** rewards, discounts, incentives to get vaccinated. **I never saw** discrimination for those who didn't. If you haven't been vaccinated no one has tried to make you feel like a bad person. **I have never seen** a vaccine that threatens the relationship between family, colleagues and friends. **I have never seen** a vaccine used to threaten livelihoods, work or school. **I have never seen** a vaccine that would allow a 12-year-old to override parental consent.

After all the vaccines I listed above, **I have never seen a vaccine like this one**...It's a powerful vaccine! **It does all these things except IMMUNIZATION**. If we still need a booster dose after we are fully vaccinated, and we still need to get a negative test after we are fully vaccinated, and we still need to wear a mask after we are fully vaccinated, and can still be hospitalized after we have been fully vaccinated, **it's time for us to admit that we've been completely deceived.**

Watchdog Group UnCOVERS \$350 Million in Secret Payments to Fauci, Collins, Others at NIH

Between 2010 and 2020, pharmaceutical companies and others paid an estimated \$350 million in “royalties” to the National Institutes of Health (NIH) and hundreds of its scientists, including the agency's recently departed director, **Dr. Francis Collins**, and **Dr. Anthony Fauci**, according to the nonprofit government watchdog group **Open the Books**. Its CEO Adam Andrzejewski told reporters that “We now know that there are 1,675 scientists that received payments during the period.” They found that Collins received 14 payments and Fauci received 23 payments.

Andrzejewski explained why: the royalty payments are given “When an NIH employee makes a discovery in their official capacity, the NIH owns the rights to any resulting patent...Employees are listed as inventors on the patents and receive a share of the royalties obtained through any licensing, or ‘technology transfer,’ of their inventions.”

But the question remains, why the secrecy? Who are the companies paying these massive sums? And are these payments in effect bribes for favorable treatment by these agencies that are allegedly guarding the public health? And most important did these payments and the scientists that received them play any role in the corrupted process that forced this deadly COVID-19 depopulation “vaccine” into millions of arms?

Andrzejewski said the files Open the Books is receiving through the Freedom of Information Act are heavily censored. “We don't know the payment amount to the scientist, and we don't know the name of the third-party payer, all of that is being redacted.”

“We believe there is an unholy conflict of interest inherent at NIH,” he said.

Fauci and Collins. If the payments are royalties and not bribes, why the secrecy?

The Honorable Minister Louis Farrakhan

Who is Satan? How would you recognize someone who deceived the whole world? This Satan is so powerful all of the media is bowing to Satan's plan. You won't even permit people that have an opposing view to speak on air. You don't want us on your television screens. You want us off of social media. And now you are telling my poor Black brothers and sisters that they should hurry and get the vaccines. You mock the Reverend Jim Jones and the mass suicide of his followers in Jonestown in Guyana in 1978 where people drank poisoned Kool-Aid.

This vaccine is the biggest dose of Kool-Aid that the enemy has ever offered. It is death itself created in what you call “Warp Speed.” You know anything that's “warped” is misshaped. Anything that's warped is crooked. You were rushing so fast to get something out and bypassing normal steps in a true vaccine.

Now God is going to turn your vaccine into death in a hurry. Mark my words by the Help of God. Since you love to take the vaccine, then eat death. You think you're running from death and I'm inviting you to death. The Man of God is not inviting you to death. I'm inviting you to life. I represent Christ.

Trust the “Doctors”? History of Medical Racism & Savagery

Statue of Sims in New York's Central Park, removed in 2018 after protests.

The alleged “father of gynecology” **James Marion Sims** practiced his surgical technique on enslaved Black women without anesthesia. Between 1845 and 1849, three Black women—**Anarcha**, **Lucy**, and **Betsey**—each underwent up to thirty operations that were so horrifically painful that Sims's assistants “could not stomach their bone-chilling shrieks.” The women themselves were forced to take turns restraining each other as Sims cut into their bodies.

Missouri Bill Protects Doctors If They Prescribe Medicines That Treat COVID-19

Missouri lawmakers passed legislation that prevents Mstate licensing boards from disciplining doctors who prescribe ivermectin and hydroxychloroquine.

HB 2149 also bars pharmacists from questioning doctors or disputing patients regarding the usage of such drugs and their efficacy. The bill passed the House by a vote of 130–4 and now heads to Gov. Mike Parson to be potentially signed into law. The bill reads:

The board shall not deny, revoke, or suspend, or otherwise take any disciplinary action against [physicians] due to the lawful dispensing, distributing, or selling of ivermectin or hydroxychloroquine for human use in accordance with prescriber directions.

22 countries have approved the use of ivermectin with effective results in treating “COVID-19,” though U.S. “medical authorities” are concerned that a successful treatment will cut deeply into the profits they have amassed from their deadly depopulating “vaccine.”

“How could we let the former colonial and slave master bring in vaccines for our people and we don’t have scientists or laboratories to look at this and test it to see if it is what’s on the label?”

Killing the Elderly: Nursing Home Chain Has Highest COVID Death Rate

An investigation by *USA Today* found that **Trilogy Health Services**, one of the nation’s largest nursing home chains, was the most dangerous place for a senior citizen to be during the “COVID-19” plandemic.

When the death toll was made known by *USA Today*, Trilogy, which operates homes in four states—Indiana, Kentucky, Michigan and Ohio—simply altered their data and cut their death count by nearly half. Trilogy originally reported 772 deaths at 113 facilities from October 2020 through February 2021, far higher than any other nursing home chain.

USA Today reported in March that *“Deaths across a scattering of Midwestern nursing homes began surging around Thanksgiving. By Valentine’s Day last winter, the death toll had climbed into the hundreds. [Our] investigation has traced the casualties back to one nursing home chain, Trilogy Health Services, owned by a real estate venture with a new business plan for the cutthroat world of eldercare....This nursing home chain stood out for nationally high death rates as pandemic peaked.”*

The investigation also revealed that eldercare facilities were allowed to charge a higher rate for people with “COVID-19” who were treated at the nursing home instead of being transferred to a hospital. Government agencies charged with oversight of nursing homes appeared to be AWOL as the death count mounted.

As many as one third of all deaths attributed to “COVID-19” have occurred in nursing homes, a fact that has led some to speculate that the elderly were actually targeted for depopulation by a corrupt healthcare system that could no longer afford the high cost of their care.

According to reports, from 700 to 800 covid-related wrongful death lawsuits have been filed across the health care industry.

Most Americans Don’t Want Those Shots

An analysis by **Dr. Meryl Nass** explains Americans’ refusal to continue to line up for the depopulation shots that are now shown to have NO health value at all.

“257.6 million (of a total 334 million Americans) got at least one dose of vaccine....It seems like the vast majority of Americans went along with the vaccine program. But Not for Long. A surprising 15% of the initially vaccinated (and 11% of all Americans) never went back for their second shot. That is huge. There is no other vaccine where such a high percentage fails to complete a two dose series. So if you add together the 18% who refused any shot and the 11% (of all Americans) who refused to complete the initial series, you are up to 29% vaccine refusers and ex-vaxxers who did not get ‘fully vaccinated,’ using CDC’s terminology.

“...36% of Americans took the initial series and refused the booster. Add 36% to 18% who refused all, and add 11% who refused the second shot and now you have 65% of the country that said ‘No more!’”

Dr. Meryl Nass: Americans Are Rejecting Injections

“...It looks like Americans are not so dumb after all. Despite two years of continuous propaganda, and unprecedented threats of employment and educational loss if unvaccinated, Americans are saying, ‘Enough.’ They have stopped queuing up at vaccine clinics, many of which are now closed.

“...Information coming from the UK and other places that vaccination did not prevent deaths or hospitalizations, not to mention cases and spread, has gotten out via the bush telegraph. People were able to distinguish the truth from fake news.”

Bill Gates Admits Damage to Black Children

The world’s foremost Depopulator admits his school closing “policies” caused extraordinary damage to Black children.

In a recent interview on CNN **Bill Gates**—who has absolutely no medical degree or training, yet has bought his way into control of the world’s medical establishment—admitted that children were at low risk from “COVID-19,” and that prolonged school shutdowns created a deep “learning deficit.”

“There’s a lot of uncertainty about school shutdowns. To this day, there are still arguments about how many cases that avoided....It’s pretty clear because young people don’t get sick from the disease very often, that we probably, if we knew everything that we know today, we would have shut schools a lot less than we did during this pandemic....K-12, we have a learning deficit that will take us a long time to erase that, and sadly, it’s a deficit where the inner city is where it’s almost two years. Suburban schools less, private schools — in some cases like my kids—almost no deficit at all,”

The Point of Masks: To Cause Alarm

Science journalist **Laurie Garrett** has been a leading voice promoting draconian COVID mandates for the last two years—especially masks. In a video that has resurfaced from the **National Academy of Medicine in 2018**, Garrett gives us the real rationale for mask mandates:

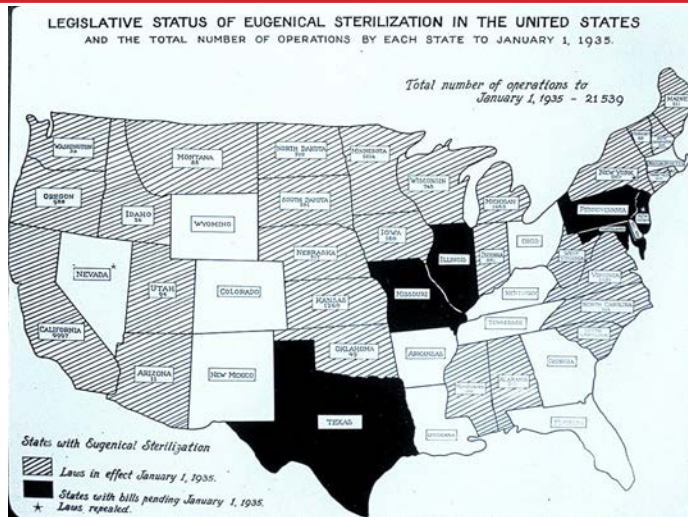

Laurie Garrett

“There’s only a couple of countries that have ever really done large-scale studies to try and figure out what might work. Japan, it may not surprise you, is one of them. In one of their large studies they basically showed that ... it seemed like the major efficacy of a mask is that it causes alarm in the other person and so you stay away from each other. And that’s what I think happened with SARS. When I was in the SARS epidemic I saw everywhere all over Asia people started wearing these masks, and it is alarming, when you walk down the street and everyone coming toward you has a mask on, you definitely do social distancing, you definitely—it’s just a gut thing. But did the mask really help them? Did the mask keep the virus out? Almost certainly not. If the virus was around their face, the mask would not have made a difference.”

History of Black Sterilization: History is Best Qualified

Decades before Adolf Hitler came to power in Germany, American whites embraced eugenics, the pseudo-scientific belief in the need to genetically engineer human beings to form a superior society, and to weed out “undesirables” or “depopulate” humanity by targeting the “unfit” for elimination. In 1907—when Hitler was just 18 years old—Indiana passed the world’s first law authorizing the state to force involuntary sterilizations.

Ultimately, thirty-three states enacted eugenics-based laws in the 20th century, under which 60,000 Americans were forcibly sterilized, thousands were barred from marriage, and thousands were forced into segregated “colonies.” The victims of these government-sanctioned sterilization policies were disproportionately poor, mentally disabled, American Indian, Black, or other non-white people.

Monkey Pox: Truth versus Fearporn

Dr. Robert W. Malone invented the mRNA vaccine platform technology, but then watched it being weaponized against the people. He discusses the latest “monkey pox outbreak” in a recent article titled “**Monkey Pox: Truth versus Fearporn**”:

“So, is the biothreat real? Is it imminent? Does it justify the global media hype? As I was waiting in an airport lounge to travel from USA to the UK two days ago, I saw a newsreel from CNN which was breathlessly reporting on this “threat” while displaying historic images of patients suffering from Smallpox disease. This provides a classical example of public health fearporn, in my opinion, and CNN should be reprimanded for broadcasting irresponsible propaganda—misinformation and disinformation—under the guise of journalism.

“In my opinion, based on currently available information, Monkeypox is a virus and disease which is endemic in Africa, emerges sporadically after transmission into humans from animal hosts, and is typically spread by close human contact. It is readily controlled by classical public health measures. It does not have a high mortality rate. Unless there has been some genetic alteration, either through evolution or intentional genetic manipulation, it is not a significant biothreat, and has never been considered a high threat pathogen in the past. So stop the fear mongering, misinformation and disinformation.”

American History of Medical Racism & Savagery

Dr. Jonas Salk introduced his polio vaccine in 1953. But **The Most Honorable Elijah Muhammad** forbade

Nation of Islam members from taking it. Within days of receiving Salk’s vaccine, reports of “vaccine-associated polio paralysis” began surfacing. One report describes that event:

“Within a month, the mass vaccination program against polio had to be suspended. Salk’s vaccine had caused seventy thousand cases of muscle weakness, one hundred and sixty-four cases of severe paralysis and ten deaths. Three fourths (75 percent) of the victims remained paralyzed for the rest of their lives.”

Newly released Pfizer documents reveal Fraud and Corruption

On May 2nd, Pfizer released another 80,000 pages of clinical trial data related to its COVID shot, which the depopulation leaders have tried to force into virtually every global citizen over the age of 5. Pfizer and the FDA went to court to conceal the data for 75 years but the judge rejected their request. And now it is becoming clear why they wanted 75 years to hide. Researchers have found that:

While Pfizer and the U.S. government claimed the “vaccine” was shown to be “95% effective against COVID-19,” the documents that Pfizer was court-ordered to release prove otherwise. Researcher **Emerald Robinson** offers an extensive review of the Pfizer docs: *“The data seems to indicate that the efficacy rate was as low as 12 percent within the first week post-jab and then continues to plummet to less than 1 percent.”*

The documents further reveal that pregnant women were not included in the safety trials yet were immediately encouraged to take the shots. Pfizer and government officials used data from 44 rats to determine the shots were “safe” for women and their unborn children.

A reported 25,706 patients are missing from Pfizer data. And as of May 2, data from only 9 out of 158 clinical trial sites are accounted for.

Despite claims that the Pfizer poison does not migrate through the body, the documents show that lipid nanoparticles contained within the Pfizer shots were found throughout the body 48 hours post-injection, integrating into other tissues and organs, including ovaries and liver.

NY Mandatory Statewide Adult Vaccination Database is Proposed

Health freedom advocates have warned that New York state depopulators, having successfully stripped the rights of its students when it comes to vaccination choice, are now coming for the adults. Senate Bill S75A, introduced by **State Sen. Brad Hoylman**, would require physicians and healthcare providers to register every shot provided to people 19 and over in the state database. Hoylman has publicly demanded that the NYPD wear masks even though there is absolutely no science supporting any medical benefit to masks, other than to generate fear and distress.

A vaccine database would further enable vaccine passports and systems of segregation based on vaccination status. Such a system would allow easy tracking and targeting of noncompliant adults.

Veteran Doctor Sees Damage to Child Patients from COVID Jab

Dr. Michelle Perro is a pediatrician with four decades of experience in major hospitals and ERs. Once the U.S. Food and Drug Administration authorized the COVID jab for children, aged 12 to 17, it didn’t take long before Dr. Perro started seeing injuries in her practice:

“I was amazed at how many kids were injured ... The types of reactions I started seeing were initially neurologic. Some of them in the beginning were simple but concerning, like tinnitus, which is ringing in the ear, and that could be horrific for a kid ...

“I saw cardiac [problems], myocarditis for sure, and abnormal heart rate responses like tachycardia and increased heart rate ...

“I saw POTS — postural orthostatic tachycardia syndrome — something very common in Lyme disease that is very difficult to treat. Another weird thing I saw was this one child with rhabdomyolysis, where he had massive breakdown of his muscle tissue, which is a very rare event in childhood.

“Then, I started seeing people develop symptoms who were unvaccinated, including myself. I got ‘spiked.’ That’s what I call it, ‘getting spiked.’

“[I saw] teenage girls with heavy menstrual bleeding, prolonged bleeding, and other menstrual irregularities. There was a smattering of rashes, urticaria, hives — a bizarre host of rashes.

“So, this is the kind of stuff we started seeing, and this began happening last June [2021]...*There is a bigger agenda here, because clearly these vaccines are dangerous for kids. There’s no doubt. The data is irrefutable, and yet we’ve proceeded. So, we’re dealing with other agendas here ...* I think parents need to rise up and protect their children, because this is not going away. If anything, it’s ramping up.”

gaslighting noun

Definition of gaslighting

: psychological manipulation of a person usually over an extended period of time that causes the victim to question the validity of their own thoughts, perception of reality, or memories and typically leads to confusion, loss of confidence and self-esteem, uncertainty of one’s emotional or mental stability, and a dependency on the perpetrator

Monkeypox Looks Like Monkey Business

“Before the vaccine was made, I warned us in the Name of Allah that this was a death plot...The way to get rid of two to three billion people [is] to offer you a vaccine.”

—The Honorable Minister Louis Farrakhan

Can we fathom the depths of Satan? A strange set of “coincidences” has accompanied the appearance of “monkeypox” in the now 2+-year global depopulation operation. With stunning accuracy a 36-page document published by the **Nuclear Threat Initiative (NTI)** just six months ago planned for a **“monkeypox attack”** that would occur in the fictional nation of Brinia between May 15th and June 5th of 2022! Page 10 of this “planning document” titled **“Strengthening Global Systems to Prevent and Respond to High-Consequence Biological Threats”** is reproduced below:

The “outbreak” comes in the very same week that the member nations of the Bill Gates-funded **World Health Organization** are gathering to vote to secure a “global pandemic agreement,” which would give WHO the power to impose a worldwide vaccine passport system (Mark of the Beast) and override the laws of every nation should Gates declare a “pandemic.” Monkeypox is exactly the kind of scary world “crisis” necessary to force compliance with the WHO’s unprecedented power grab.

Incredibly, **THE NEXT PANDEMIC** comes just a couple of weeks after Gates’s new book, **How to Prevent the Next Pandemic**, hit store shelves. In one interview promoting his book, the intrepid vaccine depopulator actually predicts what “the next pandemic” may be: **“What if a bioterrorist brought smallpox to ten airports...”** Well, according to the NTI’s twisted scenario the lab-altered monkeypox was released “by agents of a terrorist group operating in neighboring Arnica.” **ARNICA!**? Notice how close their fictional name is to **AFRICA**. And news reports say that “scientists are baffled” about how monkeypox appeared in just about **10 nations** at once.

Yet, there is more. Just so happens that in September 2019, the **U.S. Food and Drug Administration** announced the approval of a **Monkeypox Vaccine**, for a disease that would become the depopulators’ choice for “the next pandemic” just a couple of years later.

“We have 21,000 cases of myocarditis and climbing... that the CDC has verified. 1 was too many. Under no circumstances, should a young person ever receive one of these vaccines, let alone ever be mandated to receive a vaccine.”

A study analyzing data collected between 2019 and 2021 show that there was an **over 25% increase in emergency calls about cardiac arrest** and heart-related problems for young adults, compared to the same time period in both 2019 and 2020. The researchers explain:

“[T]he weekly emergency call counts were significantly associated with the rates of 1st and 2nd vaccine doses administered to this age group [16 to 39] but were not with COVID-19 infection rates.”

RF Kennedy Jr.: Bill Gates Vaccine Killed More African Children Than the Diseases it Targeted

Bill Gates’s global vaccine program has never provided proof that the Diphtheria, Tetanus and Pertussis (DTP) vaccine actually yields beneficial health outcomes. The DTP vaccine was discontinued in the US and western nations in the 1990s following thousands of reports of death and brain damage.

A Danish study in 2017 showed that African girls injected with the DTP vaccine died at **10 times the rate of unvaccinated children**. But Bill Gates and the World Health Organization he controls, made DTP a priority for African babies.

The Danish researchers were shocked when they found that in Guinea Bissau the vaccinated children were protected from Diphtheria, Tetanus and Pertussis, but they were far more susceptible to other deadly diseases than unvaccinated peers. The vaccine apparently compromised their immune systems. Thanks to Gates, DTP is the world’s most popular vaccine.

The researchers suggested that the DTP vaccine is killing more children than the diseases it targets. Kennedy asks, “Shouldn’t we be scrutinizing Bill Gates’ record in Africa before we let him dictate which medicines we need to take?”

Slave Plantation Passes Are Back: And Now Whites Are Slaves Too! Part 7

As a PUBLIC SERVICE, we in the Nation of Islam want to prepare ALL Americans for the “Vaccine Passports” that are now being readied for full operation in the U.S. and around the world. Just as with slavery’s plantation passes, the Digital ID system is designed for a privately run corporation to control every aspect of your life, including your ability to travel, buy food, obtain medical care, attend school, secure a job, start a business, and all else you now take for granted—your every activity will be based on the digital permission slip that verifies your medical status and vaccination history. Here is how the plantation passport system operated in America:

Clayborn Gantling was born in Dawson, Terrell County, Georgia, January 20, 1848, on the plantation of Judge Williams.

“They had whut you call “pettyrollers” who would catch you from home and ‘wear you out’ and send you back to your master. If a master had a slave he jes’ could not rule (some of ‘em wuz hard and jes’ would not mind de boss), he would ask him if he wanted to go to another plantation and if he said he did, then, he would give him a pass and that pass would read: “Give this nigger hell.” Of course when the “pattyroller” or other plantation boss would read the pass he would beat him nearly to death and send him back. Of course the nigger could not read and did not know what the pass said. You see, dey di not ‘low no nigger to have a book or piece of paper of any kind and you know dey wuz not go teach any of ‘em to read.

Deaths, Injuries and Waning Efficacy: The Latest Bad News on COVID Vaccines

Children’s Health Defense reports that “Considering the mounting evidence of adverse effects and lack of effectiveness, some physicians and health agencies are calling for the immediate withdrawal of the COVID-19 vaccines.”

An astounding study published in *Scientific Reports* further revealed that calls to Israel’s National Emergency Medical Services (EMS) for cardiac arrest and acute coronary syndrome increased more than 25% among 16- to 39-year-olds from January 2021 to May 2021, compared to the same time period in 2019 and 2020.

The **U.S. Food and Drug Administration (FDA)** and **Pfizer** attempted to hide COVID-19 shot clinical trial data for 75 years. Now that a lawsuit forced the FDA to release thousands of the documents, data about what they were trying to hide is coming out. Among the revelations is evidence that Pfizer deliberately excluded pregnant women from COVID-19 shot trials. So how did they make the recommendation that the shots are safe and effective for pregnant women? It was based on a 42-day study involving 44 rats.

According to investigative author **Naomi Wolf**: “It looks to me — this is not an overstatement from what I’ve seen — that this was a clinical trial that by August 2021, Pfizer and the FDA knew was failed; the vaccines were not safe and effective.” They knew “[t]hat they weren’t working. That the efficacy was waning ... and that they were seriously dangerous. And they rolled it out anyway.”

Panel wrestles with judgment of Saenger

New draft tones down criticism of testing

DEADLY Between 1960 and 1972, Jewish doctor **Eugene Saenger** of the **University of Cincinnati** conducted Nazi-like radiation experiments on more than 200 cancer patients without their consent, 150 of whom were Black. He exposed each of them to the equivalent of 20,000 X-rays.

According to a journalist, “Saenger deliberately injected hundreds of people with potentially lethal doses of radiation, knowing that most of them would die rather quickly....At least 89 people are acknowledged to have died due to Saenger’s treatment, although the number is likely well above 200.”

What to do with all these useless people?

“...And this time if you are not part of the revolution fast enough, then you probably will become extinct. So, once you learn to produce bodies and brains and minds, the cheap labor in Africa or Asia or wherever, it simply counts for nothing. The biggest question in maybe economics or politics in the coming decades will be what to do with all these useless people?...The problem is more boredom and what to do with them and how to find some sense of meaning in life since they will be basically useless, worthless. My best guess at present is a combination of drugs and computer games.”

Plandemic creates new billionaire every 30 hours — While Extreme Poverty Explodes

A new **Oxfam International** study, “Profiting from **Apain**,” calculates that for every new billionaire created during the plandemic—one every 30 hours—nearly a million people could be pushed into extreme poverty at the same rate. For the new billionaires, they write, “the pandemic and now the steep increases in food and energy prices have, simply put, been a bonanza for them. Meanwhile, decades of progress on extreme poverty are now in reverse and millions of people are facing impossible rises in the cost of simply staying alive.”

573 people became new billionaires during the “pandemic,” at the rate of one every 30 hours, while at the same time **“We expect this year that 263 million more people will crash into extreme poverty, at a rate of a million people every 33 hours.”**

“The super-rich have rigged the system with impunity for decades and they are now reaping the benefits. They have seized a shocking amount of the world’s wealth as a result of privatization and monopolies, gutting regulation and workers’ rights while stashing their cash in tax havens—all with the complicity of governments,” said Oxfam.

The world’s ten richest men own more wealth than the bottom 40 percent of humanity, 3.1 billion people. The richest 20 billionaires are worth more than the entire GDP of Sub-Saharan Africa.

A worker in the bottom 50 percent would have to work for 112 years to earn what a person in the top 1 percent gets in a single year.

The “pandemic” has created 40 new pharma billionaires. Pharmaceutical corporations like **Moderna** and **Pfizer** are making a \$1,000 profit every second just from their monopoly control of the COVID-19 vaccine, despite its development having been supported by billions of dollars in public investments. They are charging governments up to 24 times more than the potential cost of generic production.

Moderna ‘Throwing 30 Million Doses in the Garbage,’ CEO Says

The CEO of **Moderna**, the makers of the toxic waste they call “vaccines,” said the company is having to “throw away” millions of doses because “nobody wants them.”

Stéphane Bancel made the comments at the **World Economic Forum** meeting in Davos, and noted his concerns over the lack of people getting vaccinated and declining to get boosters.

“It’s sad to say, I’m in the process of throwing 30 million doses in the garbage because nobody wants them. We have a big demand problem....We right now have governments—we tried to contact...through the embassies in Washington. Every country and nobody wants to take them....The issue in many countries is that people don’t want vaccines.”

A string of European countries have found themselves stuck with vaccines that they simply cannot use because of a lack of demand, while their Ukraine war is depleting vaccine budgets. Those nations are now looking to renegotiate their vaccine contracts with suppliers that could grant them the right to “re-phase, suspend, or cancel altogether vaccine deliveries...”

Is Humanity being purposely poisoned as part of a Depopulation Agenda?

According to **Mercola.com**, “In 1992, researchers published data showing the quality of sperm counts in men had been cut nearly in half over the previous 50 years. A 2017 systematic review confirmed this trend, showing a 50% to 60% drop in total sperm count among men in North America, Europe, Australia and New Zealand between 1973 and 2011.

“Testosterone has also declined in tandem with lower sperm counts, while miscarriage rates among women and erectile dysfunction among men have been steadily rising. We can rule out genetics as the cause, because the decline in sperm count is simply too rapid. That leaves us with environmental causes [that] can be broadly divided into two broad categories: lifestyle and chemicals.”

Are Humans Going Extinct?

Dr. Shanna H. Swan, a leading environmental and reproductive epidemiologist, published the 2017 report showing a 50% to 60% drop in total sperm count. Dr. Swan refers to this shocking 39-year decline as “the 1% effect,” meaning the cumulative effect that an annual change of just 1% has over time.

Dr. Joseph Mercola observes: “If these trends continue, and there’s no indication that they won’t, in the not-so-distant future, we’ll be looking at a male population that is completely infertile. At that point, the human population will become extinct.”

Depopulation through forced vaccination

This is an excerpt from the original article written by Rachel Windeer and published in The Sovereign Independent in June 2011.

Vaccines are a fraud; pure and simple! The historical record proves this for anyone with a little patience and the courage to investigate the facts for themselves, and it does take courage, especially for those in the medical profession whose careers will be at risk if they dare expose this danger to our children. It also shatters their illusions that they’re part of an organisation which is far from beneficial to those they believe they’re protecting from illness. However, their Hippocratic Oath should compel them to investigate such wild claims put out by pharmaceutical giants and their drug dealer sales representatives instead of taking the word of an industry well known as being utterly corrupt and ruthless in its business practices.

...This brings us to the real reasons for vaccinations. I’m not even going to prove to readers that they don’t work. I’ll simply urge you to look up the historical record. One simple example is the demise of measles.

The measles death rate had declined by 98% from 1915-1958 prior to any vaccination being introduced. In 1988 and 1989, 69% and 89% for measles cases in

American school-aged children had been vaccinated. In 1995, 56% of all measles cases in America were vaccinated.

These figures come from medical journals. Those 3 simple examples prove that unvaccinated children are less likely to contract measles and that the vaccine was useless. Look that up for yourself. All other vaccine claims that they’ve cured or eliminated disease follow a similar pattern. Better hygiene, clean water and good healthy food were the causes of the decline and any doctor worth his smelling salts should know that. If they don’t then they are misinformed on a grand scale or they’re in complete denial.

Therein lies the problem. Why have doctors been ‘indoctrinated’ to believe that vaccines are the sacred cow of medicine when the historical record clearly shows that they are virtually useless?

Hold onto your sanity because I have some bad news for you.

The real reason for vaccinations, apart from the massive profits to the manufacturers, is to ensure that you get sick throughout your life, again not only to enrich these same corporations that made you sick, but to ensure that many, if not all of you, die before you ever receive your pension and when you are no longer any of use to society. That’s why they want you retiring later in life and are forcing you through economic terrorism to work longer regardless of your age or health. They literally want to work you to death. If you don’t work you will be classed as a burden to society, a financial cost which society has to bear, and therefore you will be stigmatised as a ‘useless eater’; a consumer of resources needed for the rest of society. When Big Pharma can no longer profit from the illness they gave you, you will be left to die.

This is the depopulation agenda promoted under the United Nations Division of Population under the Department of Economic and Social Affairs. We only need look at Africa, the nation which the United Nations has said themselves, could feed the world. Why then are millions in Africa starving to death on that continent? It’s meant to be that way folks.

All of us at one time or another have been led to believe in the efficacy of vaccines. I was one of them and had my child vaccinated nearly 35 years ago. I wouldn’t even dream of it now. I think it’s safe to say that we’re all aware of the real pandemic, as opposed to the fake pandemics of the past. It’s called ‘CANCER’. Autism is also at crisis (pandemic) levels all across the world where mass vaccination programs exist.

Prior to mass vaccination, cancers were extremely

rare, as in almost nonexistent. Today in the western, so called developed world, we face a crisis of cancer to the extent that between one in five to one in two will suffer, many dying, from one form of cancer or another. What’s happened to cause this pandemic?

We only have to look back at the Jonas Salk polio vaccine that went around the world in the full knowledge that it contained the SV40 virus which had no other purpose than causing cancer; yet it was pushed as a vaccine for polio when, as with measles, polio was well in decline prior to any vaccine due to the same factors.

Enter stage right at the TED 2010 conference, Mr. Bill Gates, head of Microsoft, the biggest computer firm on the planet. What has Bill Gates to do with vaccines you’re wondering?

See the quote in the image above. Those are his exact words. Are you beginning to get the picture?

The globalist elite care nothing for humanity; ordinary men, women and children must be eliminated in their delusional minds to ensure that their superior types go into the future with the best of breeding being the only criteria worthy of saving. You and I are no longer required and that is why we are seeing the loss of our economy, our wealth, our health, our happiness and ultimately, our lives.

18 Major Airlines Face Lawsuits Over COVID Vaccine Mandates

The lawyer who filed a lawsuit against **Atlas Air** said he plans to file similar lawsuits against the **Federal Aviation Administration (FAA)**, the **U.S. Department of Transportation (DOT)** and 18 major airlines over their COVID-19 vaccine mandates.

California attorney **John Pierce** alleges the mandates “imposed by these agencies on the airlines’ employees infringed on their constitutional, religious, and medical liberties,” **The Epoch Times** reported.

Pierce filed the first lawsuit on behalf of the Atlas Air employees and **U.S. Freedom Flyers (USFF)**, an advocacy group opposing airline vaccine and mask mandates. Atlas Air is one of the largest air cargo carriers in the aviation industry.

The lawsuit has the participation of more than 100 plaintiffs, most of whom are unvaccinated pilots and flight attendants. According to the lawsuit:

“Fundamentally, this case is about whether Americans should be required to choose between their livelihoods and being coerced into taking an experimental, dangerous medical treatment.”

Pfizer, Moderna ‘vaccines’ are Ineffective at protecting against ‘COVID-19’

Studies have found that both the Pfizer and Moderna “vaccines” offer almost no long-term protection against “COVID-19.” According to a peer-reviewed study published in *JAMA Network* in May, “neutralizing antibodies” provided by the Pfizer “vaccine” rapidly declined only weeks after patients received their second and third doses.

The poison jab-pushers originally claimed that their jab chemicals were 96% effective, but the latest study found that that number was a total fabrication. Not one of the four most widely distributed “vaccines” provides adequate long-term protection. The so-called effectiveness of the Pfizer swill, for instance, “declined rapidly” and within 3 months the antibodies were down to 18.9 percent.

The Johnson & Johnson “vaccine” is the worst of the bunch in terms of long-term protection. According to a study published by the medRxiv, “vaccine efficacy” drops from 88% to just 3% after six months.

A study showed that those inoculated with Moderna’s mRNA “vaccine” are more likely to be reinfected, possibly indefinitely, than those who acquire natural immunity. According to *Children’s Health Defense*, “... Specifically, the study implies that the reduced ability of a vaccinated individual to produce antibodies to other portions of the virus may lead to a greater risk of future infections in the vaccinated compared to the unvaccinated.”

Overall, the researchers’ findings suggest that natural infection is likely to provide more robust protection when an individual is exposed to COVID-19 in the future.

Dr. Naomi Wolf: ‘Dear Friends, Sorry to Announce a Genocide’

Dr. Naomi Wolf has assembled thousands of volunteer scientists, attorneys, and researchers to analyze the vaccine trial documents that Pfizer tried to hide from the public for 75 years. Her conclusion: *“It’s Really True: They Know they are Killing the Babies.”* She writes:

‘I’ve been silent for some weeks. Forgive me. The truth is: I’ve been rendered almost speechless — or the literary equivalent of that — because recently I’ve had the unenviable task of trying to announce to the world that indeed, a genocide — or what I’ve called, clumsily but urgently, a ‘baby die-off’ — is underway...

Dr. Wolf reveals that “Pfizer knew in May of 2021 that 35 minors’ hearts had been damaged a week after mRNA injection — but the FDA [approved it] for teens a month later anyway, and parents did not get a press

release from the US government about heart harms til August of 2021, after thousands of teens were vaccinated.”

Wolf’s team found that “In the internal trials, there were over 42,000 adverse events and more than 1200 people died. Four of the people who died, died on the day they were injected....Adverse events tallied up in the internal Pfizer documents are completely different from those reported on the CDC website or announced by corrupted physicians and medical organizations and hospitals.The side effects about which Pfizer and the FDA knew but you did not, include blistering problems, rashes, shingles, and herpetic conditions (indeed, a range of blistering conditions oddly foreshadowing the symptoms of monkeypox).”

Wolf says “‘Fact-checkers’ can deny this all they want. The documents speak for themselves....Of course, people who have tried to raise any of these issues have been deplatformed, scolded by the President, called insane, and roundly punished.”

UK’s Chief Doctor Admits School Closures Caused “Substantial” Damage to Children

Professor Sir Chris Whitty told a conference this week that many aspects of public health had “gone backwards” over the last two years, including a “significant” worsening in childhood obesity. He said evidence suggested there had already been an impact on the mental health of children, with a rise in eating disorders, but said much longer-term consequences may yet be seen. Whitty also said elderly people had also suffered as the result of long periods of isolation.

Research found soaring rates of depression and anxiety following the first lockdown. The prevalence of diagnosed depression went from 4% to 32% in 2020, a University of Bath study found, while cases of anxiety went from around 5% to 31%.

Witty also warned that a significant number of cancers were likely to have been missed as a result of screening being halted, meaning cases would be caught later when they are harder to treat.

“This vaccine is the biggest dose of Kool-Aid that the enemy has ever offered. It is death itself...”

Menstrual Irregularities, Uterus Shedding Cases Spike After COVID Vaccine

Possibly no one would have thought that entertainer **Nikki Minaj** could provide more accurate medical advice to women about the killer jabs than the CDC and Anthony Fauci ever have. Minaj was relentlessly attacked for publicly voicing concerns about the dangers of the jab to women of child-bearing age. New data prove that the rapper is far wiser than those medical “experts,” who may have now caused sterility issues for millions. In fact, prominent doctor **Christiane Northrup** said, “What we’ve seen so far is just the tip of the iceberg.”

Three peer-reviewed research studies on women found that an unusually high number suffered menstrual irregularities or a shedding of the inside lining of the uterus (endometrium) following the forced “vaccines.”

Over the past 109 years, decidual cast shedding (DCS) had less than 40 reported cases in the whole of medical literature. In the later 7.5 months of 2021, participants of *MyCycleStory.com* reported 292 cases out of 6,049 women who participated in the survey.

Dr. James Thorp wrote: “Extreme menstrual irregularities such as DCS should not be ignored as there are potentially important implications with regard to the lipid nanoparticles that are known to concentrate in the ovaries and also syncytial antibodies that could result in miscarriage (spontaneous abortions).” Thorp previously told *The Epoch Times* that he has been seeing “many, many, many complications in pregnant women, in moms and in fetuses, in children, offspring,” since the COVID vaccine was widely distributed.

“Fetal death, miscarriage, death of the fetus inside the mom,” Thorp added. “What I’ve seen in the last two years is unprecedented.”

Of course, the targeting of the womb through sterilization is the preferred method of depopulation for the satanic minds that now rule planet earth.

“How could we let the former colonial and slave master bring in vaccines for our people and we don’t have scientists or laboratories to look at this and test it to see if it is what’s on the label?”

—The Honorable Minister Louis Farrakhan

‘Godfather of Vaccines’ & U.S. Government Experimented on Black & Disabled Children

In 1973, Dr. Stanley Plotkin penned a letter to the *New England Journal of Medicine* in which he justified his experiments on vulnerable intellectually disabled children, saying they **“are humans in form but not in social potential.”** Those sorts of prejudices did nothing to damage his lofty reputation among his colleagues. Vaccinologists consider the annual Stanley Plotkin Award the Nobel Prize of vaccinology. In 2019, the *British Medical Journal* called Plotkin “the Godfather of vaccines.”

Attorney Robert F. Kennedy, Jr., highlighted in his latest book, *The Real Anthony Fauci*, vaccinologists like Hilary Koprowski and Stanley Plotkin, who worked in the Congo to recruit millions of Black African child “volunteers” for dozens of mass trials with experimental vaccines that were considered too risky to test on white children. As late as 1989, the Centers for Disease Control conducted

Stanley Plotkin

lethal experiments with a hazardous measles vaccine on Black children in Cameroon, Haiti, and South-Central Los Angeles, killing dozens of little girls before halting the program. CDC did not tell “volunteers” that they were participating in an experiment. In 2014, another CDC whistleblower, the agency’s senior vaccine safety scientist, Dr. William Thompson, disclosed that top CDC officials had forced him and four other senior researchers to lie to the public and destroy data that showed disproportionate vaccine injuries—including a 340 percent elevated risk for autism—in Black male infants who received the Measles, Mumps, Rubella (MMR) vaccine.

Rise in Deaths up 40 Percent; Majority Not From COVID-19 • “Vaccine” Suspected

The *Epoch Times* reports that “Mortality among young-to-middle-age Americans went through the roof last year. The majority of the increase didn’t involve COVID-19, according to official [CDC] death certificate data.”

Deaths among people aged 18 to 49 increased more than 40 percent compared to the same period before the pandemic. “That’s more than 90,000 additional deaths in this age group, of which less than 43 percent involved COVID.”

The mortality increase was most notable for the 30–39 age group, where deaths skyrocketed by nearly 45 percent, with two thirds having nothing to do with the “virus.”

CDC data on the exact causes of those excess *non-COVID* deaths aren’t yet available for 2021, but a portion of those excess deaths may be explained by drug overdoses from synthetic opioids and other mind-altering substances. Many health experts suspect that the “vaccines” have severely damaged the immune systems and made this young and healthy age group vulnerable to other ailments like cancer and heart disease.

Lancet: 89% Of New UK COVID Cases Among Fully Vaxxed

The government-forced COVID-19 “vaccination” was expected to reduce transmission of the “virus,” but recent data from England prove that **the risk of contracting COVID-19 is actually HIGHER among the jabbed.** The prominent medical journal *The Lancet* reported that a total of 100,160 COVID-19 cases were reported among citizens of 60 years or older: 89,821 occurred among the fully vaccinated (89.7 percent), 3,395 among the unvaccinated (3.4 percent).

In Israel an outbreak was reported involving 16 healthcare workers, 23 exposed patients and two family members. The source was a fully vaccinated COVID-19 patient. Fourteen fully vaccinated patients became severely ill or died, the two unvaccinated patients developed mild disease.

It now appears that the most likely spreaders of the “virus” are those who were forced to become lab rats for the world’s depopulators. **Pres. Joe Biden** spread the egregious lie that **“You’re not going to get COVID if you have these vaccinations.”** He said his patience with “vaccine hesitancy” was “wearing thin,” insinuating that if people didn’t get the shot, they’d face serious repercussions. But the data are proving that **the safest people to be around are those who followed the divine guidance of The Honorable Minister Louis Farrakhan and stayed far away from Biden’s Final Solution.**

Pfizer Ad Campaign is OPEN Extortion

A 30-second ad campaign launched by Pfizer depicts several scenes of the “opening” of America after the brutal COVID lockdowns that made them billion\$. Maskless and smiling Americans are shown attending sports events, graduations, block parties, and celebrations, as a female voice repeats the word “OPEN” six times. “Your world—OPEN—and you can help keep it that way...” Fade to the text: **“KEEP YOUR FAMILY UP TO DATE ON COVID-19 VACCINATIONS ...Pfizer.”**

Pfizer is here claiming that it alone is responsible for the freedoms depicted in the ad, and that the only way to keep America from shutting down again is via their “vaccine.” Those freedoms are no longer Constitutional guarantees—they are Pfizer guarantees. The fact that its deadly depopulation shot has miserably failed in its stated purpose, and has a fatality rate higher than in most wars, is not mentioned. And since “democracy” has collapsed under the weight of Big Pharma cash right before our eyes, voting is no longer of any use at all. Keeping “your family up to date” with Pfizer’s poison Kool Aid is ALL that keeps America “OPEN.” In Pfizer’s world **Albert Bourla’s** jabs are now a never-ending constant. Add EXTORTION to the list of Pfizer’s multitudinous COVID crimes.

The rich get richer: World’s wealthiest & Lawmakers profited in pandemic

According to *Forbes*, some of the world’s richest people who run the biggest corporations saw huge profits, with their personal wealth growing immensely during the “pandemic.” The report says that from 2020 to 2021, the wealth of **Jeff Bezos, Elon Musk, and Mark Zuckerberg** exploded. In part this is due to government relief in the form of the Payment Protection Program, where about 87% of stimulus money went to companies and just 13% went to individuals.

Meanwhile, according to *Business Insider’s* analysis of federal financial records, at least 75 federal lawmakers held shares of Moderna, Johnson & Johnson, or Pfizer in 2020. Several other lawmakers traded shares of companies with a direct stake in the pandemic. Lawmakers held these investments as the U.S. Congress voted on six relief bills together worth nearly \$6 trillion. Congress also authorized more than \$10 billion to help drug companies develop and distribute vaccines and forced health insurers to cover the cost of getting the shot. Follow the money, find the depopulators.

New Documentary Exposes WHO Program Resulting in Sterilization of African Women

The most efficient method of genocide is by clandestine sterilization of the target population. The Most Honorable ELIJAH MUHAMMAD wrote: “I warn you my people and especially the women. Be aware of the tricks the devils are using to instill the idea of a false birth control in their clinics and hospitals. **STERILIZATION IS NOT BIRTH CONTROL, BUT THE END OF ALL POSSIBILITY TO BEAR CHILDREN.**”

Sterilization of dark-skinned populations has been U.S. foreign and domestic policy for generations, and it is suspected that sterilization is the true objective of the COVID-19 injections.

Children’s Health Defense (CHD) Films, led by executive producer Robert F. Kennedy, Jr., has introduced a new documentary, **“Infertility: A Diabolical Agenda,”** that exposes a **World Health Organization (WHO)** population control experiment carried out under the guise of a vaccination program. The now infamous operation resulted in the sterilization of women in Africa without their knowledge or consent.

The 30-minute film reveals the truth behind WHO’s nefarious collaboration with the Kenyan government in which an experimental tetanus vaccine laced with a hormone prevented pregnancy, and was given to millions of unknowing African women of childbearing age in the 1990s and early 2000s.

“The truths exposed in this film cast a long shadow from a tetanus trial in Africa to the symptoms of infertility that are happening

all over the world, including reports after the Gardasil vaccine and the COVID-19 shots,” said CHD Chief Science Director Dr. Brian Hooker.

“We expose the WHO’s ... surreptitious campaign to prevent and abort pregnancies in millions of unsuspecting African women. WHO led these women to believe that they were part of a public health program to protect their newborn babies.”

Children’s Health Defense and its media arm **CHD.TV** will air the film with special programming featuring leading experts discussing their concerns about the rise in infertility rates and how other vaccines, including the COVID-19 shot, are linked to infertility.

Mandates, Vaccines, and the Book of Revelation

“I actually think that the whole pandemic was a Trojan Horse for vaccines. COVID, from day one, I’ve always said it, it’s completely treatable, and it’s completely preventable. And there is no reason for you to be giving a vaccine for a disease that’s completely treatable, and completely preventable. And on top of that, the death rate of COVID is not that high. So, we need to wake up and realize that these mandates, the vaccines, and everything is taking us right into the Book of Revelations where you cannot buy or sell without taking the vax...Get Hydroxychloroquine, get Ivermectin... You can get vitamins. Keep yourself healthy and realize that this whole thing, all of this whole vaccination and everything COVID—everything is a Trojan Horse for vaccines. They want to scare 7 billion people, and they want all of us to get jabbed; they want all of us to get corrupted.”

Dr. Stella Immanuel was born in the Cameroon and is one of the doctors defending against the COVID depopulators.

THE FRAUDULENT HISTORY OF VACCINATION

“The most widespread and lethal diseases in the last 200 years were reduced due to cleaner drinking water, improved sanitation, nutrition, less overcrowded areas, and better living conditions. Vaccines were introduced at the point where every single disease was already declining. To give vaccines credit for global reductions in disease is like giving a band-aid credit for healing a wound that was already closing.”

—Dr. Dave Mihalovic, ND

“The largest historical decrease in morbidity and mortality caused by infectious disease was experienced not with the modern antibiotic and vaccine era, but after the introduction of clean water and effective sewer systems.”

—*Journal of Pediatrics*, Dec. 1999, Vol. 135, No. 6, p. 663

The modern amenities (mainly clean, running water, electricity, garbage collection, modern buildings) that eradicated diseases also extended our life expectancy. Modern medicine, despite what the drug companies claim, had no role in eradicating diseases or prolonging life. If anything, synthetic drugs and vaccines have shortened the lives of millions. Doctors and hospitals are the third-leading cause of death in the USA. Some have claimed that the medical system is actually the first leading cause of death because the vast majority of those who have died of heart attacks, cancer, and diabetes were on medication or chemotherapy—they were involved in the medical system. The reason is that the ingredients in drugs, vaccines, and chemotherapy are toxins and poisons to the body.

[from the book *VACCINES: The Biggest Medical Fraud in History*]

Where’s the Emergency? FDA Approves Poison Shots for Babies Under 5

The U.S. Food and Drug Administration (FDA) unanimously voted to allow the poisonous COVID-19 shots to be given to children age 5 and under. Child sacrifice is described in the Bible (Jeremiah 19:3-6) as a pillar of the worshipers of the false god Baal. In his honor adults would throw their newborn infants into a fire to be burned alive. To date the COVID cult’s “Baal vaccines” are responsible for at least 30,000 deaths, 4,700 miscarriages, 160,000 hospitalizations, and 54,000 permanent injuries.

At least some lawmakers are questioning the Baal believers. A letter signed by 18 members of Congress presses the FDA to address unanswered questions concerning “the risks and benefits” of administering “COVID-19 vaccines” to children. They ask the FDA to explain why the FDA and the **Centers for Disease Control and Prevention (CDC)** have not provided the public with more details on children’s lack of serious adverse outcomes from COVID-19 infections and how the majority of children have not died from COVID-19 or its variants.

Finally, the letter asks the FDA Commissioner **Robert Califf** to prove there is an actual medical emergency posed by COVID-19 to children 0 to 4 years old.

The medical data show that children under 18 have virtually no risk of death from COVID-19, according to a November 2021 study published in *Nature*. A July 2021 preprint paper found children have a 99.995% recovery rate, and the vast majority of children have minimal symptoms.

Indeed, there is no clinically significant health benefit from the mRNA vaccines.

Question: “When does flu season start?”

Answer: “The flu season starts when the drug companies have millions of flu vaccines waiting to be sold.”

SHOULD I GET A COVID “VACCINATION”?

Farrakhan Thinkers VS Plantation Americans

Why are the vaccine ingredients a secret?

Who made the vaccines?

What is the vaccine-maker's history?

Was the vaccine properly tested? By whom and for how long?

How many side effects did it cause; how many deaths?

If it injures me, can I sue them?

Why are so many whites all of a sudden concerned for my health?

Didn't those Tuskegee doctors claim to be concerned for those Black men?

Why should I take ANY medication if I have no symptoms?

Why is EVERY news station reading from the exact same script?

Why are Twitter, Facebook, YouTube, etc., censoring opposing medical voices?

Bill Gates is pushing vaccines and depopulation. His wife wants “black people to get it first.” Hmmm?

Are there other, better treatments available for the “virus”? What are they?

Haven't vaccine programs been used as a front for sterilization programs?

Are the “authorities” pushing the vaccine making any money from it?

Hell no. I have NO RIGHT to trust your damn vaccines.

The TV says I should get it.

The mayor of New York is giving free french fries if I get jabbed.

I can get free weed and Krispy Kreme donuts if I get jabbed.

I can get free beer and paid vacation time if I get jabbed.

Big stars are getting jabbed. What does Johnny Depp say?

Medicine is for horses.

Dr. Fauci and Bill & Melinda seem nice.

Johnson & Johnson seems nice.

Pfizer says vaccines will make us normal.

I don't want to stand out at work.

I don't want to be thought of as a “conspiracy theorist.”

I don't want to disappoint all these good white people.

All the vaccinated stars are getting COVID—I should get vaccinated.

New Book Shows How COVID Treatments Are Deliberately Suppressed

On a recent episode of “RFK Jr. The Defender Podcast,” Robert F. Kennedy, Jr. interviewed John Leake and Dr. Peter McCullough, authors of the new book *The Courage to Face COVID-19*, which Kennedy called a chronicle of the “deliberate, purposeful and lethal suppression of early treatment during COVID.”

“Our theme [of the book] is: It's a crime,” said Leake. “It's a deliberate suppression...deliberately preventing [patients] from accessing drugs that could help keep them out of hospital and dying...It's precisely because [the drugs hydroxychloroquine and ivermectin] worked that they were suppressed...What is it about this...biopharmaceutical complex that becomes so voracious and so ruthless and unmoored from ethical considerations?” he asked.

Dr. Peter McCullough, an internist, cardiologist, and epidemiologist who has been outspoken in his critique of the Gates/Fauci regime, added: “No matter what we did [or] actually found that worked, we were actively being suppressed at multiple levels: federal agencies, the biopharmaceutical complex, medical systems, hospitals, medical societies, licensing boards [and] pharmacy boards. It was a complete and total suppression of our attempts to save lives.”

Monkey Pox Profiteers

Independent journalist **Whitney Webb** writes about who will be cashing in on the monkeypox scare:

Regardless of how the monkeypox situation plays out, two companies are already cashing in. As concern over monkeypox has risen, so too have the shares of Emergent BioSolutions and SIGA Technologies. Both companies essentially have monopolies in the U.S. market, and other markets as well, on smallpox vaccines and treatments. Their main smallpox-focused products are, conveniently, also used to protect against or treat monkeypox as well. As a result, the shares of Emergent BioSolutions [recently] climbed 12%...while those of SIGA soared 17.1%.

For these companies, the monkeypox fears are a godsend, specifically for SIGA, which produces a smallpox treatment, known by its brand name TPOXX. It is SIGA's only product. While some outlets have noted that the rise in the valuation of SIGA Technologies has coincided with recent concerns about monkeypox, essentially no attention has been given to the fact that the company is apparently the only piece of a powerful billionaire's empire that isn't currently crumbling.

That billionaire, ‘corporate raider’ Ron Perelman, has deep and controversial ties to the Clinton family and the Democratic party as well as troubling ties to Jeffery Epstein. Aside from his controlling stake in SIGA, Perelman has recently made headlines for rapidly liquidating many of his assets in a desperate bid for cash...

Surgeon General Guts Mask Theater

Florida Surgeon General **Dr. Joseph Ladapo** addressed mask believers at a recent press conference:

“Unfortunately, we have a country right now where most people across the political spectrum think that these things [holding up a mask] are saving lives... [But] what did the two randomized clinical trials...show?...One found

nothing—zero benefit. The other found a small benefit, like a tiny benefit that's a little bit methodologically shaky.

“[N]one of them found a benefit in young people. Not a single one found a benefit in young people. That's the highest quality evidence; that's what it showed.”

America's History of Medical Racism & Savagery

The US Army secretly put motorized blowers atop the predominantly Black Pruitt-Igoe housing project in north St. Louis to send **hundreds of pounds of zinc cadmium sulfide into the air**. Higher incidents of cancer and death were reported among the residents. When caught, the government said the tests were part of a biological weapons program and St. Louis was chosen because it bore some resemblance to Russian cities that the U.S. might attack.

“Human population growth is probably the single most serious long-term threat to survival. We’re in for a major disaster if it isn’t curbed—not just for the natural world, but for the human world. If it isn’t controlled voluntarily, it will be controlled involuntarily by an increase in disease, starvation and war.”

CEO of large Spanish pharma company bought a fake vaccine card

Police in Spain charged big pharma boss with falsifying his COVID vaccination status. Medical researcher Steve Kirsch asks, “Why would someone pay a huge fee and risk a long prison sentence to avoid taking a perfectly safe vaccine that will keep him from dying from COVID? Answer: to avoid dying from the vaccine.”

Police allege that Dr. José María Fernández Sousa-Faro (in photo), chief executive of PharmaMar, arranged to be injected with a saline solution instead of a COVID-19 vaccination and paid thousands of dollars to have his name added to Spain’s immunization register.

He is among more than 2,200 celebrities and European elites on the list of those falsely vaccinated against COVID. According to the police, the fee was dependent on your social standing. The more important you were, the higher the price.

Dr. Fernández Sousa-Faro is not ignorant of “vaccines.” He has over 35 years of experience in the pharmaceutical industry. He has authored over 90 scientific articles and

holds patents in the field of biochemistry, drug discovery and molecular biology. His company is reportedly involved in researching COVID-19 vaccines, and with that insider knowledge he yet felt the need to resort to illegal means and pay an exorbitant price to avoid the “jab.” He has thus provided a powerful confirmation of the level of danger involved in injecting these poisonous Jim Jonsian jabs. Think—and protect yourself and family.

Dr. Safiyya Shabazz: Her Ivermectin Victory Frees All Doctors

To all my fellow physicians—WAKE UP!! While you might not believe the specific issues in my case are relevant for you, best believe it is part of an ongoing erosion of physician autonomy. Imagine if they did this to everyone who prescribed “unnecessary” antibiotics, which has an even greater potential for harm?

To any patient who values their ability to make individualized decisions about their own health, this matters for you too! For years I’ve cared for babies left stranded without a physician when their families were kicked out of pediatrician’s practices because their families chose not to immunize. Some have had serious health conditions completely unattended. The root of that evil practice is “pay for performance”—an insurance company’s way of making you a liability to any doctor who decides to keep you as a patient. **At what point do we say they’ve gone too far?**

Despite the victory in my case, I’m not going back in their network. I’m glad to be released from their chains! I’m grateful to ALLAH for the opportunity to serve my patients & my people on my own terms!

If you’re in PA, NJ, NY, IL, or VA and you want a highly skilled physician with a mind that is unshackled, sign up for my Direct Primary Care waiting list here:

A NEW & LONG OVERDUE LOOK at the VACCINE INDUSTRY

Notes from VACCINES: THE BIGGEST MEDICAL FRAUD IN HISTORY, compiled by Trung Nguyen, Edmonton, Alberta, Canada (2018)

“The further I looked into it, the more shocked I became. I found that the whole vaccine business was indeed a gigantic hoax. Most doctors are convinced that they are useful, but if you look at the proper statistics and study the instance of these diseases, you will realise that this is not so.”

—Dr. Archie Kalokerinos, pediatrician for over 30 years

“In short, our main stream medical system is hopelessly inept and/or corrupt. The treatment of cancer and degenerative diseases is a national scandal. The sooner you learn this, the better off you will be.”

—Dr. Allan Greenberg, MD,

...If you were alive in the last 20 years, you’ve gone through several disease “pandemics”: anthrax, ebola, measles outbreaks, bovine flu, avian flu, swine flu, and Zika virus. All of them fizzled out, leaving the population ever more fearful and the pharmaceutical companies far wealthier.

The drug companies make billions from these fabricated disease pandemics. Soon it will be common knowledge that health does not come from putting poisons in the body, and the pharmaceutical companies should never be trusted with your health.

769 Athletes Collapsed This Year During Competition. What’s Going On?

Epoch News reported that from March 2021 to March 2022, at least 769 athletes have suffered cardiac arrest, collapse, and/or have died on the field, worldwide, and their average age is just 23 years old.

Good Sciencing, which is keeping a running total of athletic deaths since the “vaccine” roll-out, puts the current number of cardiac arrests at 1,090 and total deaths at 715. Several dozen more are pending confirmation that the athlete had in fact received the shot.

Among Europe’s top soccer players, sudden death increased by 420 percent in 2021. U.K. soccer legend Matt Le Tissier said, *“I’ve never seen anything like it. I played for 17 years. I don’t think I saw one person in 17 years have to come off the football pitch with breathing difficulties, clutching their heart, heart problems....The last year, it’s just been unbelievable how many...sports people in general—tennis players, cricketers, basketball players—just how many are just keeling over. And at some point, surely you have to say this isn’t right, this needs to be investigated.”*

“Dr. Anthony Fauci, Bill and Melinda Gates, you want to depopulate the Earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die?”

Insurance Industry Data Shows Massive “Unexplained” Deaths in Young People

A recent report from the insurance industry reveals a large, unexplained rise in U.S. life insurance claims amongst working age Americans of ages 18-64 beginning in early to mid-2021, timed with the vaccination campaign rollout. In a press conference, the CEO of One America, the \$100 billion Life Insurance giant, publicly stated:

- what we saw just in third quarter, we’re seeing it continue into fourth quarter, is that death rates are up 40% over what they were pre-pandemic.
- deaths in this age group are 4 times higher than what would be seen in a ‘one-in-200-year catastrophe,’ and that ‘40% is just unheard of.’
- every single other insurance company has also reported seeing the same;
- the biggest increase in excess deaths has come from traditionally healthier working-aged individuals under 65 — and not the elderly, who are the most susceptible to the Covid-19 virus.
- we are seeing, right now, the highest death rates we have seen in the history of this business.

Financial analyst and former Blackrock Managing Director, **Edward Dowd**, reported similar historic increases in death claims over the same time period from discussions with major U.S. life insurance industry executives: 57% for Lincoln National, 41% for Prudential, 32% for Hartford, 24% for MetLife, and 21% for RGA. In line with these data, the Group Life Insurance industry reported that younger age groups were suddenly dying at historically unprecedented rates beginning in Q3 of 2021.

The timing and magnitude of the historic rise in death and disability are also seen in German health insurance claims data and Medicare billing data.

NEGROES’ STERILIZATION IS DEMANDED IN GERMANY
 BERLIN, Feb. 7. (P)—Immediate sterilization of negro children in the Rhineland and Ruhr districts was demanded today by Hein Schroder, eugenics authority, writing in the newspaper Deutsche Zeitung. The negro population of these districts is Germany’s legacy from invading French colonial troops during the war. Schroeder further recommended sterilization of all colored and hybrid races in the reich.

\$9.8 Million Awarded Last Year by Fauci’s Agency to Test Monkeypox Treatment

The National Institute of Allergy and Infectious Diseases, directed by Dr. **Anthony Fauci**, last year paid \$9.8 million to government researchers to test a monkeypox treatment. Some called the timing “curious,” given the recent outbreak of the virus.

“It could just be coincidental,” said media commentator **Kim Iversen**, “but I will say that there is something very suspect about the fact that they started working on identifying treatments for monkeypox in September of 2020. This has been a virus that’s been around since 1970....What’s odd is that there’s now suddenly an outbreak [of monkeypox] and that outbreak is making headlines and it’s spreading all around the world.” **[Childrenshealthdefense.org]**

The Media’s DePOP Prostitutes

Quote attributed to *New York Times* lead editorial writer John Swinton, at the Twilight Club, New York City, 1880.

There is no such thing, at this date of the world’s history, in America, as an independent press. You know it and I know it.

There is not one of you who dares to write your honest opinions, and if you did, you know beforehand that it would never appear in print. I am paid weekly for keeping my honest opinion out of the paper I am connected with. Others of you are paid similar salaries for similar things, and any of you who would be so foolish as to write honest opinions would be out on the streets looking for another job. If I allowed my honest opinions to appear in one issue of my paper, before twenty-four hours my occupation would be gone.

The business of the journalists is to destroy the truth, to lie outright, to pervert, to vilify, to fawn at the feet of mammon, and to sell his country and his race for his daily bread. You know it and I know it, and what folly is this toasting an independent press?

We are the tools and vassals of rich men behind the scenes. We are the jumping jacks, they pull the strings and we dance. Our talents, our possibilities and our lives are all the property of other men. We are intellectual prostitutes.

DO NOT TAKE THE COVID-19 "VACCINE"

It is **UNSAFE, INEFFECTIVE**, and it is not even a vaccine. It **DOES NOT** stop infection and it **DOES NOT** stop transmission of the pathogen known as COVID-19.

The science is clear and the data is mounting that the "vaccine" is dangerous to those who take it. It appears to suppress the body's natural immune system and make one more vulnerable to disease; and it exacerbates other medical conditions. There is mounting evidence that this "jab" may target the reproductive systems of both men and women and may even lead to sterility. Preserve your life and your future. **REFUSE** this deadly "vaccine."

"So, don't take the vaccines. There are 14 therapies that are in the world today that we can use to fight against the COVID virus."

Forbes: COVID Cash Made Big Pharma Very Rich While Legally Cleared of Vax Deaths & Injuries

There are currently only a handful of large vaccine manufacturers—Merck, Sanofi, Pfizer, and Johnson & Johnson. *Forbes* reported that "the White House needed a whopping amount of money to coax companies to research and test and then produce hundreds of millions of doses. ... Ultimately, **Operation Warp Speed (OWS)**—the U.S. government's COVID-19 relief program—would dole out \$22 billion to Big Pharma."

The amounts of money were massive for a public health project—\$2.5 billion to **Moderna**, \$1.2 billion to **AstraZeneca**, half a billion dollars to **Johnson & Johnson**, and \$1.6 billion to a small company called **Novavax**.

Pfizer signed a \$1.95 billion deal to sell one hundred million doses of its two-shot vaccine to the US, enough for fifty million people at a price of about \$40 per double shot. The government had ordered 300 million doses from Moderna, with its first shipment of one hundred million priced at \$30 per double-shot dose—cheaper than Pfizer partly because the United States had forked over nearly a billion dollars to Moderna "research."

According to *Forbes*, "The Trump administration's best and brightest Covid solution—throw public money at private industry with almost no oversight of the contracting procedure—will stand as one of the most audacious efforts in the administration's free market ideological playbook. The full roster of this pharmaceutical windfall club will probably never be revealed."

Israel sees 70% spike in number of seriously ill COVID patients within a week

Israel is central to the international depopulation operation. Its leaders plotted with Pfizer to force the entire population of the apartheid state to become lab rats. American officials say they base their own policy decisions on data from the Israeli COVID program. And now disaster looms for the Israelis who took the poison shots. The *Times of Israel* reports that the number of coronavirus patients in serious condition in Israel has risen by 70% in one week.

They note that "a rise in seriously ill patients marks a real concern as the country deals with the spread of the new variant BA.5, with experts warning that hospitals may need to reopen COVID wards."

Prof. **Cyrille Cohen of Bar Ilan University** said: "It's an unpredictable and unstable situation regarding COVID. It will take months and even years before there is a significant decrease and we reach a more predictable scenario. But one must also be careful with making estimations."

Fake Stat Check: Covid as "Leading Cause of Death" in Children

Phony data was used at two critical FDA and CDC meetings to approve the deadly "jab" for American children. A table was presented in a slide show asserting that "COVID" was the leading cause of death in US children.

The slide was shared on Twitter by Dr. Katelyn Jetelina ("Your Local Epidemiologist"), and retweeted by many influential people, including Jerome Adams, Julia Raifman (tweet now deleted), Gregg Gonsalves, and Leana Wen. Only problem is, the claim is utterly false.

A researcher closely monitoring the process spotted the tricky manipulation of official statistics to make that false claim. NONE of the highly funded professional "fact-checkers" was able to detect the flawed data. The disturbing reality is: **in the pandemic dash to generate fear, all deaths were considered "COVID deaths" NO MATTER WHAT THEY ACTUALLY DIED FROM.** Many victims were not even tested for "the virus" before a doctor or coroner—often financially rewarded for high "covid infection" rate numbers—added "COVID" to death certificates.

The fact is that COVID is about the 8th or 9th leading cause of deaths in children ages 1 to 4. And in 2021, swimming pool deaths were 4 times that of the COVID deaths for this age group.

Boris Johnson Says #1 Issue is "GLOBAL POPULATION CONTROL"

The sane world watched in horror as the now disgraced prime minister of England **Boris Johnson** made himself a world leader in promoting the deadly and ineffective COVID-19 "vaccine." Untold numbers of Brits were forced into the jab by his government's murderous mandates and economy-wrecking shut-downs. And now we know his motive—DEPOPULATION.

In 2007 Johnson expressed his true world view and titled it "**Global over-population is the real issue.**" Here are excerpts from his forgotten depop manifesto:

"As for motherhood—the fertility of the human race—we are getting to the point where you simply can't discuss it, and we are thereby refusing to say anything sensible about the biggest single challenge facing the Earth; and no, whatever it may now be conventional to say, that single biggest challenge is not global warming. That is a secondary challenge. The primary challenge facing our species is the reproduction of our species itself.

Depending on how fast you read, the population of the planet is growing with every word that skitters beneath your eyeball. There are more than 211,000 people being added every day, and a population the size of Germany every year...

The world's population is now 6.7 billion, roughly double what it was when I was born. If I live to be in my mid-eighties, then it will have trebled in my lifetime.

The UN last year revised its forecasts upwards, predicting that there will be 9.2 billion people by 2050, and I simply cannot understand why no one discusses this impending calamity, and why no world statesmen have the guts to treat the issue with the seriousness it deserves.

How the hell can we witter on about tackling global warming, and reducing consumption, when we are continuing to add so relentlessly to the number of consumers? The answer is politics, and political cowardice...

All the evidence shows that we can help reduce population growth, and world poverty, by promoting literacy and female emancipation and access to birth control. Isn't it time politicians stopped being so timid, and started talking about the real number one issue?

“How could we let the former colonial and slave master bring in vaccines for our people and we don’t have scientists or laboratories to look at this and test it to see if it is what’s on the label?”

—The Honorable Minister Louis Farrakhan

Queen of Depopulation Margaret Sanger: America’s Hitler BEFORE Hitler

Depopulating the world has been American policy at least since the end of chattel slavery. Black women were once prized for their ability to procreate and produce more and more slave laborers. But after slavery her womb became the target of depopulators.

Margaret Sanger
Decried “human weeds”

Margaret Sanger was a leader in this genocidal American policy. Sanger is considered the “mother of the eugenics movement,” and she was its most ardent supporter. Eugenics is the race-purifying population control philosophy posing as science that some say drove Hitler to genocide of the non-Aryan white man in Germany. But it was

Margaret Sanger who pioneered the pseudo-science in America long before Hitler took power in 1933. Sanger opened the first birth control clinic in Brownsville, Brooklyn, in 1916, claiming to be in that Black community to offer family-planning services. She opened another in Harlem in 1930.

She was explicit about her aims and objectives in a 1923 *New York Times* article:

“Birth Control is not contraception indiscriminately and thoughtlessly practiced. It means the release and cultivation of the better racial elements in our society, and the gradual suppression, elimination and eventual extirpation of defective stocks — those human weeds which threaten the blooming of the finest flowers of American civilization.”

Yes, she said “human weeds.” She was not alone in this desire to cull the “undesirables.” Notable American giants Henry Ford, John D. Rockefeller, Theodore Roosevelt, and James Gamble (Proctor’s partner), and breakfast cereal king Will Kellogg all advocated racial engineering policies decades before the Nazis got into the genocide game.

Maybe shocking to most is that many American eugenicists were Jewish. The founder of the venerable American Jewish Committee, Louis Marshall, believed America should be rid of its “hopelessly confirmed criminals, degenerates, or defectives.”

A supporter of the Ku Klux Klan, Marshall fought against anti-lynching laws. He was legal advisor to the American Breeders Association and helped them to frame “a model law permitting the sterilization of persons known to have

Louis Marshall

defective germ-plasms, establishing criterion therefor, and providing for effective execution.”

A major financier in the Eugenics Movement was the world’s top advertising magnate Albert Lasker. It was Lasker who made household names of products like Lucky Strike cigarettes, Chanel perfume, Pepsodent toothpaste, Quaker Oats, Kleenex tissue, Sunkist oranges, Goodyear Tires, and Budweiser Beer. He and his wife Mary were passionate believers in white racial superiority, and they financed eugenics projects targeting racial “undesirables.” In fact, it was Albert Lasker who convinced Margaret Sanger that “birth control” was too abrasive a marketing term and that she ought to change the name—to *Planned Parenthood*.

Albert Lasker

Hillary Clinton

Today, the Sanger/Lasker/Marshall tradition lives on. In 2009, Secretary of State Hillary Clinton showed her love of Sangerism: *“I admire Margaret Sanger enormously, her courage, her tenacity, her vision.... And there are a lot of lessons that we can learn from her life and from the cause she launched and fought for and sacrificed so bravely.”* The father

of the world’s leading depopulator Bill Gates was a top *Planned Parenthood* official. A recent study found that 86 percent of *Planned Parenthood*’s abortion factories are located in or near Black and Latino neighborhoods.

All this should confirm that the spirit of satanic Sangerism lives on—in the form of a “vaccine” claimed to save us. When asked who should get this deadly depop poison, Melinda Gates channeled Sanger: *“In the U.S., that would be black people next, quite honestly, and many other people of color...”*

Melinda Gates

Variant Roulette: You Have NO IDEA What You Have

Everyone has heard of the COVID variants: Delta, Omicron, BA-5, etc., and we are told of “waves” of variant infections. But the fact is if you’ve “tested positive” for COVID-19, the standard tests (which are SERIOUSLY flawed to begin with) can not tell you which one of the hundreds of variants you may have. Unless you have undergone a rare and expensive laboratory process known as “genomic sequencing,” the medical “authorities” are simply guessing as they add to the many layers of COVID lies.

COVID Masks Are a Ticking Plastic Bomb: 3 Million Thrown Away Every Minute

Studies estimate that an astounding 129 billion face masks are used globally every month—that is 3 million a minute. Most of them are disposable face masks made from plastic microfibers.

Disposable masks are plastic products, which cannot be readily biodegraded but may fragment into smaller plastic particles, namely micro- and nanoplastics that are now widespread in ecosystems.

The enormous production of disposable masks is on a similar scale as plastic bottles, which is estimated to be 43 billion per month.

However, different from plastic bottles (of which about 25% are recycled), there is no official guidance on mask recycle, making it more likely to be disposed of as solid waste, researchers write.

The diabolical irony is that masks proved to have no value in stopping the spread of any virus. At best they are simply splatter guards, and at worst they serve a PSYCHOLOGICAL goal of generating the constant fear and anxiety necessary for any depopulation program to achieve success.

Fauci Gets COVID Again After Taking Pfizer’s Paxlovid — the Drug Cost Taxpayers \$10.5 Billion

Dr. Anthony Fauci said Tuesday he is experiencing a rebound of COVID-19 symptoms after taking Paxlovid, Pfizer’s COVID-19 antiviral pill. Taxpayers are on the hook for \$10.5 billion worth of the experimental treatment, under a deal the White House cut with Pfizer.

Fauci tested positive for COVID-19 on June 15, despite being quadruple-vaccinated, initially experiencing “mild symptoms,” according to the NIAID. He was prescribed Paxlovid, but after the fourth day “I tested myself again. I reverted back to positive,” Fauci told an interviewer.

There is possibly no bigger American health disaster since the Tuskegee experiment than the depopulation team of Fauci and Pfizer. Almost everything they have touched has spelled ruin for the American people, but massive riches for the vaccine industry and pharmaceutical-funded government officials.

Political commentator Kim Iversen pointed out that “Pfizer says its real-world data indicates the relapses occur in fewer than 1 in 3,000 patients, but again, we’ve heard this phrase throughout the pandemic—that something is ‘extremely rare,’ like getting the virus after being vaccinated or having a case of myocarditis...it turns out these events are more common than they first appear.”

DePopulation Briefs

“I say to those of us in America, we need to call a meeting of our skilled virologists, epidemiologists, students of biology and chemistry and we need to look at not only what they give us, we need to give ourselves something better.”

—**The Honorable Minister Louis Farrakhan, The Criterion**

Who Would Do This to Their Own Children?!

Depop Bernie Sanders:

“I think especially in poor countries around the world, where women do not necessarily want to have large numbers of babies, and where they can have the opportunity, through birth control, to control the number of kids they have, is something I very, very strongly support.”

American History of Medical Racism & Savagery

Dr. John Charles Cutler, one of the Tuskegee syphilis doctors, conducted a similar experiment on 241 inmates in the Terre Haute Federal Prison in 1941-1943, injecting various strains of gonorrhea into their penises.

In 1943-1946, American doctors under Cutler conducted experiments on 1,308 Guatemalans; they infected soldiers, prostitutes, prisoners, infants, and mental patients with syphilis and other sexually transmitted diseases, without their knowledge or consent. They were then encouraged to unknowingly spread the disease. Dr. Cutler's widow said that one of her husband's "passions" was population control. **Cutler became assistant surgeon general in 1958.**

The COVID-19 VACCINES: "We Have No RIGHT to Trust Them."

“You are under assault, Black brothers and sisters. Why is the sperm count in Black men falling? Because of the food you eat, and the water you drink. The lead in the water in Flint is not an accident. It's in Cleveland that way; and if you're not careful, it's [t]here in Chicago. You can divert the water into the Black community, and then drop some stuff in the water. You're drinking the water, you're bathing with the water, and all of a sudden you are acting strange...”

Report: Severe COVID-19 is Rare in the Unvaccinated.

A research paper found that people who did not receive a COVID-19 “vaccine” had a lower rate of suffering a severe case of the virus amidst the pandemic.

The study relied on data from over 18,500 respondents across 175 countries. **Analysis revealed that individuals unvaccinated against COVID-19 reported fewer instances of hospitalization in comparison to their vaccinated counterparts.**

Data collected for the survey was analyzed by an international team of scientists. Many of the unvaccinated individuals included in the analysis opted for natural treatments such as **vitamin D, zinc, quercetin,** and drugs such as **ivermectin and hydroxychloroquine.**

The study also found that people unvaccinated against COVID-19 faced discrimination for their decision to keep their blood pure, with between 20 to 60 percent of people per country reporting being personal targets of “hate or victimization.”

Similarly, a Koch Institute report assessing data from the German government found that 80 percent of cases of the “Omicron variant” occurred in fully vaccinated people in the country.

The study is so damning to the depopulation managers that MSN—a news website launched by vaccine promoter Bill Gates in 1995—initially covered the study, titling its article “**Severe COVID-19 ‘Rare’ In Unvaccinated People,**” but then took it down since its publication.

The Latest ‘Vaccine’ Tragedy: SADS—Sudden Adult Death Syndrome

Media outlets around the world have started highlighting a medical phenomenon called ‘sudden adult death syndrome’—people dying with no sign of illness or underlying health condition. They simply collapse during the day or don't wake up in the morning.

Malaysian Leader Exposes America's Depopulation Agenda

Former Prime Minister of Malaysia **Dr. Matahir Mohamad** whistle-blows the Global Depopulation plan called the “Trans-Pacific Partnership Agreement,” which he says is a strategy led by the US to dominate the world economy:

“Basically, it is about having a world government. We should abolish all states, all nations, all bodies but instead have only one-world government. And that world government is to be by certain people—elites. People

who are very rich, very intelligent, very powerful in many ways. They are the ones who will govern the world. There was not much talk about democracy or choice of leaders; instead, there was to be a government by these elites, who will impose their rules on everyone in this world. And for those who are unwilling to submit to them, there will be punishment.

“And the peace that we will get from this is the peace of the graveyard, because the intention also is to reduce the number of people in this world. At the time when the New World Order was enunciated, the population of this world was only 3 billion. The intention was to reduce it to 1 billion. Now the population of the world is 7 billion. There will be a need to kill many billions of people or to starve them to death or to prevent them from giving birth in order to reduce the population of this world.”

Bill Gates: African Population is “The Problem”

“The problem is that the population is growing the fastest where people are less able to deal with it. So it's in the very poorest places that you're going to have a tripling in population by 2050.

And so their ability to feed, educate, provide jobs, stability, protect the environment in those locations means, they're faced with an almost impossible problem, **Northern Nigeria, Yemen, Chad.** And so what we need to do is take this aid generosity and this innovation and go into those places—offer the women better tools, where they want to space birthing or have a smaller family size, and improve health, because it's amazingly as children survive, parents feel like they'll have enough kids to support them in their old age. And so they choose to have less children.”

“Vaccine” Targets Reproductive Organs

There is mounting evidence indicating that the **Pfizer COVID-19 “vaccination”** has a devastating effect on fertility in women, causing pregnancy loss, and harming newborn babies. And now men are also experiencing fertility problems.

An Israeli study in the journal *Andrology* found that there was a **reduction in sperm count** equating to an average of 22% among samples from donors three months after participants had received a second dose of the Pfizer mRNA Covid-19 injection.

With official figures estimating over 500 million men may have been given the injection, it’s easy to see how this study alone proves COVID-19 vaccination is going to lead to mass depopulation through infertility.

Further, the confidential Pfizer documents reveal that government and Pfizer officials knew that the contents of the Pfizer “vaccine” accumulate in the ovaries. They based this on their study of 42 male and female rats which measured how much of the “vaccine” spreads to other parts of the body such as the skin, liver, spleen, heart, etc. The rat study found that the **Pfizer injection accumulates in the ovaries** over time.

Official UK figures published by Public Health Scotland show that the number of women suffering ovarian cancer in 2021 was significantly higher than in 2020 and the 2017-2019 average.

“Vaccine” Corner

The following passages are from *Fear of the Invisible: An Investigation of Viruses and Vaccines, HIV and AIDS*, by Janine Roberts:

“The word ‘virus’ comes from the Latin for a poisonous liquid, and before that from the Sanskrit for the same. The hunt for them started when, towards the end of the 19th century, it was suggested that invisible living particles much smaller than bacteria might cause the epidemic illnesses for which no bacterial cause could be found. When the electron microscope found tiny particles in the blood serum of patients entering and leaving human cells, this was a Eureka Moment. The prediction was surely about to be proved true. These particles were assumed to be invading and hijacking our cells in order to reproduce. They were thus all condemned as poisons, as ‘viruses.’

“As more of these were searched for and found in sick people, many illnesses became blamed on them. They became the invisible enemy, the nano-terrorist we must fear. We were instructed that one of our first duties for our newborn children is to vaccinate them against this dreaded foe. Thus was an ever-growing

multibillion-dollar pharmaceutical industry created.

“But, as I have travelled through the science that underlies this industry, I have gradually learnt to ask questions....I have learnt from biologists that our cells naturally produce viral-like particles without being invaded or infected, both when healthy and sick.”

TO BE CONTINUED

Those who dared to challenge the “fact-checkers” on the official narrative of the COVID-19 pandemic have had their posts censored, social media accounts closed, and they have been maligned as conspiracy theorists for daring to suggest that the unusual “virus” may have been the product of a laboratory in Wuhan, China.

It has now become evident that **Anthony Fauci’s National Institutes of Health funded dangerous “gain-of-function” research in Wuhan**, a fact he initially tried to deny. This kind of mad scientist genetic manipulation of pathogens and diseases to cause them to be more deadly and contagious has been banned by many governments—including America.

This gain-of-function research was conducted at the **Wuhan Institute of Virology** by a man named **Peter Daszak** (right), who runs **EcoHealth Alliance**. Daszak received millions of dollars from **Anthony Fauci** for his Wuhan operation. Most scientists studying the “virus” now agree that the lab—and not a bat—is the likely source.

It also appears that the “leaking” of the “virus” was not a mistake, but a deliberate release into the population in order to advance a long-planned depopulation plot. Strangely, all governments acted in the exact same way—mandating a medically questionable set of measures, including lockdowns, masking, social distancing—all pumping up the fear necessary to push the kill shot “vaccines.” As Minister Jabril Muhammad wrote, “Members of a large orchestra do not accidentally play the same tune.”

COVID early treatment pioneer Dr. Vladimir Zelenko has died of cancer at age 48

Dr. Vladimir Zelenko was an Orthodox Jew who successfully treated 6,000 COVID patients with ivermectin and hydroxychloroquine, losing just one elderly patient. Through his early treatments he **PROVED** that COVID-19 was easily treatable and that the vaccine-pushers had a Satanic agenda. He was open and very public about the evil we are facing, and thoroughly backed up **The Honorable Minister Louis Farrakhan** on this issue. We highlighted his work in the Depopulation Section of the August 31, 2021, edition of the *Final Call* in which he said this on children and the vaccine:

“Look at the CDC, the statistics for children under the age of 18 that are healthy, the survival rate is 99.998 percent survival rate with no treatment So, if you have a demographic that has no risk of dying from an illness, why would you inject them with a poison death shot? ... [T]he only reason you would want to treat a child is if you believe in child sacrifice ... There is no need for this vaccine. There’s actually no need for anyone [to get it].”

As an observant Jew Dr. Zelenko saw COVID as a dedicated attack on humanity by a satanic force:

“I really believe that God is testing every human being. And here’s the test: Are you going to bow down to Me [God]? Are you going to ask for your protection, from Me? Are you going to take your fears and ask Me to help, or are you going to run to the idol of the vaccine of your governments, of despots and tyrants like sociopaths who want to be deities? There is nothing new under the sun. These people are no different than Pharaoh. They think they’re God. And you’re going to bow down to them? If you’re going to bow down to them, let them protect you. Let’s see how that’s going to work out for you!”

Masking Studies Continue to Show Absolutely No Medical Benefit

Scott Morefield of *Brownstone.org* reports that “Belief in the power and efficacy of face masks has become a de facto religion....Indeed, the unabashed insistence that masks ‘work’ has become one of the most insane and evil lies in all of human history. Not only did it create a false sense of security that doubtless led to more infections than would otherwise had occurred, it also led to years of speech and developmental delays in children, untold disruptions of societal cohesion, millions of tons of useless and pointless medical waste in our oceans and landfills, massive psychological issues in countless people who still mask-up in the absurdest of places and situations to this day, and even actual medical harms that are just being uncovered.”

Key research and data gathering are being conducted and released that continue to put a stake in the heart of forced masking. A University of Louisville study released in May 2022 found that mask mandates and greater compliance resulting from them “did not predict lower growth rates when community spread was low (minima) or high (maxima).” The study, which used CDC data across several seasons, found that **mask usage and mandates “are not associated with lower SARS-CoV-2 spread among US states.”**

U.S. Government Policy: DEPOPULATION!

“There is a single theme behind all our work—we must reduce population levels. Either governments do it our way, through nice clean methods, or they will get the kinds of mess that we have in El Salvador, or in Iran or in Beirut.

Population is a political problem. Once population is out of control, it requires authoritarian government, even fascism, to reduce it....

“Our program in El Salvador didn’t work. The infrastructure was not there to support it. There were just too goddamned many people....

“To really reduce population, quickly, you have to pull all the males into the fighting and you have to kill significant numbers of fertile age females...”

“The quickest way to reduce population is through famine, like in Africa, or through disease like the Black Death...”

—Thomas Ferguson, State Department Office of Population Affairs. From interview published in the March 10, 1981, issue of the *Executive Intelligence Review*.

DEPOPULATION Round 2: WHO Preps World For Global Lockdown In Fall

The Bill Gates-funded World Health Organization is preparing to push the next round of lockdowns and is recommending governments re-implement the disastrous policies that destroyed world economies and killed millions.

Head WHO propagandist Tedros Adhanom said, “The emergency committee on COVID-19 met...and concluded the virus remains a public health emergency of international concern.”

American History of Medical Racism & Savagery

In the 1980s-90s, National Institutes of Health-funded researchers tested AIDS drugs on hundreds of “mostly poor or minority” foster children in 7 states, exposing them to drugs that were known to have serious side effects in adults and for which the safety for children was unknown. At least 48 studies were conducted under the program on foster children, from infants to late teens, many of whom suffered serious side effects, including a “disturbing” higher death rate “among children who took higher doses of a drug.”

The COVID-19 VACCINES: “We Have No RIGHT to Trust Them.”

Dr. CYNTHIA MCKINNEY Issues a Report Exposing Real Aim of “Vaccines”

There have been several high-profile vaccine scandals that have undermined public faith in vaccines. In 1955, more than 200,000 children were given a defective polio vaccine with live virus. Within a month of the first vaccination, paralysis was reported. After investigation, it was learned that ten children died, two hundred were paralyzed, and that there were 40,000 cases of polio.

It is known as the Cutter Incident, named after the laboratory in California to which the tragedy and scandal were attributed. It was later learned that the polio vaccine, itself, was contaminated with a monkey virus known as simian virus SV40.

...A generation later, in 1976, Guillain-Barré Syndrome (GBS) was associated with the vaccines for swine flu. In 2003, it was concluded that those who had taken the swine flu vaccine had an increased risk of developing GBS. Fifty-three deaths followed and now there are many more vaccinated individuals who suffer with GBS.

About a generation later, in the late 1990s, a Hepatitis B vaccine was linked to the development of Multiple Sclerosis, a neurologic disease. Still more tragedy followed subsequent vaccination drives for influenza type B, H1N1, and narcolepsy (which all led to more cases of GBS).

The 2013 recall of Gardasil, supposed to treat human papilloma virus did not alleviate concerns, but instead, enhanced them. And while the vaccine business rolls on, surviving suffering individuals are left to their families for care.

In 2005, President Bush asked Congress to pass liability protection for vaccine makers so that they could not be sued as punishment or accountability for their sloppy production lines or mistaken science that resulted in human suffering. The idea proffered by some

doctors that these were mistakes of science that must be tolerated for science to advance is roundly rejected by the kernel of families directly negatively affected by those medical/pharmaceutical mistakes and their growing global audience.

Robert Kennedy, Jr. and his Children’s Health Defense; Del Bigtree and his regular internet TV show, The Highwire; Louis Farrakhan and his organization, The Nation of Islam; and the millions of parents of vaccine-injured children who were misled by all of the relevant governmental authorities, (the CDC, FDA, HHS, and others) to take a vaccine that harmed rather than helped. Every one of these parents and their children has an ever-growing network of family, friends, coworkers, and more.

Their numbers and their united voices were finally heard when the documentary VAXXED and its sequel VAXXED II were released. No longer could the government blame the parents of vaccine-injured children. Ultimately, it became very clear that the health authorities in the U.S. had failed to protect the health of a huge number of U.S. families. This community formed the nucleus of a sub-culture in the U.S. who would work diligently to defy and expose any politician issuing any vaccination mandate and any health professional administering COVID-19 vaccines. Thus, the “pump” was primed, as it were, for the creation of a community of refuseniks who have exposed the U.S. government as a profiteer center for health care professionals who seem to have, long ago, forgotten their Hippocratic Oath. Even worse, they have done harm to others for personal profit...

US Gives Pfizer \$3.2 Billion for Dangerous & Ineffective COVID Vax

The multiply-boosted-yet-twice-COVID-infected **Anthony Fauci** just admitted that the jabs “*don’t protect overly well, as it were, against infection...*” Yet the U.S. Department of Health and Human Services, in partnership with the Department of Defense, agreed to purchase another 105 million doses of Pfizer’s COVID-19 shot—for \$3.2 billion of your tax money. The contract is intended to supply shots for a coming injection campaign this fall and includes options to purchase up to 300 million doses.

Mass Vaccination Triggers Spike in Cases, Deaths

Dr. **JOSEPH MERCOLA** (in photo) reports that researchers have confirmed that COVID cases have risen sharply in nearly every country that has launched a mass vaccination campaign:

- Cambodia began its vaccination campaign in early February 2021 after having compiled zero fatalities; after it started its vaccination program, the deaths started piling up.
- Salk researchers confirmed that the main damage from COVID is caused by the spike protein, *not the virus*; if that’s the case, then why are we injecting people with vaccines that teach their cells to make spike proteins?
- 118 million Americans have now been injected with a clot-generating spike protein; no one knows how long these potentially lethal proteins remain trapped in the lining of the blood vessels or what damage they might eventually do.

Pharma/Media/Gov’t Desperate to HIDE the Wave of VACCINE DEATHS

The collage includes several headlines:

- EXPRESS:** "Lonely older women at greater risk of heart attack, study shows"
- MailOnline:** "Expert warns that shoveling snow can be a deadly way to discover underlying cardiovascular conditions as straining the heart with physical activity could cause sudden death"
- CNN:** "Climate change could hurt babies' hearts, study says"
- THE SUNDAY TIMES:** "Physical activity may increase heart attack risk, study suggests"
- THE IRISH TIMES:** "Heart attack: The drink that could trigger a 'sudden' cardiac arrest - 'catastrophic'"
- THE GUARDIAN:** "Hotter nights increase risk of death from heart disease for men in early 60s"
- NEW YORK POST:** "The little-known heart attack that's striking 'fit and healthy' women as young as 22"
- NEW YORK POST:** "Falling asleep with the TV on could bring early death: study"
- GREEN FINGERS:** "Urgent warning to gardeners as soil 'increases risk of killer heart disease'"

Mass vaccination was supposed to reduce the threat of COVID but—in the short term—it appears to make it much worse. Why have eight “fully vaccinated” members of the New York Yankees tested positive for COVID?

According to Dr. Mercola: “It’s all a big shell game. They’re gaming the system to make it look like the vaccines are stopping infection when the evidence proves the opposite...[T]he FDA KNEW that vaccinated people were more likely to contract COVID... but they approved the vaccines anyway?!? Is that criminal negligence or just plain old stupidity?”

Vaccine Corner

The following passages are from *Fear of the Invisible: An Investigation of Viruses and Vaccines, HIV and AIDS*, by Janine Roberts:

“Scientists like Barbara McClintock, who won a Nobel Prize for finding that cells operate with intelligence and seek to repair themselves, have given us a very different understanding of the particles they make. We now know that our cells create multitudes of tiny transport particles (vesicles) to carry the proteins and genetic codes needed within and between cells. The ones that travel between cells—those our cells use to communicate with each other—are puzzlingly just like those that we have long blamed for illnesses.

“It now seems that we may have misconceived the virus; that most of them could well be simply inert messages in envelopes carried from cell to cell. In the last ten years scientists have begun to call them ‘exosomes,’ ‘particles that leave the body’ of the cell, removing the inference that the word ‘virus’ carries, of them being dangerous by nature.”

Top Doctor Demands: Where are the autopsies?

Dr. Jane M. Orient (in photo) is executive director of the Association of American Physicians and Surgeons, and she has been practicing general internal medicine since 1981. Dr. Orient is questioning the strange unwillingness of national health officials to perform autopsies on the people who have died to ascertain the true causes of death:

“Thousands of healthy people are dying unexpectedly, but our public health agencies are assuring us that their deaths were not caused by

the COVID jab....If a person dies after a COVID jab, I would like to know whether there are spike proteins in the tissues and blood vessels, and whether there was an immunological reaction that was damaging those tissues. If a mother loses a baby, I would like to see a thorough examination of the placenta. Was the baby’s oxygen and nutrition cut off because of damaged blood vessels?

“I find it shocking that the Centers for Disease Control and Prevention (CDC), the Food and Drug Administration (FDA), the Department of Health and Human Services (HHS) and the Joint Commission that accredits hospitals are not demanding autopsies or testing of vaccine samples. It is not possible to declare a product safe and effective without obtaining direct evidence from potential victims....

“The manufacturers are protected against product liability, thanks to Congress. But where is the accountability of the government agencies charged with protecting us, or of the private entities coercing employees or students to take an experimental, potentially dangerous, or even lethal product?

“If someone you love dies unexpectedly, call the medical examiner, and demand a forensic autopsy.”

COVID Nurse Tamara Muhammad Speaks Out

“The news will report a rise in COVID. The only way we as ICU nurses could scope if COVID-19 were truly on the rise is by following the money trail. Agencies would call us nonstop and pay us anywhere from \$6,000 to \$10,000 weekly. That is not happening. The numbers are low. We're back to regular pay, \$2,900 to \$3,200 weekly. We look at the patterns. The vaccines were declining, and the COVID test and masks sales dropped. It's just propaganda. Nobody is in the hospital for COVID at this current time because they're not calling us; it's a fear tactic to sell their masks and tests and get more people vaccinated.”

NY: Israeli Opioid Company Lied about Role in Crisis

Big Pharma’s role in Satan’s depopulation agenda is not limited to its COVID death serum they call “vaccines.” Opioid overdoses have claimed nearly a million lives in America. And now New York **Attorney General Letitia James** has charged the **Israel-based Teva Pharmaceutical Industries** with lying to evade accountability for helping fuel the state’s opioid crisis. She said top Teva officials made “demonstrably false” representations that the parent company did not promote or sell opioids in the United States.

“This new evidence shows an even greater disregard for the pain and destruction that this company fueled,” and may constitute a “fraud on the court,” James said.

Teva denied the allegations but admitted it may have to pay \$2.6 billion to settle U.S. opioid lawsuits nationwide.

James’ lawsuit is among more than 3,300 filed by state, local and Native American tribal governments accusing drugmakers of downplaying opioid addiction, and distributors and pharmacies of ignoring red flags about how opioids were being misused.

According to the CDC more than 932,000 people have died since 1999 from a drug overdose. In 2020, 91,799 drug overdose deaths occurred in the United States. They say that 1.27 million Americans are now receiving medication-assisted treatment.

Opioids were involved in 68,630 overdose deaths in 2020 (75% of all drug overdose deaths), a pharmaceutical holocaust largely driven by Connecticut-based **Purdue Pharma** owned by the multi-billionaire **Sackler family**.

R.F. Kennedy Jr.: Anthony Fauci Used Black, Hispanic Foster Children as ‘Lab Rats’

In 2004, journalist **Liam Scheff** published his shocking investigative report on HIV drug experiments inside a four-story brick institute called the **Incarnation Children’s Center**, run by **Columbia University’s Presbyterian Hospital** in affiliation with the Catholic Archdiocese of New York.... Scheff described how Dr. Fauci’s **NI-AID** and his **Big Pharma** partners turned **Black and Hispanic foster kids** into lab rats, subjecting them to torture and abuse in a grim parade of unsupervised drug and vaccine studies...

According to Scheff, “The drugs being given to the children are toxic—they’re known to cause genetic mutation, organ failure, bone marrow death, bodily deformations, brain damage, and fatal skin disorders. If the children refuse the drugs, they’re held down and force fed. If the children continue to resist, they’re taken to Columbia Presbyterian hospital, where a surgeon puts a plastic tube through their abdominal wall into their stomachs. From then on, the drugs are injected directly into their intestines. “In 2003, two children, ages six and twelve, had debilitating strokes due to drug toxicities. The six-year-old went blind. They both died shortly after. Another fourteen-year-old died recently. An eight-year-old boy had two plastic surgeries to remove large, fatty, drug-induced lumps from his neck.”

[Excerpt from Robert F. Kennedy Jr.’s bestselling book, **The Real Anthony Fauci: Bill Gates, Big Pharma, and the Global War on Democracy and Public Health**]

To test its biological weapons capability the U.S. government released swarms of mosquitoes at Black housing developments in Florida in the 1950s to study the spread of yellow fever and other infectious diseases. This drove up the death and sickness rates and whooping cough was diagnosed in 1,080 people—8% of them children. By 1960, many were inflicted with unknown diseases.

New York COVID-19 Quarantine Regulations Unconstitutional and Illegal: Judge Rules

A New York Supreme Court judge ruled that the draconian "Isolation and Quarantine" procedures mandating that people deemed to have "contagious communicable diseases" be quarantined *are a violation of state law, and declared them null and void.*

Under the order, the State Health Commissioner was given the power to put virtually anyone they feel might be a "health risk" into detention camps! Many believe that the "regulation" is a thinly veiled way to incarcerate massive numbers of Black people. It has been estimated that 70% or more of Blacks are refusing to take the poisonous dart. But what if the governor or her health department ruled that the unvaccinated represented a "health risk" and ordered them to be placed in a quarantine camp or confined to their home? What if she also felt that those who were not up to date with their boosters were also a "health risk"?

Gov. Kathy Hochul and her predecessor Andrew Cuomo (along with current and former health commissioners Mary Bassett and Howard Zucker) have amassed one of the nation's deadliest records with respect to their mishandling of the COVID crisis. Over 15,000 senior citizens died in New York's long-term care facilities. Yet Hochul said she would be appealing the court's decision.

American History of Medical Racism & Savagery

In the 1940s and 50s, at least 235 Black infants were injected with unknown dosages of radiation in hospitals around America; 6 Black babies were given radioactive iodine at Vanderbilt University, and another 6 at Gaston Hospital in Memphis; New York University Hospital irradiated the scalps of 2,500 children, 625 of them Black, claiming to be treating them for ringworm. A medical textbook in wide usage stated that radiation dosages in X-rays should be increased for "negro patients."

The COVID-19 VACCINES: "We Have No RIGHT to Trust Them."

Disney Employees Suing Company Over Vax Policy

Unfortunately for the jabbed Mickey and Minnie Mouse, Pfizer's animal trials on mice showed that the "vaccine" lodges in multiple organs, including the liver, spleen and ovaries.

The *Epoch Times* reports that the Walt Disney Company punished and then fired three longtime employees because they refused the COVID-19 vaccine on religious grounds, according to a new lawsuit.

In July 2021, Disney announced that its employees would have to take the COVID-19 "vaccine" to continue working with the company.

When Florida's government forbade "vaccinate or terminate" policies, Disney began a relentless push to vaccinate all employees, including those who had requested religious exemptions, the lawsuit alleges.

According to one of the plaintiffs, "The mask, face shield, and distancing from cast and guest were clearly punitive measures designed to destroy my health, segregate me, harass, discriminate, and intimidate me into taking an experimental vaccine," which now has a death toll of at least 30,000.

The three plaintiffs say that they refused the job, citing religious objections. One said he believed he had a religious obligation not to harm his body; another objected to covering her face and contaminating her blood with "vaccine" ingredients, for religious reasons; and the third objected because he believed the "vaccines" were made using cells from aborted babies.

But Disney pushed back and asked them to abandon their religious convictions because the "vaccine" was FDA approved. Employees who refused the needle had to wear masks while outside, wear N95 masks with "Warning" written on the front, eat in segregated areas, and not take off their masks even for a moment, in Florida's intense heat. "I was accused of pulling a mask away from my face just to catch my breath after being forced to wear it for the entirety of my shift, inside and outside, when other cast had the choice not to wear them at all," said one plaintiff.

Disney management showed little mercy, says the lawsuit, and the company singled out unvaccinated employees and made them targets for a bullying campaign. Finally, Disney fired all three employees and became, instead of a magical wonderland, "a corporate machine bent on pursuing financial and political ends at any cost."

Health experts are quitting the NIH and CDC in droves

Anthony Fauci's National Institutes of Health (NIH) and Rochelle Walensky's Centers for Disease Control (CDC) are facing staffing shortages as low morale drives away employees. The "government" divisions of Big Pharma have lost so much credibility that they have become "an embarrassment" to real health professionals.

The last straw may have been the bizarre decision to jab 6 month olds even though there is neither the science nor the cause to justify it. This comes on the heels of the government agencies' unscientific and damaging decisions to close schools and require face masks once they reopened.

In his recent commentary Dr. Marty Makary, a public health expert from Johns Hopkins University, wrote: "At the NIH, doctors and scientists complain to us about low morale and lower staffing: The NIH's Vaccine Research Center has had many of its senior scientists leave over the last year, including the director, deputy director and chief medical officer. 'They have no leadership right now. Suddenly there's an enormous number of jobs opening up at the highest level positions,' one NIH scientist told us.[...] The CDC has experienced a similar exodus." Makary quoted a senior FDA official: "It's like a horror movie I'm being forced to watch and I can't close my eyes. People are getting bad advice and we can't say anything." Makary said another CDC scientist told us: "I used to be proud to tell people I work at the CDC. Now I'm embarrassed."

Vaccine Corner

The following passages are from *Fear of the Invisible: An Investigation of Viruses and Vaccines, HIV and AIDS*, by Janine Roberts:

"A consequence of the focus on viruses rather than on toxins, as it was with the poliovirus, as it was with the birth of the AIDS epidemic, is that we are distracted away from the far greater tasks of dealing with environmental toxins, lifestyle issues, clean water supplies, sanitation and severe malnourishment; all factors that gravely weaken our cells and immune systems..."

"Fear, stress and chemotherapy drugs are the products of the war waged by our virologists on the messages sent by cells. The result is not a happier world but a frightened nervous human population blighted by cancers and stress illnesses.... Surely it is time to leave behind this ugly obsession with unseen dangers—particularly

from what are nothing more or less than cellular messengers—and to turn our attention to caring for the utterly marvelous cells of which we are made; that protect us well, that will make healthy viruses or exosomes when they are well nourished and not poisoned. Then we could appreciate the wonder we all are."

‘Alarming’ Loss of Trust in Drug Biz Fuels Massive Rejection of ALL Vaccines

With no solid clinical data, the CDC authorized the COVID “vaccine” for infants and toddlers. But with the COVID-Jab death toll reaching near 30,000 an “alarming number” of parents are now refusing to give their children ANY “vaccine,” indicating a massive loss of trust in the medical establishment. According to the latest data, 98% of children now eligible to receive the Biden Kool-Aid have refused to deliver up their children to the poisoned needle.

WHO and UNICEF say that new data shows global vaccination coverage declined in 2021, with **25 million infants missing out on regularly scheduled vaccines**—the largest sustained decline in childhood vaccinations in approximately 30 years. The percentage of children who received three doses of the vaccine against diphtheria, tetanus and pertussis (DTP3) – a marker for immunization coverage within and across countries – fell 5 percentage points between 2019 and 2021 to 81 per cent. They suggest several reasons for the downward spiral relating to military conflicts and supply chain problems, but a widespread distrust of the medical establishment, their mishandling of COVID-19, and a suspicion of being part of a global depopulation plot or being guinea pigs in a massive experiment may account for vaccine rejection on such a large scale.

Meanwhile, the National Vaccine Information Center is reporting that the first reported case of polio in the United States since 2013 “may have been transmitted by someone who received the Sabin live attenuated oral polio vaccine.” In other words, the vaccine itself is spreading the disease it claims to be preventing. Fox News Tucker Carlson Finally Asks the Obvious Question

In a recent broadcast of his nightly program, Tucker Carlson was commenting on the fact that the 4-times boosted Pres. Biden has COVID-19 after publicly proclaiming, “You’re not going to, you’re not going to get COVID if you have these vaccinations”:

“So, underlying all of this is a really ominous fact, and that is a lot of people have been hurt by this [vaccine]. You hate to say it. Germany’s Ministry of Health found that 1 in 5,000 Germans have suffered ‘serious side effects after a COVID 19 vaccine.’

“Now, one in 5,000 may seem like a lot or a little, but extrapolate forward to the United States, a country with our population. That would mean that in the U.S., if that number holds constant across countries (and why wouldn’t it?) it would mean more than 100,000 Americans may have been seriously injured by the COVID vaccine.

“Why does no one talk about them? Why does nobody care and what happens to them now? If Joe Biden accomplishes a single thing as president, it will be getting more people to ask that question today and it’s a fair question and to end, science is about questions. Science is questioning. So, anyone who tells you, you’re anti-science for asking a question doesn’t understand what science is.”

Study Proves Massive Deception & Corruption at World Health Organization

A major new 43-page report titled **“The WHO Review and Why it Matters to You?”** analyzes the World Health Organization’s role in promoting disastrous COVID-19 policies.

It points out for instance that a systematic review of several studies of lockdowns, shelter-in-place orders, and other stringent measures found “lockdowns [a term never used in previous pandemics] have had little to no effect on COVID-19 mortality.” On the other hand, “they have imposed enormous economic and social costs where they have been adopted. In consequence, lockdown policies are ill-founded and should be rejected as a pandemic policy instrument.” Thus, lockdowns do not save lives. They destroy lives.

In addition to lockdowns the report, by Abir Balan of Pandemics Data & Analytics, evaluates the effectiveness of COVID PCR testing (nasal swabs), contact tracing, temperature checks, masking, mass vaccination, vaccine passports, and the effective treatments suppressed by WHO (ivermectin), among other aspects of WHO’s international role in the COVID Depopulation operation.

The report is available online at <https://www.pandata.org/>.

Child Protection or Child Sacrifice? The CDC’s vaccine schedule: a boon for Big Pharma

Vaccine Rich Big Pharma Execs Buy Luxury Homes: Their Jobs Have Killed 30,000

At last count 40% of America’s small businesses closed down at the hands of the depopulationists and their destructive COVID lockdown policies. Children’s development was retarded, mental health has collapsed, suicides spiked, opioid use is skyrocketing, homelessness, crime, and unemployment are all on the rise—all caused by the lies and deceptions of Big Pharma and the governments that it owns.

Executives of **Pfizer** and **Moderna**, having grown wealthy with your tax dollars, are moving into luxury homes on streets paved with vaccine gold.

According to the *Wall Street Journal*, Big Pharma executives “have snapped up multi-million dollar homes in Boston’s most desirable neighborhoods, as well as in tony suburbs, and the stunning Cape Cod holiday resort Provincetown.”

A real estate exec said the boom began in mid-2021, “with Moderna staffers happy to pay over-the-odds for a fast purchase.” He told the *Journal*: “These aren’t buyers who are going to be browsing for two to three months. These are buyers who are flying in to buy a home.”

The St. Regis building overlooking Boston’s harbor is where two pharmaceutical executives from two different companies bought two \$5 million condos on the same day in 2021.

A Pfizer employee agreed on the spot to purchase a 16th-floor condo with views of Boston Harbor for \$4.85 million. Two hours later, a Moderna executive honed in on the same unit. When she remarked on the coincidence, the real estate agent said, “He just looked at me, completely serious and said, ‘I want the same home, but I need to be one floor higher than Pfizer.’” He reserved the option to buy a 17th-floor unit for \$4.95 million that day, she said.

D.C. Schools Impose COVID Vaccine Mandate Kennedy Org Says It Violates Federal Law

Robert F. Kennedy, Jr., chairman and chief legal counsel for **Children’s Health Defense**, told the superintendent of schools for the District of Columbia that his organization will sue unless it rescinds its COVID-19 vaccine mandate for students ages 12 and up.

DC school officials announced that the jabs would be required for the upcoming school year despite warnings from legal experts who say the mandate violates federal law.

In a letter sent today to DC school superintendent **Christina Grant** (in photo), Kennedy said the **Pfizer-BioNTech** COVID-19 vaccine was never fully approved and still remains under Emergency Use Authorization (EUA). And although courts have upheld many childhood vaccination requirements for licensed and approved vaccines, no court has ever upheld a mandate for schoolchildren for an EUA vaccine, according to Kennedy.

He wrote: *“Under the Nuremberg Code, a universal legal norm, no one may be coerced to participate in a medical experiment. Consent of the individual is ‘absolutely essential.’ The liability for forced participation in a medical experiment, not to mention liability for injury from such coerced medical intervention, may be incalculable.”*

Birx Admits She Knew COVID-19 Vaccines Were Never Going To Protect Against Infection

The former U.S. official who led the COVID-19 response during the Trump administration said July 22 that COVID-19 vaccines were not expected to protect against infection: “I knew these vaccines were not going to protect against infection. And I think we overplayed the vaccines,” Dr. **Deborah Birx** said during an appearance on Fox News.

But when the “vaccine” was rolled out over a year ago, Birx told an ABC podcast that “This is one of the most highly-effective vaccines we have in our infectious disease arsenal. And so that’s why I’m very enthusiastic about the vaccine.”

Meanwhile, her co-conspirator Dr. **Anthony Fauci** has admitted that the “vaccine” he and Birx pushed onto the American population may be causing serious damage to the fertility of women. When asked about studies showing the COVID vaccine’s negative impact on women’s menstrual cycles, Fauci responded thus: “The menstrual thing is something that is quite transient and temporary. We need to study it more.”

Our readers will remember that when rapper **Nikki Minaj** raised serious questions about the vaccine and fertility, Fauci was arrogantly dismissive: “The answer to that is a resounding no....There’s no evidence that it happens, nor is there any mechanistic reason to imagine that it would happen,” he said, calling it “misinformation.”

“I just don’t like putting all that stuff in my body.”

NBA Star Andrew Wiggins Regrets Taking COVID Vaccine: “Wasn’t My Choice!”

Golden State Warriors forward **Andrew Wiggins** held out until the last possible moment to get the poisonous gene-altering jab government agencies are falsely claiming is a “vaccine.” San Francisco officials had issued an order requiring the injection for all participants age 12 and older at large indoor events. NBA commissioner Adam Silver—who is neither a physician nor an athlete—threatened the loss of wages to the 450 NBA players, 74% of whom are Black.

The former No. 1 pick eventually decided to receive the undisclosed chemicals, and he went on to help Golden State win a championship and make his first All-Star team. But Wiggins says he regrets the decision:

“I still wish I didn’t get [vaccinated], to be honest with you....I just don’t like putting all that stuff in my body, so I didn’t like that and I didn’t like that it wasn’t my choice. I didn’t like that it was either get this or don’t play.”

This is the same sentiment Wiggins had early in the season after receiving the vaccine, saying he was “kind of forced” to get it.

Wiggins speaks for MANY players who were forced into the “vaccine” corner, and then watched as dozens of injected players either suffered side effects or tested positive over and over.

Embittered by the guinea pig experience, many pro athletes now side with the courageous refusals by Brooklyn Nets guard **Kyrie Irving**, star NFL quarterback **Aaron Rodgers**, and tennis great **Novak Djokovic**, all of whom openly rejected the chemicals despite the herculean efforts to force the poisoned needle into their arms.

\$10.3 Million Settlement for Vaccine Mandate Abuse of Healthcare Workers

Chicago's North Shore University Health System agreed to a \$10.3 million settlement to more than 500 current and former healthcare workers who were unlawfully discriminated against and denied religious exemptions from the COVID shot mandate.

According to Children's Health Defense, “This is a historic, first-of-its-kind class action settlement against a private employer who unlawfully denied hundreds of religious exemption requests to COVID-19 shots.”

As part of the settlement agreement, North-Shore will also change its unlawful “no religious accommodations” policy to make it consistent with the law, and to provide religious accommodations in every position across its numerous facilities.

In addition, employees who were terminated because of their religious refusal of the COVID shots will be eligible for rehire if they apply within 90 days of the final settlement approved by the court, and they will retain their previous seniority level.

Chief Litigation Counsel Horatio G. Mihet said: “This settlement should also serve as a strong warning to employers across the nation that they cannot refuse to accommodate those with sincere religious objections to forced vaccination mandates.”

“#Vaccine Injuries” Trends on Twitter

Bad news for Big Pharma as a conversation they have been desperately trying to suppress takes over the Twitter landscape.

For the many who have been maimed by the “vaccines” and for the friends and families of the dead, social media have become the town square, where they can post their disastrous experiences after they or their loved ones have taken the poison serum.

The “fact-checkers” are working overtime to come up with ways to deny the undeniable fact that COVID-19 “vaccines” are causing injuries and deaths on a massive scale. The CDC is underreporting that the “vaccines” are the probable cause of 29,790 DEATHS, 170,151 HOSPITALIZATIONS, 4,889 MISCARRIAGES, and 15,973 Heart Attacks—and many victims of the COVID shot are fearlessly speaking out on social media.

No one Questions Pfizer's Multiple Felonies

For two and a half years the health of the world has been simply handed over to the marketing division of the major pharmaceutical companies—a.k.a. the governments of the world. They emptied their treasuries and used their awesome power to destroy all who would question their authority to force their snake oil into the arms of all Americans.

But just who are these medical gangsters? No one asks Pfizer's C.E.O. Albert Bourla just how, with his company's history of felonies and failed drugs and “vaccines,” they have been given control of America. Here's a brief glimpse of Pfizer's rap sheet:

- Pfizer received the biggest fine in U.S. history as part of a \$2.3 billion plea deal with federal prosecutors for mis-promoting medicines (Bextra, Celebrex) and paying kickbacks to compliant doctors.
- In the 1990s, Pfizer was involved in defective heart valves that led to the deaths of more than 100 people. Pfizer had deliberately misled regulators about the hazards. The company paid a \$10.75 million settlement.
- Pfizer paid more than \$60 million to settle a lawsuit over Rezulin, a diabetes medication that caused patients to die from acute liver failure.
- In 2004, Pfizer paid \$430 million to settle criminal charges that it had bribed doctors to prescribe its epilepsy drug Neurontin for indications for which it was not approved.
- In 2011, a jury found Pfizer committed racketeering fraud in its marketing of the drug Neurontin. Pfizer agreed to pay \$142.1 million to settle the charges.
- Pfizer disclosed that it had paid nearly 4,500 doctors and other medical professionals some \$20 million for speaking on Pfizer's behalf.
- In 2012, the U.S. Securities and Exchange Commission reached a \$45 million settlement with Pfizer over charges it had bribed overseas doctors and other healthcare professionals to increase foreign sales.
- Pfizer was sued in a U.S. federal court for using Nigerian children as human guinea pigs, without the children's parents' consent. Pfizer paid \$75 million to settle in Nigerian court for using a dangerous experimental antibiotic, Trovan, on the children.

Despite this horrifying record of worldwide poisonings in the name of profit, only ONE leader among us warned us to stay away from their vaccines and drugs—**THE HONORABLE MINISTER LOUIS FARRAKHAN.**

“They're...now plotting to give seven billion five hundred million people a vaccination. Dr. Anthony Fauci, Bill Gates and Melinda, you want to depopulate the earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die? That's why your world is coming to an end quickly because you have sentenced billions to death. But God is now sentencing you to the death that you are sentencing to others.”

The following excerpts are from *Vaccines, Autoimmunity, and the Changing Nature of Childhood Illness* (2018), by Thomas Cowan, MD

“[...] I was running from Dr. Kuehl, my pediatrician and a friend of my parents, who was trying to give me my shots. My counterstrategy, starting around the age of three, was to run for the bathroom as soon as I entered his office. Since reasoning with me never worked, Dr. Kuehl tried to forcibly pry me loose, but he was left so weak from childhood polio—or, more likely, from a

devastating neurotoxicity that was mistaken for polio—that he was no match for an intensely willful kid whose every cell was directed toward the goal of noncompliance....

“This battle went on for years. Every time my mother told me I was going to the doctor's office, it felt like a fight for survival. Sometimes we never even made it out of the driveway....

“I see in my younger self a boy who was [...] correct in intuiting that there was something wrong about vaccines—even beyond the momentary pain that probably guided my response when I was three or four, and even though the number of shots I received (or was supposed to receive) was far fewer than the fifty doses that American children now typically receive before the age of six and the sixty-nine doses of sixteen vaccines they receive by the age of eighteen.

“And I now realize how correct that young boy was to distrust even those who were ostensibly dedicated to his well-being.”

43% of Parents ‘Definitely’ Won’t Vaccinate Young Kids for COVID, Survey Says

A survey by the Kaiser Family Foundation (KFF) finds that 43% of U.S. parents of children under 5 will “definitely not” give their child a COVID-19 vaccine even though the U.S. Food and Drug Administration (FDA) has granted Emergency Use Authorization for “vaccines” for children ages 6 months to 5 years old.

graphic: ChildrensHealthDefense.org

The KFF survey found that 27% of parents said they would “wait and see,” while another 13% said they would have their children vaccinated only if required to do so for school or childcare.

Even parents who were vaccinated against COVID-19 said they would not give permission for their youngest children to get vaccinated.

When asked why, parents cited “concerns about the newness of the vaccine and not enough testing or research, concerns over side effects and worries over the overall safety of the vaccines.”

American History of Medical Racism & Savagery

In 1946, Hitler’s doctors were tried in Nuremberg for medical atrocities they committed on prisoners. But just 26 years later the pharmaceutical industry in America was doing more than 90 percent of its experimental testing on prisoners. The benefit of having a captive, controlled, and mostly Black population of society’s throw-aways was simply irresistible to them.

After the Nazi trials the medical world outlawed experiments on humans without their consent. But the American medical establishment rejected the Code as “a good code for barbarians but an unnecessary code for ordinary physicians-scientists.”

The COVID-19 VACCINES: “We Have No RIGHT to Trust Them.”

Many countries are now reporting sudden declines in live birth rates

Dr. Joseph Mercola reports that COVID jabs are now shown to impact both male and female fertility. Early on in the pandemic, doctors warned that the chemicals the government was forcing on the population called “vaccines” would directly affect the reproductive organs. Of course, any effective depopulation program targets the reproductive system of the group to be eliminated. And this is exactly what appears to be happening—via chemical castration.

There is credible evidence, writes Dr. Mercola, “that the COVID shots may cross-react with syncytin and reproductive genes in sperm, ova and placenta in ways that might impair reproductive outcomes.” He quotes molecular biologist Dr. Janci Chunn Lindsay, Ph.D., who warns, “We could potentially be sterilizing an entire generation.”

According to one recent investigation, 42% of women with regular menstrual cycles said they bled more heavily than usual after vaccination. Other recent research has found the Pfizer COVID jab impairs semen concentration for about three months. Miscarriages, fetal deaths and stillbirths have also risen after the rollout of the COVID shots. In November 2021, Lions Gate Hospital in North Vancouver, British Columbia (BC), delivered 13 stillborn babies in a 24-hour period, and all of the mothers had received the COVID jab.

Many countries are now reporting sudden declines in live birth rates, including Germany, the U.K., Taiwan, Hungary and Sweden. In the five countries with the highest COVID jab uptake, fertility has dropped by an alarming average of 15.2%, whereas the five countries with the lowest COVID jab uptake have seen an average decline of just 4.66%.

Biden Gets COVID—Again and Again and...

Pres. Joe Biden spread the egregious lie that **“You’re not going to get COVID if you have these vaccinations.”**

He said his patience with “vaccine hesitancy” was “wearing thin,” insinuating that if people didn’t get the shot, they’d face

serious repercussions. Now Biden has become living proof of TOTAL “vaccine” failure. His first shot FAILED. His second shot FAILED. His first booster FAILED. His second booster FAILED. After ALL that “protection,” he got COVID. He went into “strict isolation procedures”

and continued masking. Biden took PAXLOVID, yet another untested Pfizer drug now being sold as “treatment.” That drug FAILED, and Biden tested positive again!

Despite Biden and Fauci and Harris now being the poster children for vaccine Pfailure, their government is still forcing needles into the military, federal employees, medical workers, and foreign visitors.

Meanwhile, the world marvels at the Africans, who overwhelmingly rejected the tricks and pricks of the West and have avoided the suffering and death resulting from their COVID policies.

Twitter’s SAMANTHA MARIKA’S ‘NEVER FORGET’ Rant Goes Viral

said things” that they clearly did say. Fauci’s out there saying, “I never said we should be locked down.” Never forget that he *did* say we should be locked down.

Never forget that he *did* say that you and your children should muzzle yourselves to something that clearly never worked.

Never forget that they never let us listen to opposing doctor views, listen to opposing science views.

Never forget that they blocked, censored, and deleted us for speaking out against this.

“Never forget that they blocked, censored, and deleted us for speaking out against this.”

Never forget that they created this. And Never Forget that the thing that they created when it was making your loved ones sick, when it was making your loved ones die, and you suggested Hydroxychloroquine and you suggested Ivermectin, they laughed at you, they mocked you, they ridiculed you and they prevented them from using it.

Never forget that they said, “This was the solution; this was going to give herd immunity; this was going to solve the entire problem.” And now what are they saying? “We knew it wasn’t going to work.”

Never forget that you lost your job for refusing to take something that they knew wasn’t going to work.

Never forget, even worse, you took something that they knew wasn’t going to work just to keep your job and at best you’re going to get the thing that it was supposed to prevent; at worst, you’re going to get serious side effects. [...] If we stay silent and we don’t speak up, then, yes, this will go down as another 9/11, this will go down as another weapons of mass destruction, this will go down as another “oops, I prescribed too many opioids.” **Wake up!**

Lawsuit Alleges Gov't Collusion With Social Media to Push “Vaccine”

The nonprofit America First Legal (AFL) released documents revealing “concrete evidence of collusion” between the CDC and social media companies to “ censor free speech and promote Biden Administration propaganda,” a July 27 press release said.

Documents revealed that the CDC sent a chart of posts to Twitter that it had deemed “misinformation.” The CDC conducted regular BOLO, or “Be On the LookOut,” meetings where the agency shared with social media firms what it believed was “misinformation.”

Apparently, the CDC wanted to undermine the integrity of its own reporting system! The CDC runs the Vaccine Adverse Event Reporting System (VAERS) that collects reports of deaths and injuries from vaccines. And even though it has a stringent process for reporting adverse events and more than 70% of reports are from medical personnel, the CDC wanted the public to know that it “accepts reports from anyone.”

Mark Zuckerberg

The lawsuit documents extensive interactions between Facebook and the CDC that amount to the control and suppression of information they deemed to be unhelpful to its depopulation policies. Facebook, run by **Mark Zuckerberg**, gave at least \$15 million in ad space to the CDC to promote vaccine, social distance, and other messages related to COVID-19, something which might be in violation of the Antideficiency Act’s limitation on voluntary services. The lawsuit alleges that Google made sure that search results highlighted the CDC’s policies and suppressed any challenges to its COVID narrative.

In the press release, **Stephen Miller**, president of America First Legal, blamed Big Tech for “unlawfully” colluding with the federal government to “silence, censor, and suppress” the free speech rights of Americans as well as violate their First Amendment rights.

“Government is expressly prohibited from censoring competing or dissenting viewpoints or from silencing its political opponents, whether it does so directly or whether it uses an outside corporation to achieve its draconian, totalitarian ends,” he said.

Latest Vax Side Effect: Pure Anger

Australia implemented some of the most repressive pro-vaccine measures, just about making it illegal to exist with un-poisoned blood. They erected concentration camps to isolate refusniks and banned any un-jabbed visitors. It ruined their economy and turned Australians against each other, but it did absolutely NOTHING to stop COVID. New infections, hospitalizations, and deaths exploded AFTER jabbing 87% of the population. The jabbed, it appears, are the sickest among the citizenry, and even the top jabbed and boosted officials have tested positive.

Additionally, non-COVID deaths increased five per cent in the first four months of this year, and dementia deaths rose by 20 per cent and diabetes deaths are up 18 per cent. Medical officials feign ignorance of the cause but the citizens who have suffered the failed policies and forced poisonings are aware of the 1,291 side effects of the “vaccines,” including death.

In one viral video a distraught and angry Australian man confronts the doctor who “vaccinated” a family member. The post is titled “*Man tracks down the Dr that gave one of his family members the covid vaccine and they died after taking it.*” He smashes the window of the doctor’s car with a boomerang and grabs the doctor’s shirt while yelling at him about how he is responsible for the death. If authentic it may indicate the level of bitterness among the millions of people whose loved ones are suffering the negative effects of the world depopulation campaign.

American History of Medical Racism & Savagery

In 1952, **Dr. Chester M. Southam** of the **Sloan-Kettering Institute** injected at least 396 inmates at Ohio State Prison—180 of them Black—with live human cancer cells. He assured the victims that if they developed cancer it “could be removed surgically.”

Satan Speaks: “How To Kill A Million People”

Zbigniew Brzezinski, United States National Security Advisor, offered the following “advice” in 2009:

“But these major world powers, new and old, also face a novel reality: while the lethality of their military might is greater than ever, their capacity to impose control over the politically awakened masses of the world is at a historic low. To put it bluntly: in earlier times, it was easier to control one million people than to physically kill one million people; today, it is infinitely easier to kill one million people than to control one million people. That insight bears directly on the use of force, particularly by societies that are culturally alien even if technologically superior. As a result, in the current post-colonial era, it is too costly to undertake colonial wars. That is a reality some recent American policy-makers failed to assimilate, to America’s detriment.”

Vaccine Corner

The following excerpts are from *Vaccines, Autoimmunity, and the Changing Nature of Childhood Illness* (2018), by Thomas Cowan, MD:

“After nearly four decades as a doctor, I believe the medical profession is party to one of the most grievous errors a nation has ever perpetuated on its own children. I believe that chronic autoimmune conditions, including autism, are directly linked, though not limited to, the Centers for Disease Control and Prevention’s recommended vaccination schedule that most American children follow....”

“[T]here are scores of medical studies in peer-reviewed journals that document how vaccines adversely affect immunologic function. This is so well established that the Department of Health and Human Services has an injury compensation program, specifically for vaccine-related deaths, disabilities, and illnesses, that was established in an attempt to reduce the overwhelming number of lawsuits that vaccine-injured people and their families were filing against vaccine manufacturers and health care providers in the 1980s.”

Sir David Attenborough: “It’s not just climate change; it’s sheer space, places to grow food for this enormous horde....Either we limit our population growth or the natural world will do it for us. The natural world is doing it for us right now. We keep putting on programs about famine in Ethiopia; that’s what’s happening. Too many people there. They can’t support themselves — and it’s not an inhuman thing to say. It’s the case.”

STUDY: Far Fewer Americans Got Jabbed

According to the **Kaiser Family Foundation (KFF)**, nearly 228 million, or roughly 70% of, Americans were unvaccinated, hadn't completed their primary COVID vaccine series, or hadn't gotten their first booster dose as of July 21, 2022. The uptake is particularly low for booster shots. All Americans age 5 and older are eligible for the largest human guinea pig experiment of all time but among adults 50 and over who are eligible for a second booster shot, only 30.9% have gotten it, the data said.

It appears that even those who were originally vaxxed may now have buyer's remorse and want nothing more to do with being jabbed. Numbers keep falling. Some people who oppose the shots only got them because of mandates—a requirement to attend school or keep a job.

43% of Parents with Children Under 5 Say They Will “Definitely Not” Get Them Vaccinated; More Than Half See the Vaccine as a Greater Risk than the Virus for Their Young Children

The KFF survey finds that only 7% of parents have gotten their children “vaccinated” citing “concerns about the newness of the vaccine and not enough testing or research, concerns over side effects, and worries over the overall safety of the vaccines.” Additionally, “worries about side effects and unknown long-term effects are widespread among parents of young children...” This is a direct reflection of the lack of

trust that the people have in their politicians and official health agencies. The survey found that 44% of Black parents of unvaccinated children fear that they may have to care for them if they experience side effects, and a similar share of Hispanic parents (45%) say they are concerned they won't be able to get their child vaccinated at a place they trust.

A majority of parents of the youngest children “view the vaccine as a bigger risk to their child's health than getting infected with COVID-19. The share saying the vaccine is a bigger risk rises to 73% among Republican and Republican-leaning parents, 71% among parents who are unvaccinated themselves, and 67% among parents whose child has previously tested positive for COVID-19.

Top Medical Official: US Government Is Preventing a Real Investigation Into the COVID Origin

Prof. Jeffrey Sachs is a highly influential member of the medical establishment. He is chairman of the COVID-19 Commission of the LANCET, the foremost medical journal. After initially supporting the claim that the “virus” evolved and spread naturally, Sachs now says that there is clear proof that the National Institutes of Health run by **Anthony Fauci**, and many members of the scientific community, have been impeding a serious investigation of the origins of COVID-19, and that the U.S. may have supported research that has led to millions of deaths:

Prof. Jeffrey Sachs

“I chaired the commission for the Lancet for two years on COVID. I'm pretty convinced it came out of U.S. lab biotechnology, not out of nature...After two years of intensive work on this. So

it's a blunder, in my view, of biotech, not an accident of a natural spillover. We don't know for sure, I should be absolutely clear. But there's enough evidence that it should be looked into. And it's not being investigated, not in the United States, not anywhere...”

Dr. Sachs continued: **“...there was a lot of research underway in the United States and China on taking SARS-like viruses, manipulating them in the laboratory, and creating potentially far more dangerous viruses. And the particular virus that causes COVID-19, called SARS-Cov-2, is notable because it has a piece of its genetic makeup that makes the virus more dangerous. And that piece of the genome is called the ‘furin cleavage site.’ Now, what's interesting, and concerning if I may say so, is that the research that was underway very actively and being promoted, was to insert furin cleavage sites into SARS-like viruses to see what would happen. Oops!”**

Poll: 10 Percent of Americans Regret Vax, 15 Percent Have a New Medical Condition After It

Children's Health Defense (CHD) commissioned a poll to find out about people's position on the COVID “vaccines.” Ten percent of “vaccinated” Americans regret having done so, and 15 percent of the 1,038 adults that took the survey said that they have been diagnosed with a new condition weeks or months after taking the “vaccine.” The most common of the new ailments were blood clots (21%), heart attack (19%), liver damage (18%), and stroke (15%).

Another poll surveyed 829 Americans ages 18–49, and the results show that 22% of them reported a new condition within weeks or months after getting a COVID-19 vaccine. The top conditions were autoimmune problems, blood clots, stroke, lung clots, liver damage, leg clots, heart attack, and disrupted menstrual cycle. Ten percent of these conditions were severe.

Survey participants were then asked if someone they personally know had been medically diagnosed with a new medical condition within the same time frame. Overall, 26% reported yes, while 63% reported no.

Shocking: Europe's Vaccine Carnage

American health officials have done their wicked best to alter or suppress the growing numbers of deaths and permanent injuries as a result of the depopulation shots. But United States law requires that the CDC keep a record of the disaster through the **Vaccine Adverse Event Reporting System (VAERS)**. The *Final Call* has been reporting those growing numbers on a weekly basis—the latest tally showing at least 30,000 deaths of previously healthy jabbed Americans.

Europe's vaccine monitoring is done via the **European Medicines Agency (EMA)** database. It is now reporting 46,999 deaths and 4,731,833 injuries following COVID-19 “vaccines.”

This is all the more shocking given that a 2011 Harvard study found that these monitoring databases are underreporting by as much as 99%. This means that only 1 of every 100 adverse events is actually being reported. Governments that have forced the toxic jabs onto their citizens, and the vaccine manufacturers that have reaped incredible profits from them, have no interest in counting the bloody result of their policies.

Booker T. Washington Speaks to Eugenicists

Now, in my opinion, [Black] people are worth saving, are worth making a strong, helpful part of the American body politic. They have already indicated, within their fifty years of freedom, some signs of being worth saving. In the first place, from a physical point of view they have lived; that is, they have survived. That is not an easy thing for any dark-skinned race to do when it is near you. Now, my friends, study history and you will discover that the American negro is practically the only race with a dark skin that has ever undergone the test of living by the side of the Anglo-Saxon, looking him in the face and really surviving. All others that have tried that experiment have departed or they are departing. Now we have lived.

29 Percent of Young Pfizer Vaccine Recipients Suffered Heart Effect

According to a new study “nearly three in 10 children who received Pfizer’s ‘vaccine’ experienced heart effects afterwards.”

The study, reported by the *Epoch Times*, examined 301 students aged 13 to 18 across two schools in Thailand. They had received the 2-dose Pfizer “vaccine” and researchers found that 29 percent of the youth experienced cardiovascular effects, including heart palpitations, chest pain, and shortness of breath. Fifty-four had abnormal electrocardiogram results. Six experienced a heart valve disease; six had high blood pressure, and seven were diagnosed with heart inflammation. Two of the children were hospitalized, with one being admitted to intensive care.

Cardiologist **Dr. Peter McCullough** reviewed the study results and commented: *“Any form of heart damage in young persons is concerning since the long-term risks of heart failure and sudden death with exercise are unknown....This is one of about 200 published papers demonstrating the risks of COVID-19 vaccination far outweigh any theoretical benefit.”*

Report: Plandemic Takes Harsh Toll on Teachers

According to the Bureau of Labor Statistics nationwide, **there are at least 280,000 fewer public school teachers than there were before the plandemic.** Florida alone has 8,000 openings, Arizona has 2,200. In Illinois, 88% of school districts surveyed report a shortage.

Three out of four educators surveyed would not recommend the job to others, according to the American Federation of Teachers, the nation’s second largest education union.

Depopulation policies that turned teachers into prison guards and mask enforcers made them agents in a devastating reversal of childhood development. **Bill Gates**, the world’s foremost depopulator, admits that *“[I]f we knew everything that we know today, we would have shut schools a lot less than we did during this pandemic....K-12, we have a learning deficit that will take us a long time to erase that, and sadly, it’s a deficit where the inner city is where it’s almost two years. Suburban schools less, private schools—in some cases like my kids—almost no deficit at all,”* Gates confessed.

Of 29 Pregnant Women That Had Bad Reaction to Pfizer Jab, Only One Had a Baby That Lived

As any good depopulator knows, the most effective way to achieve their genocidal ends is to target the womb of the population to be exterminated. That way one doesn’t have as many dead bodies to dispose of, and the victims won’t even be aware of the crime until long after it has been committed. The society can get a generation of labor from the doomed people, secure in the knowledge that they will be unable to reproduce themselves.

This is exactly what happened to the Ethiopians that immigrated to Israel. In the early 2000s it was revealed that Ethiopian Jewish women were injected with the contraceptive drug Depo-Provera but they were led to believe they were receiving a vaccine to prevent disease. The drug sterilized thousands of Black women and actually halved the Ethiopian birthrate! Israeli officials at first denied the charge but then put the main denier in charge of the “investigation.” It was a policy perfectly attuned with Prime Minister **Benjamin Netanyahu’s** 2012 warning about Africans: “If we don’t stop their entry, the problem that currently stands at 60,000 could grow to 600,000, and that threatens our existence as a Jewish and democratic state.”

Now, in 2022, an analysis of documents released through a court order shows that the Pfizer “vaccine” is far more dangerous to pregnant women than the public was told. Of those pregnant women in the Pfizer trial, there are solid data available from 29 pregnancies. Only one out of 29 of these pregnancies resulted in a ‘normal’ outcome. This means that 28 out of the 29 babies died. That is a 97% death rate when an “adverse event” occurs during pregnancy. Even in the case of the “normal outcome,” this only means there was an “apparently” healthy baby.

However, one cannot be certain that the outcome is “normal” until the baby has had all of his or her physiological systems fully mature—at early adulthood.

In an obvious sign that depopulation—and not health—is their motive, many countries have pushed Pfizer’s COVID-19 “vaccine” on pregnant women, often via mandates. According to **Dr. Byram W. Bridle**, professor of Viral Immunology at the University of Guelph in Canada, *“This was being done with the full blessing of their societies for obstetrics and gynecology. Are obstetricians and gynecologists going to continue to make these recommendations when adverse events in pregnant women almost always end in a fatality for the baby?...A 97% death rate among babies from pregnant mothers who reported an adverse event after they were ‘vaccinated’ is appalling....If I were a regulatory scientist assessing the pregnancy outcome data from Pfizer, there is no way that I would ever have supported the use of their inoculation in pregnant women.”*

More Blundering & Misguidance from the Depopulators at the CDC

The Centers for Disease Control and Prevention (CDC) is now acknowledging that it was wrong in the past to downplay natural immunity and promote plainly unscientific policies like asymptomatic testing. The CDC’s new COVID-19 “guidance,” released on Aug. 11, rescinds and alters a number of key recommendations, including treating unvaccinated and vaccinated people differently for many purposes. Now the agency explicitly states that people with previous infection have protection against severe illness, and it is removing its six-foot “social distancing” advice.

“The CDC is admitting it was wrong here, although they won’t put it in those words,” **Dr. Jay Bhattacharya**, professor of medicine at Stanford University School of Medicine, told *The Epoch Times*.

Dr. Jay Bhattacharya

Vaccine Corner

The following excerpt is from the book *How to Raise a Healthy Child...In Spite of Your Doctor* (1984), by Robert S. Mendelsohn, M.D.

“The greatest threat of childhood diseases lies in the dangerous and ineffectual efforts made to prevent them through mass immunization.

“I know, as I write that line, that this concept is one that you may find difficult to accept. Immunizations have been so artfully and aggressively marketed that most parents believe them to be the ‘miracle’ that has eliminated many once-feared diseases....For a pediatrician to attack what has become the ‘bread and butter’ of pediatric practice is equivalent to a priest’s denying the infallibility of the pope...”

“Much of what you have been led to believe about immunizations simply isn’t true. I not only have grave misgivings about them; if I were to follow my deep convictions in writing this chapter, I would urge you to reject all inoculations for your child. I won’t do that, because parents in about half the states have lost the right to make that choice. Doctors, not politicians, have successfully lobbied for laws that force parents to immunize their children as a prerequisite for admission to school...”

“Although I administered them myself during my early years of practice, I have become a steadfast opponent of mass inoculations because of the myriad hazards they present. The subject is so vast and complex that it deserves a book of its own. Consequently, I must be content here with summarizing my objections to the fanatic zeal with which pediatricians blindly shoot foreign proteins into the body of your child without knowing what eventual damage they may cause.”

Fasting May Have a Huge Impact on Recovering From Spike Injuries

Predictably, the untested chemical injections called “vaccines” have caused deaths and injuries on a massive scale. In America alone the CDC’s own data show at least 30,000 have perished and nearly 57,000 have suffered permanent injuries after taking the shot. For those who have succumbed to the pressure from their jobs or school to comply, the question of how the body can heal itself is of utmost importance.

It is now known that the COVID-19 “vaccine” can impair the body’s immune function and lead to autoimmune diseases in several organs of the body. If we have an adverse event after vaccination, what can the jabbed do to mitigate the damage?

The human body has amazing self-cleansing and repair mechanisms. One of the most important of these mechanisms is called autophagy (aka autophagy), discovered by Nobel prize-winning cell biologist Yoshinori Ohsumi, who has found that autophagy plays an important protective role in the human body.

Theoretically speaking, the body’s autophagy mechanism can help reduce the damage caused by vaccines and spike proteins by cleaning up spike proteins and removing altered genes and harmful viral components.

According to **Dr. Yuhong Dong**, “One way to trigger the cells’ autophagy mechanism is intermittent fasting...[I]t can reduce the damage to the liver caused by the vaccine spike proteins.”

In addition, says Dr. Dong, fasting is not about eating less or not eating anything, but about “eating the right things,” like fresh vegetables, fruits, and herbs.

Of course, the very centerpiece of the **Nation of Islam’s** health regimen has been fasting and healthy eating—eating to live. The fourth pillar of Islam is fasting and it remains the *safest and most effective* avenue to maintaining good health:

“The fact that fasting is the cure to 90 per cent of our ills is known by the medical scientists. But, they do not teach you that.”

Top Medical Official: US Government Is Preventing a Real Investigation Into the COVID Origin

This all may be uglier than we now think. The **Wuhan Institute of Virology** is just one of the many foreign sites where Americans are conducting dangerous bioweapons research. One of the reasons the Russians invaded Ukraine, they say, is because the U.S. had been performing illegal bioweapons development and testing “on soldiers and mental patients,” and these experiments had “infect[ed] the Russian people and crops.”

Dr. Anthony Fauci, who faces criminal investigation after the midterm elections, initially dismissed the possibility of a lab origin, saying the evidence “strongly suggests” a natural origin. But after strong challenges from the real scientific community to that “evidence,” he recently backtracked, claiming he was “not convinced” that the pestilence developed naturally.

Bloomberg Warned of Human Guinea Pig Abuses in 2005

In a major article titled “BIG PHARMA’S SHAMEFUL SECRET,” in the December 2005 issue of Bloomberg Markets, the authors exposed the fact that “Every year, drug companies spend \$14 billion to test experimental substances on humans. Across the U.S., the centers that do the testing—and the regulators who watch them—allow scores of people to be injured or killed....In the U.S., 3.7 million people have been human guinea pigs.”

And though some would argue that such testing has resulted in medical advancements, “These medical success stories mask a clinical drug trial industry that is poorly regulated, riddled with conflicts of interest—and sometimes deadly.”

American History of Medical Racism & Savagery

In 1935, Dr. William Osler Abbott of the University of Pennsylvania paid indigent Blacks (he called them “animals”) to “develop a new technique for intubating rapidly the human intestine from mouth to rectum.” He called them “professional guinea pigs” who were “short on morals but they were long on gut.”

The COVID-19 VACCINES: “We Have No RIGHT to Trust Them.”

Study: Vaccines Help COVID Spread

A team of 19 scientists from the United Kingdom have published new research that helps explain why countries with the highest vaccination rates are experiencing the highest numbers of what they call “breakthrough infections,” as well as reinfection with other variants of COVID-19.

This research, published in the journal *Science*, appears to show that the vaccine itself is leading to widespread infection. Instead of stopping the virus, it appears that the mRNA vaccination programs around the world may have inadvertently made the virus more widespread.

The British scientists point out that countries with higher COVID vaccination rates are experiencing high numbers of COVID infections. In contrast, in places where vaccine campaigns have not been widely implemented—including most countries in the continent of Africa—*people are not becoming infected*.

This study demonstrates exactly how the repeat vaccinations are causing people to be more susceptible to COVID-19. Initial doses of the vaccine brought about classic immune responses.

But after multiple jabs and boosters the scientists found that the vaccine begins to desensitize the subjects to the COVID-19 proteins. In other words, the “vaccines” actually turn off the body’s immune response, making the vaccinated MORE vulnerable—not less—to the infection. The unvaccinated, by contrast, are fully protected by their natural immune systems. It is still unclear how long the jabbed suffer from a compromised immune system and if the “vaccine” makes them vulnerable to many other diseases they would have easily resisted before the forced injections.

Plandemic’s Impact on Mental Health

The **Highwire** reported that mental health issues were magnified by the plandemic. Drug overdose deaths in the U.S. topped 100,000 in 2021, and the number of teenage girls who’ve been suicidal has increased 50% nationwide since 2019. One in four parents say their adolescent has seen a mental health specialist; 41% of college students reported having suicidal thoughts in 2021.

Dr. Anthony Fauci was unfazed when asked by a BBC interviewer: “I’m interested in your reluctance to use the word lockdown. Do you think two years on that they were worth it, or were they too severe?”

FAUCI’s answer: “Obviously, when you do have that kind of restriction on society, there are unintended negative consequences.”

Iron Mike Tyson on “Vaccine”: “I was Beaten into Submission”

Iron Mike Tyson beat at least 50 unfortunate opponents into submission during his career as a champion heavyweight boxer. But the “fully vaccinated” fighter recently told *USA Today* that *“I didn’t do it willingly....I’m a little apprehensive of that. I was pretty much beaten into submission to do this because I travel internationally. And if I don’t travel, we don’t eat. So I decided to take the risk and take the shot. And people, they have their own choice...”*

Tyson is among a growing number of athletes who are voicing the bitterness that many Americans have after being “mandated” by Big Pharma politicians to be injected with an unknown and dangerous substance in order to maintain their livelihoods.

Mike Tyson

Meanwhile the unvaccinated tennis star **Novak Djokovic** was refused entry into the United States and forced out of the 2022 US Open for refusing to inject into his body the dangerous chemical concoction that has now killed more than 30,000 Americans and permanently disabled 57,000 more. The CDC “rules” that exclude him are being enforced even though the CDC has been forced to backtrack as mounting evidence proves it has been the greatest spreader of COVID misinformation. The “vaccines” do not stop transmissions or infections but instead have produced scores of videos of athletes suddenly dropping dead from heart attacks and blood clots.

Novak Djokovic

Excess Deaths Skyrocket Since “Vaccine”

Excess deaths are the amount of mortality above normal conditions—all deaths from all causes—and they have dramatically increased since the rollout of the COVID injections. The *Economist* magazine shows that worldwide there have been **25 million cumulative excess deaths since the start of the injections**, 5 million excess deaths during the lockdowns.

Outspoken funeral director John O’Looney of the United Kingdom said: *“People are dying in numbers that I’ve never seen before, especially younger people 20-30 years old. The big funeral providers, they tell me they are inundated. Insurance CEO’s tell me there is a 176% increase in payouts. I’ve spoken to solicitors who tell me they are dealing with the estates of people in their 20s’ and 30’s which is something they have never done in their 20 years of practicing law.”*

Walensky’s CDC “RESET” is More Medical Tricknology

Centers for Disease Control and Prevention Director **Rochelle Walensky** told *CBS News*, *“We need to have special forces, if you will, to deploy during pandemic times.”* Walensky’s proposal for the unit comes amid her claim to begin a major reorganization of the agency following “some pretty public mistakes” during the COVID-19 “pandemic.”

Walensky, we must remember, says she learned of the science supporting the Pfizer “vaccine” from *“the CNN feed.”* Then, America’s top infectious disease specialist offered this vaccine gibberish: *“Nobody said ‘waning’ when you know this vaccine’s gonna work, oh well, maybe it’ll work, it’ll wear off. Nobody said, ‘Well what if the next variant doesn’t, it doesn’t, it’s not as potent against the next variant.’”*

Dr. Rochelle Walensky

Walensky’s latest mea culpa is pure tricknology. She slips in two ominous clues amidst her “apology.” First, her use of the term “special forces” doesn’t sound very medical- or health-related at all. It is a direct reference to the militarization of the CDC’s capabilities.

In May of 2020, the noted US and Israeli government attorney **Alan Dershowitz** was asked if American citizens can be forced to take a vaccination:

“Absolutely. Absolutely. And if you refuse to be vaccinated, the state has the power to literally take you to a doctor’s office and plunge a needle into your arm....[Y]ou have no right to refuse to be vaccinated against a contagious disease. Public health, the police power of the Constitution, gives the state the power to compel that; and there are cases in the United States Supreme Court.”

Klaus Schwab

Walensky’s “special forces” will give the CDC that needle-plunging capability.

Second, Walensky calls it a “RESET.” This is a calculated term designed to let the international depopulators know that the US government is still on board with the “Great Reset” plan laid out by the **World Economic Forum** and its megalomaniacal mastermind **Klaus Schwab**. He advocates a one-world government with a massively reduced population. Survivors will live in a world of “transhumanism”—the merging of man and machine—which Schwab expected the “pandemic” would usher in. Walensky’s “RESETTING” of the CDC was a wink and a nod to that wicked agenda.

Florida Gov. DeSantis Attacks ‘Little Elf’ Fauci

Florida Gov. **Ron DeSantis** attacked **Dr. Anthony Fauci** with these provocative words during a campaign stop on his “Keep Florida Free Tour”:

“I’m just sick of seeing him! I know he says he’s going to retire. Someone needs to grab that little elf and chuck him across the Potomac.”

DeSantis is a possible 2024 presidential candidate and so the disdain directed at Fauci has larger implications. The 81-year-old Fauci is the powerful director of the National Institute of Allergy and Infectious Diseases, and he is the very face of the medical establishment controlled by Big Pharma. Since the 1980s Fauci has presided over the failing health of America and the expanding wealth of the drug industry. He represents a corrupt institution—one that DeSantis says ought to be “chucked across the Potomac.”

Dr. Joseph Ladapo
Gov. Ron DeSantis

In Florida, Gov. DeSantis aggressively refused the Fauci “pandemic” measures—no masking, no lockdowns, no fear-driven mandates—and he thoroughly bucked the vaccine-only campaign by encouraging early treatments. He made the bold and brilliant move of appointing **Dr. Joseph Ladapo** as the state’s attorney general. Dr. Ladapo is a member of **America’s Frontline Doctors**, which early on blew the whistle on the medical hypocrisies driving Washington’s plandemic. And since then, Florida has become among the safest states to be in.

DeSantis was not only repudiating Fauci, who just announced his semi-retirement. DeSantis was signaling Big Pharma that his presidency could mean the end of their profitable reign as drug pushers to the sickest and most chemical-dependent population in American history. They have achieved this status through “agency capture,” the wholesale purchasing of the many “public” health agencies and their judicious bribery of see-no-evil politicians.

If he is elected, DeSantis will likely appoint Dr. Ladapo as Surgeon General, but he certainly cannot stop there. He will have several government behemoths to “chuck across the Potomac”: Centers for Disease Control (CDC), Food & Drug Administration (FDA), National Institutes of Health (NIH), U.S. Dept of Health and Human Services (HHS), for starters. He will have to shut down depopulators Bill Gates and Klaus Schwab’s access to the medical infrastructure, and cut off U.S. funds to the irreparably corrupt World Health Organization (WHO).

The flippant remark DeSantis made targeting Fauci’s small stature drew loud applause and achieved sound-bite gold, but we assure you Big Pharma heard something entirely different. DeSantis just committed to running Big Pharma out of Washington.

Top COVID Doctor Addresses Racial Bias in Biden's Vax Policies

by Dr. Pierre Kory, author of *The War on Ivermectin*

While the attention was focused on Mar-a-Lago, Denmark made major news by banning the COVID-19 vaccine for children under age 18. You read that correctly: The Scandinavian nation, often heralded by pro-vaccine liberal politicians as a health model for the United States, issued a policy declaring it [will] “no longer be possible” for young people to get vaccinated, citing the low risk posed by the virus.

Meanwhile, back home, the Biden administration, whose inner circle includes secret consultants for Pfizer, is for the most part letting states move forward with a similar laissez-faire attitude toward vaccination requirements with one notable exception: Washington, D.C., which is requiring all students over the age of 12 receive a vaccine...

...If enforced, Washington's vaccine mandate would bar nearly two-thirds of Black adolescents from attending school, creating another obstacle for a population government should be empowering.

The elite ruling class is happy to plaster “Black Lives Matter” stickers on their Teslas while supporting policies that hold back the next generation mere miles away.

Over socially distanced glasses of chardonnay, well-to-do Beltway residents cling to their COVID-19 narrative where vaccines funded by the big pharmaceutical companies offer the only hope. In their world, no one—even children—is safe without a vaccine. Anyone who dares deviate from the company line is dismissed as a backwater Trump-supporting conspiracist, even lifelong Democrats like me.

They ignore data that challenges their point of view, including data finding 70% of U.S. public schools reported an increase in students seeking mental health services since the start of the pandemic, or a Harvard University study showing “remote instruction was a primary driver of widening achievement gaps.” These districts are not in places where parents can earn their six-figure salaries from Zoom, ordering Uber Eats and enjoying a steady diet of Netflix.

As a medical doctor who has helped more than 700 patients recover from COVID-19 and its complications, I have treated numerous adults and children injured by the vaccine and can assure you that there is a significant cause for concern....

Dr. Jonas Salk introduced his polio vaccine in 1953. But **The Most Honorable Elijah Muhammad** forbade Nation of Islam members from taking it. Within days of receiving Salk's vaccine, reports of “vaccine-associated polio paralysis” began surfacing.

Anthony Fauci COVID Policies: Death on an Unprecedented Scale

According to statistics posted in Our World in Data, the policies of America—with the “greatest” health-care system and the “top” doctors at the helm (Drs. Fauci, Walensky, Birx, Jha, Murthy)—have proven to be the absolute deadliest in the world to its own population. In fact **THE MORE VACCINATION, THE MORE DEATH:**

HAITI

1.4 percent of the population is “vaccinated”
Has just 838 COVID-19 deaths
Death Rate: 73 deaths per 1 million people.

SOUTH AFRICA

32 percent of the population is “vaccinated”
102,000 COVID-19 deaths
Death Rate: 1,717 deaths per 1 million people.

UNITED KINGDOM

75 percent of the population is “vaccinated”
184,000 COVID-19 deaths
Death Rate: 2,736 deaths per 1 million people.

UNITED STATES of AMERICA

67 percent of the population is “vaccinated”
1.03 million COVID-19 deaths
Death Rate: 3,058 deaths per 1 million people.

Their failures are well known, even to themselves. **Dr. Deborah Birx**, who was “White House Coronavirus Response Coordinator” under Donald Trump, made news recently by admitting that she deceived the president in pursuit of her own misguided desire to lock down the country. But in March of 2021 she told CNN that she believed more than 90 percent of the deaths attributed to COVID-19 were unnecessary:

“I look at it this way. The first time we have an excuse. There were about a hundred thousand deaths that came from that original surge [in 2020]. All of the rest of them, in my mind, could have been mitigated or decreased substantially.”

As of today that means 967,549 died, by Dr. Birx's estimation, unnecessarily! But Fauci, Birx and the government's top depopulators in pursuit of their vaccine-only objective actively and aggressively suppressed safe and effective treatments like Ivermectin and Hydroxychloroquine that had reduced death rates all over the globe.

Mr. Science himself, Anthony Fauci, even wondered “how a rich and sophisticated country can have the most percentage of deaths and be the hardest-hit country in the world. That I believe should not have happened.”

This is disingenuous in the extreme. If his aim was to actually protect the health of Americans, he would have

Anthony Fauci

long ago brought in African health officials to run the National Institutes of Health, the CDC, and the FDA. Africans did not mask, or distance, or lock down, or close businesses or schools, or “vaccinate,” yet Americans would be FAR safer from COVID in Africa than in Fauci's America.

Obviously, with a death rate 42 times greater than Haiti, killing Americans is the demonic aim of American leaders. Even as he hightails it out of office Fauci doubled down on the disastrous formula that filled cemeteries from sea to shining sea. If he could do it all over again, he lamented as only a psychopath could, there “*would have been much more of an alarm and there would have been much, much more stringent restrictions in the sense of very, very heavy, encouraging people to wear masks, physical distancing or what have you.*”

Toxic, Metallic Compounds Found in All COVID Vaccines

The Children's Health Defense reports that a group of German scientists found toxic components—mostly metallic—in all the COVID-19 vaccine samples they analyzed using modern medical and physical measuring techniques.

The Working Group for COVID Vaccine Analysis says that some of the toxic elements found inside the AstraZeneca, Pfizer and Moderna vaccine vials were not listed in the ingredient lists from the manufacturers. Among the metals they found are caesium, potassium, calcium, barium, cobalt, iron, chromium, titanium, aluminum, silicon, and sulphur.

See the full article and microscopic images of the metals at childrenshealthdefense.org/.

The following excerpt is from *How to Raise a Healthy Child... In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

“If you think about the relationships you have had with doctors, I suspect you'll be surprised to discover that they're unlike those you have with anyone else who provides you with a service. The typical doctor-patient relationship is revealed in a phrase that has become part of the language—‘*doctor's orders.*’ Doctors *do* give orders to their patients; lawyers, accountants, and other professionals give advice. [...] The confidence inspired by the demeanor of pediatricians is, in my experience, undeserved. It tends to mask the elements of pediatric practice that are threatening to your child.”

CDC Backtracks on COVID Guidance as Damning Studies Mount

On August 11, 2022, the U.S. Centers for Disease Control and Prevention reversed its COVID-19 guidelines, and in effect admitted that all of its previous policies were utter garbage. The CDC is now advocating for taking personal responsibility and for everyone to decide for themselves “which prevention behaviors to use and when (at all times or at specific times), based on their own risk for severe illness and that of members of their household, their risk tolerance, and setting-specific factors.”

The CDC is also giving up on jab-status discrimination, stating its “COVID-19 prevention recommendations no longer differentiate based on a person’s vaccination status because breakthrough infections occur.” They also admit natural immunity—that resistance one develops from naturally contracting the disease—exists and works.

Testing is now reserved for those who “are symptomatic, or have a known or suspected exposure to someone with COVID-19”; isolation is only for those who are symptomatic and have tested positive; and contact tracing is now restricted to health care settings and select “high-risk congregate settings.”

These are positions that when previously expressed by qualified scientists and doctors would get them censored and deplatformed.

COVID Shots Are Causing Depopulation

According to Dr. Joseph Mercola, “The CDC’s about-face appears to be politically motivated, to give the Biden administration a ‘win’ before the midterm elections. Post-election plans include ‘the biggest vaccination campaign in history,’ so tyrannical overreaches may later resume...”

In a recent article Dr. Mercola wrote that a “major hurdle in the plan to launch the biggest vaccination campaign in history is the evidence showing *the COVID shots are already causing mass depopulation.*” He quotes from an article by *The Exposé*, August 7, 2022:

“COVID-19 vaccination is causing mass depopulation. This is an extremely bold claim to make. But unfortunately, this bold claim is backed up by a mountain of evidence contained in the confidential Pfizer documents and official Government data from around the world.”

Dr. Mercola continues:

“Indeed, excess deaths have skyrocketed since the release of the COVID jabs, and the timing is so exact, it can’t be explained away. In the U.K., they’re now masaging data to try to hide it....Eliminating confusion about the cause of these excess deaths are data comparing the mortality rates among those jabbed and the unjabbed. July 6, 2022, the British Office for National Statistics issued a report showing the mortality rates per 100,000 are consistently lowest among the unvaccinated, in all age groups.

“In the 18 to 39 age group, unvaccinated had a mortality rate of 14.1 per 100,000 during the month of May 2022, whereas those who got their first dose at least 21 days ago had a mortality rate of 42.6 per 100,000. The mortality rate for double-jabbed was 17.3 per 100,000 and triple-dosed had a mortality rate of 21.4 per 100,000.”

Infant Mortality Has Skyrocketed

The Exposé also highlights data showing infant mortality is now far above the norm. In Scotland, official data show neonatal deaths were 119% higher in March 2022 than the annual norm. Live birth rates are also plummeting around the world.

In Germany, the birth rate for January through April 2022 was 11% lower than the seven-year prepandemic average. And Pfizer’s own documents show nearly all pregnant women who participated in its trial—for whom birth outcomes were available—lost their babies. Only one of 29 known birth outcomes was classified as “normal.” The remaining 28 miscarried.

Plutonium Injected into Unsuspecting Americans in Nazi-like Experiment in the USA

The top secret experiments were overseen and approved by the notorious Jewish physicist **J. Robert Oppenheimer** (in photo), who built the atom bomb that murdered 250,000 Japanese citizens in 1945.

Dr. Hymer Friedell was part of the American team that went to Japan in 1946 to study the bomb’s medical effects. He was quoted in an AP article saying that the bomb hit the city “like a

giant flyswatter,” and that the Japanese victims “accepted it as somewhat of an honor that their city had been selected for the history-making event.”

The COVID-19 VACCINE: “We Have No RIGHT to Trust Them.”

Bizarre COVID Hospital Practice Exposed

The Informed Consent Action Network (ICAN) found that **Medical Center Hospital in Odessa, Texas**, covered the head and torso of a COVID-19 patient with a plastic drape “to prevent the virus from airborne spread to staff and other patients”—a thoroughly unscientific practice ICAN called “dangerous and irrational.”

Epoch News reports that nurses are witnessing hospital maltreatment of COVID-19 patients. One nurse reported that “The patients were all scorned because of their unvaccinated status and were given a combination of sedatives and the antiviral drug remdesivir. They were also kept isolated and malnourished and ultimately put on a ventilator before dying.”

The following excerpt is from *How to Raise a Healthy Child...In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

WHY PEDIATRICIANS ARE DANGEROUS....

1. The pediatrician serves as the recruiter for the medical profession. He indoctrinates your child from birth into a lifelong dependence on medical intervention. It begins with a succession of needless “well-baby checkups” and immunizations and then moves on to routine annual physical examinations and endless treatment of minor ailments that would cure themselves if they were left alone.

2. Pediatricians are the least likely of all specialists to tell parents about the potential side effects of the drugs and treatments they prescribe. What pediatrician ever told mothers of the evidence linking infant formula to high blood lead levels and Sudden Infant Death Syndrome (SIDS)? What pediatrician, until pressured to do so by media revelations, ever told parents of the risk of epilepsy and mental retardation associated with the immunizations that he performs?

3. The pediatrician’s wanton prescribing of powerful drugs indoctrinates children from birth with the philosophy of “a pill for every ill.” This may lead the child to the belief that there is a drug to treat every condition and that drugs are an appropriate response to normal feelings of frustration, depression, anxiety, inadequacy, insecurity, etc. Doctors are *directly* responsible for hooking millions of people on prescription drugs. [To be continued]

“The Nation of Islam has created a task force on the coronavirus. We will rely on our researchers and scientists in cellular biology, molecular biology, microbiology and other fields relevant to vaccine development. The only way to know what is in a vaccine is to look at it under a microscope. Anything less leaves us relying on hearsay.”

“This bill [D.C. legislation permitting children as young as 11 to be vaccinated without parental consent] is pure totalitarianism. This is an extreme and complete means of exercising the highest degree of control over human life. Those who sponsored it, those who voted in favor of it, are open enemies of the people of this country, especially the Black people of Washington, D.C....Parental rights are no different now than when the plantation owners could snatch our babies out of our arms and sell them at will. There should be a massive counterattack to such a horrifying, criminal action. This is what the **Honorable Minister Louis Farrakhan** referred to as a ‘declaration of war on all of us.’”

“They use monopolization of perception through a 24-hour news cycle. They stoked fear and ignorance, and most of all, they censored any dissenting opinion.... We cannot examine and analyze the COVID-19 unapproved experimental vaccine without a knowledge of the climate in which it was produced....**Minister Farrakhan** called it death in July, and in December, under the direction and control of the United States government, it in fact began killing people.”

“The good news is that millions of people have thus far resisted the aggressive efforts by the U.S. government and media giants to push these dangerous, experimental, so-called vaccines. To those who resist, we offer continuing support with testimony from [high-ranking experts] bearing witness to what **Minister Farrakhan** gave us directly from Allah (God) on July 4, 2020.”

Our Sister Minister Ava Muhammad edited the Depopulation Section of the Final Call Newspaper. Early on in the “corona virus crisis” she perceived in the way it was unfolding that it had less to do with health and more to do with the long-planned depopulation agenda that The Honorable Minister Louis Farrakhan has been warning us about for many years. Sister Ava began speaking out and in May of 2021 initiated the Special Section in the Final Call to warn our people so that they would not fall victim to Satan’s “diabolical scheme.” Here are some of her words of wisdom and warning:

“And the owners of the Elevated Places call out to men whom they recognize by their marks, saying: Of no avail were to you your amassings and your arrogance. Are these they about whom you swore that Allah would not bestow mercy on them? Enter the Garden; you have no fear, nor shall you grieve.”

—Holy Qur’an, Surah 7, verses 48-49

“Now the whole world knows there is a direct causal connection between these products and the deaths of thousands of people, along with hundreds of thousands of adverse events (injuries) in this country alone....Even more shocking is that these numbers are being dismissed as inconsequential or coincidental....In addition, they are people who were simply living their lives until they were coerced and cajoled by the government into subjecting themselves to fatal injury. The 1976 swine flu pandemic mass vaccination campaign was abruptly canceled after 53 deaths. In less than 6 months the COVID vaccines have killed more people than all available vaccines combined over a 15-year period (1997-2013).”

“It is sinful that despite the harm being done to human beings, the government continues to heavily promote the uptake of these vaccines. They are using celebrities, professional athletes, preachers, politicians, educators and everyday people to pressure us to ‘just get the shot.’ It is time for all of us to become more proactive in fighting this diabolical scheme. **The Honorable Minister Louis Farrakhan** has relentlessly stood up for Truth and for us for over 65 years. Can we just get behind him for once and for our own sake? These vaccines are being resisted by millions of people from every race, class and religion. We can defeat the Synagogue of Satan with the Help of Allah (God).”

“We are living in the Fullness of Time. So, when the **Honorable Minister Louis Farrakhan** speaks a thing, it happens in a few months rather than in a few decades, as we see with the COVID-19 vaccines....**Minister Farrakhan** is what the **Honorable Elijah Muhammad** declared him to be: A star that has no equal. That would be the Sun. When you see and hear him, his voice and the truth he delivers is Sunlight: it has weight; it puts pressure on anything it touches. *When we follow his guidance, we are in the light. When we don’t, we are in the dark. We cannot prove his power is from any other source except Allah and His Christ. His view is an aerial view, because he is Divinely Guided.*”

Florida Surgeon General Talks Big Pharma, Gov't Corruption

Florida surgeon general **Dr. Joseph Ladapo** was recently interviewed by **Del Bigtree** for the weekly *The Highwire* program (thehighwire.com).

Dr. Ladapo: The pharmaceutical companies—I had no idea how corrupt these companies were before the pandemic....[T]his whole pandemic has prompted me to just look more closely. But basically there's a string of history of these pharmaceutical companies clearly—it's so clear to me now—that they have one god [and] that god is money and profit, and it is not health, absolutely it's not health. And they make their decisions from the most base

Florida Surgeon General Dr. Joseph Ladapo and The Highwire's Del Bigtree.

and disgusting place that any entity could make its decisions. So how can you trust organizations like that? You can't trust them. You've got to regulate them. You need to double-check, triple-check, quadruple-check what they're doing. And you need to have boundaries around them. So I have less confidence in really everything that they're involved in now.

Del Bigtree: What would need to be changed at the CDC, the NIH, the HHS...?

Dr. Ladapo: I do think you need a purge of some of the, maybe a lot of, the individuals, particularly in leadership positions who think that it's more important to have a specific message than to be aligned with [the scientific] data. And even at lower levels, I think we could pitch it as “We can leave on friendly terms. This is a new mission. If you're not on board with this new mission, then we'll find a way to—you ought not be part of our organization. We've got nothing against you. This is what we're doing now.” And I think that's important and I hope that that happens soon...

Dr. Fauci—people don't even realize that guy, to the best of my knowledge, he's got no training in epidemiology—he's got no training at all....He's got no training in health policy. Dr. [Deborah] Birx—I'm not sure how much training she has in any of these topics—public policy, health policy, epidemiology....They weren't even keeping up with the scientific literature....These are the “trusted individuals”—I mean, that's a shame.

White House: God Made Two Arms for Two Jobs

In the strangest Revival Meeting ever recorded, the White House's COVID-19 coordinator **Dr. Ashish Jha** sermonized that, “*I really believe this is why God gave us two arms—one for the flu shot and the other one for the COVID shot.*” Jha (in photo) made the comment at an actual White House virtual press briefing, with the straight-faced participation of **Dr. Anthony Fauci** (NIAID), **Dr. Rochelle Walensky** (CDC), and **Sec. Xavier Becerra** (HHS).

This comes just hours after Fauci warned America that COVID Depopulation boosters may become an annual ritual: “We likely are moving towards a path with a vaccination cadence similar to that of the annual influenza vaccine, with annual, updated COVID-19 shots matched to the currently circulating strains for most of the population,” he said.

The following excerpt is from *How to Raise a Healthy Child... In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

WHY PEDIATRICIANS ARE DANGEROUS....

7. Pediatricians are the most likely of all specialists to enhance their income by promoting and defending laws that force patients to use their services. It is pediatricians, not politicians, who are responsible for mandatory use of silver nitrate or antibiotic drops in a newborn's eyes, mandatory school physical examinations that provide opportunities for “creative diagnosis” of nonailments, mandatory hospital births, and court-ordered use of controversial and unproven methods of treatment to which the parents object. Increasingly, one of the dangers inherent in taking your child to the doctor is the possibility that he may be taken from you and placed in state custody if you reject the treatment that his doctor demands. I have testified in behalf of the parents in many such legal actions in recent years.

8. Pediatricians are the principal foes of breastfeeding, despite incontrovertible evidence that it is one of the most effective ways to assure the future health of your child. Although the LaLeche League is beginning to counter the influence that the formula makers have long had on pediatricians, many doctors either fail to encourage or actively discourage breastfeeding. I won't go into all of the reasons for this, but it is worth noting that the growth of the pediatric specialty in the United States can be attributed in large measure to the financial support of the manufacturers of infant formula, who have long used pediatricians as unpaid salesmen.

Did Lockdowns Increase Mortality Rates?

Dr. Joseph Mercola reports that “Emerging statistics paint an alarming picture—far more have died after the rollout of this ‘super potion’ than during the height of the COVID pandemic in 2020. Yet the mainstream media are desperately trying to divert your attention from this elephant in the room.”

Many didn't have access to routine medical care during lockdowns, and are now dying from chronic diseases that went untreated. Just released data from United Kingdom show excess deaths in England and Wales were 14.4% higher than the five-year average—that's 1,350 more deaths per week than normal. A majority of these excess deaths were cardiovascular in nature—a primary adverse effect of the COVID jobs.

Dr. Mercola points out that “In the U.S., we lost 349,000 younger Americans to something besides COVID and non-natural death” in the last 18 months, “not counting the tens of thousands of death records that the CDC has inexplicably deleted. As much as 15% to 25% of the death reports that could indicate a COVID job death are missing. Other data show that during the fall of 2021, Millennials, aged 25 to 44, had an 84% increase in excess deaths.”

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

—The Most Honorable Elijah Muhammad

“COVID countermeasures seemed to disproportionately injure minorities. [...] The death rate from COVID-19 in Nigeria—which had a vaccination rate of 1.3%, was 15 deaths per million population—about 1/200 the death rate among Americans of 3,800 per million population. Haiti, with a vaccination rate of 1.4%, had a COVID death rate of less than 14 per million population. Why is it that COVID-19 barely touched scantily vaccinated African and Haitian populations while American Blacks died at 3.6x and Latinos died at 2.5x the rates of Whites in all age categories? Life expectancy among American Blacks dropped by 3.25 years. Shouldn't this be a subject of intense curiosity and energetic inquiry? Yet, Dr. Fauci has never acknowledged, much less attempted to explain these troubling discrepancies.” —Robert F. Kennedy, Jr., A Letter To Liberals (ebook ed.)

Many in Biden Administration, 12 US Agencies Involved in Social Media Censorship

More than 50 officials in President Joe Biden’s administration across a dozen agencies have been in communication with one or more major social media companies to try to get the companies to censor COVID-19 information that challenged the pro-vaccine narrative.

Documents show that a Facebook executive contacted Surgeon General Vivek Murthy, a Biden appointee, to say that they had taken steps “with respect to misinformation, as well as steps taken to further address the ‘disinfo dozen,’” including removing posts and pages of a group of effective influencers—a group that includes **Dr. Joseph Mercola, Robert F. Kennedy Jr., and Dr. Christiane Northrup.**

The documents that exposed this blatant assault on the First Amendment were part of a lawsuit levied against the federal government by the attorneys general of Missouri and Louisiana and other medical experts maligned by federal officials.

Surgeon General Dr. Vivek Murthy in an ill-fitting, totally useless paper mask.

“If there was ever any doubt the federal government was behind censorship of Americans who dared to dissent from official Covid messaging, that doubt has been erased,” Jenin Younes, a lawyer with the New Civil Liberties Alliance who is representing some of the plaintiffs in the case, said in a statement. *“The shocking extent of the government’s involvement in silencing Americans, through coercing social-media companies, has now been revealed.”*

Fibrous Clots Found in ‘VACCINATED’ Corpses

Funeral director Richard Hirschman reports that embalmers have been finding numerous long, fibrous clots in the bodies they are preparing for burial. These unidentifiable growths were unknown to them before the forced injections.

“Numerous embalmers from different states confirmed...that they have been seeing these strange clots, starting from either

2020 or 2021.... The string-like structures differ in size, but the longest can be as long as a human leg and the thickest can be as thick as a pinky finger.”

According to Hirschman, “Prior to 2020, 2021, we probably would see somewhere between 5 to 10 percent of the bodies that we would embalm [having] blood clots. We are familiar with what blood clots are, and we’ve had to deal with them over time,” he told the *Epoch Times*.

He says that now, 50 percent to 70 percent of the bodies he sees have clots. “For me to embalm a body without any clots, kind of like how it was in the day, prior to all of this stuff ... It’s rare. The exception is to embalm a body without clots,” he noted.

Wouter Basson was director of **Project Coast**, the White South African biological and chemical warfare agency that developed various poisons, viruses, biological agents, and drugs to use against Blacks, including a **vaccine that caused sterility.**

Basson was called the “Mengele of South Africa” and was suspected of at least 229 poisoning murders. When asked about his racist operation, Basson did not mention Hitler, Mengele, or the Nazis: *“I must confirm that the structure of the project was based on the U.S. system. That’s where we learnt the most.”*

Ivermectin reduces COVID death risk by 92%, peer-reviewed study finds

A new peer-reviewed study found that regular use of ivermectin reduced the risk of dying from COVID-19 by 92%.

The study was conducted on a strictly controlled population of 88,012 people from the city of Itajaí in Brazil.

Individuals who used ivermectin as prophylaxis or took the medication before being infected by COVID experienced significant reductions in death and hospitalization.

According to the study, those who took ivermectin regularly had a 92% reduction in their COVID death risk compared to non-users and 84% less than irregular users.

“The hospitalization rate was reduced by 100% in regular users compared to both irregular users and non-users,” the study stated.

The impressive reduction for regular ivermectin users was evident despite the regular

users being at a higher risk for COVID deaths. The regular users were older and had a higher prevalence of type 2 diabetes and hypertension than irregular and non-users.

Irregular users of ivermectin had a 37% lower mortality rate reduction than non-users. The study defined regular users as those who used more than 30 tablets of ivermectin over five months. The dosage of ivermectin was determined by body weight, but “most of the population used between two and three tablets daily for two days, every 15 days.”

“Non-use of ivermectin was associated with a 12.5-fold increase in mortality rate and a seven-fold increased risk of dying from COVID-19 compared to the regular use of ivermectin,” the study read.

Social Distancing? They Just ‘Made It Up!’

Dr. Paul Alexander (left), a former official at the Department of Health and Human Services (HHS), is speaking out about what he witnessed in the top echelon of the U.S. government “health” system.

Here he recounts a conversation he had at the beginning of the *plandemic* with the then head of the CDC, **Dr. Robert Redfield**:

“So I asked him, I said, ‘So, Dr. Redfield, can you tell me, can I get an example of the science and the studies that the CDC used to make that social distancing six feet rule?’ He had come to our office to have a discussion with a couple of my bosses. And I was there in part of the meetings. So I was walking with him after the meeting, and he looked at me—and we got along well—and he chuckled and he said, ‘Paul, science’—this is paraphrasing what he said— *‘Science; there’s no science; we made it up.’*”

“And I was stunned. I stood there and I looked at him and said, ‘Dr. Redfield, what do you mean *made it up*?’ And, like, I was laughing. And he said, *‘Well, some people talked 12 feet, some said 9, some said 1; some countries talked about 3 feet; it looked like 6 feet would have worked, so we went with 6 feet.’*”

“I was so stunned and I couldn’t understand how the United States, we made this 6-foot policy. *Businesses closed forever because of this 6-foot policy. People couldn’t hold on in their businesses to have 6 feet between the 12 chairs that they had in their restaurant—they had to close. And some of those business owners self-harmed. We knew, because the data was coming from the states up to our office at the HHS first before we [sent] it up to the White House. And I can tell you they have business owners that committed suicide, because of that 6-foot rule.* It eventually destroyed their lives and their livelihood.

“Even [Pfizer board member] **Scott Gottlieb**...I heard him say that once in a press release recently, more recently, that the 6-foot rule was arbitrary and just made up. So I was vindicated because that was the fact. And it’s really shocking that the CDC made policy like that that affected lives—it was not based on science.”

EDITOR’S NOTE: During an appearance on CBS’s “Face The Nation,” Dr. Scott Gottlieb, who was also the former commissioner of the Food and Drug Administration (FDA), said of the six foot rule that destroyed so many lives and businesses: “Nobody knows where it came from.” Confirming Dr. Alexander, Gottlieb said the “6-foot rule” was “arbitrary” and “a perfect example of sort of the lack of rigor around how CDC made recommendations...”

The following excerpt is from *How to Raise a Healthy Child... In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

WHY PEDIATRICIANS ARE DANGEROUS....

Despite all this evidence of negative effects from pediatric care, the myth persists that American children enjoy better health care because of our abundance of pediatricians. That belief is wrong on two counts. First, infant mortality statistics reveal that American children are less healthy than those in many other developed nations that have few pediatricians. They’re even less healthy than children in some of the underdeveloped countries. Second, the reason our children are less healthy may well be *because* of our abundance of pediatricians.

Despite evidence to the contrary, public health policy in the United States is based on the premise that access to care determines the health of a population. Doctors have succeeded in convincing politicians of this, even though they can’t prove it. I believe that as long as emergency medical services are available, access to *routine* medical care probably has a negative effect on health. We’ve seen it happen in California, Saskatchewan, Israel, and elsewhere: *call a doctor’s strike and the death rate goes down!*

KEY TO HEALTH: STAY AWAY FROM DOCTORS!

The best way to raise a healthy child is to keep him away from doctors, except for emergency care in the case of an accident or an obviously serious illness.... [T]he “well-baby visit” [is] a cherished ritual of pediatricians that enhances their income but does nothing constructive for your child.

‘Booster’ Tested on 8 Mice. Now YOUR TURN

U.S. “health” authorities approved Pfizer’s latest “booster,” potentially rolled out to hundreds of millions of people with the associated coercion and mandates. Yet this “emergency” approval was *based on a study of 8 MICE*—no human trials at all! Moderna also used mice but has not disclosed the number of mice used. 8 MICE, 330 MILLION GUINEA PIGS.

Letter From A Well-Educated Nurse

To whom this may concern:

Among all the vaccines I have known in my life (diphtheria, tetanus, measles, rubella, chickenpox, hepatitis, meningitis and tuberculosis as well as flu and pneumonia vaccines), I have never seen a vaccine that forced me to wear a mask and maintain my social distance, even when fully vaccinated. I had never heard of a vaccine that spreads the virus even after vaccination. I had never heard of rewards, discounts, and incentives to get vaccinated. I never saw discrimination for those who didn’t accept vaccination; no one would try to make you feel like a bad person. I have never seen a vaccine that threatens the relationship between family, colleagues and friends. I have never seen a vaccine used to threaten livelihoods, work or school, one that would allow a 12-year-old to override parental consent. Including all the vaccines I listed above, I have never seen a vaccine like this one, which discriminates, divides and judges society. *It’s a powerful vaccine. It does all these things except IMMUNIZE!* If, fully vaccinated, we still need a booster dose, still need to get a negative test, still need to wear a mask and still wind up in the hospital, it is time for us to admit that we’ve been completely deceived.

Thank you for your time, Christine, RN

King of Depopulation

Long ago, Prince Charles, now Britain’s new monarch, warned the world what he would do if he were king. Speaking at Climate Week 2020 Prince Charles said: *“We’ve so degraded natural systems, ecosystems, biodiversity, that it’s becoming increasingly impossible for nature to sustain us.... At the moment it’s all take, take. Now we’ve reached the situation where we really need four planets like earth to survive or provide enough for everybody.”*

He said that he sees many environmental disasters and that *“we can no longer go on like this, as if there was no tomorrow and no ultimate reckoning for our abuse of nature.... So what do we do? Without doubt we must now put ourselves on a war-like footing, approaching our action from the perspective of a military-style campaign. That way, working together, we can combat this most grave and urgent challenge.”*

In this 1992 photo, Prince Charles stands with President of Czechoslovakia Vaclav Havel (l), and the current driver of the world plandemic, Klaus Schwab (c) of the World Economic Forum.

Prince Philip (left), the recently deceased father of the new “king,” offered his thoughts on the world’s “most pressing problem” and what needed to be done:

“Human population growth is probably the single most serious long-term threat to survival.

We’re in for a major disaster if it isn’t curbed—not just for the natural world, but for the human world. The more people there are, the more resources they’ll consume, the more pollution they’ll create, the more fighting they’ll do. We have no option. If it isn’t controlled voluntarily, it will be controlled involuntarily by an increase in disease, starvation and war.”

More directly, Prince Philip is quoted as saying something that sounds very much like a royal gain-of-function lab-leak:

“In the event that I am reincarnated, I would like to return as a deadly virus, to contribute something to solving overpopulation...”

It is likely that “King Charles” will use the power of the British throne to pursue and promote the longterm objectives of depopulation—by any means necessary.

DePopulation—All Systems GO! U.S. Life Expectancy Drops To Lowest Levels Since 1996

Biden’s DEPOPULATION Trick Bag

The Government has a real dilemma: It needs to convince the unjabbed that the jab works in order for them to get their first two doses, whilst at the same time convince the jabbed that they don’t work in order to get their boosters! Let that sink in for a minute.

VACCINE PASSPORTS: The New ‘Slavery System’

Banker Catherine Austin Fitts discusses the hidden danger of the system that is quietly being put into place—the VACCINE PASSPORT:

Catherine Austin Fitts

“Vaccine passports or Digital I.D. Wallets or whatever name they call it—if it snaps into place with an all-digital financial system including CBDCs (central bank digital currency), that will convert our home, our car, and our communities into digital concentration camps. And I don’t use that term lightly.

“At that moment there will be no hope of building anything. We will have entered into a slavery system in which a handful of the most powerful people in the world can strip you and I of our assets, of our children, and control literally every aspect of our life—where we go, what we read, what we say, and what we eat. And of course as you know, they are planning insects [as food] and synthetic food.

“We have one—maybe two—years to stop it. If we don’t, most of what we are discussing today will be moot. So, we need to be designing local currencies. But not for digital concentration camps—we need to make sure that doesn’t happen.”

America *APPEARS* to be relaxing its depopulation restrictions in the face of the people’s massive distrust of the government and its repressive “pandemic” actions (and upcoming elections), but many states have put in place the technology necessary to implement a Proof-of-Vaccination system, described by Ms. Fitts.

American History of Medical Racism & Savagery

Between 1992 and 1997 Dr. Gail Wasserman of Columbia University, a Jewish psychiatrist, conducted several studies using the now-banned drug fenfluramine on at least 126 Black boys between the ages of 6 and 10. She was attempting to establish a genetic link between Black males and violence. She targeted the younger brothers of non-white boys who had previously been arrested. Wasserman said, *“It is proper to focus on blacks and other minorities as they are over-represented in the courts and not well studied.”*

Video: Israeli Health Officials Covered Up Serious Problems With Pfizer “Vaccine”

By way of deception, the Israeli government concealed damning data about serious damage caused by the Pfizer “vaccine.” A leaked video shows how Israeli health officials privately planned to falsely sell the public a “safe and effective” vaccine they knew was ineffective and dangerous.

This matters to Americans because U.S. health officials have openly and publicly stated that they “follow the science” from Israel and its COVID-19 policies. Dr. Anthony Fauci, for instance, said to the *Times of Israel*, “I use Israel as an example of what can happen when you effectively vaccinate a substantial proportion of the people.” When it comes to coronavirus vaccines, he said, “Israel is where you wanted to be.”

Pfizer CEO Albert Bourla made an exclusive “deal” with Israel’s Prime Minister Benjamin Netanyahu to distribute the Pfizer DePop poison to Israeli citizens.

The *Washington Post* quoted a top CDC official who asked, “Why are we dependent on Israeli public health data?” And the *New York Times* reported that U.S. regulators recommended “booster shots” for elderly Americans “based heavily on data from Israel...”

But the leaked video shows that the data they presented publicly directly contradicted what the Israeli scientists and health officials discussed privately. The researchers warned that “they should think carefully about how to present the researchers’ findings to the public because they posed a *potential legal risk*, as the findings contradicted [their] claims that serious side effects are rare and short-term.”

In the video researchers noted *“the recurrence or worsening of a side effect following repeated doses of the vaccine...”* and “that their findings indicate that—contrary to what we were told so far—in many cases, **serious adverse events are long-term**, that last weeks, months, a year, or even more, and in some cases—ongoing, so that the side effect still lasted when the study was over.”

Vaccine researcher Steve Kirsch wrote: *“This is a level of corruption that is unprecedented. The atrocities here are clear-cut.... Everyone should be speaking out and calling for a full investigation and fully evaluating the safety data collected by the Israel government.”* [<https://stevekirsch.substack.com/>]

Biden: “The Pandemic is Over”

Pres. Joseph Biden told CBS’s *60 Minutes*:

“The pandemic is over. We still have a problem with COVID. We’re still doing a lotta work on it. But the pandemic is over. If you notice, no one’s wearing masks. Everybody seems to be in pretty good shape. And so I think it’s changing.”

Biden’s “pandemic” may be over but the depopulation PLANDEMIC is in full swing. The government’s declared “emergency,” under which millions of jobs and businesses were destroyed, is still firmly in place. The mass censorship, deplatforming, and public shaming of the most intelligent among our medical professionals, has not been corrected. The abject failure of the vaccine-only policy of the Fauci-led criminal cabal has not been dismantled.

They have only just begun. On September 12, Biden signed a new Executive Order that calls

for the rapid development of a “bioeconomy” to address “societal goals” like PROGRAMMING HUMAN BIOLOGY! The order refers to a bioeconomy as an “economic activity derived from the life sciences, particularly in the areas of biotechnology and biomanufacturing, including industries, products, services, and the workforce.”

Most shocking, the order directs multiple federal agencies to work with the private sector to develop genetic engineering technologies to “write circuitry for cells and predictably program biology in the same way in which we write software and program computers; unlock the power of biological data, including through computing tools and artificial intelligence.”

Section 7 of Biden’s Frankenstein Order harkens back to the 40-year **Tuskegee Syphilis Operation**: “This plan shall also include a focused discussion of **Historically Black Colleges and Universities, Tribal Colleges and Universities, and Minority Serving Institutions** and the extent to which agencies can use existing statutory authorities to promote racial and gender equity and support underserved communities...”

Depopulation on a scale necessary to achieve the U.S. objectives outlined in **Henry Kissinger’s** Memorandum 200 is foreseeable in Biden’s slickly worded Executive Order. And the “Minority Serving Institutions” he refers to should understand that they ARE NOT the beneficiary—they are the TARGET.

Tuskegee Experiment Syphilis with a smile.

“The vaccine has divided families: those who took it and those who didn’t. Then the media comes out saying, ‘this is a pandemic of the unvaccinated!’

And it’s these people that will not be vaccinated—they are the ones that keep us from achieving herd immunity. And along came the Amish. The Amish people didn’t take no shot; they caught COVID-19 and they beat it. And they beat it and they have achieved herd immunity among themselves...If you want to survive this, you don’t have to take a shot.”

Vaccine Corner

[from the book **VACCINES: The Biggest Medical Fraud in History**]

*“[O]ur medically controlled Health Boards cook up fake epidemics, create panics for profit, such as the ones in Kansas City in 1921, Pittsburgh in 1924, Philadelphia, Baltimore, Washington in 1925. An effort was also made to create a panic in New York in 1925, but due to the open fight against it by the *New York Evening Graphic*, the Commissioner of Health called it off.” —Dr. Herbert Shelton (1895–1985)*

Behind the news anchors, behind the pediatricians, behind the medical doctors, behind the TV personalities, behind the corrupt bureaucrats and politicians, are the drug companies (vaccine manufacturers) directly or indirectly paying their salaries. The drug companies stand to make billions from these fabricated disease pandemics. Disease mongering has been ongoing since 1796—when the first smallpox vaccine was introduced.

Anytime you hear about a disease that is about to annihilate the human race, ask yourself these questions:

- Who benefits from disease mongering and the sale of vaccines?
- What is the chance of me contracting this disease if I don’t vaccinate versus if I do vaccinate?
- What are the risks of vaccination? (allergies, asthma, brain damage, autoimmune diseases, cancer, and death)
- What causes these diseases?
- Has there been a study demonstrating that these vaccines work? For example, 100,000 vaccinated subjects versus 100,000 unvaccinated subjects.

In every instance, without exception, you’ll find that you have a higher chance of being struck by lightning than dying from these diseases. In nearly every case, the disease was manmade, caused by industrial chemicals such as pesticides, vaccine ingredients, antibiotics, and medicines (petrochemicals). Or worse, concocted in clandestine laboratories and released onto the unsuspecting public.

Islamic Scholar: ‘We have great suspicion’ of COVID ‘Vax’

Imran Nazar Hosein (born 1942) is a Trinidadian and Tobagonian Islamic scholar, author of *Jerusalem in the Qur’an* and other books. He was asked recently about the “COVID-19” issue:

Imran Hosein: But this particular vaccine we have great suspicion concerning it....There are many in the world today who hold the view that I hold: that there is a sinister agenda attached to this vaccine. What is that agenda? We don’t know. It could be—

Interviewer: Who makes that agenda?

Imran Hosein: It could be that when you take the first vaccine, you’ll have to take a second, and a third, and a fourth, and a fifth, and a sixth. And eventually they’ll come in a vaccine which will put something in your body which will allow you to be

tracked. Wherever you go, they can track you. I don’t want that in my body, so I’m not going to take any vaccine.

And there are many, many who hold the same view. Now in some countries they’re making [it] mandatory for the children. The children cannot go to school unless they have the vaccine—that is monstrous oppression.

Interviewer: Were we prepared for this new wave of pandemic?

Imran Hosein: *This virus came to us suddenly, and no one knew it was coming. But from the way it came, it was very plain and clear that it was preplanned. There was an enormous amount of planning that took place before the vaccine was released into the world. Who are those who planned it? Who are those who are pursuing a particular agenda with this virus and vaccine? My answer is: the same people who gave us 9/11 are the same people who are giving us this virus.*

Dr. Alim Warns Public About ‘Vaccine’

Interviewer: ...first and second doses—is there anything that they can do to mitigate any risk associated with taking a vaccine?

Dr. Abdul Alim Muhammad: *Okay, let me correct something that is a part of the disinformation campaign. Everybody has been told that this is an experimental vaccine, that it hasn't been tested, and all of that. That's not true. It has been tested. When they tested the mRNA vaccine technology, they first tested it in humanized mice. And after two months, 100 percent of the mice had died.*

They did the same experiment injecting the mRNA technology into monkeys. And the same result: 100% death rate. And at autopsy that mRNA was found in every organ throughout the body.

So, again, we have to correct the record: they did an experiment that proved that the mRNA technology is 100 percent lethal.

Now, if you translate mice lifespan into human lifespan terms, 2 months of a mouse's life is two years of a human's life. So if 100% of the mice died in two months—according to Dr. Judy Mikovits, according to Dr. Luc Montagnier, the Nobel Prize laureate—the people who have been vaccinated will be dead in 2 years. Now, to get to your question, Can anything be done about what has already been proven to be the case? We should stop calling things by their wrong names. This is a biological weapon. The spike protein is a biological weapon to kill you.

FEAR Campaign Targeted Un-Vaxxed for Destruction

Dr. JOSEPH MERCOLA writes: “Scientists on a committee in U.K. that encouraged the use of fear to control people's behavior during the COVID pandemic have admitted its work was ‘unethical’ and ‘totalitarian.’ Members of the Scientific Pandemic Influenza Group on Behavior (SPI-B) expressed regret about the tactics in a new book about the role of psychology in the Government's COVID-19 response.”

Several of the SPI-B members are quoted in the book *A State of Fear: How the UK Government Weaponised Fear During the Covid-19 Pandemic*, by Laura Dodsworth.

SPI-B warned in March last year that ministers needed to increase “the perceived level of personal threat” from COVID-19 because “a substantial number of people still do not feel sufficiently personally threatened.”

Another member of SPI-B said they were “‘stunned by the weaponization of behavioral psychology’ during the pandemic, and that ‘psychologists didn't seem to notice when it stopped being altruistic and became manipulative. They have too much power and it intoxicates them.’”

ates them.”

Dr. Mercola said that these governments “manufactured fear”: “For nearly two years, governments around the world, with few exceptions, have fed their citizens a steady diet of frightening news. For months on end, you couldn't turn on the television without facing a tickertape detailing the number of hospitalizations and deaths.

“Even when it became clear that people weren't really dying in excessive numbers, the mainstream media fed us continuous updates on the growing number of ‘cases,’ without ever putting such figures into context or explaining that the vast majority were false positives.”

He quotes the author Laura Dodsworth: “People don't enjoy being hoodwinked and they don't want to live in a state of fear. We maybe need to be a bit bolder about standing up more quickly when something is not right.”

According to Dodsworth, **giving out contradictory recommendations and vague instructions is being done intentionally, to keep you psychologically vulnerable.**

“When you create a state of confusion, people become ever more reliant on the messaging. Instead of feeling confident about making decisions, they end up waiting for instructions from the Government,” she said.

An example provided by Dodsworth are the pandemic measures implemented over Christmas 2020: “Family Christmases were on, then off, then back on, then off again. You have got someone tightening the screw, then loosening the screw, then tightening it again. It's like a torture scenario.”

But that's not all. As explained by psychiatrist Dr. Peter Breggin, **“by layering confusion and uncertainty on top of fear, you can bring an individual to a state in which they can no longer think rationally. Once driven into an illogical state, they are easily manipulated.** I have no doubt driving people into a state where logic and reason no longer registers is the whole point behind much of the conflicting information we're given.”

Vaccine Expert Says No to ‘Boosters’

Dr. Paul Offit was once considered one of the most prominent cheerleaders of the COVID ‘Kool Aid’ vaccines:

“Right now they are saying that we should trust mouse data and I don't think that should ever be true. I don't think you should ever ask tens of millions of people to get a vaccine based on mouse data.”

Offit said that the Food & Drug Administration (FDA) DID NOT consult its own advisory committee (of which he is a member) before deciding to push the mouse mRNA boosters on the population. And by not doing so Offit says the FDA is saying in effect, **“We're not going to be transparent about what we have to the American public. And I just think that's not fair.”**

Thousands of Doctors Say Alarming Number of Excess Deaths are Caused by ‘Vaccine’

Medical doctors and scientists from all over the world have declared **“an international medical crisis due to the diseases and deaths co-related to the administration of products known as ‘COVID-19 vaccines.’”**

They write that “We are currently witnessing an excess in mortality in those countries where the majority of the population has received the so called ‘COVID-19 vaccines.’ To date, this excess mortality has neither been sufficiently investigated nor studied by national and international health institutions.”

The large number of sudden deaths in previously healthy young people who were inoculated with these “vaccines”, is particularly worrying, as is the high incidence of miscarriages and perinatal deaths which have not been investigated.

A large number of adverse side effects, including hospitalisations, permanent disabilities and deaths related to the so-called “COVID-19 vaccines”, have been reported officially. The registered number has no precedent in world vaccination history.

Examining the reports on CDC's VAERS, the UK's Yellow Card System, the Australian Adverse Event Monitoring System, Europe's EudraVigilance System and the WHO's VigiAccess Database, to date there have been more than 11 million reports of adverse effects and more than 70,000 deaths co-related to the inoculation of the products known as ‘covid vaccines.’

We know that these numbers just about represent between 1% and 10% of all real events.

Therefore, we consider that we are facing a serious international medical crisis, which must be accepted and treated as critical by all states, health institutions and medical personnel worldwide.

Pharaoh's Modern Pharma Army

What is this army that the modern Pharaoh has sent out to kill the children of the former slaves, since we are the fulfillment of the prophetic picture of the Children of Israel? What is Pharaoh's army? Is the Food and Drug Administration (FDA) a part of that army? Is the Centers for Disease Control (CDC) a part of that army? Are the pharmaceutical companies a part of that army? Is the American Medical Association (AMA) a part of that army? Are the court system and the prison system a part of that army? Is the closing of hospitals in the Black community—is that part of the plan? Is the placement of Black people near hazardous waste sites—is this a part of the armed forces that have been let loose to kill the modern Moses and Aaron and to kill the modern Children of Israel?

CDC: Suicide attempts among teen girls increased 50% during plandemic

Suicide is the third leading cause of death among young people in the U.S., according to the Centers for Disease Control and Prevention. Since 2019, the number of teenage girls who have been suicidal has increased 50%.

Depression and suicides were increasing for teenage girls between 2019 and 2021, with experts attributing pressure amid COVID-19 plandemic shutdowns as a major culprit.

The increase was first noted in early May 2020, when E.R. visits for suspected suicide attempts began increasing among adolescents, especially among girls. By that August suicide attempts among girls was 26.2% higher than during the same period a year earlier. Last winter E.R. visits for suspected suicide attempts were 50.6% higher among girls compared with the same period in 2019.

Government Depopulators generated mass fear and anxiety, which seem heightened in young girls, leading to this drastic result. The loss of a girl by suicide, in their diabolical calculation, amounts to an immediate population reduction of 1, and the loss of her future generations.

U.S. abortions rose in 2020, with about 1 in 5 pregnancies terminated

Black baby abortion has always been one of the main methods of mass racial DEPOPULATION. And now, after a long decline, the number and rate of U.S. abortions increased under the last two years of the COVID population reduction operation.

The pro-abortion Guttmacher Institute counted more than 930,000 abortions in the U.S. in 2020. That is up from about 862,000 abortions in 2017, which was the lowest yearly number since the 1973 U.S. Supreme Court ruling that legalized the procedure nationwide.

About one in five pregnancies ended in abortion in 2020, possibly related to the fear and anxiety purposely generated by the plandemic leaders. Additionally, it is speculated that easier access to financing available through Medicaid may have aided in the increase. In 2020, fewer women were getting pregnant and a larger share of them chose abortion. According to the Guttmacher report, medication abortions, the two-drug combination sometimes called the “abortion pill,” accounted for 54 percent of U.S. abortions in 2020, the first time they made up more than half of abortions.

Black women account for 38.4% of abortion recipients, the largest share among other racial and ethnic groups, according to 2019 data from the CDC. That year, white women had the lowest abortion rate (6.6 abortions per 1,000 women and 117 abortions per 1,000 live births), and Black women had the highest (23.8 abortions per 1,000 women and 386 abortions per 1,000 live births).

In 2019, 14.5% of women who obtained an abortion were married, and 85.5% were unmarried. The abortion ratio was 46 abortions per 1,000 live births for married women and 394 abortions per 1,000 live births for unmarried women.

Planned Parenthood is the largest abortion provider in the world. Its founder is Margaret Sanger:

“The most merciful thing that the large family does to one of its infant members is to kill it.”

Nearly Half of Pregnant Women in Pfizer Trial Miscarried

According to Dr. Naomi Wolf, who has analyzed 300,000 Pfizer documents released via a Freedom of Information Act, **44 percent of pregnant women who participated in the drug maker's COVID-19 vaccine trial lost their babies.** Dr. Wolf spoke to Steve Bannon:

“Women will understand how tragic this is. Pfizer took those deaths of babies, those spontaneous abortions and miscarriages, and recategorized them as ‘recovered result adverse effects.’ In other words, if you lost your baby, it was categorized by Pfizer as a resolved adverse event, like a headache that got better.”

Despite proof of Pfizer's baby-killing kool-aid, the CDC recommends COVID-19 “vaccines” for “people who are pregnant, breastfeeding, trying to get pregnant now, or might become pregnant in the future.”

Vaccine Corner

Almost everyone has seen the many horrific videos of young and apparently healthy people dropping dead without warning or obvious cause. The phenomenon is known as **SADS—Sudden Adult Death Syndrome.** In light of the **OBVIOUS** connection to the deadly COVID “vaccines,” many are revisiting **Sudden Infant Death Syndrome, known as SIDS,** to see whether childhood vaccines may also be the cause.

Barbara Loe Fisher, coauthor of *DPT: A Shot in the Dark*, cofounder of **National Vaccine Information Center (NVIC.org)**, and mother of a brain-injured son, addressed the SIDS-vaccine connection, in the online journal *The Vaccine Reaction*:

“From the beginning, death has always been a consequence of vaccination....Since 1986, the Government has awarded over \$2 billion in compensation for deaths and injuries caused by vaccines.

“A nation which spends more per capita on healthcare and requires their children to get more vaccines than any other should have one of the best infant mortality rates, not one of the worst. When healthy babies die shortly after their vaccinations, parents legitimately ask whether vaccines did it, and are met with quick denials by doctors and public health officials.

“Their death certificates typically list SIDS as the cause, which means that no specific symptoms or reason for death could be found. Yet most babies dying after their shots are not found dead in their cribs without any symptoms, but rather have suffered for days with high fever, collapse, screaming, arching of the back, diarrhea, and the like, which their pediatricians often dismiss as unimportant. Others suffer mental and physical deterioration that gets worse after each shot until they are found dead in the crib. The inconvenient truth remains that there are more full-term babies dying before their first birthday than in most developed nations of the world.”

Fauci Admits He Knew his ‘Draconian’ Lockdowns Would Damage School Children

Dr. Anthony Fauci was recently caught trying to dodge responsibility for ordering the country into lockdown. When asked, “Do you regret the sweeping shutdown that some said made things worse?” Fauci said, “No, I don’t...And in fact...I didn’t shut down anything.”

Yet an almost braggadocious Fauci is on the record in October of 2020 recalling publicly that he advised President Donald Trump: *“When it became clear that we had community spread in the country...I recommended to the president that we shut the country down. That was a very difficult decision, because I knew it would have serious economic consequences, which it did.”*

Most recently Fauci, whose “COVID” response measures are among the worst of all 200 nations on earth, has admitted that he was aware of the damage the lockdown policies would cause on those who were least threatened by “COVID-19”—the children:

“And sometimes when you do draconian things, it has collateral negative consequences, just like when you shut things down, even temporarily, it does have deleterious consequences on the economy, on the schoolchildren. You know that.”

Fauci ignored the many nations and states that fared far better without “draconian” damage inflicted on its most vulnerable. Fauci’s comments followed a bombshell education report revealing that COVID-19 lockdowns, which led to school closures and virtual learning polices, resulted in what the Department of Education said was *“the largest average score decline in reading since 1990, and the first ever score decline in mathematics”* among the nation’s schoolchildren.

Judge Rules Against Vaccine Mandate for NYC Police

Judge Lyle Frank said in a Sept. 23 ruling that an estimated 1,750 New York City police officers who lost their jobs for refusing the poison needle must be “reinstated to the status they were as of the date of the wrongful action.”

In a bizarre action 850 more NYC teachers and classroom aides who refused the chemical “COVID” injections were fired, bringing the total to nearly 2,000 school employees. **Mayor Eric Adams**, having not a trace of logic guiding his plandemic policies, simultaneously announced that high school students would no longer have to be “vaccinated” to engage in sports and other extracurricular activities, even while stressing the need for New Yorkers to get their COVID booster shots.

Mayor Adams has not lifted the “vaccine” mandate, while other cities and states are dropping such requirements due to revised CDC guidelines and upcoming elections.

Study: Chronic Asthma Linked to Childhood Vaccines

A new study has found a possible link between aluminum used in vaccines that are given to young children in the first two years of life, and the risk of developing asthma before age 5. The new study is based on a large group of nearly 327,000 children born between the start of 2008 and the end of 2014.

The study suggests that young children who were vaccinated with most or all of the recommended aluminum-containing vaccines had at least a 36% higher risk of being diagnosed with persistent asthma than children who got fewer vaccines. The study’s authors said that their findings open the door to further research on this issue.

The CDC, which many critics say is simply a “captured” rubber stamp agency for the pharmaceutical companies, actually funded the study, but it was quick to downplay the results. The agency claims an increase in asthma among young children predated the addition of aluminum to vaccines, which occurred in 1991. But other reports assert that aluminum has been used in some vaccines since the 1930s. Aluminum is used in a number of vaccines as an *adjuvant*—a way to boost the immune response the vaccine triggers. By age 2, most children are vaccinated against 15 diseases, and aluminum adjuvants are in vaccines for seven of them, including diphtheria, tetanus, and pertussis; hepatitis B; and some flu vaccines. The CDC noted that many factors that couldn’t be measured in this study might increase a child’s risk of developing asthma. Fox News quoted Dr. Sarah Long, professor of pediatrics at the Drexel University College of Medicine:

“I believe in complete transparency. If you’ve asked a question and here spent our (taxpayer) money to (investigate) that question, I think the results should be aired in all of its warts and glory.”

American History of Medical Racism & Savagery

The Tuskegee Experiment: A U.S. Government Nazi-Like Atrocity

The Tuskegee human guinea pig experiments were conducted in Alabama between 1932 and 1972 on 431 Black men who were tricked into believing they were receiving medical treatment for a painful ailment they were told was “bad blood.” The disease was syphilis, and the doctors were well aware that its unchecked spread would ultimately kill those afflicted. Though it could be treated and cured with penicillin, doctors instead gave the men placebos and watched 28 of them slowly die of the untreated disease. The doctors said nothing as they unwittingly spread it to others. Syphilis can also sterilize the sufferer and so depopulation was a likely aim of these government doctors. It was the longest human experiment ever recorded and in its pure wickedness mirrors the Nazi experiments on Jews in the concentration camps.

The COVID-19 VACCINES: “We Have No RIGHT to Trust Them.”

Pfizer V.P. Says COVID Policy is Being Made by ‘Satan Worshipers’

Dr. Mike Yeadon (in photo) is a former vaccine scientist at Pfizer, where he became a vice president. He is making astonishing statements about the aims and objectives of those who are pushing the COVID “vaccines”:

The clinical trials were fraudulent. There are court cases ongoing right now. The manufacturing was fraudulent: they didn’t do the production R&D required—it would take at least 2 years to do that. That means the regulatory authorizations were fraudulent. So FDA and CDC, the European Medicines Agency, the MHRA [Medicines & Healthcare products Regulatory Agency] in Britain—they’ve all behaved fraudulently, pretty much by closing their eyes and just rubber-stamping it. So they’ve not been tested; they’re not safe; they don’t work. They could never have worked in the elderly, and yet they are toxic...

The very design of them could not have been more dangerous. They picked the only part of this purported pathogen—the spike protein—to express in your bodies. Your bodies are turned into a spike protein factory, and spike proteins are definitely acutely toxic in loads of different ways: autoimmunity, blood clots, neurological problems, impact on fertility, and so on.

So I’ve told you that they’ve created the impression of a scare; they’ve smashed the economy and civil society using useless measures; they’ve got you to wait for a rushed so-called vaccine that has not shown to be effective or safe, that never could have worked, even if the original setup about a viral threat was correct. And yet they’ve jabbed—I don’t know—4 billion, 6 billion poor souls. Something like one in a thousand people have died. We don’t know how many more will die. But we’re into double figures of millions who’ve definitely been killed as a consequence of this policy. And that tells you that the people who are doing this are ruthless, I’d say diabolical. That we’re beyond wrong and right...

We’re in the good versus evil. I’m not, I’ve not been a religious person, but I’m absolutely clear in my mind: the only people—the kind of planning and thinking it takes to have done what has happened—are people who would worship Satan. They’re not normal people. I couldn’t do one part of this and continue to be alive after I’ve done it.

Canada Uses Suicide to DePopulate

How do the DEPOPULATORS take advantage of the fear, anxiety, loneliness, and depression their COVID media onslaught foisted on the public? SUICIDE! The rising number of deaths in Justin Trudeau's Canada by doctor-assisted suicide has "quickly become normalised," *The Lancet* has reported.

Canada legalized doctor-assisted suicide in 2016, but it was required that the person seeking the "service" be terminally ill with an incurable illness with their death in the foreseeable future. That changed in 2021 under Canada's depopulation overdrive now in effect: the "imminent death" requirement was removed!

Canadian leaders now see dollar signs in death. According to a report by Jeffrey Jaxen of *TheHighWire.com* (Episode 287), they calculated that doctor-assisted suicide could actually be profitable. They estimate that \$62 million could be saved if suicide—

for any reason—became a government-approved option. In 2021, the number of Canadians who were killed by euthanasia and assisted suicide rose by 34 percent to 10,064, which is 3.3% of all deaths in Canada. This scheduled self-murder has led to some disturbing personal stories. A poor Canadian woman despairing that she could not find affordable housing opted for suicide. Another was losing financial aid for pain medication and therapy, and chose a prescription the government would pay for—Trudeau's Killer Canadian Kool Aid.

Canada is now poised to make suicide more deadly than the COVID "vaccine" and will extend it to those deemed to have mental illnesses that could include such conditions as loneliness, isolation, "loss of quality of life"; even poverty would be an approved reason to choose death. One expert commented that in Canada "It's becoming easier to get death than treatment." And now they are considering making self-murder available to children they refer to as "mature minors."

Of course, this all signals the covert return of EUGENICS as government policy—the culling of the unwanted and "genetically inferior" sort. In America, under the guise of the COVID "medical emergency," many people entering E.R.s were "diagnosed" as "COVID-19 positive" and then isolated from family, friends, and even from their own doctors. Their "medical care" was dictated by non-medical hospital administrators, which often—especially with Black patients—led to death, even though there were several readily available treatments proven safe and effective that could have saved them. And though euthanasia is not legal in most of the U.S., the "emergency" COVID policies may have brought suicide back under a different name.

FDA Refuses to Release Autopsy Results on People Who Died After COVID Vaccinations

The Children's Health Defense (CHD) reports that the U.S. Food and Drug Administration (FDA) is refusing to release the results of autopsies conducted on people who died after getting COVID-19 vaccines, claiming that such a release would amount to "unwarranted invasion of personal privacy." But drug safety advocate Kim Witzak said that the reports could be released with personal information blacked out, the CHD reported. "Autopsies can be an important part of postmortem analysis and should be done especially with increased deaths following COVID-19 vaccination," Witzak said.

The CDC was forced to collect data on vaccine dangers in a system they call the Vaccine Adverse Effects Reporting System (VAERS), and in which there are 31,214 reports of death following COVID-19 vaccinations.

Accurate Death Counts & Causes Are Elusive

Autopsies can provide necessary confirmation of how a person died. And this data could correct the many flaws in the way COVID fatalities were calculated since the beginning of the plandemic. Whether or not a victim died FROM COVID or WITH COVID has confused the body count from the very beginning. It is now clear that there are substantial financial incentives for hospitals to claim a death—any death—as "COVID-related," amounting to a per-patient reimbursement of hundreds of thousands of dollars.

Dr. Carl Heneghan, an epidemiologist and director at the University of Oxford's Centre for Evidence-Based Medicine, has revealed that the death counts regarding COVID are not accurate and that "We should take a sample of deaths that had 'COVID' written on the certificate and try to validate the accuracy." He concludes that the medical world should return to science-based policies: "We are unable to separate the effects on deaths of SARS-CoV-2 from those of human interventions. A coherent process based on consistent definitions across the devolved nations is required. Furthermore, to enhance the accuracy of causation in pandemics a subset of deaths should be verified using autopsies with full medical documentation."

Anthony Fauci's Net Worth Soared to \$12.6 Million During Plandemic

"I recommended to the president that we shut the country down. That was a very difficult decision, because I knew it would have serious economic consequences, which it did."

—Dr. Anthony Fauci

Auditors from the government watchdog group OpenTheBooks.com revealed that Dr. Anthony Fauci's "shut the country down" policies had "serious economic consequences" for him: his net worth jumped to \$12.6 million between 2019 through 2021—an increase of \$5 million.

Fauci was appointed by Pres. Donald Trump in 2020 to lead the destruction of America through a botched set of policies that have now killed millions of people and economies worldwide. Even before the plandemic shut downs Fauci was the highest paid federal employee, making an annual salary of \$480,000 (higher than that of the president), but he had refused to divulge where his additional income was derived.

But after four federal lawsuits by OpenTheBooks.com some of Fauci's finances were forced into public view. Strangely, the Dan David Foundation, based in Israel, doubled Fauci's salary in 2021 with an "award" of \$901,400 for "speaking truth to power" and "defending science" during the Trump administration.

Black public finances are easier to see. Whilst Fauci got rich, Blacks suffered financial loss on an unprecedented scale. The NATIONAL BUREAU OF ECONOMIC RESEARCH wrote that under the Fauci regime the number of active business owners in the United States "dropped by 15 percent." Further, and more alarming: "The number of African-American business owners plummeted from 1.1 million in February 2020 to 640,000 in April. The drop of 440,000 black business owners actively working in their businesses, representing 41 percent of the previous level, is disconcerting."

Israel's History of Medical Racism & Savagery

Ethiopian Jewish women who immigrated to Israel were injected with the contraceptive drug Depo-Provera, but they were told they were receiving a vaccine to prevent disease. The drug sterilized thousands of Black women and cut the Ethiopian birthrate in half.

Prime Minister Benjamin Netanyahu warned white Jews about Africans in 2012: "If we don't stop their entry, the problem that currently stands at 60,000 could grow to 600,000..."

The COVID-19 VACCINES: "We Have No RIGHT to Trust Them."

Learning Deficit Due to Shutdowns Has Been a Global Disaster

Mercola.com provides a shocking report about the damage caused by the **disastrous lock-down policies** of government officials:

Children around the world are struggling to read and facing significant educational setbacks due to COVID-19-related school closures—which did little to influence COVID-19 mortality.

Prior to the “pandemic,” 57% of 10-year-olds in low- and middle-income countries could not read properly, but this has increased to an estimated 70%. In Latin America, 10-year-olds unable to read rose from 50% to 80% following school lockdowns. The effects could be lifelong, leading to \$21 trillion lost due to lower lifetime earnings.

Existing education inequalities have only worsened because of the closures; learning losses in lower income countries are significantly worse than those in rich countries.

Even under a “best-case” scenario, students made “little or no progress” during remote learning; students had a learning loss equivalent to one-fifth of a school year, and learning losses were up to 60% greater among students from less-educated homes.

With children still reeling from the educational, physical and social-emotional effects of school closures, data now show that their suffering is in vain, because the closures did little to influence COVID-19.

The fallout from school closures that occurred during the COVID-19 “pandemic” is only beginning to be understood, but the early data coming in are alarming. The percentage of children who cannot read a simple story has jumped dramatically, with those in low- and middle-income countries most affected.

Education Inequality Increased Due to Closures

Around the world, schools closed for an average of 95 school days from March 2020 to February 2021, but while many schools in western countries continued to teach remotely, those in lower income countries often did not.

There are also significant differences in how long full and partial shutdowns persisted. Schools in sub-Saharan Africa were closed for 32 weeks, compared to 73 weeks in South Asia. In the Philippines and North Korea, many schools are still shut down. *The Economist* reported:

“Closures were often long in places where teachers’ unions were especially powerful, such as Mexico and parts of the United States. Unions have fought hard to keep schools closed long after it was clear that this would harm children.”

“Single acts of tyranny may be ascribed to the accidental opinion of the day; but a series of oppressions, begun at a distinguished period, and pursued unalterably through every change of ministers (administrators) too plainly proves a deliberate, systematic plan of reducing us to slavery.”

Medical examiners were told to lie on death certificates

Vaccine researcher **Steve Kirsch** is reporting that “In Massachusetts, the state Department of Public Health told medical examiners that if the person died *with* COVID, to list COVID as a cause of death, even if COVID had nothing to do with the reason the person died....This is a violation of federal law.”

He asks, *“Why would a state department of public health instruct medical examiners to lie? Two reasons: To get federal funds for the state; To encourage people to get the shots.”* This illegal behavior was encouraged by government health officials because it allowed them to falsely add tens of thousands of deaths to the COVID death count and create the fear and panic necessary to drive people to the needle.

Kirsch, whose writings can be found at stevekirsch.substack.com says: “Someone should go to jail for this, but I think it is unlikely that the state Attorney General and the U.S. Dept of Justice will press any charges.”

Are Medical Mistakes a Leading Cause of Death in the US?

The incidence rate of medical harm occurring in the U.S. is estimated to be over 40,000 harmful and/or lethal errors daily. In 2014, 10.5% of American doctors admitted they’d made a major medical mistake in the last 3 months. In 2016, **Dr. Marty Makary** published a **Johns Hopkins** report showing an estimated **250,000 Americans die from medical mistakes each year—about 1 in 10 patients.**

Deaths Per Year (From 2000)

- 12,000 — unnecessary surgery**
- 7,000 — medication errors in hospitals**
- 20,000 — other errors in hospitals**
- 80,000 — infections in hospitals**
- 106,000 — negative effects of drugs**

These total to 225,000 deaths per year from physician or medical-care mistakes and are only surpassed by heart disease and cancer and do not yet account for the deaths that can and will be attributed to the mRNA “vaccine.”

Israel: Increased emergency calls for Heart Problems Among Youth Since Vaccine Push

Using data from Israel National Emergency Medical Services (EMS) from 2019 to 2021, researchers found an increase in the volume of cardiac arrest and acute coronary syndrome in the 16–39-year-old population of over 25% compared with previous years. Further, the weekly emergency call counts were significantly associated with the rates of 1st and 2nd vaccine doses administered to this age group but not with COVID-19 infection rates.

The study, published in *Scientific Reports*, found that *“the findings raise concerns regarding vaccine-induced undetected severe cardiovascular*

side-effects and underscore the already established causal relationship between vaccines and myocarditis, a frequent cause of unexpected cardiac arrest in young individuals.” The study’s authors write that

“it could be challenging to identify whether increased incidence of myocarditis and related cardiovascular conditions...is driven by COVID-19 infections or induced by COVID-19 vaccines [or influenced by] patients delaying seeking emergency care because of fear of the pandemic and lockdowns.”

Drugged-up Nation

Opioid-related deaths soared during the COVID-19 pandemic and accounted for 75 percent of the 107,000 drug overdose fatalities in 2021. It is equivalent to one 737 jet full of passengers crashing every day with no survivors. It is estimated that the opioid crisis cost the US economy \$1.47 trillion in 2020, an increase of \$487 billion from 2019.

Approximately 80 percent of the global opioid supply is consumed in the United States. If Canada and Western Europe are included, that number increases to 95 percent, so the remaining countries use only about 5 percent of the opioid supply.

A congressional report found that while opioid use is more common among whites, “Black adults and teens experienced a steeper increase in the rate of fatal opioid overdoses compared to their white counterparts over the last decade.” Blacks made up 17% of fatal opioid overdoses in the US in 2020, despite only accounting for 12.4% of the people living in the country.

Vaccine Corner

The following excerpts are from *Vaccines, Autoimmunity, and the Changing Nature of Childhood Illness* (2018), by **Thomas Cowan, MD:**

“To vaccinate a child and then witness them die is not something I could ever live with. Children do die from vaccines; the only debate is over how often it happens. Nor could I live with watching a child embark on a potentially lifelong struggle with an autoimmune disease or autism following the administration of a vaccine. The medical establishment and mainstream media continue to deny this outcome, but research continues, evidence is mounting, and many parents have many stories that call into question a stance from the CDC [Centers for Disease Control] and AAP [American Academy of Pediatrics] that relies solely on the brandishing of medical credentials and authority.

“If you or your doctor want to truly understand the scientific literature on vaccines, a thorough reading of the contents of this website [Vaccine Papers (vaccinepapers.org)] is imperative.”

The UN-Masking of Black America

Though mask mandates have been lifted, some individuals still gripped by fear and anxiety continue to wear them. And despite the lack of medical benefit and the slew of evidence showing demonstrable harm, the mindless public health authorities threaten to reinstate mask requirements and/or travel mask mandates. The fact is many studies show masks cause harmful side effects. In a country-wide study in Germany, people reported the following regarding mask-wearing:

- 60% reported irritability
- 53% reported headaches
- 50% reported difficulty concentrating
- 29% reported less happiness
- 44% reported reluctance to go to school
- 42% reported malaise
- 38% reported impaired learning
- 37% reported drowsiness or fatigue

Masks present difficulties to many who experience myriad discomforts when wearing them, especially for long periods of time. Some are unable to wear them at all due to skin irritations, allergies, and the understandable instinct to remove a barrier to normal, natural breathing.

Gov. Newsom Signs Bill Forcing California Doctors to Toe the Government's Line

California Gov. Gavin Newsom signed a bill into law on Sept. 30 that allows the state medical board to censor and discipline physicians for what it calls “misinformation” or “disinformation” related to COVID-19.

But the law is clear proof that Big Pharma rules in California, and that the doctor-patient relationship in which a doctor’s prescribed treatment is tailored to the specific needs of the patient is now an ancient rite. Whatever the most profitable drug-of-the-day is that is preferred by the pharmaceutical giants is what California doctors must now prescribe.

Two California doctors, Dr. Jeff Barke and Dr. Mark McDonald, promptly filed a federal lawsuit to stop the bill, which they call a “gag order.” Dr. Barke said that “I think it is unconstitutional and it is dangerous for patients to prevent physicians from exercising their 1st Amendment [right] to give their opinion, their insight, their wisdom, their experience, on what a patient should be doing.” He points out that the state medical board that decides what is good or bad medical advice are lawyers—not physicians—and are appointed by the governor. “It’s bad law, it’s bad for patients and it certainly is bad for physicians.”

Dr. Michael Yeadon: The Most Important Single Message I've Ever Written

Dr. Mike Yeadon is the former vice president and chief scientist at Pfizer. He is a high-level whistleblower with a stunning message about the true aims of the world leaders and their evil intentions with the “vaccine” they have created.

Dear everyone, who is nervously looking around and is asking “What the hell is going on?”

I hope this isn’t too controversial. It’s certainly frightening, but I believe we are still on the right side of disaster & if enough of us become aware of what is happening here & everywhere in the democratic world, we can recover the situation. We really don’t have long. I believe it’s likely things will change irretrievably over this coming winter. Hence this urgent and unusual request.

Everything that’s happened and is happening becomes much simpler and it all makes sense, only when you force yourself to think the impossible.

If you experimentally adopt the position that OUR GOVERNMENT IS ACTIVELY WORKING TO HARM US, TO DISMANTLE MODERN SOCIETY & ENSLAVE ALL PEOPLE IN A DIGITALLY CONTROLLED TOTALITARIAN WORLD, it all fits. Nothing is surplus.

Even if your immediate response is that this is absurd, please try it for a day or so.

I ask you further to adopt the experimental position that the media, controlled by just six global corporations, all allied to a single global organization you’ve all heard of, is relentlessly lying to you and has been doing so for over 2.5 years. Same for the internet, controlled by fewer global corporations, also all allied to that same global organization.

Because I am certain it’s true. I am certain because

this all started with a scientific fraud relating to a virus, augmented it with a relentless campaign of fear, imposed measures known to be useless, which wrecked the economy and smashed civil society, then coerced most to accept useless, unnecessary, ineffective and deliberately dangerous injections. Obviously, this is an odious crime. Nothing like it has ever happened.

I’ve been 41 years in life sciences from training to successful biotech CEO and was worldwide research head and Vice President of Pfizer’s respiratory unit (1995-2011).

I have absolutely no incentive to say any of this if I wasn’t certain. I am certain. This all took place “in my wheelhouse”, my domain of expertise. Please consider what I’ve said.

I’ve given over 70 interviews, all censored. I’ve been foully smeared. It’s propaganda. It tells you what they’re capable of...

Many have asked why people didn’t resist tyrants in the past. Partly it is fear. But it’s more than that. It’s that normal people, like you and me, simply cannot imagine being so evil. We trust in humanity. And so we should. Most people are good. Few are truly terrifyingly horrible. But some are. It’s the inability to believe it’s happening that really stopped people objecting when they should, when the evidence was unmistakable but had not yet quite reached their door, their family.

They are coming for you and your children. It is happening again. There’s ample evidence emerging of long-term, patient planning. I’m so sorry. It’s now up to you. I genuinely don’t see what else I can do.

Best wishes & sincere thanks,
Dr. Michael Yeadon

This impassioned declaration of this Mom went viral on social media

We are Moms and if you try to come for our children...

Do you realize what you’ve done? You’ve taken ordinary women from across the country and turned them into warriors. The moment you tried to tell us what is best for our children. And you can try to censor us but we’ll outsmart you. And you can kick us out of school board meetings but we won’t be silenced. You can turn public schools into indoctrination camps and we’ll just homeschool. You can mandate things for travel—we’ll just stay home. You can pledge your support to woke agendas and we’ll just shop elsewhere. You can turn a theme park into a grooming den—we don’t need Mickey Mouse. You can try to scare us with fake science but we’ve done our research. You can try to turn our children into medical experiments but you’re going to have to kill us first. We are Moms and if you try to come for our children, we will fight like #@&%*!

The Twitter Bots that Tell You What To Think

When Elon Musk announced he intended to buy Twitter, he exposed an ugly truth about ALL the social media platforms: a LARGE percentage of accounts are run by robots—not humans. These fake accounts have human identities but they are being operated by sophisticated software that posts messages and interacts with real humans based on pre-programmed computer algorithms. They are called “BOTS” and they became an important tool for the depopulators as they pushed their “COVID-19” agenda on the world.

When the “COVID-19” crisis emerged in the spring of 2020, it was amazing how ALL the world’s governments and ALL the world’s media (and social media) sang the *exact same tune* as though they had rehearsed their responses for many years. LOCKDOWN! SOCIAL DISTANCING! MASKS! And, above all, VACCINES!

None of these “mandates” had any medical basis, yet no one diverted from these lockstep mantras that flooded society. Turns out, we have seen all this before.

In order for their mass self-destruction policy to work, the depopulators had to engineer consent—make it appear that the public as a whole has bought into their operation. And this is where “bots” are used.

Attorney Michael P. Senger reports that in 2014 and 2015, in an apparent dry run for “COVID-19,” bots were deployed on Twitter to support lockdown orders in Sierra Leone and Liberia during an alleged Ebola outbreak, with millions of tweets specifically using the word “lockdown.”

Senger writes that *“During this time period, millions of bot tweets suddenly appear, ceaselessly and relentlessly tweeting about ‘Ebola lockdown’ in virtually identical language.”* One can compare them to the sheer number of tweets early in the COVID plandemic

promoting—even demanding—public compliance with the economy-destroying and medically useless lockdown policies.

The engineering of public support for a wicked policy is EXACTLY how the COVID compliance was achieved—censoring dissenting voices that questioned the bizarre set of events, and then flooding the public airwaves and internet with a pre-fabricated policy message from thousands of fake accounts, is how the 1st Amendment now operates in the Depopulation Era.

Florida Says NO to COVID “Vaccine”

Florida Surgeon General **Dr. Joseph A. Ladapo** conducted an analysis of the safety of the mRNA “vaccines” in his state and found that there is *“an 84% increase in the relative incidence of cardiac-related death among males 18-39 years old within 28 days following mRNA vaccination.”* In effect he has found that the benefit of “vaccination” is outweighed by this abnormally high risk of cardiac-related death among men in this age group. Significantly, he found that non-mRNA vaccines do not have these increased risks.

“As such,” reads the press release, *“the State Surgeon General recommends against males aged 18 to 39 from receiving mRNA COVID-19 vaccines. Those with preexisting cardiac conditions, such as myocarditis and pericarditis, should take particular caution when making this decision.”*

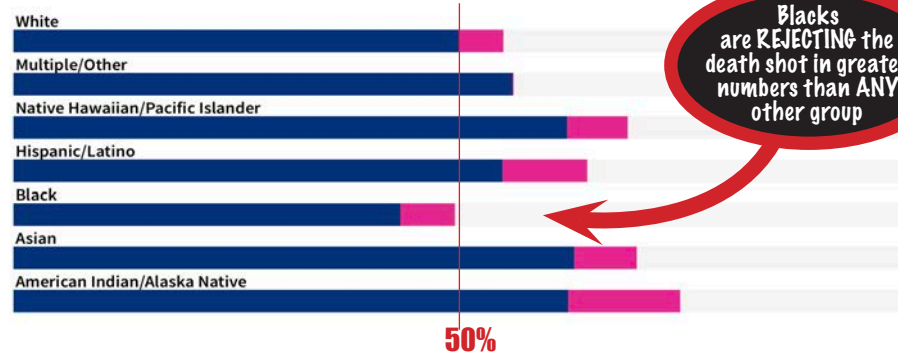

Dr. Ladapo observes: “Far less attention has been paid to safety and the concerns of many individuals have been dismissed—these are important findings that should be communicated to Floridians.”

Scientist, epidemiologist and former White House advisor **Dr. Paul Alexander** comments: “Once again, Dr. Ladapo shows the type of balance, finesse, study of the relevant data to make an informed decision, driven by both the benefits and risks of the intervention; huge praise!”

What percentage of people in each race or ethnic group received the COVID-19 “vaccine”?

Blacks following the advice and leadership of **The Honorable Minister Louis Farrakhan** have rejected the deadly depopulation “vaccine.”

New Study: Unvaxxed Kids Healthier Than Vaxxed

A new study by **James Lyons-Weiler, Ph.D.**, and **Dr. Russell Blaylock** supports the conclusions of a “controversial” study by **Dr. Paul Thomas** (in photo), published in November 2020 and covered in the *Final Call* DEPOPULATION SECTION.

Dr. Thomas analyzed 10 years of data from his pediatric practice in Oregon, comparing his vaccinated and unvaccinated patients. The results revealed *an alarming rise in sickness among VACCINATED children.*

“Remarkably, zero of the 561 unvaccinated patients in the study had attention deficit hyperactivity disorder (ADHD) compared to 5.3% of the vaccinated”; the

overall rate of autism among the unvaccinated children “is one-fifth that of the US national rate.” The data may indicate that the unvaccinated children “are healthier overall than the vaccinated.”

The implications of the 2020 study alarmed vaccine advocates and Big Pharma, which promptly moved to revoke Dr. Thomas’ medical license. The **Children’s Health Defense** quotes the author of the 2022 study: “That [the data] translates into far more chronic illness in vaccinating children than in those not vaccinating...”

Mask wearing is the cause of significant, life-altering medical conditions. In a peer-reviewed article in the *Primary Doctor Medical Journal*, some major physical dangers of mask-wearing are well documented. The article identifies physiological changes that occur in multiple organs and systems, including the Brain, Heart, Lungs, Kidneys, and the Immune System.

The study looked at the concentration of oxygen and carbon dioxide in masked airspace and found reduced oxygen and increased carbon dioxide, using a calibrated carbon dioxide

meter. In addition, the study looked at the effects of masking on pulmonary disease, dysfunction like hypoxia (low oxygen) and hypercapnia (too much CO2) on the organs, and found that masks contributed significantly to life-altering medical conditions. Pfizer's Organized Crime in Africa

Democracy Now reported that documents released by WikiLeaks show the pharmaceutical giant Pfizer hired investigators to find evidence of corruption against the Nigerian attorney general to pressure him to drop a \$6 billion lawsuit over fraudulent drug tests on Nigerian children.

Albert Bourla
Pfizer CEO

Pfizer was under investigation because their researchers did not obtain signed consent forms and did not tell parents their children were getting the experimental drug.

Eleven children died, and others suffered disabling injuries including deafness, muteness, paralysis, brain damage, loss of sight, and slurred speech.

Pharmaceutical companies are increasingly conducting clinical trials for new drugs outside the U.S., usually in countries where regulations are less stringent and trials are much cheaper, often leading to deadly results. Twenty years ago, only 271 trials of drugs intended for use by Americans were conducted overseas. By 2008, the number had risen to nearly 6,500—many taking place in areas with poor and illiterate test subjects.

Germany Sneaks in Vax Passport with planned global public transit pass

In a not-so-stealthy move toward imposing the VACCINE PASSPORT and an enforced worldwide slavery, German officials want to introduce a “global public transit ticket” that can be used anywhere around the world.

Travelers would pay a single monthly price of \$47 and they can travel by train, trolley or bus in any city and country in the world. Officials plan to market it as an environmentally friendly measure to reduce gasoline and thus “global warming,” and a convenient way to standardize the varied and confusing world transportation systems. Of course, the system will be internet based, which means it is a step closer to the VACCINE PASSPORT governments have been jonesing for—your travel options limited by your “medical” injection status.

This comes on the heels of an announcement by SWIFT (Society for Worldwide Interbank Financial Telecommunications) that its international messaging system between banks and financial entities can now work on *current* computer networks. Some analysts say that this technical issue has held back the imposition of a virtual money system.

Once digital currency is imposed, financial institutions like PayPal can apply “conditions” to ALL of your financial transactions and punish the non-compliant.

Poll: Two thirds of U.S. adults don't plan on getting COVID “boosters”

Trust in the “public health” officials has been obliterated as more and more people wake up to the depopulation agenda of their political leaders.

Despite the pleas of “health” officials like Drs. Fauci, Jha, Walensky, and Murthy, the Kaiser Family Foundation (KFF) poll reveals that two-thirds of adults in the United States *do not* plan to get updated COVID-19 booster shots soon, while 10% said they would only get a booster if it was required.

About 7.6 million people received the updated shots over the first four weeks the boosters have been available, according to CDC data just released. That represents about 3.5% of the 216 million people in the United States aged 12 or older who are eligible to receive the shots.

Dr. Malhotra later added: “I find it very difficult to believe that Pfizer executives didn't know this was going to cause significant harm. If this is the case then this is a global scandal.”

1/3 of Jabbed Reported Injuries After COVID “Vaccine,” CDC's V-safe Data Show

Data collected from the U.S. Centers for Disease Control and Prevention's V-safe app reveal that huge numbers of people (and more women than men) suffered adverse events following their vaccination.

V-safe is a voluntary safety monitoring program put in place by the CDC to monitor adverse reactions after people take a vaccine. It took a court order to release the information, after the CDC was sued by the watchdog group ICAN—the Informed Consent Action Network (which also produces The Highwire weekly news program TheHighwire.com). Vaccine journalist Steve Kirsch commented that the just-released data “clearly shows that these vaccines are the most dangerous vaccines we've ever created...”

The V-safe data show that 33.1% of the people who got the vaccine suffered from a significant adverse event and 7.7% had to seek professional medical care. Kirsch writes that “These are extraordinary numbers....The mainstream media is ignoring this story. So is the mainstream medical community. None of them want the American people to know the truth about how unsafe these vaccines are.”

An Estimated 30,000 Americans Were Killed by Ventilators & Iatrogenesis in April 2020

A new analysis of death records during the peak lockdown time in the spring of 2020 shows that medical ventilators widely used to treat “COVID patients” may have killed 30,000 of them.

Attorney **Michael P. Senger** wrote: “To date, we still don’t have especially good studies on the actual causes of excess deaths by state and country when the world first went into lockdown in spring 2020. For political reasons, these deaths were all generally lumped together as ‘Covid deaths,’ but this coding was appallingly sloppy.”

His analysis concluded that “contrary to popular belief, there was no uniquely deadly strain or variant emanating out of New York in spring 2020; this is clear from the fact that several states close to New York such as Vermont, New Hampshire, and Maine experienced little to no excess deaths during that time period. On the contrary, over 30,000 Americans appear to have been killed by mechanical ventilators or other forms of medical iatrogenesis throughout April 2020, primarily in the area around New York [City].”

This result is not altogether surprising, he writes, “as subsequent studies revealed a 97.2% mortality rate among those over age 65 who were put on mechanical ventilators...as opposed to a 26.6% mortality rate among those over age 65 who

were’t put on mechanical ventilators—before a grassroots campaign put a stop to the practice by the beginning of May 2020.”

As one doctor later told the *Wall Street Journal*, “We were intubating sick patients very early. Not for the patients’ benefit, but in order to control the epidemic... That felt awful.”

To put this in perspective, patients over age 65 were more than 26 times as likely to survive if they were not placed on mechanical ventilators.

Scientist and epidemiologist **Dr. Paul Alexander** examined Senger’s thesis and added that “Further investigation and study is needed to determine what factors contributed to resident deaths, COVID+ and otherwise.” He wrote that many deaths “were actually due to withholding treatment, neglect, cutting off visitors, isolation protocols, etc.” Dr. Alexander concludes:

“Do not forget, dear readers: There was no discernible excess death in NYC prior to lockdown orders. We are supposed to believe covid was spreading silently, minding its own business, without necessitating more ventilators (or PPE or PCR tests) until elected & public health officials gave it permission to super-spread everywhere at once, triggering profitable — and wasteful — supply/demand opportunities. Even if attendant-mediated transmission played a role, it would mean the actions taken in the name of stopping a virus (one that was already here and circulating for many months) are the things that made it worse.”

CDC database: 648 Nursing Babies Harmed by COVID vax, 3 Dead

An analysis by Israeli scientists of reports in a database run by the CDC and the FDA found 648 cases of side effects in breastfed infants whose mothers received the COVID-19 vaccine, including three deaths.

Health authorities in the United States, Israel and around the world recommended the Pfizer and Moderna vaccines for pregnant and lactating women despite the lack of clinical studies or animal safety studies for that demographic.

In one case, a mother reported losing her 5-month-old infant 13 days after receiving the Pfizer COVID-19 vaccine on Jan. 28, 2021, and breastfeeding him.

“I pumped within an hour of receiving the shot. My 5 month old son nursed the night following the shot and later ate the pumped milk that I acquired the same day of the shot,” she said. “11 days later he was found unresponsive during his nap at daycare.”

After being rushed to the hospital, the mother said, “doctors were able to get his heart beating again with

excessive effort.”

“Organ damage was extensive and he had no brain function; he did not recover.”

In another report, dated March 17, 2021, a 5-month-old died just one day after his mother was vaccinated.

“Patient brought baby to local ER where assessments were performed, blood analysis revealed elevated liver enzymes. Infant was hospitalized but continued to decline and passed away.

Diagnosis of TTP. No known allergies. No new exposures aside from the mother’s vaccination the previous day.”

Naomi Wolf has been analyzing documents a court ordered Pfizer to release. She said that they knew all along that the “mRNA, lipid nano particles and polyethylene glycol” would contaminate the breastmilk of vaccinated mothers. “These are criminal people,” she said of public health and pharmaceutical officials, “concealing the truth from women.”

China ‘began stockpiling PPE months before Covid outbreak’

It is now being reported that China was stockpiling personal protective equipment (PPE) several months BEFORE the first indication that an outbreak of COVID-19 had occurred.

According to *The Telegraph*: “China began severely restricting the export of **personal protective equipment (PPE)**, such as gowns and masks, months before notifying the world of the outbreak of Covid-19, it has emerged. PPE exports to the US fell by around 50 per cent between August and September of 2019, in a significant drop which raised alarm bells at key US government agencies. China also started to buy up global PPE stocks in Europe, Australia and the US around the same time, experts said.” The public has been told that the emergence of “the virus” occurred in a Wuhan seafood market in December 2019.

The revelation is the latest in a growing list of incidents appearing to show clear foreknowledge by governments and prominent individuals of the coming COVID “pandemic.” A series of international planning meetings leading up to “COVID” was outlined in Robert F. Kennedy’s book *The Real Anthony Fauci*. And with stunning accuracy, a 36-page private think-tank document planned for a “**monkeypox attack**” that would occur in the fictional nation of Brinia between May 15th and June 5th of 2022! This “prediction” was published six months before the disease was detected on May 6, 2022. China’s apparent expectation of a pandemic is very much like the strange stock activity that occurred one day before the 9/11 attacks in 2001. There was an unusual purchase of “put options” (betting that a stock price will fall) on United and American airlines—both of whose planes were “hijacked” on September 11th.

Bro. Sultan Muhammad reports that according to the **National Academy for State Health Policy** there are about 20 states that have already held back on COVID-19 "vaccine" mandates for schools and students, including Alabama, Arkansas, Arizona, Florida, Georgia, Idaho, Indiana, Iowa, Kansas, Michigan, Mississippi, Montana, New Hampshire, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Utah, and West Virginia.

The CDC's "guidance" on childhood vaccines was once rubber stamped by all state health authorities, but the botched response and destructive policies of the CDC's **Rochelle Walensky** and the NIH's **Anthony Fauci** have obliterated any trust and/or confidence in their words and actions.

When once a Republic is corrupted, there is no possibility of remedying any of the growing evils but by removing the corruption and restoring its lost principles; every other correction is either useless or a new evil.

CDC Unanimously Votes to Push Death-Dealing "Vaccines" on School Children

The U.S. Centers for Disease Control and Prevention (CDC) "vaccine advisory committee" voted 15-0 to add the COVID-19 shot to the growing list of recommended childhood vaccines. Most states follow this recommended immunization schedule when establishing vaccine requirements for schools and childcare facilities.

The move is the latest in a long-planned process to kill off a large portion of the human population while turning the survivors into chemically dependent slaves to a constant infusion of immune-system-suppressing "boosters."

The CDC's "advice" has been roundly denounced by scientists who point out that the "advisors" have provided not a shred of supporting scientific data to justify the mass injection of a dangerous drug to "protect" against an illness that has almost NO EFFECT on children.

Further, the toxic waste the agency calls a "vaccine" was foisted onto the public under Emergency Use Authorization or EUA, and under that designation the manufacturers escape legal liability for any injuries or deaths their "vaccine" causes.

Pathologist Says Spike Protein in "Vaccine" is Increasing Cancers

Dr. Ryan Cole explains that the mRNA "vaccines" instruct the body to make spike proteins. "The spike protein is a toxin—it doesn't matter whether it's J&J, AstraZeneca, Moderna, Pfizer...[C]ancers are on the increase across the board—lymphomas, leukemias, blood cancers—because that spike goes to the bone marrow. The lipid nano particle carries the mRNA to your dividing stem cells—it doesn't stay in the arm. It can go into any cell in your body, and it turns that cell into a spike factory....That spike protein causes mechanisms of cancer in many people, and I've been seeing that in the lab. I've been having it confirmed by oncologists, radiologists, radiation oncologists, pathologists, all around the world as I travel. It is happening, it's on the uptick.

Pathologist
Dr. Ryan Cole

Our military database showed it, until our Department of Defense illegally froze that database and the data. **This is a crime against humanity; we are using a dangerous product on humanity that is harming the human cells, that is harming the human body, that is harming our hormones, that is harming organs, that is harming any organ where that protein lands, period!**

Commenting on the vote, **Robert F. Kennedy, Jr.**, chairman of the board and chief legal counsel for Children's Health Defense (CHD), said: **"This reckless action is final proof of the cynicism, corruption and capture of a once exemplary public health agency....This is an act of child abuse."**

Johns Hopkins School of Medicine professor **Dr. Marty Makary** appeared on **Tucker Carlson Tonight** (photo) and pointed out that **"There has never been a vaccine added to the child immunization schedule without solid clinical evidence that it reduces disease significantly in the community."**

He added that the CDC only has data from eight mice on the effects of the Omicron "vaccine" in young people. According to Makary, White House Coronavirus Response coordinator **Dr. Ashish Jha** has seen the data on the vaccines' effects but refuses to make it publicly available.

"What are they hiding? Why can't we see this information?" he asked. Makary said those who wanted to see the data were **"basically told 'stop asking questions.'"**

Forbes Magazine, July 10, 2020

Is this why they are attacking him?

“It's so many of our children that are being vaccinated and paralyzed....So when they say the way we're going to fix COVID is with a vaccine, I'm extremely cautious. That's the mark of the beast. They want to put chips inside of us, they want to do all kinds of things, to make it where we can't cross the gates of heaven. I'm sorry when I say they, the humans that have the Devil inside them. And the sad thing is that, the saddest thing is that we all won't make it to heaven, that there'll be some of us that do not make it. Next question.”

In 1989, the **CDC, Kaiser Permanente**, and the **Los Angeles County Health Department** tested an experimental measles vaccine on 700 mostly Black and Latino infants, some as young as six months, sometimes giving them dosages hundreds of times normal levels. Standard measles vaccinations are given at 15 months of age. The infants' parents were not informed that the vaccine was not licensed in the United States or that it had been associated with an increase in death rates—particularly among baby girls—in **Africa**.

Similar experiments were conducted on tens of thousands of children in **Senegal, Guinea-Bissau, Mexico, Gambia, Bangladesh, Togo, Rwanda, Sudan, Zaire** and about a dozen other **Third World countries**, leading to untold deaths and injuries.

Robert F. Kennedy, Jr. Releases Documentary Exposing Dr. Fauci

Robert F. Kennedy Jr.'s book *The Real Anthony Fauci* is an incredibly well-referenced record of Fauci's history of decimating human health, and exposes him as a self-serving charlatan. Now Kennedy's book has been made into a nearly two-hour-long movie. And according to Dr. Joseph Mercola, "You definitely won't want to miss this one, especially if you didn't read the book." *The Real Anthony Fauci* became an immediate best-seller upon its release in 2021, despite Big Tech's censorship of the book's advertising. The book and the film reveal how Fauci turned the National Institutes of Health into an incubator for pharmaceutical products and essentially sold the entire country to the drug industry.

The film explores "the carefully planned militarization and monetization of medicine that has left American health ailing and our democracy shattered." And while the NIH and the National Institutes of Allergy and Infectious Diseases are supposed to serve the public,

the reality is that they're partnered with private drug companies and act for their benefit. Both agencies own pharmaceutical patents that are then licensed to drug companies, while the agencies themselves collect royalties on the sales. Fauci has personally filed patents on hundreds of new drugs his agency funded. Were it not for this symbiotic relationship with drug companies, the NIH/NIAID would not be working against public health and deceiving the public about drugs and vaccines.

PBS: 'Nation's Report Card' shows test scores at lowest level in decades

"I recommended to the president that we shut the country down. That was a very difficult decision, because I knew it would have serious economic consequences, which it did."

—Dr. Anthony Fauci

A comprehensive study of the pandemic's impact on America's students by the National Center For Education Statistics and reported by PBS states: "*The new 'Nation's Report Card' is out and the results are grim. Test scores are at their lowest level in decades, with steep declines in both reading and math proficiency in nearly every state.*" Nearly 450,000 fourth and eighth graders from some 10,000 different schools around the country were tested, and the results are alarming:

Only 36 percent of fourth graders and 26 percent of eighth graders were proficient in math, meaning they could demonstrate solid academic performance on challenging subject matter. In reading, just 33 percent of fourth graders and 31 percent of eighth graders were deemed proficient and above.

From 2019, the average math score for fourth graders fell five points, with eighth graders dropping by eight. In reading, average scores for fourth and eighth graders fell by three points. Not one state in the country saw significant improvement in these average test scores.

PBS News anchor Judy Woodruff commented to the report's author Peggy Carr, "Sort of difficult circumstances to talk ... about this. I mean, this is almost two decades of educational progress nearly washed away." Carr: "Well, what I can say is that these findings represent a defining moment in the history of education in this country."

Meanwhile new studies have shown that the effects of COVID19 were not nearly as severe as believed. Dr. Joseph Mercola reports, "Before the COVID jabs were rolled out, if you were 19 or younger, your risk of dying of COVID was 0.0003%; only 3 per 1 million infected with COVID at this age ended up dying. Between ages 60 and 69, the infection fatality rate was 0.501%, i.e., 1 out of 200 infected died."

Lie Exposed: Pfizer Never Tested Vaccines for COVID Transmission

A senior Pfizer executive testifying before the European Union Parliament stated that the pharmaceutical company did not know whether its COVID-19 mRNA vaccine would stop virus transmission before it entered the market.

Janine Small, Pfizer's president of international developed markets, was filling in for CEO Albert Bourla, who ducked out of answering for the "vaccine" that is now linked to thousands of deaths and injuries across Europe. He had been called to testify about how secretive vaccine deals were struck with the EU but he unilaterally pulled out of the commitment.

Member of the European Parliament (MEP) Rob Roos of the Netherlands asked Small directly, "Was the Pfizer covid vaccine tested on stopping the transmission of the virus before it entered the market?"

Small responded, "Regarding the question around, um, did we know about stopping the immunization [sic] before it entered the market? No, these, um, you know, we had to really move at the speed of science to really understand what is taking place in the market, and from that point of view, we had to do everything at risk." And in that halting and unscientific response the Pfizer executive was admitting that the company NEVER TESTED THE "VACCINE" FOR TRANSMISSIBILITY. Roos called Small's comments "scandalous" and "shocking, even criminal."

He pointed out that the claim that the "vaccine" effectively stopped transmission was the basis for the many draconian measures and discriminations that were enacted to divide and remove the unvaxxed from society, including EU's digital COVID-19 "passport," lockdowns, and quarantines.

When FDA first issued Emergency Use Authorization for the vaccines to enter the U.S. market, President Joe Biden stated wrongly, "You're not going to get COVID if you have these vaccinations." Dr. Anthony Fauci called vaccinated individuals "dead ends" for the virus, implying that the vaccine prevented transmission of COVID-19.

Pfizer has now admitted that none of those claims—or the lockdowns, business and school closures, "social distancing," mask mandates, and other policies based on those claims—had any scientific basis.

The following excerpt is from the book *Make an Informed Vaccine Decision For the Health of Your Child: A Parent's Guide to Childhood Shots*, by Dr. Mayer Eisenstein:

"Since 1973, our medical practice has cared for more than 35,000 children who were minimally vaccinated or not vaccinated at all. A few years ago, a well-known doctor visited me to do a study on autism in unvaccinated populations. This was the first time that I really looked at the figures, and I was astounded. I realized that we didn't have any cases of autism in our unvaccinated population. This wasn't something that I had preconceptions about. It was a retrospective look at what was really going on. Even when we analyzed the records from 20 years ago when we were giving some vaccines—but not starting until at least six months of age—there was not autism. We also have virtually no asthma, allergies, respiratory illness, or diabetes in our unvaccinated children, a telltale revelation when compared to national rates..."

"I tell our families that medical interventions are often unnecessary....So, my families often ask, 'Well, why am I coming to you?' I say, 'Good question. You're right.' Most of the families in our practice are very healthy. I attribute this, for the most part, to home births, nonvaccination, and breastfeeding...."

Dr. Meryl Nass: “A cabal trying to take over the world”

Dr. Meryl Nass has been under fire for her truthful comments about COVID-19 and the dangers of the gene-altering, heart-stopping “vaccines.” On October 15, NOI Research Group member **Dr. Ridgely Mu’min Muhammad** and *Final Call* reporter **Sister Charlene Muhammad** attended a conference of medical experts addressing how to reverse the damage done by the “covid vaccine” pushers. Dr. Nass responded to a question about the source of the disastrous vaccine mandates:

Let me tell you what I think happened. I think there’s a cabal trying to take over the world. And they’re doing it using emergency laws that require a pandemic or biological warfare emergency to be declared. And in order to create all the changes they want, they need this pandemic to be ongoing.

And had we been able to treat with Hydroxychloroquine and Ivermectin and other things—the NIAID showed that over 60 already licensed com-

pounds killed SARS-1 or MERS in tissue culture. They showed that in 2014, and then, they suppressed it.

So in order to maintain this public health emergency and allow for ALL these societal changes, they had to control doctors. And in order to maintain the emergency, they had to suppress those drugs. And they wanted to vaccinate us, perhaps to injure us, perhaps only so they could have a vaccine passport, as the excuse to get us all on digital IDs.

Anyway, making sure that the doctors didn’t push back was central to this plan. And because it relied on medical emergencies, they could not have the doctors speaking up. So, they had censorship, and they created these organizations to suppress us. But, we need to ... shine the light on them, and we have the ability to turn this around. So, thank you.

“Died Suddenly”: Now a Movie

In the trailer for the new documentary *Died Suddenly*, one of the interviewees calls the COVID plandemic “The greatest orchestrated die-off in the history of the world”—and that is the very definition of DEPOPULATION.

Anyone who has spent anytime on the non-mainstream media has seen the phenomenon of healthy adults dropping dead all across the globe. In the last 18 months, the term “Died Suddenly” has risen to the very top of “most searched” Google terms. Now, an award-winning documentary team travels around the world to find answers from scientists, embalmers, journalists, medical professionals, and the families of those who Died Suddenly.

The media and health agencies have tried to conceal and suppress the hundreds of filmed collapses and sudden deaths of athletes and other young healthy people, but now journalist **Stew Peters** shines light on the phenomenon. *For more information on this new and important film, Died Suddenly, go to diedsuddenly.info.*

Facebook Has Ex-CIA Agents Censoring You

According to Alan Macleod of MintPress News, many of the people in charge of moderating content at Facebook have been recruited from the government, including the Central Intelligence Agency, Federal Bureau of Investigation, and Department of Defense.

“So many ex-government workers are now employed by Facebook that’s it’s difficult to view Meta as a private company instead of a government partner, intent on silencing anyone who speaks out against the official narrative.”

This is reminiscent of the secret program exposed in 1977 known as **Operation Mockingbird**, which involved the CIA paying hundreds of journalists to write fake stories and spread propaganda instead of real news.

Macleod explains that many of the people in charge of moderating content at Facebook have been recruited from the government, including the CIA, FBI and DOD, to the extent that, he says, “some might feel it becomes difficult to see where the U.S. national security state ends and Facebook begins.” Macleod then lists several high-level Facebook staffers by name who have direct connections to those government spy agencies. Mathematician: Fertility & birth rate decline due to COVID mRNA “vaccines”

Depopulation works best when it can work silently and stealthily on its victims. The best indicator that a population is being mass murdered is when a forced “health measure” designed to address an upper respiratory disease instead targets reproductive organs and destroys fertility. According to an analysis of records of several governments, mathematician **Igor Chudov** has found alarming drops in births and pregnancies and rises in stillbirths since the COVID-19 “vaccines” have been pushed on the women of the UK (among other nations).

Chudov writes that the most recent “Vaccine Effectiveness Report” issued by England “has very bad news. Live births dropped in England by 14% as of May 2022, and the decline seems to be worsening and not recovering....It shows that the number of women giving birth declined from 43,723 in Jun 2021, to 37,037 in Jun 2022. This is a 15.3% decline.”

Chudov says that these devastating drops in birthrates are consistent with other nations. He says one should expect a 1% annual fluctuation from year to year, but a sudden and unexpected 15% drop in a single year in a single country is catastrophic—unless it is **NOT** really unexpected. In fact, it seems that it was predicted. Here is the world’s top depopulator and global health czar with no medical degree—**Bill Gates**—in 2010:

“First, we’ve got population. The world today has 6.8 billion people. That’s headed up to about nine billion. Now, if we do a really great job on new vaccines, health care, reproductive health services, we could lower that by, perhaps 10 or 15 percent.”

Hospitals That Feed You DEATH

These trays of hospital “meals” served to patients were posted on various social media websites.

It is claimed that hospitals are a place where people go to get healthy, but studies that analyze food served to patients, staff, and visitors at U.S. hospitals in all 50 states and the District of Columbia consistently find that hospital food is often no better than fast food and featured in menus dominated by foods high in fat, cholesterol, sugar, and sodium. Some hospitals actually have fast-food joints right on the premises, including Chick-fil-A, McDonald’s, and Wendy’s. The bizarre fact is that most hospital food can promote the very diseases that medical professionals seek to treat. Hospital menus are awash with donuts, cakes, cookies, fried foods, processed meats, and ice cream.

The Most Honorable Elijah Muhammad wrote in *HOW TO EAT TO LIVE*, Book 2:

“Eat the best food you can obtain. Never deprive yourself of good health, at the price of cheap food. Just remember, when you are feeding your stomach with cheap, poison foods trying to keep a dollar in your pocket, you are not saving a dollar in your pocket. IT WILL only go to the hospital, the undertaker, and for the ever increasing drain on the families’ savings in purchasing drug pacifications for the ill body from eating the wrong food.”

A Cash Plandemic

Pfizer is expecting record-high revenue in 2022, courtesy of COVID-19. It’s predicting \$32 billion in profits from its COVID-19 shots and another \$22 billion from Paxlovid, for a total of \$54 billion. Overall, Pfizer forecasted 2022 sales of \$98 billion to \$102 billion.

In 2020, Pfizer’s biggest money makers were Ibrance, a cancer drug, a pneumonia vaccine, and Lyrica, a fibromyalgia treatment. By 2021, it had just about doubled its 2020 revenue, bringing in \$81.3 billion, largely due to its COVID-19 shot.

Funeral Director: 95 Percent of Corpses Had Received COVID “Vaccination” Within 2 Weeks of Death

Brenton Faithfull, a funeral director from New Zealand, says that 95 percent of the corpses he has been seeing had received a COVID-19 vaccine within two weeks of their passing away.

The *Epoch Times* reports that Faithfull has been working as a funeral director for the last 41 years and has been running his own mortuary business for the last 26 years: “They die the same day, the following day after receiving the COVID-19 vaccination. This isn’t a one-off case, this is the majority of cases that have come through our facility,” Faithfull said in an interview.

A UK Funeral Director went public several months ago after seeing the same phenomenon with the bodies he was preparing for burial. John O’Looney said that “From the very moment these injections went into arms, the death rate soared beyond belief. They labeled them all as COVID deaths, but the reality is they were almost exclusively the people who were vaccinated,” O’Looney told *The Epoch Times*. “We now see record numbers of deaths in the vaccinated and in record numbers of young people. They die from a mixture of sudden very aggressive cancers or blood clots, which cause heart attack and stroke,” he added.

New York Bill Wants to End Parental Rights Over Child Vaccination

Bill A9963, sponsored by NY State Assemblyman Richard Gottfried (D-Manhattan, in photo), would extinguish parental rights over a child’s medical, mental, dental health care. The proposed law says: “Any person, including a minor, who comprehends the need for, the nature of, and the reasonably foreseeable risks and benefits involved in any contemplated medical, dental, health, or hospital service, as well as any alternatives thereto, may give effective consent thereto for themselves, and the consent of no other person shall be necessary.”

According to attorney Bobbie Anne Cox, “The language is so broad, it can encompass anything, and there is in fact an entire section that speaks to offering ‘reproductive and sexual health care services.’” On vaccines, the proposed law says: “[A] child who may give effective consent under this section may give effective consent to their own immunization, and the consent of no other person shall be necessary.”

Vaccine Corner

The following excerpt is from the book *Make an Informed Vaccine Decision For the Health of Your Child: A Parent’s Guide to Childhood Shots*, by Dr. Mayer Eisenstein:

“The current schedule of recommended vaccines is so crowded that doctors give babies several shots during a single office visit—up to eight or nine vaccines all at one time....Parents, and doctors, often forget that vaccines are drugs. How often do we, as adults, take that many drugs at the same time? Would we be more surprised if we *did* or *did not* have an adverse reaction?”

[...]

“Authorities claim that vaccines reduced the incidence of disease. However, several diseases—tuberculosis, scarlet fever, plague—infected thousands of people every year but virtually disappeared without any vaccines. How do we explain this?...In the past few years we have seen outbreaks of measles, mumps and pertussis in mostly vaccinated children. ...In Africa, the oral polio vaccine is *causing* polio....Is the industry mantra—that vaccine benefits outweigh risks—an established fact or merely an effective marketing tool?”

Satan’s “Vaccine” Kool-Aid

Who is Satan? How would you recognize somebody who deceived the whole world? This Satan is so powerful, all the media is bowing to Satan’s plan. Study claims belief in COVID conspiracy “predicts greater conspiracist ideation”

NaturalHealth365 website reports that “people who have serious concerns about the COVID-19 pandemic are being largely written off as conspiratorial—in what can be viewed as a thinly veiled attempt to discredit or silence anyone who doesn’t agree with the mainstream pandemic narrative hook, line, and sinker. One recent study published in **PLOS One** even suggests that belief in COVID fraud is a ‘gateway’ to other conspiracy theories, such as the 2020 election fraud.”

Judge Orders Fauci, Other Top Officials to Testify Under Oath in Censorship Case

A federal court ordered that Dr. Anthony Fauci and other current or former White House officials testify in a case that has uncovered evidence of alleged federal government collusion with Big Tech companies to censor users, in violation of the 1st Amendment of the U.S. Constitution. The plaintiffs allege that Fauci and other key figures coerced social media companies to “suppress disfavored speakers, viewpoints and content” regarding COVID-19.

Top biological warfare epidemiologist:

“I will never take another vaccine as long as I live”

Dr. Meryl Nass is an internist and biological warfare epidemiologist and one of the harshest critics of the American government’s response to the COVID-19 “pandemic.” In an interview with **Robert F. Kennedy, Jr.**, on “RFK Jr. The Defender Podcast,” Nass said the U.S. Food and Drug Administration (FDA), the Centers for Disease Control and Prevention (CDC) and “who knows how many other federal agencies are just making things up as they go along.”

“These are not mistakes,” said Nass. “This is malfeasance.” Nass told Kennedy:

“I’d like to tell your listeners that I will never take another vaccine as long as I live because God knows what’s in them. You can’t rely on the fact that anyone is testing them or that the FDA is looking over anybody’s shoulder to make sure that what’s supposed to be in them is really in them.”

“And it seems that the current COVID-19 vaccines are being made with very sloppy processes. We can’t be sure what’s in them. And why would we think they’re gonna do better with the other vaccines in the future?”

Nass said documents obtained through Freedom of Information Act (FOIA) lawsuits revealed that CDC officials acknowledged mRNA COVID-19 vaccines were not included in the old vaccine definition—“so they had to change it.”

Study: Vaccinated 5X More Contagious Than Unvaxed 10 Days After Infection

A study published recently in the *New England Journal of Medicine* (NEJM) reports a disturbing discovery: individuals fully vaccinated and boosted against COVID-19 actually recover more slowly from the illness and, surprisingly, even remain contagious for lengthier periods of time as compared to unvaccinated persons. While the study did not investigate implications associated with ill-

“It is sinful that despite the harm being done to human beings, the government continues to heavily promote the uptake of these vaccines. They are using celebrities, professional athletes, preachers, politicians, educators and everyday people to pressure us to ‘just get the shot.’ It is time for all of us to become more proactive in fighting this diabolical scheme.”

Vaccine Corner

The following excerpt is from the book *Make an Informed Vaccine Decision For the Health of Your Child: A Parent’s Guide to Childhood Shots* (2010), by Dr. Mayer Eisenstein:

“Do parents have a social obligation to vaccinate their children? Health officials often claim that parents have an obligation to vaccinate their children. They say that vaccines won’t work for society unless a high percentage of children are injected. Apparently, unvaccinated children are a threat to the group. But this does not make sense. By this reasoning, the unvaccinated—who are being coerced into taking the shots—are somehow responsible for protecting the vaccinated. How ironic!”

“If some children are vaccinated, that’s their family’s choice. If other children are unvaccinated, that’s their family’s informed decision as well. Vaccinated children take their chances hoping to avoid serious adverse reactions, while unvaccinated children risk contracting the disease. However, *if vaccinated children contract the disease, the shot was ineffective, NOT the fault of unvaccinated children.* Officials ignore their own ineffective vaccine, choosing instead to malign the unvaccinated. Outrage should be vented in the proper direction—at those who developed ineffective shots and falsely promoted a defective product.”

ness severity, the findings nonetheless raise significant questions for consideration.

People that are vaccinated remain five times as contagious as those who are unvaccinated ten days after SARS-CoV-2 infection. Put another way, the vaccinated continue to transmit the disease significantly more than the unvaccinated should the data hold up across broader investigation.

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

The Truth About Modern Medicine

The healers of today are trained and funded by and accountable to the pharmaceutical industry. That corruption is largely enabled by a system of governmental oversight that is nothing more than a rubber-stamp instrument used by the medical industrial complex to approve and sell their products while limiting their liability.

Worse, these governmental puppets are now using the private tech and media industries to ensure that only the “official” narrative is put forth; those with dissenting opinions or contradicting data are silenced, censored, and calumniated.

This reality was once considered to be a conspiracy theory. To insinuate that these institutions could be involved in a global conspiracy that has cost tens of millions of lives and undermined the very foundations of American democracy was tantamount to blasphemy.

Until now...

American History of Medical Racism & Savagery

Henry Kissinger, as Secretary of State under President Gerald Ford, promoted a eugenics sterilization program that would take the concept of **RACIAL DEPOPULATION** to chilling new heights.

Kissinger penned a secret document in 1974 titled “National Security Study Memorandum 200” (NSSM-200). Titled “Implications of Worldwide Population Growth for U.S. Security and Overseas Interests,” it argued that controlling the strategic resources of Third World nations was directly linked to depopulation:

Fled Nazis to become one

“...The U.S. economy will require large and increasing amounts of minerals from abroad, especially from less developed countries. That fact gives the U.S. enhanced interest in the political, economic, and social stability of the supplying countries. Wherever a **lessening of population pressures through reduced birth rates** can increase the prospects for such stability, population policy becomes relevant to resource supplies and to the economic interests of the United States.”

The COVID-19 VACCINES: “We Have No RIGHT to Trust Them.”

The Intercept: Leaked Documents Expose “TRUTH COPS”

The *Intercept* writers Ken Klippenstein and Lee Fang report that “THE DEPARTMENT OF HOMELAND SECURITY is quietly broadening its efforts to curb speech it considers dangerous, an investigation by The Intercept has found. Years of internal DHS memos, emails, and documents — obtained via leaks and an ongoing lawsuit, as well as public documents — illustrate an expansive effort by the agency to influence tech platforms.

“The work, much of which remains unknown to the American public, came into clearer view earlier this year when DHS announced a new ‘Disinformation Governance Board’: a panel designed to police misinformation (false information spread unintentionally), disinformation (false information spread intentionally), and malinformation (factual information shared, typically out of context, with harmful intent) that allegedly threatens U.S. interests. While the board was widely ridiculed, immediately scaled back, and then shut down within a few months, other initiatives are underway as DHS pivots to monitoring social media now that its original mandate — the war on terror — has been wound down.

“Behind closed doors, and through pressure on private platforms, the U.S. government has used its power to try to shape online discourse. According to meeting minutes and other records appended to a lawsuit filed by Missouri Attorney General Eric Schmitt [just elected senator], discussions have ranged from the scale and scope of government intervention in online discourse to the mechanics of streamlining takedown requests for false or intentionally misleading information.”

Key Takeaways

- Though DHS shuttered its controversial Disinformation Governance Board, a strategic document reveals the underlying work is ongoing.
- DHS plans to target inaccurate information on “the origins of the COVID-19 pandemic and the efficacy of COVID-19 vaccines, racial justice, U.S. withdrawal from Afghanistan, and the nature of U.S. support to Ukraine.”
- Facebook created a special portal for DHS and government partners to report disinformation directly.

“...There is also a formalized process for government officials to directly flag content on Facebook or Instagram and request that it be throttled or suppressed through a special Facebook portal that requires a government or law enforcement email to use. At the time of writing, the “content request system” at facebook.com/xtakedowns/login is still live. DHS and Meta, the parent company of Facebook, did not respond to a request for comment. The FBI declined to comment.”

Massive Rise in All-Cause Mortality Since Forced “Vaccines”

Excerpt from the new book *The New Abnormal: The Rise of the Biomedical Security State*, by Aaron Kheriaty

It is hard to spin death certificates... CDC data, as well as data provided by life insurance companies stratified by age, showed a 40 percent rise in all-cause mortality among working-age adults (18- to 64-year-olds) in 2021 during the mass vaccination campaign, as compared to the previous five-year baseline. To put this into context, actuaries tell us that a 10 percent rise in all-cause mortality is a once in 200-year disastrous event. The United States didn’t see this kind of spike even during World War II. When age groups were further stratified, life insurance mortality in quarter three of 2021 during the mass vaccination campaign showed even more alarming excess-mortality statistics among middle-aged adults:

81% increase for 25- to 34-year-olds
117% for 35- to 44-year-olds
108% for 45- to 54-year-olds
70% for 55- to 64-year-olds

Most of these excess deaths were not due to COVID. Nor can missed screenings and missed medical appointments during lockdowns account for most of these deaths. If you skip a colonoscopy, you don’t die the following year of colon cancer. You get a slight elevation in your risk of dying from cancer sometime in the next 10 to 20 years. Likewise if you have diabetes and miss your routine primary care appointment for a year, you might consequently have poorly controlled blood sugar for several months. This leads not to death a year later, but to a mildly elevated risk of diabetic complications much further down the road.

Something else—something sudden and acute—happened in 2021 that massively affected mortality for young and middle-aged adults. Our public health establishment has shown no interest in examining this disaster. This total disinterest is a barometer of their priorities.

DePopulation Briefs

“Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine.”

—The Honorable Minister Louis Farrakhan, Swan Song

“America's scientists of war conduct dreadful experiments on how best to kill human beings by the millions and wipe out the life of whole continents. These are the days of fulfillment of prophecy of not one, but of many calamities. But in all of these preparations of the destruction of human life by the devil...Allah (God) too has plans to save His people.”

Fired Referees Sue NBA Over Vaccine Mandate

Superstar Kyrie Irving is not the only vaccine-intelligent NBA employee. The Children's Health Defense reports that three former National Basketball Association referees are suing the league, alleging they were fired for refusing to receive COVID-19 “vaccines” on religious grounds.

In their complaint, Mark Ayotte, Ken Mauer and Jason Phillips—who have a combined 71 years' worth of NBA officiating experience—accused the NBA of violating federal civil rights law and New York State and New York City human rights laws. The lawsuit alleges the “jab or job ultimatum” instituted by the league for the 2021-2022 season—and which was not applicable to players—led to their suspensions for that season.

Then, despite the NBA's decision to rescind the mandate for the 2022-2023 season, the league fired them.

The plaintiffs are requesting a jury trial, compensatory damages and punitive damages for front and back pay, emotional pain and suffering, reputational damage and attorneys' fees.

The NBA granted a religious exemption to “at least one minor league referee” but not the three plaintiffs because, according to the lawsuit, “The NBA's lawyers, after a pointed interrogation” of the three referees, “adjudged plaintiffs' beliefs to be illogical, unorthodox, and/or not entirely religious and therefore insufficient to satisfy the ‘high standard’ of a sincerely held religious belief.”

The lawsuit alleges, however, that according to “fundamental hornbook law ... an employee's ‘sincerely held religious belief’ is not held to a ‘high standard’ at all — it is held to an exceedingly low standard requiring only sincerity” and “a belief need not even be religious to merit Title VII protections, so long as it occupies the same métier as a religious conviction.”

“Vaccine” Miscarriages Show Satan's True Depopulation Objective

“If you've taken the shot, I pray that Allah will lessen the effect of that shot, because it was designed to harm you, your ability to reproduce yourself.”

—The Hon. Minister Louis Farrakhan, Feb. 27, 2022

The U.S. government database tracking adverse reactions and deaths from the “COVID-19 vaccine” is now reporting that 5,180 miscarriages may have been caused by the “vaccine.” If so, this should be viewed as a “reaction” that is absolutely expected from a depopulation drug. Below are some recent reports filed with the CDC's Vaccine Adverse Events Reporting System (VAERS):

VAERS ID: 1997446 AGE: 31

Miscarriage; received Pfizer during pregnancy

VAERS ID: 1998531 AGE: 30

Abortion spontaneous ; Excessive vaginal bleeding 2 weeks after missed menstrual cycle. Severe abdominal cramping, intermittent, contraction-like. Pain...

VAERS ID: 2000047 AGE: 32

Had Pfizer dose #1 and #2; Experienced a miscarriage at 9 weeks in June 2021 (first miscarriage).

VAERS ID: 2002133 AGE: 37

I called my OB office because i was bleeding...I experienced the same bleeding with my first pregnancy. I went the following day in the morning to see my doctor. I was six weeks and six days

VAERS ID: 2003498

Miscarriage, continuous heartburn after both vaccinations, irregular cycle; There was also a second miscarriage!; Miscarriage, continuous heartburn after both vaccinations, irregular cycle; Miscarriage...

VAERS ID: 2003703

Maternal exposure during pregnancy, 1st trimester; Begins to spot bleed; booster; Dead fetus in the womb...

VAERS ID: 2003844

Heart rate increased; Vaccination site movement impairment; Heavy menstrual bleeding; Menstrual cycle prolonged; Ovulation delayed; Pain in arm; Extrasystoles; Arrhythmia; Early miscarriage...

VAERS ID: 2004424

Maternal exposure during breast feeding; Fatigue/unusual tiredness; Chest pain; Fever; Shortness of breath; Heart palpitations; Racing heart (tachycardia); Feeling unwell; Late period; Irregular periods/ Heavy

VAERS ID: 2006404 AGE: 31

Spontaneous miscarriage after 2nd dose and 3rd dose. [...] Two healthy pregnancies prior.

Europe sees more deaths in 2022 than in previous 2 years—NOT From COVID!

According to *Expose News*, Europe has now recorded nearly 10,000 MORE excess deaths in 2022 than it recorded in 2020 at the height of the pandemic. Anyone with even a basic level of critical thinking can certainly suggest at least one essential correlation that requires further investigation: the rollout of the mRNA COVID shots. The first of these gene-based drugs was authorized for use in 5 to 11-year-old children in Europe by the European Medicines Agency (EMA) in late November 2021.

Data on death rates in Europe are similarly concerning, according to recent data by other researchers, including the company Eurostat.

In a mid-September article on their website, Eurostat notes that excess mortality in the European Union hit +16% in July 2022, up from +7% in June and May. Reporting this as “an unusually high value,” Eurostat notes that the excess mortality rate in July 2020 was +3% in July 2020 and +6% in July 2021. Eurostat suggests unprecedented heat waves this past summer as a possible contributing factor.

But according to UK in a Changing Europe (“the authoritative source for independent research on UK-EU relations”), the UK's Office for National Statistics reported 11,600 more deaths than average in July and August 2022, and “only a small fraction” of those deaths occurred during the infamous heatwave.

So, what else could be at play, if not primarily the heatwave? ...In an extremely roundabout way of acknowledging the possible link between excess deaths and COVID shots, UK in a Changing Europe also says that there needs to be more investigation into international data before being able to discount “implausible suggestions such as harm arising from vaccination.”

RF Kennedy Book: Fauci's COVID Policies Were a “War on the Poor, Children, Working Classes”

Excerpt from Robert F. Kennedy, Jr., *A Letter To Liberals* (ebook ed.):

Anthony Fauci's quarantine was a prolonged pajama party for upper-crust Americans who could afford DoorDash food deliveries and Amazon shopping. Lockdowns provided a novel adventure in telecommuting for the laptop elites, and a cushy year of remote education for their children. But even mainstream critics are increasingly recognizing that COVID policies have devastated workers, the poor, minorities, and children.

The lockdowns created nearly five hundred new billionaires—who are now gorging on the bleached cadavers of America's massacred middle-class—and engineered a \$3.98 trillion shift in wealth from the poor and working Americans to a new oligarchy of Pharma billionaires, social and main-stream media titans, surveillance state robber barons, and military contractors.

Shouldn't liberals be particularly skeptical that media and social media billionaires raked in fortunes from the lockdowns while actively collaborating with government officials to censor and deplatform critics of these controversial and failed policies?

Government countermeasures were, in contrast, a nightmare for the middle class and the poor. Shouldn't liberals worry that the lockdowns greatly increased inequality between a rich controlling few and a rapidly expanding disempowered poor, reversing years of poverty reduction that liberal administrations have fought for since FDR's New Deal?

The number of active business owners in the United States plummeted by 3.3 million from February to April 2020, crushing the backbone of democratic capitalism. The lockdown's leading corporate promoters, Amazon, Facebook, Microsoft, Google, and Walmart, flourished while their Main Street competitors withered and died.

Florida OB/Gyn Warns of Alarming Rise in Infertility and Miscarriages

Abnormal pap smears, infertility, miscarriages, spontaneous abortion—all troubling signs on the rise since the “vaccine” roll-out, and doctors are speaking up.

Dr. Kimberly Biss, an OB/Gyn from St. Petersburg, Florida, had the courage to go public with the serious rise in reproductive health issues that are taking place at the hospital where she works. In a now viral video Dr. Biss explained that

“I can definitely say since the vaccine rollout started, we have seen in our practice a decrease in new OB numbers—which would [indicate] infertility—by about 50%. We have also seen an increase in miscarriage rate by 50%. And I would say there is probably about a 25% increase in abnormal pap smears as well as cervical malignancies in our area.”

Dr. Kimberly Biss, OB/Gyn

Pfizer, FDA tried to conceal data on COVID-19 vaccines and miscarriage in trials. Dr. Naomi Wolf, in an interview with Steve Bannon on “War Room,” said that **“Pfizer took those deaths of babies—those spontaneous abortions and miscarriages—and re-categorized them as recovered-resolved adverse effects. In other words, if you lost your baby, it was categorized by Pfizer as a resolved adverse event, like a headache that got better.”**

Indeed, the data showed 50 pregnant women took part in the initial vaccine studies and a shocking, 22 women (44%) lost their babies. This serious safety signal was covered up by the FDA and the CDC, as both pushed for pregnant women to take the depopulation jabs during pregnancy.

Vaccine Corner

The following excerpt is from the book *Make an Informed Vaccine Decision For the Health of Your Child: A Parent's Guide to Childhood Shots*, by Dr. Mayer Eisenstein:

“Should parents be obligated to play Russian Roulette?”

“Vaccines pose serious risks. These hazards are acknowledged by vaccine manufacturers in their product inserts, documented in numerous studies, substantiated by the federal government's Vaccine Adverse Event Reporting System (VAERS), and confirmed anecdotally by parents. For example, the MMR vaccine manufacturer concedes that diabetes, thrombocytopenia (a serious blood disorder), arthritis, encephalitis (brain inflammation), Guillain-Barré syndrome (paralysis), and death, have all been reported during clinical trials of its vaccine...”

“In addition, every year approximately 15,000 people file vaccine adverse reaction reports with the CDC. Many of these cases are serious, requiring hospitalization, resulting in life-threatening disabilities, or death. VAERS is a passive reporting system, so the number of people believed to be hurt by vaccines is vastly underreported. According to Dr. David Kessler, former head of the FDA, ‘only about 1 percent of serious events—adverse drug reactions—are reported.’”

“...A vaccine industry that errs on the side of denial rather than concern is backward and negligent....Pretending that serious reactions to vaccines are rare does not make it true, incapacitates our children, and degrades our society. Since reputed vaccine risk-to-benefit ratios are spurious, and ‘preventive’ shots are markedly more unsafe than officially acknowledged, it is morally unconscionable to mandate vaccines for children.”

G20 Leaders & White House Push Mandatory Vaccine Passports; Predict “future pandemics”

Natural News reports: “By now, sane, reasonable people know that...the COVID-19 pandemic...was certainly coopted and used by Western global elites as a means of controlling their respective populations for nearly two years.”

Since then, the pandemic has become a plandemic — that is, it is now serving as justification for permanently altering behaviors around the globe while usurping the freedoms of billions of people.

Case in point: At the recent G20 gathering in Bali, Indonesia, the assembled elite proposed a universal vaccine passport plan to ‘allow’ freedom of travel. In short, anyone wanting to step on a plane or board a ship to travel internationally would have to agree to have their medical privacy invaded by government bureaucrats, even though the COVID virus has all but vanished and is no longer close to the threat that it was (and even then it wasn’t nearly as deadly and serious as we were being told).

Indonesian Health Minister Budi Gunadi Sadikin, who spoke about the plan on behalf of the G20 host country earlier in the summit had called for a “digital health certificate” using WHO standards:

“Let’s have a digital health certificate acknowledged by WHO... if you have been vaccinated or tested properly, then you can move around.”

The Biden White House revealed its own plot to enforce vaccine mandates and vaccine passports in “future pandemics,” in a statement it released on November 16, 2022:

“We acknowledge the importance of shared technical standards and verification methods, under the framework of the IHR [International Health Regulations] (2005), to facilitate seamless international travel, interoperability, and recognizing digital solutions and non-digital solutions, including proof of vaccinations. We support continued international dialogue and collaboration on the establishment of trusted global digital health networks as part of the efforts to strengthen prevention and response to future pandemics, that should capitalize and build on the success of the existing standards and digital COVID-19 certificates.”

Sen. Rand Paul Says Biden’s Extension of “Emergency” Powers is a “Trick”

SEN. RAND PAUL has openly questioned how President Biden can claim the “pandemic” is over yet continue to declare that the nation is still in an “emergency.” In a speech and in a commentary to major newspapers the newly re-elected Sen. Paul writes:

The Constitution is the guarantor of our liberties. So it should come as no surprise that those who crave power to rule over their fellow man always seek to suspend the Constitution by declaring and perpetuating national emergencies.

This is the trick that always seems to work: declare an emergency and exempt yourself from the constitutional restraints on power that are necessary for the preservation of a free society. It is a strategy that has existed since antiquity.

Just like our Founders enshrined in the Constitution a system of checks and balances, so too did the founders of the Roman republic. But when crisis emerged, the Romans dissolved the restraints on power. That is how the Roman republic died and Caesar became dictator for life.

There is a touch of Caesarism in the ongoing COVID national emergency. President Joe Biden has admitted that “the pandemic is over,” yet his administration continues to extend its national emergency declaration.

When the Senate voted to terminate the COVID national emergency in March, the White House issued a veto threat. At the time, the White House said, “Although we have made tremendous progress in combating the virus ... the virus continues to pose a risk to the American people and our health-care system.” Caesar could not have said it better himself.

Biden’s administration demands credit for how it has wielded extraordinary powers, but stops short of claiming total success because to do so would be to admit it no longer needs the powers it craves.

Have we forgotten what emergency powers in the hands of the government look like? They look like lockdowns, where livelihoods and lives are destroyed. They look like a travel mask mandate; like robbing children of a full education; like the closure of places of worship; and like a vaccine mandate for those working for large companies. They look

like an eviction moratorium in which the Centers for Disease Control and Prevention claims the power to destroy contracts and effectively seize private property.

When was the last time you heard the president tell the country it was time to relax emergency powers?

His actions validate the argument made in Robert Higgs’s classic work, *Crisis and Leviathan*. Higgs demonstrated that governments justify the exercise of extraordinary powers during an emergency, but when the crisis ends, even if government gives back some of the powers, it will never voluntarily relinquish all its newfound authorities.

We are free from these monstrous policies only because the courts forced government officials to abide by the Constitution. In a decision striking down California’s efforts to shut down churches, for example, the Supreme Court restored the Free Exercise clause of the First Amendment and held that “even in a pandemic, the Constitution cannot be put away and forgotten.”

And when the Supreme Court ended Biden’s eviction moratorium, it found that “The CDC has imposed a nationwide moratorium on eviction in reliance on a decades-old statute that authorizes it to implement measures like fumigation and pest extermination. It strains credulity to believe this statute grants the CDC the sweeping authority it asserts.” The Supreme Court further concluded that our system does not permit agencies to act unlawfully—even during an emergency.

The court also struck down Biden’s vaccine mandate for private companies, with the majority declaring, “This is no everyday exercise of federal power. It is a significant encroachment into the lives, and health, of vast numbers of employees.”

When the courts restored the people’s liberties, you could count on the Biden administration to express disappointment and claim that disaster was just around the corner. But the administration, time and time again, was proven wrong...

Anti-Defamation League and NAACP Had Strange Interest in Black “Vaccine Hesitancy”

It seems that the ADL has been concerned about vaccine hesitancy among Black people even before the COVID-19 so-called vaccines came out in late December of 2020. In June of 2020—just a few weeks after the “pandemic” was declared—the ADL partnered with the NAACP under the umbrella of the “Stop Hate for Profit” campaign. They gave Facebook head Mark Zuckerberg a list of “recommendations” he should use to “stop hate speech” on his platform that included a strange item: “4. Find and remove public and private groups focused on white supremacy, militia, antisemitism, violent conspiracies, vaccine misinformation, and climate denialism.” What does “vaccine misinformation” have to do with hating Jews? And how did this vaccine reference get into a “hate” agenda long before the COVID-19 “vaccine” became a national issue?

‘Wave of Litigation’ Over COVID Vaccine Mandates

The *Children’s Health Defense* reports that “Nike and Washington State University (WSU) are two of the latest employers to face lawsuits from employees who lost their jobs over COVID-19 vaccine mandates.”

• Three former senior employees last week sued Nike, demanding punitive damages for religious discrimination, medical discrimination and battery after they were fired or lost their jobs due to Nike’s COVID-19 vaccination mandate.

• Nick Rolovich, former WSU football coach, sued the university and Washington Gov. Jay Inslee seeking damages after he was fired last year for refusing to get the COVID-19 vaccine.

The two lawsuits came on the heels of another suit filed last week by three former National Basketball Association (NBA) referees who sued the NBA after they were fired for refusing the COVID-19 vaccine on religious grounds.

It’s all part of a “wave of vaccine mandate litigation” that has grown to **more than 1,000 lawsuits challenging vaccine mandates** and filed primarily against employers in the last several months, according to the *National Law Review*.

Ice Cube Ices The “Jab”

Ice Cube confirmed on the podcast “Million Dollaz Worth of Game” that he lost a \$9 million acting role because of his refusal to get the COVID “vaccine shot.” Cube was dropped from Sony’s comedy “Oh Hell No,” co-starring Jack Black when producers of the film required all cast members be “vaccinated” in order to participate in the production. Ice Cube said:

“I turned down a movie because I didn’t want to get the [m.f.] jab. I turned down \$9 million. I didn’t want to get the jab. [F.] that jab. [F.] ya’ll for trying to make me get it. I don’t know how Hollywood feels about me right now.”

This is how enslaved Blacks were used in medical experiments in Charleston, SC in 1856—a practice that continues to this day.

875 Vaccine-Related Bills Filed in 44 States

During the 2022 legislative session, National Vaccine Information Center (NVIC) analyzed, tracked and issued positions on an unprecedented 875 vaccine-related bills in 44 states and the District of Columbia. According to the group:

- More vaccine-related legislation has been filed in state legislatures across the U.S. in 2022 than in any other year.
- This is nearly four times the number of vaccine-related bills proposed in a single year in state legislatures.
- There were 475 bills which serve to restrict the vaccine-pushing pharmaceutical industry and thus worthy of NVIC’s support; another 214 bills were marked as a bill to “watch;” these may have been well-intentioned but contained problems that could be fixed with amendments.

• No state legislatures passed bills with COVID-19 mandates or mandating any type of vaccine; 25 states passed some form of protective language that prohibits COVID-19 vaccine passports or COVID-19 vaccine mandates in some capacity.

The NVIC writes that “Now more than ever, it is critical that people continue to be involved in the legislative process at all levels of city, county, state and federal government.”

Vaccine Corner

The following excerpt is from *Dissolving Illusions: Disease, Vaccines, and the Forgotten History* (2015), by Suzanne Humphries, M.D. (in photo), and Roman Bystryanyk.

“Like most doctors, I received a cursory summary of the childhood and adult vaccine schedules and was told that vaccines are safe and effective and to give them on schedule. I never questioned the vaccine schedule and was largely agnostic about it.

“After nearly two decades of working in the conventional medical system, several things converged to launch me into a new way of thinking. I never would have predicted that the medical establishment would present itself to me as a blatant violator of life or conflict with my moral and spiritual principles... but it did.

“The most memorable event was during the winter of 2009 when the H1N1 flu vac-

cine was given as a separate injection from the seasonal flu vaccine. Many doctors were skeptical of the practice of influenza vaccination, and many of my hospital colleagues signed the exemption form and dodged the vaccine for themselves. However, there were trusting patients who did not have the discernment to refuse and I got to see the potential result of vaccination on their kidneys.

“That winter, three patients in close succession were wheeled into the emergency room of my hospital with total kidney shutdown. When I arrived to talk to them, each one volunteered to me, ‘I was fine until I had that vaccine.’ All three had normal kidney function at baseline, as per their outpatient records. All three required acute dialysis, two eventually recovered, and one died of complications several months later, supposedly from his other illnesses. After this series of events, I began to take vaccine histories on each of my patients and was startled at the connections that could be made just by asking, ‘When was your last vaccine?’ In my opinion, many cases of supposedly idiopathic (a medical term for unknown) kidney disease are not idiopathic at all.”

Biden’s White House targets poor Blacks by offering \$20 in food credits for those who take the depopulation jab

Health activist Mike Adams (in photo) reports that “the White House is targeting the poor for depopulation. After causing record food inflation through money printing, food facility sabotage and the dismantling of energy infrastructure needed by farming operations, the Biden regime is now arranging for \$20 in grocery retail credit for those who are willing to be injected with so-called covid ‘vaccines’ — actually depopulation bio-weapons designed to maim and kill.”

Adams writes that after the wicked inducements of donuts, weed, french fries, lottery tickets, etc., “Now, the White House is upping the ante, offering \$20 in grocery money for those willing to exterminate themselves with vaccine-assisted suicide. No doubt as food inflation continues to skyrocket, this incentive will be raised to \$50, then \$100. After all, the US government prints money from nothing, FTX-style.

“At some point, the poorest Americans will only be able to afford to eat if they agree to be jabbed with depopulation weapons that cause infertility, stillbirths, spontaneous abortions and excess fatalities.”

“Thus, the Biden White House is now targeting the poor for extermination, and this policy will disproportionately target low-income, inner city Black Americans, the same demographic group that has been targeted for extermination by Planned Parenthood abortions and eugenics programs for decades.

“As the *UK Daily Mail* reports: **‘Biden’s Covid bribe: Americans who get a booster vaccine this winter will get \$20 discounts on their groceries...’**

“People who get the Omicron-specific shot at CVS, Safeway, Winn-Dixie, or Rite Aid will get up to \$20 off their purchases this winter. It comes amid a soaring inflation crisis that has driven up the price of household staples.

“...Put another way, America’s top pharmaceutical retailers are carrying out a program of ethnic cleansing that targets Blacks. On top of that, the cancer industry in America also preys on Blacks who suffer chronic vitamin D deficiencies (due to skin pigmentation that blocks UV light from the sun), making their cancers more aggressive and more profitable for the exploitative cancer industry.”

93 Canadian doctors dropped dead suddenly after COVID vaccine

Under-40-year-old Doctors Are Dying at 4x Prior Rate; 8x Prior Rate Under 30

There appears to be a pandemic of doctor deaths in Canada, and the younger they are the more prone they are to dying. Physician and cancer researcher **Dr. William Makis (in photo)** is speaking out about the 93 Canadian doctors who dropped dead suddenly after receiving the COVID vaccine. He says “Most doctors by now have had four COVID shots—some have even had five.” Dr. Makis says this is a serious warning sign and that “We need urgent autopsy testing for the spike protein; we need to conduct autopsies on these dead doctors to assess why they died and all just post COVID vaccine.”

Dr. Makis told scientist and epidemiologist **Dr. Paul Alexander**:

“I started noticing the doctors dying after the booster shot because some of those deaths occurred right after the booster shots were rolled out. We had some very high-profile sudden deaths. And then that just seemed to accelerate.”

“...And so, I kept track of all of these sudden deaths. And it’s now at 93 — 93 sudden deaths of actively practicing Canadian doctors who didn’t have any obvious prior conditions prior to the vaccine rollout. And this is since the vaccine rollout; 93 sudden deaths and Canadian doctors.”

“...And so, I kept track of all of these sudden deaths. And it’s now at 93 — 93 sudden deaths of actively practicing Canadian doctors who didn’t have any obvious prior conditions prior to the vaccine rollout. And this is since the vaccine rollout; 93 sudden deaths and Canadian doctors.”

More Vaccinated than Unvaccinated Died from COVID-19 in August

An analysis by the *Washington Post* and the Kaiser Family Foundation found that 58% of coronavirus deaths in August 2022 occurred in people who’d been “vaccinated.” Significantly, they write, “It’s no longer a pandemic of the unvaccinated.” [Note: *It never was*]

The report also finds that only 11% of Americans have taken the booster despite the massive campaign to push yet another ineffective and dangerous shot onto the public.

And while the U.S. government continues to push its failed “vaccine,” its own data show that COVID is still killing 200 Americans every day. *The huge state of Uttar Pradesh in India aggressively distributed the very inexpensive and effective over-the-counter drug IVERMECTIN to its population of 230 million residents, and today they have a daily COVID death rate of just FIVE.*

Vaccine Inventor Calls COVID Policies a DISASTER

Dr. Robert W. Malone is one of the primary inventors of mRNA & DNA vaccines. He has been censored and deplatformed for trumpeting the dangers of the COVID vaccines. He recently wrote the following on his blog, titled “*Worldwide COVID-19 Religious Restrictions: Shocking revelations about Gov control, harassment and of religious groups and peoples.*”

As detrimental as the mass vaccination policies have been, the harms done by the synchronized, global campaigns to essentially lock-up (quarantine) whole populations are enormous.

As has been documented in the scientific literature, lock-ups did little to stop the spread of COVID-19. Based on FOIA’d documents, we now know that Dr. Cliff Lane of NIAID [headed by Anthony Fauci] went to China. He came back advocating a policy to quarantine the entire world.

The United States then convinced the World Health Organization to also advocate for synchronized quarantines, even though there was no scientific evidence to suggest that this would be beneficial. In fact, it went against everything public policy experts had previously believed would work during a pandemic. The lack of scientific evidence that lock-ups would work was laid out nicely in the Great Barrington Declaration that has been discussed here and elsewhere extensively.

This set the stage for other countries to step in line with the policies of the USA and UN. These extended quarantines drove countless peoples into extreme poverty, stopped children from going to school - which impeded childhood learning and development, and made whole economies crash. On the individual level, quarantines caused massive depression, suicide, starvation, social deprivation and increased addictions.

There has never been an experiment carried out on humans across the world such as this. These lock-downs were done without scientific evidence. In the end, the quarantining of the entire world population was an abject failure and may be the most massive human rights violation experienced globally ever.

Leaked emails show Fauci admitting that masks were “ineffective”

Earlier this year the attorneys general of Missouri and Louisiana filed a lawsuit accusing top-level Biden officials of working with social media giants such as Meta (Facebook), Twitter, and YouTube (Google) to censor COVID free speech “under the guise of combating misinformation.”

Missouri AG Eric Schmitt just released information from **Dr. Anthony Fauci’s seven-hour deposition** proving that the outgoing director of the National Institute of Allergy and Infectious Diseases (NIAID) knew full well that face masks were “ineffective” at the very same time he was pushing for mask mandates across the country.

Emails sent by Fauci to a friend at the start of the pandemic reveal that Fauci never believed masks to be anything more than a symbol of obedience to government depopulators. Two months after the email, Fauci was urging states and local municipalities to mandate masks. Schmitt said in a tweet:

“In Feb. ’20 he emailed a friend advising her masks were ineffective,” “Confirmed again on Mar. 31. On Apr. 3, he’s adamant masks should be worn even though he couldn’t cite a single study to prove it. Mandates followed – Lives ruined ... Covid tyranny is born.”

Vaccine Corner

The following excerpt is from *Dissolving Illusions: Disease, Vaccines, and the Forgotten History* (2015), by Suzanne Humphries, M.D., and Roman Bystryanik.

Dr. Suzanne Humphries, nephrologist: “What was most puzzling to me was how I was treated when I tried to protect my own kidney-failure patients from being vaccinated—especially when they were ill.

“After an attempt to get the hospital to defer vaccinating for pneumonia and influenza until the day of hospital discharge instead of admission, I was told not to interfere with the vaccination protocol.

“... Any other time I suggested that a drug was responsible for kidney damage, that drug was immediately discontinued—no questions asked. This happens routinely with certain blood pressure drugs, antibiotics, pain killers, etc. Sometimes kidneys can react to drugs in an allergic fashion—to any drug at any time—and that drug would have been stopped. Some drugs cause direct toxicity to the kidneys, and in the past if I suggested to stop or avoid them, they were always avoided. But now I was unable to protect my own kidney-failure patients from vaccinations given in the hospital.

“Questioning the vaccines seemed to open an entire Pandora’s box that apparently had yellow tape over the lock, along with the message, ‘Do not cross.’ I was met with doublespeak—permitted to write an order to stop a vaccine that was to be given if I got there in time, but I was also told that I was doing it too often and that I should not interfere with the hospital’s vaccination policy.”

Twitter Says it is No Longer Enforcing Its “Misinformation Policy”

Before Elon Musk bought Twitter, the social media giant suspended 11,000 accounts and removed 100,000 pieces of content for violating its misinformation policy between January 2020 and September 2022, alone.

But now that the “world’s richest man” owns it, he has made no secret of his disdain for the censorship regime that has infected social media. CNN Business noted that “Twitter users Monday night spotted a note added to the page on Twitter’s website that outlines its Covid policy: ‘Effective November 23, 2022, Twitter is no longer enforcing the COVID-19 misleading information policy.’”

Further, Musk revealed an internal investigation of how the policies were put in place. In a Tweet on Nov. 28th Musk wrote: “The Twitter Files on free speech suppression soon to be published on Twitter itself. The public deserves to know what really happened...”

It remains to be seen just how extensive the “Twitter Files” will be, and whether the investigation will blame a few “fact-checkers” or fully expose Twitter’s collusion with government depopulators.

The African who Brought Immunization to America

Vaccination as preventive medicine is not new to Black people. Knowledge of the science of immunization came to the European settlers in America by way of an

enslaved African in Boston named **Onesimus**. In 1706 Dr. Onesimus explained the technique of applying the pus from an infected smallpox sore to a small incision in the uninfected person to build resistance to the disease. Using this medical technique **Dr. Zabdiel Boylston** inoculated 248 people (Black slaves among them)—the first introduction of vaccines to the European.

The major thoroughfare in Boston now carries Boylston’s—not Onesimus’s—name.

For Africans, Dr. Onesimus may have been the single shining light in our medical history with white people. From that point forward the role of white doctors has little to do with health and much more to do with racial experimentation, oppression, and control.

News sources are claiming that China is building massive “quarantine camps” for those “testing positive” for COVID-19. U.S. government is SILENT. Is this coming to America?

Pfizer R&D Head: “Vaccine” “wasn’t ready for prime time”

Head of vaccine R&D at Pfizer, Kathrin Jansen wanted “the anti-vaccine lobby” stopped from “spreading misinformation”: “Don’t let them get away with it,” she said in a 2019 interview. But two years after Pfizer’s chemical swill was forced upon the population, there has been a meteoric rise in myocarditis (heart disease), blood clots, lethal heart attacks, strokes, cancer, miscarriages, and sudden death. All are skyrocketing, but they are written off as either normal or coincidental. Heart attacks are now blamed on everything from hot weather and cold showers to soil microbes in your garden, climate change and loud noises.

In a recent interview Jansen explains Pfizer’s process, having claimed to get a call from Pfizer CEO Albert Bourla in March 2020: **“Get it done before the end of the year.” I said, “This is crazy!” But money was not an issue — and, then, you can do amazing things in an amazing amount of time.... We got creative—we couldn’t wait for data, we had to do so much ‘at risk’. We flew the aeroplane while we were still building it.”**

As **Dr. Joseph Mercola** points out, Pfizer did everything “at your risk.” The pharma company risks nothing. It gets paid whether the shots work or not—whether they kill or maim—and it has zero liability for injuries and deaths, financial or otherwise. The person who takes on all the risk is the one who takes the shot. Deaths that the CDC says resulted from the shot are now near 33,000—more than could fit into any indoor sports arena in America. Chicago’s United Center is the largest and holds only 24,000. That many healthy people—at least that many—walked in to get the shot and dropped dead soon after.

Jansen takes no responsibility (indeed, she has decided to retire), but now she admits: **“But the mRNA platform wasn’t ready for prime time. There were stability issues, formulation issues, that we needed to solve. In 2020, it was only a research process and it needed to be scaled up. Usually, you start with a small reactor, and then you go to bigger and bigger reactors. We didn’t have time to do this. Instead, we just cloned this relatively small-scale research process many times and over multiple sites to get to the capacity to produce billions of doses.”**

Jansen stresses that this is “not a model for the future,” because “it’s not sustainable.” But those who are continuing this work disagree, because warp speed rollout with minimal or no testing is, in fact, the New Norm. **The Honorable Minister Louis Farrakhan**, February 27, 2021:

“You know, anything that’s ‘warped’ is misshaped. Anything that’s ‘warped’ is crooked. So by rushing so fast to get something out, bypassing normal steps in a true vaccine, now God is gonna turn your ‘vaccine’ into death in a hurry. Mark my words, by the help of God: Since you loved to take the vaccine, then eat death.”

Natural Immunity and the Slave Trade

Natural Immunity refers to how a person infected with a disease develops defenses against that disease and against future infection. In 2004, **Dr. Anthony Fauci** went on C-Span and was asked if someone who got the flu still needs to get a flu vaccine. He replied: **“If she got the flu for 14 days, she’s as**

protected as anybody can be because the best vaccination is to get infected yourself.”

Fauci forgot all that as more and more profits got in the way of science (Fauci’s net worth more than tripled during the plandemic.). He now insists that immunity can only be achieved through chemical jabs, boosters, and boosters, and more boosters.

As long as 240 years ago, natural immunity to disease was well understood even among Jewish slave traders, like Philadelphia “broker” **Isaac Franks**, who in 1782 advertised the sale of a 29-year-old “Negro Man” as “stout and healthy... honest and sober... a good farmer.” But most important, he “has had the small-pox”—a selling point even back then.

TO BE SOLD,
A NEGRO MAN, stout and healthy,
Aged 29 years, has had the small-pox, is a good farmer, can do all manner of work upon a plantation, honest & sober, can be well recommended, is sold only for want of employ, and his own choice to live rather in the country than in a city, will be sold at a reasonable price. Apply to
ISAAC FRANKS, Broker, in Second-street, Aug. 15.

In 1782 “natural immunity” to disease was well-known and even used as a selling point: “has had the small-pox”

Minister FARRAKHAN Exposes Satan the Psychopath

Satan is transforming himself into some type of Angel of light saying he wants to help the world, while at the same time Satan is a pathological liar and a psychopath of the worst kind who can never admit his own fault and kills without any conscious or thought of mercy only what Satan deems is good for himself.

No wonder when we say our oft-repeated prayers, that we open saying: “I seek refuge in Allah against the accursed Satan.” Paul, the Apostle, in the Bible says, “We war not against flesh and blood, but against principalities, and powers, and the rulers of the darkness of this world, and spiritual wickedness in high places.” And in the Book of Corinthians in the 11th Chapter, the 13th and 14th verses, Paul says, “For such are false apostles, deceitful workers, transforming themselves into the apostles of Christ. And no marvel; for Satan himself is transformed into an angel of light.”

Well, who are these people—“spiritual wickedness” that is in high places? This is talking about spiritual leaders who are being used to fight against the truth of the Gospel of Jesus the Christ. Last week, we talked about a Mr. Holdren, the new czar of Science and Technology under President Obama; and this man agreed with Dr. Kissinger that depopulation is of the highest priority because the resources of the planet are limited, while at the same time the people of our planet are multiplying at a tremendous multiplication rate, faster than they can be killed.

And this is why Zbigniew Brzezinski said, “It is easier to kill a million people today than to control a million people”; and while at the same time the Third World peoples are multiplying, the White population is diminishing in Europe, it’s diminishing in America, by the power of Allah (God). Putting poison in the water to sterilize human beings so that the gift of reproduction, which God gives to every creature to maintain, and sustain, and reproduce itself, that very process is being killed by food that we need to eat, water that we need to drink, poison in the air that we need to breathe and poison in the earth that is under our foot to produce what we put in our mouths as food and as seeds for planting.

Will ‘Unvaccinated Blood’ Be Preferred?

More and more people worldwide are seeking to have medical procedures done with “unvaccinated” blood. Della Pietra is founder of the nonprofit **Safe Blood Donation** service in 2021, matching unvaccinated blood recipients with donors in 65 countries.

As a naturopath, he believes that an mRNA injection is more dangerous than pharmaceutical companies are willing to admit. He said the growing numbers of adverse reactions are reason enough to question the presumed safety and effectiveness of the covid “vaccines.”

Data from the Centers for Disease Control and Prevention (CDC) showed that vaccinated and boosted people made up 58.6 percent of the COVID-19 deaths in August—up from 41 percent in January 2022.

Each of the three primary mRNA COVID-19 vaccines contains “spike protein” fragments, which now appear to be implicated in the rise of blood clots and heart diseases. “I’ve never seen anything similar, Della Pietra told *The Epoch Times*.

Although donated blood and plasma must undergo a cleansing process before transfusion, Safe Blood Donation says this is not enough to remove all mRNA ingredients.

“I’m talking about graphene oxide and non-declared inorganic components in the vaccine, which we can see in the blood. When I see them, I have no idea how we can get rid of them again,” Della Pietra said.

In the United States alone, there are approximately 16 million units of donated blood annually and it is unclear if any distinction is being made between vaccinated and unvaccinated blood.

Della Pietra said that, to his knowledge, Safe Blood Donation, based in Switzerland, is the first unvaccinated blood donation service of its kind.

“And, although we have already asked hundreds of clinics, at the moment—at least in Europe—all of them still refuse to allow the human right of free blood choice with them—or at least do not want to be mentioned because otherwise, they fear reprisals.”

“This is why I decided to do [SafeBlood Donation]. I wanted to make a network for unvaccinated people looking for a blood donor because they need it—whether they have scheduled surgery or an emergency,” he said.

Safe Blood Donation began working in the United States about a month ago, building an infrastructure of medical partners.

However, in the current medical environment, central blood banks such as the Red Cross do not segregate their blood donations based on their vaccinated or unvaccinated status.

Prominent Doctor Explains How Big Pharma Tried to Crush IVERMECTIN

“Remember, the entire objective of Big Pharma Disinformation campaigns is to counteract “science that emerges which is inconvenient to Industry interests.” The tactic to accomplish this was invented by a PR firm working for Big Tobacco in the 1950’s. That PR firm still exists today. No wonder that PR firm still thrives. They literally were able to suppress and distort the evidence of lethality and toxicity of tobacco for 50 years in the service of that Industry. That “science” supported an insane winning streak in lawsuits against them for 40 years, until they finally succumbed with the 1998 “Master Settlement Agreement” reached with the attorneys general of 46 states, putting an end to a lot of their malevolent chicanery (but not really).

Big Pharma learned from Big Tobacco that you can prevent ivermectin science from emerging by censoring the “inconveniently positive” studies while only publishing “conveniently negative” studies, you could destroy the idea that repurposed drugs are effective in the pandemic. I have said it many times, but never have two generic drugs (HCQ and IVM) presented a greater threat to their goals and profits within the largest new marketplace that has ever been created for their products.

“The CDC has been captured by the pharmaceutical industry, telling the nation’s physicians and pharmacists not to use generic medicines... This is corruption, plain and simple, it’s corruption!”

Rev. HORACE MOULTON, a minister of the Methodist Episcopal Church in Marlborough, Massachusetts, says :

“Some, when other modes of punishment will not subdue them, *cat-haul* them; that is, take a cat by the nap of the neck and tail, or by its hind legs, and drag the claws across the back until satisfied; this kind of punishment, as I have understood, poisons the flesh much worse than the whip, and is more dreaded by the slave.”

In Court Deposition Fauci Can't Remember—174 Times!

Dr. Anthony Fauci, the singular “voice of science” that guided America’s COVID response to become the worst health disaster in modern history, was finally put under oath to answer questions in a 7-hour deposition. The lawsuit was brought by the attorneys general of Missouri and Arkansas, who charge that the U.S. government colluded with social media giants to suppress free speech guaranteed by the 1st Amendment to the Constitution.

Dr. Anthony Fauci

For the first time Fauci was forced under penalty of perjury to answer for his destructive role in the plandemic, and the man who runs the most massive medical system on planet earth testified that he “could not remember” a reported 174 times.

Further, Fauci could not point to a single scientific study—not one—that supported mask mandates, or that supported masking at all! The government “health leaders” already admitted that the 6-foot “social distancing” rule had no scientific basis, that the “vaccine” cannot prevent infection or transmission of any disease, and that more “vaccinated”

people are dying from COVID than unvaccinated—but now the rationale for the mask policy is shown to be mythology.

Fauci revealed that the lockdowns he pushed onto Pres. Trump were not the result of any thoughtful risk-benefit analytical planning, but apparently the result of a minor official’s visit to China where he was impressed by their brutal lockdown measures—the same ones that have now pushed hundreds of thousands of Chinese into the streets in widespread rebellions.

New Study: Colleges that Force the Jab are “Ethically Unjustified”

A new study published in the *Journal of Medical Ethics* estimates that in the fall of 2022 as many as 43,000 young adults aged 18–29 years “must be boosted with an mRNA vaccine to prevent one Omicron-related COVID-19 hospitalisation over 6 months.” And, they say, “this should be considered a conservative and optimistic assessment of benefit.” They conclude that “university COVID-19 vaccine mandates are likely to cause net expected harms to young healthy adults.” They calculate that for each hospitalization allegedly averted by the “vaccine,” approximately 18.5 Serious Adverse Events and as many as 4,626 disruptions of daily activities will occur. A COVID vaccination, they conclude, “is not outweighed by a proportionate public health benefit. Serious COVID-19 vaccine-associated harms are not adequately compensated for by current US vaccine injury systems. As such, these severe infringements of individual liberty and human rights are ethically unjustifiable.”

America’s most trusted health official, Florida surgeon general Dr. Joseph Ladapo, highlighted the findings in a tweet: “Great analysis by outstanding research team showing that mRNA COVID-19 booster mandates likely harm more college students than they help. Remarkably, universities are willfully turning a blind eye. Students, be aware!”

Top UK Doctor Says PSYCHOPATHS Running World Medical System

Dr. Aseem Maholtra is the most prominent physician in the United Kingdom. He took the COVID “vaccine” and publicly advocated that everyone should do the same. When his healthy physician father died with unexplainable clots, Dr. Maholtra discovered that the “vaccine” was the likely cause of his father’s death and the cause of the current pandemic of death and suffering. He has called for an immediate halt to the worldwide mRNA “vaccine” program and proved that it is far more dangerous and deadly than the COVID disease itself.

Award-winning cardiologist Aseem Maholtra is interviewed on TheHighWire.com by host Del Bigtree.

On a recent Highwire program he was interviewed by Del Bigtree, where he discussed the PSYCHOPATHIC minds involved in the medical industry:

“Many years ago, Dr. Robert Hare—forensic psychologist considered preeminent expert in his field, who was behind influencing the original definition of ‘psychopath.’...—says when he talks about big corporations and he talks about Pharma, he says if you look at the way that they operate, they actually fulfill international diagnostic criteria for psychopathy. And when I try to understand what’s going on, and people say things like ‘This is criminal, this is unbelievable,’ I think one explanation is this: If you have an entity that has more and more power over our lives, big corporations who function more often than not or very often as psychopathic entities, you can then explain all the downstream effects in the culture—doctors turning a blind eye, not speaking out; information being suppressed. This all, I think, comes from the root cause of the problem, which is the corporate power.”

Vaccine Corner

The following excerpt is from *Dissolving Illusions: Disease, Vaccines, and the Forgotten History* (2015), by Suzanne Humphries, M.D., and Roman Bystryanyk.

Dr. Suzanne Humphries, nephrologist:

“When I pointed out the connection between vaccines and worsening or new-onset kidney failure to a couple of open-minded colleagues, they understood, started taking vaccine histories, and saw what was happening. Yet they remained silent. Most doctors continue to practice with comfortable indifference. Some see the errors, damage, and limits of their practices but still walk lockstep with the herd and protect the brotherhood. [...] I’ve had far more success reasoning with parents and intelligent people who are not attached to traditions that are damaging, unscientific, and not even supported by our own medical literature.”

Senate Hearing Exposes Fallacies of COVID-19 Policies

Newly re-elected **Senator Ron Johnson**, the incoming ranking member of the Senate’s Homeland Security & Governmental Affairs Committee, held a roundtable discussion: “Covid-19 Vaccines: What They Are, How They Work and Possible Causes of Injuries.” Johnson invited speakers from both sides of the COVID response narrative to meet in Washington on December 7-9, including the heads of all the agencies and private corporations that are playing a part in the government’s depopulation program. Even though official hearings like this are routinely filmed, strangely, the senate’s video staff did not show up for the session. A private organization, the **Informed Consent Action Network (ICAN)**, filmed the event and the informative testimonies can be seen on its website TheHighwire.com. Here are some highlights:

Sen. Ron Johnson

Dr. Ryan Cole, MD, pathologist
“What was Dr. Fauci’s holy grail of vaccines? HIV. Where are we with HIV and a vaccine? 40 years later—we don’t have one. Why? HIV also has a spike protein... it always mutates ahead of our efforts. We don’t have coronavirus vaccines for a very simple reason: they always mutate ahead of our vaccine efforts and always will. We’re playing whack-a-mole with a virus. That’s why early treatment was so important—not chasing an always-mutating virus with a vaccine.”

Dr. James Thorp, MD, OB/GYN
“What I have seen in my clinical practice has been a substantial increase of infertility, miscarriage, fetal death and fetal malformation.”

Dr. Renata Moon, MD, Pediatrician
“I have a government that’s telling me that I have to say [the COVID injections are] ‘safe and effective’ and if I don’t, my license is at threat.... We’re seeing an uptick in myocarditis, an uptick in adverse reactions.... Something is extremely wrong.”
“A typical package insert has a great deal of information in terms of adverse reactions....[When] I looked at the package insert that I pulled from the mRNA product, I unsealed the box it came in and pulled this out and this is what it looks like: It’s blank. It says, ‘INTENTIONALLY BLANK’ on it.”

Dr. Robert Malone, MD (inventor of mRNA vaccine)
Sen. Johnson: “Is this a vaccine or gene therapy?”
Dr. Malone: “As I have said repeatedly, it came out of a gene therapy research program. These and the adenoviral vectors are absolutely gene therapy technology applied for the purpose of eliciting an immune response.”

Edward Dowd, Wall Street analyst
“In 2021, in ages 25-64, the employed people [in the US] covered under Group Life [insurance] experienced a 40% excess mortality. As quoted by the CEO of an insurance company, just a 10% increase in excess mortality is a ‘once in a 200-year flood,’ so 40% is off the charts.”

Dr. Peter McCullough, MD, MPH

“All the vaccine mandates should be dropped immediately. We need immediate funding for vaccine injury centers of excellence across the US for screening, detection, diagnosis, prognosis and management. ...What is at stake here is death.”

Dr. Pierre Kory, MD, MPA

“We had an entire health system telling us to stay home until our lips turned blue. There are plenty of [repurposed] drugs that have been shown to have antiviral properties. They were very quickly identified around the world and widely used but not in this country.”

Dr. Paul Marik, MD

“In my hospital...they wanted me to use Remdesivir. We know according to the WHO, Remdesivir increases your risk of kidney failure 20-fold, your risk of renal failure 20-fold and increases your risk of dying by about 4%. It has no place in medicine, yet the federal government will give hospitals a 20% bonus...if you prescribe this toxic medication.”

Sura 22: The Judgment

*In the name of Allah, the Beneficent, the Merciful
O people, keep your duty to your Lord; surely the shock of the Hour is a grievous thing.*

The day you see it, every woman giving suck will forget her suckling and every pregnant one will lay down her burden, and you will see people as drunken, yet they will not be drunken, but the punishment of Allah will be severe.

And some people dispute about Allah without knowledge, and follow every rebellious devil —

For him it is written that whoever takes him for a friend, he will lead him astray and conduct him to the punishment of the burning Fire.

Sister Ava Muhammad

“Now the whole world knows there is a direct causal connection between these products and the deaths of thousands of people, along with hundreds of thousands of adverse events (injuries) in this country alone....Even more shocking is that these numbers are being dismissed as inconsequential or coincidental....In addition, they are people who were simply living their lives until they were coerced and cajoled by the government into subjecting themselves to fatal injury. The 1976 swine flu pandemic mass vaccination campaign was abruptly canceled after 53 deaths. In less than 6 months the COVID vaccines have killed more people than all available vaccines combined over a 15-year period (1997-2013).”

SUDDEN DEATH Pandemic Revealed in New Book

A former fund manager for BlackRock, the largest corporation in the world, has written a book titled *Cause Unknown: The Epidemic of Sudden Deaths in 2021 and 2022*. Financial analyst Edward Dowd details insurance industry data showing that in 2021, group life policyholders ages 25 through 64 — a far healthier subset of the general population than people outside that age group — suddenly experienced 40% excess mortality, compared to 32% in the general population. These are not numbers that can be associated with a “pandemic”; they are proof of depopulation—the poisoning of a population slated for removal.

American disability statistics are equally revealing. Since May 2021, the overall U.S. population has experienced an 11% increase in disabilities, while the employed — which is about 98 million out of a total population of about 320 million — experienced a 26% increased rate of disability. So, notes Dr. Joseph Mercola, “something was introduced into the workforce that caused working-age people to die.”

Edward Dowd has been a severe critic of the COVID-19 plotters and what he sees as the mathematical certainty of a financial collapse—which he says elites intended to blame on the “pandemic.”

In a recent interview with Dr. Mercola Dowd reveals that “When this product [the COVID shots] came to market, I was very suspicious because I know a lot about health care. I was on Wall Street and I used to analyze health care stocks. I knew that normal vaccines took seven to 10 years to prove effectiveness and safety. This was an experimental

vaccine, a non-traditional gene therapy that had never been tested on humans. I read the literature on the animal tests and they were an abomination....

“Then in early 2021, I started hearing anecdotes that people were getting sick and/or injured, or died, from distant friends and relatives. I started reading about sudden athlete deaths, [and] suspected the vaccine right away. I didn’t have the data that I have now, but I said to myself, ‘You know, I’m going to look at insurance company results, funeral home results.’ That eventually led to excess mortality statistics.”

“What I’ve learned through my own personal experience is that Pharma is, on the whole, mostly fraudulent. Most drugs that have been approved by the FDA [U.S. Food and Drug

Administration] aren’t really all that safe and effective. They have to recall so many drugs every year. The FDA has been wholly captured by the pharma industry. Seventy to 75% of the drug approval pharma arm of the FDA comes from pharma fees, directly from the companies, so this has been corrupted for a long time.

“...There’s a giant cover-up going on, as far as I’m concerned. The data that I’m going to talk about today is there for the global health authorities to see. They see what I see, and at this point it’s negligence, malfeasance, a cover-up and a crime.

“That’s why I’m here, because I don’t believe anybody has a right to tell me what to do with my body, and I can’t believe this actually happened. The numbers I’m going to reveal to you are now a national security concern.”

Jacques Cousteau

“One American burdens the earth much more than twenty Bangladesh’s. This is a terrible thing to say. In order to stabilize world population, we must eliminate 350,000 people per day. It is a horrible thing to say, but it’s just as bad not to say it.”

Gov. DeSantis Calls for Grand Jury to Investigate Vaccine Makers

Florida Gov. Ron DeSantis announced that he is petitioning his state’s supreme court to impanel a state-wide grand jury to probe any wrongdoing pertaining to COVID-19 vaccines.

“Florida law prohibits fraudulent practices, including the dissemination of false or misleading advertisements of a drug and the use of any representation or suggestion in any advertisement relating to a drug that an application of a drug is effective when it is not,” the governor’s petition states.

“The pharmaceutical industry has a notorious history of misleading the public for financial gain. Questions have been raised regarding the veracity of the representations made by the pharmaceutical manufacturers of COVID-19 vaccines, particularly with respect to transmission, prevention,

efficacy, and safety. An investigation is warranted to determine whether the pharmaceutical industry has engaged in fraudulent practices. The people of Florida deserve to know the truth,” the petition notes.

He further stated that “The Surgeon General (Dr. Joseph Ladapo) will oversee the Public Health Integrity Committee, a committee of expert researchers charged with assessing federal decisions, recommendations, and guidance related to public health

and health care. The Surgeon General would then receive input from the committee to ensure public health policies are tailored for Florida’s communities and aligned with state priorities.”

Gov. DeSantis said that he has communicated with governors of several other states that are considering taking similar actions.

Vaccine Corner

Today the work of Dr. Jonas Salk (right) is viewed with pride by doctors because they say the “vaccine” he introduced in 1953 eradicated the disease poliomyelitis. But The Most Honorable Elijah Muhammad forbade Nation of Islam members from taking it. Within days of recipients being given Salk’s vaccine, reports of “vaccine-associated polio paralysis” began surfacing. According to one report, “Within a month, the mass vaccination program against polio had to be suspended. Salk’s vaccine had caused seventy thousand cases of muscle weakness, one hundred and sixty-four cases of severe paralysis and ten deaths. Three fourths (75 percent) of the victims remained paralyzed for the rest of their lives.”

And it was later found that a contaminant was introduced into the vaccine in the form of Simian Virus-40—a cancer-causing agent. Between 1955 and 1963 around 90 percent of chil-

dren and 60 percent of adults in the U.S. were inoculated with Salk’s cancer-contaminated polio vaccines. It has now come to light that Dr. Salk was part of an odious trend in the United States medical establishment that was thought to have been banished after the horrors of Nazi Germany. Salk vaccinated 8,000 patients at two institutions for the mentally disabled in Michigan, and then infected them with wild influenza virus made from dried, infected mouse tissue. Salk later conducted another medical experiment on some of the 3,400 mentally disabled children at the Watson Home for Crippled Children and the Polk School near Pittsburgh.

More recently, the polio vaccine has actually caused polio in Pakistan, India, Nigeria, and U.S., among other nations. According to a 2010 article in the *New England Journal of Medicine*, outbreaks of vaccine-derived polioviruses (VDPVs) have been occurring at a rate of once or twice per year, since the year 2000.

Appeals court says U.S. cannot mandate federal contractor COVID vaccines

A U.S. appeals court said the White House could not require federal contractors to ensure that their workers are vaccinated against COVID-19 as a condition of government contracts.

The U.S. government has contracts with thousands of companies, and courts have said the issue could affect up to 20% of U.S. workers.

A panel of the 5th Circuit Court of Appeals voted 2-1 to uphold a lower court decision that blocked President Joe Biden's September 2021 contractor vaccine executive order in certain states after Louisiana, Indiana, and Mississippi brought suit to seek invalidation of the mandate.

The court said Biden wanted it “to ratify an exercise of proprietary authority that would permit him to unilaterally impose a healthcare decision on one-fifth of all employees in the United States. We decline to do so.” The court's opinion said that such a broad interpretation of the law could give Biden “nearly unlimited authority to introduce requirements into federal contracts.”

Illustrating that point, the court wrote, “hypothetically, the president could mandate that all employees of federal contractors reduce their BMI (body mass index) below a certain number on the theory that obesity is a primary contributor to unhealthiness and absenteeism.”

From the start most legal analysts believed that Biden's executive order was illegal and would be overturned, so it seems to have been issued to make federal employees and contractors believe they had no choice other than to take the “vaccine.”

Twitter Files Show Clear COVID Truth Suppression

A release of internal Twitter documents dubbed “Twitter Files” has revealed accounts were placed on various “blacklists” that sought to limit the reach of those accounts, including that of a doctor who expressed concern over COVID-19 lockdowns.

The uncovered Twitter censorship files show that Stanford University professor **Dr. Jay Bhattacharya** was “blacklisted” for raising questions about how school lockdowns might affect the nation's children. Several other doctors were banned from Twitter altogether.

In response to the revelation by Twitter's new owner **Elon Musk**, Dr. Bhattacharya said, *“I think the major problem has been that...people, regular people, scientists, whoever thinks that there's something really different than the narrative, you're going to get destroyed. That's happened over and over again, even for very prominent scientists,”* he said, adding, *“A lot of the censorship that's happened of scientific discussion comes from the top.”*

Bhattacharya is one of three lead authors of the **Great Barrington Declaration**, signed by over 60,000 doctors and researchers, plus 870,000 others, and made public in October 2020. Signers of the declaration decried the harm of the lockdown and recommended a course of action that undermined the “vaccine”-only agenda.

Dr. Bhattacharya tweeted this truism on December 20, 2022:

“Censorship is the refuge of powerful people who have lost the argument.”

Orthodox Jewish Women Are Reporting Post-Vaccine Menstrual & Fertility Issues

A new article series by investigative journalist **Etana Hecht** in the *Daily Clout* will examine the effect the Covid “vaccine” is having on fertility. She reports: “Some of the earliest reports of menstrual disruption post-vaccination came from the women of the Jewish Orthodox community, almost immediately after the vaccine rollout.”

Orthodox Women Noted Post-Vaccine Menstrual Issues Early On

The Jewish Orthodox community is in a unique position when it comes to understanding the ongoing effect that Covid vaccinations are having on a wide variety of issues, with fertility and reproduction at the center. As more and more evidence arises confirming that mRNA vaccines harm women's menstrual cycles, leadership on the issue is arising from an unexpected source: Orthodox Jewish women and Rabbis in Israel and America.

Because of the sacred role of the mikveh (ritual bath) in marital life, this community was alerted early to menstrual suffering among its vaccinated women, and advocates in that community are now also raising alarms about a dramatic drop in birthrates—from five or six a week to one or two a month—as well as reports of a wave of births in which babies were missing a hand or a foot.

Hecht interviewed a rabbi and community leader of a Hasidic sect in New York. Among other alarming observations he made are the following:

Birth Rate: The average number of births seen in Hasidic communities in NY has been cut in half. Pre-Covid vaccine, there was a consistent ~20 births per week across the various communities. The practice of announcing those births in community newsletters has been in place for decades, and there's a definitive sharp decline to ~10 births per week, beginning in 2021.

Infinitely Easier to Kill

“To put it bluntly: in earlier times, it was easier to control one million people than to physically kill one million people; today, it is infinitely easier to kill one million people than to control one million people.” — Zbigniew Brzezinski, United States National Security Advisor, 1992

Doctors Calling for a HALT to COVID “Vaccines”

Medical activist **Steve Kirsch** has compiled a list of prominent doctors and scientists who publicly called for a halt to the COVID vaccines *after* they were launched in December 2020. The list includes:

- Dr. Peter McCullough: March 10, 2021
- Dr. Geert Vanden Bossche: March 24, 2021 (possibly earlier)
- Mike Yeadon: May 15, 2021
- Steve Kirsch: May 25, 2021
- Byram Bridle: May 26, 2021
- Robert Malone: May 30, 2021
- Bret Weinstein: Jun 10, 2021

Others that should be mentioned where the exact dates are not known are Dr. Lee Merritt, Dr. Judy Mikovits, Dr. David Martin, Dr. Sucharit Bhakdi, Dr. Vladimir Zelenko, Dr. Luc Montagnier, Dr. Paul Alexander, Dr. Christina Parks, Dr. Pierre Kory, Dr. Ryan Cole, Dr. Aseem Malhotra, and many others.

But let us not forget that on July 4, 2020, **The Honorable Minister Louis Farrakhan**, in his monumental speech “The Criterion,” warned all who would listen to avoid the “vaccine” at all costs. *A full six months before the COVID shots were released* at the end of December of 2020, he said:

“If you bring the Covid-19 vaccine and say you’re going to bring your army to force us to take it, once you try to force us, that’s a declaration of war on all of us. You only have this one life. Fight like hell to keep it and fight like hell to destroy those whose heart and mind is to destroy you and take your life from you...”

And then he addressed the African people:

“I say to my brothers and sisters in Africa: if they come up with a vaccine, be careful. Don’t let them vaccinate you with their history of treachery through vaccines, through medication. Are you listening? I say to the African presidents, do not take their medications...”

Minister Farrakhan is following in the footsteps of His FATHER, **The Most Honorable Elijah Muhammad**:

“Now the ‘thing’ is catching up with him with what his own hands have produced. And they are willing to confess that these things are not good for us. They are turning down much of their medication, which is absolutely poison and detrimental to us. It is prophesied in the Holy Qur’an that when the God of Truth, Freedom, Justice, and Equality Comes, He Will Force this evil world to confess their evil. And, this, they are doing. And, many of them are shocked over their own doings. And others are trying to teach you that their Brother is wrong.”

Top Pathologist Explains How Pharma Botched the Manufacturing of Covid Vaccine

Dr. Ryan Cole, MD (in photo), spoke at the Better Way Conference held in Vienna, Austria, Sept. 17, 2022:

“Where a lot of people dodged a bullet and a potential harm is when people lined up in stadiums or outside and had these vaccination clinics, these vials weren’t kept cold, and those fats turned into a glob of mush and the RNA broke down into nothing. So you got a shot of mush, which you’re lucky, very lucky—because it wasn’t kept cold.

“And so the other thing too is each vial from different lots is not the same concentration....When you stir lipid nanoparticles, polyethylene glycol, and mRNA sequences, you can’t agitate it quickly....When that happens the lipids kind of float to the top. Now you have thousands of vials going across an assembly line, spitting out the content, and the first couple thousand vials get a very dilute solution—you’re not getting a lot of dose of mRNA or lipid...

“But then at the end of that batch now you have some very concentrated lipid mRNA. So in each manufacturing run of this very poor manufacturing process, which has lots of debris in lots of vials and all these heebie-jeebies and creepy things, are mostly manufacturing debris. And that’s, again, what some of the mass spectrometry we looked at has shown: [the debris] is from stainless steel vats; it’s from aluminum seals; it’s from gaskets, etc.; it’s from crushed glass.

“A good manufacturing process in a drug development process takes years—like 5, 6, 7, 8, 9 years—until you have a product pure enough that you can repeat every single time that it comes off the line that it’s the same thing. You saw in that early European Medicines Agency [report] last year, [COVID-19 vaccine is] 50% pure. It’s supposed to be a 99+% pure product. That tells you everything you need to know right there....As a pathologist having looked at a lot of these, the more we look at, it’s bad manufacturing....But, a lot of people are lucky because of that.”

California Bill AB2098 Would Force Doctors to Push Big Pharma Line

Medical censorship and the punishing of any doctor that did not practice vaccine-only policy made America have the very worst in pandemic outcomes. But now the state of California is about to make medical censorship a law, punishing any doctor that questions the medical dictators in Washington and their Big Pharma funders.

Gov. Gavin Newsom (in photo) signed AB 2098, a bill which will become law on January 1, 2023, and says that “physicians who engage in the dissemination of COVID-19 vaccine misinformation or disinformation risk losing their medical license, and that physicians have a duty to provide their patients with accurate, science-based information.” It appears to label doctors as enemies of the state, claiming “that some of the most dangerous propagators of inaccurate information regarding the COVID-19 vaccines are licensed health care professionals.”

The law’s definition of misinformation is “false information that is contradicted by contemporary scientific consensus contrary to the standard of care.” One commentator wrote, “Every California physician who, say, expresses an opinion challenging the safety of the vaccines for young people or the efficacy of masks or the legitimacy of the covid death count—that is, anyone who shares information about covid that’s not consistent with what the California Medical Board deems to be the official ‘scientific consensus’—will become a target of the Board for license suspension or termination.”

When one considers how “scientific consensus” during the last two years has been skewed by political corruption, corporate bribery, and media deception, it is easy to see how AB2098 means the loss of any remaining trust patients may have had in the medical system in California.

Vaccine Corner

The following excerpt is from *Dissolving Illusions: Disease, Vaccines, and the Forgotten History* (2015), by Suzanne Humphries, M.D., and Roman Bystryanyk.

“Before improvements were made in hospital hygiene, hospitals were even more serious sources of infection than they are today. Hospitalism was a general term used to describe the negative influences upon infants in hospitals and asylums. During the 1800s, the public often believed that these dirty and overcrowded institutions were a danger to health and well-being....”

“A 1977 analysis of the effect of medical intervention on the decline of mortality in the United States since 1900 stated how little medical measures had to do with disease decline...”

“Unfortunately, the flawed belief that vaccines and other medical advances [chemotherapeutic, surgical, pharmaceutical] were responsible for this amazing decline has dictated how infectious diseases are treated today. Instead of an emphasis on hygiene, nutrition, and appropriate vitamin supplementation, immune system support, and natural remedies, the emphasis is always on costly antibiotics, vaccinations, and other medical procedures.”

Black women in America are twice as likely as white women to have a stillbirth

Every year more than 20,000 pregnancies in the U.S. end in stillbirth, the death of an expected child at 20 weeks or more. This year, ProPublica has reported on the U.S. stillbirth crisis, including the botched rollout of the COVID-19 vaccines for pregnant women, the proliferation of misinformation, the failure to do enough to lower a stubbornly high national stillbirth rate and the lack of study of the causes of stillbirths.

According to 2020 data from the federal Centers for Disease Control and Prevention (CDC), Black women overall are more than twice as likely as white women to have a stillbirth. The national stillbirth rate for Black women was 10.3 and for white women 4.7 per 1,000 live births and fetal deaths.

In some states, including South Carolina, Kansas and Tennessee, they are around three times as likely to deliver a stillborn baby. In Arkansas and Mississippi, the stillbirth rate for Black women in 2020 topped 15 per 1,000 live births and fetal deaths; it was more than 11 in New Jersey and New York.

In America, Black stillbirths have been understudied and received little public attention. In addition, writes ProPublica, “the community of stillbirth researchers and advocates remains relatively small and overwhelmingly white....Academic studies and national obstetric groups have explicitly identified racism as one of the factors that contribute to persistent health disparities.”

Black women face nearly three times the risk of maternal mortality than white women, according to CDC data. Black women die during pregnancy or childbirth at higher rates than their white counterparts, as do their babies. And pregnant women are also more likely to deliver prematurely if they are Black.

Ivermectin Is Safe and Effective: The Evidence

Dr. Colleen Huber, a Naturopathic Medical Doctor (NMD), provides more backing for the power of Ivermectin to combat COVID-19. Her book, *The Defeat of COVID*, summarizes the evidence, which she laid out in a recent *Epoch Times* article.

Ivermectin is on the World Health Organization (WHO) List of Essential Medicines and is approved by the US Food and Drug Administration (FDA).

This well-tolerated but potent anti-parasitic medicine has been prescribed billions of times in its 36-year history against a wide range of parasites. It has also been studied and used against a wide range of viruses especially over the last decade, and there is evidence of potent antiviral effects against Influenza A and over a dozen other viruses tested.

A review of 63 studies of ivermectin's effectiveness against COVID-19 in humans, shows that 100% of these studies have shown positive results. Studies were from all continents except Antarctica. Forty studies were excluded from the meta-analysis for complicating factors or insufficient detail re-

ported, and these also showed 100% positive results.

Over the 63 studies, 69% of them showed improve-

ment in early treatment (after infection), and preventative use showed 86% improvement.

It is estimated that the likelihood of an ineffective treatment showing such positive results as the above results is exceedingly small. That probability is estimated to be one in one trillion.

The African continent has had remarkably low incidence of COVID-19, particularly equatorial African countries. It may be helpful to look at African countries where ivermectin has been used commonly for decades against the onchocerciasis that it has been prescribed for, to observe population-wide effects. In this population comparison, risk of COVID-19 death was found to be 88.2% lower and morbidity 85.7% lower in 31 countries where onchocerciasis is endemic and ivermectin is commonly used than in 22 countries where neither is the case, even though the latter group of countries has a higher life expectancy, 66 years vs 61 years.

Dr. Paul Marik on IVERMECTIN

Dr. Paul Marik is a world-renowned Pulmonary and Critical Care Specialist. He is the second most published critical care physician in the world, publishing over 500 peer-reviewed journal articles and cited in academic journals over 43,000 times. He is an outspoken critic of the “COVID vaccines” and he has called for the vaccination program to be halted. He was interviewed by the *Final Call* in October and recently by the *Epoch Times*:

“Ivermectin is a remarkable drug. People pooh-pooh it, talk about it as horse dewormer, which is completely absurd. So, if you had to design a drug for COVID, it would look exactly like Ivermectin. It has all the properties that any drug would want: It's antiviral, so it works against a whole host of RNA viruses—this is indisputable. It is anti-inflammatory. We know this. There are multiple studies showing that Ivermectin is a very powerful anti-inflammatory drug. We know that what it does is, it stimulates the

process called autophagy, which is very important in the process of healing and it's one of the main mechanisms that we use to help patients get rid of spike protein. And Ivermectin, believe it or not, stimulates autophagy. The other thing it does which is important is, it changes, improves the microbiome. So we have all of these bacteria in

our gut, and what happens is COVID, and the vaccine, changes your microbiome in a very unfavorable manner, very unfavorable. It causes profound changes in the microbiome, and this in itself has serious consequences. Ivermectin helps restore the microbiome. So it truly is a multifunctional drug, which is safe. And it works both for early COVID and it also is very effective for the vaccine-injured. We are not making money selling Ivermectin—no one is going to make money. People ask, ‘Well, do you have a conflict of interest,’ ‘Are you selling Ivermectin?’ No, this is a cheap generic drug. The WHO actually had access to Ivermectin at two cents a tablet—2¢. How can you possibly make money off such a cheap drug?”

Homeschooling Among Blacks Sees Meteoric Rise During Plandemic

“A Mother’s Lap is a Child’s First School”

While homeschooling has steadily grown in popularity in the United States over the past several decades, its growth since COVID-19 has been historic.

According to the U.S. Census, among all K-12 students in the United States, 11.1%, or at least 5 million, are being homeschooled. According to the National Home Education Research Institute (NHERI), the homeschool population had been growing steadily at an estimated 2% to 8% per year, but grew exponentially during the plandemic. The percentage of children being homeschooled has nearly tripled since mid-2019. By May of 2021, the U.S. Census Bureau found more than 1 out of every 12 students were being homeschooled.

And homeschooling is increasing at much higher rates among non-whites. According to a *Washington Post* article: “Between 2019 and May 2021, homeschooling rates jumped from about 1 percent to 8 percent for Black students — a more than sixfold increase. Among Hispanic students, rates jumped from 2 percent to 9 percent. The increase was less dramatic for White families, where homeschooling doubled from 4 percent to 8 percent over the same time period.”

Diversity of U.S. Homeschoolers

- Black: 16.1% of households are homeschooling
- Hispanic: 12.1% of households are homeschooling
- White: 9.7% of households are homeschooling
- Asian: 8.8% of households are homeschooling

These figures show that Black parents are heeding the call of **The Honorable Minister Louis Farrakhan**, who said,

“We cannot allow our children to die in the killing fields of an educational system that has run its course....America is very arrogant; and in that arrogance we have reached the plateau of learning, so her civilization is now in decline. The fall of this civilization is going to continue, but out of it must come something new, something better.”

One such organization that has emerged to answer that call is **Power Campus Online Learning**, which started in 2015 to serve the HomeSchool community. “We offer an array of enrichment classes to fill in activities during the HomeSchooler’s day.” Read more:

White House’s Chief COVID Expert: ‘No Study In The World Shows That Masks Work That Well’

Dr. Ashish Jha, the Biden administration’s “COVID response coordinator,” dealt a blow to the claim that their masking policies “follow the science” in a recent interview in which he was speaking about indoor air quality which he said, “has just not got the level of attention it deserves. Most experts believe that, if we make some basic investments in indoor air quality, we can reduce, in fact, all respiratory infections by 30 or 60 or even 80%.”

He continued: “I mean, the notion that you could cut respiratory infections—***there is no study in the world that shows that masks work that well.*** So you’re never going to get the kind of benefit from mandatory year-round masking as you would from making substantial improvements in indoor air quality, plus it’s a lot easier to implement as well.”

British lawmaker calls for the immediate halt of Covid injections

Andrew Bridgen is a member of Parliament (Britain):

“As the data clearly shows to anyone who wants to look at it, the mRNA vaccines are not safe, not effective and not necessary. I implore the Government to halt their use immediately. As I have demonstrated and as the data clearly shows, the Government’s current policy on the mRNA vaccines is on the wrong side of medical ethics, it is on the wrong side of scientific data, and ultimately it will be on the wrong side of history.”

“...Big pharma exerts its power by capturing the political environment through lobbying and the knowledge environment through funding university research and influencing medical education, preference shaping through capture of the media, financing think-tanks and so on. In other words, the public relations machinery of big pharma excels in subterfuge and engages in smearing and de-platforming those who call out its manipulations.

“Silence on this issue is more contagious than the virus itself, and now so should courage be. I would implore all the scientists, medics, nurses and those in the media who know the truth about the harm these vaccines are causing to our people to speak out.”

Nigeria Sets \$45 ATM withdrawal limits to push digital currency usage

One of the main methods Satan has devised to control the population that his jabs don’t kill is DIGITAL CURRENCY. If Satan and his minions can eliminate physical cash with a click of a mouse, they can manipulate ALL of your buying choices, your travel options, your ability to access your own money at any time and anywhere. It is the electronic equivalent of the slave badge system in Charleston and other cities that restricted the movement of Blacks and severely punished any perceived transgressions.

Digital currency is Satan’s dream system and it was hoped that the “pandemic” would frighten the people into accepting their own virtual imprisonment, but the public resistance to the COVID policies and mandate measures is far stronger than Satan expected. But, rest assured, it is still in the works for America. Ironically, for the past year the Central Bank of Nigeria (CBN) has been testing a system called eNAIRA in Africa, but the uptake—as it is for the vaccines—is unenthusiastic. So the CBN announced that the daily maximum customer ATM withdrawal for naira, Nigeria’s currency, is now capped at 20,000 naira (\$45). This is a huge step down from the previous limit of 150,000 naira (\$337) per day.

The release also outlined new restrictions on weekly bank withdrawals, now limiting it to 100,000 naira (\$225) for individuals and 500,000 naira (\$1,124) for corporations.

“Customers should be encouraged to use alternative channels—Internet banking, mobile banking apps, USSD, cards, POS, eNaira to conduct their banking transactions,” the central bank said.

Of course, the world’s money masters are not selling it as the new slavery. Their snake-like approach is to sell its “convenience,” its “safety,” its “trendiness,” its “efficiency,” and sell it as an anticorruption measure. It will be tied in to your “vaccine” and booster status, and if actually implemented will make Satan’s rule complete.

Rising Incidents of Heart Attacks Raise Issue of Vaccine Safety

The now all-too-common scenes of world-class athletes collapsing of heart attacks raise yet more concerns about the COVID-19 “vaccine” and its mounting death toll in America and around the world.

Dr. Aseem Malhotra is a world renowned expert in the prevention, diagnosis and management of heart disease. He took the “vaccine” when it was first offered but now warns that taking it may have truly deadly consequences. His analysis of the “vaccine” and its deleterious effect on health is eye-opening:

Although vaccine-induced myocarditis [inflammation of the heart muscle] is not often fatal in young adults, MRI scans revealed that, of the ones admitted to hospital, approximately 80 percent have a certain degree of persistent myocardial heart damage, which predicts unfavorable outcomes for the future.

“It is like suffering a small heart attack and sustaining some—likely permanent—heart muscle injury,” wrote Malhotra.

“It is uncertain how this will play out in the longer-term, including if, and to what degree, it will increase the risk of poor quality of life or potentially more serious heart rhythm disturbances in the future.”

It is now reported that the leading cause of death in the United States during the pandemic—from March 2020 to October 2021—was heart disease, and the rise has been seen disproportionately in the young. “This is a huge signal that surely needs investigating with some urgency.”

“Similarly, a recent paper in *Nature* revealed a 25 percent increase in both acute coronary syndrome and cardiac arrest calls in the 16- to 39-year-old age group which was significantly associated with administration of the first and second doses of the mRNA vaccines but had no association with COVID-19 infection.”

Misleading Clinical Data

Dr. Malhotra found that data coming from the mRNA vaccine manufacturers themselves were deceptive, misleading to the public and most doctors.

“Headlines around the world made very bold claims of 95 percent effectiveness...glossing over the big difference between controlled trials and real-world conditions,” Malhotra wrote.

Without evaluating the data “most doctors and the general public interpreted the statement to mean if 100 people are vaccinated then 95 percent of people would be protected from getting the infection.”

In reality, and in absolute terms, “the vaccinations provided 0.84 percent protection which means only one in 119 people would be protected from infection.”

What is an unvaccinated person’s chance of testing positive for COVID-19 with symptoms?

It is 0.88 percent. Meaning that out of 10,000 people who are unvaccinated, 88 of them would test positive with symptoms of COVID-19.

That also means around 9,912 unvaccinated people out of the same 10,000 would not test positive—higher than 99 percent.

- In August 2021, Japan rejected 1.63 million doses of Moderna’s mRNA shot due to contamination. Last year the European Medicines Agency (EMA) also expressed concern over vials that were only 50% to 55% pure (99% is what is expected);

- The vials also contain massively inconsistent amounts of polyethylene glycol (PEG). PEG can cause anaphylactic shock in some people. PEG also gets in the way of proper immune response.

- The government and the manufacturers have refused to reveal the ingredients of these “vaccines,” leaving it to private sector scientists to perform these government studies.

Demographers: World population increased by nearly 1% from 2022

It has become clear to most prudent observers that the world is in the grips of the most aggressive and far-reaching depopulation program ever attempted. Yet the recent estimates of demographers at the U.S. Census Bureau conclude that the U.S. population jumped a half percent in the last year to 334,233,854.

Further, the global population has expanded to more than 7.9 billion people.

The number is a more than 79 million-person increase from January 2022 worldwide.

They say that currently, 4.3 births and two deaths are expected worldwide every second.

In the U.S., there is one person born every nine seconds, one person dying every 10 seconds and someone joining the population every 32 seconds through immigration. It averages out to a net gain of an American every 21 seconds.

If true, this represents an alarming trend to those advancing Henry Kissinger’s depopulation agenda through the COVID-19 “vaccine” operation. In his secret 1974 memo (NSSM-200), Kissinger argued that controlling the strategic resources of Third World nations was directly linked to depopulation.

The **Global 2000 Report**, published in 1980, was commissioned by U.S. President Jimmy Carter and reinforced the Kissinger agenda. It concluded that overpopulation, among other environmental issues, posed a severe threat to the future of humanity, and called for international cooperation in solving those problems.

Shocking Lab Investigation of COVID “Vaccines”

2022: A record number of children were injured or killed by gunfire

Depopulation through gun violence is still wreaking havoc. *USA Today* reports that in 2022, more than 6,000 children and teens were injured or killed in shootings, according to the nonprofit **Gun Violence Archive**, the most in a single year since the database began tracking nine years ago.

Here is what they are reporting about child gun deaths, injuries in 2022:

- More than 1,300 teens (ages 12-17) were killed and nearly 3,800 injured in 2022; more than 300 children (ages 11 and younger) were killed and nearly 700 injured. Those figures include homicides, accidental discharges and more but do not include suicides.

- While the number of children injured and killed by gun violence has remained steady in recent years, the number of injured and killed teens has been rising each year since at least 2019, according to the archive.

- In 2022, there were 50 school shootings that resulted in injuries or deaths, according to *Education Week*. At least 31 children were killed in the shootings, including 19 murdered at Robb Elementary School in Uvalde, Texas.

Dr. Samaa Kemal, a pediatric emergency medicine physician at Lurie Children’s Hospital of Chicago, said contributing factors also include the worsening mental health crisis among youth and the lingering hardships of the COVID-19 “pandemic,” such as financial stresses, decreased community-based resources, and increased social isolation.

What to Do if You Got the Jab

The *Final Call* DOES NOT GIVE MEDICAL ADVICE, and individuals must consult their own trusted medical advisors.

Many medical professionals who raised serious doubts about the safety of the mRNA “vaccines” are reporting on ways to counteract the jab’s negative effects. Here is one suggested approach by Dr. Joseph Mercola:

“If you already got one or more jabs, stop now and take no more. That’s step No. 1. If you struggle with post-jab symptoms, be sure to look at the **Frontline COVID-19 Critical Care Alliance’s (FLCCC) post-jab injury protocol** [<https://covid19criticalcare.com/treatment-protocols/i-recover/>].

“Remedies that can help inhibit, neutralize and eliminate spike protein have also been identified by the World Health Council. Inhibitors that prevent the spike

protein from binding to your cells include Prunella vulgaris, pine needle tea, emodin, neem, dandelion extract and the drug ivermectin. Dr. Pierre Kory, of FLCCC, believes ivermectin may be the best approach to bind the circulating spike protein.

“Spike protein neutralizers, which prevent the spike from damaging cells, include N-acetylcysteine (NAC), glutathione, fennel tea, star anise tea, pine needle tea, St. John’s wort, comfrey tea and vitamin C.

“Time-restricted eating (TRE) can also help eliminate the toxic proteins by stimulating autophagy, and nattokinase, a form of fermented soy, is helpful for reducing blood clots. Several additional detox remedies can be found in ‘World Council for Health Reveals Spike Protein Detox’ [<https://www.organicconsumers.org/news/world-council-health-reveals-spike-protein-detox>].”

“If you can’t question science, it’s not science.”

Physical Exercise Significantly Lowers Risks for COVID-19 Complications

The **National Vaccine Information Center** [<https://www.nvic.org>] reports on a new study published last week in the *American Journal of Preventive Medicine* that found that exercise of any amount had a protective effect on risk of hospitalization and death from infection with SARS-CoV-2 and symptoms of COVID-19. The study follows 25 previous studies that also reported strong associations between mortality and hospitalization, and physical inactivity.

Researchers examined 194,191 adults who had a positive COVID-19 test between January 2020 and May 2021 and found that the odds of developing SARS-CoV-2 complications and adverse COVID outcomes

were higher in the inactive set.

Patients in the “always inactive” category had 91 percent higher odds of hospitalization, 139 percent higher odds of a “deteriorating event” and 291 percent higher odds of death than patients in the “always active” category. Results were generally consistent across sex, race and ethnicity, age, and BMI (body mass index) categories.

So, if a person with chronic disease was infected with SARS-CoV-2, the odds of hospitalization, an inpatient deterioration event, and death were lowered among those who were engaged in some physical activity before a COVID diagnosis, compared with those in the “always inactive” category.

AN UNHEALTHY NATION

By almost any measure, Americans are less healthy than their peers in other high-income nations. This health disadvantage, which “begins at birth and extends across the life course,” has translated, especially in recent years, into plummeting life expectancy.

Six in ten adults in the U.S. live with one or more chronic conditions, and the situation is not appreciably different for children. Whereas in 1960, less than 2% of American children had health conditions “severe enough to interfere with usual daily activities,” by 2007, an estimated 54% had at least one chronic health problem. Some pediatricians believe that number is now far higher.

The start of the dramatic turn for the worse in American children’s health can be traced to the late 1980s and early 1990s. It was also in the 1990s that researchers began issuing warnings about adults’ worsening health trends and declining longevity. [...]

VACCINES: THE ELEPHANT IN THE ROOM

To account for these dismal trends among both adults and children, researchers have shown themselves willing to explore some contributing factors but not others. Factors admitted for discussion include pervasive chemical exposures, iatrogenic causes such as rampant opioid prescribing, deteriorating food quality, income inequality, medical debt, and lifestyle factors such as screen time. However, the unmentioned elephant in the room—a standout culprit for children, in particular—is vaccination. Mainstream medicine and media have managed to almost entirely embargo vaccination from discussion or consideration.

The timing of the downturn in children’s health coincides uncannily with federal legislation and policy changes implemented in the late 1980s that triggered a substantial increase in the types and total number of vaccines required for school attendance. In the early 1980s, children received two dozen vaccine doses in their first 18 years, an already significant load; however, between 1989 and 2019, the number of total doses administered through age 18—not including prenatal shots—surged to roughly six dozen. Stated another way, “a baby today receives more vaccinations by six months than her mother did by the time she graduated high school.”

Moderna CEO Announces New mRNA Shot to Treat Heart Failure

Moderna CEO, Stéphane Bancel (in photo), the maker of the failed injection he calls a "vaccine," complained last year at the **World Economic Forum**

meeting that his company is having to "throw away" millions of doses because "nobody wants them." He said, "We have a big demand problem..." But now Bancel seems to have solved that problem, as he told an interviewer:

"We are now in a super exciting program where we inject mRNA in people's heart after a heart attack to grow back new blood vessels and re-vascularize the heart."

This is the same mRNA technology that its inventor **Dr. Robert Malone** said should never be used as a vaccine or as medicine.

Vaccine safety advocate and attorney **Robert F. Kennedy, Jr.**, pointed out:

"The vaccine companies are making \$60 billion a year selling mandatory vaccines. They're also making \$500 billion a year selling EpiPens, inhalers, anti-seizure medications, diabetes and arthritis meds, etc. Virtually all of the medications they sell are targeted to treat diseases that are listed as SIDE EFFECTS of the vaccines on their own manufacturer inserts. It's the perfect business model. They make us all sick and create lifetime customers."

CDC data show 1/3 of vaccine recipients suffering from significant adverse event

After fighting against two federal lawsuits that sought transparency on **vaccine injury**, the **Centers for Disease Control (CDC)** were forced to release their V-safe data, which includes information on vaccine injury in a pool of about 10 million vaccinated Americans.

The V-safe data show that 33.1% of the people who got a Covid-19 vaccine suffered from a significant adverse event and 7.7% had to seek professional medical care.

Vaccine Safety Advocates Are Now Labeled 'Anti-Science Aggressors'

The **World Health Organization (WHO)** has taken charge to coordinate the worldwide COVID-19 depopulation program. So it is significant that WHO tweeted a video featuring an American doctor named **Peter Hotez (in photo)** referring to vaccine safety advocates as "anti-science aggressors," and claiming "anti-vaccine activism" has become "a major killing force globally."

Offering no proof whatsoever, Hotez claims that "anti-science now kills more people than gun violence, global terrorism, nuclear proliferation or cyber attacks." Note that at last CDC tally the COVID-19 "vaccines" have killed 33,469.

WHO's promotion of a doctor who speaks more like a war lord than a scientist is an indication of a more aggressive depopulation agenda. Dr. Anthony Fauci has retired in disgrace, leaving the government far, far short of their vaccination goals, and having severely damaged the credibility of the "health care system." Clearly, Dr. Hotez is being advanced as Fauci's replacement spokesman. And whereas Fauci claimed that he was not politically motivated, Hotez charged that questioning vaccines is a "far-right" political movement. "This is the new face of anti-science aggression," he says, "so we need political solutions to address this."

Of course, this forecasts a militaristic push to legislate forced vaccinations—enforced by a digital banking system. Satan intends to get that 2-3 billion off the planet and "vaccines" are still the best opportunity to accomplish that diabolical goal.

CHILDHOOD VACCINATION AND CHRONIC ILLNESS

American children are beleaguered by a long list of chronic afflictions—sometimes nearly from birth. Publication in 2011 of a widely cited 2007 children's health survey showed that at that time, more than half (54%) of American children had at least one of the following chronic health challenges:

- **Atopy:** asthma, food/digestive allergies, environmental allergies
- **Autoimmune:** diabetes
- **Brain-related:** brain injury or concussion, epilepsy or seizure disorder, migraine headaches
- **Developmental:** autism spectrum disorder (ASD), developmental delays affecting ability to learn (or risk of developmental delay), learning disabilities, speech problems, Tourette syndrome
- **Eyes and ears:** chronic ear infections, hearing problems, vision problems
- **Mental health:** anxiety problems, attention-deficit/hyperactivity disorder (ADHD), behavior/conduct problems, depression
- **Musculoskeletal:** bone, joint, or muscle problems
- **Weight:** overweight/obesity

Research spanning several decades strongly suggests that childhood vaccines have played a major role in constructing this picture of ill health. In fact, studies show that vaccinated children's health status is dramatically worse than that of similar groups of children not receiving the same vaccine(s), and that vaccinated children face anywhere from a two-fold to thirty-fold increased risk of developing various acute and chronic conditions (see Table 1, which compiles studies on selected health outcomes).

Children's Health Defense (CHD) has been unable to find any studies showing that vaccinated children have superior health outcomes compared to their unvaccinated peers.

Known to cause brain damage at all doses, linked to **ALZHEIMER'S DISEASE**, dementia, seizures, autoimmune issues, SIDs and cancer. This toxin accumulates in the brain and causes more damage with each dose.

GENETICALLY MODIFIED YEAST, ANIMAL, BACTERIAL AND VIRAL DNA
Can be incorporated into the recipient's DNA and cause **GENETIC MUTATIONS**.

FORMALDEHYDE (formalin)
Formaldehyde (formalin) Known to cause **CANCER** in humans. Banned in Europe. Probable gastrointestinal, liver, respiratory, immune, nerve and reproductive system **POISON**.

HUMAN AND ANIMAL CELLS
Human DNA from aborted **BABIES**, pig blood, rabbit brains, dog kidneys, cow hearts, & more. Linked to childhood leukemia and diabetes.

MERCURY (thimerosal)
One of the most toxic substances known. Tiny doses will damage the brain, gut, liver, bone marrow, nervous system and/or kidneys. Linked to autoimmune and neurological disorders.

MONOSODIUM GLUTAMATE (MSG)
A toxic chemical that is linked to birth defects, developmental delays and infertility.

Polysorbate 80 & 20
Known to cause **CANCER** in animals and linked to numerous autoimmune issues and infertility.

Wall St. Journal Stuns with Question: “Are Vaccines Fueling New Covid Variants?”

Editorial board member Allysia Finley, asked this “anti-vax” question in the January 1, 2023, edition of the **WSJ**, signaling a break in the mainstream media’s lockstep promotion of the government’s vaccines-at-all-cost “pandemic” policy.

Ms. Finley wrote: “Growing evidence also suggests that repeated vaccinations may make people more susceptible to [COVID variants] and could be fueling the virus’s rapid evolution.”

“Prior to Omicron’s emergence in November 2021, there were only four variants of concern: Alpha, Beta, Delta and Gamma. Only Alpha and Delta caused surges of infections globally. But Omicron has begotten numerous descendents, many of which have popped up in different regions of the world curiously bearing some of the same mutations.

“...Under selective evolutionary pressures, the virus appears to have developed mutations that enable it to transmit more easily and escape antibodies elicited by vaccines and prior infection.”

Finley highlighted the **Cleveland Clinic** study that tracked its healthcare workers and found that “workers who had received more [vaccine] doses were at higher risk of getting sick. Those who received three more doses were 3.4 times as likely to get infected as the unvaccinated, while those who received two were only 2.6 times as likely.”

The authors of the study noted that “This is not the only study to find a possible association with more prior vaccine doses and higher risk of COVID-19.”

Finley points out that the Northeast is “the most vaccinated and boosted region in the country,” yet it is by far the most infected and hospitalized by the latest COVID-19 variants.

Ms. Finley concludes: “The Biden administration’s monomaniacal focus on vaccines over new treatments has left the highest-risk Americans more vulnerable to new variants. Why doesn’t that seem to worry the experts?”

“They have used a series of methods to effect global depopulation, depleted uranium bombs, genetically engineered and modified foods, chemical additives in foods, poison in vaccines, famine, AIDS, Chemtrails, illegal wars.”

TOOLS OF THE INDOCTRINATION TRADE

Neurosurgeon **Dr. Russell L. Blaylock** (in photo) wrote that “The designers of this pandemic anticipated a pushback by the public and that major embarrassing questions would be asked. To prevent this, the controllers fed the media a number of tactics; one of the most commonly used was and is the ‘fact check’ scam....Never were we told who the fact checkers were or the source of their ‘debunking’ information—we were just to believe the ‘fact checkers.’ A recent court case established under oath that Facebook ‘fact checkers’ used their own staff opinion and not real experts to check ‘facts.’ ...Here is a list of things that were labeled as “myths” and “misinformation” that we now know to be true:

- There is no difference between the vaccinated and unvaccinated in spreading the “virus”;
- The vaccines cannot protect adequately against new variants;
- Natural immunity is far superior to vaccine immunity and is most likely lifelong;
- COVID “vaccines” can cause a significant incidence of blood clots and other serious side effects;
- The vaccine proponents will demand numerous boosters as each variant appears on the scene;
- The government health agencies will insist on the COVID “vaccine” for small children and even babies;
- Vaccine passports will be required to enter a business, fly in a plane, and use public transportation;
- There will be internment camps for the unvaccinated (as in Australia, Austria and Canada);
- The unvaccinated will be denied employment;
- Many hospitals were either empty or had low occupancy during the pandemic;
- Tens of thousands have been killed by the vaccines and many times more have been permanently damaged;
- Early treatment could have saved the lives of most who died;
- Vaccine-induced myocarditis (which was denied initially) is a significant problem.

Dr. Blaylock concludes that “Today, extensive evidence has confirmed that each of these so-called ‘myths’ was in fact true....The vaccinated are now known to be the main superspreaders of the virus and hospitals are filled with the sick vaccinated and people suffering from serious vaccine complications.”

“We are feeding ourselves chemical death because we are so lazy. We like TV dinners with all of the chemical preservatives in them. I tell you, some of us eat more peas and carrots that have more embalming fluid in it than the dead body that we just sent to the cemetery. Study Seeks Ways to Turn Black Church Leaders into COVID-19 Vaccine Pushers

More than a generation after the Rev. Dr. Martin Luther King gave Black church leaders a new mission of economic and social justice, a study has been launched to turn them into sales and marketing reps for Big Pharma’s depopulation vaccine. The goal of the LSU Pennington Biomedical Research Center study is to “*determine the effectiveness of training church health ministers to educate their congregations about the safety and efficacy of COVID-19 vaccines and booster shots for decreasing vaccine hesitancy and improving testing knowledge in underserved Black communities.*”

More than any other subset of the population, Blacks were steadfast in their refusal to accept the word of corrupt health officials who pushed the “vaccine” even as they knew of its dangers (33,591 deaths) and its inefficacy (does not stop infection or transmission of any virus). More and more doctors are braving the extensive campaign of suppression and professional sanction to warn people to stay far away from the “vaccine.”

The Associated Press has previously reported that across the American Bible Belt a survey from the National Association of Evangelicals revealed that “although 95 percent of evangelical leaders said they would get vaccinated against COVID-19, their congregants overwhelmingly rejected inoculation.”

Another poll showed that 40 percent of white evangelical Protestants said they would likely not get vaccinated, compared with 25 percent of Americans overall.

“[D]on’t get the vaccine, and you can’t go to the supermarket. Don’t have the vaccine. You can’t go to the ball game.

Report: 9 Months from “Vaccine” Rollout, and Substantial Birth Rate Drops in 13 European Countries

As has been previously expressed, any depopulation program worth its salt will aim for the wombs of the target population to destroy the next generation at or before conception. Dr. Robert W. Chandler, MD, completed extensive research on birth rates nine months after the international roll-out of the strange “vaccines” and found that the depopulation agenda is on course:

- Nine months following the rollout of the COVID-19 mRNA “vaccines,” substantial birth rate drops were seen in 13 of 19 European countries, including England and Wales, and Australia; also Taiwan.
- The decline in births in Switzerland was the largest in 150 years—more than during two World Wars, the Great Depression, and the advent of widely available birth control.

- There was an 8.3% drop in the birth rate in Germany through three quarters of 2022.
- England and Wales had a 12% birth rate drop through June 2022, which is when their government stopped publishing data related to this.
- Taiwan reported an alarming birth rate drop, but its data are incomplete.
- Australian birth rates fell 21% from October to November 2021, followed by a 63% decrease from November to December 2021.
- On August 25, 2022, the Swiss Hagemann group found that “every single examined European country shows a monthly decline in birth rates of up to more than 10% compared to the last three years. It can be shown that this very alarming signal cannot be explained by infections with Covid-19.”

Latest Rasmussen poll finds 34% of Americans were injured by COVID jabs

The latest Rasmussen poll finds that 34% of Americans were injured by the covid jabs, and a shocking 7% of the injuries were major and life threatening. The latest poll included 1,000 vaccinated Americans and it shows that approximately 7 in 10 American adults said they received at least one dose of a covid-19 vaccine. Of the vaccinated adults, 34% reported a minor side effect, 4% were unsure, and 7% suffered a major side effect. When the data is extrapolated to the entire U.S. population, it suggests that upwards of 12 million people may have suffered a major side effect from the covid-19 vaccines. Of course, these statistics do not include the most serious side effects — debilitation and death — because the mentally incapacitated and the deceased can’t respond to polls.

“People are really being harmed by this,” said Rasmussen’s head pollster, Mark Mitchell. “It’s true. It’s out there. People are still trying to cover it up. I think that’s a major story.”

The Informed Consent Action Network (ICAN) provided the CDC’s V-safe data in an easy-to-understand format. ICAN said the data “reveals shocking information that should have caused the CDC to immediately shut down its Covid-19 vaccine program.” The real-life data shows that 782,913 individuals had a major health event following covid-19 vaccination. A major side effect is one that requires medical attention, ER intervention and/or hospitalization. Over 25% of vaccine recipients also suffered from an adverse event that required them to miss school, work, and other normal day-to-day activities.

A LIABILITY-FREE INDUSTRY

The catalyst for the precipitous expansion of the childhood and adolescent vaccine schedules that began three decades ago in the U.S. was the National Childhood Vaccine Injury Act (NCVIA). Passed into law in 1986, this devastating piece of legislation essentially abolished vaccine injury lawsuits against manufacturers and health providers, establishing blanket liability protections that removed any incentive for vaccine companies to make their products safe. A 2011 Supreme Court decision further cemented the NCVIA’s no-liability pledge.

Israel Officials concealed, manipulated vaccine injury data, say leaked documents

American “health officials” like the CDC’s **Rochelle Walensky** and the NIH’s **Anthony Fauci** extolled the data coming from Israel as top-notch, or even superior to that which comes from American sources. They relied on Israeli medical data to craft COVID-19 “pandemic” response policies for American citizens.

It is now reported that Israel’s Health Ministry last year suppressed and manipulated vital vaccine injury data ahead of its decision to vaccinate 5–11-year-old children, according to a June 2022 letter released last week by **University of Haifa’s Dr. Yaffa Shir-Raz**.

The letter, addressed to the Health Ministry, by **Shamir Hospital’s Clinical Pharmacology and Toxicology Head Professor Mati Berkowitz**, shows that medical researchers found that there were many long-term adverse reactions to the Pfizer vaccine—the only vaccine deployed in Israel through an unusual agreement between **Prime Minister Benjamin Netanyahu** and **Pfizer CEO Albert Bourla**. The letter states that in half the cases they studied, the side effect lasted longer than six months.

According to a report by **Yudi Sherman of Frontline news**, “Then there were several findings of rechallenges, which is when the side effect resolves itself but returns after another dose. Prof. Berkowitz told Health Ministry officials that a rechallenge makes the causality between the vaccine and the adverse event ‘definitive’. Prof. Berkowitz makes clear in his letter that he is plagued with concern about his findings. One of his concerns was the fact that 150 cases of emergency visits and/or hospitalizations following the COVID injections were not reported to the expert committee tasked with recommending the shots for children. In other words, the committee that met in late June and pushed for 5–11-year-old children to be injected with the Pfizer shots had not seen crucial data about vaccine injuries.

“They now know about people — real people — who were seriously injured from the vaccine, and people who suffered rechallenges and they are not following them up, treating them or compensating them,” **Dr. Shir-Raz** told **Frontline News**. “We know that from this letter there are over 150 reports on hospitalizations in adults, but no one has analyzed those cases.”

Prof. Berkowitz’s findings were based on adverse events data from the smallest of Israel’s five HMOs, because “the other four refused” to provide that vital information. Berkowitz terminated his work in June 2022 after he and the team of researchers were not paid. “That means that since June actually — again, no one has been monitoring the side effects,” **Dr. Shir-Raz** added. “They might have the reports, but no one is analyzing them or doing anything with them, so they are, again, buried with the Ministry of Health.”

The **Frontline News** report elaborates further on other data manipulations and deceptions uncovered by the researchers that were so egregious that Berkowitz warned health officials that they might expect lawsuits.

Judge Strikes Down New York’s ‘Orwellian’ Covid Vaccine Mandate as ‘Null, Void, and of No Effect’

A New York State Supreme Court judge ruled on Friday that the Commissioner of Health for New York State, **Governor Kathy Hochul** and the **New York State Department of Health** overstepped their authority by mandating the COVID-19 vaccine for the state’s healthcare workers.

Judge Gerard Neri said the vaccine mandate was not authorized by state public health law. The court thus sided with **Medical Professionals for Informed Consent**, who with **Children’s Health Defense**, brought the lawsuit in October.

The judge also had a strong reprimand for the state claiming that taking Covid mRNA shots was a “public health” policy and not a personal health decision.

He pointed out that the Mandate is titled “Prevention of COVID-19 transmission by covered entities.” And yet, the judge writes, “In true Orwellian fashion,” state health officials “acknowledge then-current COVID-19 shots do not prevent transmission.”

According to a statement from New York’s Department of Health, “The requirement is a critical public health tool.” The agency further said, “The State Health Department strongly disagrees with the judge’s decision and is exploring its options.”

Pfizer Pushed Twitter to Censor Posts Showing Vaccine Ineffectiveness

The release of private **Twitter** correspondence by its new owner **Elon Musk** is continuing to show just how deep **Twitter’s** collusion with the government and **Big Pharma** to assault freedom of speech actually was.

Documents show that **Dr. Scott Gottlieb** (in photo), the former head of **U.S. Food and Drug Administration (FDA)** turned **Pfizer** board member, lobbied **Twitter** to take action against a post accurately pointing out that natural immunity is superior to COVID-19 vaccination—on which **Pfizer** was poised to make billions of dollars.

On Aug. 27, 2021, **Gottlieb** pushed **Twitter** to censor a **Tweet** by **Dr. Brett Giroir**, another former **FDA** commissioner, who wrote that based on a new Israeli study it was clear natural immunity, or post-infection immunity, “is superior to vaccine immunity, by ALOT.” He said there was no scientific justification to require proof of COVID-19 vaccination if a person had natural immunity.

Gottlieb apparently knew that the study cited by **Giroir** demonstrated that the “vaccine” had a very limited value. He wrote to **Twitter**, “*This is the kind of stuff that’s corrosive. Here he draws a sweeping conclusion off a single retrospective study in Israel that hasn’t been peer reviewed. But this tweet will end up going viral and driving news coverage.*”

Based on **Gottlieb’s** complaint **Twitter** reviewed **Giroir’s** **Tweet** and determined that it DID NOT break **Twitter** rules. Yet they still put a tag on it, claiming to all users who viewed it that it was “misleading” and directing them to a link that would show “why health officials recommend a vaccine for most people.” The tag prevented people from replying to, sharing, or liking **Giroir’s** post.

Gottlieb later complained to **Twitter** about a post from **Justin Hart**, a critic of lockdowns and a skeptic of COVID-19 vaccines. **Hart** wrote that “*sticks and stones may break my bones but a viral pathogen with a child mortality rate of $\lt;0\%$ has cost our children nearly three years of schooling.*”

Twitter did not take action against **Hart** but **Gottlieb** continued to complain against people posting accurate information that might undermine **Pfizer** profits.

Top Cancer Expert: Aggressive Cancers Appearing After Vaccine Boosters

In a new video, a prominent cancer specialist and Professor of Oncology, **Dr. Angus Dalglish**, warns that cancer may be the result of the Covid “boosters”:

“I have started to notice that several of my patients have melanoma who’ve been stable with stage 4 disease; they’ve had very good immunotherapy or other treatments and I’ve been reviewing them from 5 to 20 years. I’ve noticed that I have

now over six, possibly seven, even an eighth yesterday, who’ve clearly relapsed following the booster vaccine...And these relapses are quite aggressive. They’re not a gentle relapse...

“But it’s not just this. I’m now very much aware in my own circle of many people, they haven’t got a melanoma—they’ve never had anything before—but they’ve got lumps and bumps and they’re not feeling well. ...And I now know seven of them: two of them have leukemias, and the others have lymphomas, and one of them has a very bad melanoma, which he is absolutely sure was instigated by the booster, as he developed dreadful symptoms.

“So, really, I want to bring to everybody’s attention that I think that this does not look like a coincidence to me and we need to join forces and see if this is a real effect, and if it is we must stop all the boosters immediately. Thank you.”

Twitter Owner Elon Musk Suffered Serious “Vaccine” Side Effects

Elon Musk bought Twitter and reinstated many COVID policy critics that had been banned for their inconvenient truth telling.

The government and pro-vax media decried the purchase and tried to undermine Musk for his alleged free speech advocacy (note: several Nation of Islam accounts are still banned). As a result, (1) Twitter has become a major source of COVID policy analysis from a wider range of medical authorities, and (2) Twitter has become NUMBER 1 on the App Store for all News. These Tweets from Elon Musk may help explain his COVID open door policy.

Critics of Covid jabs: A worrying increase in heart deaths

The *Telegraph* in Britain admitted recently that “heart deaths have increased alarmingly in the last few years. According to the British Heart Foundation, there have been around 30,000 more deaths than expected involving heart disease since the “pandemic” began—more than 230 additional deaths over expected rates each week.”

In some weeks last year, there were more than 1,000 excess deaths with cardiovascular disease mentioned on the death certificate.

The *Telegraph* points the finger at other potential causes for this unprecedented rise in excess deaths, but their list includes several “pandemic” policies, such as lockdowns and work from home edicts, “which contributed to more sedentary lifestyles and a rise in alcohol intake...historic levels of obesity and heart disease.”

But the lengthy list of nearly 1,300 side effects that Pfizer wanted kept secret for 75 years has among them many heart-related conditions:

Acute myocardial infarction; Cardiac amyloidosis; Cardiac arrest; Cardiac failure; Cardiac failure acute; Cardiac sarcoidosis; Cardiac ventricular thrombosis; Cardiogenic shock; Cardiolipin antibody positive; Cardiopulmonary failure; Cardio-respiratory arrest; Cardio-respiratory distress; Cardiovascular insufficiency; Myocarditis; Pericarditis; Pericarditis lupus...

Further, Pfizer’s own trial data showed there were four cardiac arrests in those who took the vaccine compared with just one in the placebo, “dummy treatment,” group. As stated, Pfizer itself submitted this frightening damage report for the very product that the governments of the world called “safe & effective.” So as the heart-related deaths continue to rise, Pfizer itself appears to have drawn a correlation between its “jab” and the mounting casualties.

Prof. Shmuel C. Shapira, a physician and head of Israel Institute for Biological Research for 8 years, the most senior medical-scientific position in Israel, said in a tweet: “They can try and deny it again and again. We see all over: Aggressive new-cancers Flaring of autoimmune diseases Valvular heart disease in healthy individuals Myocarditis, neurological, fertility [problems] etc. And the winner is sudden deaths.”

Bill Gates Admits “Vaccine” Failure

“We also need to fix the three problems with vaccines. The current vaccines are not infection-blocking; they’re not broad, so when new variants come up you lose protection; and they have very short duration, particularly in the people who matter, which are old people.”

An obstetrician-gynecologist by training, Dr. Christiane Northrup is a women’s health expert and *New York Times* bestselling author; she was a frequent medical guest on the Oprah Winfrey Show. One of the first whistleblowers about what’s in the COVID shots, she very early on in the “pandemic” bore witness to The Minister, publicly affirming in 2020 that the aim of the “vaccines” is to “cull the population”—“depopulation.”

She is currently collecting data on how the “vaccines” are affecting women’s reproductive health. Here are some of her observations:

“We are in a bio-war.”

“We’ve had 1.8 million people dying suddenly since the roll-out of the Covid inoculations, which are not vaccines.”

“9 million women were burned as witches [at the stake] in the Middle Ages. Who were they? Midwives; women who used herbs, the medicine of the earth. We’re in another witch

hunt, but that’s for people like me. [She quotes Dr. Naomi Wolf.] ‘The American Government authorized the ruination of millions of women’s bodies knowingly with this injection.’...We were finding that women were having bleeding just being around recently inoculated people; little girls were hemorrhaging vaginally from being around recently inoculated grandparents.

“We [at MyCycleStory.com] now have a group of researchers working with what is going on with women’s menstrual cycles. In the entire world literature, there were 40 cases of decidual cast shedding, where the whole inside of the uterus just kind of falls out [of the uterine cavity]. In our database of 6,000 women, we had 260 of these. In just 6,000 women.

“We also know that the placentas have been adversely affected by the shots. ...They get calcified and the spike protein is found in the placenta.

“There’s a 500% increase in stillborn babies, after the shots. There’s an 80% miscarriage rate in women who had the shot in the first 20 weeks of pregnancy.

“This is the Dept. of Defense data, 2021: [an] 80% increase in congenital malformations of fetuses. As James Thorp, MD, says: ‘This [COVID shot] is a perfect storm that will eclipse the disasters of DES and thalidomide and make them look like a sunny day on the beach.’ I gotta tell you, folks: Stay away from conventional doctors who don’t see this [the dangers of mRNA vaccines].”

“Safe and Effective” is not a lie—It’s 2 lies.

Major TV Doctor Admits there's been 'overcounting' of COVID deaths

CNN medical analyst **Dr. Leana Wen** could always be counted on to provide TV backing for the destructive COVID-19 policies emanating from Washington. She famously added fuel to the “vaccine” narrative by claiming that “we know that we can't trust the unvaccinated” and that a citizen's participation in society should be tied to their vaccination status. “Because otherwise, if everything is reopened, then what's the carrot going to be? How are we going to incentivize people to actually get the vaccine?”

But she has now admitted something that would have quickly gotten her banned, blocked, and embargoed from ALL social media. The former Baltimore health commissioner wrote that hospitals have been overcounting COVID-19 deaths in the U.S.—by a lot.

“According to the Centers for Disease Control and Prevention, the United States is experiencing around 400 COVID deaths every day. At that rate, there would be nearly 150,000 deaths a year. But are these Americans dying from COVID or with COVID?”

The doctor claimed that “Understanding this distinction is crucial to putting the continuing toll of the coronavirus into perspective. Determining how likely it is an infection will result in hospitalization or death helps people weigh their own risk.” Wen claimed that the actual COVID-19 death count could only be “30 percent of what's currently reported.”

Dr. Wen wrote in a *Washington Post* column that most “patients diagnosed with COVID are actually in the hospital for some other illness.”

She spoke to two infectious-disease experts, who told her they believed “the number of deaths attributed to COVID is far greater than the actual number of people dying from COVID.”

Mentioning the first, she wrote, “Robin Dretler, an attending physician at Emory Decatur Hospital and the former president of Georgia's chapter of Infectious Diseases Society of America, estimates that at his hospital, 90 percent of patients diagnosed with COVID are actually in the hospital for some other illness.”

Dretler told Wen, “Since every hospitalized patient gets tested for COVID many are incidentally positive.”

Prof. Shmuel C. Shapira, MD, MPH, is the former Director of Israel Biological Institute, the most senior medical-scientific position in Israel. He has made a series of Tweets (@shmuelshapira) highly critical of the mRNA “vaccine”:

“Marketing of an efficient, healthy and safe product, does not require pressures, threats and such an aggressive-expensive propaganda.”

“I am pro vaccines, but Covid mRNA injections are not vaccines. These pseudo-vaccines have severe side effects and can damage multiple organs.”

I was wrong 3 times:

- * Taking the first mRNA shot
 - * Taking the second mRNA shot
 - * And again taking the third mRNA shot
- Unfortunately, irreversible mistakes.

Satan is Happy, But The Righteous Never Loved This World

Brothers, sisters, the Satan is happy. He makes the liquor, you drink it. He finds a purpose for the weed, you smoke it. This dude is so pleased to create disease, and then the drug manufacturers discover a pill for the disease, oftentimes that they create. So, now, when we get up in age...you're going to bed and waking up with a pill. You've got a box of pills by your bedside.

“I got to take this one. I got to take that one. I got to take this one and that one.” In order to do what? In order to function in a world of sport and play to prolong a life that hardly has any meaning. When they come with natural remedies for some of these illnesses, the drug companies go to the government and they'll outlaw a natural remedy so that the drug company can make money from our illness. Just look at the world in which you live, we live.”

—**The Honorable Minister Louis Farrakhan, “The Four Jesuses,” May 20, 2001**

Wen noted how people with gunshot wounds or other serious illnesses often test positive for the virus, and wrote: “If these patients die, COVID might get added to their death certificate along with the other diagnoses. But the coronavirus was not the primary contributor to their death and often played no role at all.” Wen recounted another doctor's experience at Tufts Medical Center, writing, “During some days, she said, the proportion of those hospitalized because of COVID were as low as 10 percent of the total number reported” who had COVID.

Of course, the many who blew the whistle on this COVID overcounting three years ago were quickly dismissed from society and labeled “conspiracy theorists.” But it now appears that the cash incentives that the media and hospital administrators received to label every patient a “COVID case” led to massive misdiagnosing and rampant overcounting, which led *not* to health-driven protocols but to panic-driven lockdown, mask, and vaccine mandate policies.

“FDA Approved” Means Little, As Recalls Are Rampant

On average, about 4,500 drugs and devices are pulled from U.S. shelves each year. The recalled products have U.S. Food and Drug Administration (FDA) approval and, in many cases, are widely ingested, injected or implanted before being recalled. Although the FDA may identify concerns regarding the safety of a drug, it is the responsibility of the manufacturer to initiate and execute a recall. On the other hand, the FDA can mandate the recall of a device.

As a consumer, it is important to be aware of devices or drugs that may affect your health. In 2017 alone, manufacturers recalled 4,402 drug and device products, according to the Center for Devices and Radiological Health and the Center for Drug Evaluation and Research. Of those recalls, the FDA classified 139 as Class I. Class I recalled products have the potential to cause serious harm or death.

U.S. Soldiers forced to pay back signing bonuses after refusing COVID “vax”

U.S. service members who were fired for refusing to accept the Pentagon's COVID-19 vaccine mandate are now being forced to pay back their original recruitment bonuses. According to Fox News, they were told that because they “did not complete the commitment” to their contract with the Army, they were not entitled to keep the bonuses.

The 8,400 soldiers who were fired for refusing the dangerous poison shot that has now killed at least 33,746—half the number of Americans who died in Viet Nam—say they feel that this is a punitive move by their own government, a “final kick in the face.”

Secretary of Defense Lloyd Austin (in photo) acted to remove letters of reprimand from troops whose exemption requests to the vaccine were denied. And President Biden signed the 2023 National Defense Authorization Act, which included a provision that repeals the military vaccine mandate, yet the signing bonuses are still being rescinded. The issue of back pay for those who rightly stood against the policy is not an issue the Pentagon is “pursuing.”

“The appalling treatment these individuals endured broke the trust that is owed to our citizens and our volunteers. America's sons and daughters,” the Army member said in a statement. “Until true efforts are made to establish trust, the recruiting and retention shortfalls will only continue.”

“Doctors” That Pushed Masking & Lockdowns on Twitter Don’t Exist

The **San Francisco Standard** revealed yet another COVID scam being propagated by mysterious online actors intent on falsely inflating fear and dread of a disease that has a 99.8% survival rate. Using fake accounts people posing as “doctors” spread false stories of deaths and sufferings from COVID. These posted sob-stories garnered thousands of “likes” and retweets by unsuspecting people taken in by the scam, and further promoted the fear. The messages were calculated to tug on the reader’s emotions. A “Dr. Honeyman,” who described himself as “transgender,” wrote: “Sad to announce that my husband has entered a coma after being in hospital with Covid. The doctor is unsure if he will come out... This year has been the toughest of my life losing my sister to this virus. This is the first time in my life I don’t see light at the end of the tunnel.”

The Standard said that this was “part of a network of at least four fake accounts that touted their ties to the LGBTQ+ community, vocally advocated for mask-wearing and social distancing, and dished out criticism to those they felt were not taking the pandemic seriously.”

Presumably, to make themselves more appealing, the fake doctors displayed the trans, Ukrainian and rainbow flags in their Twitter bios and pushed hashtags like #WearAMask,” or catch phrases like “Proud Mask Wearer,” and they retweeted each other’s messages.

Pres. Muammar Gadhafi Explains Vaccine Business at the United Nations, 2009

“Today there is swine flu. Perhaps tomorrow there will be fish flu, because sometimes we produce viruses by controlling them. It is a commercial business. Capitalist companies produce viruses so that they can generate and sell vaccinations. That is very shameful and poor ethics. Vaccinations and medicine should not be sold.”

“In The Green Book, I maintain that medicines should not be sold or subject to commercialization. Medicines should be free of charge and vaccinations given free to children, but capitalist companies produce the viruses and vaccinations and want to make a profit. Why are they not free of charge? We should give them free of charge, and not sell them.”

“The entire world should strive to protect our people, create and manufacture vaccinations and give them free to children and women, and not profit by them. All those items are on the agenda of the General Assembly, which has only to exercise that duty.”

This was not just talk: as president of Libya, Muammar Gadhafi built one of the finest health care systems in the “Third World.” All citizens had access to doctors, hospitals, clinics and medicines—*free of charge*. If a Libyan needed surgery that is unavailable in Libya, his government provided funding for the surgery to be performed overseas. He raised the life expectancy from 44 to 75 years of age. Bro. Gadhafi was assassinated in 2011.

“The spike mRNA can go inside egg cells of the fetus and PERMANENTLY change DNA for future generations...If you refuse the jab, if you are awake like we are, they’re going to give you a psychiatric diagnosis.... Don’t go to the doctors. [She quotes Yuval Noah Harari, ‘the spawn of Satan’:] ‘Science is not really about truth, it’s about power....Gaining power over the world.’

“The cash cow: endless vaccines, Big Pharma. That’s the plan. Now listen, guys: No more childhood vaccinations. Stop them! You must stop them! No more, no more, no more—you don’t need them! Okay? Yes. There are now 79 with 200 more on the way. You can not afford to have your kids in public schools.

“Pierre Kory, MD, MPH, this wonderful man, who goes before Congress, begs them to let him save people’s lives with Ivermectin. And he can’t understand why they don’t do it, because he didn’t understand the Rockefeller and the Flexner Report—he didn’t know

any of that... And he says now and he stands by this statement ‘and will do so to my grave’: ‘If I had young children today, not one would get even a single childhood vaccine.’ Not one. Pierre Kory is one of the top two intensive-care physicians in the entire world.”

Children face mask study in Spain found no value—only danger

A key study in Spain on masking has found that masks in school “were not associated with lower SARS-CoV-2 incidence or transmission” and that “masks are ineffective for school kids.”

The study was among 599,314 children aged 3 to 11 years attending school during the first trimester of the 2021–2022 academic year.

Overall, face mask mandates in schools were not associated with lower COVID-19 incidence or transmission, suggesting that this intervention was not effective.

Dr. Paul Alexander comments: “Let me say it another way, use of face masks in children, young children is illogical, irrational, absurd, nonsensical, specious, baseless, unscientific, unsound, and even harmful.”

Federal Judge Blocks California Law Punishing Doctors for ‘COVID Misinformation’

A new California law that would have allowed the state’s medical boards to punish doctors for spreading “COVID-19 misinformation” has been blocked after a lawsuit by **Robert F. Kennedy, Jr.’s Children’s Health Defense** challenged the law in court.

In his 30-page opinion, **Senior U.S. District Judge William Shubb** determined the defendants in the case — California Gov. **Gavin Newsom**, Attorney General **Rob Bonta** and California Medical and Osteopathic Boards — provided “no evidence that ‘scientific consensus’ has any established technical meaning,” and that the law provides “no clarity” on the meaning of the word “misinformation.”

Judge Shubb also found the “plaintiffs have established a likelihood of success on the grounds of their Fourteenth Amendment vagueness challenges.”

The lawsuit was filed after Newsom, on Sept. 30, 2022, signed **California Assembly Bill 2098 (AB 2098)**, which was set to take effect Jan. 1.

AB 2098 bars doctors “from providing ‘treatment or advice’ ‘to a patient’ ‘related to COVID-19’ when that treatment or advice includes (1) ‘false information’ (2) ‘that is contradicted by contemporary scientific consensus’ (3) ‘contrary to the standard of care.’ If a doctor goes against this ill-defined ‘consensus,’ the doctor is guilty of ‘unprofessional conduct’ and can face disciplinary action.”

Judge Shubb’s ruling prevents enforcement of AB 2098 pending resolution of the lawsuit.

CHD Chairman and Chief Litigation Counsel **Robert F. Kennedy, Jr.**, who also litigated the case, said:

“CHD and the California chapter are excited and proud to be a part of this groundbreaking litigation, especially since there are other states also trying to censor physicians for speaking out against the mainstream medical’s position of the safety and efficacy while downplaying if not ignoring the harm caused to many who have taken the COVID shots and every booster.”

Kennedy said CHD’s efforts are not limited to the California law. “We are looking into challenging other state laws on the same grounds as we asserted in this case,” he said.

Satan & What Must Be Done

It is sinful that despite the harm being done to human beings, the government continues to heavily promote the uptake of these vaccines. They are using celebrities, professional athletes, preachers, politicians, educators and everyday people to pressure us to ‘just get the shot.’ It is time for all of us to become more proactive in fighting this diabolical scheme. The Honorable Minister Louis Farrakhan has relentlessly stood up for

Truth and for us for over 65 years. Can we just get behind him for once and for our own sake? These vaccines are being resisted by millions of people from every race, class and religion. We can defeat the Synagogue of Satan with the Help of Allah (God).

Facebook Owner Zuckerberg Tells Staff Not to Take DNA-Altering Vaccine

Mark Zuckerberg has relentlessly censored and banned anyone who would raise any question about the COVID-19 “vaccine.” And yet he was recorded saying the following to Facebook staff on a livestream meeting July 16, 2020—12 days after **Minister Farrakhan’s Criterion message** warning the world of the dangers of the soon-to-be-rolled-out Depopulation serum:

“I do just want to make sure that I share some caution on this because we just don’t know the long-term side effects of basically modifying people’s DNA and RNA to directly code in a person’s DNA and RNA.

“Basically the ability to produce those antibodies and whether that causes other mutations or other risks downstream. So there’s work on both paths of vaccine development.”

Norplant: Chemical DePopulation Through Black Girls

Norplant is a chemical suppository developed at the Rockefeller-funded Population Council by scientists **Sheldon J. Segal** (in photo) and **Dr. Horacio Croxatto**, beginning in 1966, with the first clinical trial in Chile in 1974. The Population Council had previously developed the problematic Inter-Uterine Device (IUD), a mechanical device implanted in the uterus that both prevents pregnancy and causes spontaneous abortion. The **Population Council** had distributed an astounding 50 million of their IUDs in over 70 countries. 1.1 million women suffered serious side effects from the device before it was banned.

Norplant consisted of six match-stick-sized capsules inserted under the skin in the upper arm of a female that slowly release a contraceptive hormone over a five-year period. The drug was shown to produce adverse side effects in 95% of its users. Once implanted, and even if they caused serious side effects, the capsules were difficult (and expensive, at \$500) to remove.

Norplant became news when in 1991 a white California judge, **Howard Broadman**, sentenced a 27-year-old Black woman to 7 years in prison for spanking her child and then gave her the “choice” of serving just one year

if she would have Norplant implanted in her skin. By this incredible ruling, **Broadman** made himself arbiter of Black procreation and set a chilling “legal” precedent that enables a judge to prescribe a medical procedure. According

to author and medical ethicist **Harriet A. Washington**, “Black women who abuse drugs are 10 times more likely than white women to be subjected to court-ordered long-term contraceptives or sterilization.”

In 1993, the Baltimore health commissioner, **Dr. Peter Beilenson**, advanced a plan to make Norplant available to young girls at the overwhelmingly Black public schools. The drug had never been used in such young children, so the “program” amounted to human experimentation. Even amid public outcry it was given without parental consent to teen girls at the Paquin Middle School, where 350 of its 355 female students were Black. **Dr. Beilenson** pushed the mayor to expand the program to five high schools. Other urban high schools in Los Angeles and Chicago adopted the program of providing Norplant to their students.

By 1996, more than 50,000 women had filed lawsuits against **Wyeth**, the drug company that distributed the Norplant, and the doctors who prescribed it. It was ultimately taken off the US market in 2002, but is still available to millions of women in other countries.

Doctors Warn that the mRNA COVID-19 “vaccines” are DEATH SHOTS—DO NOT TAKE!

Pierre Kory, MD, MPA, Pulmonary and Critical Care Specialist

“I really do believe that the federal government is captured. It’s captured by corporate interests. The entire US population, as well as the world, has to understand they can no longer take these Covid vaccines. They are toxic and lethal to you and ineffective—that they have completely failed. They can only be viewed as harmful and they need to be stopped.”

Ryan Cole, MD, Clinical Pathologist

“And does it damage the brain? You bet it does. Does it damage the heart? Yes. The liver? Yes. The bone marrow? Yes. It causes all sorts of harm in the human body. We should have stopped this before it ever started.”

James Thorp, MD, OB/GYN, Maternal Fetal Medicine Physician

“It’s a misinformation from the CDC, the FDA, the American Board of Obstetrics and Gynecology, the American College of OB/GYN, the Society of Maternal-Fetal Medicine—it’s misinformation from those organizations that is causing a lot of death and injury in my women of reproductive age, my pregnant women, and my preborn babies. And it’s gotta stop and it’s gotta stop now!”

“The first and most important thing: Don’t take anymore vaccines. Don’t take anymore boosters. Do not take any more of these dangerous experimental [vaccines].”

Peter McCullough, MD, MPH, Internist, Cardiologist, Epidemiologist

“And for the vaccines broadly, we have no idea what’s going to happen long-term, now that they’re in the body. Studies suggest that the vaccines and the spike protein that’s produced from them never leaves the human body.”

Holocaust Survivor Sees the Nazi Mentality in COVID Response

Vera Sharav, president of the Alliance for Human Research Protection, is a survivor of the Nazi regime and a harsh critic of the COVID “Vaccine” program:

It took time for that plan to be acted out on, and the first victims of the Nazi regime were children, disabled children. They were taken from their families. They organized a whole system whereby schools would identify them, at birth they were identified. Their names would be sent to the central government, and then they rounded up the children, took them away from their parents and told the parents that they were going to be given special treatment. Of course that was a lie. They took them, and it was doctors, medical doctors, who made the selections. They made the selections of which children were going to be used for experiments before they were killed.

The experiments included starvation, to see how long a child can subsist on practically no nutrition. And they would record all this very methodically. And they tested the Zyklon B which was later used in the gas chambers.

So it began with the children; it then got expanded to mentally ill adults and eventually the nursing homes, the elderly.

The Nazis called them “worthless eaters,” and I shudder that today under this COVID-19 pandemic, nursing home residents in the United States, in Europe, were the largest percentage of casualties. This did not happen by chance.

Yes, people in nursing homes, the elderly, with all kinds of ailments are vulnerable, and everyone was told, because of these vulnerable old people, we must shut down society, [because] we have to protect them.

Medical Billers are Being Used to Report the Unvaccinated

There are now new medical billing codes that are being utilized to report the vaccination status of patients once they depart their doctor’s offices. On April 1, 2022, the coding system started denoting vaccine status, and since October 1, 2022, there are updated codes that can be entered signifying whether or not someone is Fully Vaccinated, Under Vaccinated, Unimmunized, and, particularly, COVID-19 unvaccinated.

FIRST, IS IT TRUE?

Before 2021, none of us had ever seen anything like what you have just seen, and certainly never to this extent. If you were surprised there were so many confirmed news reports about healthy young athletes collapsing and dying in mid-play, please note that what you just saw is only a small sampling. *There are many hundreds more of these tragedies confirmed in this book’s Compendium.* And the Compendium itself is only a small sampling. And every one of the hundreds of people whose deaths are memorialized at the end of this book died before completing 45 years.

At this point, I ask that only one thing be fully accepted as fact: That these deaths are real, are happening. And don’t focus yet on why.

People and institutions hoping to suppress the information in this book will likely launch a criticism along the lines that looking at these deaths somehow disrespects the families. The exact opposite is true: *Ignoring these deaths is the greatest disrespect we could ever show.* These young people and their families and communities deserve to have someone care about why they died—particularly when official agencies have closed their eyes (and perhaps their hearts) to such cares.

Every single health official in America knows the obvious: Healthy young people don’t just stop living for no reason. The deaths in this book that happened at professional sports events are doubly unusual because those athletes died despite the immediate on-site presence of emergency medical responders who are trained and equipped to resuscitate people. But since 2021, so many could not be resuscitated; they died on the spot, arrived at the hospital already dead. That is both tragic and highly unusual.

Those seeking to discount the facts in this book might say there have always been cases of professional athletes dying from cardiac arrest during competition. And that’s true. But has it ever been this often? Or so many victims this young? [next week: The SAD New Normal]

Major Scientific Study Proves Masks “Useless”

“There is just no evidence that they (masks) make any difference. Full stop. My job, our job as a review team, was to look at the evidence, we have done that.” —Tom Jefferson

The major new Cochrane review mask study was led by Tom Jefferson of the University of Oxford, and is titled “Physical interventions to interrupt or reduce the spread of acute respiratory viruses.” It found that wearing masks in the community makes little or no difference to influenza-like or covid-19-like illness transmission.

This comes after three years of governments mandating the use of face masks in the community, schools and hospital settings. Jefferson and his colleagues also looked at the evidence for social distancing, hand washing, and sanitising/sterilising surfaces—in total, **78 randomised trials with over 610,000 participants.**

Jefferson condemned the pandemic’s “overnight experts”, and criticised the multitude of scientifically baseless health policies.

JEFFERSON (in photo): **“There’s still no evidence that masks are effective during a pandemic....governments completely failed to do the right thing and demand better evidence. At the beginning of the pandemic, there were some voices who said masks did not work and then suddenly the narrative changed. Same with New Zealand’s Chief Medical Officer. One minute he is saying masks don’t work, and the next minute, he flipped.**

“Governments had bad advisors from the very beginning....They were convinced by non-randomised studies, flawed observational studies. A lot of it had to do with appearing as if they were ‘doing something.’”

McDonald’s, “Vaccine” Pusher

During the “pandemic” McDonald’s began putting medical advice on its packaging. But certainly McDonald’s is the very last place Blacks should take medical advice about a “vaccine” that has killed at least 34,122 people and permanently disabled 62,680. Author Marcia Chatelain writes in her book

Franchise: The Golden Arches in Black America: “Today, fast-food restaurants are hyperconcentrated in the places that are the poorest and most racially

segregated. Due to its saturation in black America, fast food is often identified as the culprit among the research on high rates of obesity, diabetes, and hypertension among blacks. Researchers have warned that a black child born in the year 2000 has a 53% chance of developing Type 2 diabetes; the likelihood of a white child developing the potentially fatal disease is less than 30%. In 2015, nearly 75% of African American adults and 33% of black adolescents were considered overweight or obese.”

These are the “co-morbidities” that exacerbated the effect of COVID-19 on Black people. Before ANYONE takes another jab from McDonald’s fast food joint, watch the revealing 2004 documentary by Morgan Spurlock titled SUPERSIZE ME.

Germany Medical Data Show Serious Post-Jab Dangers

Dr. Joseph Mercola is reporting that German autopsies found “highly unusual tissue inflammation” in people who died shortly after getting the COVID-19 injection, and investigators suspect the inflammation to be the cause of death. They also found spike protein in the tissues of the deceased, but not another key part of the virus SARS-CoV-2. This suggests the actual virus was not part of the problem; the only possible source of the spike protein was the jab.

German health insurance provider BKK, which covers about 10.9 million Germans, shows 2.05% of COVID jab recipients sought medical care after their jab.

The largest German statutory health insurance dataset, which encompasses 72 million Germans, show massive increases in sudden and unexpected deaths after the COVID jabs rolled out.

Dr. Syed Haider on the ‘Satanic Motivations’ Behind COVID

“At a higher level, you can say that a lot of this is kind of satanic, for one reason or the other, regardless of what the underlying motivation is. You can certainly label it satanic, whether it’s a desire to depopulate the earth or whether it’s a desire to just make money. And that’s the simplest explanation—that there’s a profit motive at hand. And people, when there’s a lot of money to be made, are well able to convince themselves of any narrative that they need to convince themselves of.

“And the other thing...that I didn’t realize until recently: I always wanted to give everyone the benefit of the doubt, but **we do know from high quality sociological research**

that there are psychopaths and sociopaths in every human society. They’re a very small percentage in the general population, but they concentrate at the top levels of government and industry. And so when you know that, you know that there are very likely sociopaths at the top of the FDA, at the top of the CDC, at the top of the NIH, at the top of government, at the top of your industries. And so that may be part of what’s going on—that there are a lot of people who have kind of drunk the Kool Aid. They believe that they’re doing the right thing. And then there are some people in positions that know very well what’s going on. And they’re just doing it for the profit motive.”

Maryland Bill Allows Child Vaccination Without Parental Consent

A bill up for consideration in the Maryland legislature would allow health care providers to vaccinate children without their parents’ consent, so long as they feel the child is able to understand the benefits and potential consequences of getting vaccinated.

The bill introduced by Democrat Sen. Cheryl Kagan (right) says a minor who is at least 14 years old “has the same capacity as an adult to consent to vaccination.” Oddly, that same 14-year-old has NO RIGHT to refuse a vaccination if the parent consented.

Connecticut has a bill that would allow “children twelve years of age and older to receive a vaccination without the consent of a parent or guardian.”

San Francisco allows minors that are 12 years old or older to consent, and Philadelphia allows minors who are 11 years old or older to consent.

The District of Columbia also passed a law in 2021 that allowed 11-year-olds to consent to vaccination on their own. A federal judge blocked that law, finding that it violated parental religious liberty and ability to monitor their children for adverse effects. The district then refined the law, allowing emancipated or homeless minors to consent to vaccination.

NYC Teachers Who Refused COVID Job Had Their Fingerprints & Files Sent To FBI

The legal group **Alliance Defending Freedom** (ADF), which is defending New York teachers in state court, said the New York Department of Education (DOE) flagged the personnel files of NYC teachers who were fired because they declined the COVID vaccine. The teachers were assigned a “problem code” for not taking the shot.

The files and the teachers’ fingerprints were then sent over to the FBI and the NY Criminal Justice Services.

The New York City vaccine mandate required Department of Education employees to be fully vaccinated against COVID by Sept. 5, 2022. As of mid-September 2022, approximately 1,950 NYC Department of Education employees had been fired for declining to get the COVID-19 vaccine.

The New York Criminal Justice Services “maintains criminal history records and fingerprint files and performs background checks for employment and licensure.”

New “ICD code Z28.310” Tracks UnVaccinated

The U.S. National Center for Health Statistics, a division of the Centers for Disease Control and Prevention (CDC), has been tracking the COVID jab status of US citizens. The operation appears to be a well planned, covert effort by government agencies to increase control of and remove freedoms from innocent people the world over.

The discovery was made by **Dr. Robert Malone**, who noticed how the data-collection program utilizes health reporting codes created by the **World Health Organization** to track those who have not been vaccinated as well as those who have only been partially vaccinated.

The information appears to be structured at least in part to populate the data used for a **digital passport program**, the consequences of which would be devastating to a person’s freedom to move about and travel freely.

With complete disregard for medical privacy rights protected by the Privacy Act of 1974, this secret surveillance program has been made possible by the federal health emergency first activated during the “pandemic,” only to be extended time and time again since then.

Vaccine Makers Kept \$1.4 Billion in Prepayments for Canceled COVID Shots for the World’s Poor

As global demand for COVID-19 vaccines dwindles, the program responsible for vaccinating the world’s poor has been urgently negotiating to try to get out of its deals with pharmaceutical companies for shots it no longer needs.

Drug companies have so far declined to refund \$1.4 billion in advance payments for now-canceled doses, according to confidential documents obtained by *The New York Times*.

GAVI, the organization financed by world-culler Bill Gates, bought the depopulation shots in advance, but now that the Black world has rejected the poison, Gates has been trying to get his money back.

The vaccine-makers have brought in more than \$13 billion from the shots and under the contracts, the companies are not obligated to return the prepayments GAVI gave them to reserve vaccines that were ultimately canceled.

“Vaccine” May Threaten Airline Safety

Since the vaccines were rolled out, numerous high-profile events have occurred which have raised suspicions that the vaccine is threatening air safety. These include:

- Patrick Ford** had a fatal heart attack shortly after lifting off from Chicago O’Hare. His co-pilot managed to take control and land the plane. This is the most dangerous time a pilot can become incapacitated and it is extremely fortunate that the experienced co-pilot was able to save the lives of those on that flight.

- Bob Snow** suffered a sudden cardiac arrest immediately after landing at the Dallas-Fort Worth airport.

- Wilburn Wolfe**, 11 days after receiving the J&J vaccine, developed a migraine-like headache. Two days later, while not on duty, he had a seizure. After the seizure ended, he was paralyzed on the right side of his body. At the hospital, it was discovered that he had had a hemorrhagic stroke (a brain bleed). He was put in a medically induced coma and ultimately died 17 days after his initial vaccination.

- Cody Flint**, an agricultural pilot, had a reaction immediately following vaccination that progressively worsened, and two days later, while flying, became severely disoriented but, miraculously, was able to land safely.

Study: Vast Majority of “COVID” Deaths Among Older Adults

U.S. News & World Report reported that more than 80% of deaths attributed to “COVID-19” during the first two years of the pandemic were among people aged 60 and older, according to a new study from the World Health Organization and the Centers for Disease Control and Prevention.

The trend held true across countries of all economic backgrounds, the report found. But older populations in lower and middle income countries experienced the highest mortality rates and accounted for the majority of global COVID-19 death estimates.

Pfizer Accused of ‘Obscene’ COVID Profits After Posting Record Revenues

Pfizer has been accused of making an “obscene profit” from the coronavirus pandemic after it posted record revenue of more than \$100 billion for 2022, a rise of 23% on the previous year. The company’s fraudulent “COVID” products accounted for over \$56.7 billion of the company’s worldwide revenue. Sales of its two “COVID-19” drugs— Comirnaty (mRNA vaccine) and Paxlovid—in the U.S. alone accounted for

\$19.3 billion, with the company having an estimated market share of 64 percent for the vaccine in America. “Pfizer has made an obscene profit from the pandemic,” Mohga Kamal-Yanni, policy co-lead at the People’s Vaccine Alliance, told *Newsweek*. “History is littered with egregious examples of pharmaceutical companies exploiting crises for profit, but none have been as lucrative as the COVID-19 pandemic.”

Damar Hamlin refused to answer 1 question during interview

NFL football player **Damar Hamlin** gave his first major interview since his significant medical event occurred on “Monday Night Football” on January 2, and, thank God, he appeared to be in good health, but there was one question he was unwilling to answer.

Hamlin spoke with **Michael Strahan** on “Good Morning America,” who asked: “You’re 24, peak physical condition ... how did doctors describe what happened to you?”

Hamlin contemplated the question for a while and then declined to answer. He responded: “Ummm,” then paused for several seconds, and said, “That’s something I’m going to stay away from.”

Strahan followed up and asked whether Hamlin had ever had any signs of having heart problems.

“Honestly, no. I’ve always been a healthy, young, fit, energetic human being. It was something that we’re still processing and still talking through with my doctors just to see what everything was,” Hamlin said.

1,696% Increase in Athlete Sudden Death — What’s Going On?

Dr. Joseph Mercola says “Don’t listen to anyone who says this is normal—it’s not. Previously, the number of athletes who ‘died suddenly’ averaged 2.35 per month. **Between 2021 and April 2022, that number shot up to 42 sudden deaths per month.**”

Over the past two years (2021 and 2022), more than 1,650 professional and amateur athletes have collapsed due to cardiac events and 1,148 of them proved fatal.

The **Health Freedom Defense Fund** urged the **NFL Players Association** in a recent letter to implement screening because the vaccines can cause myocarditis, a form of heart inflammation. Young males are the most at risk.

Most NFL players received a COVID-19 vaccine under pressure from teams and the league.

“Safety signals illustrate that the near and long-term health outcomes of the COVID-19 vaccines remain uncertain,” **Leslie Manookian**, president and founder of the fund, told **DeMaurice Smith**, executive director of the players association, in the letter.

“A multitude of adverse reactions to these injections, including myocarditis, are wide-ranging and confirmed, and as such, prudence dictates that the NFLPA investigate the extent to which the COVID-19 shots may have resulted in injury, compromised health or death of players,” Manookian said.

Alarming Autopsy Results Show Jab Damage

German pathologist Dr. Arne Burkhardt and seven other international pathologists performed autopsies of 30 deceased people at the request of their loved ones. “What they found ... is catastrophic lesions throughout the body in many many organs, blood damage, spleen, liver, brain, skin, testes.”

Burkhardt Group Conclusions:

“[C]lear evidence of vaccine-induced autoimmune-like pathology in multiple organs. That myriad adverse events...very frequently occur in all individuals, particularly following booster injections. Beyond any doubt, injection of gene-based COVID-19 vaccines place lives under threat of illness and death. We note that both mRNA and vector-based vaccines are represented among these cases, as are all four major manufacturers.”

Robert F. Kennedy, Jr.: The War Against the Poor

Robert F. Kennedy, Jr., reported: “There’s a public basketball court in Denver in a very diverse neighborhood—it’s Blacks, whites, Hispanics. And they all play. The day they declared a lockdown, the parks department and police came to that basketball court and all the other basketball courts and they either padlocked them, if there was a fence around them, or on his basketball court where there was no fence, they removed the rims on the baskets. Here in Venice off of Los Angeles where I am, they took the skate park where the kids skateboard outside and they covered it in sand so the kids couldn’t skateboard. They took the outside volleyball nets down all along the beaches. And when the people came back and put up nets of their own, the parks department came and removed all the posts. They were ticketing surfers, and another guy in a kayak who I know got a \$1000 ticket for being on the ocean...”

So they’re taking all these people who are getting the sunlight and vitamin D and being outside and they’re putting them inside. Everything they did was the inverse of what you would want to do if you were actually trying to prevent the disease, particularly in the poorer neighborhoods, because now you’re locking people in homes where many

of them have no air conditioning and they’re overcrowded. “The impact of the COVID countermeasures on the poor is disproportionate—it was like a war on the poor in this country. All the conditions of social deterioration: drug addiction, suicide, lowered IQ, lost vocalization and reading ability, declines in math, in sciences, in arts, in history, dramatic declines in learning, and the starvation of hundreds of thousands of poor around the world. It was really just like a direct hit on the poor. ...”

Fear No One BUT Allah

Dr. Joseph Mercola writes that “Totalitarian nations have always used the power of fear to make citizens comply with authoritarian rule. Without fail, it’s been shown that all you have to do to engineer compliance, no matter how horrific the ramifications, is to tell people they have something to fear, and claim they will be safe if they follow you.

“Today, we also have something no previous tyrant has had, namely the technology to track, trace, control and manipulate individuals wherever they live. Most are surrounded by electronics and wireless devices that harvest every imaginable data point about their personal life.

“Digital currency will complete the net of tyranny. Once all cash economies have been abolished, they have absolute control over us because they will be able to tax every transaction and ensure compliance through the threat of financial confiscation.

“The pushback seen around the world against mask mandates, vaccines, social distancing and lockdowns is not because there’s a willful ignorance of science, but that no real science is being presented; science is actually being withheld and suppressed.”

Suicide Linked to Vitamin D Deficiency

Suicide is the 12th leading cause of death in the U.S. A 2023 study of U.S. veterans found those with vitamin D deficiency who were prescribed vitamin D had a 64% lower risk of suicide when compared to those who didn’t take a supplement.

This adds to the growing body of evidence that insufficiency or deficiency is linked to depression; other nutrients found to improve mental health include vitamin B6 and magnesium.

Consuming refined sugar and a high carbohydrate diet may also increase your risk of depression, as sugar primarily drives chronic inflammation, which is linked to depression. A 2019 study demonstrated that avoiding sugar, soft drinks, processed meat and refined carbohydrates lowered levels of depression and anger.

Low levels of vitamin D also increase one’s risk of all-cause mortality by 25%, cancer mortality by 16% and lung-related illness by 96%. The data show that optimizing vitamin D (particularly vitamin D3) can help prevent COVID and lower your risk of severe symptoms. So go outdoors and get as much sun as you can.

Vaccine Corner

So how much money do doctors really make from vaccines?

Research done by WELLNES-SANDEQUALITY.com in 2016 found that “The average American pediatrician has 1546 patients, though some pediatricians see many more. The vast majority of those patients are very young, perhaps because children transition to a family physician or stop visiting the doctor at all as they grow up....Blue Cross Blue Shield pays pediatricians \$400 per fully vaccinated child. If your pediatrician has just 100 fully-vaccinated patients turning 2 this year, that’s \$40,000. Yes, Blue Cross Blue Shield pays your doctor a \$40,000 bonus for fully vaccinating 100 patients under the age of 2. If your doctor manages to fully vaccinate 200 patients, that bonus jumps to \$80,000.

“But here’s the catch: Under Blue Cross Blue Shield’s rules, pediatricians lose the whole bonus unless at least 63% of patients are fully vaccinated, and that includes the flu vaccine. So it’s not just \$400 on your child’s head—it could be the whole bonus. To your doctor, your decision to vaccinate your child might be worth \$40,000, or much more, depending on the size of his or her practice.

“If your pediatrician recommends that your child under the age of 2 receive the flu vaccine—even though the flu vaccine has never been studied in very young children and evidence suggests that the flu vaccine actually weakens a person’s immune system over the long term—ask yourself: Is my doctor more concerned with selling me vaccines to keep my child healthy or to send his child to private school?”

Dershowitz Moonwalks Forced Vaccines

All those who heard **The Honorable Minister Louis Farrakhan** on July 4, 2020, lay out *The Criterion* know that he challenged the “renowned” attorney **Alan Dershowitz**, who had publicly stated that “[T]he state has the power to literally take you to a doctor’s office and plunge a needle into your arm...” The Minister called out Dershowitz by name and warned that **“once you try to force us, that’s a declaration of war on all of us...”**

Dershowitz recently tried backpedaling those comments he made in May 2020 in a recent interview with comedian Alex Stein:

“I don’t believe in mandatory vaccination now. What I said was if there came a time when we had a real pandemic and there was a perfect vaccine that there would be no constitutional right for somebody to say ‘no, I’m going to spread the disease and I’m going to be Typhoid Mary.’ The government, under a Supreme Court decision in 1905, would have the power to compel vaccination. We’re not even close to that situation today, so I’m not in favor of compelled vaccination at all today.”

Dershowitz then expressed his own doubt about the vaccines, saying that he received all the shots and still contracted COVID:

“I’ve had the Pfizer [vaccines]—all of them plus the booster—and tragically, after years of not having COVID, I came back from a trip, a long airplane ride, and went to a Christmas party, which I probably shouldn’t have, wore a mask and did get COVID and had a pretty bad case of it for three weeks but I’m better now.”

“The so-called American Negroes—the lost and found members of the nation (the Black nation) the first and the last—have been used for experimental purposes. They have suffered every evil thing or idea that entered the heart of the slavemaster and his children. This is going on today, as never before in a wise and scientific way.”

“Medical” Torture of a Black Man

“Dr.” Thomas Hamilton “borrowed the slave Fed from a grateful patient” in order to test some of his medications. Here is how the “test” was described:

“He had a hole dug in the ground which he then had heated with fire to a high temperature. Mockery Is A Tactic of War

The mockery of the safe and effective drug IV-TERMECTIN as “horse dewormer” was part of a well-worn political tactic deployed to silence critics of the government’s “vaccine” regime. The abstract of a recent paper in the journal *Professional Discourse & Communication* says this:

“The aim of this paper is to analyze the communicative tactic of mockery in American political discourse. The problem of intensification of destructive elements in American political speech requires thorough investigation as political discourse becomes less conventional and more aggressive. In this context mockery is one of the general communicative tactics, which is used for humiliation and verbal assault on the speaker’s opponents. Mocking lets politicians destroy reputation of their competitors, presenting them in a negative way. Not only politicians, but also social, political and economic groups of people can become a target of mockery. The paper draws extensive empiric material to reveal that mockery is often used in pre-election discourse, because the goal of speakers in this kind of political discourse is to prevail over their opponents by all means. The communicative tactic of mockery may include destructive speech elements, e.g. invectives, negative epithets, dysphemism, pejoratives. This communicative tactic may be used along with special mimics, gestures or graphic content (caricature, video in media etc.). The analysis of empiric material proves that mockery rarely has unilateral character and frequently requires a response from the target. Users of this tactic demonstrate disrespect towards each other and try to impress and entertain their voters.”

Robert F. Kennedy, Jr. points out that the United States had 3,000 deaths per million from “COVID” and were 70% vaxxed, but Nigeria, which is just 1% vaxxed, had 13 deaths per million. The ONLY thing that explains this is DEPOPULATION.

termine which preparation best enabled the slave to withstand high temperatures. Fed fainted each time from the heat and from exhaustion (he had put in a full day’s work before each experiment). According to Fed’s account of the proceedings the doctor found cayenne pepper to be the most effective preparation. Dr. Hamilton bled the slave every other day for three weeks and repeatedly blistered him “to ascertain how deep my black skin went.”

Congresswoman Injured By Vaccine

During Rep. Nancy Mace’s (R-SC) turn to question former Twitter executives about their illegal censorship and banning of accounts, she used her allotted time to state, “I, along with many Americans, have long-term effects from COVID.”

The social media giant stifled the voices of medical experts who raised doubts about the prevailing narrative of the “pandemic,” so Rep. Mace shared details about her own health: “Not only was I a long hauler, but **I have effects from the vaccine.** It wasn’t the first shot, but it was the second shot that I now developed asthma that has never gone away since the second shot. I have tremors in my left hand and I have the occasional heart pain that no doctor can explain.”

“I have great regrets about getting the shot because of the health issues that I now have that I think are never going to go away,” she added.

Rep. Mace used the statements as a prelude to target a regimen of medical censorship that was installed on the platform as vaccine mandates and vaccine passports became normalized throughout 2021.

“I find it extremely alarming Twitter’s unfettered censorship spread into medical fields and affected many Americans by suppressing expert opinions from doctors and censoring those who disagree with the CDC,” she stated.

Florida saw a 1,700% increase in adverse event reports after COVID-19 vaccinations. Does that sound safe and effective? I didn’t think so either. That’s why we released this health alert.

No One Should Be Taking COVID Vaccines! They Have A Terrible Safety Profile!

“It’s important to keep in perspective exactly what happened, because one of the things the media, they’re just so brilliant, it’s almost, it’s so sinister how good they are at...recreating reality.”

“The Covid vaccines have a terrible safety profile and I don’t think anybody should take these vaccines. A few weeks ago, a well-known journal called Lancet published a study of mRNA COVID ‘vaccines.’ It shows that people who received that ‘vaccine’ are more likely to contract COVID-19 after seven months than the people who did not.”

Dr. Ladapo reminded the audience that he received a Ph.D. in research science from Harvard medical school, and was then a tenured professor at two medical schools. Ladapo said that he is so disillusioned with the vast anti-science corruption he is now seeing that even though he went to Harvard, “my wife and I [are] not even sure we would send our kids there—they’re indoctrination factories.”

‘Worst Public Health Mistakes in History,’ Witness Tells Gov’t COVID Committee

The House Select Subcommittee on the Coronavirus Pandemic presented the testimony of four public health experts, including **Dr. Martin Kulldorff**, Ph.D., of Boston’s Brigham and Women’s Hospital who described the government’s response as the “worst public health mistakes in history.”

Dr. Martin Makary of Johns Hopkins University said “public health officials have made many tragic mistakes during the pandemic,” including closing schools, masking toddlers, and “pushing boosters for young people.”

Stanford University’s **Dr. Jay Bhattacharya** asked, “On what empirical basis were schools closed? Did public health decision-makers consider the harms of their policies as thoroughly as their putative benefits?...There’s near-universal agreement that what we did failed.”

Kulldorff said: “The way we dealt with the pandemic was the worst assault on poor people, working Americans, the middle class [since] segregation and the Vietnam War. Lockdown harms, school closures, people not going to medical visits...has killed many Americans and will continue to do so in the next few years.”

What is killing healthy young people? 1 Guess

Edward Dowd was an analyst for the largest corporation in the world—BlackRock. His new book, **“Cause Unknown”: The Epidemic of Sudden Deaths**, asks and answers what exactly is killing healthy Americans, given that the current president declared the “pandemic” to be over.

Dowd writes, “2020 saw a spike in deaths in America, smaller than you might imagine during a pandemic, some of which could be attributed to COVID and to initial treatment strategies that were not effective. But then, in 2021, the stats people expected went off the rails.” One insurance company shocked the industry when it announced that death in people of working age (18–64) was 40 percent higher than it was before the pandemic. Significantly, the majority of the deaths were not attributed to COVID. For perspective, a 10 percent increase in excess deaths would have been a 1-in-200-year event.

Dowd says, “Ask yourself...How many times in your life did you hear of a performer dropping dead on stage in mid-performance? Your own life experience and intuition will tell you that what you’re about to see is not normal. Or at least it wasn’t normal before 2021.”

Here are two charts from Dowd’s book that explain:

Top Scientist Rebuffed BY Brother With SCIENCE!

In a newly released 2021 video **Dr. Anthony Fauci**, along with **Mayor Muriel Bowser**, is seen going door-to-door in a Washington, DC, Black community to push the poison depopulation shot. The video shows them knocking on the door of an unidentified **Brother** who—not the least bit impressed by the presence of the high & mighty—proceeds to interrogate them about the legitimacy of their “vaccine.”

Fauci meets a Man of Science

“I’m not going to be lining up taking a shot on a vaccination for something that wasn’t clear in the first place,” he states.

Bowser steps in to rescue Fauci—who has NEVER been questioned by actual journalists—and attempts to justify the vaccine and shame the Brother: *“The only reason I’m talking to you right now, as close as we are, is that I’ve been vaccinated. If thousands of people like you don’t get vaccinated, you’re going to*

let this virus continue to percolate in this country and in this world,” Bowser said.

“Something like the common flu then, right?” the man interrupts, with apparent knowledge that the severity of “this virus” has been shown to be wildly overhyped by Fauci and the media. *“When you start talking about paying people to get vaccinated, when you start talking about incentivizing things to get people vaccinated, it’s something else going on with that,”* he perceptively points out. *“Nine months is definitely not enough for nobody to be taking no vaccination that you all came up with,”* he says.

With their photo-op badly failing Fauci and Bowser then walk off as the Brother fearlessly charges that *“Your campaign is about fear. It’s about inciting fear in people. You all attack people with fear. That’s what this pandemic is. It’s a fear, it’s fear, this pandemic. That’s all it is.”*

1200 colleges without vaccine mandates

We now know that many colleges/universities received funding to push the deadly “COVID vaccines” on their staff and students. The pressure they put on students to take vaccines OR participate in twice-weekly testing, wear masks, and attend “re-education” sessions about “vaccine safety” continues to create an extremely stressful experience for students who refused these novel experimental drugs and mandates.

And though many have now dropped mandates (some fearing lawsuits from the vaccine-injured and damage to their reputations), a monitoring organization named **No College Mandates** estimated that there are still “1000 colleges that mandate primary series vaccines, just under 250 colleges that mandate one booster dose and 21 colleges that specifically mandate the bivalent booster...”

At nocollegemandates.substack.com, the volunteer organization has provided a list of **“Colleges That Never Mandated COVID-19 Vaccines...To help you navigate this continued nonsense and avoid the dangers of forced COVID-19 vaccination....All but one of the**

colleges on the list below have never had a COVID-19 vaccine mandate indicating they highly value informed consent. These colleges never found it necessary to remove medical freedom and instead empowered community members to decide for themselves what measures to take for personal protection.”

The group has also collected lists of the colleges that pressured and discriminated against their students, who could only exercise their right to bodily autonomy by applying for exemptions. It lists those institutions that “do not accept grants from the federal government or participate in any federal financial-aid or student-loan programs,” and therefore they remain completely autonomous and independent institutions of higher learning.

Forbes: Maternal Deaths Spiked in 2021, Especially in Black Women

Deaths of women who died in childbirth or during childbirth spiked in 2021, particularly among Black women, *Forbes* reports.

With a total of 1,205 dying, it means that deaths jumped nearly 40%; 861 women died of maternal causes in 2021

Sen. Rand Paul: “They damaged our children”

Kentucky Senator Rand Paul has been a staunch critic of the government’s disastrous response to the alleged “pandemic.” Paul said in a recent interview that the effects of executive lockdown orders were “horrors,” especially for children:

“They damaged our children, particularly the least among us, those who live in poverty, those who have difficult family circumstances....[Lockdowns] did not work. Everybody got COVID eventually, and...in countries like Sweden that didn’t lock down—

their kids went to school every day—not one kid died in Sweden. So this [‘effectiveness’ of lockdowns] was a fallacy promoted by Tony Fauci and the establishment of government.”

New York’s Abortion Tourism

Black baby abortion has always been one of the main methods of mass racial DEPOPULATION. The pro-abortion Guttmacher Institute counted more than 930,000 abortions in the U.S. in 2020. Black women account for 38.4% of abortion recipients, the largest share among other racial and ethnic groups.

Florida has Disney World, California has Hollywood, Nevada has Las Vegas, but New York has depopulation services! *USA Today* reports that New York City bought billboards in three other states to advertise abortion services.

Last November, New York City Mayor Eric Adams rolled out “a first-of-its-kind” “Abortion Access Hub” to connect callers to abortion providers in the city, and he spent hundreds of thousands of dollars advertising the “service” in three other states—Georgia, Florida, and Texas.

Canada exposed in Ugandan ‘Tuskegee’ like plot

By Lonnie Kashif (M.S. Washington Bureau)

WASHINGTON, D.C.—A major genocidal program, on the order and scale of the Tuskegee syphilis experiments on Blacks in Alabama, has now been exposed and halted in far away Uganda after having been quietly exported to Africa via Canada’s Federal Health Department.

CREDIT FOR the halting of the project goes to Dr. J. Fletcher Robinson, director of Howard University Urban Health Program, who, upon

learning that one Dr. Lewis Greenburg of Canada had received authorization to inject 2,000 college students at the Makerere University in Kampala with killed gonococcal bacteria vaccine, sent a letter to the University warning them of the genocidal portends of the project.

Robinson wrote “It is unthinkable that any of us would allow any type of medical experiment on any Black people, let alone our future leaders that are in college.” He pointed out that the Tuskegee experiment in

America “represents one of the most inhuman racist acts” and should serve as a warning to the entire Black world.

“The urban areas of Canada and Europe are experiencing a venereal disease epidemic as serious as anywhere in the world.” Robinson contended. “Why should a European have to travel 7,000 miles to one of the great Black universities to conduct any type of medical experiment?”

THE UNIVERSITY’S response, however, was a near total rebuff to Robinson’s warnings. Mr. A. Wandira,

Vice-Chancellor of Makerere University claimed that the vaccine had passed safety trials, nothing unethical was intended and that students, teachers and authorities had “accepted the trial design”.

Wandira replied, “Vaccines against measles, polio—etc., developed in America and Europe have all had trials under African circumstances, as no country is going to rely on results from elsewhere if its circumstances etc., are different.”

Wandira also advised Robinson that the project had incidentally been delayed for one year from the initial date in 1972 and scheduled to begin sometime in 1973.

In March of this year, however, Dr. Robinson received a letter from the Uganda Embassy here in Washington, informing him that the Uganda Minister of Health had called a halt to the project.

THE LETTER, signed by Mustapha Ramathan, Ambassador to Washington,

stated that after considerable discussion between the Uganda Ministry of Health and the authorities of Makerere Medical School and the National Research Council of Uganda, “I am pleased to advise that considering the tragedy of the experiment with syphilis referred to in your letter of the 15th of October 1972, the Uganda Minister of Health has decided to stop the experiment.”

Robinson termed the decision “a victory for all Black people and is very much in keeping with the example being set by Uganda on many other political issues.”

Amin’s dramatic expulsion of Asians from his country following his take-over from former President Milton Obote, a popular third-world figure, initially created ripples of panic throughout the continent. However, his apparent doggedness and bold implementation of programs desired by other African heads of state, raised his prestige throughout Africa.

“America’s COVID Response Was Based on Lies”

by Dr. Scott Atlas
excerpt from *Newsweek*, March 6, 2023:

Dr. Atlas was chief of neuroradiology at Stanford and authored a fundamental textbook in his field; and he was on the White House Coronavirus Task Force

Although I am continually awed by what mass propaganda can get the public to believe. I believe mandating the COVID-19 vaccines was something so egregious that no amount of propaganda could overcome the widespread distrust it would create. I believe this because:

1. Many were forced to choose between prolonged economic hardship or submitting to a vaccination they did not want; being dominated in this manner is something people rarely forget.

2. Many either directly suffered a significant adverse effect from

vaccination or saw it happen to someone they knew (I believe this now applies to over half of the USA’s adult population). Since many of those events were sudden deaths, the link to vaccination is both unambiguous and difficult to forget.

3. The ever-shifting promises from our healthcare authorities about the vaccines have over and over again been proven to be lies. Because of the two previous points, the public remembers exactly what was said and no amount of propaganda can rewrite the history of what happened.

All of this has led to the situation where we are continually watching the narrative implode in real time, as those in charge realize what they had previously hoped for is untenable (e.g., the public compliantly vaccinating every 4 months indefinitely). Instead, major concessions will need to be made to regain the public’s trust and something (e.g., long COVID or climate change) will need to be offered up as an explanation for the epidemic of sudden deaths and permanent disability we are now facing.

**“Safe and Effective” is not a lie—
it’s 2 lies.**

“The education of White America is poison to the Black, the Brown and the Red and even the poor White. Why do you want to stay under that kind of system? Now they’re telling you they’re going to vaccinate and if you don’t accept vaccination, you can’t go to school. What a blessing.”

Leaked Messages Appear to Show that “Variants” Are a Scare Tactic

Leaked messages of Britain’s Health Secretary Matt Hancock (in photo) show him planning to “deploy the new variant” to “frighten the pants out of everyone” in order to “get proper behavior change”—i.e. the public’s compliance with lockdown measures.

The messages are from an archive of over 100,000 WhatsApp messages sent between Hancock and other officials, and they have sparked public outrage at the lockdowns, mandates, and fear messaging.

No Evidence that Vax Boosters Guard against Severe Illness and Deaths

A new study in the *Journal of American Physicians and Surgeons* (<https://www.jpands.org/vol28no1/ophir.pdf>) directly refutes the claim made by Anthony Fauci and others that the COVID-19 “vaccines” protect against severe illness and death. According to the study’s authors:

Summary

“With the accumulating evidence regarding vaccine breakthroughs and rapid decline in Vaccine Efficacy against infections, the official medical narrative has changed. The modified justification for the continuation of the vaccination campaign now revolves around the alleged protection of the vaccines against severe illness and deaths. However, the representative data from the various sources examined here, including the founding clinical trials by Pfizer and Moderna, the nationwide observational studies from Israel on the fourth dose, and the pandemic dashboards, do not provide convincing evidence that the booster doses of the mRNA vaccines can offer longstanding protection against severe illness and deaths that extends significantly beyond the temporary and fragile protection against infections.”

Vaccine Corner

Excerpt from the book *MURDER BY INJECTION: The Story of the Medical Conspiracy Against America*, by EUSTACE MULLINS

“I have a book here...called Murder By Injection. They just give you vaccinations. Now you can’t even take your children to school without their telling you you have to be vaccinated. Do you know what they’re putting in that damn vaccine?! They tell you it’s this, but it may be that.”

—Minister Louis Farrakhan, Saviours’ Day 2004

From London comes an alarming observation from a practitioner of excellent reputation and long experience. Dr. Herbert Snow, senior surgeon at the Cancer Hospital of London, voiced his concern, “In recent years many men and women in the prime of life have dropped dead suddenly, often after attending a feast or a banquet. I am convinced that some eighty per cent of these deaths are caused by the inoculation or vaccination they have undergone. They are well known to cause grave and permanent disease to the heart. The coroner always hushes it up as ‘natural causes.’” You cannot find any such warning in any medical textbook or popular book on health. In fact, this writer was able to locate it in a small volume buried deep in the stacks of the Library of Congress. Yet such an ominous observation from an established medical practitioner should be as widely circulated as possible, if only to be attacked by those who can refute its premise. At least it cannot be attacked by the Establishment as quackery, because Dr. Snow is not attempting to sell some substitute for vaccination, but merely warning of its dangers.

Another practitioner, Dr. W. B. Clarke of Indiana, finds that “Cancer was practically unknown until compulsory vaccination with cowpox vaccine began to be introduced. I have had to deal with at least two hundred cases of cancer, and I never saw a case of cancer in an unvaccinated person.” At last, we have the breakthrough for which the American Cancer Society has been searching, at such great expense, and for so many years. Dr. Clarke has never seen a case of cancer in an unvaccinated person. Is not this a lead which should be explored? With such an impetus, the ACS could once again get the telephone banks ringing in the fund-raising drives, to initiate positive research as to the possible connection between vaccination and the incidence of cancer. Somehow, we suspect that ACS will not follow this lead. It would also look well etched in stone above the imposing entrance to the Memorial Sloan Kettering Cancer Center, “I never saw a case of cancer in an unvaccinated person.” However, it is unlikely that the High Priests of Modern Medicine will be able to give up one of the Four Commandments. It will be necessary for an outraged public to bring pressure to bear to abandon the modern ritual of sacrificing our children to Baal in a five-thousand-year-old ritual called, in its modern version, “compulsory immunization.”

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

Sister Minister Ava Muhammad

Early in 2020, Sister Minister Ava Muhammad began speaking out about the satanic depopulation agenda being carried out under the guise of the “corona virus health crisis.” And in May of 2021 she became editor of the weekly Special Depopulation Section in the *Final Call* to warn our people so that they would not fall victim to Satan’s “diabolical scheme.”

“They use monopolization of perception through a 24-hour news cycle. They stoked fear and ignorance, and most of all, they censored any dissenting opinion.... We cannot examine and analyze the COVID-19 unapproved experimental vaccine without a knowledge of the climate in which it was produced.... Minister Farrakhan called it death in July, and in December, under the direction and control of the United States government, it in fact began killing people.”

“The good news is that millions of people have thus far resisted the aggressive efforts by the U.S. government and media giants to push these dangerous, experimental, so-called vaccines. To those who resist, we offer continuing support with testimony from [high-ranking experts] bearing witness to what Minister Farrakhan gave us directly from Allah (God) on July 4, 2020.”

Silicon Valley Bank Failure & The Great Reset

The satanic plot to cull the earth of 2-3 billion people—known as the **Great Reset**—requires a MASSIVE upgrading of technology on the widest possible scale for it to be successful. The enslavement of the survivors requires an elaborate digital surveillance and tracking system (known as the “smart grid”) that could issue punishments and rewards; every business would have to be outfitted with a common interactive technology for every transaction; medical databases would have to be seamlessly blended with banking records, with tax records, and with law enforcement records—internationally and across language barriers. An upgraded internet and phone network (5G) would have to handle it all; a common digital (cashless) currency would have to be imposed; a massive workforce of guards and sentinels would have to be trained in this new technology, along with a long-term army of maintenance workers—ALL of this would have to be activated “in the dark” and under the false-flag claim of “medical emergency” to minimize the social disruptions that can be expected with any genocide operation.

The investment required for this technological upgrade is mind-numbingly large, but seeing massive profits **Silicon Valley Bank** wanted to finance this wicked operation. Its own website invited this specific type of business, advertising that its “expertise” is in all the necessary sectors: “**Biopharma, Healthcare Services, Healthtech, Diagnostics and Tools, Medical Devices.**” Indeed, SVB bragged that “**Our clients consist of the top companies and investors across key sectors of life sciences and healthcare.**” But when the vaccine proved to be a complete failure, the fear in the people evaporated, and the demand for the Great Reset collapsed, so did its bank.

Junk Food Companies Made COVID Worse

Analysis by Dr. Joseph Mercola

McDonald’s and “public health” don’t even belong in the same sentence, but this didn’t stop the U.S. Department of Health and Human Services (HHS) from enlisting the fast food giant to promote its COVID-19 public health education campaign...

The junk food industry has succeeded in making ultraprocessed foods a mainstay of modern-day life, and in so doing created an epidemic of chronic diseases and obesity that raised mortality rates from COVID-19. So naming them as “partners” in the fight against COVID-19 is not only insulting but misleading.

In one study, more than 99% of fatalities from COVID-19 occurred among people who had underlying medical conditions. Among the fatalities, 76.1% had high blood pressure, 35.5% had diabetes and 33% had heart disease.

Another study revealed that among 18- to 49-year-olds hospitalized due to COVID-19, obesity was the most prevalent underlying condition. Chronic conditions like Type 2 diabetes, heart disease and obesity have a lot in common, including the fact that they’re often fueled by poor diet.

Ultraprocessed foods, junk foods and soft drinks are key culprits in the rise of such chronic diseases, and therefore had a key role to play in COVID-19 deaths. Yet, in the midst of the COVID-19 pandemic, multinational food corporations became “partners” with health officials in charge of public policy.

Dr. Stella Immanuel exposes Satan’s nefarious agenda in Nigeria

Dr. Stella Immanuel, MD; Twitter: @stella_immanuel
Poor, rich, big, strong, color—whatever you are—they want to make sure that all nations right now are digitalized so that that way they can introduce the CBDC [Central Bank Digital Currency]. If you go to Nigeria, they’ve done something really crazy in Nigeria: for the past two, three months, they’ve told all Nigerians to bring their currency in; then they were going to give them a new currency—they want you to switch out the naira [Nigerian currency]. So they mop up trillions of dollars in the country. After they did that, they refused to give them cash. So people in Nigeria don’t have cash. So all mothers that don’t even know how to operate a phone, they have to start transferring money through this thing. So they are forcing Nigeria into CBDCs. And they are destroying businesses, destroying families, destroying homes. People that have just started working

and just trying to make a little business now—all businesses in Nigeria are shut down!

These people are evil! They don’t mind destroying families, letting people starve, letting people not get their medication—people crying in the hospital for Ivermectin and Hydroxychloroquine. Here until today people are still crying for treatment and they’re refusing to give them, [instead] giving a jab, a thing that is causing people to die. So I want humanity to realize we are not in a battle of science—we’re in a battle of good versus evil. We’re in a battle of what I call these Nephilim trying to depopulate the world and those that they don’t depopulate they want to program. They have a mandate by 2025 for all countries to have digital currency. And they have a mandate by 2030 for all countries to [subscribe to the agenda of] the World Economic Forum... And so they are achieving that, because they have about 10,000 Young Globalists that have been trained in all levels in all countries that are going to push this agenda.

Dr. Stella Immanuel MD @stella_immanuel

I remember that day. Three years later it's still upsetting when I hear people died from covid. It's completely treatable and preventable. Hydroxychloroquine and ivermectin works. We thought the death, the fear, the suffering was senseless at that time but today we know it's deliberate and evil. I've been on Sunday Sunday medicine for three years. Everyone should have it in their medicine cabinet 🙌 [drstellamd.com](https://www.drstellamd.com)

RFK Jr. on Masking, Social Distancing, and Lockdowns

“Masking, by amplifying everyone’s fear, helped inoculate the public against critical thinking. By serving as persistent reminders that each of our fellow citizens was a potentially dangerous and germ-infected threat to us, masks increased social isolation and fostered divisions and fractionalization—thereby impeding organized political resistance. The impact of masking on the national psyche reminded me of the subtle contribution of the “duck and cover drills” of my youth, drills that sustained and cemented the militaristic ideology of the Cold War. Those futile exercises reinforced what my uncle John F. Kennedy’s Defense Secretary, **Robert McNamara**, called “National Mass Psychosis.”

Social distancing mandates also rested on a dubious scientific footing. In September 2021, former FDA Commissioner **Dr. Scott Gottlieb** admitted that the six-foot distancing rule that **Dr. Fauci** and his HHS colleagues imposed upon Americans was “arbitrary,” and not, after all, science backed.

Finally, the **lockdowns** of the healthy were so unprecedented that WHO’s official pandemic protocols recommended against them. Some WHO officials were passionate on the topic, among them Professor **David Nabarro**, Senior Envoy on COVID-19, a position reporting to the Director General. On October 8, 2020, he said: *We in the World Health Organization do not advocate lockdowns as a primary means of controlling this virus. We may well have a doubling of world poverty by next year. We’ll have at least a doubling of child malnutrition because children are not getting meals at school and their parents in poor families are not able to afford it. This is a terrible, ghastly, global catastrophe, actually, and so we really do appeal to all world leaders: Stop using lockdowns as your primary control method... lockdowns just have one consequence that you must never ever belittle—and that is making poor people an awful lot poorer.*

**“Safe and Effective” is not a lie—
It’s 2 lies.**

WHO Flip-Flops on Vaxing Children

Healthy children and teens don’t need COVID-19 vaccinations, according to updated guidance posted on the website of the **World Health Organization (WHO)**.

WHO’s Strategic Advisory Group of Experts on Immunization (SAGE) met recently to create a revised roadmap for COVID vaccinations. It defines three priority groups — high, medium and low — based on the “risk of severe disease and death” when contracting the virus. Healthy children between 6 months and 17 years old are now deemed low priority.

Previously, WHO’s major funder, the depopulator **Bill Gates** (in photo), has said that *“for the world at large, normalcy only returns when we largely vaccinated the entire global population.”* So the WHO’s new “guidance” just a few months later is stunning: **“Countries should consider their specific context in deciding whether to continue vaccinating low-risk groups, like healthy children and adolescents...”**

Still, the WHO pushes the unknown chemicals for “infants under 6 months” and pregnant women “for full protection of the mother and fetus.”

In slavery Black women were forced to be “breeders” by plantation owners like Pres. George Washington. After slavery destroying a Black women’s womb became a matter of national security.

Reports Hospitals Often Sterilize Poor Women Without Consent

WASHINGTON (AP) — A survey released Tuesday shows that teaching hospitals, where many federally funded sterilizations for poor women are performed, may still fail to obtain “voluntary and informed consent” before performing the procedures.

A Ralph Nader consumer organization, questioned the 350 teaching hospitals in the United States which have approved obstetrics-gynecology departments about their practices. Only 83 of them replied, but of that number, 70 percent failed to comply with one or more of the major features of the government’s 1974 sterilization consent regulations, the survey said.

Regulations which are even more stringent replaced the 1974 guidelines last year. But both sets of rules bar sterilizations of women under 21, impose a waiting period between consent and

performance of sterilization, prohibit obtaining consent during labor and require that patients be informed that their welfare benefits are not jeopardized if they refuse sterilization.

The survey found that 18 percent of the responding hospitals still obtain consent during labor, 14 percent do not inform the patient that their Medicaid and welfare payments are not at stake and 12 percent do not require a “cooling-off” period. The Medicaid program pays for about 100,000 sterilizations a year.

In a letter to Joseph A. Califano Jr., the secretary of health, education and welfare, the research group recommended that the state Medicaid agencies be required to inform doctors and hospitals of the latest government regulations. They also suggested that teaching programs where sterilizations are performed with government funds be monitored more closely.

The COVID-19 VACCINE: “We Have No RIGHT to Trust Them.”

Vaccine Corner

Excerpt from the book **MURDER BY INJECTION: The Story of the Medical Conspiracy Against America**, by **EUSTACE MULLINS**

Edward Jenner (1796-1839) “discovered” that cowpox vaccine would supposedly inoculate persons against the eighteenth century scourge of smallpox. In fact, smallpox was already on the wane, and some authorities believe it would have vanished by the end of the century, due to a number of contributing factors. After the use of cowpox vaccine became widespread in England, a smallpox epidemic broke out which killed 22,081 people. The smallpox epidemics became worse each year that the vaccine was used. In 1872, 44,480 people were killed by it. England finally banned the vaccine in 1948, despite the fact that it was one of the most widely heralded “contributions” which that country had made to modern medicine. This action came after many years of compulsory vaccination, during which period those who refused to submit to its dangers were hurried off to jail.

Japan initiated compulsory vaccine in 1872. In 1892, there were 165,774 cases of smallpox there, which resulted in 29,979 deaths. Japan still enforces compulsory vaccination; however, since it is a militarily occupied nation, its present government can hardly be blamed for submitting to the Rockefeller Medical Monopoly. Germany also instituted compulsory vaccination. In 1939 (this during the Nazi regime), the diphtheria rate increased astronomically to 150,000 cases. Norway, which never instituted compulsory vaccination, had only fifty cases during the same period. Polio has increased 700% in states which have compulsory vaccination. The much quoted writer on medical problems, Morris Beale, who for years edited his informative publication, *Capsule News Digest*, from Capitol Hill, offered a standing reward during the years from 1954 to 1960 of \$30,000, which he would pay to anyone who could prove that the polio vaccine was not a killer and a fraud. There were no takers.”

“As I live, my desire is to destroy the so-called medical profession, because it is not a profession of healing; it is a profession of drugs.”

PPE to the Dump: Masks, aprons, gloves by the billions Wasted

The UK government got rid of more than three billion pieces of personal protective equipment (PPE) that it bought during the “pandemic,” to reduce storage cost, including items such as aprons, masks, gloves, coveralls, eye protectors, and body bags. The Department of Health and Social Care (DHSC) had removed 269,500 pallets, or 3.14 billion items, of PPE.

British officials say they “make no apology” for buying more than 30 billion PPEs and they claim to have delivered more than 25 billion items “to front-line staff and other eligible users.”

Around 133,000 pallets of PPEs, or 1.4 billion items, were burnt, including more than 571 million aprons, 454 million masks, and 362 million eye protectors.

The government has repeatedly faced criticism over its handling of PPE, including the purchase of useless items. Last year, accountants reported that the government had lost 75 percent of the £12 billion it spent on PPE in the first year of the “pandemic” to price-gouging contractors who sold shoddy goods.

Masks Cause Headaches, Itching, and Lower Oxygen Intake: Study

Prior to the “pandemic,” existing data on respiratory viruses had shown that there was no basis for wearing masks to prevent their spread. “All the studies done in the world until 2020 showed that there is no justification for this,”

Yoav Yehezkeili, a specialist in internal medicine and a lieutenant colonel in the **Israel Defense Forces**, said in an interview with *The Epoch Times*.

The U.S. Centers for Disease Control and Prevention (CDC) and the WHO issued guidelines that there was no need for wearing masks in the general public, he pointed out.

But in 2020 following the COVID-19 outbreak, recommendations on mask-wearing around the world suddenly changed “without having any new professional support to confirm that it does indeed have effectiveness against respiratory infection.”

Now the Epoch Times reports that **a systematic review of 2,168 studies** that looked into the adverse

Doctor Sued for Coercing Minor Children to Get Shots

The National Vaccine Information Center reports that a mother in Washington, DC, is suing a doctor for allegedly forcing her teenaged daughter and son to receive COVID-19 shots without her consent. **NaToya McNeil** claims that **Janine Rethy**, MD, MPH, chief of community pediatrics at MedStar Georgetown University Hospital, isolated her children in a room in a mobile clinic and refused to let them leave until they were forcibly vaccinated for COVID.

McNeil alleges that the children, 14 and 16 years old, were misinformed that if they did not get the COVID shots they would not be able to attend school. The daughter was also injected with the meningococcal vaccine and the son was given the DTaP (diphtheria, tetanus and pertussis) vaccine. The mother who was right outside the clinic was not informed about the shots and never received a vaccine information statement for any of the products injected into her children, which is a violation of a safety provision in the **National Childhood Vaccine Injury Act of 1986.**

The daughter submitted to the doctor’s demand because she was afraid that she would no longer be allowed to attend school. The son reportedly was not even asked whether he wanted the shots at all and was injected without any discussion. He thought he had to get them because he saw that his older sister received them.

effects of wearing masks during the COVID-19 pandemic has found that the practice led to negative health consequences, including itching, headaches, and restriction of oxygen.

“We found significant effects in both medical surgical and N95 masks, with a greater impact of the second,” states the review, published in the “Frontiers in Public Health” on April 5. A meta-analysis of multiple studies found that headache was the “most frequent symptom” among mask wearers, with a prevalence of 62 percent for general mask use and up to 70 percent when using N95 masks. Shortness of breath was observed at 33 percent for general mask use and 37 percent among N95 users.

While 17 percent of surgical mask wearers experienced itching, this number was at 51 percent among users of N95. Acne prevalence among mask users was at 38 percent and skin irritation was at 36 percent. Dizziness was found to be prevalent among 5 percent of subjects.

“Masks interfered with O₂-uptake and CO₂-release and compromised respiratory compensation,” the review states. “Though evaluated wearing durations are

Director of Boston Children’s Gender Clinic Says Puberty Blockers Cause Infertility, Are Given Out ‘Like Candy’

The chemical assault on gender includes the prescribing of a class of drugs known as “puberty blockers,” which impede the onset of the bodily changes in the teenage years. These drugs are given out “like candy,” according to **Dr. Jeremi Carswell** (in photo), current director of **Boston Children’s Hospital GeMS** (Gender Management Service). This “treatment” is for a condition they call gender dysphoria (formerly known as gender identity disorder) and is defined by “strong, persistent feelings of identification with another gender and discomfort with one’s own assigned gender and sex.” It is a trendy “condition” that the popular media have provoked and encouraged in youth facing puberty. Even the US Army has sponsored cross-dressing “drag shows” for children on its bases.

Dr. Carswell, who refers to men as “testicle-bearing persons,” presents a graph showing a sharp increase in the number of patients to the clinic and she adds, “I expect that number to go higher.” Carswell explains the puberty blockers’ effect on fertility:

“If you are giving something that shuts down your estrogen or shuts down testosterone entirely, you’re going to stop either—if you had already been producing sperm or eggs, you’re going to stop doing that—and if you never started, you’re not going to be able to advance the gonads to be able to do that.”

Additionally, puberty blockers stunt development of the male genitalia and have been shown to have serious side effects, which include a decline in bone density, neurological effects, and psychiatric problems.

shorter than daily/prolonged use, outcomes independently validate mask-induced exhaustion-syndrome (MIES)” and other long-term consequences, especially for vulnerable groups.

The restriction of oxygen uptake and hindrance in carbon-dioxide release was identified as more significant among users of N95 masks. The review also said that several mask-related symptoms may have been misinterpreted as symptoms of long COVID. “In any case, the possible MIES contrasts with the WHO definition of health,” it states, referring to the World Health Organization.

It suggested that the side effects of face masks be assessed based on risk-benefit analysis after taking into consideration their effectiveness against viral transmissions. If “strong empirical evidence” showing the effectiveness of masks is absent, the study recommended that wearing masks should not be mandated, “let alone enforced by law.”

Dr. Ladapo: “Their House is Crumbling”

In a recent interview with Del Bigtree on The-Highwire (Episode 314), Florida’s Surgeon General **Dr. Joseph Ladapo** (in photo) responded to the **World Health Organization’s** new advice, which has now belatedly followed Dr. Ladapo’s advice—keep the mRNA injections away from children. *“The truth is, healthy children, healthy young people shouldn’t receive these mRNA vaccines, because the benefits are outweighed by the risks. It’s unequivocal....It’s really unclear to me that anyone should be receiving them at this point in the pandemic.”*

Dr. Ladapo was harshly criticized when he recommended against the COVID vaccine after a detailed review of the emerging health data. “We’ve done an analysis here of data in Florida, the Public Health Surveillance Study, and we

found somewhere around an 80% increased risk of cardiac death for young men. So it’s young men dying from their hearts suddenly stopping. It’s very uncommon, fortunately, but it doesn’t make it okay to increase that risk substantially.” The Harvard-trained Ph.D. and physician said it is “not only senseless but malicious to be giving these mRNA COVID-19 vaccines to young men and boys at this point in the pandemic. It’s crazy but it’s worse than that, because now there’s data that shows that it’s not some benign procedure.”

“The facts are that vaccine use in Florida increased by about 400%, and these adverse event reports increased by 1700%. And the life-threatening ones increased by over 4,000%.”

Bigtree asked Ladapo how the CDC could still be pushing the vaccine: “They are just completely disconnected from reality,” the surgeon general said.

Dr. Ladapo concluded that *“Their house is crumbling, and we’re going to help speed that along, just as [TheHighwire] has been speeding that along, because the thing that they do that is wrong is that they prioritize their agendas over people. It’s like preserving these mRNA vaccines, preserving whatever their ideology is, whoever their master is, preserving those things is more important than truth and good health in people. And that is their fatal flaw, and they will lose for that reason, and their house is going to keep crumbling for that reason.”*

Poll Shows Massive Vaccine Damage

A Rasmussen Reports survey found that 11% of American adults say a member of their household died from “COVID-19,” while 10% say a member of their household may have died from the side effects of COVID-19 vaccines. This is an astounding number, and the number of people who know of someone who had a negative reaction to the injection would have been much higher.

48% of Americans are less concerned about COVID-19 than they were a year ago, compared to 20% who say they’re more concerned. 50% of whites, 39% of blacks and 46% of other minorities are less concerned about COVID-19 than they were a year ago. Nineteen percent (19%) of

whites, 24% of blacks and 22% of other minorities are more concerned about COVID-19 than they were a year ago.

Remarkably, among those who say a member of their household died from COVID-19, 54% also say a member of their household has died whose death they think may have been caused by side effects of COVID-19 vaccines.

More than three years after “15 days to slow the spread” of COVID-19, most voters have less trust in government health experts — and in the news media, too.

Switzerland bans the COVID vaccines

Dr. Robert W. Malone, the inventor of the mRNA vaccine, points out the significance of the Swiss government’s action:

Switzerland (in red), a non-aligned nation (not NATO, EU, or BRICS) is generally considered the global hub of the pharmaceutical industry. The Government of Switzerland coming out with this position is a clear recognition that objective scientific analysis of the risk/benefit ratio of COVID-19 “vaccines” does not justify “vaccination” in any cohort.

Note that the Swiss position is that physicians can prescribe [the COVID-19 “vaccines”], but will need to carry the risk of liability in the case of adverse events—the exact opposite position of the U.S. position. This

Top Economist Says Vaccines Are an “ATROCITY”

Banker Catherine Austin Fitts is publisher of the Solari Report (Solari.com). She has been highly critical of the government’s “COVID-19” policies. She served on the board of directors of the Wall Street investment bank Dillon, Read & Co., Inc., and as a HUD official in the first Bush Administration. Here is a March 28, 2023 excerpt from a recent interview posted at Breggin.com:

My attitude is, I don’t understand what the theoretical benefits of immunology have to do with continued poisoning of our children, by companies and regulators with a long history of serial felonies. There’s no reason to believe that anything coming through that pipeline at this point is what they say it is. What we’ve seen is: we’ve watched a “vaccination process” where the variability of the material in the vials is so extraordinarily great that you have seasoned pharmaceutical executives opining that not only is it not a vaccine, it’s not a pharmaceutical and it’s not a medicine—therefore it’s a weapon.

So we’re talking about serial felonies that are extraordinary by both the regulators and the companies. To me the theoretical benefits of immunology—which to me are theoretical and have never been proven—I don’t see what they have to do with continued poisoning of our children by serial felons. I mean, would you turn over the power to inject mysterious ingredients into the bodies of our children by the Russian mafia? No, I don’t think so. Well, I don’t see what the difference is.

...I don’t want to promote anybody who promotes continued poisoning by serial felons, which to me has nothing to do with immunology. This is not a vaccine schedule. It’s a poisoning schedule by serial felons. And that’s been proven. There has to be accountability for mass atrocity.

clearly demonstrates that this issue has become politicized in the USA, and that the objectivity of the U.S. Department of Health & Human Services’ decision making has been compromised.

This decision is based in part on the widespread natural immunity which has developed in Switzerland, something which was long denied by the U.S. Government, U.S. corporate media and US information technology (social media) companies and their non-governmental organization surrogates.

Minister FARRAKHAN on DEPOPULATION

In terms of how this wicked policy of depopulation has affected Africa and the Third World, during my last visit to Zimbabwe, in southeastern Africa, we learned how the AIDS pandemic was killing 5,000 Zimbabweans a week—20,000 a month. And the biggest industry

at the time in the capital city of Harare was the making of coffins ... And although it was the Blacks who were dying of AIDS, I asked about the White population—were they dying of AIDS; and the answer was, “No, they were not.” I went to a luncheon sponsored by the Zimbabwean Department of Health, and a wonderful female doctor who was the Minister of Health was so proud to announce that every child in Zimbabwe was vaccinated with vaccines that had come from America and Europe.

I grieved over the widespread death due to the poisons, not “un”-intentionally put in vaccines but intentionally put in vaccines to limit the population of Black people in those countries and places in the world where America’s needs for their vital minerals and resources were deemed necessary—in her mind—for her national interests; to keep America in the world as the “No. 1 superpower.”

Killing off tens of hundreds of thousands of people in Third World nations, because those nations trust the scholars and scientists of the Western world, White people, who claim to want to “help” them. While there are many White people who are sincere, they are the “fronts” that are used to open the door for the insincere Satanic Mind to enter, to practice evil under a claimed “noble motive.”

So The Enemy has not changed from the beginning of his creation, “killing the darker, saving the lighter.” And, that nature has not changed from the time of General Jeffrey Amherst in 1763, who put smallpox in blankets, and came to the Indians claiming that these blankets would “help comfort them through the winter”—using biological weapons against the Native people. And the fact that we were injected with the most virulent form of syphilis during the “Tuskegee Experiments” from 1932-1972 (40 years); allowing us to cohabit with others, to spread the disease. And all we got when it was discovered was an “apology,” and some meager, very meager, compensation. Also, millions of Americans were given polio shots starting in the 1950s and 1960s; and now, flu shots. And we don’t know what contagions or toxins are in the vial, or serum, that we are being injected with.

CDC Financed by Home Depot Billionaire & Other Corporate Donors

If you thought the CDC was a government agency, you may want to reassess, according to the *Atlanta Jewish Times*. At the very start of the *plandemic* the paper reported (April 1, 2020) that **Bernie Marcus** (in photo), the well-known head of **The Marcus Foundation** and a founder of **The Home Depot**, had made a pledge of almost \$4 million so that the CDC could construct “a state-of-the-art operations hub for national emergencies.”

When the CDC was dedicated in 2003, CDC director **Dr. Julie Gerberding** expressed her appreciation: “The CDC now has a world-class operations center equipped to handle any public health emergency, whether it’s a bioterrorism attack or an outbreak of a new disease,” she said. “The nation’s public health community had an urgent need and Bernie Marcus and other corporate donors stepped up to the plate and made it happen.”

Bernie Marcus’ investment “helped to set in motion the transformation of the CDC’s campus into the massive complex of towering modern structures that reinforce the important role that the CDC plays today in the health of the nation.”

Before Marcus the CDC’s physical facility was described as being in an “awful condition” and even “collapsing.”

Phil Jacobs, a partner in the effort, said: “I have pictures of tarps on the ceiling that are holding water out over these million-dollar pieces of equipment.... There was one story of a woman

who was an employee of the CDC who went into the ladies room and fell through the floor because [of] all the rotted wood.”

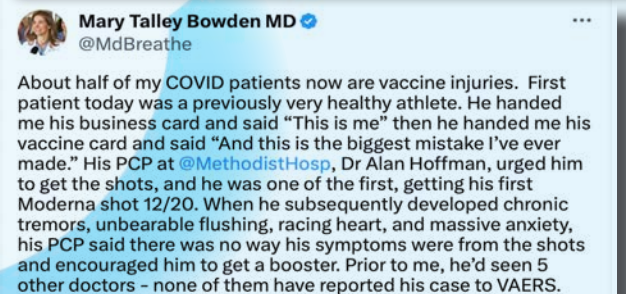

The Atlanta Jewish Times reported that several wealthy private and corporate donors formed

“an organization called the Corporate Friends of CDC, which lobbied Congress to appropriate an additional \$1.6 billion to the CDC. They not only wanted to see the physical rehabilitation of CDC offices but sought to redesign its mission as well. They formed a “Corporate Roundtable on Global Health Threats...that would help to encourage the nation’s top business leaders to add their own public health initiatives to the mix that the CDC and the CDC Foundation were funding.” This, they said, “drove a lot of these companies to look at disaster relief plans on how to deal with emergencies.”

Over the years, the CDC Foundation’s corporate and philanthropic sponsors have contributed over \$800 million to further the dubious work of the CDC.

Yet, for Jacobs, “there is a certain sense of satisfaction that the early efforts that were started by himself, Bernie Marcus, and others in the Atlanta community have made such an important difference today.” Nonetheless, he seemed somewhat oblivious to the damage the CDC has caused and the lives lost: “I don’t think anyone ever anticipated the scale

of what we are seeing now,” he said. “I don’t know that anyone ever dreamed of the astronomical consequences, the human consequences, of what we are facing.”

Africa Beats the Western World in Surviving “Pandemic”

The population of Africa is 1.4 billion. But according to the **World Health Organization**, there have been only 9 million “confirmed” cases and just 174,000 deaths from COVID in Africa; and the continent has the lowest “vaccination” rate in the world.

These numbers are extremely low and in sharp contrast to the rest of the world’s infection and death rates. Europe has half as many people as Africa (750 million), but they reported over 239 million “confirmed” cases and more than 2 million deaths.

America is touted as the very pinnacle of medical technology, having, it is claimed, the finest health-care system on planet earth. But data from **Johns Hopkins University** reveals that **for every 100,000 people in America, 341 died from COVID-19. In England 325 died from COVID; Spain: 256; France: 255.** Compare with these numbers (deaths per 100,000 population) from Africa:

Gabon	14	Nicaragua	4
Equatorial Guinea	13	Mali	4
Tonga	12	Guinea	4
Senegal	11	Togo	3
Sudan	11	Cote d’Ivoire	3
Rwanda	11	Eritrea	3
Kenya	11	Bhutan	3
Guinea-Bissau	9	Central African Republic	2
Somalia	9	Burkina Faso	2
Uganda	8	Congo (Kinshasa)	2
Papua New Guinea	7	Sierra Leone	2
Cameroon	7	Nigeria	2
Yemen	7	Tanzania	1
Mozambique	7	Benin	1
Ethiopia	7	Niger	1
Angola	6	South Sudan	1
Liberia	6	Chad	1
Madagascar	5	Burundi	<1
Ghana	5		

Africa has fared so much better than the West because early on several African leaders were highly suspicious of Western motives, having been the target of “vaccine” depopulation plots in their histories. So they were not cowed by the “pandemic” fear campaign and rejected lockdowns, masking, and vaccines.

Another likely reason is the widespread use of *ivermectin*, a drug used regularly in Africa to prevent river blindness. A 2021 study published in the *American Journal of Therapeutics* found that “using ivermectin early in the clinical course may reduce numbers progressing to severe disease.”

And while ivermectin has shown amazing results in combatting COVID-19 in Africa, vaccine-pushing health officials in America specifically banned ivermectin for use in combatting COVID-19. The numbers above speak for themselves.

Is Destruction of Food Plants Deliberate? Why Here, Why Now?

At least 18,000 cattle were killed in an explosion at a dairy farm in Dimmitt, Texas, on April 10. In January, 100,000 hens were killed in a Connecticut fire at one of the largest egg producers in the country. Are these incidents part of a systematic destruction of the food supply to achieve DEPOPULATION? Here is a partial list of food processing plants “coincidentally” destroyed in 2022:

1. Van Drunen Farms Tuthill Facility, Mokenca, Illinois: declared a “total loss.”
2. Cargill-Nutrena Feed Mill, Lecompte, Louisiana: livestock and pet-feed mill
3. Oregon Potato Company, Warden, Washington: supplies much of the Western US.
4. Winston Weaver Company, Winston-Salem, North Carolina: fertilizer plant
5. Wisconsin River Meats, Mauston, Wisconsin
6. Louis Dreyfus Company, Claypool, Indiana: country’s largest soy-processing plant.
7. Bess View Farm, St. Albans, Vermont: Dairy
8. Shearer’s Foods, Hermiston, Oregon: manufacturer of snacks, cookies, etc.
9. Nutrien Ag Solution, Sunnyside, Washington: fertilizer plant
10. Nestle Frozen Foods, Jonesboro, Arkansas: produces foods for the Nestle, Stouffer’s, Lean Cuisine, DiGiorno, and Tombstone brands.
11. Wayne Hoover Farm, Longswamp Township, Pennsylvania: dairy farm
12. Plainfield Walmart Fulfillment Center, Avon, Indiana: the size of 20 football fields
13. Penobscot McCrum Potato Processing, Belfast, Maine
14. Maricopa Food Pantry, Maricopa, Arizona
15. Rio Fresh, San Juan, Texas: onion-packing
16. East Conway Beef and Pork, Center Conway, New Hampshire
17. Gem State Potato Processing Plant, Heyburn, Idaho: single-engine plane crash
18. Taylor Farms, Salinas, California: wholesale salads and shredded lettuce.
19. Azure Standard, Dufur, Oregon: Organic food distributor
20. Nutrien Ag Solution, Leoti, Kansas: fertilizer
21. General Mills, Covington, Georgia: plane crash
22. Perdue Farms, Chesapeake, Virginia
23. Ft. Macleod, Alberta, Canada: rail cars derailed containing potash, fertilizer ingredient.
24. Forsman Farms, Stockholm Township, Minnesota: killed 200,000 chickens; sells more than 3 million eggs a day
25. JBS Foods, Green Bay, Wisconsin: meat processing
26. Festive Foods, Belmont, Wisconsin: frozen foods

LOOK UP—Mad Scientists At Work!

Look up at what the mad satanic scientists are doing to the atmosphere! What is in the lingering, spreading jet aircraft smoke trails, clouding up our skies? Is it just condensation as we have officially been told, or is it part of a massive geoengineering / solar radiation management operation?

Scientists have found a toxic brew of heavy metals and chemicals floating down through the atmosphere, and according to **Dane Wigington** of **Geoengineering-Watch.org**, “aluminum is the primary element named in numerous geoengineering patents. Extreme quantities of this highly toxic heavy metal is showing up in lab tests of precipitation from around the globe.”

Alarming Rise in Deaths of Women in Childbirth

One of the world’s top medical experts is raising alarms about the COVID-19 “vaccine” and its effect on pregnant women. **Dr. Peter A. McCullough** writes that “Modern obstetrical care in the US has had a major impact in reducing maternal death rates over several decades. Now there is reversal of these trends.”

The CDC reports that about 65% of women have taken a COVID-19 “vaccine” and that there are record maternal death rates in 2021 compared to prior decades. The rates for all groups are up **“but the worst is for African American women.”**

Dr. McCullough says the CDC is being “willfully blind” to the role that acute COVID-19 and the “vaccines” have played in these disturbing trends. “Death among pregnant women should be a top priority for public health researchers.” He warns that “Women of childbearing age and pregnant women should refrain from COVID-19 vaccination given...the absence of any assurances on short or long-term safety.”

Figure 1. Maternal mortality rates, by race and Hispanic origin: United States, 2018–2021

CDC: “In 2021, 1,205 women died of maternal causes in the United States compared with 861 in 2020 and 754 in 2019. The maternal mortality rate for 2021 was 32.9 deaths per 100,000 live births, compared with a rate of 23.8 in 2020 and 20.1 in 2019.”

Calcified Placentas: A Nurse Midwife’s Disturbing Testimony

Dr. Naomi Wolf reports in the *Daily Clout* that “Maternal deaths are up about 40% from pre-pandemic levels, according to a recent report, based on data from the **National Vital Statistics System**. This alarming rise in maternal mortality has been linked to the COVID-19 pandemic, and the situation only worsened when COVID-19 vaccinations were introduced.”

Ellen Jasmer, a highly experienced nurse midwife with over 45 years of experience in delivering says that **“placentas are calcifying on the baby’s side of the placenta like she’s never seen before in her career.”**

“COVID-19” School Closings Led to Severe Learning Loss, Study Shows

A new study found that children are over 100 times **less likely to die from COVID** than adults, yet because of school closures they will be dealing with learning loss due to “pandemic” school closures for years to come.

The study, published by the JAMA Network of medical journals, found that children aged 0-19 died from “COVID” at a rate of 1 per 100,000 from August 2021 through July 2022. There was a total of 821 “COVID deaths”—meaning cases when COVID was the stated underlying cause of death—for this age range during the 12-month period. Specifically, the “COVID” death rates for children were:

infants, 0-1 year:	4.3 deaths per 100,000
1 to 4 years:	0.6 per 100,000
5 to 9 years:	0.4 per 100,000
10 to 14 years:	0.5 per 100,000
15 to 19 years:	1.8 per 100,000

By comparison, adults died from “COVID” at a rate of 109 per 100,000, making children more than a hundred times less likely to die from the “virus” than adults. The Centers for Disease Control and Prevention (CDC) released data showing **children account for less than 0.15% of all COVID deaths.**

Meanwhile the school lockdowns have led to the “largest score declines” since the federal government began tracking these metrics in 1990, according to the **National Assessment of Educational Progress**, known as the nation’s report card.

Math and reading scores took major hits nationwide, especially among the country’s most vulnerable students. Black and Hispanic students, for example, experienced steeper declines than white and Asian peers in fourth-grade math after already starting out behind.

Between 2019, the results of the last National Assessment of Educational Progress, and 2022, the number of Black students in public schools performing “below basic” in fourth-grade math on the national assessment spiked from 35% to 46%. The share of Hispanics rose from 27% to 37%. The share of whites scoring at the lowest performance level only increased from 12% to 15%. Test scores in math and English dropped an average of eight points across the country. The drop came after nearly two decades of progress, the study noted, **erasing all the gains** in test scores made between 2000 and 2019.

According to the study’s author, Eric Hanushek, “At the extreme, California is estimated to have lost \$1.3 trillion because of **learning losses during the pandemic.** These losses are permanent unless a state’s schools can get better than their pre-pandemic levels.”

Chicago Ordered to Reinstate Employees Fired over Forced COVID-19 “vaccine”

Chicago must reinstate city employees who were fired for refusing to comply with Mayor Lori Lightfoot’s COVID-19 vaccine mandate and rescind the requirement, a state administrative law judge has ruled. More than 20 unions representing city employees, filed an unfair labor practices charge with the state after Lightfoot imposed the policy in the fall of 2021.

In a 78-page decision Administrative Law Judge **Anna Hamburg-Gal** found that the city was obligated to negotiate with the union over the effects of that policy. It was reported that the employees will receive back pay and 7% interest.

Minister Farrakhan spoke on February 27, 2021, during the Saviours’ Day plenary session addressing the COVID-19 crisis:

I want to talk about Satan for a minute... My poor brothers and sisters are so ignorant of the deceptive power of this enemy of God and enemy of man, “Satan”: A human being that is not human. A human being, that in some cases is like a “dragon”; other cases, like a serpent; other cases, like a beast, who has no human feelings. So, to look for mercy from the workers of Satan in the hospitals, in the clinics—I WANT TO EXPOSE YOU TO WHO YOU’RE WORKING FOR, AND WHO IS YOUR MASTER!...

So, we represent the destruction of all of that that is an enemy of God, and enemy of truth, and an enemy of the people of God. This is your end, and it’s all over “COVID-19.”

Medical Deceit Erases Trust in Vaccines

A new report on immunization from UNICEF suggests that confidence in childhood vaccines has fallen up to 44 percent in 52 countries, which represents “the largest sustained backslide in childhood immunization in 30 years.”

Recently, vaccine critics have brought to light the large number of shots that are given to American children—up to 72 doses of 16 vaccines—and not a single vaccine on the schedule has been safety tested prior to being approved. These figures show that the disastrous “covid vaccine roll-out” has thoroughly eroded trust in the medical establishment and its vaccine propaganda.

20 million Black Babies Have Been Aborted Since Roe v. Wade.

The National Right to Life Center estimates that by the end of 2021, 63.5 million abortions had been performed in the United States since the Supreme Court’s 1973 Roe v. Wade decision. Nearly 40% of women who seek abortions are Black, which is astounding, considering this demographic made up just 13.6% of the female population at the time of the 2020 census. This likely means that over 20 million Black babies have been aborted during the past 50 years.

20 million equates to 6% of the total U.S. population. It’s also approximately 45% of the current Black American population of 45 million. And, had these children been born, Blacks would represent about 20% of the total population, rather than the 14.2% today. Clearly, abortion has had an enormous DEPOPULATING effect on Blacks in America.

American History of Medical Racism & Savagery

A senior scientist and whistleblower with the CDC, **Dr. William Thompson**, admitted that he and his co-authors intentionally omitted important information from their 2004 study—data that showed that Black males who received the MMR (mumps, measles, rubella) vaccine before age 36 months were **3.4 times more likely to develop autism** when compared to Black boys who receive MMR after 36 months of age. For more than 10 years, the CDC refused to warn the public.

Court Affirms Right to Religious Exemption to Vaccination in Mississippi

An important legal victory for the Constitutional freedom of worship was achieved last week. In a lawsuit brought in federal court by the **Informed Consent Action Network (ICAN)**, **Judge Halil S. Ozerden** ruled that the First Amendment requires that the State of Mississippi provide its residents a religious exemption for their children to attend school without one or more state-mandated vaccines.

According to ICAN, “Mississippi is one of only six states that does not have a religious exemption for students to attend school. Numerous parents have sincerely held religious beliefs that do not permit them to vaccinate their children, including because of the involvement and development of vaccines using the products of abortions. Those parents were put in an impossible position as they were forced to violate their sincere religious beliefs if they wanted to send their children to school.”

Cash for Culling: Doctors Received Millions in Bonuses for “Vaxxing” Medicaid Patients

Why did so many doctors flout the Hippocratic Oath and push the most deadly “vaccine” in world history, one that they knew DID NOT prevent infection or transmission? Cash money. *Children’s Health Defense* reports: “The federal government and insurers incentivized healthcare providers in Kentucky and California to vaccinate Medicaid patients against COVID-19 by offering bonuses based on the percentage of patients successfully vaccinated.”

Documents show that the bonuses were part of a larger campaign to target “low-income and people-of-color communities, which tended to have lower vaccination rates.” The strategies included providing hundreds of millions of dollars for the creation of “culturally tailored” pro-vaccine materials and for training “trusted” and “influential messengers” to promote COVID-19 and flu vaccines to communities of color in every state.

Kentucky physicians received payments ranging from \$100 to \$250 per newly vaccinated person depending on the percentage of their patients vaxxed. This included children as young as 6 months to 4 years.

The California Department of Health Care Services (DHCS) established \$350 million in incentive payments including non-monetary payments, such as gift cards, to vaccine recipients—to encourage jabs among Medi-Cal’s 14 million beneficiaries. The funding targeted Medicaid

recipients with “low vaccine uptake—the homebound, communities of color,” youth ages 12 to 25, and people ages 50 to 64 with multiple chronic conditions. Doctors and pharmacies, community-based organizations, food banks, advocacy groups and faith-based organizations all benefitted from the COVID Cash Tsunami.

Under this incentive structure, providers had to meet particular vaccination targets in order to get paid. Those who were especially successful in increasing vaccination rates in the target groups would be entered into a “high performance pool,” receiving extra money.

Importantly, different demographic groups were incentivized differently. For example, vaccine recipients ages 12 to 25 were worth more in bonuses than older recipients, “and those in the two racial/ethnic groups with the lowest uptake were also given greater weight.”

Documents show that over time the Centers for Medicare & Medicaid Services (CMS) increased the reimbursement rate for jabs, paying \$40 per dose and \$75.50 for an “in-home” dose of the vaccine.

“[This is] truly sickening and I am embarrassed for my profession by this,” **Dr. Meryl Nass** (in photo), an internist and biological warfare epidemiologist, wrote on her Substack, where she posted several documents relating to the COVID-19 vaccine provider incentive programs.

1977:

A Dire Population Warning
from World Bank President
Robert S. McNamara

“Short of thermonuclear war itself, population growth is the gravest issue the world faces over the decades immediately ahead.

Indeed, in many ways rampant population growth is an even more dangerous and subtle threat to the world than thermonuclear war, for it is intrinsically less subject to rational safeguards, and less amenable to organized control.

The population growth of the planet is not in the exclusive control of a few governments, but rather in the hands of literally hundreds of millions of individual parents who will ultimately determine the outcome.

That is what makes the population threat—even more than the nuclear threat—diffuse and intractable. And that is why it must be faced—like the nuclear threat—for what it inevitably is: both a central determinant of mankind’s future, and one requiring far more attention of the world community than it is presently receiving.

[McNamara spoke at the Massachusetts Institute of Technology, Cambridge, Massachusetts, on April 28, 1977.]

Lockdowns Kill

“I recommended to the president that we shut the country down.”

—Dr. Anthony Fauci, October 6, 2020

A lockdown under the false pretense of a “medical emergency” is one of the best ways to carry out an effective depopulation program. It is practically impossible to organize any opposition or to validate the mass media propaganda while under house arrest.

There is now strong evidence that lockdowns are deadlier than the alleged “virus.” **Dr. David Nabarro**, World Health Organization special envoy for COVID-19 described lockdowns in October 2020:

“We in the World Health Organization do not advocate lockdowns as the primary means of control of the virus...it seems we may have a doubling of world poverty by next year. We may well have at least a doubling of child malnutrition.... This is a terrible, ghastly global catastrophe.”

A UN report from April 2020 warned of 100,000s of children being killed by the economic impact of lockdowns, while tens of millions more face possible poverty and famine.

Unemployment, poverty, suicide, alcoholism, drug use and other social/mental health crises are spiking all over the world. While missed and delayed surgeries and screenings have already seen increased mortality from heart disease, cancer, and other conditions in many countries around the world.

PCR Tests have a history of being inaccurate and unreliable

The depopulation program requires that governments generate the fear necessary to push the people to take the culling needle. They have done this by falsely inflating the number of “cases” through the misuse of the “PCR test,” which IS NOT designed to diagnose “COVID-19.” Yet the PCR has been widely used to trick the people into “vaccine” compliance.

A Chinese study found the same patient could get two different results from the same PCR test on the same day. In Germany, tests are known to have reacted to common cold viruses.

The late President of Tanzania, John Magufuli, submitted samples of goat, pawpaw and motor oil for PCR testing—all came back positive for the virus.

As early as February of 2020 experts were admitting the test was unreliable. Dr. Wang Cheng, president of the Chinese Academy of Medical Sciences told Chinese state television, “The accuracy of the tests is only 30-50%”. The Australian government’s own website claimed, “There is limited evidence available to assess the accuracy and clinical utility of available COVID-19 tests.” And a Portuguese court ruled that PCR tests were “unreliable” and should not be used for diagnosis.

The unreliability of PCR tests is not unique to “Covid,” either. A 2006 study found PCR tests for one virus responded to other viruses too. In 2007, reliance on PCR tests resulted in an “outbreak” of Whooping Cough that never actually existed.

The Honorable Minister Louis Farrakhan Explains Satan’s Depopulation Agenda

The Time and What Must Be Done, Part 36, “Farming Is The Engine of Our National Life,” By The Honorable Minister Louis Farrakhan, September 12, 2013:

Well, Kissinger prepared yet another depopulation manifesto for President Jimmy Carter called, “Global 2000,” which detailed using food as a weapon to depopulate the Third World. So then Zbigniew Brzezinski, Carter’s National Security Advisor said, “It’s easier to kill a million people today than to control a million people.” So the killing of millions is going on. Let’s see what is happening to us.

These groups—The Department of Defense, Agriculture, CIA, Agency for International Development and the Joint Chiefs of Staff—I’m sorry to tell you, they’re planning death on a worldwide scale. They have used a series of methods to effect global depopulation: depleted uranium bombs, genetically engineered and modified foods, chemical additives in foods, poison in vaccines, famine, AIDS, chemtrails, illegal wars. This plan for culling the population is not only in the Third World, but it comes right back home to the United States of America...

The importance of this data is: When we juxtapose the decrease in farming with this [National Security Study] Memorandum 200 by Kissinger and the culling of the population of the planet with a policy of population control or depopulation in the United States, then we can see now how food is used as a weapon in that process. Then the control of the means of production of food and the methodology in producing the food, all of this is a part of the policy now of the Department of Agriculture, the FDA, the CIA—they are all linked together.

Evidence of Racial “COVID Vaccine” Targeting

An unnamed sister in a viral video posted on TikTok describes her experience when seeking to be “vaccinated” at a medical center in a white area:

“Two months ago I decided I’m going to take it and I’m going to take Moderna. I went on the website and I said I’m not taking it in Brooklyn—I want to go into the white people’s neighborhood. So I signed up online at Columbia. And I put down ‘white.’ The Spirit prompted me to put down ‘white,’ because I’m already scared, and so I put down ‘white.’ So when I went in to [take the shot] and I sat down, the lady that was going to give me the vaccine and she was on the computer to make sure I had the right timing and I was registered to take the vaccine, she said, ‘You’re not white.’ She said, ‘I can’t give you this.’ And every hair on my body started to stand up. I said, ‘I knew it—we weren’t getting the same vaccine as white people.’”

U.S. Workers Dying at Highest Rate Ever: AFL-CIO Calls it “The Bad News”

A new report issued by the labor union AFL-CIO titled “Death on the Job: The Toll of Neglect, 2023” notes that “5,190 workers were killed on the job in the United States last year, in addition to an estimated 120,000 workers died from occupational diseases.” The Black workers died on the job at the highest rate in more than a decade and Latino workers continue to be at greater risk of dying on the job than all workers.

The report complains that “Employers, elected leaders and the public were led to believe (falsely) that vaccination alone was sufficient to protect people from COVID-19 infection and spread.”

“The CDC has issued hundreds of various guideline documents based on topic and industry that change frequently with no public notification. Instead of providing clear, evidence-based recommendations, the guidelines have been plagued with political interference and business demands. Throughout the pandemic, CDC guidelines have been vague and do not create requirements to ensure employers are maintaining safe workplaces.”

The report is consistent with alarming insurance industry reports that directly link rising deaths of working-age Americans to the “vaccine” program. And as more and more vaccine deaths and injuries come to light, the report finds that the toll is enormous—estimated at \$174 billion to \$348 billion a year.

Fauci to NY Times: “Something clearly went wrong.”

In a recent *New York Times* interview Dr. Anthony Fauci tried to explain away his role in achieving one of the highest COVID death rates on the planet, despite having at his disposal the world’s “most advanced” medical infrastructure:

“Something clearly went wrong. And I don’t know exactly what it was. But the reason we know it went wrong is that we are the richest country in the world, and on a per-capita basis we’ve done worse than virtually all other countries. And there’s no reason that a rich country like ours has to have 1.1 million deaths. Unacceptable.”

Back to SLAVERY with Digital Currency

Deadly “vaccines” formed the basis of the chemical culling of 2-3 billion people from earth, and next is the enslavement of the survivors. That will occur with the introduction of “Central Bank Digital Currency” (CBDC) and the elimination of paper cash. International Monetary Fund (IMF) chief Kristalina Georgieva announced last week that over 110 countries are developing CBDCs.

This will allow anonymous bankers to decide where, when, and how you can spend your own money—or to simply take your money away at any time! Donating to your favorite church, mosque, or charity? Not if the bankers object. If they want to restrict your movements, they simply turn off your money outside of a 5-mile radius of your home, or bar you from buying a plane, train, or bus ticket, or from buying gasoline—all with a few clicks on some banker’s computer. They can put your family on the street and shut off your money at the local supermarket. And there will be no challenge or appeal. All bankers’ decisions are final.

Want to buy a *Final Call* newspaper? Forget about it.

The ushering in of CBDCs is being sold as a “convenience” but when the Canadian truckers protested President Trudeau’s wicked and illegal COVID-19 restrictions that put them out of work, Trudeau simply had their bank accounts frozen and curtailed the people’s right to donate to the truckers’ cause—just like that. That’s the CBDC system in action.

And here is banker **Agustín Carstens** (in photo), the general manager of the Bank for International Settlements, at a 2020 IMF event making it clear that digital currency will allow banks to “enforce” your spending choices:

“[I]n cash, we don’t know for example who is using a hundred dollar bill today; we don’t know who is using a one thousand peso bill today. A key difference with a CBDC is that the central bank will have absolute control on the rules and regulations that determine the use of that expression of central bank liability. And also, we will have the technology to enforce that. Those two issues are extremely important, and that makes a huge difference with respect to what cash is.”

Ultimately, Satan’s aim is to implant a microchip under your skin that only the banker can program and access. It will carry your vaccine status, your police record, your credit score, your race, religion, political affiliation, your account balance, and other data that will put your very life in Satan’s hands. Through the CBDC slavery will make its long-awaited comeback.

Vaccine Corner

The following excerpt is from *How to Raise a Healthy Child... In Spite of Your Doctor* (1987), by Robert S. Mendelsohn, MD:

Immunization against Disease: A Medical Time Bomb? Here is the core of my concern:

- There is no convincing scientific evidence that mass inoculations can be credited with eliminating any childhood disease... If immunizations were responsible for the disappearance of these diseases in the United States, one must ask why they disappeared simultaneously in Europe, where mass immunizations did not take place.

- It is commonly believed that the Salk vaccine was responsible for halting the polio epidemics that plagued American children in the 1940s and 1950s. If so, why did the epidemics also end in Europe, where polio vaccine was not so extensively used?

- While the myriad short-term hazards of most immunizations are known (but rarely explained), no one knows the long-term consequences of injecting foreign proteins into the body of your child. Even more shocking is the fact that no one is making any structured effort to find out.

- There is a growing suspicion that immunization against relatively harmless childhood diseases may be responsible for the dramatic increase in autoimmune diseases since mass inoculations were introduced. These are fearful diseases such as cancer, leukemia, rheumatoid arthritis, multiple sclerosis, Lou Gehrig’s disease, lupus erythematosus, and the Guillain-Barre syndrome... Have we traded mumps and measles for cancer and leukemia?

I have emphasized these concerns because it is probable that your pediatrician will not advise you about them. Meanwhile, because routine immunizations that bring patients back for repeated office calls are the bread and butter of their specialty, pediatricians continue to defend them to the death.

Health system critic **Robert F. Kennedy Jr.** recently announced his candidacy for president (kenedy24.com), promising Americans that if he wins the White House, he will immediately go after everyone in a position of power “who engaged in criminal wrongdoing during the pandemic.”

Kennedy is the author of the bestselling exposé of the “pandemic” operation titled *The Real Anthony Fauci*. Kennedy said: “It is dawning on mainstream figures like Anthony Fauci that their COVID policies were a public health disaster. Lots of us are angry about the mandates, the lockdowns, the censorship, the insanity. But we need to avoid the toxic quagmire of retribution and blame and focus on ensuring this never happens again. More Women Bearing the Brunt of COVID Vaccine Reactions and Injury

An analysis of CDC data by Carolyn Hendler, JD, of the **National Vaccine Information Center** found that women were reported to have experienced more severe allergic reactions to the COVID-19 shots than men.

According to a February 2021 **American Medical Association** study, during the first month that the shots were made available, women experienced 94 percent of the 66 reported cases of anaphylaxis severe allergic reactions to the experimental mRNA shots. Women also accounted for the first six cases of severe blood clots with low platelet counts after the roll-out of Johnson & Johnson/Janssen “vaccine,” which prompted officials at the U.S. Centers for Disease Control and Prevention (CDC) to temporarily pause use of the “vaccine” in mid-April 2021.

A recent report showed that women between 12-29 years of age who received AstraZeneca “vaccine” were three and a half more times likely to suffer heart disease and/or death in the first 12 weeks after receiving the first dose compared to longer term risk.

know that what it does is, it stimulates the process called autophagy, which is very important in the process of healing and it’s one of the main mechanisms that we use to help patients get rid of spike protein. And Ivermectin, believe it or not, stimulates autophagy.

The other thing it does which is important is, it changes, improves the microbiome. So we have all of these bacteria in our gut, and what happens is COVID, and the vaccine, changes your microbiome in a very unfavorable manner, very unfavorable. It causes profound changes in the microbiome, and this in itself has serious consequences. Ivermectin helps restore the microbiome. So it truly is a multifunctional drug, which is safe. And it works both for early COVID and it also is very effective for the vaccine-injured. We are not making money selling Ivermectin—no one is going to make money. People ask, ‘Well, do you have a conflict of interest,’ ‘Are you selling Ivermectin?’ No, this is a cheap generic drug. The WHO actually had access to Ivermectin at two cents a tablet—2¢. How can you possibly make money off such a cheap drug?”

More Young Children Ingested Drugs and Illicit Substances During COVID Pandemic

A new study published in the *Journal of the American Medical Association* (JAMA) shows “an increase in ingestion of illicit substances such as cannabis, opioids and ethanol among children under six years old in the COVID-19 pandemic period compared with the pre-pandemic period.”

The **National Vaccine Information Center** reports that “COVID public health policies created many challenges for families and their children. Within the first year of the pandemic, over two-thirds of child-care facilities closed; more than 90 percent of schools switched to virtual learning; more than one-third of adults began working from home, and 18 million adults became unemployed.

“During this period of time, the highest level of adult drug overdose deaths from synthetic opioids was reported in U.S. history. At the same time, children younger than six years old accounted for the majority of illicit substance ingestions with more than 99 percent being unintentional. ...Families were left without adequate child supervision with most childcare centers and schools closed or virtual (during the early part of the pandemic). As overall stress and parental substance use increased, substance use treatment centers and mental health care were disrupted.”

“Treaty” Gives W.H.O. Ability to Declare “Emergency” and Take Rights Away

Changes to the United Nations’ 2005 international health regulations (IHR) have been occurring “under the radar” because Americans would object to the unconstitutionality of the changes, according to **Jonathan Alexandre (in photo)**, a senior counsel for the international litigation nonprofit Liberty Counsel.

The Biden administration’s proposed amendments to the IHR would further strengthen the **World Health Organization’s** authority to declare public health emergencies and override U.S. governing bodies.

“They’ve done this undercover because they knew at any point, if you were to tell Americans you’re ceding the[ir] authority to an international body that is unaccountable to the people, if the media were to echo that message, certainly Americans would have no regard for this,” Alexandre said during a recent interview with “NTD News Today.” “And we ought not to have any regard for this international body [the WHO] that is not accountable to us.”

The Biden administration proposed 13 amendments to the IHR, that, if approved, would alter international public health rules—including expanding the powers given to the WHO director-general to declare a public health emergency, bypassing U.S. governmental bodies.

Leading Biologist Addresses Mississippi Lawmakers on Vaccine Dangers

My name is **Dr. Christina Parks**. I received my Ph.D. in Cellular and Molecular Biology from the University of Michigan and did my graduate work in the area of cytokine signaling. The degree that I hold is very much involved with how to manipulate genetic material as was done in the production of these new gene-transfer vaccines for COVID. Recently Pfizer has been in the news due to a Project Veritas video that brought into question whether Pfizer was doing “gain of function” research. People tend to understand that “gain-of-function” research might result in the creation of a more virulent form of the SARS CoV-2 virus. Thus, most people recognize this as a dangerous and unethical avenue of research. However, it seems that we’ve missed seeing the hazards and immorality in using “gene-transfer” technology for vaccines. The issue we should be focusing on is why our scientists and government decided to force millions, if not billions, of people to inject a product that forces the body to produce a toxic, foreign viral protein when they knew this would cause the body to attack the cells producing it, as the cells producing the spike protein would be seen by the body as “foreign invaders”? You don’t need a Ph.D. to recognize that this is an astonishingly bad idea.

Not surprisingly, an avalanche of data is coming out that shows that tissues throughout the body are expressing the toxic, foreign spike protein for many, many months and that immune cells are infiltrating and causing inflammation and destruction in areas where the spike protein is being made. Pfizer’s own data show that their nano-lipid particles are absorbed by fatty tissues. So, we have areas like the bone marrow, the adrenal glands, the ovaries and the heart making spike protein and then being infiltrated and attacked by the body’s own immune cells.

We absolutely need to stop injecting people and especially children with this technology until all safety signals, such as myocarditis, menstrual issues, miscarriage, neurological disorders and cancers have been thoroughly studied. All medical procedures should be accompanied by informed consent and individualized care. However, there hasn’t been any attempt to consider the specific needs of people of African descent during this vaccine roll-out. The work of **Dr. Gregory Poland** from the Mayo Clinic established that per-

sons of African descent respond more vigorously to vaccines containing RNA viruses and may need a lower dose. Persons of color also have high rates of gene mutations that are protective for malaria, but may compromise the body’s ability to carry oxygen when the body is stressed, such as following receipt of a COVID vaccine. Were any of these susceptibilities screened for prior to vaccination? No. Does our government really care about Black people? I would say the answer is a resounding no. Many black Mississippians may have heard stories of their family members being experimented on in prison in the past. And Fauci has continued the legacy of using black people as guinea pigs by using healthy black orphans to test toxic HIV medications. The WHO recently ran a “Tetanus vaccine campaign” in Kenya, but the vaccine being used was found by independent labs to contain the hormone necessary to sustain pregnancy. Women who got it would have made antibodies to their pregnancy hormone, rendering them sterile.

In the wake of marginalization and exploitation of black people in America and around the world, it is now Mississippi’s turn to decide how it will treat its black citizens. Will Mississippi legislators pull back on all mandates until concerns about this experimental technology are thoroughly researched or will they demand that their residents BE the experiment? Will they demand that YOUR children be the experiment even though they know the vaccines have not been tested for their effects on fertility and cancer? Will Mississippi legislators demand true informed consent and individualized medicine, or are they comfortable with medical authorities stream-rolling the legitimate medical concerns of Black Mississippians yet again? In 2014, CDC Senior Scientist **Dr. William Thompson** came forth as a whistleblower and admitted that the CDC had shredded data showing that black boys were around 3-4 times more likely to be diagnosed with autism if they were vaccinated with MMR on time, rather than late. I commend him for standing on truth. However, to date, our black boys are STILL getting this vaccine in amounts and according to a schedule developed using their white counterparts. It will take more than one person standing on truth to change this system. It will take you. Will you stand for the truth? Will you stand for righteousness? Will you stand for the future of our children?

We were so worried about the practically non-existent infant death from COVID that we pushed the vaccine on them. While 3,300 deaths from SIDS is “normal”? FYI, infant deaths from SIDS dropped 30% during lockdowns with fewer “well-baby” visits.

Mercola.com reports that “In the days leading up to the U.S. Food and Drug Administration’s approval of Pfizer’s COVID-19 vaccine, U.S. and U.K. health officials entered into a ‘mutual confidentiality agreement to keep vaccine adverse events under wraps.’”

The news was revealed in 57 pages of heavily redacted U.S. Department of Health and Human Services (HHS) records via a Freedom of Information Act (FOIA) lawsuit.

U.S. and U.K. Secretly Agreed to Hide Vaccine Reactions

Government emails from May 14, 2021, also discuss concerns about administering COVID-19 shots along with other vaccines during pregnancy.

Regulatory filings show Pfizer knew of its shots’ waning effectiveness in April 2021 but didn’t publicly acknowledge it until late July 2021.

Preclinical studies for Pfizer’s COVID-19 shots also warned of rhabdomyolysis, which is the breakdown of skeletal muscles, but the Pfizer trial reported it was “completed with no safety concerns.”

OXFAM: Billionaires Grow Richer in “Pandemic”

The calculations by Oxfam America in a new report titled “TAX WEALTH, TACKLE INEQUALITY” show that:

- US billionaires are almost a third richer (over a trillion dollars, in real terms) than they were at the onset of the “pandemic” in 2020.
- US billionaires have increased their wealth by 86.3% since 2013, based on Forbes data. Nearly half of this increase (48.6%) has occurred in the last three years. The number of US billionaires is nearly 60% higher than it was a decade ago, clocking in at over 700 today.
- For every \$100 of wealth created in the last ten years in the United States (2012-2021), \$37 has gone to the richest 1%—while the bottom 50% have received just \$2.

At the same time, our country has a “permanent underclass” of working families who are denied their economic rights, trapped in poverty, and unable to accumulate wealth no matter how hard they work. Oxfam data shows that almost a third of the US labor force earns less than \$15 an hour; half of all working women of color earn less than \$15.

The racial wealth gap is actually growing wider since the 1980s, and today is close to what it was in 1950. The average Black American household currently has only about 12 cents in wealth for every dollar of the average white American household.

And while the gender pay gap has barely budged in two decades, the gender wealth gap is much wider. One study found a raw gender wealth gap of women owning 32 cents for every dollar of male wealth. For women of color, the gap is even more profound.

The COVID-19 VACCINE: “We Have No RIGHT to Trust Them.”

Groups Lobbying for COVID-19 Vaccine Mandates Were Funded by Pfizer

Epoch News reports that multiple organizations that pushed for COVID-19 vaccine mandates received funding from Pfizer, according to financial disclosures.

The **Chicago Urban League President Karen Freeman-Wilson** said in August 2021 that the benefit of vaccine mandates “far outweighs” concerns about them. She did not mention that her organization was on the receiving end of a \$100,000 grant from the “vaccine” manufacturer Pfizer.

That same month, the **National Consumers League** said it supported mandates imposed by governments and employers. “In recent weeks, it has become evident that employer mandates are effective at nudging reluctant people to get the COVID-19 vaccine,” the group said in a statement. Undisclosed by its **executive director Sally Greenberg** was this fact: the league received \$75,000 from Pfizer for “vaccine policy efforts.”

The **American Academy of Pediatrics**, led by CEO **Dr. Mark Del Monte**, drew more than \$250,000 from Pfizer in 2021, the bulk coming before the organization announced support for COVID-19 vaccine mandates for health care workers. The group claimed mandates would curb COVID-19 transmission and cases, and it now recommends COVID vaccines for all “kids 6 months and up.”

The **American Pharmacists Association**, **American College of Preventive Medicine**, **Academy of Managed Care Pharmacy**, **American Society for Clinical Pathology**, and the **American College of Emergency Physicians** also received grants from Pfizer before signing a letter that urged the Biden administration to impose COVID-19 vaccine mandates on private employers with 100 or more workers.

Why Three COVID Jabs Are Worse Than Two

Analysis by Dr. Joseph Mercola

COVID-19 is more than twice as prevalent among the boosted, compared to those who quit after the initial series. Those with a primary series plus one or two booster shots are catching the infection at a rate of 120 per 100,000, while those with the primary series only have an infection rate of 56 per 100,000.

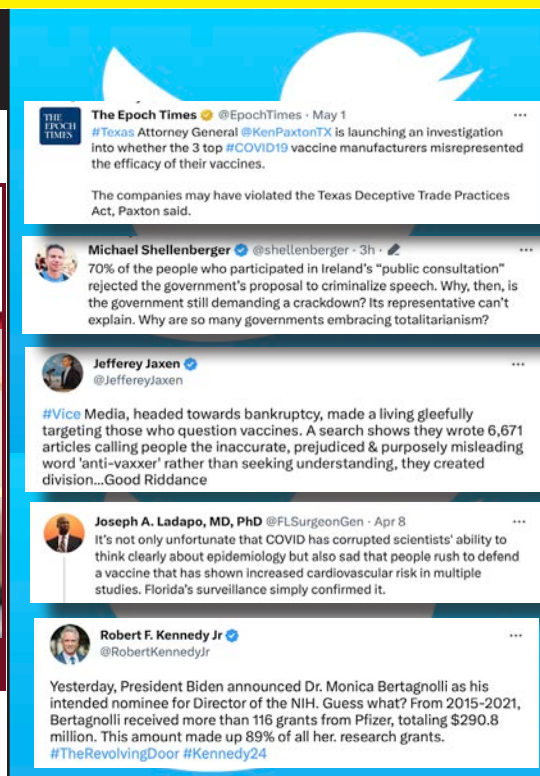

Pfizer’s pediatric trial reveals the shots raise, rather than lower, the risk of reinfection (meaning catching COVID more than once). In all, 12 of the children in Pfizer’s trial were diagnosed with COVID twice within the follow-up period (one to four months). Of those, 11 had received two or three jabs; only one unvaccinated child got COVID twice.

Data from Moderna’s trial also suggest the shot makes adults more prone to repeat COVID infections, thanks to an inhibited antibody response.

In Pfizer’s pediatric trial, six of the children, aged 2 to 4 years, in the vaccinated group were diagnosed with “severe COVID,” compared to just one in the placebo group. So, the shot may actually cause more severe infection in young children.

Believe it or not, we’re now at the point where even mainstream media are reporting that COVID-19 is more prevalent among the boosted, compared to those who quit after the initial series. That doesn’t mean that sanity is returning; it’s just interesting that they’re not able to ignore it completely, even though their efforts to rationalize it teeter on the verge of lunacy.

Vaccine Corner

The following excerpt is from *“The Bell has Told for Aluminium Adjuvants: Industry complacency and arrogance now defines the dangers of aluminium adjuvants in vaccines,”* by Dr. Christopher Exley (March 1, 2022):

“The laissez faire attitude of manufacturers towards the aluminium content of vaccines begins to suggest that they are only interested in selling their product and have no interest in whether it is effective. We already know that they have no consideration for vaccine safety. How do we know that the routine administration of vaccines, for example to infants, actually prevents disease? ...Is there a body that monitors whether vaccines in everyday life achieve the endpoints that are shown in clinical studies used for their approval?

“...I worry all the time about injecting aluminium into any human being and especially infants. My concern is only heightened by the very real possibility that all aluminium-adjuvanted vaccines are shams with absolutely no (guaranteed) health benefit. Until the vaccine manufacturers prove otherwise, independently verified, there should be a moratorium on the continued use of such vaccines.”

Overuse of Hand Sanitizer, Disinfectants Causing Lasting Harms

The widespread use of hand sanitizers and disinfectants during the COVID Depopulation Drive is spurring health problems and harming the environment.

The *Environmental Health News* quotes Prof. Erica Hartmann, co-author of a new study examining the dangers of disinfectants: “It’s ironic that the chemicals we’re deploying in vain for one health crisis are actually fueling another. Quaternary ammonium compounds, or quats, are used in disinfectants and personal care products including baby wipes, eye drops, hair conditioners, fabric softeners and other products.”

The study “found that the compounds are linked to asthma, dermatitis, inflammation, infertility, birth defects and other problems. They can also harm aquatic life and cause antimicrobial resistance, which can make drug-resistant viruses and

bacteria.” “Antimicrobial resistance was already contributing to millions of deaths per year before the pandemic,” Hartmann said. “Overzealous disinfection, especially with products containing [quats], threaten to make it worse.”

The *Defender* article by Brian Bienkowski points out that people are mostly exposed via their skin and breathing quats, but food and water could be other potential sources of exposure. Certain professions, including housekeepers, food or medical equipment preparation, dental assistants and nurses, are more highly exposed. Children and teachers may also have elevated exposure because disinfectant wipes are often used on children’s school desks.

The most common quat is benzalkonium chloride, but if you see ingredients on labels that end in “ammonium chloride,” there are probably quats in the product.

The study’s authors recommend not using quat-containing compounds when the chemicals are unnecessary. “Soap and water usually do the trick. In fact, it will make our homes, classrooms, offices, and other shared spaces healthier.”

Supreme Court Justice Slams COVID Policies

Supreme Court Justice Neil Gorsuch wrote a scathing overview of how civil liberties were trampled during the COVID-era:

“Fear and the desire for safety are powerful forces. They can lead to a clamor for action—almost any action—as long as someone does something to address a perceived threat....A leader or an expert who claims he can fix everything, if only we do exactly as he says, can prove an irresistible force. We do not need to confront a bayonet, we need only a nudge, before we willingly abandon the nicety of requiring laws to be adopted by our legislative representatives and accept rule by decree.”

Gorsuch said that the U.S. may “have experienced the greatest intrusions on civil liberties in the peacetime history of this country.”

“Executive officials across the country issued emergency decrees on a breath-taking scale. Governors and local leaders imposed lockdown orders forcing people to remain in their homes. They shuttered businesses and schools, public and private. They closed churches even as they allowed casinos and other favored businesses to carry on. They threatened violators not just with civil penalties but with criminal sanctions too. They surveilled church parking lots, recorded license plates, and issued notices warning that attendance at even outdoor services satisfying all state social-distancing and hygiene requirements could amount to criminal conduct. They divided cities and neighborhoods into color-coded zones, forced individuals to fight for their freedoms in court on emergency timetables, and then changed their color-coded schemes when defeat in court seemed imminent.”

Top Brazilian Doctor Says “Health” Agencies Fraudulently Rewrote Medical Protocols

Dr. Alessandro Loiola, MD (@AlessandroLoio2) has practiced medicine in Brazil for 27 years and treated thousands of patients with symptoms of “COVID-19.” He tweeted on May 14, 2023:

1.63 million 'excess deaths' among Blacks compared to white Americans since 1999

Depopulators are rejoicing at the results of a new study that shows that there were 1.63 million “excess deaths” among Black Americans compared to whites in the last 20 years. “Excess deaths” is an estimate of how many Black Americans died compared to what would have happened if Black people experienced the same death rate as white Americans in that same time period. **The medical journal JAMA Network estimates that 997,673 excess deaths occurred among Black males and 628,464 excess deaths occurred among Black females.**

According to the study, heart disease in both sexes and cancer rates in males were major contributing factors. These maladies were exacerbated by the “pandemic,” when the death rate abruptly increased.

According to the study’s author, César Caraballo, “The abrupt worsening of these disparities in the first year of the pandemic indicates that current efforts to eliminate mortality disparities have been minimally effective and that progress has been fragile.”

DePopulation Alert

Chelsea Clinton (in photo) is now the public face of a poison-pushing “vaccination program” of the **World Health Organization** and depopulation advocate **Bill Gates** targeting Black children, called “**The Big Catch-Up.**” The COVID-19 “vaccine” failed to penetrate Africa after **Minister Farrakhan’s** warning to the leaders on that continent. The result was that African nations had the lowest death rate and lowest vaccination rate on earth. Chelsea Clinton held several events pushing the COVID “jab”—an injection that has killed at least 35,000 people and hospitalized 200,000 just in America, while having absolutely no effect on COVID-19. New data shows that it actually has **NEGATIVE** efficacy—meaning that those who took it are now *more* vulnerable to death and disease than those who refused.

Having failed to meet their quota of injected “non-whites,” the WHO with its newly launched mass-vax program is targeting “Millions of children who missed routine vaccinations during the pandemic”—in Afghanistan, Angola, Brazil, Cameroon, Chad, Ethiopia, India, Indonesia, Nigeria, Pakistan, Philippines, Somalia, Madagascar, Mexico, Mozambique, Myanmar, Tanzania, Viet Nam.

In future issues we will ask medical experts to examine this mass injection program by these known depopulators, to ascertain whether Blacks should get Caught-Up in “The Big Catch-Up.”

Depopulation By the Numbers: UK Data Show Sharp Increase in Excess Deaths

It is now evident in many nations a sharp increase in excess deaths NOT RELATED to the “COVID-19 virus.”

Data from the **United Kingdom’s Office for National Statistics and Office for Health Improvement and Disparities**, show that between May and December 2022, 32,441 more deaths than usual were recorded that exclude COVID-19 as a cause of death. In the week ending April 21, 2023, the number of deaths exceeded the five-year average by 22.1% (2,540 excess deaths), while in the week ending April 28, the excess figure was 12.9% (1,569 excess deaths). Only 3.8% of deaths during this period mentioned COVID-19 in the death certificates.

John Campbell, Ph.D., author of two nursing textbooks, analyzed the data and noted that these data “are raising serious questions as to why so many died.” Calling the **4,190 excess deaths recorded in the last two weeks of April** “a huge amount,” Campbell likened the figure to the death toll from a terrorist attack [3,000 died in the 9/11 incident of 2001]. He also compared the attention a terrorist act would have received to the lack of attention the excess deaths appear to be receiving. He said: “Just imagine this was a terrorist attack [where] 4,190 people were killed. It would be a state of war.”

Top Vaccine Expert Admits Aborted Human Fetuses Used in Vaccine Creation

Virologist **Dr. Stanley A. Plotkin** wrote the standard textbook on vaccines. He worked in the Congo to recruit millions of Black African child “volunteers” for dozens of mass trials with experimental vaccines that were considered too risky to test on white children. In a January 11, 2018, sworn legal deposition (see excerpt below) Plotkin admitted to using human fetuses in the creation of vaccines.

QUESTION: So this study involved 74 fetuses, correct?

PLOTKIN: Seventy-six.

Q: And these fetuses were all three months or older when aborted, correct?

PLOTKIN: Yes.

Q: And these were all normally developed fetuses, correct?

PLOTKIN: Yes.

Q: These included fetuses that were aborted for social and psychiatric reasons, correct?

PLOTKIN: Correct.

Q: What organs did you harvest from these fetuses?

PLOTKIN: Well, I didn’t personally harvest any, but a whole range of tissues were harvested by co-workers.

Q: And these pieces were then cut up into little pieces, right?

PLOTKIN: Yes.

Q: And they were cultured?

PLOTKIN: Yes.

Q: Some of the pieces of the fetuses were pituitary gland that were chopped up into pieces.

PLOTKIN: Mm-hmm.

Q: Included the lung, skin, kidney, spleen, heart and tongue of the fetuses?

PLOTKIN: Yes.

Q: So I just want to make sure I understand. In your entire career—this was just one study. So I’m going to ask you again, in your entire career, how many fetuses have you worked with approximately?

PLOTKIN: Well, I don’t remember the exact number, but quite a few when we were studying them originally before we decided to use them to make vaccines.

Q: Some of these (fetuses) were in psychiatric institutions, correct? I’m just asking you, some of the fetuses that you did use did come from abortions from people who were in psychiatric institutions, correct?

PLOTKIN: I don’t know that. What I’m telling you is that I got them from a co-worker; and if it’s stated in the paper, it’s true. But, otherwise, I do not know.

Florida's Top Health Official Slams CDC/FDA “Pandemic” Actions

Florida state Surgeon General **Dr. Joseph A. Ladapo** penned a devastating rebuke of the government’s leadership for its misguided and deadly “pandemic” policies. Dr. Ladapo’s 3-page May 10th beat-down is addressed to U.S. Food and Drug Administration Commissioner **Dr. Robert M. Califf** and the fleeing director of the Centers for Disease Control, **Dr. Rochelle P. Walensky**:

“Your ongoing decision to ignore many of the risks associated with mRNA COVID-19 vaccines, alongside your efforts to manipulate the public into thinking they are harmless, have resulted in deep distrust in the American health care system. Beginning with Operation Warp Speed, and possibly to be continued with an additional \$5 billion investment in Project NextGen, the federal government has relentlessly forced a premature vaccine into the arms of the American people with little to no concern for the serious adverse ramifications.

Califf

Walensky

“It is critical to acknowledge and address the negative global impact caused by the emergence of COVID-19. Nonetheless, after two years, your collective decisions to deny that natural immunity confers comparable or superior protection to COVID-19 vaccination, push mRNA COVID-19 boosters for the young and healthy, and delay acknowledging the risks of vaccine-induced myocarditis have only sowed doubt between the American people and the public health community.

“Data are unequivocal: After the COVID-19 vaccine rollout, the Vaccine Adverse Events Reporting System (VAERS) reporting increased by 1,700%, including a 4,400% increase in life-threatening conditions. We are not the first to observe such a trend. Dismissing this pronounced increase as being solely due to reporting trends is a callous denial of corroborating scientific evidence also pointing to increased risk and a poor safety profile. It also fails to explain the disproportionate increase in life-threatening adverse events for the mRNA vaccines compared to all adverse events.”

Shaming of the Unvaccinated: Celebrities Who Pushed the Poison

Holy Qur’an 14:22: “And I [Satan] had no authority over you, except that I called you and you obeyed me; so blame me not but blame yourselves.”

Each day brings a new data set amplifying the damage caused by the COVID-19 “vaccines,” which have now killed more than 35,000 in America and hospitalized 200,000. It is now abundantly clear that these poisonous chemical concoctions are the weapons deployed to kill off 2-3 billion of the world’s population. A major part of the plot was to recruit weak-minded celebrities to relentlessly push the poison through fear-mongering, threats, and public shaming. The ease at which they accepted and performed their role in mass murder is truly breathtaking. Hospitals are now filled with VACCINATED people with every sort of jab-related malady. Here are the poison pushers shaming the unvaccinated, in their own words:

Mika Brzezinski, MSNBC:

“You are the unvaccinated. You are the problem. It is the unvaccinated who are the problem. Period. End of story.”

Don Lemon, CNN:

“The only people that you can blame, the only people you can blame—this isn’t shaming, this is the truth, maybe they should be shamed—are the unvaccinated.” “We have to start doing things for the greater good of society and not for idiots who think that they can do their own research.” “Oh, you can’t shame them, you can’t call them stupid, you can’t call them silly—yes, they are.”

Michael Steele, MSNBC:

“The unvaccinated are basically beating their breasts, running around the country, saying ‘Huh, huh, huh—we don’t care; we’re living free and so forth.’”

Stephen Colbert, CBS:

“The unvaccinated, a group that includes children and people acting like children. And the rest of us are starting to get pissed off.”

Pres. Joe Biden: “We’ve been patient, but our patience is wearing thin. ... This is not about freedom or personal choice.” “The bottom line: We’re going to protect vaccinated workers from unvaccinated co-workers.”

Arnold Schwarzenegger:

“Well, my freedom is kinda being disturbed here.’ No! Screw your freedom.”

Jonathan Capehart, MSNBC:

“Anyone you came into contact with will blame you, as will the rest of us, who’ve done the right thing by getting vaccinated....And don’t get me started on the lunatics who won’t take any of the COVID vaccines.”

Joy Reid, MSNBC:

“The anti-vaxxers, they seem to have a thing for death and home remedies.”

Whoopi Goldberg, ABC:

“At some point, people are going to have to grow up. You’re either going to have to make a decision. Five gazillion of us are vaccinated, and we’re okay. Yeah, people have died. People have died having been vaccinated.... The point is you see us all walking around. You see people who have been vaccinated walking around. We’re not walking around with two heads or five tails. We’re walking around like everybody else.”

Howard Stern:

“It’s time for you to get it. Now, if you don’t get it, in my America, all hospitals would be closed to you. You’re going to go home and die. That is what you should get. Absolutely.” “When are we gonna stop putting up with the idiots in this country and just say it’s mandatory to get vaccinated? F\$%^ ’em. F\$%^ their freedom. I want my freedom to live...”

Jimmy Kimmel, ABC:

“Dr. Fauci said that if hospitals get any more overcrowded they’re gonna have to make some very tough choices about who gets an ICU bed. That choice doesn’t seem so tough to me. Vaccinated person having a heart attack, yes, come right on in, we’ll take care of ya. Unvaccinated guy who gobbled horse goo? Rest in peace, wheezy.”

Dr. Leana Wen:

“Because, frankly, we know that we can’t trust the unvaccinated.” “We need to start looking at the choice to remain unvaccinated the same as we look at driving while intoxicated.”

“Dr. Anthony Fauci, Bill and Melinda Gates, you want to depopulate the Earth? What the hell gives you that right? Who are you to sit down with your billions and talk about who can live and who should die?”

‘Absolutely Terrifying’: Candace Owens Starts Series About Vaccine Dangers

Political commentator **Candace Owens** shared her own story of getting two doses of the Gardasil vaccine. “It was absolutely terrifying because I was alone and had bad reactions to both doses,” she said.

Immediately after receiving her first dose of Merck’s Gardasil human papillomavirus (HPV) vaccine at age 19, Candace Owens “hit the ground” and “passed out.”

Owens said her doctor told her she fainted because she hadn’t eaten breakfast. Months later—on a day when she made sure to eat breakfast—Owens received her second dose of the Gardasil three-dose series, and again she passed out, falling off the table. “I remember this moment especially horrifically...When I came to, I began having what can only be described as a mini seizure. I began shaking and I began vomiting profusely.”

Afterward, she sat in her car crying and asked herself what she had just put into her body and why she put it into her body. “Why would I just blanket trust a doctor?” she asked.

Owens told viewers: “I didn’t feel like myself for years after getting that second installment of the Gardasil shot. I had a fatigue that I can’t even describe to you that lasted for years. I felt like my brain didn’t work the same since getting that vaccine.”

As she researched Gardasil she found that even though it is marketed as a preventative against cervical cancer, the numbers did not add up. In 2005, the year before its rollout, there were approximately 149.9 million females in the U.S. and “just 10,370 cases of cervical cancer,” according to the American Cancer Society.

“That means that if you were a female living in the United States in 2005, you had just a .0069 chance of being diagnosed with cervical cancer,” Owens said.

Owens said she is now grateful for her Gardasil injury experience because it is what set her on the path of creating an educational video series that aims to provide information to parents so they can “truly have informed consent.”

Owens is now a mother of two who does not vaccinate her children. Her series—“A Shot in the Dark”—has 11 episodes and covers “the history of every single childhood vaccination on the [Child and Adolescent Immunization] schedule.”

Owens shares her Gardasil injury story in the first episode of “A Shot in the Dark,” which aired May 11 on *The Daily Wire* (dailywire.com/show/a-shot-in-the-dark).

Suspicion Surrounds Death of Dr. Rashid Buttar, a Major Big Pharma Critic

Truth-tellers are mourning the death at 53 of **Dr. Rashid Buttar**, one of the strongest voices opposing the deadly “vaccine” depopulation campaign.

Dr. Buttar had been the target of a smear attack by Big Pharma and its media shills but he steadfastly continued to warn his many listeners against taking the poisonous substance that has now killed more than 35,000 in just America.

Just before his death, a very gaunt-looking Dr. Buttar told an interviewer: **“I had been poisoned with 200 times the amount of what was in the vaccinations. I’ve said publicly that you would have to shoot me in the head with lead—i.e. a bullet—because I’m never going to take the vaccine. So, I was actually intentionally poisoned...right after that CNN interview.”** The CNN interview he refers to took place a year ago, in which he likened U.S. “medical expert” Anthony Fauci to Adolf Hitler.

DEPOPULATION in HISTORY

The current killing off of 2-3 billion of the world’s population via a bio-weapon disguised as medicine may be the most audacious genocide ever recorded, but it is by no means the first. Every European colonizing scheme since Columbus had the genocide of the indigenous people at its core. Columbus himself encountered the Taíno people in 1492 numbering over one million, but by 1514 it had dropped to a mere 35,000, and by 1530, there were 1,148 Taíno left alive. King Leopold murdered 13 million in the Congo, and the Nakbah—the ethnic cleansing of 750,000 Palestinian people—is another depopulation atrocity.

In America after slavery, wholesale killings of Blacks occurred across the South with alarming frequency and shocking depravity. Most of these open racial slaughters were the result of whites coveting land and resources Blacks were settled on.

As one scholar wrote of post-Civil War whites: **“They loathed the Negro and...were ready to hunt him like an animal.”** So many Blacks were slaughtered in one incident in a Texas county that “vultures became a nuisance.”

Depopulation massacres occurred in Memphis and Pulaski, Tennessee; Opelousas, New Orleans, Shady Grove, Colfax, and Coushatta, Louisiana; Eutaw, Alabama; Laurens, South Carolina; Camilla, Georgia; Winston County and Meridian, Mississippi.

Doctor Declares The Pandemic of the Vaccinated

At a recent televised lecture, Canadian physician **Dr. Charles Hoffe** presented alarming evidence about the mRNA “vaccine.”

“Do you remember that we were told that the way out of this pandemic was to get everyone vaccinated? That it was what was going to keep us safe? But what I want to show you next was that literally what has happened to Canada is exactly what happened to those laboratory animals that were tested with the vaccine against the very first SARS virus.... That so-called vaccine ended up working as an anti-vaccine and made them more vulnerable to the disease than if they had not been vaccinated. **So what we now have is a pandemic of the vaccinated.** I’m going to show you the evidence that this so-called vaccine is actually **an anti-vaccine**—and that it has increased people’s risk. It increases your chance of getting COVID; it increases your chance of spreading COVID. And it damages your immune system to such a degree that you have a higher risk of hospitalization and death. And of course that’s what the narrative that the public health keep telling us—that even though they now admit it doesn’t stop you getting COVID; it doesn’t stop you spreading COVID; they say it’ll keep you out of hospital; at least you won’t die. And I’m going to show you the evidence for why that is absolutely false.”

Dr. Hoffe was speaking at a conference of Canadian doctors presenting their findings about the “vaccine.” Dr. Hoffe pointed to the Cleveland Clinic study that followed 51,000 healthcare workers for three months to see who was getting COVID: the people that got more of the jabs and the boosters were getting COVID more than anyone else.

He presented the graph (below) with five colored lines showing COVID-19 infections over 3 months:

“The black line at the bottom is the people that were unvaccinated—zero doses of this vaccine. They were getting less COVID than anyone else. The next line up, the red line, is those that had had one dose of the vaccine. The green line: two doses. The blue line: three doses. And the top line, the brown one, were the people that had had the bivalent booster, the one that was supposed to keep you the safest: they were getting COVID more than anyone else. There was an absolute direct linear correlation that the more shots you got, the more likely you would get COVID ...”

Pharma Companies Spent More on Lobbying Than Any Other Industry

A new report revealed that in 2022 the pharmaceutical industry spent \$374 million on federal lobbying alone, far more than any other industry.

According to analysts, much of the reason for outsized spending by the pharmaceutical industry was related to the massive push for the government to mandate “vaccines” for all Americans.

The chart below shows lobbyist spending by each industry:

DEPOPULATION in HISTORY

From the very start of Europe’s colonization of America, the invading settlers were begging their British king to destroy the “savages” at an even faster rate than he already was. The king’s slowness to annihilate the Indians was one of the reasons the “founding fathers” wanted to separate from England. Their Declaration of Independence calls them “the merciless Indian Savages,” and the early Thanksgiving holidays were little more than celebrations of successful racial massacres.

The Red Holocaust was systematic, calculated, and extremely profitable. Colonial merchants supplied the British, Dutch, French, and American armies to ethnically cleanse the Indian Nations from their ancestral lands.

Once the armies retreated, it was the merchants who surveyed and divided the land into lots and began selling them to the white settlers. The land’s “value” was created out of thin air and these property rights were then protected by the U.S. government. Legendary American “frontiersmen” like Daniel Boone and even pre-president George Washington were actually surveyors in the employ of these merchants, measuring out property lines and killing any Indians that remained. In 10 months the force Washington led had fought 20 battles that killed and removed the people who had lived on that land for thousands of years.

President Andrew Jackson’s Indian Removal Act of 1830 initiated a series of genocidal wars against the remaining Indian Nations. The policy confined the survivors to about 310 “reservations.”

Secret Pfizer documents show more horrific drug industry crimes

Dr. Naomi Wolf of *DailyClout* (in photo) has presented new information from the court-ordered release of Pfizer COVID-19 “vaccination” documents showing that nearly 9% of the vaccinated suffered damage to their muscle and skeletal system.

According to Dr. Wolf, “Women were affected at a ratio of almost 4:1 over men, and you’ll remember that I’ve often said that joint pain is the number-one side effect in the Pfizer documents, but the CDC doesn’t mention it.”

She said that this would explain why so many people are having to get shoulder, hip, or knee replacements, or why their ankles are giving out in young, otherwise healthy people.

“The bottom line is there were...3,640 adverse events of this kind,” Dr. Wolf explained. “Of these, 44 percent were classified by Pfizer as serious...”

Reproduction Targeted

Dr. Wolf said: “It’s my belief that they were trying to disrupt especially female reproduction...In the Pfizer documents, there’s a chart,” detailed Dr. Wolf. “And as a woman, this is one of the most painful things to see. And I’m Jewish. And my grandmother lost nine brothers and sisters to the Holocaust. So I don’t say this lightly, but this chart is a Mengele-type of chart. It’s Mengele science.” [Dr. Josef Mengele was a Nazi doctor who conducted horrific medical experiments on Jewish prisoners.]

“Why is it Mengele science?” she asked. “Because they break down 20 different horrible things that can happen to women’s menstruation.”

According to a report cited on *Mercola.com*, new scientific data has revealed that “vaccinated” pregnant women suffer a 27-fold higher risk of miscarriage following COVID-19 shots.

The shot’s contents are biodistributed into the bloodstream within hours and cross “all physiologic barriers including the maternal-placental-fetal barrier and the blood brain barriers in both the mother and the fetus,” wrote Dr. James Thorp, a maternal-fetal medicine expert. Pregnant women were subjected to the shots, and in many cases were mandated to receive them.

As a result, birth rates in multiple European countries fell significantly at the end of 2021, months after COVID-19 shots became widely mandated. Researchers have called for the immediate suspension of COVID-19 vaccination for all persons of childbearing and reproductive age.

Amish Ignored CDC and Avoided COVID Disaster

Medical researcher Steve Kirsch asks how the Amish religious group in Pennsylvania fared so much better during the “COVID crisis” than the American population as a whole. The Amish refused the vaccine and yet their infection fatality rate from COVID was 200X lower than the surrounding community. “Their secret? They ignored ALL the CDC’s recommendations,” wrote Kirsch.

As America ground to a halt and followed the depopulation policies of Bill Gates and Dr. Anthony Fauci, it had the highest death rate in the world. Kirsch reports, “[T]he Amish didn’t do anything to protect against getting COVID: no lockdowns, no vaccinations, no masks, no social distancing, no mandates, no school closures, nothing. If they got sick, they used ivermectin and other methods that were not recommended by the CDC or FDA. 90% of the Amish have been infected by COVID, yet only 5 of the Amish might have died from COVID.”

Early on The Honorable Minister Louis Farrakhan noted the success of the Amish methods: “Their whole community got infected: They dealt with it—they didn’t go to the hospital, they went right back to the natural system and fed their immune system with not chemicals, food! And they achieved ‘herd immunity.’ So their whole community, now, is just happy.”

Molecular Biologist Dr. Christina Parks interviewed a senior elder in the Amish church. He said, “We heard about it, but didn’t feel it. No one went to the hospital.” He attributes this to their faith. They stopped church services and did distancing between families for only one week in the beginning—but no masking. Their business establishments put the required sign saying that the State required masks, but most ignored it.

He said that isolating people goes against their principles of Christian brotherhood, so they don’t do that. He knew of Amish people who used Ivermectin.

Most in the community “felt the fear and hype is about as bad as the pandemic itself.” Their attitude was and is: “If you have healthy food, faith in God, you will probably be fine. Even if we die, we have heaven before us.” He says, “I’d rather trust God than trust a vaccine.”

“Making a Killing” Film Exposes COVID Incentives to Kill

A new documentary examines the cash incentives paid to hospitals that appeared to have dictated the treatment given to “COVID-19” patients. The U.S. had one of the worst outcomes than any country, despite having the most expensive and extensive health delivery systems on earth. Many believe that the high number of “pandemic” deaths (now 1,131,439) and hospitalizations (now 6,176,446) in America was driven by profit and greed.

The documentary, titled *Making a Killing*, was produced by Patty Myers (in photo), whose husband died of hospital mistreatment of COVID-19. According to one report, “When the federal government sent \$9,000 to her to pay for her husband’s funeral, she got angry. ‘I didn’t want to take a penny.

It felt like hush money, like they were paying me to keep quiet about how my husband died in the hospital.” Myers decided to take the government’s money and use it to make the documentary. “When I started making this film, I didn’t know about the federal money driving the [hospital] protocol. I do now,” Myers said. The federal money was flooding hospitals with cash and generating record-breaking hospital profits. A new report reveals that the 20 largest nonprofit hospitals in America received more than \$23 billion in federal aid during the 2018-2021 time period, and “their cumulative net assets soared from 200 billion in 2018 to \$325 billion in 2021.”

As Patty Myers discovered, the federal money incentivized specific medical “treatments” for COVID that happened to be deadly. “If the hospital admitted you with a Covid diagnosis, they got paid more! If they “treated” you with remdesivir, a drug well-documented as lethal, they got a 20% bonus on the whole bill! If the hospital tortured you with mechanical ventilation that caused secondary bacterial pneumonia, they got an even bigger payout! And if the hospital really lucked out and you died ‘with COVID’ (even if not directly of COVID), the cash bonanza was absolutely awesome.”

POISONOUS FOOD and WATER

“Take, for instance, the use of fluoride, chloride, and sodium, which if not used correctly can destroy our entire life. Maybe it is best to find something else that will clear our water without killing both us and the poison in our food and water.

“The scientist should not advocate the use of such poisonous chemicals as fluoride, chloride, and sodium, which may have a bad effect on our brains and our human reproductive organs. The scientist that uses such poison on human beings wants to either minimize the birth rates or cause the extinction of a people.”

The Most Honorable Elijah Muhammad, *How To Eat To Live, Book One (1967), p. 107*

Researchers Hid Data Showing Fluoride Lowers IQs in Children

The controversial practice of adding fluoride to drinking water first began in the 1940s, advocates claim, to prevent dental cavities. But cavities have decreased in countries both with and without water fluoridation, and troubling medical side-effects are now being discovered. **Children’s Health Defense** reports that California’s dental director intentionally omitted data linking fluoride exposure to brain damage in children.

The documents obtained by the **Fluoride Action Network** show that the study’s research team, led by **Dr. Jayanth V. Kumar** (in photo), a dental surgeon, conducted a review of the scientific literature on fluoride’s effect on brain development and found a link between fluoride exposure and lowered IQ in children, even at low levels of exposure. However, they omitted the data and wrote a paper concluding there was no evidence of a link.

Four rounds of scientific review rejected Kumar’s manuscript as “poorly researched,” “internally inconsistent” and committing “unashamed exaggeration” before the journal *Public Health* finally published Kumar’s study.

This is highly significant because of a “groundbreaking” U.S. Department of Health and Human Services **National Toxicology Program (NTP)** report that found 52 of 55 human studies showed **lower child IQ with higher fluoride**, and concluded that there was “no obvious threshold” at which fluoridating water is safe.

After COVID “Vaccine” Life Expectancy Takes Tragic Fall, Depopulation Rises

Dr. Joseph Mercola points out: “If the COVID jabs worked, you’d expect excess mortality to drop, yet that’s not what we’re seeing.”

Data now shows that Americans lost nearly three years of life expectancy during the “pandemic.”

- In 2019, the average life span of Americans of all ethnicities was 78.8 years;
- By the end of 2020, it had dropped to 77 years;
- By the end of 2021, it was 76.4.

Virginia Commonwealth University professor of population health **Dr. Steven Woolf** told *USA Today*: “That means all the medical advances over the past quarter century have been erased.”

While life expectancy dropped across all age groups, the age groups with the highest increases in mortality were working-age adults, 25 through 54, followed by children between the ages of 1 and 4.

Liars & Deceivers to the Very End

Last week **CDC** director **Dr. Rochelle Walensky** appeared before a Senate committee and made the following statement: **“We still to this day do not have data on people who are coming into the hospitals who are vaccinated. That is a data point that we have lacked.”**

Yet, in July 2021 she said: **“Unvaccinated Americans count for virtually all recent COVID-19 hospitalizations and deaths.”**

How is it that the CDC had that data in 2021 when they needed to publicly shame the “unvaccinated,” but—under oath, and now that the vaccine-injured are filling hospitals—Walensky now says they currently don’t have and NEVER had that information? Everyone who has been to a hospital—even as a visitor—over the last 3 years is aggressively asked if they were “vaccinated.” Yet, somehow, the CDC can’t find that “data point.”

The True Cost of COVID Depopulation

Dr. Paul Alexander, a former official at the U.S. Department of Health and Human Services, wrote:

substack.com/@drpaulalexander

Our governments and their health officials, alphabet health agencies with their incompetent political malfessant leaders and officials, the legacy swamp media, the medical doctors, academic scientists, television talking heads etc. DID kill. Not the virus. No no no, we lost most not from COVID virus; we lost most due to:

- (1) denial of treatment for chronic illnesses such as heart disease, cancer, diabetes, metabolic disorder etc., as all beds and clinics were criminally and insanely designated ‘COVID’ beds and services ONLY;
- (2) the ravages of the lockdown lunacy, school closures, business closures etc. Many hung themselves.
- (3) the fraud ineffective and deadly COVID mRNA gene injection;
- (4) and mainly, due to how the medical system treated our elderly and our peoples via DNR [Do Not Resuscitate] orders; denial of antibiotics when most advanced COVID patients had serious bacterial pneumonia needing antibiotics... sedation using diamorphine, midazolam, isolation, malnourishment; dehydration of our elderly locked away in the COVID ‘black hole’ (COVID PROTOCOL) in the back of the glass-windowed rooms of the hospital; administering deadly Remdesivir (kidney and liver toxic), intubation and then put on the deadly ventilator that blew up lungs.

DEPOPULATION in HISTORY

“When [whites] think in terms of a long span of future generations, the valuation that the Negro should be eliminated is almost completely dominant. And as we shall presently see, all white Americans agree that, if the Negro is to be eliminated, he must be eliminated slowly so as not to hurt any living individual Negroes. Therefore, the dominant American valuation is that the Negro should be eliminated from the American scene, but slowly.”

—Swedish sociologist Gunnar Myrdal in his 1944 book *American Dilemma: The Negro Problem and Modern Democracy*

History of Medical Race Hate

The *Wall Street Journal* observed several years back, “It hasn’t been a good time for scientists who experiment on people—or the people they experiment on.” This is a masterpiece of understatement, especially if you consider the recent history of medical research with African Americans.

The Office for Protection from Research Risks (OPRR) has been busily investigating abuses at more than sixty research centers, including experimentation-related deaths at premier universities, from Columbia to California. Another important subset of human subject abuse has been scientific fraud, wherein scientists from the University of South Carolina to MIT have also been found to have lied through falsified data or fictitious research agendas, often in the service of research that abused black Americans.

Within recent years, the OPRR has also suspended research at such revered universities as Alabama, Pennsylvania, Duke, Yale, and even Johns Hopkins.

Many studies enrolled only or principally African Americans, although some included a smattering of Hispanics. Some research studies specifically excluded white subjects according to the terms of their official protocols, the federally required plans that detail how research studies are conducted. However, in other human medical experiments, the recruitment of blacks and the poor is a tacit feature of the study because they recruit subjects from heavily black inner-city areas that tend to surround American teaching hospitals. American university research centers have historically been located in inner-city areas, and accordingly, a disproportionate number of these abuses have involved experiments with African Americans.

These subjects were given experimental vaccines known to have unacceptably high lethality, were enrolled in experiments without their consent or knowledge, were subjected to surreptitious surgical and medical procedures while unconscious, injected with toxic substances, deliberately monitored rather than treated for deadly ailments, excluded from lifesaving treatments, or secretly farmed for sera or tissues that were used to perfect technologies such as infectious-disease tests.

Group Launches PETITION to get Hidden CDC Vaccine Injury Data

ICAN, the **Informed Consent Action Network**, is revealing that the very agency most people believe is protecting the health of the citizenry, is actually hiding safety data about vaccines that may show that they do more harm than good. The CDC—a taxpayer-funded agency—keeps a database of reported ADVERSE REACTIONS from vaccines but won’t release it to independent scientists or to the public. So, ICAN, which has brought several lawsuits against corrupt and recalcitrant government officials, has started a petition to force the release of the data. They write:

“It is high time that independent scientists and the public have access to this data to compare the health outcomes between unvaccinated children with vaccinated children. The few such studies conducted to date have found that unvaccinated children have higher rates of chicken pox and pertussis but far lower rates of many forms of chronic health issues. It is critical to further study this issue when the CDC even acknowledges over 50% of children now have a chronic health issue, up from around 12% in the 1980s, and most of the increase are for immune, neurological, or other immune mediated health issues.”

“It is time to let the data speak! It is time to release the vaccine safety data to independent scientists and the public...”

According to its own policy, the Washington, DC, Reagan Airport DOES NOT require face masks—the discredited COVID-19 policy that had no medical purpose, but helped generate the fear necessary to push people to the deadly vaccine. Yet on June 13, 2023, this employment advertisement was in the terminal—with every person in the ad wearing a mask. What are they psychologically preparing the people for, since the “pandemic,” according to Pres. Biden, is over?

Pharma Exec: “This is a military operation.”

Former pharmaceutical executive Sasha Latypova (in photo) became a whistleblower after she observed the government and vaccine manufacturers veering away from established clinical research and public health protocols. She spoke recently to the *Epoch Times*:

“I became aware of this strangeness with the whole Covid pandemic response very early on, because I worked in the pharmaceutical industry and I had retired before Covid started....But I became suspicious when the health authorities started an overt campaign against hydroxychloroquine, which I knew was a safe drug because I’m from the industry, and I had familiarity with it....I knew what they were saying about this drug was absolutely not true. More importantly, the regulators knew perfectly well that they were saying things that were not true. That immediately gave me pause. I started thinking, ‘They’re professionals, they know this issue, they know this data, yet they’re saying things that are not true.’ That led me

to start questioning the whole thing. If you catch an official or a professional lying about something straight to the public, what else are they lying about?”

“What we found is the whole representation of what is happening is a lie. Basically, the U.S. government is representing to the public that this is a health event and the response to a health event. But in fact, what they are doing is a military operation. These so-called vaccines, they’re not really vaccines, but these injections have been manufactured under defense contracts, utilizing the Defense Production Act, other transaction authority, and emergency use authorization under a public health emergency. When these things are used together, then good manufacturing practices do not apply to these products at all.”

“When a public health emergency happens, essentially the executive branch of the government absorbs the power from legislative and judicial. A public health emergency, by various legal amendments and acts over a long period of time, triggers this whole system where the HHS secretary becomes a de facto dictator.”

“The HHS [U.S. Department of Health and Human Services] secretary is the sole person who can deploy these products in the United States. The FDA need not be part of it. In the law, it says that HHS secretary, whoever that happens to be—it used to be Alex Azer under Trump, and now it’s **Xavier Becerra** (in photo). They can determine whether these countermeasures can be deployed in the United States based on available data, if available, it does not have to be available, and based on his own determination about the current risk-benefit profile and future risk-benefit profile. Again, he can take advice from whoever he wants to take advice, but the decision is up to him.”

“If the average person knew how bad the average doctor is, they’d probably never go to a hospital again. The reality is most doctors are terrible at using judgment and critical thinking. They like rules and protocols and guidelines and can cite them all on command, even when different approaches make more sense. In my entire career, I would estimate that maybe ten percent of doctors I’ve worked with are the critical thinking kind, and that’s being generous. It also had everything to do with the spiraling Covid crisis we had on our hands.”

Report finds UK COVID patients with learning disabilities given blanket “DO NOT RESUSCITATE” Orders

The Health Committee examining the United Kingdom’s COVID decisions found that officials issued blanket “Do Not Resuscitate” orders to COVID patients with learning disabilities. The 150-page report found “disproportionately high mortality rates” among people with disabilities and those with autism.

Anonymous healthcare whistleblowers said that they found that DNR decisions were being made for elderly residents without any discussion with the patient, their families or even care home staff who knew them. Steve Scown told the Health Committee: “We had medical staff placing those on medical records without due process. That basically means that if the person becomes ill you do not attempt to resuscitate.” It also means that life-saving treatments were specifically kept from them. “The fact that they were placed on files without any meaningful conversation with families or any other professional is, frankly, disgraceful,” said Scown.

Of course, this adds to the proof that the real aim of the COVID “pandemic” planners was population reduction and the elimination of the “unfit.” Certainly, the mother of the eugenics movement, **Margaret Sanger**, would have been pleased with the UK policy. She advocated compulsory sterilization and “find[ing] effectual means of controlling & limiting the propagation of the mentally unfit, including feeble-minded, psychotic & unstable, mentally retarded individuals.”

“Plandemic 3” Documentary Released

When documentarian **Mikki Willis** (in photo) released *Plandemic* in May 2020, it became an instant sensation—viewed over 1 billion times, despite being universally censored. “Plandemic Part 2” was next, with more than 200 million views. The film series posits that the “COVID-19 pandemic” was and is a planned false-flag event by a wicked cabal of world leaders. Willis says, “It’s really about ultimately creating a state of dependency, through which you can then control the human population. We’re going to go deeper and really show the trail on how that works, the history of that, and how it’s led us to this moment right now. Psychological diversion has literally brainwashed a great deal of our population into fighting for these very wicked forces, unknowingly, unwittingly.” “Plandemic Part 3” delves into that plan to show the history behind it and how it has led to our current condition of societal collapse.

“Before the vaccine was made, I warned us in the Name of Allah that this was a death plot....The way to get rid of two to three billion people [is] to offer you a vaccine.”

—The Honorable Minister Louis Farrakhan, Swan Song

American History of Medical Racism & Savagery

A senior scientist and whistleblower with the CDC, **Dr. William Thompson**, admitted that he and his co-authors intentionally omitted important information from their 2004 study—data that showed that Black males who received the MMR (mumps, measles, rubella) vaccine before age 36 months were **3.4 times more likely to develop autism** when compared to Black boys who receive MMR after 36 months of age. For more than 10 years, the CDC refused to warn the public.

The COVID-19 VACCINE: “We Have No RIGHT to Trust Them.”

DEPOPULATION in HISTORY

In 2014, the Center for Investigative Reporting (CIR) found that at least 148 female inmates in two California prisons were sterilized between 2006 to 2010—and there may be 100 more incidents dating back to the late 1990s.

Former inmates and prisoner advocates maintain that prison medical staff coerced the women, targeting those they deemed likely to return to prison in the future.

Tubal ligation surgeries were performed by Dr. James Heinrich (in photo), and according to the CIR report: “Heinrich arranged other types of sterilizations 378 times from 2006 to 2012. These included hysterectomies, removal of ovaries and a procedure called endometrial ablation, which destroys the uterus’ lining to stop excessive menstrual bleeding.” From 2006 to 2008, the prison where Dr. Heinrich worked “averaged 150 sterilization surgeries of all types annually—six times that of the Central California Women’s Facility, the largest women’s prison in the state.”

Heinrich previously said the money spent sterilizing inmates was minimal “compared to what you save in welfare paying for these unwanted children, as they procreated more.”

ALL attendees at recent health conference who caught COVID were double vaccinated

A total of “109 people, or 14 percent of the crowd,” attending the recent meeting of the German Society of Ophthalmology in Berlin tested positive for COVID. And of those 109 people, all 109 had gotten at least two doses of a COVID jab...”

The CDC looked at attendees at the Academic Surgical Congress held in Atlanta, and determined that of the 181 who tested positive for COVID all had received at least one dose of a COVID injection; and about half of these had previously had a COVID infection.

This is consistent with recent studies that found conclusively that the more “vaccines” one receives, the MORE vulnerable one is to the sickness.

First Month of COVID Lockdown Cost Heart Attack Patients Up to 2 Years of Life

A new study in the *European Heart Journal—Quality of Care & Clinical Outcomes* found that one month of the COVID-19 lockdown “cut up to two years off the life expectancy of heart attack patients.”

The international team of researchers determined that the lack of medical care provided to heart attack patients likely reduced the life expectancy of those patients by an average of 18 months in the U.K. and two years in Spain when compared with pre-lockdown patients.

Political commentator **Russell Brand** asked an obvious question: “If people suffering from genuine life-threatening illnesses were not getting the care they needed, what was the point of lockdown?”

One of the study’s authors, **Dr. Steve Hanke**, economics professor at Johns Hopkins University (in photo), studied the measures taken across the world to protect populations against COVID-19 and concluded that lockdowns were a “costly failure.”

“The science of lockdowns is clear; the data are in: the deaths saved were a drop in the bucket compared to the staggering collateral costs imposed,” Hanke and his co-authors said, adding:

“Stringency index studies find that the average lockdown in Europe and the United States in the spring of 2020 only reduced COVID-19 mortality by 3.2 percent. This translates into approximately 6,000 avoided deaths in Europe and 4,000 in the United States.”

Brand said, now that research suggests individuals were right to question the efficacy of the lockdowns, the message from mainstream media has been, “It’s time for an amnesty. It’s time to forget about [all that].”

Dangerous Medical Legislation Stopped in NY

A coalition of New York activists led by longtime vaccine safety advocate **Curtis Cost** (in photo) has stopped Senate Bill S1531 from passing the New York state legislature. According to Cost: *“This bill required hospitals and doctors to turn over the vaccine records of people, to the government. This would have been a direct attack on medical privacy! It violated confidentiality between doctors and patients. It would also enable government retaliation against adults who chose not to vaccinate, as well as provide data for an international vaccine passport which is in the works. This bill would eventually lead to all medical records being turned over to the government. It is feared that the government would ultimately give private companies access to this private medical information, which could then use that information against employees and potential employees. We have already seen the horrific retaliation against workers during COVID, and the situation would be much worse if the government and private companies had full access to the medical records of Americans.”*

Cost says that the New York group has successfully stopped all bad vaccine bills from passing in the NY State Legislature since 2020! This includes several such bills this year.

Autism and Black Boys

The July 7, 2015, *Final Call* carried this excerpt from the article by **Sis. Charlene Muhammad** titled “A movement pushes for safe vaccines, parental rights and protecting children”: “I’ve found the science that says that African Americans not only may be but are more susceptible to vaccine injury and they also have an increased susceptibility to neurological disorders such as autism,” said **Dr. Brian Hooker** (Focus Autism Foundation), whose son was vaccine-injured.

The most reliable study shows autism incidents are higher in Blacks as compared to Caucasians, Dr. Hooker noted. He cited a 2010 paper published in PLOS ONE, a peer review journal, which studied autism incidents in Black and White communities nationwide.

“It found that within the Black community, autism incidents were 25 percent higher than in Caucasians,” Dr. Hooker said. He wants populations vulnerable to vaccine injury to be identified and protected.

“You don’t call somebody that advocates for safe automobiles anti-car. Similarly, it’s ridiculous to call somebody who advocates for safer vaccines, more effective vaccines, and to protect children, to ever call them anti-vaccine,” Dr. Hooker said.

Email Shows that CDC Director Knew of “Vaccine” Failures But Denied them Publicly

Disgraced exiting CDC director **Dr. Rochelle Walensky** and several other top officials knew in early 2021 that vaccinated people were becoming infected with COVID-19, according to an email obtained by *The Epoch Times*.

CDC Director Dr. Rochelle Walensky (in photo) told colleagues in the Jan. 30, 2021, missive that she had spoken with Dr. Francis Collins that morning “and one of the issues we discussed was that of vaccine breakthroughs.” “Breakthrough” refers to vaccinated people becoming infected.

Months after the email, Walensky publicly claimed that data from the CDC “suggests that vaccinated people do not carry the virus” and “don’t get sick.”

According to *Epoch*, “The CDC has been unable to provide citations supporting the claim....There were infections in both the Pfizer and Moderna clinical trials among the vaccinated, though the efficacy of the shots against symptomatic infection from seven days after dose two was estimated to be north of 90 percent. There were also severe cases in the trials among the vaccinated, including some not counted by Pfizer.”

Dr. Jay Bhattacharya, professor of health policy at Stanford University, said that “the CDC director should never have endorsed the idea that the COVID vaccines could be used to stop COVID disease spread without definitive proof that they did—proof that she never had. And she should never have endorsed vaccine mandates...”

Drs. Fauci and Walensky were also among the officials who supported vaccine mandates that were imposed by the Biden administration in the fall of 2021. **Dr. Anthony Fauci** that year claimed on CBS that people who received a vaccine would “become a dead end to the virus,” adding, “when there are a lot of dead ends around, the virus is not going to go anywhere.”

Both Fauci and Walensky later became infected with COVID-19 despite being “vaccinated.”

“The education of White America is poison to the Black, the Brown and the Red and even the poor White. Why do you want to stay under that kind of system? Now they’re telling you they’re going to vaccinate and if you don’t accept vaccination, you can’t go to school. What a blessing.”

Lawsuit reveals SECRET LIST of journalists pushing propaganda on behalf of U.S. government

The **Children’s Health Defense (CHD)** reports that “journalists” were hired by the United States government “to push propaganda and lies on the public on behalf of the deep state and its various agendas.”

As part of a litigatory effort against the State Department to uncover the dark and ugly truth about the so-called Global Engagement Center (GEC), **ALF (America Legal First)** obtained documents that expose what the group describes as “international censorship czars” whose job it is to decide what you are able to see online.

They are called “journalists,” but they are nothing more than paid propagandists who “fact check” the news as it circulates online and stamp out anything they decide is “false” or “misleading.” Several key names were obtained from these documents, including employees of **PolitiFact**, **Associated Press**, and **GhanaFact**—news agencies that most believed were independent “fact checkers” but are part of the new “**Censorship Industrial Complex**.”

It has also been revealed that the **Centers for Disease Control and Prevention (CDC)** hired a marketing firm to write what looked like news articles but were actually ad placements created to persuade parents of young children and elderly people to get flu shots, according to documents obtained through a Freedom of Information Act request.

In September 2020 the federal agency hired **Weber Shandwick**, a New York-based marketing firm whose president is **Gail Heimann** (in photo), to create and place unattributed articles on news sites.

The campaign was part of a multi-year, \$32 million dollar contract between Weber Shandwick and the CDC to strengthen its immunization program. The article-ads were created “for media distribution, spokesperson training, celebrity outreach, social media blitzes, social listening and monitoring, podcasting and more.” The contract could be renewed for a total award of \$55.2 million, according to **USAspending.gov**, a federal grants database.

This tactic is called “native advertising,” which involves “training and/or paying trusted, non-governmental actors to promote vetted ideas in conversation, community spaces and social media in ways that don’t appear to the targeted individual to be linked to official government campaigns.”

Starting in 2021, the CDC “spent hundreds of millions of dollars using these same advertising strategies to push the COVID-19 vaccines among communities of color.”

Vaccine Corner

Interview with Dr. Sherri Tenpenny, Integrative Physician:

“My mission, actually, for the last 23 years, has been to inform people about the problems associated with vaccines: that they’re not safe, they don’t keep you from getting sick, they’re not necessary, and they absolutely cause harm—and I’m talking about all of them, the entire pediatric schedule and of course the COVID jabs.”

Interviewer: You just think they’re all suspect?

Dr. Tenpenny: I do. And I think that’s a pretty good way of saying it. Wouldn’t it be great if we could take out all of the metals, all the chemicals. You know, for years when I was a board-certified emergency medicine physician working in the ER [emergency room], I really thought that the only thing in a vaccine was a little dead, or attenuated, virus and a little bit of normal saline. It wasn’t until September of 2000 that I actually read a [vaccine] package insert, and when I actually read a package insert and started researching all the different vaccines I was mortified that if a child gets all of the vaccines in the entire schedule, they get almost 13,000 micrograms of aluminum and they get almost 600 micrograms of mercury, plus over 200 different chemicals. And I had no idea. That’s why they have never been proven to be safe and that’s why giving your child a vaccination is like injecting foreign matter into a little baby that’s the most precious little thing in your life.
